"SEC. 5. (a) To aid in determining the short-term and medium-term goals for employment, production, real income, and prices, analysis shall be presented in the Economic Report with respect to major aspects of the appropriate composition or structure of each goal, and as to the appropriate apportionment of total national production among its major components (private investment, consumer expenditures, and public outlays) as affected by relative income flows and other factors, in order to promote balanced growth and a balanced Federal budget, reduce cyclical disturbances, and achieve the other purposes of this Act and the Full Employment and Balanced Growth Act of 1978.

(b) In choosing means to achieve the goal for the reduction of unemployment and choosing means to achieve the goal of reasonable price stability, those means which are mutually reinforcing shall be used to the extent practicable.".

NATIONAL PRIORITY POLICIES AND PROGRAMS REQUIRED FOR FULL EMPLOYMENT AND BALANCED GROWTH

SEC. 106. The Employment Act of 1946 is amended by adding a new section 6 as follows:

"NATIONAL PRIORITY POLICIES AND PROGRAMS REQUIRED FOR FULL EMPLOYMENT AND BALANCED GROWTH

"SEC. 6. To contribute to the achievement of the goals under the Full Employment and Balanced Growth Act of 1978, the President's Budget for each fiscal year beginning after the date of enactment of the Full Employment and Balanced Growth Act of 1978 shall include priority policies and programs, which shall include, to the extent deemed appropriate by the President, consideration of the following—

"(A) development of energy sources and supplies, transportation, and environmental improvement;

"(B) proper attention to the problems and needs of smaller businesses including (i) the availability of investment capital, management and technical expertise, and technology and labor needs, (ii) analysis of economic and social trends which may affect smaller businesses, (iii) government policies and programs (including agency regulations and excessive paperwork requirements) that may create undue hardship for or reduce the competitiveness of smaller businesses, and (iv) other policies and programs to remove barriers to competition and to strengthen and promote the creation and growth of smaller businesses;

"(C) development of a comprehensive national agricultural policy that assures—

"(i) production levels adequate to meet the nutritional needs of all Americans and respond to rising food requirements throughout the world;

"(ii) farm and ranch income at full parity levels that will improve opportunities for farm families encourage production, provides for essential capital investment in farming, and provide for farm prices at full parity in the market place;

"(iii) renewed commitment to the protection and conservation of rural land and water through support for improved conservation practices and research, and attention to agricultural land use in the formulation of plans for energy, water and mineral resources, transportation, and commercial, industrial, and residential development; and

"(iv) support for programs and public services designed to respond to the unique economic and social conditions of rural communities;

"(D) proper attention to the relationship between Federal programs and policies and the problems and needs of urban areas, including inner cities and the employment problems of their residents, especially youths;

"(E) proper attention to the quality and quantity of health care, education and training programs, child care and other human services, and housing, essential to a full employment economy and to moving toward their availability for all individuas at costs within their means;

"(F) policies concerning Federal aid to State and local governments, especially for public investment and unemployment related costs;

"(G) national defense and other needed international programs;

"(H) proper attention to the relationship between Federal grants, contracts, and procurement and the closure of military bases and other Federal facilities and the distribution of jobs and income among different regions of the Nation, and among urban, suburban, and rural areas;

"(I) Proper attention to balancing the Federal budget;

"(J) proper attention to the dislocation of jobs caused by Federal laws, regulations, and policies;

"(K) policies and programs designed to increase exports and improve the international competitive position of agriculture, business, and industry, including measures to promote a free and fair international trading system, a sound and stable international monetary system and innovation in agriculture, business, and industry; and

"(L) such other priority policies and programs as the President deems appropriate.".

THE PRESIDENT'S BUDGET

SEC. 107. The Employment Act of 1946 is amended by inserting a new section 7 as follows:

"THE PRESIDENT'S BUDGET

"SEC. 7. (a) The President's Budget shall recommend levels of outlays and receipts which shall be consistent with the short-term economic goals of section 3(a)(2)(A).

"(b) The President's Budget shall provide five-year projections of outlays and receipts consistent with the medium-term goals of section 4(b).

"(c) The principal elements in the President's Budget shall be set forth briefly in each Economic Report, toward the end of making clear the relationship between the President's Budget and the goals and policies set forth in such Economic Report. Both the expenditure and revenue elements of the President's Budget shall be developed to promote the purposes, policies, and goals of the Full Employment and Balanced Growth Act of 1978. The size of the President's expenditure and revenue proposals, and the relationships between such proposals, shall be determined in a manner which gives consideration to the needs of the economy and the people in the priority areas set forth in section 6, and the relationship between the President's expenditure and revenue proposals shall be guided accordingly.".

MONETARY POLICY

SEC. 108. (a) Section 2A of the Federal Reserve Act amended by striking out the second and third sentences and inserting in lieu thereof the following: "In furtherance of the purposes of the Full Employment and Balanced Growth Act of 1978, the Board of Governors of the Federal

Reserve System shall transit to the Congress, not later than February 20 and July 20 of each year, independent written reports setting forth (1) a review and analysis of recent developments affecting economic trends in the Nation; (2) the objectives and plans of the Board of Governors and the Federal Open Market Committee with respect to the ranges of growth or diminution of the monetary and credit aggregate for the calendar year during which the report is transmitted, taking account of past and prospective developments in employment, unemployment, production, investment, real income, productivity, international trade and payments, and prices; and (3) the relationship of the aforesaid objectives and plans to the short-term goals set forth in the most recent Economic Report of the President pursuant to section 3(a)(2)(A) of the Employment Act of 1946 and to any short-term goals approved by the Congress. In addition, as a part of its report on July 20 of each year, the Board of Governors shall include a statement of its objectives and plans with respect to the ranges of growth or diminution of the monetary and credit aggregates for the calendar year following the year in which the report is submitted. The reports required under the two preceding sentences shall be transmitted to the Congress and shall be referred in the Senate to the Committee on Banking, Housing, and Urban Affairs, and in the House of Representatives to the Committee on Banking, Finance and Urban Affairs. The Board shall consult with each such Committee on the reports and, thereafter, each such Committee shall submit to its respective body a report containing its views and recommendations with respect to the Federal Reserve's intended policies. Nothing in this Act shall be interpreted to require that the objectives and plans with respect to the ranges of growth or diminution of the monetary and credit aggregates disclosed in the reports submitted under this section be achieved if the Board of Governors and the Federal Open Market Committee determine that they cannot or should not be achieved because of changing conditions: *Provided*, That in the subsequent consultations with, and reports to, the aforesaid Committees of the Congress pursuant to this section, the Board of Governors shall include an explanation of the reasons for any revisions to or deviations from such objectives and plans.".

(b) The amendment made by subsection (a) takes effect on January 1, 1979.

OVERCOMING INFLATION

SEC. 109. The Employment Act of 1946 is amended by inserting a new section 8 as follows:

"OVERCOMING INFLATION

"SEC. 9. (a) The Congress hereby determines that the objective of achieving reasonable price stability as soon as feasible, as set forth in section 3(a)(3) and section 4(a), shall be pursued by the methods and subject to the requirements of section 5(b).

"(b) The Congress finds that sole dependence upon fiscal or monetary policies or both to combat inflation can exacerbate both inflation and unemployment. The Congress finds that the coordinated use of fiscal and monetary policies in conjunction with specific targeted policies are necessary to combat inflation.

"(c) The President shall initiate specific policies to reduce the rate of inflation, including recommendations to the Congress where necessary, and include recommendations within the Economic Report and the President's budget to the extent practicable. Structural policies to reduce the rate of inflation may include—

"(1) an effective information system to monitor and analyze inflationary trends in individual economic sectors, so that the President and Congress can be alerted to developing inflation problems especially those caused by bottlenecks inhibiting the flow of goods and services;

"(2) programs and policies for alleviating shortages of goods, services, labor, and capital, with particular emphasis on food, energy, and critical industrial materials to aid in stabilizing prices;

"(3) the establishment of stockpiles of agricultural commodities and other critical materials to help stabilize prices, meet emergency needs, and promote adequate income to producers;

"(4) encouragement to labor and management to increase productivity within the national framework of full employment through voluntary arrangements in industries and economic sectors;

"(5) recommendations to increase competition in the private sector and to improve the economic climate for the creation and growth of smaller businesses, including recommendations to strengthen and enforce the antitrust laws, the patent laws, and the internal revenue laws and regulations;

"(6) removal or proper modification of such Government restrictions and regulations as add unnecessarily to inflationary costs;

"(7) increasing exports and improving the international competitive position of agriculture, business, and industry;

"(8) such other administrative actions and recommendations for legislation as the President deems desirable, to promote reasonable price stability.".

COUNCIL OF ECONOMIC ADVISERS

SEC. 110. (a) Section 10 of the Employment Act of 1946 (as redesignated by section 104 of this Act) is amended—

(1) in the second sentence of subsection (a); by inserting "full" immediately after "promote";

(2) in subsection (c)(4), by inserting "including small and larger business" immediately after "enterprise" and by inserting "full" immediately after "maintain";

(3) in subsection (e)(1), by inserting immediately before the semicolon a comma and the following: "and shall consult with the board or boards established under section 9"; and

(4) in subsection (e), by inserting after paragraph (2) the following.

"In its work under this Act and the Full Employment and Balanced Growth Act of 1978, the Council is authorized and directed to seek and obtain the cooperation of the various executive and independent agencies in the development of specialized studies essential to its responsibilities.".

"ADVISORY BOARD OR BOARDS

SEC. 111. (a) The Employment Act of 1946 is amended by inserting a new section 9 as follows:

ADVISORY BOARD OR BOARDS

"SEC. 10 (a) An advisory board or boards (including regional advisory boards) may be established as the President deems appropriate, to advise and consult periodically with one or more of the following: The President, the Council of Economic Advisers, and such other departments and agencies of the executive branch of the Federal Government as the President shall determine.

"(b) Such advisory board or boards shall include appropriate representation of labor, small and larger businesses and industries, agriculture, consumers, State and local officials, and the public at large, and shall advise and consult with respect to matters related to this Act, the Full Employment and Balanced Growth Act of 1978, and other appropriate matters related to national economic programs and policies. The President shall, in accordance with applicable processions of law, take the steps necessary to provide appropriate compensation to the members of such advisory board or boards.".

TITLE II—STRUCTURAL ECONOMIC POLICIES AND PROGRAMS, INCLUDING TREATMENT OF RESOURCE RESTRAINTS

STATEMENT OF PURPOSE

SEC. 201. The Congress recognizes that general economic policies alone have been unable to achieve the goals set forth in this Act related to full employment, production, and real income, balanced growth, adequate growth in productivity, proper attention to national priorities, achievement of an improved trade balance through increased exports and improvement in the international competitiveness of agriculture, business, and industry, and achievement of reasonable price stability as provided for in section 5(b) of the Employment Act of 1946. It is, therefore, the purpose of this title to require the President to initiate, as the President deems appropriate, with recommendations to the Congress where necessary, supplementary programs and policies to the extent that the President finds such action necessary to help achieve these goals, including the goals and timetable for the reduction of unemployment. Insofar as feasible without undue delay, any policies and programs so recommended shall be included in the Economic Report.

COUNTERCYCLICAL EMPLOYMENT POLICIES

SEC. 202. (a) Any countercyclical efforts undertaken to aid in achieving the purposes of section 201 shall consider for inclusion the following programmatic entities:

(1) accelerated public works, including the development of standby public works projects;

(2) public service employment;

(3) State and local grant programs;

(4) the levels and duration of unemployment insurance;

(5) skill training in both the private and public sectors, both as a general remedy and as a supplement to unemployment insurance;

(6) youth employment programs as specified in section 205;

(7) community development programs to provide employment in activities of value to the States, local communities (including rural areas), and the Nation;

(8) Federal procurement programs which are targeted on labor surplus areas; and

(9) augmentation of other employment and training programs which would help to reduce high levels of unemployment arising from cyclical causes.

(b) In any countercyclical efforts undertaken, the President shall consider a triggering mechanism which will implement the program during a period of rising unemployment and phase out the program when unemployment is appropriately reduced, and incorporate effective means to facilitate individuals assisted under programs developed pursuant to this section to return promptly to regular private and public employment as the economy recovers.

COORDINATION WITH STATE AND LOCAL GOVERNMENT AND PRIVATE SECTOR ECONOMIC ACTIVITY

SEC. 203. (a) As an integral part of any countercyclical employment policies undertaken in accord with section 202, the President shall, to the extent the President deems necessary, set forth programs and policies, including recommended legislation where needed, to coordinate economic action among the Federal Government, regions, States and localities, and the private sector to promote achievement of the purposes of this Act and the Employment Act of 1946 and an economic environment in which State and local governments and private sector economic activity and employment will prosper. In considering programs and policies related to the private sector, full consideration shall be given to promoting the growth and well-being of small businesses and employment training programs through private sector incentives.

(b) In any efforts under this section, the President shall endeavor to meet criteria that establish programs which are funded to take account of the fiscal needs and budget conditions of the respective States and localities and their own efforts, with special attention to the rates of unemployment in such States and localities.

REGIONAL AND STRUCTURAL EMPLOYMENT POLICIES

SEC. 204. (a) To the extent deemed appropriate by the President in fulfillment of the purposes of section 201, the President shall recommend legislation to the Congress if necessary, regional and structural employment policies and programs.

(b) In formulating the regional components of any such programs, the President shall encourage to the extent the President deems necessary, new private sector production and employment to locate within depressed localities and regions with substantial unemployment and to aid in stabilizing their economic base. To the extent feasible, such policies and programs shall foster the establishment and growth of smaller businesses in such localities and regions. Any regional employment proposal of the President shall also include an analysis of the extent to which Federal tax, expenditure (including procurement of goods and services), defense, transportation, energy, natural resources and employment policies have influenced the movement of people, jobs, and small and larger business and industries from chronic high unemployment regions and areas, and proposals designed to correct Federal policies that have an adverse economic impact upon such regions and areas.

YOUTH EMPLOYMENT POLICIES

SEC. 205. (a) The Congress finds and declares—

(1) That serious unemployment and economic disadvantage of a unique nature exist among youths even under generally favorable economic conditions;

(2) that this group constitutes a substantial portion of the Nation's unemployment, and that this significantly contributes to crime, alcoholism and drug abuse, and other social and economic problems; and

(3) that many youths have special employment needs and problems which, if not promptly addressed, will substantially contribute to more severe unemployment problems in the long run.

(b) To the extent deemed necessary in fulfillment of the purposes of this Act, the President shall improve and expand existing youth employment programs, recommending legislation where required. In formulating any such program, the President shall—

(1) include provisions designed to fully coordinate youth employment activities with other employment and training programs;

(2) develop a smoother transition from school to work;

(3) prepare disadvantaged and other youths with employability handicaps for regular self-sustaining employment;

(4) develop realistic methods for combining training with work; and

(5) develop provisions designed to attract structurally unemployed youth into productive full-time employment through incentives to private and independent sector businesses;

JOB TRAINING, COUNSELING AND RESERVOIRS OF EMPLOYMENT PROJECTS

SEC. 206. (a) Further to promote achievement of full employment under this Act and the Employment Act of 1946, the President, through the Secretary of Labor, shall develop policies and procedures and, as necessary, recommend programs for providing employment opportunities to individuals aged 16 and over in the civilian labor force who are able, willing, and seeking to work but who, despite serious efforts to obtain employment, remain unemployed.

(b) In meeting the responsibilities under subsection (a), the Secretary of Labor shall, as appropriate, fully utilize the authority provided under CETA and other relevant provisions of law to—

(1) assure the availability of counseling, training, and other support activities necessary to prepare persons willing and seeking work for employment (including use of section 110 of CETA when necessary);

(2) refer persons able, willing, and seeking to work to job opportunities in the private and public sectors through the existing public unemployment placement facilities and through the United States Employment Service of the Department of Labor, including job opportunities in any positions created under programs established pursuant to sections 202, 204, and 205 of this Act; and

(3) encourage flexi-time and part-time jobs for persons who are able, willing, and seeking employment but who are unable to work a standard workweek. (c)(1) To the extent that individuals aged sixteen and over and able, willing, and seeking to work are not and in the judgment of the President cannot be provided with private job opportunities or job opportunities under other programs and actions in existence, in accord with the goals and timetables set forth in the Employment Act of 1946, the President shall, as may be authorized by law, establish reservoirs of public employment and private nonprofit employment projects, to be approved by the Secretary of Labor, through expansion of CETA and other existing employment and training projects or through such new programs as are determined necessary by the President or through both such projects and such programs.

(2) New programs as may be authorized by law after the date of enactment of this Act referred to in paragraph (c)(1)—

(A) shall not be put into operation earlier than two years after the enactment of this Act, nor without a finding by the President, transmitted to the Congress, that other means of employment are not yielding enough jobs to be consistent with attainment of the goals and timetables for the reduction of unemployment set forth in the Employment Act of 1946;

(B) shall be designed so that no workers from private employment are drawn into the reservoir projects thereunder;

(C) shall be useful and productive jobs;

(D) shall be mainly in the lower ranges of skills and pay, and toward this end the number of reservoir jobs under such new programs shall, to the extent practicable, be maximized in relationship to the appropriations provided for such jobs;

(E) shall be targeted on areas of high unemployment and on individuals who are structurally unemployed;

(F) shall be phased in by the President as necessary, in conjunction with the employment goals under sections 3(a)(2) and 4(b) of the Employment Act of 1946.

(d) The Secretary, in carrying out the provisions of this section, shall establish regulations providing for—

(1) an initial determination of the job seeker's ability to be employed at certain types and duration of work, so that such individual may be appropriately referred to jobs, training, counseling, and other supportive services;

(2) compliance with the nondiscrimination provisions of this Act in accordance with section 401;

(3) appropriate eligibility criteria to determine the order of priority of access of any person to any new programs under subsection (c) as may be authorized by law including but not necessarily limited to (A) household income, duration of unemployment (not less than five weeks), and the number of people economically dependent upon such person; and (B) denial of access to any person refusing to accept or hold a job except for good cause, as determined by the Secretary of Labor, including refusal to accept or hold a job subject to reference under subsection (b) paragraph (2), in order to seek a reservoir project job under subsection (c); and

(4) such administrative appeal procedures as may be appropriate to review the initial determination of the abilities of persons willing, able, and seeking to work under paragraph (1) of this subsection and the employment need and eligibility under paragraph (3) of this subsection.

CAPITAL FORMATION—PRIVATE AND PUBLIC

SEC. 207. (a) The Congress finds that—

(1) promotion of full employment and balanced growth is in itself a principal avenue to high and sustained rates of capital formation;

(2) high rates of capital formation are necessary to ensure adequate rates of capacity expansion and productivity growth, compliance with governmental health, safety and environmental standards, and the replacement of obsolete production equipment.

(3) the ability of our economy to compete successfully in international markets, the development of new technology, improved working conditions, expanding job opportunities, and an increasing standard of living depend on the availability of adequate capital at reasonable cost to commerce and industry;

(4) an important goal of national policy shall be to remove obstacles to the free flow of resources into new investment, particularly those obstacles that hinder the creation and growth of smaller businesses because general national programs and policies to aid and stimulate private enterprise are not sufficient to deal with the special problems and needs of smaller businesses; and

(5) which private business firms are, and should continue to be, the major source of investment, the investment activities of the Federal, State, and local governments play an important role in affecting the level of output, employment, and productivity and in achieving other national purposes.

(b) The Economic Report shall include an Investment Policy Report which shall, as appropriate, (1) review and assess existing Federal government programs and policies which affect business investment decisions, including, but not limited to, the relevant aspects of the tax code, Federal expenditure policy, Federal regulatory policy, international trade policy, and Federal support for research, development, and diffusion of new technologies; (2) provide an assessment of the levels of investment capital available, required by, and applied to small, medium and large business entities; (3) provide an analysis of current and foreseeable trends in the level of investment capital available to such entities; and (4) provide a description of programs and proposals for carrying out the policy set forth in section 102(j). In addition, the Economic Report shall include an assessment of the effect of the overall economic policy environment and the rate of inflation on business investment. The President shall recommend in the President's Budget, as appropriate, new programs or modifications to improve existing programs concerned with private capital formation. The President shall also transmit to the Congress as part of the Persident's Budget such other recommendations as the President may deem necessary, or desirable to achieve the policy as set forth in section 102(i). The Investment Policy Report, when transmitted to the Congress, shall be referred to the Joint Economic Committee.

(c) The Economic Report referred to in subsection (b) shall review and assess Federal policies and programs which directly, or through grants-in-aid to State and local governments, or indirectly through other means, affect the adequacy, composition and effectiveness of public investments, as a means of achieving the goals of this Act and the Employment Act of 1946. The President shall recommend, as appropriate, new programs and policies or modifications to improve existing Federal programs affecting public investment.

TITLE III—POLICIES AND PROCEDURES FOR CONGRESSIONAL REVIEW

STATEMENT OF PURPOSE

SEC. 301. (a) The purposes of this title are to establish procedures for congressional review and action with respect to the Economic Report of the President (hereafter in this title referred to as the "Economic Report"), the report of the Board of Governors of the Federal Reserve System, and the other policies and provisions of this Act and the Employment Act of 1946.

(b) The Congress shall initiate or develop such legislation as it deems necessary to implement proposals and objectives pursuant to this Act and the Employment Act of 1946 after such modification in such proposals as it deems desirable. Nothing in this title shall be construed to prevent the Congress or any of its committees from considering or initiating at any time legislative action in furtherance of the goals and purposes of this act.

COMMITTEE REVIEW

SEC. 302. (a) In conjunction with its review of the Economic Report, and the holding of hearings on the Economic Report under the Employment Act of 1946, the Joint Economic Committee shall review and analyze the short-term and medium-term goals set forth in the Economic Report pursuant to sections 3(a)(2) and 4(b) of the Employment Act of 1946 (as amended by sections 103 and 104 of this Act).

(b) The Joint Economic Committee shall hold hearings on the Economic Report for the purpose of receiving testimony from Members of the Congress, and such appropriate representatives of Federal departments and agencies, the general public, and interested groups as the joint committee deems advisable. The joint committee shall also consider the comments and views on the Economic Report which are received from State and local officials.

(c) Within thirty days after receipt by the Congress of the Economic Report, each standing committee of the Senate and the House of Representatives, each other committee of the Senate and the House of Representatives which has legislative jurisdiction, and each joint committee of the Congress may submit to the Joint Economic Committee, for use by the Joint Economic Committee in conducting its review and analysis under subsection (a), a report containing the views and recommendations of the submitting committee with respect to aspects of the Economic Report which relate to its jurisdiction.

(d) On or before March 15 of each year, a majority of the members of the Joint Economic Committee shall submit a report to the Committee on the Budget of the Senate and the House of Representatives. Such report shall include findings, recommendations, and any appropriate analyses with respect and in direct comparison to each of the short-term and medium-term goals set forth in the Economic Report.

REVIEW OF ECONOMIC REPORT AS PART OF CONGRESSIONAL BUDGET PROCESS

SEC. 303. (a) Section 301(c) of the Congressional Budget Act of 1975 is amended—

(1) by inserting after the first sentence the following new sentences: "Each of the recommendations as to short-term and medium-term goals set forth in the report submitted by the members of the Joint Economic Committee under subsection (c) may be considered by the Committee on the Budget of each House as part of its consideration of such concurrent resolution, and its report may reflect its views thereon, and on how the estimates of revenues and levels of budget authority and outlays set forth in such concurrent resolution are designed to achieve any goals it is recommending."; and

(2) by inserting "also" after "shall" in the last sentence.

(b) Section 305(a) of such Act is amended—

(1) by inserting before the period at the end of the first sentence of pargaraph (2) a comma and "plus such additional hours of debate as are consumed pursuant to paragraph (3)";

(2) by redesignating paragraphs (3) through (6) as paragraphs (6) through (9) respectively; and

(3) by inserting after paragraph (2) the following new paragraphs:

"(3) Following the presentation of opening statements on the first concurrent resolution on the budget for a fiscal year by the chairman and ranking minority member of the Committee on the Budget of the House, there shall be a period of up to four hours for debate on economic goals and policies.

"(4) Only if a concurrent resolution on the budget reported by the Committee on the Budget of the House sets forth the economic goals (as described in sections 3(a)(2) and 4(b) of the Full Employment Act of 1946) which the estimates, amounts, and levels (as described in section 301(a)) set forth in such resolution are designed to achieve, shall it be in order to differ to such resolution an amendment relating to such goals, and such amendment shall be in order only if it also proposes to alter such estimates, amounts, and levels in germane fashion in order to be consistent with the goals proposed in such amendment.".

(c) Section 305(b) of such Act is amended—

(1) by redesignating paragraphs (3) and (4) as paragraphs (6) and (7), respectively; and

(2) by inserting after paragraph (2) the following new paragraphs:

"(3) Following the presentation of opening statements on the first concurrent resolution on the budget for a fiscal year by the chairman and ranking minority member of the Committee on the Budget of the Senate, there shall be a period of up to four hours for debate on economic goals and policies.

"(4) Only if a concurrent resolution on the budget reported by the Committee on the Budget of the Senate sets forth the economic goals (as described in sections 3(a)(2) and 4(b) of the Employment Act of 1946), which the estimates, amounts, and levels (as described in section 301(a)) set forth in such resolution are designed to achieve, shall it be in order to offer to such resolution an amendment relating to such goals, and such amendment shall be in order only if it also proposes to alter such estimates, amounts, and levels in germane fashion in order to be consistent with the goals proposed in such amendment.".

MODIFICATION OF TIMETABLE FOR ACHIEVING UNEMPLOYMENT GOALS

SEC. 304 (a) Section 301(a) of the Congressional Budget Act of 1974 is amended—

(1) by striking out "and" at the end of paragraph (5); and

(2) by renumbering paragraph (6) as (7) and inserting after paragraph (5) the following new paragraph:

"(6) if required by subsection (e), the calendar year in which, in the opinion of the Congress, the goals for reducing unemployment set forth in section 4(b) of the Employment Act of 1946 should be achieved; and".

(b) Section 301 of such Act is amended by adding at the end thereof the following new subsection:

"(e) ACHIEVEMENT OF GOALS FOR REDUCING UNEMPLOYMENT.—

"(1) If, pursuant to section 4(c) of the Employment Act of 1946, as amended, the President recommends in the Economic Report that the goals for reducing unemployment set for in section 4(b) of such Act be achieved in a year after the close of the five-year period prescribed by such subsection, the first concurrent resolution on the budget for the fiscal year beginning after the date on which such Economic Report is received by the Congress may set forth the year in which, in the opinion of the Congress, such goals can be achieved.

"(2) After the Congress has expressed its opinion pursuant to paragraph (1) as to the year in which the goals for reducing unemployment set forth in section 4(b) of the Employment Act of 1946, as amended, can be achieved, if, pursuant to section 4(e) of such Act, the President recommends in the Economic Report that such goals be achieved in a year which is different from the year in which the Congress has expressed its opinion such goals should be achieved, either in its action pursuant to paragraph (1) or its most recent action pursuant to this paragraph, the first concurrent resolution on the budget for the fiscal year beginning after the date on which such Economic Report is received by the Congress may set forth the year in which, in the opinion of the Congress, such goals can be achieved.

"(3) It shall be in order to amend the provision of such resolution setting forth such year only if the amendment thereto also proposes to alter the estimates, amounts, and levels (as described ih section 301(a)) set forth in such resolution in germane fashion in order to be consistent with the economic goals (as described in sections 3(a)(2) and 4(b) of the Employment Act of 1946) which such amendment proposes can be achieved by the year specified in such amendment.".

EXERCISE OF RULEMAKING POWERS

SEC. 105. (a) The provisions of this title and the amendments made by such provisions are enacted by the Congress—

(1) as an exercise of the rulemaking power of the House of Representatives and the Senate, respectively, and as such they shall be considered as part of the rules of each House, respectively, or of that House to which they specifically apply, and such rules shall supersede other rules only to the extent that they are inconsistent therewith; and

(2) with full recognition of the constitutional right of either House to change such rules (so far as relating to such House), at any time, in the same manner and to the same extent as in the case of any other rule of such House.

TITLE IV—GENERAL PROVISIONS

NONDISCRIMINATION

SEC. 401. (a) No person in the United States shall on the ground of sex, age, race, color, religion, national origin or handicap be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity funded pursuant to the implementation of this Act, including membership in any structure created by this Act.

(b) Whenever the Secretary of Labor determines that a recipient of funds made available pursuant to this Act has failed to comply with subsection (a), or an applicable regulation, the Secretary shall notify the recipient of the noncompliance and shall request such recipient to secure compliance. If within a reasonable period of time, not to

exceed sixty days, the recipient fails or refuses to secure compliance, the Secretary of Labor may—

(1) refer the matter to the Attorney General with a recommendation that an appropriate civil action be instituted;

(2) exercise the powers and functions provided by title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.); or

(3) take such other action as may be provided by law.

(c) When a matter is referred to the Attorney General pursuant to subsection (b), or whenever the Attorney General has reason to believe that a recipient is engaged in a pattern or practice in violation of the provisions of this section, the Attorney General may bring a civil action in the appropriate United States district court for any and all appropriate relief.

(d) To assist and evaluate the enforcement of this section, and the broader equal employment opportunity policies of this Act, the Secretary of Labor shall include, in the annual Employment and Training Report of the President provided under section 705(a) of CETA, a detailed analysis of the extent to which the enforcement of this section achieves positive results in both the quantity and quality of jobs, and for employment opportunities generally.

LABOR STANDARDS

SEC. 402. (a) Any new program enacted and funded pursuant to the implementation of this Act shall, subject to any limitations on maximum annual compensation as may be provided in the law authorizing such programs, provide that persons employed are paid equal wages for equal work, and that such policies and programs create a net increase in employment through work that would not otherwise be done or are essential to fulfill national priority purposes.

(b) Any person employed in any reservoir project enacted and funded pursuant to the implementation of section 206(c)(1), or in any other job created pursuant to implementation of this Act shall, subject to any limitations on maximum annual compensation as may be provided in the law authorizing such programs, be paid not less than the pay received by others performing the same type of work for the same employer, and in no case less than the minimum wage under the Fair Labor Standards Act of 1938. No person employed in any reservoir project enacted and funded pursuant to implementation of section 206(c)(1) shall perform work of the type to which the Davis-Bacon Act (40 U.S.C. 276a—276a-5) applies, except as otherwise may be specifically authorized by law.

(c) Any recommendation by the President for legislation to implement any program enacted pursuant to the provisions of this Act, requiring the use of funds under this Act, and submitted pursuant to the requirements of this Act, shall contain appropriate wage provisions based upon existing wage standard legislation.

UNANIMOUS-CONSENT REQUEST

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the Senate proceed—I do this on behalf of Mr. LONG—to the consideration of Calendar Order No. 1199, H.R. 7108, on page 21.

SEVERAL SENATORS. Reserving the right to object——

The PRESIDING OFFICER. Reservation is heard to the unanimous-consent request.

The Senator from Oregon.

Mr. MARK O. HATFIELD. Mr. President, I wonder if we could have a listing of these numbers by the title.

Mr. ROBERT C. BYRD. Yes. This is an act to amend the tariff schedules of the United States in order to suspend the duty on Yankee Dryer Cylinders until the close of December 31, 1981.

Several Senators addressed the Chair.

Mr. HEINZ. I object.

Mr. WEICKER. I object.

The PRESIDING OFFICER. Objection is heard to the unanimous-consent request.

Mr. ROBERT C. BYRD. I yield to the Senator from New Jersey.

The PRESIDING OFFICER. The Senator from New Jersey.

Mr. WILLIAMS addressed the Chair.

The PRESIDING OFFICER. Will the Members clear the aisles? The Chair will ask the Members and the Senator from New Jersey to suspend until we get order in the Chamber.

I think if we could get a semblance of order, we could proceed expeditiously with our business at this late hour.

Will Members please take their seats? Will the conversations be moved to the rear of the Chamber or the cloakroom?

The Chair would point out that the conversations taking place immediately in front of the Senate should cease.

The Senator from New Jersey.

PREGNANCY DISABILITY—CONFERENCE REPORT

Mr. WILLIAMS. Mr. President, I submit a report of the committee of conference on S. 995 and ask for its immediate consideration.

The PRESIDING OFFICER. The report will be stated.

The legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 995) to amend title VII of the Civil Rights Act of 1964 to prohibit sex discrimination on the basis of pregnancy, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by all of the conferees.

Mr. STEVENS. Mr. President, will the Senator yield for an inquiry?

Mr. WILLIAMS. I yield.

Mr. STEVENS. Is the minority manager of the bill present?

Mr. WILLIAMS. Senator Javits is on the floor, yes.

Mr. JAVITS. Mr. President, I am the ranking minority Member, and I was told that there was a hold, one or more, on this side of the aisle—at least three. We thought we had dispelled one of them, but only the attachés can tell us the situation with respect to the others.

Mr. WILLIAMS. May I respond?

Mr. STENNIS. Mr. President, I have to make a point of order. We cannot hear what is going on. Until order can be restored, I ask the Chair to suspend.

The PRESIDING OFFICER. The Senator from Mississippi is absolutely correct, and the Chair appreciates his making the point.

We do not have order in the Chamber. Will Senators please clear the aisles?

The Senator from New Jersey.

Mr. WILLIAMS. I yielded to the Senator from Alaska for a question.

Mr. STEVENS. There was an understanding that there was no time agreement and that the matter had been objected to, on this side, with respect to being taken up at this time. Unless I am mistaken, there is no unfinished business, and this becomes the pending business, without a time agreement. We should establish it right now, with so many people feeling strongly about this.

Mr. WILLIAMS. Will the Senator yield?

Mr. STEVENS. I yield.

Mr. WILLIAMS. There were three reservations on this. I have spoken to two Members who had reservations, and they have told me that they have no objection to bringing it up. The third is a host of an activity close by, and I understood that he was being talked to about this and that his reservation was as the other two were—it was not a reservation that would delay consideration of this conference report.

Mr. STEVENS. I thank the Senator for his courtesy. I do think this is going to lead us to longer hours. I had hoped we might get a time agreement.

I thank the Senator for his courtesy.

The PRESIDING OFFICER. Is there objection to the unanimous-consent request?

Mr. STEVENS. There is no unanimous-consent request; is there?

Mr. ROBERT C. BYRD. The Senator asked to lay the matter before the Senate.

Mr. STEVENS. I thought it was a privileged matter.

Mr. ROBERT C. BYRD. But there can be an objection.

Mr. STEVENS. It is my understanding that there is no pending business.

Mr. ROBERT C. BYRD. If there is an objection, it is not debatable.

Mr. JAVITS. Mr. President, may I make a suggestion? It concerns a Member who is across the hall. Could we wait 10 minutes, and I will talk to him?

Mr. HOLLINGS addressed the Chair.

The PRESIDING OFFICER. The Chair recognizes the Senator from South Carolina.

INTERNATIONAL MARITIME SATELLITE TELECOMMUNICATIONS ACT

Mr. HOLLINGS. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on H.R. 11209.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the House recede from its disagreement to the amendment of the Senate to the bill (H.R. 11209) entitled "An Act to provide for the establishment, ownership, operation, and governmental oversight and regulation of international maritime satellite telecommunications services", and concur therein with the following amendment:

In lieu of the matter inserted by the said amendment, insert:

That the Communications Satellite Act of 1962 is amended by adding at the end thereof the following new title:

"TITLE V—INTERNATIONAL MARITIME SATELLITE TELECOMMUNICATIONS

"SHORT TITLE

"SEC. 501. This title may be cited as the 'International Maritime Satellite Telecommunications Act'.

"DECLARATION OF POLICY AND PURPOSE

"SEC. 502. (a) The Congress hereby declares that it is the policy of the United States to provide for the participation of the United States in the International Maritime Satellite Organization (hereinafter in this title referred to as 'INMARSAT') in order to develop and operate a global maritime satellite telecommunications system. Such system shall have facilities and services which will serve maritime commercial and safety needs of the United States and foreign countries.

"(b) It is the purpose of this title to provide that the participation of the United States in INMARSAT shall be through the Communications Satellite Corporation, which constitutes a private entity operating for profit, and which is not an agency or establishment of the Federal Government.

"DESIGNATED OPERATING ENTITY

"SEC. 503. (a)(1) The Communications Satellite Corporation is hereby designated as the sole operating entity of the United States for participation in INMARSAT, for the purpose of providing international maritime satellite telecommunications services.

"(2) The corporation also shall have authority to participate in any other maritime satellite telecommunications system on an interim basis to serve the maritime commercial and safety needs of the United States through an interim operating arrangement in accordance with subsection (b).

"(3) The corporation may participate in and is hereby authorized to sign the operating agreement or other pertinent instruments of INMARSAT as the sole designated operating entity of the United States.

"(b)(1) The corporation may participate in any maritime satellite telecommunications system under subsection (a)(2) only if—

"(A) the corporation signs the operating agreement of INMARSAT before beginning such participation;

"(B) such participation is in the nature of an interim operating arrangement remaining in effect only until INMARSAT begins its operations; and

"(C)(i) in the case of participation which may be undertaken only pursuant to a treaty or executive agreement, such treaty or executive agreement is in effect; or

"(ii) in any case in which participation does not require any treaty or executive agreement, the President does not disapprove such participation during the period of 60 calendar days after the corporation notifies the President of such proposed participation.

"(2) If the corporation participates in an interim operating arrangement with a maritime satellite telecommunications system under this subsection, the provisions of this title relating to participation of the corporation in INMARSAT also shall apply to such interim participation.

"(3) Any disapproval by the President under paragraph (1)(C)(ii) shall be published in the Federal Register as soon as practicable after the date of such disapproval.

"(c) The Corporation—

"(1) may own and operate satellite earth terminal stations in the United States;

"(2) shall interconnect such stations, and the maritime satellite telecommunications provided by such stations, with the facilities and services of United States domestic common carriers and international common carriers, other than any common carrier or other entity in which the corporation has any ownership interest, as authorized by the Commission;

"(3) shall interconnect such stations and the maritime satellite telecommunications provided by such stations, with the facilities and services of private communications systems, unless the Commission finds that such interconnection will not serve the public interest; and

"(4) may establish, own, and operate the United States share of the jointly owned international space segment and associated ancillary facilities.

"(d) The corporation shall be responsible for fulfilling any financial obligation placed upon the corporation as a signatory to the operating agreement or other pertinent instruments, and any other financial obligation which may be placed upon the corporation as the result of a convention or other instrument establishing INMARSAT. The corporation shall be the sole United States representative in the managing body of INMARSAT.

"(e)(1) Any person, including the Federal Government or any agency thereof, may be authorized, in accordance with paragraph (2) or paragraph (3), to be the sole owner or operator, or both, of any satellite earth terminal station if such station is used for the exclusive purposes of training personnel in the use of equipment associated with the operation and maintenance of such station, or in carrying out experimentation relating to maritime satellite telecommunications services.

"(2) If the person referred to in paragraph (1) is the Federal Government or any agency thereof, such satellite earth terminal station shall have been authorized to operate by the executive department charged with such responsibility.

"(3) In any other case, such satellite earth terminal station shall have been authorized by the Commission.

"(f) The Commission may authorize ownership of satellite earth terminal stations by persons other than the corporation at any time the Commission determines that such additional ownership will enhance the provision of maritime satellite services in the public interest.

"(g) The Commission shall determine the operational arrangements under which the corporation shall interconnect its satellite earth terminal station facilities and services with United States domestic common carriers and international common carriers, other than any common carrier, system, or other entity in which the corporation has any ownership interest, and private communications systems when authorized pursuant to subsection (c)(3) for the purpose of extending maritime satellite telecommunications services within the United States and in other areas. The initial determination of operational arrangements shall be made by the Commission no later than 6 months after the effective date of this title, and the Commission shall thereupon transmit to the Congress a report relating to such determination.

"(h) Notwithstanding any provision of State law, the articles of incorporation of the corporation shall provide for the continued ability of the board of directors of the corporation to transact business under such circumstances of national emergency as the President or his delegate may determine would not permit a prompt meeting of the number of directors otherwise required to transact business.

"IMPLEMENTATION

"SEC. 504. (a) The Secretary of Commerce shall—

"(1) coordinate the activities of Federal agencies with responsibilities in the field of telecommunications (other than the Commission), so as to ensure that there is full and effective compliance with the provisions of this title;

"(2) take all necessary steps to ensure the availability and appropriate utilization of the maritime satellite telecommunications services provided by INMARSAT for general governmental purposes, except in any case in which a separate telecommunications system is required to meet unique governmental needs or is otherwise required in the national interest;

"(3) exercise his authority in a manner which seeks to obtain coordinated and efficient use of the electromagnetic spectrum and orbital space, and to ensure the technical compatibility of the space segment with existing communications facilities in the United States and in foreign countries; and

"(4) take all necessary steps to determine the interests and needs of the ultimate users of the maritime satellite telecommunications system and to communicate the views of the Federal Government on utilization and user needs to INMARSAT.

"(b) The President shall exercise such supervision over, and issue such instructions to, the corporation in connection with its relationships and activities with foreign governments, international entities, and INMARSAT as may be necessary to ensure that such relationships and activities are consistent with the national interest and foreign policy of the United States.

"(c) The Commission shall—

"(1) institute such proceedings as may be necessary to carry out the provisions of section 503 of this title;

"(2) make recommendations to the President for the purpose of assisting him in his issuance of instructions to the corporation;

"(3) grant such authorizations as may be necessary under title II and title III of the Communications Act of 1934 to enable the corporation—

"(A) to provide to the public, in accordance with section 503(c)(2) of this title, space segment channels of communication obtained from INMARSAT; and

"(B) to construct and operate such satellite earth terminal stations in the United States as may be necessary to provide sufficient access to the space segment;

"(4) grant such other authorizations as may be necessary under title II and title III of the Communications Act of 1934 to carry out the provisions of this title;

"(5) establish procedures to provide for the continuing review of the telecommunications activities of the corporation as the United States signatory to the operating agreement or other pertinent instruments; and

"(6) prescribe such rules as may be necessary to carry out the provisions of this title.

"(d) The Commission is authorized to issue instructions to the corporation with respect to regulatory matters within the jurisdiction of the Commission. In the event an instruction of the Commission conflicts with an instruction of the President pursuant to subsection (b), the instructions issued by the President shall prevail.

"STUDY OF STRUCTURE AND ACTIVITIES OF COMMUNICATIONS SATELLITE CORPORATION

"SEC. 505. (a) The Commission shall conduct a study of the corporate structure and operating activities of the corporation, with a view toward determining whether any changes are required to ensure that the corporation is able to effectively fulfill its obligations and carry out its functions under this Act and the Communications Act of 1934.

"(b) The Commission shall transmit a report to the Congress not later than 18 months after the effective date of this title relating to the study of the corporation conducted under subsection (a). Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the Commission related to such findings and conclusions, and any recommendations of the Commission for such legislative or other action as the Commission considers necessary or appropriate.

"STUDY OF PUBLIC MARITIME COAST STATION SERVICES

"SEC. 506. (a) The Commission shall conduct a study of public maritime coast station services, with particular emphasis on high seas services, with a view toward determining whether the rules and regulations of the Commission and the assignment of licenses and radio frequencies in effect on the effective date of this title should be subject to any alteration in order to establish a systematic approach for the provision of modern and effective maritime telecommunications systems.

"(b) The Commission shall transmit a report to the Congress not later than 12 months after the effective date of this title relating to the study of public maritime coast station services conducted under subsection (a). Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the Commission related to such findings and conclusions, and any recommendations of the Commission for such legislative or other action as the Commission considers necessary or appropriate.

"STUDY OF RADIO NAVIGATION SYSTEMS

"SEC. 507. (a) The President, in conjunction with Government agencies which will or may be affected by the development of a Government-wide radio navigation plan, shall conduct a study of all Government radio navigation systems to determine the most effective manner of reducing the proliferation and overlap of such systems. The objective of such study shall be the development of such a plan.

"(b) The President shall transmit a report to the Congress no later than 12 months after the effective date of this title relating to the study conducted under subsection (a) of this section. Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the President related to such findings and conclusions, and any recommendations of the President for such legislation or other action as the President considers necessary or appropriate for implementation of a Government-wide radio navigation plan.

"DEFINITIONS

"SEC. 508. For purposes of this title—

"(1) the term 'person' includes an individual, partnership, association, joint stock company, trust, or corporation;

"(2) the term 'satellite earth terminal station' means a complex of communications equipment located on land, operationally interconnected with one or more terrestrial communications systems, and capable of transmitting telecommunications to, or receiving telecommunications from, the space segment;

"(3) the term 'space segment' means any satellite (or capacity on a satellite) maintained under the authority of INMARSAT, for the purpose of providing international maritime telecommunications services, and the tracking, telemetry, command, control, monitoring, and related facilities and equipment required to support the operation of such satellite; and

"(4) the term 'State' means the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.".

Mr. STEVENS. Mr. President, there is no objection. The matter has been cleared, and I hope the Senate will proceed expeditiously.

Mr. HOLLINGS. Mr. President, H.R. 11209 provides for the establishment, ownership, operation, and regulation of international maritime satellite telecommunications services. It designates COMSAT as the U.S. participant in the international maritime satellite organization (INMARSAT) which is likely to be created to develop and operate an international maritime satellite system.

H.R. 11209 as passed by the House, and as originally amended by the Senate, were different in several respects but both bodies have now reached a compromise agreement. The compromise agreement accomplishes the following objectives: First, declares the intent of Congress to be the U.S. participant through a private entity in INMARSAT to serve the maritime commercial and safety needs of the United States and foreign countries; second, designates the Communications Satellite Corporation (COMSAT) as the U.S. entity to provide maritime satellite communications as a participating carrier; third, authorizes COMSAT to be the sole owner and operator of any satellite Earth terminal stations in the United States unless the FCC decides that ownership by others as well proves to be in the public interest; fourth, requires COMSAT to serve as a participating common carrier subject to the Communications Act of 1934 and connect its facilities with other domestic, and international carriers; fifth, requires COMSAT to connect its facilities with those of private communications system unless the FCC finds that such interconnection will not serve the public interest; sixth, authorizes the President to issue instructions to COMSAT, with respect to its dealings with foreign entities and INMARSAT, or matters relating to foreign policy and the national interest; seventh, authorizes the Secretary of Commerce to undertake several responsibilities including coordination of the activities of Federal agencies with responsibilities in the field of telecommunications; and eighth, requires the Commission to initiate proceedings necessitated by the bill and to conduct certain studies. The navigation study is not intended to preclude consideration of any possible methods of providing navigation assistance, but rather to insure the most effective, coordinated and efficient system.

This bill represents a bipartisan effort between the minority and majority Members, and between the House and the Senate, to reach an accommodation without need for a conference. It is a good effort to balance competition and monopoly in the public interest. The bill is needed soon so that the United States can sign the operating agreement and assist in the formation of the INMARSAT organization.

Mr. President, I yield to our distinguished friend on the minority side, who really was the moving party in our Commerce Committee on this international maritime satellite.

Mr. STEVENS. Mr. President, I join with gratitude in the kind comments of the Senator from South Carolina. I join him in supporting the version of the bill that is before the Senate now, and I urge its adoption.

Mr. HOLLINGS. Mr. President, I move that the Senate concur in the House amendment.

The PRESIDING OFFICER. The question is on agreeing to the motion.

The motion was agreed to.

PREGNANCY DISABILITY—CONFERENCE REPORT

The Senate continued with the consideration of the Conference Report on S. 995.

Several Senators addressed the Chair.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. STEVENS. Mr. President, will the Senator yield to me?

Mr. ROBERT C. BYRD. I yield.

Mr. STEVENS. I thank the Senator from New Jersey for his courtesy. It is my understanding that the matter has been resolved. I appreciate his delaying the matter so that it could be resolved.

Mr. WILLIAMS. Thank you. We will now proceed with the conference report on S. 995.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report will be printed in the proceedings of the House of Representatives.)

Mr. WILLIAMS. Mr. President, it is with considerable pride and pleasure that I bring before the Senate the conference report on the pregnancy disability bill (S. 995). As my colleagues know, this legislation will amend title VII of the Civil Rights Act of 1964 to overcome the decision of the Supreme Court in the Gilbert against General Electric case.

In that decision, the Court held that the Civil Rights Act did not prohibit employers from denying equal health insurance and disability benefits to women who became medically disabled as a result of pregnancy or related conditions.

That decision was contrary to what I believe was the intended effect of title VII of the Civil Rights Act—to protect all individuals from sex discrimination in employment—including women with medical disabilities resulting from pregnancy or related medical conditions.

Because of the Supreme Court's decision in the Gilbert case, this legislation is necessary to provide fundamental protection against sex discrimination for our Nation's 42 million working women. This protection will go a long way toward insuring that American women are permitted to assume their rightful place in our Nation's economy.

In addition to providing protection to working women with regard to fringe benefit programs, such as health and disability insurance programs, this legislation will prohibit other employment policies which adversely affect pregnant workers.

These policies include: Refusal to hire or promote pregnant women, termination of pregnant women; mandatory leave for pregnant women arbitrarily established at a certain time during their pregnancy and not based on their inability to work: Reinstatement rights, including credit for previous service and accrued retirement benefits; and accumulated seniority. Some of these rights have already

been accorded women in cases decided under the present language of the Civil Rights Act. Regarding seniority, for example, the Supreme Court recently held in the Satty case that denying seniority to absent pregnant employees during leaves as well as denying competitive seniority for job bidding when they return, does impose a substantial burden on women and is, therefore, prohibited by title VII. This legislation, then, will insure that favorable decisions such as the decision with regard to seniority in the Satty case, will be preserved, as well as insuring that other forms of sex discrimination against women affected by pregnancy will not be permitted.

On the other hand, I would like to emphasize that employers will not be required to discontinue programs which recognize, on a nondiscriminatory basis, necessary adjustments which families must make in their living and working schedules on the arrival of new children in the family. Several employers have made inquiries to the committee regarding the validity of voluntary maternity leaves, which permit women to take leaves of absence from work for the purposes of preparing for and caring for their infants. These practices are certainly beneficial to American families, and we would not like to see them unnecessary curtailed.

The legislation would require only that the opportunity to take a parenthood leave to meet the requirements of childcare during early infancy be provided on a nondiscriminatory basis. Thus, it would be equally as valid to permit a man to take a voluntary leave for the purposes of childcare as it would be to permit a woman who had recently given birth to take a voluntary leave for that purpose.

The most difficult issue which arose in the consideration of this legislation concerned the issue of medical insurance coverage for abortion procedures. The House-passed bill included a provision which would have excluded health insurance benefits, sick leave benefits, and disability leave benefits for abortions altogether, except where the life of the mother would be endangered if the fetus were carried to term, or in case of complications. The legislation which passed this body included no such provision.

After lengthy debate and discussion of this difficult issue, the conferees have adopted a compromise which requires the provision of sick leave and disability benefits in connection with an abortion on the same basis as for any other illness or disabling condition.

On the other hand, employers are not in any case required to provide health insurance benefits for the performance of the abortion procedure itself, except where the life of the mother would be endangered if the fetus were carried to term, or except where medical complications have arisen from an abortion.

I have been very sensitive to the deep concern voiced by opponents of abortion, that some employers might be required by this legislation to pay for an abortion procedure under circumstances where it would be contrary to their religious beliefs. Shortly after I introduced this legislation last year, I received correspondence from the National Conference of Catholic Bishops expressing their view that an amendment was necessary to protect church agencies from being forced by the amendment to support or provide abortion services in violation of their religious tenets and conscience convictions.

We have also heard from other groups, and numerous individuals, with deeply held beliefs which are inconsistent with the provision of benefits for abortion procedures.

It was in response to these communications that the conference committee adopted language which will not require employers to pay for health insurance benefits for abortion in violation of their religious beliefs. And it is with a deep understanding and concern for these fundamentally held beliefs on this issue of abortion that I urge my Senate colleagues to support and adopt the conference report on this legislation.

I have received many, many communications from womens' groups and other civil rights groups who support this legislation in its present form, regardless of their views on the abortion issue itself.

The view is practically unanimous that this legislation is of tremendous importance to our effort to insure equal employment opportunity for women in this country. Thus, although there is not complete agreement on the abortion issue, there is nearly unanimous agreement that this legislation should be enacted as it has been reported by the conference committee.

In final effect, Mr. President, this legislation will restore to our working women a very basic and fundamental protection against sex discrimination. This protection is important not only to our 42 million working women but also to their families and to American industry itself. I am confident that this legislation will advance us substantially toward our goal of full participation in our economic system by American women, and that we shall all benefit in the long run from the result.

Mr. JAVITS. Mr. President, I am pleased that the House-Senate conferees today completed action on S. 995, a bill I cosponsored in March 1977 to prohibit sex discrimination in employment on the basis of pregnancy, and I urge my colleagues to adopt the report.

This bill became necessary in light of the Supreme Court's decision in *Gilbert* v. *General Electric Co.*, 426 U.S. 125 (1976), which held that the exclusion of pregnancy and related conditions from otherwise comprehensive disability insurance plans did not constitute sex discrimination in violation of title VII of the Civil Rights Act of 1964. This interpretatien of title VII was not in keeping with the original congressional intent, and enactment of legislation to clarify the intent of Congress to prohibit pregnancy discrimination became imperative.

S. 995 thus makes it clear that title VII prohibits all sex discrimination in the workplace, including discrimination based on pregnancy. Ths bill requires those employers who provide disability coverage to treat pregnancy disability the same as any other disability with regard to benefits and leave policies, and to treat pregnant women who are able to work the same as other workers physically capable of working.

S. 995 was thoroughly considered by both the House and the Senate. The Senate Human Resources Committee held extensive hearings. We heard testimony from the administration, labor groups, civil rights organization, women's groups, and pro-life organizations who strongly endorsed the bill. In addition, it is noteworthy that approximately 25 States have already, either through legislation or by administrative action, prohibited discrimination in employment against women based on pregnancy. S. 995 would serve to make uniform this protection for women workers who become pregnant.

The bill represents only basic fairness for women employees. Without it, women workers would face serious obstacles to continuing their pregnancy and maintaining their jobs at the same time. Many women disabled by pregnancy would be unable to pay for medical care and hospitalization. Other women would be fired or stripped of seniority rights when they were in fact able to work. Women workers must not be made to bear such an unfair burden, especially since more than 60 percent of working women need to work to support their families.

The only real difference between the House and Senate bill, and which sharply divided the conferees, was over the abortion issue. The final bill, as adopted by the House-Senate conferees restricts the House-passed amendment which permitted employment discrimination as to health insurance, sick leave, and temporary disability on the basis of disabilities arising from an abortion. Any such restriction, in my judgment, is an unfortunate and unwarranted limitation on a critically important legislative measure to guarantee sexual equality for working women. This discriminatory element of the bill intrudes upon the constitutional right of any woman, as held by the Supreme Court in *Roe* v. *Wade*, 410 U.S. 113 (1973), to terminate a pregnancy.

However, since it is clear that the House and Senate differences on this issue could not be resolved fully in favor of the Senate version, which contained no abortion provision, I am pleased that we at least limited and clarified the House abortion amendment. The proviso adopted by the conferees specifically confines the abortion exemption solely to health insurance benefits, and only to the employer who funds those benefits. Further limitations are that health insurance benefits for an abortion must still be provided where the life of the mother would be endangered if the fetus were carried to term, or where there are any medical complications related to an abortion procedure. And, of course, all employers are free to provide full abortion benefits through health insurance as a matter of general policy, and such

benefits derived through collective bargaining agreements are not affected.

Finally, since the abortion proviso specifically addresses only health insurance, the proviso in no way affects an employee's right to sick pay or disability benefits or, indeed, the freedom from discrimination based on abortion in hiring, firing, seniority, or any condition of employment other than medical insurance itself. The agreement of the conferees nevertheless preserves the argument of proponents for an abortion exemption that employers with religious objections to abortions should not be required to finance the abortion procedure itself, and at the same time it leaves sick pay and disability benefits to be provided on the same basis as any other condition requiring an absence from work.

It is fitting that the conferees were finally able to resolve the deadlock on this bill shortly after the Congress reaffirmed its commitment to equality for women by voting to extend the time deadline for ratification of the equal rights amendment. This vote confirmed our country's dedication to equal opportunity for women. ERA will affect numerous State laws which discriminate against women and set a new climate in our Nation which will result in an expanded role for women in every facet of our society and in any activity women may wish to pursue.

Mr. President, in keeping with the spirit evinced by the ERA extension, I am confident that we will again reaffirm our commitment to equality. We now have the opportunity to amend title VII to make clear that prohibited sex discrimination includes classifications based on pregnancy. I strongly urge my colleagues to approve the conference report on S. 995.

Mr. PERCY and Mr. ROBERT C. BYRD addressed the Chair.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. ROBERT C. BYRD. Mr. President, I do not want to shut off Members who wish to——

Mr. JAVITS. Let us finish this conference report. We have not finished.

Mr. ROBERT C. BYRD. I did not realize that.

Mr. JAVITS. I yield to the Senator from Vermont.

Mr. STAFFORD. Mr. President, I am gratified to have had a part in the writing of S. 995. This measure, developed in the Subcommittee on Labor, on which I serve, would amend the Civil Rights Act of 1964. It would remove a major source of discrimination unjustly afflicting working women in America. As an indication of the importance of the legislation to the country, I point out that women now comprise more than 45 percent of the work force in the United States.

Under the terms of S. 995, pregnancy would be treated as a disability entitled to the same benefits as other disabilities covered by an employer's benefits program.

In my opinion, Congress in 1964, when I was serving in the other body, intended to prohibit discrimination in employment on the basis of pregnancy when it enacted the original Civil Rights Act. However, on December 7, 1976, the U.S. Supreme Court, in the Gilbert case, held otherwise and ruled that employers need not provide disability benefits for pregnant workers. As a result, this legislation became necessary. It will clarify beyond all doubt the intention Congress had in 1964.

This measure, as agreed to by the conferees representing the two bodies, does not require employers to provide disability benefits, only that where they elect to do so, men and women workers must be treated equally.

No employer would be required to provide benefits for the costs of abortions although the law will permit them to do so. Complications developing from abortions, however, would have to be covered under disability plans.

This measure is to go into effect on the date of enactment except, where a fringe benefit or fund or insurance program is in effect on the date of enactment, the legislation provides a period of transition of 180 days.

I want to salute my colleagues on the Human Resources Committee and those Members of the other body who worked so hard to bring this measure to fruition in these final days of the 95th Congress.

It represents a great and long overdue advance in the civil rights of American women.

Mr. JAVITS. Mr. President, I commend the conference report to the Senate. The conferees, in working out the abortion proviso, did the best they could to sustain the Senate provision, and I think it carries out the purpose of the legislation, which is to get recognition for women in respect of such disability or illness, as well as from pregnancy or incidents related thereto.

I hope the Senate will approve the conference report.

The PRESIDING OFFICER. The question is on agreeing to the conference report.

The conference report was agreed to.

Mr. ROBERT C. BYRD. Mr. President, I move to reconsider the vote by which the conference report was agreed to.

Mr. WILLIAMS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. ROBERT C. BYRD. Mr. President, I yield briefly to the Senator from New Jersey.

Mr. President, I yield.

Mr. WILLIAMS. Mr. President, the working men and women of this country have had certain disappointments within the 2 years of this Congress on measures that were not enacted, and some that were changed, some laws that were changed in administration through appropriations.

Tonight we passed the Humphrey-Hawkins bill, we passed the Pregnancy Disability Act. I hope that the working people of this country will recognize that we continue to be very sensitive to their concerns, to their needs, and are ever mindful of ways and opportunities we can have legislatively to make the lives of working people more secure and lives that are fuller as we can advance that through legislation.

Mr. ROBERT C. BYRD. Mr. President, I yield to the distinguished Senator from Maryland without losing my right to the floor.

Mr. WILLIAMS assumed the chair.

CONGRATULATIONS TO DR. DANIEL NATHANS AND DR. HAMILTON O. SMITH

Mr. MATHIAS. Mr. President, I send to the desk a resolution and ask for its immediate consideration.

The PRESIDING OFFICER. The resolution will be stated by title.

The legislative clerk read as follows:

A resolution (S. Res. 591) to congratulate Dr. Daniel Nathans and Dr. Hamilton O. Smith.

The PRESIDING OFFICER. Is there objection to the present consideration?

There being no objection, the Senate proceeded to consider the resolution.

Mr. MATHIAS. Mr. President, this resolution merely congratulates Dr. Nathans and Dr. Smith as being the first active members of the Johns Hopkins University faculty to win a Nobel Prize, and I hope the Senate will adopt the resolution unanimously.

Mr. SARBANES. Mr. President, the Johns Hopkins University has long been regarded as one of the finest research and teaching facilities in the Nation, if not the world. Further proof of this comes with the announcement yesterday that two professors at Hopkins, Drs. Daniel Nathans and Hamilton O. Smith, have been awarded the Nobel prize, the highest recognition of excellence in medical research.

The two Baltimore scientists were cited by the Nobel Committee for their research and discovery of the use of restrictive enzymes—chemicals that dismantle genetic materials at specific points—in aiding the eventual elimination of genetic malformations and diseases. A member of the Nobel committee commented that the choice of the two men, along with a third Swiss scientist working in the same field, was a quick and easy choice, since their work stood out among the significant medical research that has been done.

Dr. Smith, professor of microbiology, is a graduate of the Hopkins Medical School, where he now teaches. Dr. Smith is credited with discovering the first restrictive enzyme, found in a form of influenza bacterium.

Dr. Smith's discovery led Dr. Nathans to the possibility of using that restrictive enyme to cut up DNA, much like digestive enzymes break up protein in food.

Dr. Nathans, who has been on the Hopkins faculty since 1962, has been using this restrictive enzyme to break up DNA cancer cells. Such research may

allow scientists in the future to discover how cancer cells operate, and how such cells may be eliminated or changed into normal cells. Such research may also lead to the eventual discovery of techniques to reduce drastically the number of genetic malformations and diseases in humans.

I know I speak for all Marylanders when I express my congratulations to Drs. Smith and Nathans. Their research has brought much-deserved recognition and reward to themselves and to the entire Hopkins faculty, and has significantly advanced the cause of medical research throughout the world.

The PRESIDING OFFICER. The question is on agreeing to the resolution.

The resolution (S. Res. 591) was agreed to, as follows:

Resolved, That (a) whereas Dr. Daniel Nathans and Dr. Hamilton O. Smith of Johns Hopkins University were awarded the Nobel Prize in Medicine for research which led to the discovery and use of restriction enzymes and their application to genetics; and

(b) whereas their research demonstrated how these enzymes could be used to cut the DNA molecule for further study and thus analyze the structure of genes; and

(c) whereas this work will aid in the research toward understanding the gene function in cancer and various hereditary diseases; and

(d) whereas they are the first members of the active faculty at Johns Hopkins ever to receive the Nobel Prize for Medicine: Therefore be it

(e) *Resolved*, That the Senate congratulates both Dr. Nathans and Dr. Smith for this accomplishment and contribution to medicine and mankind and so congratulates John Hopkins University for sustaining the scientific and academic community within which this research could have occurred, and for maintaining the standard of excellence that has characterized the university since its founding.

Mr. SARBANES. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. RIEGLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

RESOLUTION RELATIVE TO THE DEATH OF REPRESENTATIVE GOODLOE E. BYRON, OF MARYLAND

Mr. SARBANES. Mr. President, I ask the Chair to lay before the Senate a message from the House of Representatives.

The PRESIDING OFFICER. The clerk will read the message from the House.

The legislative clerk read as follows:

Resolved, That the House has heard with profound sorrow of the death of the Honorable GOODLOE E. BYRON, a Representative from the State of Maryland.

Resolved, That a committee of 20 Members of the House with such Members of the Senate as may be joined be appointed to attend the funeral.

Resolved, That the Sergeant at Arms of the House be authorized and directed to take such steps as may be necessary for carrying out the provisions of these resolutions and that the necessary expenses in connection therewith be paid out of the contingent fund of the House.

Resolved, That the Clerk communicate these resolutions to the Senate and transmit a copy thereof to the family of the deceased.

Resolved, That is a further mark of respect the House do now adjourn.

Mr. SARBANES. Mr. President, there is a resolution pending at the desk concerning our former colleague, Congressman GOODLOE E. BYRON, and we ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will state the resolution.

The legislative clerk read as follows:

A resolution (S. Res. 592) relative to the death of Representative GOODLOE E. BYRON, of Maryland.

Resolved, That the Senate has heard with profound sorrow the announcement of the death of the Honorable GOODLOE E. BYRON, late a Representative from the State of Maryland.

Resolved, That a committee of two Senators be appointed by the Presiding Officer to join the committee appointed on the part of the House of Representatives to attend the funeral of the deceased Representative.

Resolved, That the Secretary communicate these resolutions to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

Resolved, That when the Senate recesses today, it recess as a further mark of respect to the memory of the deceased Representative.

The PRESIDING OFFICER. Without objection, the Senate will proceed to its immediate consideration.

The question is on agreeing to the resolution.

The resolution was agreed to.

The PRESIDING OFFICER. The Chair appoints the Senators from Maryland (Mr. SARBANES and Mr. MATHIAS) as members of the committee required by the resolution.

Mr. SARBANES. I thank the Senators.

UNANIMOUS-CONSENT REQUEST—H.R. 7108

Mr. ROBERT C. BYRD. Mr. President, a little earlier I tried to call up a bill at the request of Mr. LONG. There was objection.

I wonder if those who objected may have by this time become apprised of the nature of the bill. I hope there will not be any objections.

I ask unanimous consent again that the Senate proceed to the consideration of Calendar Order No. 1199, H.R. 7108, an act to amend the tariff schedule of the United States in order to suspend the duty on Yankee dryer cylinders.

Mr. HEINZ. Mr. President, reserving the right to object, I have tried to ascertain for what purpose the distinguished chairman of the Finance Committee, Mr. LONG, wants to bring up this bill. I have not, I am sorry to say, been able to find the Senator.

The text of this bill is in fact the Sugar Act which we passed last night. Title IV is the countervailing duty extension that we changed a little bit and passed last night.

So, without knowing what the purpose of the chairman of the Finance Committee is, I would be reluctant to agree to the unanimous-consent request.

I am, however, confident that the chairman of the Finance Committee has a perfectly legitimate purpose in mind and one I probably would not object to. But I cannot, I say to my good friend from West Virginia, agree without knowing in advance what we are going to do.

So, I will reluctantly object.

Mr. ROBERT C. BYRD. I thank the distinguished Senator from Pennsylvania.

Mr. LONG had indicated, and he will later be here to speak for himself. He assured some other Senators that he would call this measure up. Senator ROTH was one of the Senators. Senator MORGAN was one of the Senators. Senator KENNEDY was one of the Senators. And there were others, that he would call this bill up in order that they might be able to offer certain amendments that they are interested in to the bill.

The Senator has objected. So I will not persist at this time.

Mr. HEINZ. Mr. President, will the majority leader yield for one further word?

Mr. ROBERT C. BYRD. I yield.

Mr. HEINZ. I want to make it clear that I trust all Members that the chairman had some other purpose. I do not intend to obstruct him or stand in his way. I just cannot seem to get anyone on his staff to tell me what the purpose is.

Mr. ROBERT C. BYRD. Sure. At this time, of course, he is in the conference on the tax bill and his staff people are there also so he is not in a position nor are members of his staff. So I will not persist at this time in the effort to call up that matter.

NOMINATION

Mr. ROBERT C. BYRD. Mr. President, there is a nomination on the calendar that has been on the calendar since September 13. It is the nomination of John Warren McGarry of Massachusetts who has been nominated to be a member of the Federal Election Commission for a term expiring April 30, 1983. There have been some Senators who wanted that nomination held up and the leadership has tried to honor those holds, but the time has come when the leadership feels constrained to attempt to get the nomination up and get the Senate to act on it.

I do not believe there is any justification for continuing to honor holds on this nomination. It was reported from the Rules Committee a good many weeks ago, and I believe the Senate ought to work its will on it up or down.

I, therefore, Mr. President, ask unanimous consent that the Senate go into executive session to consider the nomination of Mr. John Warren McGarry.

Mr. MARK O. HATFIELD. Mr. President, reserving the right to object, I would like to ask the majority leader if this unanimous-consent agreement is honored or granted without objection,

what would be the next parliamentary requirement to then move to the full discussion and debate on the nomination?

Mr. ROBERT C. BYRD. I beg the Senator's pardon?

Mr. MARK O. HATFIELD. I ask the majority leader if this unanimous-consent request to go into executive session is granted, what is the next parliamentary requirement to get to the actual nomination before the Senate?

Mr. ROBERT C. BYRD. The Senate would be on the nomination at that point.

Mr. MARK O. HATFIELD. Mr. President, parliamentary inquiry.

Mr. ROBERT C. BYRD. I yield for that purpose.

Mr. MARK O. HATFIELD. Will the Senator yield?

Mr. ROBERT C. BYRD. Yes; I do.

The PRESIDING OFFICER (Mr. SARBANES). The Senator will state his parliamentary inquiry.

Mr. MARK O. HATFIELD. Mr. President, as I understand, the majority leader has coupled, in effect, two requests here. He has coupled, as I understand it, the request for an executive session, and then he has stated in that same request the purpose for that executive session to consider the nomination of Mr. McGarry. My inquiry is if one is to object to that unanimous-consent request, then what is the parliamentary move that has to be made to get the matter before the Senate?

Mr. ROBERT C. BYRD. A motion which would be nondebatable would get the matter before the Senate.

Mr. MARK O. HATFIELD. I am advised that the request to go into executive session is the only thing the majority leader can do.

Mr. ROBERT C. BYRD. That is not all I can do. I can go into executive session to consider the nomination, and when we get into executive session we are on that nomination.

Mr. MARK O. HATFIELD. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. MARK O. HATFIELD. Is it appropriate to couple the request for an executive session with the item to be taken up in executive session?

The PRESIDING OFFICER. It is appropriate for the Senator to make such a unanimous-consent request.

Mr. MARK O. HATFIELD. I would have to object, Mr. President.

The PRESIDING OFFICER. Objection is heard.

Mr. ROBERT C. BYRD. Mr. President, I move that the Senate go into executive session to consider the nominations on the Executive Calendar beginning with John Warren McGarry.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from West Virginia.

Mr. MARK O. HATFIELD addressed the Chair.

The PRESIDING OFFICER. All those in favor "aye." Opposed, "no." The "ayes" have it.

Mr. MARK O. HATFIELD. Mr. President, I believe I was seeking recognition before the Chair announced the vote.

The PRESIDING OFFICER. The Senator is correct.

Mr. MARK O. HATFIELD. A parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state his parliamentary inquiry.

Mr. MARK O. HATFIELD. I understand this motion is nondebatable, is that correct?

The PRESIDING OFFICER. That is correct.

Mr. MARK O. HATFIELD. Mr. President, I ask for the yeas and nays on the motion.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from West Virginia. The yeas and nays have been ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Alabama (Mrs. ALLEN), the Senator from Delaware (Mr. BIDEN), the Senator from Idaho (Mr. CHURCH), the Senator from Mississippi (Mr. EASTLAND), the Senator from Colorado (Mr. HART), the Senator from Colorado (Mr. HASKELL), the Senator from Kentucky (Mr. HUDDLESTON), the Senator from Minnesota (Mrs. HUMPHREY), the Senator from Massachusetts (Mr. KENNEDY), the Senator from New Hampshire (Mr. MCINTYRE), the Senator from Connecticut (Mr. RIBICOFF), and the Senator from Alabama (Mr. SPARKMAN) are necessarily absent.

Mr. STEVENS. I announce that the Senator from Massachusetts (Mr. BROOKE), the Senator from New Jersey (Mr. CASE), the Senator from New Mexico (Mr. DOMENICI), the Senator from Arizona (Mr. GOLDWATER), the Senator from North Carolina (Mr. HELMS), the Senator from Nevada (Mr. LAXALT), the Senator from Idaho, (Mr. MCCLURE), the Senator from Kansas (Mr. PEARSON), the Senator from New Mexico (Mr. SCHMITT), the Senator from Virginia (Mr. SCOTT), the Senator from Vermont (Mr. STAFFORD), the Senator from Texas (Mr. TOWER), and the Senator from North Dakota (Mr. YOUNG) are necessarily absent.

The PRESIDING OFFICER. Have all Senators in the Chamber recorded their votes?

The result was announced—yeas 50, nays 25, as follows:

[Rollcall Vote No. 496 Leg.]

YEAS—50

Abourezk	Cannon	Glenn
Anderson	Chiles	Gravel
Bayh	Clark	Hatfield, Paul G.
Bentsen	Cranston	Hathaway
Bumpers	Culver	Hodges
Burdick	DeConcini	Hollings
Byrd, Harry F., Jr.	Durkin	Inouye
Byrd, Robert C.	Eagleton	Jackson
Johnston	Moynihan	Sasser
Leahy	Muskie	Stennis
Long	Nelson	Stevenson
Magnuson	Nunn	Stone
Matsunaga	Pell	Talmadge
McGovern	Proxmire	Williams
Melcher	Randolph	Zorinsky
Metzenbaum	Riegle	
Morgan	Sarbanes	

NAYS—25

Baker	Hansen	Packwood
Bartlett	Hatch	Percy
Bellmon	Hatfield, Mark O.	Roth
Chafee	Hayakawa	Schweiker
Curtis	Heinz	Stevens
Danforth	Javits	Thurmond
Dole	Lugar	Wallop
Garn	Mathias	Weicker
Griffin		

NOT VOTING—25

Allen	Haskell	Ribicoff
Biden	Helms	Schmitt
Brooke	Huddleston	Scott
Case	Humphrey	Sparkman
Church	Kennedy	Stafford
Domenici	Laxalt	Tower
Eastland	McClure	Young
Goldwater	McIntyre	
Hart	Pearson	

So the motion was agreed to, and the Senate proceeded to the consideration of executive business.

The PRESIDING OFFICER. The clerk will report the first nomination on the executive calendar.

FEDERAL ELECTION COMMISSION

The second assistant legislative clerk read the nomination of John Warren McGarry, of Massachusetts, to be a member of the Federal Election Commission.

Mr. PELL. Mr. President, on August 25, 1978, by an overwhelming vote of 7 to 2, the Committee on Rules and Administration reported favorably to the Senate the nomination of John Warren McGarry of Massachusetts to the Federal Election Commission. This action climaxed the committee's 11-month consideration of this nomination, involving an extensive and detailed examination of the nominee's complex financial background.

COMMITTEE CONSIDERATION

On September 27, 1977, President Carter nominated John McGarry for a term expiring April 30, 1983, on the Federal Election Commission, in place of Neil Staebler, whose term had expired on April 30 of last year, but who has continued to sit on the Commission, as allowed by statute.

After the nominee responded to the committee's questionnaire, hearings were held on November 2 and 4. There was not sufficient time for McGarry's testimony, due to the presence of a number of congressional witnesses and limited time available to the committee.

On November 10, Senator BAKER requested that the committee conduct an additional investigation into John McGarry's finances before proceeding further. Supplemental questions were submitted to Mr. McGarry in preparation for a staff hearing with the nominee, held on December 14.

From that hearing, several other questions arose which were addressed to the nominee. Mr. McGarry answered those questions in time for the committee hearing which had been scheduled for

January 24. However, the nomination, which had lapsed at the end of the first session, had not been resubmitted by the President, so hearings could not be held.

On January 24, Senator BAKER sent a letter to then-Chairman CANNON enclosing a copy of an anonymous letter, addressed to columnist William Safire, which Senator BAKER had received earlier. The writer of the anonymous letter claimed that the owners of the Boston Half Shell Restaurant had engaged in a practice of "skimming" from one of the restaurant's cash registers during the period of Mr. McGarry's ownership.

Senator CANNON immediately referred this letter to White House Counsel Robert Lipshutz, who asked the FBI to look into the allegations. Nothing more was heard until April 10 when the White House resubmitted the McGarry FEC nomination. A letter from Mr. Lipshutz accompanying the nomination stated that the IRS had not looked into the charges, but that the White House was convinced that the nomination should be resubmitted because Mr. McGarry's personal tax returns had been audited by the IRS each and every year he owned the Half Shell; the questioning Mr. McGarry received from the committee staff on December 14 had been extensive; the skimming charge was contained in an anonymous letter, and, as such, did not justify initiating elaborate procedures needed to conduct an IRS investigation. Also, Mr. McGarry unequivocally denied the allegations in a letter to the committee dated April 20, 1978.

Some members of the committee considered the White House response to Senator CANNON's letter inadequate, and pressed for an independent GAO or committee investigation of the matter. Most members preferred to give the White House another opportunity to look into the skimming charges, along with other matters that had been brought to the committee's attention. So, on May 1, I wrote Presidential Counsel Lipshutz asking him to direct the appropriate executive agencies to inquire into charges contained in the anonymous letter and additional matters. A request from Senator HATFIELD concerning a White House investigation into other issues followed on May 5. In addition, the majority and minority submitted further questions to Mr. McGarry in an effort to understand and clarify questions about the nominee's complicated finances.

Answers to all committee questions were submitted by Mr. McGarry and Mr. Lipshutz in mid-July. Those responses resolved many of the committee's concerns, but several other issues, particularly tax issues, remained unanswered.

Due to the complexity of Mr. McGarry's finances and tax returns, the committee sought the assistance of tax counsel from the General Accounting Office. Mrs. Reka Hoff, an experienced tax lawyer who was assigned to work with the committee, filed three separate analyses of Mr. McGarry's tax returns. The nominee filed two responses to the tax consultant in an exchange that helped clarify the complex tax issues presented.

Additional days of hearings were held by the committee on July 27, August 15, August 22 and August 23. Testimony was taken from Mr. McGarry and his tax advisers, and from Mrs. Hoff.

After receipt of information from the Internal Revenue Service on August 24 concerning IRS audits of Mr. McGarry's Federal tax returns, the committee agreed that no further hearings were necessary. The next day, the committee met and discussed the nomination, then voted 7 to 2 to report the nomination favorably to the Senate.

COMMITTEE TREATMENT OF CONFIDENTIAL MATERIAL

The committee's consideration of the McGarry nomination, and all other nominations, has been guided by its policy that information involving nominees' personal finances and income tax returns is confidential. Accordingly, such information is not released to the public except by order of the committee.

With respect to the McGarry nomination, all financial information was made available to the committee members and their staffs, as were all written materials submitted by Mr. McGarry, and information contained in the transcript of the meeting between Mr. McGarry and committee staff on December 14, 1977. The nominee's tax returns were not disseminated to committee members, but rather were made available for inspection by committee members and their staffs at the Rules Committee office. This procedure has been strictly followed in nominations before the committee to protect the confidentiality of this particularly private information.

With respect to committee hearings, rule 2 of the committee's rules of procedure prescribes that open hearings take place, except under certain circumstances. I ask unanimous consent that rule 2 be printed in the RECORD at this point.

There being no objection, the rule was ordered to be printed in the RECORD, as follows:

COMMITTEE ON RULES AND ADMINISTRATION

(Adopted February 4, 1971, Pursuant to Section 133B of the Legislative Reorganization Act of 1946, as Amended. Readopted Without Amendment January 17, 1973, and January 22, 1975. Readopted with Amendments March 2, 1977)

2. Meetings of the committee, including meetings to conduct hearings, shall be open to the public, except that a meeting or series of meetings by the committee on the same subject for a period of no more than 14 calendar days may be closed to the public on a motion made and seconded to go into closed session to discuss only whether the matters enumerated in subparagraphs (A) through (F) would require the meeting to be closed followed immediately by a record vote in open session by a majority of the members of the committee when it is determined that the matters to be discussed or the testimony to be taken at such meeting or meetings—

(A) Will disclose matters necessary to be kept secret in the interests of national defense or the confidential conduct of the foreign relations of the United States;

(B) Will relate solely to matters of committee staff personnel or internal staff management or procedure;

(C) Will tend to charge an individual with crime or misconduct, to disgrace or injure the professional standing of an individual, or otherwise to expose an individual to public contempt or obloquy, or will represent a clearly unwarranted invasion of the privacy of an individual;

(D) Will disclose the identity of any informer or law enforcement agent or will disclose any information relating to the investigation or prosecution of a criminal offense that is required to be kept secret in the interests of effective law enforcement;

(E) Will disclose information relating to the trade secrets of financial or commercial information pertaining specifically to a given person if—

(1) An Act of Congress requires the information to be kept confidential by Government officers and employees; or

(2) The information has been obtained by the Government on a confidential basis, other than through an application by such person for a specific Government financial or other benefit, and is required to be kept secret in order to prevent undue injury to the competitive position of such person; or

(F) May divulge matters required to be kept confidential under other provisions of law or Government regulations. (Paragraph 7(b) of rule XXV of the Standing Rules of the Senate, as amended by S. Res. 9, 94th Cong., Nov. 5, 1975.)

Mr. PELL. Of course, the manner in which nominees have conducted their financial affairs can have a direct bearing on their statutory qualifications for office. Thus, on occasions when the committee wishes to question nominees about financial matters, or other matters protected under rule 2, such questioning may be conducted in closed session upon vote of the committee.

At the July 27 hearing, Mr. McGarry was informed by Senator HATFIELD that his questioning would entail a discussion of the confidential financial information the nominee had supplied the committee. The nominee was given the opportunity to have these confidential matters discussed in closed session, according to rule 2. Mr. McGarry, however, waived his right to a closed hearing on such matters, and welcomed a chance to discuss his record publicly. Since the material to be discussed dealt with matters confidential to Mr. McGarry alone, and violated no other provision of rule 2, the committee acceded to the nominee's wishes.

The committee greatly appreciates Mr. McGarry's candor and willingness to unveil publicly his financial background. His doing so demonstrates his interest in full disclosure which, I believe, will carry over to his work on the Federal Election Commission.

The Rules Committee's 6 days of hearings were only the conclusion of a thorough effort by the committee and its staff to examine carefully and understand properly the nominee's complex financial background. This effort involved the submission of hundreds of detailed questions to the nominee, all of which were answered. Mr. McGarry submitted over 200 pages of responses to the committee's questions, and has been helpful in opening his financial background to the prying eyes of the committee and the press. At enormous personal expense, he brought in his tax lawyer and CPA to

assist the committee and answer its members' questions. Throughout this process, Mr. McGarry has been patient and understanding, and is to be commended for his cooperation with the committee.

I am not going to discuss at this point each of the issues dealt with by the committee during its consideration of the McGarry nomination. However, I ask unanimous consent that the financial and other issues discussed in Senate Executive Report 95–28 be printed in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FINANCIAL ISSUES CONSIDERED

Throughout the Committee's consideration of the McGarry nomination, attention was necessarily given to gathering information to understand properly the nominee's complex financial background. Through initial staff work, and from McGarry's responses to written questions submitted by the Committee, the issues of concern to Members of the Committee were narrowed substantially. By the time hearings were held in July and August 1978, the following issues concerning the nominee's financial background remained for review:

1. AUDITS BY THE INTERNAL REVENUE SERVICE

Issue

Whether McGarry's tax returns for the years 1971–1976 had been audited, and, if so, the nature and extent of these audits.

Discussion

The Committee's tax law consultant questioned whether audits of McGarry's tax returns had been conducted for the years 1971, 1972, 1975 and 1976. She also was concerned over the extent of audits for 1973 and 1974. To resolve this matter, the nominee authorized the IRS to release information concerning audits of his tax returns for 1971 through 1976. This information revealed that McGarry's individual income tax returns for 1971–1976 were examined; and that these examinations were field audit examinations.

Copies of IRS Audit Workpapers (Form 4518) for the years involved were also presented to the Committee. [Form 4518 indicates the items on a tax return which are reviewed by the IRS examining officer.] The Workpapers covered the return for 1973, which was accepted as filed; for 1974 which was examined and on which corrections were made resulting in adjustments to McGarry's 1971 and 1972 returns, which were also examined; and for 1975 and 1976, which were examined and on which adjustments were made as a result of audits of the Boston Half Shell Restaurant during the period of McGarry's ownership.

The Committee's scrutiny of these Audit Workpapers helped resolve several issues surrounding McGarry's federal income tax returns. For example, questions concerning travel expense deductions, McGarry's basis in the California Half Shell Restaurant, and computer depreciation deductions were shown to have been received by the examining agents and accepted. See Issue 2–4, infra.

2. TRAVEL EXPENSE DEDUCTIONS

Issue

Whether McGarry should have been allowed deductions for his travel expenses between Boston and Washington, D.C., while working full-time for the U.S. House of Representatives.

Discussion

According to the Committee's tax law consultant, the cost of traveling between Boston and Washington, D.C., while the nominee worked full-time for the House of Representatives, was a commuting expense, disallowable as a deduction. However, Mr. McGarry's working situation was quite unusual during that period. Until December 1973, his position as Chief Counsel to the House Special Committee to Investigate Campaign Expenditures entailed approximately five months work every two years, as that Committee conducted oversight activities of House elections. Under such part-time employment, the nominee was clearly allowed deductions for his travel between Washington and Boston because he was traveling between a regular place of employment and a distant place of temporary or part-time employment. In December 1973, McGarry was asked to come to Washington for an indefinite period of time to assist the Committee on House Administration as it considered legislation to amend the Federal Election Campaign Act of 1971. In his capacity as Special Counsel to that Committee, McGarry assumed that he would be returning to Boston after a short period of time. He therefore arranged for another attorney to handle his law practice during his absence, while he continued to pay the bills. This situation lasted until passage of the Federal Election Campaign Act Amendments of 1974 in October of that year.

Shortly thereafter, McGarry was embroiled in several House election controversies. In his position as Special Counsel to the Committee on House Administration, he was in charge of reviewing contested elections, a task which consumed a greater portion of 1975.

In January of 1976, the Supreme Court struck down provisions of the 1974 Federal Election Campaign Act Amendments in the case of *Buckley* v. *Valeo*, throwing great uncertainty into the Presidential campaign of that year. Immediate congressional action was required to restructure the Federal Election Commission, and to establish a constitutional framework for conducting federal election campaigns. McGarry was again called in to work on this effort, which further disrupted his plans for the year 1976.

Thus, although being paid as a full-time House employee for those years, McGarry did not know from one week to the next whether he would remain in his capacity as Special Counsel. Clearly, his employment was temporary. He incurred additional traveling expenses and his life was considerably disrupted, as he explained in a lengthy examination of this matter conducted on December 14, 1978, by staff of the Committee on Rules and Administration; and again in his testimony before the Committee on August 23, 1978.

Moreover, the Internal Revenue Service examined his returns for all the years in question, and did not disallow these deductions. In 1973, the examiner went into great detail, requiring the nominee to provide a list of his travel and entertainment expenses, produce hotel receipts and bills, along with airline flight schedules. In 1975, the examining agent appears to have relied on the thoroughness of previous audits, and accepted the explanation given for the deductions. Given the IRS examination and the nominee's open discussion of his deductions with Committee Members and staff, the Committee believes further questioning on this point would serve little purpose.

3. BASIS IN CALIFORNIA HALF SHELL RESTAURANT

Issue

Whether McGarry reduced the basis in his stock in California Half Shell by the losses he had previously taken on his 1975 and 1976 tax returns.

Discussion

In 1974, McGarry, his three partners in the Boston Half Shell, and others, opened the California Half Shell in Los Angeles. McGarry had a 43 percent interest and listed $169,508 as the amount of his investment

The restaurant lost money and, because it was a Subchapter S corporation, McGarry reported flow-through losses of $27,846 in 1975 and $23,318 in 1976.

In 1976 McGarry sold his interest in the restaurant to one of his partners for $2,500. On his tax return, he listed his basis in the stock as $163,178. Having sold the stock for $2,500, he listed his loss as $160,678 on his tax return.

At the August 23rd hearing, McGarry's tax lawyer, Mr. James Linnehan, stated that he had checked with McGarry's CPA and those records revealed that McGarry had made other contributions to capital of the restaurant, giving him a total investment of $214,342. His total investment was thus reduced by the $51,164 in losses he took for 1975 and 1976, which made his basis in the property $163,178.

The IRS examined this item in detail during a field audit of McGarry's 1975 and 1976 tax returns, and accepted the basis as proper. The examining agent verified these transactions based on the accountant's records. Despite the questions initially raised on this issue, the Committee is satisfied that it was handled properly.

4. COMPUTER DEPRECIATION

Issue

Whether the $67,500 depreciation deduction McGarry took in 1974 on his computer allowable.

Discussion

In 1974, McGarry purchased a Honeywell computer from FINALCO Corporation for $450,000, financed with an investment of $67,500 and assumption of a $382,500 bank debt. He leased the computer to the Midland-Ross Corporation. In the first year of ownership, McGarry deducted $67,500 under an accelerated depreciation plan. The $67,500 figure was arrived at by the use of a method known as the "half-year averaging convention." The tax consultant contends that such a method was not proper because it is prohibited by the tax code whenever a distortion of income results. She states that under the correct method, the allowable depreciation would be $22,500. The difference between $67,500 and $22,500 depreciation would thus indicate a distortion of income. There is support in the Code and Regulations for the method of depreciation chosen by McGarry, and for the method favored by the consultant. The chief counsel of FINALCO appeared at the Committee's August 23 hearing and testified in support of the nominee's position, pointing out that the convention was allowable because the computer was listed as a multiple asset account, rather than a single item account, as presumed by the tax consultant. In any event, 1974 was a loss year, so the size of the deduction would not have affected the nominee's tax liability in that year.

The IRS Audit Workpapers reviewing McGarry's returns for 1974 state that the method of depreciation chosen was "found to be properly filed and in compliance with regulations." The Committee sees no reason to challenge this conclusion by the audit examiner. If there are problems with the method chosen, suffice it to say that they are not between this Committee and John McGarry.

5. MAXIMUM TAX ON EARNED INCOME

Issue

Whether the income McGarry received from Kenmore Management Company in 1973 was earned income, and thus includible in his earned income tax basis, or investment income.

Discussion

From 1971 to 1974, McGarry owned a 37-percent interest in Kenmore Management Company, a partnership which operated the Kenmore Club in Boston. In 1973, he received

$35,554 from Kenmore Management. This sum was included in his earned income base against which he applied the maximum 50 percent tax on earned income. According to the Committee's tax law consultant, McGarry's income was from an investment and should not have been included in his earned income tax base. McGarry, on the other hand, cites authority for the treatment of his interest as carrying on a trade or business.

Relying on the advice of a firm of certified public accountants which prepared his income tax return, McGarry classified his income as earned income. The IRS did not question this transaction during examination of McGarry's 1973 tax return. Even if McGarry's listing of the income as earned income is incorrect, this Committee has difficulty in penalizing the nominee five years later when the IRS audit of his tax returns did not find the method at fault.

6. LOSS ON COMMUNICATIONS DISTRIBUTORS, INC.

Issues

Whether losses of $10,000 in 1972, and $4,093 in 1973, which McGarry took on the worthlessness of stock in Communications Distributors, were allowable deductions.

Discussion

Communications Distributors, a firm which sold and leased communications equipment, was owned by McGarry and his law partner, Irving Sheff. On his 1972 and 1973 tax returns, McGarry claimed losses of $10,000 and $4,093 respectively.

The 1973 agreement dissolving the Sheff and McGarry law partnership stated that any loss from the worthlessness of stock in Communications Distributors is and has been reflected entirely and solely in Sheff's distributive share of the partnership.

McGarry contends that no agreement signed in September, 1973, could affect losses already taken on his 1972 tax return, and that, in any event, such deductions are allowable because agreed to by Sheff. In support of this contention, Mr. McGarry provided the Committee with a letter signed by Irving Sheff stating:

I have reviewed the language in the Sheff and McGarry partnership dissolution agreement, dated September 29, 1973, especially Paragraph 14 entitled, "Communications Distributors, Inc." and wish to state categorically that it was not the intention of the parties, despite the somewhat ambiguous language in the agreement, to make the provision retroactive.

Further, from the date of incorporation of Communications Distributors, Inc., until the dissolution of partnership, losses, in Communications Distributors, Inc., were distributed evenly between Mr. John McGarry and me.

Thus, despite the language of the termination agreement, McGarry's law partner, Irving Sheff, agreed that McGarry could take the losses in 1972 and 1973. The IRS did not question this transaction during the examination of McGarry's 1972 or 1973 tax returns.

Relying on the letter from Mr. Sheff, as well as the IRS examination of the tax returns, the Committee has no further questions on this matter.

7. SELF-EMPLOYMENT TAXES

Issue

Whether McGarry incorrectly computed his self-employment (SECA) taxes in 1972, 1975 and 1976, resulting in an underpayment.

Discussion

SECA tax is the self-employment tax paid by individuals in lieu of the FICA (Social Security) tax. McGarry listed as "other income" (which is not computed in the determination of SECA tax) several payments which the Committee's tax law consultant claims should have been included in the SECA tax computation. These payments were a $10,000 payment McGarry received in 1976 from Melo-Tone Vending Company; a $5,000 payment McGarry received in 1974, a $10,000 payment he received in 1975, and a $70,000 payment he received in 1976—all from Irving Sheff, his former law partner.

The Committee's tax law consultant also states that one payment McGarry added to his SECA tax base—the $35,554 payment from Kenmore Management in 1973—did not have to be included. Overall, she claims that SECA tax was underpaid by $1,803.33. McGarry's computation shows an over payment of $590.

McGafry has testified that the $10,000 Melo-Tone payment was included in "other income" to be consistent with Melo-Tone's method of reporting, and that he so listed it to facilitate the IRS' identification of the payment. He states that the $85,000 received from Irving Sheff in 1974–76 was paid pursuant to a covenant not to compete with his former law partner, and thus not includible in the SECA tax computations.

Although there is language in the partnership termination agreement with Sheff indicating that the money was to be paid out of fees from the law firm, McGarry testified that the agreement must be examined in its entirety. Overall, the agreement prohibits McGarry from competing with Sheff for a period of three years from September 29, 1973. As such, any payments from Sheff in return for McGarry's covenant not to compete would be properly treated as "other income," and not as payment for legal services, which would be includible in the SECA tax base.

The $70,000 payment in 1976 has been the subject of much attention. That payment resulted from settlement of *Gill* v. *Perini*, a large case handled by the Sheff and McGarry partnership. Although the partnership termination agreement states that such an accelerated payment would be made by Sheff on completion of that case, McGarry testified that he provided no legal services in connection with that case during his term as a senior partner in the law firm. Thus, the payment could not have been made for McGarry's legal services, but only for his covenant not to compete.

The Committee has no further questions concerning the nominee's SECA tax computations.

8. RED BOOT, INC. AND ROCKY POINT AMUSEMENT PARK

Issues

(1) Whether McGarry's part ownership of stock in the Red Boot, Inc. should have been reflected on his tax returns for 1971 through 1974; and (2) Whether McGarry's 1974 sale of his 50 percent interest in Red Boot, Inc. should have been reflected on his tax return for that year, especially since the Red Boot had become a 40 percent owner of a large amusement park and entertainment center during the time of his ownership.

Discussion

In 1971, McGarry bought a 75 percent interest in Red Boot from his nephew, Bernard McGarry, Jr., for $1 and assumption as a guarantor of the Red Boot debt. Later, the Red Boot issued additional stock (thus diluting McGarry's stock) to James Callahan, who had bought out the 25 percent owner, Herbert Pindari. Thus, John McGarry and James Callahan each owned a 50-percent interest in the restaurant.

In 1973, the Red Boot, as a corporate entity, bought a 40-percent interest in Rocky Point Amusements, Inc., which ran an amusement park and entertainment center in Warwick, Rhode Island. The Warwick Beacon reported that the total purchase price of Rocky Point was $3 million, although McGarry testified that the amount reported was incorrect.

McGarry sold his interest in Red Boot to Callahan in 1974 for $1 and release from his position as guarantor of more than $200,000 in corporate debt. McGarry stated at the August 23rd hearing that the Red Boot was not a profitable operation and that he sold it for what he paid for it.

Thus, (1) McGarry's tax returns would not have shown any dividend income from Red Boot for the years 1971 through 1974 unless the restaurant had been profitable; and (2) the sale of his 50 percent interest in Red Boot would not have been reflected on his 1974 tax return unless there was an increase in the basis of his stock between 1971 and 1974.

OTHER ISSUES CONSIDERED

1. HOUSE OF REPRESENTATIVES DISCLOSURE FORMS

For the years 1973–1976, rule XLIV of the Rules of the House of Representatives required that Members, officers, principal assistants to Members and officers, and professional staff members of Committees file a report disclosing certain financial interests to the Committee on Standards of Official Conduct. Because FEC Commissioners are charged with ruling on the sufficiency of candidate, party and PAC disclosure statements, the Committee on Rules and Administration believed that examination of McGarry's own House Disclosure forms would be a good indication of the nominees' personal record on public disclosure. During the course of this examination, the following questions were raised and discussed with the nominee:

(a) The House Disclosure Form, Part A, Question 3(b) requires the reporting of the source of "Any capital gain from a single source exceeding $5,000, other than from the sale of a residence, received during the preceding calendar year."

On his 1973 form, McGarry answered "not applicable," although in 1973 he received $15,000 from his former law partner, Irving Sheff, upon the dissolution of their partnership. The payment was for McGarry's share in the capital assets (library, etc.) of the firm.

McGarry testified that the $15,000 was received in September, 1973, and that he did not begin full-time House employment until December of that year. Thus, the money was not received during the period of his employment and was not required to be reported.

(*b*) Question 2 of the House Disclosure Form requires the filer to list the name, address and type of practice of any professional organization from which more than $10,000 in income was derived during the preceding year. McGarry left this question unanswered on the 1975 and 1976 forms.

McGarry received $10,000 in 1975 and $70,000 in 1976 from Irving Sheff, according to the terms of their partnership dissolution agreement. McGarry stated that the monies, which he received as payments for his covenant not to compete, were paid by Sheff as an individual, and were not from a professional organization. Therefore, he was not required to list these payments on his House Disclosure Forms for the years involved. Moreover, the 1975 payment did not have to be reported because it was not "more than $10,000."

(*c*) Question 3(a) requires reporting of the source of "any income from a single source for services rendered."

On the 1975 House Disclosure Form, McGarry listed: $10,224 from prior years when not with the U.S. Government." The source of the payment, Melo-Tone Vending Company, was not listed.

McGarry also received a $10,000 payment from Melo-Tone which he listed on his 1976 tax return for services rendered in the past. He did not disclose this payment on this 1976 form. However, McGarry did report the payment on his 1977 form, and testified that although Melo-Tone made the payment in

1976, he did not receive it until January 1977.

(d) Question 3(b) requires the listing of the source of "any capital gain from a single source exceeding $5,000, other than from the sale of a residence." On the 1975 form, in response to this question, McGarry listed $20,193 from sale of stock." The source of the payment, from the sale of his Kenmore Club stock, was not included.

The Committee was justifiably concerned about the nominee's method of reporting income on his House Disclosure Forms for the years 1973 through 1976. In fairness to the nominee, however, standards of reporting in both Houses of Congress were not so strict at that time.

The Committee was impressed by the nominee's thorough reporting on his 1977 House Disclosure Forms, and believes that Mr. McGarry is aware of the seriousness with which the Committee views the issue of public disclosure. More importantly, the nominee testified about the necessity for full public disclosure of campaign financing information, and is cognizant of its importance in the electoral process.

2. ALLEGATIONS CONCERNING THE BOSTON HALF SHELL

The allegations of "skimming" at the Boston Half Shell Restaurant were resolved to the Committe's satisfaction and were not an issue at the hearings. Nevertheless, the matter has received widespread circulation in the press, and has caused Mr. McGarry unneeded embarassment. In November 1977, an anonymous letter forwarded to Senator Baker alleging that Mr. McGarry and his business partners in the Boston Half Shell Restaurant engaged in an operation to "skim" the proceeds of one of the cash registers in the restaurant. The anonymous allegation had also been sent to a nationally syndicated columnist.

On January 24, 1978, Senator Baker brought the letter to the attention of then-Chairman Cannon who forwarded it to the White House with a request that the matter be examined. There was particular concern about initiating a federal investigation based solely on an anonymous letter, in addition to considerations of privacy of Mr. McGarry's business partners who were not, of course, being considered for federal appointment. After resolving these serious policy and privacy questions, the White House requested the Federal Bureau of Investigation to conduct an investigation of the charge.

The investigation revealed no evidence of tax evasion or "skimming," as described in the anonymous letter. The FBI investigators interviewed numerous employees of the Boston Half Shell Restaurant, including those in the chain of custody of daily restaurant receipts during the period in question. Several employees stated that the bookkeeping system was such that it would have been almost impossible for such an operation to have gone undetected, and everyone interviewed stated that he or she had no knowledge of such activity ever having taken place. Many spoke highly of Mr. McGarry, while pointing out that he took no active role in the management of the restaurant and was rarely present. Given the thoroughness of the FBI investigation, and the absence of any evidence other than the anonymous letter, the Committee is satisfied that the accusation was untrue.

3. POSSIBLE CONFLICTS OF INTEREST

Several Committee Members questioned whether the nominee would be able to monitor impartially the campaign activities of Members of Congress for whom he had worked, or with whom he had been associated. McGarry expressed no reservation about his ability to act with fairness and impartiality in his role as Commissioner. He cited as proof the support his nomination had elicited from former Minority Counsels with whom he had worked and from Minority Members of Congress, as well as his record in conducting inquiries into contested House elections. He did state, however, that there may be cases before the FEC from which he might have to recuse himself; but that he would judge each case individually.

Mr. McGarry has divested himself of many business interests over the past few years, so that he currently has on investments requiring his attention or supervision. He has retained an interest in certain real estate investments, but only as a limited partner or investor with no managerial responsibilities. None of these interests would conflict with his duties as a Commissioner. Nor does the nominee have any outside interests which would interfere with his full-time commitment to the job.

The Committee is satisfied that the nominee is sensitive to the duties of FEC Commissioner, and the need for avoiding conflicts of interest. Such impartiality is essential for public confidence in the Commission's activities, and the federal election process.

Mr. PELL. Mr. President, the committee's recommendation of John McGarry is not only a defense of charges made against him. It is also an affirmative statement of his qualifications for office. An examination of his experience in the field of election law is a clear demonstration of those qualifications. I ask unanimous consent that the nominee's biographical background and his answer to the Rules Committee "Outline of Information Requested of Nominees" be printed in the RECORD at this point.

There being no objection, the information was ordered to be printed in the RECORD, as follows:

BIOGRAPHICAL BACKGROUND ON JOHN WARREN MCGARRY

Re: Federal Election Commission

John Warren McGarry was born in Boston, Massachusetts on June 11, 1922. He was the youngest of eight children born to Thomas S. McGarry and Anna F. Galvin. Both parents and two brothers are deceased. Five sisters live in the Greater Boston area.

Mr. McGarry attended Boston Public Schools and served in the United States Navy in the Pacific in World War II. After the war he was graduated from Holy Cross College, did graduate work at Boston University and earned a law degree at Georgetown Law Center.

Having worked on the floor of Congress while in law school, Mr. McGarry continued in government service as Assistant Counsel and then Counsel for the Committee on Government Operations for the U.S. House of Representatives.

In 1959, he was appointed Assistant Attorney General for the Commonwealth of Massachusetts and served in that capacity for four years. Mr. McGarry then combined private practice with service as Chief Counsel for the Special Committee to Investigate Campaign Expenditures which was created as a temporary unit for approximately 5 months every 2 years until 1972, to oversee House elections.

In 1973, Mr. McGarry was appointed Special Counsel to the Committee on House Administration for the U.S. House of Representatives.

On February 11, 1977, Mr. McGarry married attorney Marietta M. Ethier. Ms. Ethier is Assistant General Counsel for Digital Equipment Corporation.

Title: Special Counsel on Elections, U.S. House of Representatives.

Address: Committee on House Administration, U.S. Capitol, H-326, Washington, D.C.

Education

Holy Cross College (1948-1952)—B.S. Degree.

Boston University (1952-1953)—Graduate School.

Georgetown University Law Center (1953-1956)—Juris Doctorem Degree.

Background

1957-58: Counsel, U.S. House of Representatives, Committee on Government Operations.

1959-62: Assistant Attorney General, Commonwealth of Massachusetts.

1962-73: Chief Counsel, U.S. House of Representatives, Special Committee to Investigate Campaign Expenditures.

1973 to date: Special Counsel, U.S. House of Representatives, Committee on House Administration.

Summary

For the past 15 years, John McGarry has been involved in all election matters for the House and compiled an election pamphlet for every House election containing all Federal election laws and a summary of State election laws.

From 1958 to 1973 he was in private practice as a trial attorney and appeared at all levels of State and Federal courts, including the Supreme Court of the United States.

COMMITTEE ON RULES AND ADMINISTRATION

OUTLINE OF INFORMATION REQUESTED OF NOMINEES

A. Biographical

Q1. Name: (Include any former names used).

A1. John Warren McGarry.

Q2. Address: (Include current residence address and mailing address).

A2. 92 Parker Road, Wellesley, Mass.

Q3. Date and place of birth.

A3. June 11, 1922; Boston, Mass.

Q4. Marital status: (Include maiden name of wife or husband's name).

A4. Married; Marietta Margaret Ethier.

Q5. Names and ages of children.

A5. None.

Q6. Education: List institution(s), dates attended, degree received and date degree granted.

A6. South Boston High School, Boston, Mass., September 1936 to June 1939; diploma received in June 1939.

Holy Cross College, Worcester, Mass., September 1948 to June 1952; B.S. received in June 1952.

Boston University, Boston, Mass., September 1953 to June 1954.

Georgetown Law School, Washington, D.C., September 1954 to January 1956; J.D. received in March 1956.

Q7. Employment record: List all positions held since college, including the title or description of job, name of employer, location of work, and dates of inclusive employment.

A7. Clerk on floor of House for U.S. House of Representatives, September 1954 to October 1956.

Attorney for Committee on Government Operations, U.S. House of Representatives, January 1957 to January 1959.

Assistant Attorney General, Commonwealth of Massachusetts, Boston, Mass., January 1959 to July 1962.

Chief Counsel, Special Committee to Investigate Campaign Expenditures, U.S. House of Representatives, July 1962 to July 1973. (This Special Committee was formed for approximately 5 months every 2 years.)

Special Counsel, Committee on House Administration, U.S. House of Representatives, December 1973 to date.

Self-employed attorney at 1 State Street, Boston, Mass., January 1959 to September 1965.

Senior Partner in Boston law firm of Sheff & McGarry, September 1965 to September 1973.

Q8. Government experience: List any experience in, or association with, federal, state or local governments, including any advisory, consultative, honorary or other part-time service or positions.

A8. Clerk on floor of House for U.S. House of Representatives, September 1954 to October 1956.

Attorney for Committee on Government Operations, U.S. House of Representatives, January 1957 to January 1959.

Assistant Attorney General, Commonwealth of Massachusetts, Boston, Mass., January 1959 to July 1962.

Chief Counsel, Special Committee to Investigate Campaign Expenditures, U.S. House of Representatives, July 1962 to July 1973. (This Special Committee was formed for approximately 5 months every 2 years.)

Special Counsel, Committee on House Administration, U.S. House of Representatives, December 1973 to date.

Q9. Memberships: List all memberships and offices held in professional, fraternal, scholarly, civic, charitable and other organizations.

A9. American Bar Association, Massachusetts Bar Association, American Trial Lawyers, Alpha Sigma Nu (Jesuit Scholastic Honor Society), Knights of Columbus.

Q10. Political affiliations and activities: List all memberships and offices held in or financial contributions and services rendered to all political parties or election committees during the last ten years.

A10. Member of Democratic Party.

Q11. Honors and Awards: List all scholarships, fellowships, honorary degrees, honorary society memberships, and any other special recognitions for outstanding service or achievement.

A11. B.S. Degree—Cum Laude, Holy Cross College; Alpha Sigma Nu, Jesuit Scholastic Honor Society.

Q12. Published writings: List the titles, publishers and dates of books, articles, reports or other published materials you have written.

A12. For every Congress since 1962, I have participated in the preparation of an election pamphlet entitled "Information of Importance to Candidates for the United States House of Representatives". From 1962 to 1973 I was the author of a biannual report setting out various election cases that had been before the House of Representatives and also recommendations for remedial legislation.

Q13. Speeches: Identify each speech which you have given during the past 3 years, the organization to which the speech was given, and supply two copies of each speech.

A13. None.

Q14. Qualifications: State what, in your opinion, qualifies you to serve in the particular position to which you have been nominated.

A14. During the past fifteen years, I have been directly involved in every facet of the Federal election process as Chief Counsel of the Special Committee to Investigate Campaign Expenditures and more recently as Special Counsel on Elections for the Committee on House Administration in the U.S. House of Representatives. My work in those positions covered the totality of the House's involvement with elections including but not limited to: participation in the drafting and clearing for passage of the various election bills, amendments thereto and regulations arising therefrom; the investigation of complaints and contested election cases, participation in hearings, and the drafting and compilation of reports. This experience, in my opinion, qualifies me to serve as a member of the Federal Election Commission, in the event that I am confirmed by the United States Senate.

B. Future Employment Relationships

Q1. Will you sever all connections with your present employer, business firm, association or organization if you are confirmed by the Senate?

A1. Yes.

Q2. Do you have any plans after completing government service to resume employment affiliation or practice with your previous employer, business firm association or organization?

A2. No.

Q3. Has anybody made a commitment to employ your services in any capacity after you leave government service?

A3. No.

Q4. If confirmed, will you serve your full term of office?

A4. Yes.

Q5. If confirmed, will you be engaged in any business, vocation, employment or outside activities other than related to your duties as a Commissioner?

A5. No.

C. Potential Conflicts of Interest

Q1. Describe all financial arrangements, deferred compensation agreements, and other continuing dealings with business associates, clients or customers.

A1. Aside from my interest in the Boston Half Shell, Inc. and McGarry Investment Trust, both of which will be liquidated within the next year, if I am confirmed, my other holdings beside stocks and bonds, are real estate investments. I play no role whatever in these activities and they are nothing more than investments.

Q2. Indicate any investments, obligations, liabilities, or other relationships which could involve potential conflicts of interests in the position to which you have been nominated.

A2. None.

Q3. Describe any business relationship, dealing or financial transaction which you have had during the last ten years, whether for yourself, on behalf of a client, or acting as an agent, that could in any way constitute or result in a possible conflict of interest in the position to which you have been nominated.

A3. None.

Q4. Describe any activity during the past 10 years in which you have engaged for the purpose of directly or indirectly influencing the passage, defeat or modification of any legislation or affecting the administration and execution of law or public policy.

A4. As Special Counsel on Elections for the Committee on House Administration, I have been directly involved with all election bills.

Q5. Explain how you will resolve any potential conflict of interest, including any that may be disclosed by your responses to the above items. (Please provide a copy of any trust or other agreements.)

A5. In my opinion, my responses will reflect that I am not involved in any conflict of interest, current or potential. However, should the Committee conclude otherwise, I will be prepared to comply with any reasonable directive the Committee may set forth to resolve such conflict.

D. Testifying Before Congress

Q1. Are you willing to appear and testify before any duly constituted committee of the Congress on such occasions as you may be reasonably requested to do so?

A1. Yes.

Q2. Are you willing to provide such information as is requested by such Committees?

A2. Yes.

Mr. PELL. As can be seen from his employment background, there are few people in this country with John McGarry's experience in Government and election law. He has served as Counsel to the House Committee on Government Operations; as an Assistant Attorney General of the Commonwealth of Massachusetts; as Chief Counsel for 12 years of the House Special Committee to Investigate Campaign Expenditures; and from 1973 to the present, as Special Counsel to the Committee on House Administration, specializing in election law.

For every Congress since 1962, Mr. McGarry has participated in the preparation of an election guidebook for the House of Representatives. As the Chief Counsel to the Special Committee to Investigate Campaign Expenditures, he wrote a biennial report on election cases before the House, and made recommendations for remedial legislation.

During the past 15 years, Mr. McGarry has been involved in every facet of the Federal election process, including staffing and drafting the Federal Election Campaign Act of 1971 and its amendments of 1974 and 1976; review of regulations to these statutes; investigation of complaints and contested election cases; participation in hearings, and the drafting and compilation of reports.

His performance as an election adviser has received praise from Members of Congress with whom he has worked—both majority and minority—and from counsel of both parties.

Mr. President, as chairman of the Senate Committee on Rules and Administration, I believe the committee did an excellent job in examining this complex nomination; with the cooperation shown by the White House staff in attempting to answer our questions; and with Mr. McGarry's assistance and patience during a most difficult period. Having observed him, and grown to know him during this process, I believe he has exhibited the requisite statutory qualifications of maturity, experience, and impartiality to carry out his responsibilities on the Commission.

As has been pointed out, there are few people in Government who have a greater mastery of election law and the problems of elections than does John Warren McGarry.

Consequently, I urge his nomination by the Senate.

Mr. MARK O. HATFIELD. Mr. President, I ask unanimous consent that Martin Gold, Tom Getman, and Steve Crow of my staff be granted the privilege of the floor during discussion and votes on this issue.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MARK O. HATFIELD. Mr. President, first of all, I should like, for the benefit of my colleagues, to indicate that there will be a very extended period now for the discussion of this particular issue. I feel that it is very important to bring before the Senate the issue as we now have it presented, not on the merits of Mr. McGarry, because I was one of the people who voted for Mr. McGarry's confirmation on the committee. My two colleagues on the Republican side (Mr. BAKER and Mr. GRIFFIN) voted no on Mr. McGarry's nomination. So I am not tonight going into the issues relating to Mr. McGarry's qualifications,

but rather as to the procedure that is being followed here on the floor of the Senate tonight.

Let us recall that when Congress set up the Federal Elections Commission, they wanted it to be totally bipartisan because the rulings of that Commission were to apply equally to Democratic candidates as well as to Republican candidates and to independent candidates and third-party candidates Therefore, the Commission was organized on a 3–3 basis, three Democrats and three Republicans.

In order not only to give the appearance but to make sure the Commission was truly bipartisan, the minority leader of the House of Representatives (Representative RHODES) and the minority leader of the Senate (Mr. BAKER) had a conference with the President of the United States in which they understood the President to agree that he would select the Republican nominee from a list given by the leadership of the Congress, the Republican leadership. There ensued disagreement as to exactly what was understood to be the conditions upon which the President would make this appointment. So we have had, on that basis and other bases which I shall go into, a long delay.

Now, Mr. President, what we have here tonight is an attempt to uncouple the Republican nominee from the Democratic nominee. The Democratic nominee, Mr. McGarry, has been heard——

Mr. ROBERT C. BYRD. Will the Senator yield on that point? I may be able to help him.

Mr. MARK O. HATFIELD. Yes, I will.

Mr. ROBERT C. BYRD. I should be very glad to ask unanimous consent that the Committee on Rules be discharged from further consideration of the Republican nominee and bring that nomination to the floor and vote on it tonight.

Mr. MARK O. HATFIELD. I know that proposal—I am happy to have yielded to the majority leader for that comment. But let me say that comment and that proposal would be rejected by this Senator for a basic principle.

I remind the Senate of the United States that we got into a little difficulty on a quickie kind of confirmation on a very important part of the President's official family earlier in this administration. That committee of the Senate went on television more or less to undo the things they had not done in the first place.

I want to say that even though this happens to be a Republican nominee whom I have personally known—I think he is of the highest qualification—I am not going to violate what I consider the duty of the Rules Committee to put him through the same hearing process that we put every other nominee through, Democrat and Republican. We have not yet even had the FBI report made available to the members of the committee.

The nominee for the Republican slot was sent up to the Senate on Wednesday of this week. The chairman of the Rules Committee has attempted twice to get a quorum. We held a meeting this morning with Mr. Friedersdorf with only four persons—two Republicans, two Democrats—twice the number on the minority side as showed up on the majority side to create a quorum. We were minus a quorum. We went through a preliminary questioning with Mr. Friedersdorf. To say to bring that name to the Senate tonight without the benefit of the review of the FBI report or the members of that committee to see the financial report or to put to him the same questions we put to other nominees I think would not be upholding the duty and responsibility of the Rules Committee.

Mr. ROBERT C. BYRD. Will the Senator yield?

Mr. MARK O. HATFIELD. I am happy to yield.

Mr. ROBERT C. BYRD. I recognize the validity of the reasoning that the Senator has expressed. I simply want to assure him that there is no effort here to decouple the two. As far as I am concerned, we can bring that nomination out by unanimous consent and couple the two. That is the thing I was suggesting.

Mr. PELL. Will the Senator yield on the same point?

Mr. MARK O. HATFIELD. I am happy to yield.

Mr. PELL. As chairman of the Committee on Rules, I would have supported the thought of the majority leader. I thought we had a good hearing this morning. Mr. Friedersdorf's financial holdings were of a singularly open and uncomplicated nature. As a general matter of custom, when the nomination comes from the White House, the White House is adequately satisfied from the security viewpoint, from the viewpoint of the FBI check. Personally, I should be more than willing to couple the two together at this time. I just want to make that point as well.

Mr. MARK O. HATFIELD. I appreciate the comments from the chairman of the committee. I want to say that, as much as I would like to have Mr. Friedersdorf confirmed tonight, as much confidence and trust as I have in the record and performance of Mr. Friedersdorf, I think, again, that we are establishing bad precedent that we shall come to rue if we short circuit the normal hearing process that we have created and established for confirmation purposes of the other nominations of the President.

Again, I want to emphasize that this in no way casts any reflection upon Mr. Friedersdorf, but I can just conceive of the situation arising because we yielded to, say, the request to couple them in order to get both of them confirmed tonight—one with a hearing, one without a hearing. We only had a preliminary hearing today. We still did not have the FBI report, so it was an inadequate, incomplete hearing.

To do that at this time, I can see down the road when a nomination appears up here on the Hill and somebody says, this is very important to get this nomination confirmed quickly, let us not go through the normal process, let us hold it at the desk and let us confirm it—I can see all kinds of problems on that precedent that we would be establishing.

Mr. ROBERT C. BYRD. Mr. President, will the Senator yield?

Mr. MARK O. HATFIELD. Yes.

Mr. ROBERT C. BYRD. I do not quarrel with the Senator's feelings on that point. I think it might well be that one could meet himself coming back down some future road. I agree with the Senator that adequate testimony should be adduced and hearings should be held. I simply want to say and say again that as far as the decoupling is concerned, we could cure that quickly. But it would not reach the basic objection which the Senator has so ably expressed.

Let me say this: Why do we not vote on this nomination—it has been on the calendar now over a month; it was reported out of committee—and let the Senate work its will on the nomination? Then when Mr. Friedersdorf's nomination comes along, we shall take care of that.

I want to say one more thing: I did what I can do and I think I was of some assistance in getting the President to send up the nomination. I personally talked with the President about this matter some time ago.

I assisted the minority leader in this respect, because I felt that there was some justification for the position that was being taken by the able minority leader in the Senate and able minority leader in the House. I felt there was going to be a Republican nomination, there is going to be a Republican nomination to be filled; I thought those two leaders ought to be given some consideration as to the nominee and as to their choice of the nominee. I made that plea to the President.

Now, Mr. President, having said that, I feel that it is only fair to give this nominee—do not couple the two. Let each stand on its own merits, and vote up or down on this nominee and quit holding him here on the calendar and letting that nomination die at the end of the session.

I do not think that is fair to the nominee. I say this with all due respect to the distinguished Senator from Oregon, because he did vote to report out this nominee.

Mr. MARK O. HATFIELD. I also say further to the majority leader that I really do not consider that the offer to couple tonight is really an option, because, to me, the principle of maintaining the integrity of the procedures we have set forth for the previous nominees do not really offer us an option. We must maintain that.

I would also say further that I participated in the hearings of Mr. McGarry.

Again, I think that the chairman would have to say that there were many days when it was the minority side that provided the quorum, even for a hearing purpose. So, we have done everything to expedite that.

But if I could finish my opening remarks, as the chairman of the committee had been permitted to open his remarks, I think I could lay a foundation for the reasons why I am very determined tonight to not have this nomination voted on.

Mr. PELL. Will the Senator yield?

Mr. MARK O. HATFIELD. But I would like to have the privilege of laying my foundation for this principle.

The PRESIDING OFFICER. The Senator from Oregon has the floor.

Mr. MARK O. HATFIELD. Mr. President, as I was expressing my concern about maintaining the bipartisan character of the Federal Elections Commission, I wanted to also lay out the situation that could, in effect, make difficult, at least, if not impossible, to maintain that bipartisanship by uncoupling these two nominations.

We have here a Democratic nominee who has had a long and very detailed hearing. As I recall, we just got the nominee for the Republican vacancy this Wednesday, which has not given the committee the opportunity for a proper hearing.

Now, the majority leader and the chairman of the Rules Committee have suggested to let us go ahead and confirm or to vote on the confirmation of Mr. McGarry, the Democratic nominee, tonight, and in due time we will take up the Republican nominee.

Mr. President, what we are asked to do is to confirm the Democrat and leave the Republican on the beach.

We are moving to a closing of this session. We have tried for three days to get a quorum in the Rules Committee. It was obvious we would not have the possibility of getting the Republican nominee up here in this session of the Congress.

So where do we go? I do not know where we would go.

There are various options open to the President. He could have a recess appointment. He could make a recess appointment which would take place under article 2, section 2 of the Constitution, which would mean that the recess appointment would fill out that period of time that would involve the first year of the new Congress, the entire first year, provided we resubmit the name within 40 days after the reconvening of the new Congress.

But this is where we lose the bipartisan character of this Commission, because we do not have the two nominations together.

That is why I feel this is important procedure that we maintain, that we have followed, and which I feel we should continue to follow.

Mr. President, I would urge the Senate, therefore, in the spirit of fairness, spirit of equity, spirit of bipartisanship, to consider that we must maintain that bipartisan character of this whole procedure by having both names at the time we vote on one. We vote on both of them.

Now, what does this do to the Commission? There are six members of the Commission. Those members will serve until a candidate is confirmed and qualified. So there is no void in the Comission at this time which creates any problem on the workload. There are people still serving on the Commission who the two nominees will eventually replace, whatever and whoever the nominees might be.

So we are not putting the Commission under any kind of problem, or we are not creating any kind of problem for the Commission. The Commission is functioning and it will continue to function with a full complement of Commissioners until two new ones are confirmed and qualified.

Second, as to the alternatives we have before us, as I indicated, on the Republican nominee, the President could make recess appointments on both nominations. He could make a recess appointment, for instance, McGarry, he could make a recess appointment of Mr. Friedersdorf, and in so doing he would have the two men he has, in some form or another, brought to the Senate, or sent to the Senate, one recommended by the Rules Committee and one yet to have a hearing.

Therefore, those two persons could serve in that position through the first year of the new session, if we saw fit to resubmit their names within 40 days after the reconvening of the new session.

In the meantime, when that happens, we can have a Rules Committee meeting and we can have the regular procedures for hearing we had on the others, in this case, whoever the Republican nominee might be. In the case of Mr. Friedersdorf, then we could proceed with Mr. Friedersdorf.

So, in order to put this into proper context, I would like to suggest that we look a little bit at some of the recent history of this because there has been some discussion that perhaps the Rules Committee has been dilatory or the Rules Committee has not diligently pursued this responsibility with all great speed.

Well, Mr. President, more than a year ago President Carter first nominated John Warren McGarry for membership on the Federal Election Commission.

Now, the McGarry nomination has been mired in controversy ever since it was sent to the Hill. Its history has been a litany of frustrating delays and what I consider, at least, as needless confusion, almost from the start.

Now, as this debate and the discussion in the next 3 or 4 hours will establish, many serious doubts about Mr. McGarry's fitness for office still persist in the minds of at least two members of the committee.

I anticipate, Mr. President, that several of my colleagues will eventually allow their substantive financial disclosures of tax problems which continue to cloud this nomination in their thinking. But for my part, I will set forth the reasons why John McGarry's nomination has been left pending before the Senate for so long.

McGarry's nomination was originally submitted to the Senate on September 27, 1977. Hearings were held before the Rules Committee on November 2 and 4, 1977, but they terminated before the nominee was able to testify.

By reason of Senate rule XXXVIII, nominations not acted upon during the first session of a Congress can only be held over until the second session by unanimous consent. No such unanimous-consent agreement was achieved.

So, the McGarry nomination lapsed.

Now, in anticipation that McGarry's name should be resubmitted, however, the Rules Committee staff, both majority and minority—and, Mr. President, the staff has been, I think, extraordinarily diligent in all of this activity. They have performed in a most able fashion, both majority and minority staff working in a very harmonious fashion.

They continued their research into the background of the nominee.

Now, on December 14, 1977, the staff and McGarry met for several hours and he furnished written responses to certain questions that had been mailed to him in prior weeks and also submitted to earlier inquiries.

I think it is very important at this point for the Senate to hear the hearing record. So I shall proceed to recite the hearing record on the particular point of McGarry's nomination:

The staff of the Committee on Rules and Administration met in Room 301 of the Russell Senate Office Building at 2:06 p.m. with the nominee, John Warren McGarry, Mr. Hall presiding.

Present: Edwin K. Hall, Counsel (Elections); James F. Schoener, Minority Counsel (Elections); William M. Cochrane, Staff Director; Chester H. Smith, Chief Counsel; Larry E. Smith, Minority Staff Director; Martin B. Gold, Minority Counsel; Carol Darr, Assistant Counsel (Elections); Rob Mosbacher (Senator Baker's staff); Andrew Lowie (Senator Clark's staff); Thomas Hughes (Senator Pell's staff).

Mr. HALL. I have just got a short statement I would like to make at the very beginning. This is a meeting authorized by the Chairman of the Committee on Rules and Administration between the Committee staff and John McGarry, whose nomination to be a member of the Federal Election Commission is presently before this Committee.

For the record, and as an assistance to the reporter who is present to record our discussions, I would like to identify everyone present. Myself, Edwin Hall, counsel to the Committee; John McGarry, nominee to the Federal Election Commission; Chet Smith, chief counsel to the Rules Committee; Rob Mosbacher from Senator Baker's staff; Tom Hughes from Senator Pell's staff; Larry Smith, Minority staff director to the Committee; Martie Gold, Minority counsel to the Committee; James Schoener, Minority counsel for elections to the Committee; Andy Lowie from Senator Clark's staff; and Carol Darr, assistant counsel to the Rules Committee; and Mary Daley and Bill Cochrane, staff director to the Rules Committee.

This meeting was called to give the Committee staff an opportunity to discuss with John McGarry questions pertaining to his nomination to be a member of the Federal Election Commission. In order that our discussions and the material which will consequently become part of the Committee's records may be put in their proper context, I would like to review briefly the events leading up to the meeting.

Mr. McGarry's nomination was referred to the Committee on September 27, 1977, and in response to a request from Chairman Howard Cannon of that date.

Mr. PELL. Mr. President, will the Senator yield?

Mr. MARK O. HATFIELD. Not at this point. I want to complete this particular presentation.

Mr. PELL. The question is whether it is a confidential hearing or not. Mr. McGarry has waived all his rights in this whole hearing.

Mr. MARK O. HATFIELD. The ques-

tion is well taken, but Mr. McGarry, in three hearings, waived all confidentiality, waived every right he had for executive sessions, to discuss his matters—financial and other such matters.

Mr. PELL. But he never waived this particular hearing and was not asked to.

Mr. MARK O. HATFIELD. Mr. President, there is no classification to this. As I say, Mr. McGarry, in three open meetings, waived all such rights for executive discussion of his business.

Now, Mr. McGarry's nomination was referred to the committee on September 27, 1977, and in response to a request from Chairman Howard Cannon on that date—

That was when Mr. CANNON, by the way, was chairman of the Rules Committee:

Mr. McGarry provided the Committee with answers to a detailed questionnaire regarding his personal and public career to date.

These were submitted to the Committee on October 4 and 6, 1977, with the understanding that personal financial data and income tax returns would not be made available outside the Committee unless so ordered by the Committee. These materials were made available to Committee members and staff. And during meetings and telephone conversations with Committee staff prior to the initial hearings held on November 2 and 4, Mr. McGarry provided background information on some of the matters made available to the Committee. And if everyone would indulge me for a few minutes longer, I would like to briefly refer to some of those items so that the record and the material that we have to date may be as complete as possible. And if what I relate is in any way inaccurate or needs further explanation, I would request Mr. McGarry to interrupt me at that particular point. There are about seven items I wish to refer to.

The following were received for the record:

Number one, the 129 shares of stock in the Half Shell California corporation, reflected on Schedule D of Mr. McGarry's 1976 income tax return,

I remind the chairman of the committee that these were specific items that are in the record that we went over, item by item, point by point, in the open record.

shown to have been sold on February 28th, 1976, at a loss of $160,678, was his interest in a California corporation. This California restaurant operation was a separate and distinct legal entity from his interest in the Half Shell, Inc., listed in his financial statement to the Committee, which is a Massachusetts corporation.

A second item. Mr. McGarry informed us that the valuation of his investment in Half Shell, Inc., Massachusetts, of $538,000 is based on an agreement to sell his interest for that amount to two partners.

Mr. MCGARRY. May I interrupt just on that point?

Mr. HALL. Please.

Mr. MCGARRY. The Massachusetts corporation redeemed my stock. The net result would be the same, because there are two partners, two associates, who will remain with the entity, so the net result is the same, but technically the corporation redeemed my stock.

Mr. HALL. Mr. McGarry reported that he was to be paid in installments over an eleven-year period with a large balloon payment in the eleventh year, and that these payments would be dependent on the continuing success of the restaurant business and the personal guarantees of the two purchasers.

And the third item, John McGarry provided the Committee with a copy of the agreement pursuant to which he terminated his law partnership in 1973. A total of $100,000 was paid to him under the agreement, $15,000 in 1973, $5,000 in 1974, $10,000 in 1975, and $70,000 in 1976. All payments under the agreement have been made due to an acceleration of the payment schedule, resulting from the occurrence of the events referred to in paragraph 5 of that agreement. All payments were taxed to Mr. McGarry as ordinary income.

The fourth item. Mr. McGarry informed the Committee that he had received payments in the past five years from individual clients unrelated to his partnership practice with Mr. Sheff, which reflected professional services rendered prior to December 1973, when he assumed full duties as special counsel to the Committee on House Administration. The amounts are as follows and are reflected on the income tax returns submitted to the Committee: in 1976 that was $3,668; in 1975 that was $10,224; in 1974 it was $16,021; in 1973 it was $14,268; and in 1972 it was $3,050.

Item No. 5. In regard to Mr. McGarry's 1974 income tax return, Schedule C of that return reflects $6,235 for salary and $4,763 of other business and professional expenses in 1974. He indicated that a substantial portion of this reflected the expenses of a law office at 739 Boylston Street which he set up in late 1973 after the termination of his partnership with Mr. Sheff. When Mr. McGarry left Boston in 1973, in December, to assume duties with the House Administration Committee, an attorney by the name of Jerry Rovner, R-o-v-n-e-r, ran that office to conduct his own law practice. But for 1974, all of the expenses were paid by Mr. McGarry. Mr. McGarry performed no legal services in 1974, and, as indicated,

Mr. President, I may want to read transcript from the regular committee hearing as well, to underscore it, as this report is being given now. That would be at a much later time:

received no fees for legal services except for those services rendered prior to the end of 1973. Although not particularly exhaustive, the above items set forth the additional information that had been provided to the Committee prior to the November 2 and 4 hearing dates which explained or expanded upon John McGarry's answers to the Committee questionnaires. And I believe it was all distributed to the Committee members and staff at that time.

As we are all aware, the Committee was unable to complete the hearings and hear from either of the nominees during this session.

On November 10, 1977, Senator Howard Baker requested the Chairman to authorize the Committee staff to obtain more detailed information regarding the financial data submitted to the Committee by John McGarry, which brings us up to this meeting.

A series of questions has been provided Mr. McGarry to assure that he would have an opportunity to review his records and bring whatever data he felt might be helpful. These were sent to him on Wednesday, November 23, in Wellesley, Massachusetts, but not received until November 28, after his return from a previously planned vacation with his wife.

A supplemental series of questions relating to his income tax returns was sent to him on November 28, requesting that he bring with him written answers to these questions to be made part of the record with his income tax returns.

I believe that it goes without saying that we are all agreed that should any matters we discuss today require the review of additional records for a more complete answer or explanation of a question or situation, Mr. McGarry will be able to submit the pertinent information to the Committee in writing after that review.

And one final point. The Chairman of the Committee has directed that the matters discussed here today, and the material submitted by Mr. McGarry, are not to be discussed or made available to anybody outside of the Committee.

Mr. McGarry has provided written answers to the November 28th questions related to the income tax returns. A copy of that has been made available to everybody here today.

I interrupt myself for just a moment to underscore again that what I am reading here. Even though the chairman had made that directive to the committee all of these items in fuller discussion even than this committee report were brought into our open hearing as a part of the official record plus a GAO report that was made independent of the committee staff bringing forth even in greater detail all of these same items. So we have two public documents that have already been in published form as far as the public is concerned available to the press, and so forth, to which all of these matters in this particular report referred.

I shall try not to interrupt myself further and delay:

He has also provided answers to the first set of written questions, and a copy of that has also been distributed to everybody at the meeting.

The questions which were submitted to Mr. McGarry in the November 23 letter are divided into a number of fairly specific categories. And I believe it would be best if we could just take up each categody one at a time.

And that is what I plan to do even now.

So, to start with, I would like to review the questions in each category, and then give John McGarry an opportunity to provide us with the answers and information that he has put together.

I interrupt myself again, Mr. President, because I think this key is again a key to the whole procedure. Mr. McGarry was given every opportunity to provide the committee with information, with questions, that were asked and answered that he would provide with counsel or without counsel, in written form, varbally, and I say that Mr. McCarry as far as I am concerned cooperated in a most satisfactory manner with the committee.

Mr. McGarry on one occasion I remember was not feeling well. He had had some difficulty with his neck. He was in a very great state of discomfort and yet he sat through a long period of time waiting for the committee to begin and responded in a very courteous, gentlemanly fashion to these questions that were propounded to him. As he indicated, he had been through many of these questions with the staff and then he was through with these questions with the committee and he had been through them with the GAO investigator. In spite of all the repetitious character of these questions and the answers which he was giving, he maintained a great sense of dignity and decorum, and I feel he deserves the credit of all Members, even those who voted against him.

I reiterate again that my vote was in support of Mr. McGarry, and the procedure I am following here is only to protect the rights of the minority and to

maintain the bipartisan character of the Federal Elections Commission.

I am returning now to the record. I have reached page 8 of 140 pages of the first volume:

After that the staff members can ask any follow-up or additional questions related to these categories, if they wish to do so, and then we can go into the next category and follow the same procedure.

Now, discussion will be limited to those financial matters referred to in the written questions and any related matters which may arise from Mr. McGarry's answers. Any other matters that may come up or may occur will have to be deferred for now, and take them up either at a later time in writing or at another meeting that we might have, or a Committee meeting itself when the Committee resumes its hearings.

Larry, do you have anything?

Mr. L. SMITH. Yes, just a couple of points. To reiterate, the proceedings of today are to be kept in strict confidence to the Committee staff and that we are not to discuss it with anyone outside of the Committee, any members of the media, but it is for the use of the Committee members in the deliberations for this nomination.

This material, Mr. President, was to be made available which it was to the Members for their deliberations and the nomination and those deliberations took place in public. They were not executive sessions. Mr. McGarry on three occasions yielded any right that he wanted to impose or to call upon for an executive session. So this material, again let me emphasize is in greater, even greater detail than I am reading here tonight in two public documents; namely, the hearing record of the committee and the GAO report.

Now, I am going to continue again on page 8:

And just one point, in following up your last point—I would think that if anyone has any questions that maybe were not strictly covered in the written questions, they certainly could ask Mr. McGarry those questions today and give him time to submit his responses at a later time, particularly if they apply to the income tax forms, where there are questions. I think some of us have come up with questions after the time the written questions were submitted that maybe we would like to bring them up.

Mr. HALL. Well, there may be a situation, too, where after reviewing the material and the transcript there would be other questions, and after that, at that time, submit them to John over the holidays.

What I would like to do then is start with the first category which is a series of questions relating to Half Shell, Inc., and I will run through the questions that were submitted and then give Mr. McGarry an opportunity to provide the answers to them, and we can go on from that point.

In regard to the Half Shell, Inc., questions were essentially as follows: When was it formed? When did you invest in it and how much did you invest? Who were the partners at the time, and who are the present partners in Half Shell, Inc.? Who is purchasing your interest and how was the price determined? How many restaurants were opened by the corporation and where were they located? Which ones are still operating and what has happened to the others?

That provides the basis of the general questions that were submitted and at this time I would just let John McGarry go ahead and take the floor. It's all yours.

Mr. MCGARRY. Thank you. The Half Shell, Inc.—the exact legal name of that Massachusetts corporation is Boston Half Shell, Inc. This entity, a Massachusetts corporation, was formed in July 1938. I invested in it in July 1971; the amount of my investment was $57,470.

My partners then and throughout my relationship with that entity were Harold Buchhalter of 770 Boylston Street, Boston, Massachusetts; Lester J. Grant, 3301 N. E. 39th Street, Fort Lauderdale, Florida; Barry Hoffman, 404 Grove Street, Westwood, Massachusetts. The corporation has redeemed my stock the end of November, and at the time its redeemed my stock my partners were the same as I just recited to you.

As I pointed out, the corporation has redeemed my stock. The price was determined, for the most part, on the value of the corporation resulting from a management contract entered into by the corporation with a third party.

As for the number of restaurants opened by this Massachusetts entity, there was only one, and that is the one at 743 Boylston Street, Boston, Massachusetts.

Mr. GRIFFIN. Mr. President, will the the Senator from Oregon yield?

Mr. MARK O. HATFIELD. I did not understand.

Mr. GRIFFIN. Would the Senator from Oregon care to yield briefly?

Mr. MARK O. HATFIELD. Yes.

Mr. GRIFFIN. Maybe by unanimous consent.

Mr. MARK O. HATFIELD. Mr. President, I ask unanimous consent to yield without losing my right to the floor.

Mr. METZENBAUM. For what purpose does the Senator from Oregon yield? I would like to get out of here.

Mr. MARK O. HATFIELD. I would be very glad to say goodnight to the Senator from Ohio and wish him well.

Mr. GRIFFIN. If the Senator from Ohio cares to object that would be fine.

Mr. METZENBAUM. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. MARK O. HATFIELD:

However, two other restaurants, operating under the name Half Shell, were opened by two other separate entities, separate business entities with different principals, in Denver, Colorado, and Los Angeles, California.

Mr. GRIFFIN. Mr. President, would the Senator from Oregon yield for a question?

Mr. MARK O. HATFIELD. I would be happy to yield for a question without losing my right to the floor.

Mr. GRIFFIN. I wonder if the Senator from Oregon has had the opportunity to read the Wall Street Journal article of October 3, which article reads as follows:

DID CARTER NOMINEE TO ELECTION BOARD VIOLATE ETHICS RULES?

(By Jerry Landauer)

WASHINGTON—The strict "post-Watergate morality" that politicans always talk about these days will be tested in the Senate this week.

That test will come when the Senate considers President Carter's nomination of Democrat John Warren McGarry to a seat on the Federal Election Commission, a six-member agency that is supposed to supervise political fund raising.

As I say, this is an article that appeared October 3 in the Wall Street Journal written by Jerry Landauer, who is a very well-known and distinguished journalist. Continuing:

Mr. McGarry, a longtime congressional staffer, owes his nomination largely to his friendship with House Speaker Thomas "Tip" O'Neill. President Carter and the six Democrats on the Senate committee that backed Mr. McGarry's nomination have glossed over the nominee's failure to comply with the House code of ethical conduct by neglecting to disclose certain outside moneymaking activities.

Mr. McGarry wants to serve on the FEC to cap a career on Capitol Hill that began 24 years ago as a clerk on the House floor. His numerous friends, including Republicans such as Rep. Samuel Devine of Ohio, think he is well qualified to administer fund-raising and other election laws.

A NET WORTH OF $1.5 MILLION

Mr. McGarry doesn't need another government job for the money. While working part time or full time for the House, he practiced law on the side, negotiated business mergers, bought and leased a $450,000 computer, and invested in three profitable real-estate partnerships. He also invested in four corporations operating seafood restaurants, discotheques and other enterprises that were formed under the tax code's subchapter S, which allows investors special tax treatment.

But now Mr. McGarry's financial statement shows a net worth approaching $1.5 million. In recent years, his annual income, excluding a congressional salary of $36,000 to $40,000, generally exceeded $100,000, and in two of the last four years he wasn't required to part with a dime in federal taxes; one $5,000 investment yielded tax write-offs totaling $176,000.

Nothing in the House ethics rules, which were tightened last year, prohibited Mr. McGarry's sideline activities. And the Internal Revenue Service is satisfied with his tax deductions.

But it is Mr. McGarry's way of combining government service with other careers that is noteworthy. For one thing, he continued living in Boston even while working full time as special counsel for the House Administration Committee, a post he still holds. That job began in December 1973. Yet for tax purposes, he still regards the job as "temporary," and he has deducted up to $7,500 a year for air travel, hotels, restaurants and other costs of commuting between Boston and Capitol Hill.

LIMITING PUBLIC DISCLOSURE

In addition, Mr. McGarry has interpreted House ethics rules in a way that reduced public knowledge of his investments, business ventures and finances.

Some examples:

—In 1975, Mr. McGarry reported a capital gain of $20,193 "from sale of stock." He failed to identify the source of this gain, as the ethics rules required.

—Also in 1975, Mr. McGarry listed income of $10,224 "owed from prior years when not with the U.S. government." Again he didn't name the source, Melo-Tone Vending Co. On his tax returns for 1976—but not on the House disclosure form filed in April 1977—Mr. McGarry reported receiving $10,000 more from Melo-Tone Vending for legal services. This second fee didn't appear on House records until 1978, after President Carter had tapped him for appointment to the Federal Election Commission. Mr. McGarry's explanation: Although paid on the last days of 1976, the $10,000 check didn't arrive until early 1977.

—In 1973, Mr. McGarry rang up a $15,000 capital gain from the sale of his half-interest in a two-partner law firm. For 11 months that year, he worked in the House as a part-time contractor, and for one month he worked as a full-time employe. He didn't disclose the $15,000 gain, Mr. McGarry says, because he wasn't an employe of the House when it occurred.

No provision in the ethics rules supports that interpretation. On the contrary, the House Ethics Committee expects disclosure

of transactions occurring in the year "prior to the service of the person reporting."

—Besides the $15,000 paid in 1973, Mr. McGarry's former law partner paid him $85,000 as ordinary income from 1974 to 1976. Again Mr. McGarry failed to disclose, contending that he received this income not for previous legal services but for promising that he wouldn't compete against his partner for certain future business.

The agreement dissolving the partnership does contain a covenant against competition. But it states: "The sums to be paid to (Mr.) McGarry . . . are for his release of all claims to his proportionate share of contingent fees in pending litigation, fees due from clients for past legal services rendered and for unrealized receivables and uncollected fees.

(Mr. McGarry and his partner also agreed in writing to file a final tax return "no later than the date due." No return was filed. The IRS didn't squawk.)

—Besides working in the two-man partnership, Mr. McGarry also earned legal fees as a sole practitioner. Under the ethics rules, a Congressman or employe receiving more than $1,000 in any one year from a "professional organization" must tell the public. Mr. McGarry's annual receipts ranged up to $16,000, but he didn't disclose them. His reason: A sole practitioner isn't a "professional organization."

By this reasoning, scores of lawyers in the House, including Mr. McGarry's boss, Democrat Frank Thompson of New Jersey, could have accepted undisclosed legal fees without bumping against the ethics rules. Rep. Thompson has reported fees earned as a sole practitioner: "There isn't any question" that such income must be reported, says Mr. Thompson, who supports Mr. McGarry's nomination.

Yet the six Democrats on the Senate committee that sent Mr. McGarry's nomination to the Senate floor (Oregon Republican Mark Hatfield also endorsed him) say it isn't fair to nit-pick at Mr. McGarry's disclosure forms. In earlier years, rigid adherence to ethics codes wasn't deemed so essential, the Senators suggest, saying that "standards of reporting in both houses of Congress weren't so strict at that time."

Mr. McGarry, acknowledging some disclosure lapses, agrees with such defenses. "There's a whole new mood and attitude in the House now than there was back a few years ago," he contends.

If confirmed to the Election Commission, Mr. McGarry says, he would move from Boston to the capital, surrender outside ventures that conceivably could pose a conflict of interest, and insist on strict public disclosure of who is giving and getting campaign cash.

He adds: "I think the public has not only a right to know, but they should have the ability to find out easily."

I would say to the distinguished Senator from Oregon that I thought this article was important, and is at least some beginning of the discussions that will later ensue as far as this Senator is concerned, and perhaps speaking also for Senator BAKER, who was opposed to the nomination; and I wondered if the Senator from Oregon had had the opportunity to see that article. That was my question.

Mr. MARK O. HATFIELD. Yes, I have had the opportunity to read that some time back, but it was good to have my memory refreshed as to the theses that the Senator from Michigan, as well as the Senator from Tennessee, will carry on at a later point in our debate.

I recall those hearings. They were very long and tedious, as the Senator from Michigan knows. I suppose in some ways I was disadvantaged, again not being a lawyer, in following some of the questioning on these legal points, and perhaps did not have the same appreciation for the importance of some of these legal points that the Senator from Michigan had, which brought us to different conclusions as to the actual effect on the nomination of Mr. McGarry.

But I certainly know of the diligence with which the Senator from Michigan pursued those questions, in which he analyzed the documents, such as a copy of the contract agreement not to compete in the future; and they did raise some interesting questions that I suppose tended to confuse at least me, as a nonlawyer, more than to enlighten me.

But I assume that those who could understand had, of course, like in most of these questions of opinion, access to locate and lift from a given set of documents and circumstances——

Mr. METZENBAUM. Mr. President, will the Senator yield? I did not mean to interrupt the Senator's answer to the Senator from Michigan.

Mr. MARK O. HATFIELD. I would only say that I appreciate the Senator asking the question, and I reiterate my answer, that I have not read it of late, but it does put into a rather succinct manner what entailed a rather long discussion, and I shall get to that, hopefully, sometime tonight in this particular volume of the hearings.

Mr. GRIFFIN. I thank the Senator for yielding for that question.

Mr. METZENBAUM. Will the Senator from Oregon yield for a question?

Mr. MARK O. HATFIELD. Without losing my right to the floor, for a question.

Mr. METZENBAUM. Of course, the Senator from Ohio is very much concerned about the Senator from Oregon's voice holding out. The Senator from Ohio would like to inquire of the Senator from Oregon, why would you not be willing to bring up both of these nominations at the same time, since it is my understanding that it has been indicated and I am told that there is a willingness to bring Mr. Friedersdorf's nomination out on to the floor for confirmation promptly, because the hour is late and work is to be done.

I thought the Senator from Oregon had a point if they were only going to take up this one nomination and be unwilling to bring the other one up; but why, under the circumstances, since there is willingness to bring both of them up, is the Senator unwilling to follow that procedure?

Mr. MARK O. HATFIELD. I am really very happy that the Senator from Ohio posed the question. We did go over this particular point a little earlier in the evening with the majority leader, who very graciously made the proposal to discharge the Rules Committee and report the Republican nomination, that of Mr. Friedersdorf, directly to the floor, and also Chairman PELL had earlier in the day, when we failed to get a quorum in the committee, suggested that might be possible.

Now, I take that at face value, and that was certainly an effort, I think a very sincere effort, on the part of both Chairman PELL and the majority leader (Mr. ROBERT C. BYRD) to try to dispose of this once and for all; and I would personally like to do that very much. I would say to the Senator from Ohio. I would reiterate that I voted to report the nomination of Mr. McGarry out to the floor. Mine was one of those seven votes to two margin that Mr. McGarry's nomination was reported by.

But I said that I would have to object to the proposal to discharge the Rules Committee and short-circuit the normal hearing process. I would say to the Senator from Ohio that the Senate has charged the Rules Committee with the responsibility to investigate and to hold a hearing, to ask questions, to probe, and to get satisfactory answers on candidates whose names are submitted by the President to require confirmation through the Rules Committee process.

Now, I would say to the Senator from Ohio that no such hearing has been held on Mr. Friedersdorf, the Republican candidate. There was a preliminary type cursory hearing that we started this morning, that we could not complete, because it came to the hour where we could no longer meet, plus the fact that we did not have the FBI report, and we had just received the materials on Mr. Friedersdorf himself, and we did not have time to go through the questions that I had propounded to each of the other nominees, because we had not only had the hearing on Mr. McGarry, we had had a hearing on Mr. Zagoria, the previous Republican nominee, whose nomination was withdrawn by the President.

Therefore, I cite again, without going into detail, the example of when a committee of the Senate used that short-circuit method before, because they said, "Oh, we all know him."

Well, he was well known to many Senators, and that hearing then had to be repeated, in a sense, before the television cameras, because of the difficulties that they ran into on down the road, after his confirmation had been quickly pushed through the Senate.

Mr. METZENBAUM. Would the Senator from Oregon, then, be good enough to apprise me, because I did not know anything about this issue? I thought both men could be confirmed if the Rules Committee reports them out. Does the Senator from Oregon desire to preclude the U.S. Senate from confirming both of these nominations before we adjourn, or is the Senator from Oregon merely insisting that the Rules Committee convene a meeting and go through the process with respect to Mr. Friedersdorf, and then bring his matter back to the Senate? Obviously, the constraints of time would not provide much allowance for a full hearing under those circumstances. What is the Senator's wish?

Mr. MARK O. HATFIELD. I would say to the Senator from Ohio that if the committee had been able to fulfill its basic responsibility of not going through a charade, but going through an intensive hearing, as we have on other nominees, I would be very happy.

I support Mr. Friedersdorf. This is very difficult, because he is the Republican

nominee, whom I have known; I consider him a personal friend, and I highly commend the President for making this selection.

But I believe the integrity and the responsibility of the Rules Committee cannot be circumvented in order to expedite a confirmation process here on the floor.

I would also say that we had a meeting this morning. We had a meeting yesterday, I would say to my good friend the Senator from Ohio. We came to the floor and asked the majority leader to ask unanimous consent for the Rules Committee to meet off the floor 2 days ago, and there were two objections raised from the Democratic side of the aisle. We could only get four members of that Rules Committee to a meeting today.

Mr. ROBERT C. BYRD. Mr. President, will the Senator yield?

Mr. MARK O. HATFIELD. I am happy to yield without losing my right to the floor.

Mr. ROBERT C. BYRD. I will be glad to help the chairman and the Senator get a quorum of that Rules Committee tonight after the Senate goes out, or tomorrow morning, for the purpose of considering and reporting the nomination of Mr. Friedersdorf.

Mr. MARK O. HATFIELD. Well, I am very delighted with the majority leader's cooperation. I would only say we have tried three times in 3 days to get a quorum, meeting at rather decent hours, at 9 and 10 in the morning, and offering to meet off the floor in the afternoon.

Let me say to the Senator from West Virginia, let us lay all the cards out here on the table.

Mr. ROBERT C. BYRD. Would the Senator like——

Mr. MARK O. HATFIELD. Let me finish, if I may. One reason that a quorum has not been established in the Rules Committee is because of another happening in the Rules Committee.

That issue is the funding of the Select Committee on Indian Affairs. I want to say for the RECORD, as I did to the committee today, that we were establishing a bad precedent to design a lack of quorum on one issue, because that is what was creating the problem on Mr. Friedersdorf on a separate issue entirely.

Mr. ROBERT C. BYRD. Will the Senator yield?

Mr. MARK O. HATFIELD. I will be glad to yield without losing my right to the floor.

Mr. ROBERT C. BYRD. Mr. President, I ask that the Senator be able to yield without losing his right to the floor.

Mr. GRIFFIN. Objection.

The PRESIDING OFFICER. Objection is heard.

Mr. GRIFFIN. Maybe the majority leader will tell me what the request is. We are in a filibuster and the majority is playing hard ball.

Mr. ROBERT C. BYRD. We are not playing hard ball.

Mr. GRIFFIN. What does the Senator want to do?

Mr. ROBERT C. BYRD. I ask unanimous consent, Mr. President, that the Rules Committee be granted consent to meet during the session of the Senate tomorrow for the purpose of considering and reporting the nomination of Mr. Friedersdorf.

Mr. MARK O. HATFIELD. Mr. President, I reserve the right to object.

Mr. GRIFFIN. I object.

The PRESIDING OFFICER. Objection is heard by the Senator from Michigan.

Mr. METZENBAUM. I was asking some questions, and I would like to continue. I really am trying only to move forward so that I can get to some issues that I really would like to contest, which I think have significant merit, which are substantive issues. It is not too difficult to prolong this session, but if it is the intent of the Senator from Oregon, and if the Senator from Michigan joins in that intent, to kill both of these nominations in this session, then I think we ought to be apprised of that fact. Then, of course, it is up to the leadership as to which road they are going to go.

If that is not the intent, then it is quite obvious that the majority leader is prepared to help convene a meeting of the Rules Committee in order that the processes may be followed in order to confirm Mr. Friedersdorf and this present member who is up for confirmation.

All I am trying to find out is this: I am not trying to tell the Senator which way to go, but if he wants to kill them both, at least let us know that is his intent so I can go home and go to sleep. I think his objective can be reached in short order. If he wants to confirm them both, I think that can be achieved. If he wants to kill them both, I think that can be achieved. But I think we are entitled to at least a candid answer on that. I do not take issue with whatever position the Senator takes.

Mr. MARK O. HATFIELD. I would be very happy to respond to the Senator from Ohio as I did earlier in the evening as to my exact intent. My intent is to bring this nomination down. That is a candid response, is it not?

Mr. METZENBAUM. Yes.

Mr. MARK O. HATFIELD. My basic objective was to have had both of these candidates confirmed, because I support both of them. But I am not going to permit, if I can stop it through parliamentary procedure, the uncoupling of these two candidates, and I will not accept the proposition that we couple them on the basis of circumventing the normal hearing procedure of the Committee on Rules.

Mr. METZENBAUM. But if I may say to my friend from Oregon, as I understand the leader's statement and the statement of the chairman of the Rules Committee, they are not asking to circumvent. They are saying they will convene a meeting of the Rules Committee. I have no authority to speak for the leader, but I speak as a Member of the Senate. That is, it would seem to me the Senator could put this nomination aside until the Rules Committee had met with respect to Mr. Friedersdorf's nomination. After that was disposed of, when the Rules Committee met and there was a quorum, and assuming the Senator recommended them both, could not the Senator bring them both back to the floor? Would not that be simple?

Mr. MARK O. HATFIELD. I wish it were that simple. Let me say the FBI report is not here, or I have not seen it if it has come. No FBI report has been given to the committee with respect to Mr. Friedersdorf. When the Senator suggests a hearing on Mr. Friedersdorf, that would only be a partial hearing. There are many questions I would like to put to him.

We could go through that procedure. But if the FBI report is not here, then that hearing is not complete. Therefore, what good does it do to convene a hearing which cannot be completed when we have tried for 3 days to get a quorum and we have not been able to get a quorum?

I would not agree to a unanimous-consent procedure which would restrict the Rules Committee. We have other business we might want to take up, and we would take up, as far as my efforts, on the Indian question. That is the very thing that I could not acquiesce to on a unanimous-consent agreement, of limiting the subject upon which the Rules Committee would be convened. I do not think any committee ought to have a contravention established in the procedure of issues they should take up and have not taken up, because of a failure to get a quorum.

Mr. METZENBAUM. The Senator from Oregon understands, I know, that I have not taken issue with him on any issue at all. As I understand what the Senator is now saying, it is that he thinks neither of these men can be confirmed during this session of the Senate and that they ought to be put over until January. Is that a correct interpretation?

Mr. MARK O. HATFIELD. I would say that the Senator must remember it has taken us 1 year to get Mr. McGarry to this point, 1 year. Now the Senator is suggesting that in 2 days we get the Republican candidate up. It is really flattering, in one sense, I suppose. It does not take much investigation of a Republican but it takes a long time for the Democrats.

Mr. METZENBAUM. It shows what the Democrats are willing to do for the minority party. What more? If we did it the other way around, the Senator would object to that. Here they took 1 year for McGarry and they are willing to take Friedersdorf in 2 days. The Senator is objecting to that?

Mr. MARK O. HATFIELD. Yes.

Mr. METZENBAUM. Is the Senator suggesting that both candidates be put off until January?

Mr. MARK O. HATFIELD. Let me say this: It does not have to be put off until January. I recited earlier article II, section 2 of the Constitution, which provides the President with ample authority, power, and direction to make recess appointments. Recess appointments would carry through the whole first year of the new session of the Congress if he resubmitted them within 40 days after the convening of the new Congress.

The President could put these two names in a recess appointment and have them serving on the Federal Elections Commission. But I shall not be a party to a quicky kind of hearing that denies to Mr. Friedersdorf the procedures that we have set up for all the other candi-

dates. He has the right to that kind of a hearing. I do not think it puts the Senate in a very good position to set a precedent of pushing through a candidate in the last 2 days of the session, even though he is a Republican. I shall not be a party to it.

Mr. METZENBAUM. Will the Senator from Oregon agree that it would be far worse to do what he is suggesting, to have the President appoint somebody to sit on the Federal Elections Commission for a period of a year, I think the Senator said the appointment could be made, when we are out of session, without that FBI investigation? Would it not be far better for the Rules Committee to go forward with the hearing without the FBI investigation and at least be able to inquire of Mr. Friedersdorf afterwards in that situation? Or if the Senator does not like that, would it not be far better to put the two men aside and wait until January and not have the two vacancies on the Federal Elections Commission?

I for one would not like to think that somebody was sitting on that Federal Elections Commission who had not been screened by the FBI, making decisions, making precedents, making new rules.

I really have difficulty in understanding how, in the Senator's desire to get the Rules Committee to follow the normal procedures, he is now suggesting a procedure for the President to circumvent the FBI.

Mr. MARK O. HATFIELD. The Senator has totally misread my comment, totally misunderstood it. Let me reiterate and restate it, please. I do not want this confusion to continue. I did not make any recommendation to the President. I merely said, in answer to the Senator's question what are the options, there is an option.

I am not suggesting or recommending to the President that he go this route. The President does not have to make any appointments. Let me remind the Senator, the people who are there now will continue to serve on the Elections Commission until a new person is qualified. So we are not holding up the power or the responsibilities and activities of the commission, and we are not pressing against a situation where there is a vacancy meaning the person is not in a position of service.

Those people are in positions of serving tonight and they will continue to do so whether it is tomorrow we confirm, next month we confirm, in January, or if we do not confirm; they will still be in those positions of serving.

I do not care what the President does. I am only saying, No. 1, I support Mr. McGarry; No. 2, I support Mr. Friedersdorf. But No. 3, I will not be a party to uncoupling these two, leaving the Republican on the beach and putting the Democratic candidate in position, nor will I be a party to a quickie, shortcircuited charade of a hearing that is all we have had. If the Senator from Ohio thinks he can get a quorum at our Rules Committee when the chairman has not been able to for 13 days in a row, I would be very happy to hear Mr. Friedersdorf, I would be happy to call Mr. Friedersdorf and have him here in 20 minutes if I could get him here.

I am ready to do business. But I will not be a party to letting this body confirm the Democratic candidate, as I say, and leaving the Republican candidate on the beach for the next Congress.

Mr. METZENBAUM. I understand the position of the chairman of the Rules Committee and the majority leader. They are not suggesting the uncoupling. As a matter of fact, they are suggesting that there be a hearing of the Rules Committee or, absent that, that they bring Friedersdorf to the floor by suspending the rules.

I cannot get a quorum of the Rules Committee, but I say that the leader of the U.S. Senate can get a quorum of the Rules Committee together.

Has the Senator from Oregon now indicated that if there is a quorum of the Rules Committee and Mr. Friedersdorf is brought out, then the Senator from Oregon will be satisfied, or will he only be satisfied if there is an FBI report?

Mr. MARK O. HATFIELD. I shall only be satisfied if we follow the regular procedures that that committee has set for all the other nominees, which includes an FBI report.

Mr. METZENBAUM. Is it a fact, I ask the Senator from Rhode Island, that the FBI report is not presently available?

Mr. PELL. As a general rule, we do not receive the FBI reports unless we ask for them. As far as the other appointees to the Commission, Mrs. Aikens, Tiernan, Harris, Springer, Thompson, Staebler—I remember the day of their hearings and I do not recall—maybe the ranking minority member will correct me—I do not recall that any of those hearings took much more than 5 minutes of questions.

I also point out that in connection with this morning's hearing, it was not a charade. To have a hearing, all you need is a quorum of one and we had four. The questions were fairly deep and satisfactory, as long, as I said earlier, as some of the hearings on people we have had before.

From the security viewpoint, Mr. Friedersdorf has his top secret security clearance in his capacity as a director of the Republican Policy Committee.

It is a most peculiar position. We Democrats are carrying water on our shoulders to do all we can in order to help the director of the Republican Policy Committee receive a Federal appointment. The Republicans, by the same token, are seeking to uncouple a marriage of convenience—this alliance of the two. I think the situation is very much like Alice in Wonderland.

Mr. METZENBAUM. I thank the Senator from Rhode Island.

Mr. MARK O. HATFIELD. Mr. President, I was on page 10 of the first volume.

Mr. ROBERT C. BYRD. Mr. President, will the Senator yield?

Mr. MARK O. HATFIELD. I am very happy to yield to the majority leader without losing my right to the floor.

CONSENTING TO AMENDMENT OF THE CONSTITUTION OF THE STATE OF NEW MEXICO

Mr. ROBERT C. BYRD. Mr. President, as in legislative session, I ask unanimous consent that the Committee on Energy and Natural Resources be discharged from further consideration of House Joint Resolution 757 and that the Senate proceed to its immediate consideration. This has been cleared on both sides.

The PRESIDING OFFICER. Is there objection? The Chair hears none.

The clerk will state the resolution by title.

The legislative clerk read as follows:

A joint resolution (H.J. Res. 747) to consent to an amendment of the constitution of the State of New Mexico to provide a method for executing leases and other contracts for the development and operation of geothermal steam and waters on lands granted or confirmed to such State.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the resolution.

The resolution (H.J. Res. 747) was considered and passed.

Mr. ROBERT C. BYRD. Mr. President, I move to reconsider the vote by which the joint resolution was passed.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

POSTPONEMENT OF CALENDAR ITEM

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that consideration of Calendar Order No. 1100, S. 50 be indefinitely postponed.

The PRESIDING OFFICER. Without objection, it is so ordered.

NATIVE HAWAIIAN EDUCATION ACT

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar Order No. 1123.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senate proceeded to consider the bill (S. 857) to amend the Indian Education Act and certain other related education assistance programs to provide Federal financial assistance to Hawaiian Natives, and for other purposes, which had been reported from the Select Committee on Indian Affairs with an amendment to strike all after the enacting clause and insert the following:

That this Act may be cited as the "Native Hawaiian Education Act".

CONGRESSIONAL FINDINGS

SEC. 2. (a) The Congress finds that—

(1) striking similarities exist between Native Hawaiians and other Native American peoples with regard to their historic and political relationships with the United States and their present day circumstances;

(2) like other Native Americans, Native Hawaiians rank among the lowest in level of educational attainment and per capita income; and

(3) existing Federal assistance in the field of education fails to address the basic and special needs of Native Hawaiians.

DECLARATION OF POLICY

SEC. 3. (a) The Congress hereby recognizes the need to develop a uniform Federal policy with respect to the eligibility of Native Hawaiians for special Federal assistance commensurate with their status as Native Americans.

(b) The Congress declares its commitment to providing the quantity and quality of educational services and opportunities which Native Hawaiians need and desire.

PART A—REVISIONS OF IMPACTED AREAS PROGRAM AS IT RELATES TO NATIVE HAWAIIAN CHILDREN

SEC. 4. The Act of September 30, 1950 (Public Law 874, Eighty-first Congress) is amended by redesignating title IV as title V, by redesignating sections 401 through 403 and references thereto as sections 501 through 503, respectively, and by adding after title III the following new title:

"TITLE IV—FINANCIAL ASSISTANCE TO LOCAL EDUCATIONAL AGENCIES FOR THE EDUCATION OF NATIVE HAWAIIAN CHILDREN

"SHORT TITLE

"SEC. 401. This title may be cited as the 'Native Hawaiian Elementary and Secondary School Assistance Act'.

"PROGRAM AUTHORIZED

"SEC. 402. The Commissioner shall carry out a program of making grants to local educational agencies in accordance with the provisions of this title.

"GRANTS TO LOCAL EDUCATIONAL AGENCIES

"SEC. 403. (a) For the purpose of computing the amount to which a local educational agency is entitled under this title for any fiscal year ending prior to October 1, 1983, the Commissioner shall determine the number of Native Hawaiian children who were enrolled in the schools of a local educational agency, and for whom that agency provided free public education, during that fiscal year.

"(b)(1) The amount of the grant to which a local educational agency is entitled under this title for any fiscal year shall be an amount equal to (i) the average per pupil expenditure for that agency (as determined under subparagraph (2)) multiplied by (ii) the sum of the number of children determined under subsection (a).

"(2) For the purposes of this subsection, the average per pupil expenditure for a local educational agency shall be the aggregate current expenditures, during the second fiscal year preceding the fiscal year for which the computation is made, of all the local educational agencies in the State in which that agency is located, plus any direct current expenditures by that State for the operation of those agencies (without regard to the sources of funds from which either of those expenditures are made), divided by the aggregate number of children who were in average daily enrollment for whom those agencies provided free public education during that preceding fiscal year.

"(c) In addition to the sums appropriated for grants to local educational agencies under this title, there is authorized to be appropriated for any fiscal year an amount not to exceed 10 per centum of the amount appropriated for payments computed under subsection (b) for that fiscal year. From the amount appropriated for the purpose of this section, the Commissioner is authorized to provide financial assistance to schools which are not local educational agencies or have not been local educational agencies for more than three years.

"USES OF FEDERAL FUNDS

"SEC. 404. (a) Grants under this title may be used, in accordance with applications approved under section 405, for—

"(1) planning for and taking other steps leading to the development of programs specifically designed to meet the special educational needs of Native Hawaiian children, including pilot projects designed to test the effectiveness of plans so developed; and

"(2) the establishment, maintenance, and operation of programs including minor remodeling of classrooms or other space used for these programs and acquisitions of necessary equipment, specially designed to meet the special educational needs of Native Hawaiian children.

"(b) A program or project assisted under this part may include the participation of non-Native Hawaiian children where that participation does not frustrate or inhibit the achievement of the purpose of the program as set out in subsection (a).

"APPLICATIONS FOR GRANTS; CONDITIONS FOR APPROVAL

"SEC. 405. (a) A grant under this title, except as provided in section 403(c), may be made only to a local educational agency or agencies, and only upon application to the Commissioner at such time or times, in such manner, and containing or accompanied by such information as the Commissioner deems necessary. Such application shall—

"(1) provide that the activities and services for which asssitance under this title is sought will be administered by or under the supervision of the applicant;

"(2) set forth a program for carrying out the purposes of section 404, and provide for such methods of administration as are necessary for the proper and efficient operation of the program;

"(3) in the case of an application for payments for planning, provide that (A) the planning was or will be directly related to programs or projects to be carried out under this title and has resulted, or is reasonably likely to result, in a program or project which will be carried out under this title, and (B) the planning funds are needed because of the innovative nature of the program or project or because the local educational agency lacks the resources necessary to plan adequately for programs and projects to be carried out under this title;

"(4) provide that effective procedures, including provisions for appropriate objective measurement of educational achievement, will be adopted for evaluating at least annually the effectiveness of the programs and projects in meeting the special educational needs of Native Hawaiian students;

"(5) set forth policies and procedures which will ensure that Federal funds made available under this title for any fiscal year will be so used as to supplement and, to the extent practical, increase the level of funds from local, State, and other Federal sources that would, in the absence of Federal funds under this title, be made available by the applicant for the education of Native Hawaiian children and in no cost supplant such funds;

"(6) provide for such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of, and accounting for, Federal funds paid to the applicant under this title; and

"(7) provide for making an annual report and such other reports, in such form and containing such information, as the Commissioner may reasonably require to carry out his functions under this title and to determine the extent to which funds provided under this title have been effective in improving the educational opportunities of Native Hawaiian students in the area served, and for keeping such records and for affording such access thereto as the Commissioner may find necessary to assure the correctness and verification of such reports.

"(b) An application by a local educational agency or agencies for a grant under this title may be approved only if it is consistent with the applicable provisions of this title and—

"(1) meets the requirements set forth in subsection (a);

"(2) provides that the program or project for which application is made—

"(A) will utilize the best available talents and resources (including persons from the Hawaiian Native community) and will substantially increase the educational opportunities of Native Hawaiian children in the area to be served by the applicant; and

"(B) has been developed—

"(i) in open consultation with parents of Native Hawaiian children enrolled in the applicant's schools, teachers of those children, and, where applicable, Native Hawaiian secondary school students, including public hearings at which such persons have had a full opportunity to understand the program for which assistance is being sought and to offer recommendations thereon, and

"(ii) with the participation and approval of a committee composed of, and selected by, parents of Native Hawaiian children enrolled in the applicant's schools, teachers of those children, and, where applicable, Native Hawaiian secondary school students with such parents constituting a majority of the committee. In the State of Hawaii there shall be seven such committees created in accordance with the boundaries of existing school board districts as set out in title 18, section 296-7 of Hawaii Revised Statutes (1968) except that no committee shall be created to serve any at-large district. The participation and approval of each such committee representing an area to be served by the applicant shall be required.

"(C) sets forth such policies and procedures as will insure that the program for which assistance is sought will be operated and evaluated in consultation with, and the involvement of, parents of the Native Hawaiian children and representatives of the area to be served, including the committee established for the purposes of clause (2)(B)(ii).

"(c) Amendments of applications shall, except as the Commissioner may otherwise provide by or pursuant to regulations, be subject to approval in the same manner as original applications.

"PAYMENTS

"SEC. 406. (a) The Commissioner shall, subject to the provisions of section 407, from time to time pay to each local educational agency which has had an application approved under section 405, an amount equal to the amount expended by such agency in carrying out activities under its application.

"(b)(1) No payments shall be made under this title for any fiscal year to any local educational agency in a State which has taken into consideration payments under this title in determining the eligibility of that local educational agency in that State for State aid, or the amount of that aid, with respect to the free public education of children during that year or the preceding fiscal year.

"(2) No payments shall be made under this title to any local educational agency for any fiscal year unless the State educational agency finds that the combined fiscal effort (as determined in accordance with regulations of the Commissioner) of that agency and the State with respect to the provision of free public education by that agency for the preceding fiscal year was not less than such combined fiscal effort for that purpose for the second preceding fiscal year.

"ADJUSTMENTS WHERE NECESSITATED BY APPROPRIATIONS

"SEC. 407. (a) If the sums appropriated for any fiscal year for making payments under this title are not sufficient to pay in full the total amounts which all local educational agencies are eligible to receive under this title for that fiscal year, the maximum amounts which all such agencies are eligible to receive under this title for that fiscal year shall be ratably reduced. In case additional funds become available for making such payments for any fiscal year, during which the first sentence of this subsection is applicable, such reduced amounts shall be increased on the same basis as they were reduced.

"(b) In the case of any fiscal year in which the maximum amounts for which local edu-

cational agencies are eligible have been reduced under the first sentence of subsection (a), and in which additional funds have not been made available to pay in full the total of such maximum amounts under the second sentence of such subsection, the Commissioner shall fix dates prior to which each local educational agency shall report to him on the amount of funds available to it, under the terms of section 406(a) and subsection (a) of this section, which it estimates, in accordance with regulations of the Commissioner, that it will expend under approved applications. The amounts so available to any local educational agency, or any amount which would be available to any other local educational agency if it were to submit an approvable application therefor, which the Commissioner determines will not be used for the period of its availability, shall be available for allocation to those local educational agencies, in the manner provided in the second sentence of subsection (a), which the Commissioner determines will need additional funds to carry out approved applications, except that no local educational agency shall receive an amount under this sentence which, when added to the amount available to it under subsection (a) exceeds its entitlement under section 403.".

PART B—SPECIAL PROGRAMS AND PROJECTS TO IMPROVE EDUCATIONAL OPPORTUNITIES FOR NATIVE HAWAIIAN CHILDREN

AMENDMENT TO TITLE VIII OF THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965

SEC. 5. (a) Title VIII of the Elementary and Secondary Education Act of 1965 is amended by adding to the end thereof the following new section:

"IMPROVEMENT OF EDUCATIONAL OPPORTUNITIES FOR NATIVE HAWAIIAN CHILDREN

"SEC. 813. (a) The Commissioner shall carry out a program of making grants for the improvement of educational opportunities for Native Hawaiian children—

"(1) to support planning, pilot, and demonstration projects, in accordance with subsection (b), which are designed to test and demonstrate the effectiveness of programs for improving educational opportunities for Native Hawaiian children;

"(2) to assist in the establishment and operation of programs, in accordance with subsection (c), which are designed to stimulate (A) the provisions of educational services not available to Native Hawaiian children in sufficient quantity or quality, and (B) the development and establishment of exemplary educational programs to serve as models for regular school programs in which Native Hawaiian children are educated;

"(3) to assist in the establishment and operation of preservice and inservice training programs, in accordance with subsection (d), for persons serving Native Hawaiian children as educational personnel; and

"(4) to encourage the dissemination of information and materials relating to, and the evaluation of the effectiveness of, education programs which may offer educational opportunities to Native Hawaiian children.

"(b) The Comissioner is authorized to make grants to State and local educational agencies, and Native Hawaiian organizations to support planning, pilot, and demonstration projects which are designed to plan for, and test and demonstrate the effectiveness of, programs for improving educational opportunities for Native Hawaiian children, including—

"(1) innovative programs related to the educational needs of educationally deprived children;

"(2) bilingual and bicultural education programs and projects;

"(3) special health and nutrition services, and other related activities, which meet the special health, social, and psychological problems of Native Hawaiian children; and

"(4) coordinating the operation of other federally assisted programs which may be used to assist in meeting the needs of such children.

"(c) The Commissioner is also authorized to make grants to State and local educational agencies and to Native Hawaiian institutions and community organizations to assist and stimulate them in developing and establishing educational services and programs specifically designed to improve educational opportunities for Native Hawaiian children. Grants may be used—

"(1) to provide educational services not available to such children in sufficient quantity or quality, including—

"(A) remedial and compensatory instruction, school health, physical education, psychological, and other services designed to assist and encourage Native Hawaiian children to enter, remain in, or reenter elementary or secondary school;

"(B) comprehensive academic and vocational instruction;

"(C) instructional materials (such as library books, text books, and other printed, published, or audiovisual materials) and equipment;

"(D) comprehensive guidance, counseling, and testing services;

"(E) special education programs for handicapped and gifted and talented Native Hawaiian children;

"(F) early childhood programs;

"(G) bilingual and bicultural education programs; and

"(H) other services which meet the purposes of this subsection; and

"(2) for the establishment and operation of exemplary and innovative educational programs and centers, involving new educational approaches, methods, and techniques designed to enrich programs of elementary and secondary education for Native Hawaiian children.

"(d) The Commissioner is also authorized to make grants to institutions of higher education and to State and local educational agencies in combination with institutions of higher education, for carrying out programs and projects—

"(1) to prepare persons to serve Native Hawaiian children as teachers, teachers aides, counselors, social workers, and ancillary educational personnel; and

"(2) to improve the qualifications of such persons who are serving Native Hawaiian children in such capacities.

Grants for the purposes of this subsection may be used for the establishment of fellowship programs leading to an advanced degree, for institutes and, as part of a continuing program, for seminars, symposia, workshops, and conferences.

"(e) The Commissioner is also authorized to make grants to and contract with, public agencies, and institutions and Native Hawaiian organizations for—

"(1) the dissemination of information concerning education programs, services, and resources available to Native Hawaiian children, including evaluations thereof; and

"(2) the evaluation of the effectiveness of federally assisted programs in which Native Hawaiian children may participate in achieving the purposes of such programs with respect to such children.

"(f) Application for a grant under this section shall be submitted at such time, in such manner, and shall contain such information, and shall be consistent with such criteria, as may be established as requirements in regulations promulgated by the Commissioner. Such applications shall—

"(1) set forth a statement describing the activities for which assistance is sought;

"(2) in the case of an application for the purposes of subsection (c), subject to such criteria as the Commissioner shall prescribe, provide for the use of funds available under this section, and for the coordination of other resources available to the applicant, in order to insure that, with the scope of the purpose of the project, there will be a comprehensive program to achieve the purposes of this section;

"(3) in the case of an application for the purposes of subsection (c), make adequate provision for the training of the personnel participating in the project; and

"(4) provide for an evaluation of the effectiveness of the project in achieving its purposes and those of this section.

The Commissioner shall not approve an application for a grant under subsection (b) or (c) unless he is satisfied that such application, and any documents submitted with respect thereto, show that there has been adequate participation by the parents of the children to be served in the planning and development of the project, and that there will be such a participation in the operation and evaluation of the project.

"(g) For the purpose of making grants under this section there are hereby authorized to be appropriated $4,000,000 for the fiscal year ending September 30, 1981, and $5,000,000 for each of the two succeeding fiscal years.".

SPECIAL EDUCATION TRAINING PROGRAMS FOR TEACHERS OF NATIVE HAWAIIAN CHILDREN

SEC. 6. (a) The Commissioner is authorized to make grants and enter into contracts with institutions of higher education, and Native Hawaiian organizations, for the purpose of preparing individuals for teaching or administerng special programs and projects designed to meet the special educational needs of Native Hawaiian children and to provide inservice training for persons teaching in such programs. In carrying out his responsibilities under this section, the Commissioner is authorized to award fellowships and traineeships to individuals and to make grants to, and to enter into contracts with, institutions of higher education and Native Hawaiian organizations, for cost of education allowances.

(b) In the case of traineeships and fellowships, the Commissioner is authorized to grant stipends to, and allowances for, dependents of persons receiving traineeships and fellowships.

(c) There is authorized to be appropriated $500,000 for the fiscal year ending September 30, 1981, and for each of the three succeeding fiscal years to carry out the provisions of this section.

FELLOWSHIPS FOR NATIVE HAWAIIAN STUDENTS

SEC. 7. (a) During the fiscal year ending September 30, 1981, and each of the three succeeding fiscal years, the Commissioner is authorized to award not to exceed one hundred fellowships to be used for study in undergraduate, graduate and professional programs at institutions of higher education. Such fellowships shall be awarded to Native Hawaiian students in order to enable them to pursue a course of study of not more than four academic years leading toward a professional or graduate degree in medicine, law, education, and related fields or leading to an undergraduate or graduate degree in engineering, business administration, natural resources, and related fields. In addition to the fellowships authorized to be awarded in the first sentence of this subsection, the Commissioner is authorized to award a number of fellowships equal to the number previously awarded during any fiscal year under this subsection but vacated prior to the end of the period during which they were awarded, except that each fellowship so awarded shall be only for a period of study not in excess of the remainder of the period of time for which the fellowship it replaces was awarded, as the Commissioner may determine.

(b) The Commissioner shall pay to per-

sons awarded fellowships under this subsection such stipends (including such allowances for subsistence of such persons and their dependents) as he may determine to be consistent with prevailing practices under comparable federally supported programs.

(c) The Commissioner shall pay to the institution of higher education at which the holder of a fellowship under this subsection is pursuing a course of study, in lieu of tuition charged such holder, such amounts as the Commissioner may determine to cover the cost of education for the holder of such a fellowship.

(d) There is authorized to be appropriated $500,000 for the fiscal year ending September 30, 1981, and for each of the three succeeding fiscal years to carry out the provisions of this section.

PART C—SPECIAL PROGRAMS TO ADULT EDUCATION FOR NATIVE HAWAIIANS

AMENDMENT TO THE ADULT EDUCATION ACT

SEC. 8. [Title III of the Elementary and Secondary Education Amendments of 1966.] The Adult Education Act is amended by redesignating sections 315 and 316, and all references thereto, as section 316 and 317, respectively, and by adding after section 314 the following new section:

"IMPROVEMENT OF EDUCATIONAL OPPORTUNITIES FOR ADULT NATIVE HAWAIIANS

SEC. 315. (a) The Commissioner shall carry out a program of making grants to State and local education agencies, and to Native Hawaiian institutions and organizations, to support planning, pilot, and demonstration projects which are designed to plan for, and test and demonstrate the effectiveness of, programs for providing adult education for Native Hawaiians—

"(1) to support planning, pilot, and demonstration projects which are designed to test and demonstrate the effectiveness of programs for improving employment and educational opportunities for adult Native Hawaiians;

"(2) to assist in the establishment and operation of programs which are designed to stimulate (A) the provision of basic literacy opportunities to all nonliterate Native Hawaiian adults and (B) the provision of opportunities to all Native Hawaiian adults to qualify for a high school equivalency certificate in the shortest period of time feasible;

"(3) to support a major research and development program to develop more innovative and effective techniques for achieving the literacy and high school equivalency goals;

"(4) to provide for basic surveys and evaluations thereof to define accurately the extent of the problems of illiteracy and lack of high school completion among Native Hawaiians;

"(5) to encourage the dissemination of information and materials relating to, and the evaluation of, the effectiveness of educational programs which may offer opportunities to Native Hawaiian adults.

"(b) The Commissioner is also authorized to make grants to, and contracts with, public agencies, and institutions, and Native Hawaiian organizations for—

"(1) the dissemination of information concerning educational programs, services, and resources available to Native Hawaiian adults, including evaluations thereof; and

"(2) the evaluation of the effectiveness of federally assisted programs in which Native Hawaiian adults may participate in achieving the purposes of such programs with respect to such adults.

"(c) Applications for a grant under this section shall be submitted at such time, in such manner, and contain such information, and shall be consistent with such criteria, as may be established as requirements in regulations promulgated by the Commissioner. Such applications shall—

"(1) set forth a statement describing the activities for which assistance is sought;

"(2) provide for an evaluation of the effectiveness of the project in achieving its purposes and those of this section.

The Commissioner shall not approve an application for a grant under subsection (a) unless he is satisfied that such application, and any documents submitted with respect thereto, indicate that there has been adequate participation by the individuals to be served in the planning and development of the project, and that there will be such a participation in the operation and evaluation of the project.

"(d) For the purpose of making grants under this section there are hereby authorized to be appropriated $2,000,000 for the fiscal year ending September 30, 1981, and $2,000,000 for each of the two succeeding fiscal years.".

SEC. 9. Section 441 of the Indian Education Act is amended by redesignating subsection (b) of such section, and all references thereto, as subsection (c) and by inserting after subsection (a) the following new subsection:

"(b) The Office of Indian Education shall have further responsibility for administering the provisions of title IV of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), section 813 of title VIII of the Elementary and Secondary Education Act of 1965, and section 315 of title III of the Adult Education Act.".

ADVISORY COUNCIL ON NATIVE HAWAIIAN EDUCATION

SEC. 10. (a) There is hereby established the Advisory Council on Native Hawaiian Education (referred to in this title as the Council), which shall consist of seven members who are Native Hawaiians appointed by the President of the United States. Such appointments shall be made by the President from lists of nominees furnished, from time to time, by Native Hawaiian organizations.

(b) The Council shall—

(1) advise the Commissioner of Education with respect to the administration (including the development of regulations, administrative practices, and policies) of any program in which Native Hawaiian children or adults participate from which they can benefit, including title IV of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), as added by this Act, and section 813, title VIII of the Elementary and Secondary Education Act of 1965, as added by this Act and with respect to adequate funding thereof;

(2) review applications for assistance under title IV of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), as added by this Act, section 813 of title VIII of the Elementary and Secondary Education Act of 1965, as added by this Act, and section 315 of the Adult Education Act, as added by this Act, and make recommendations to the Commissioner regarding their approval;

(3) evaluate program and projects carried out under any program of the Department of Health, Education, and Welfare in which Native Hawaiian children or adults can participate or from which they can benefit and disseminate the results of such evaluations;

(4) provided technical assistance to local educational agencies and to Native Hawaiian organizations to assist them in improving the education of Native Hawaiian children;

(5) assist the Commissioner is developing criteria and regulations for the administration and evaluation of grants made under section 403(b) of the Act of September 20, 1950 (Public Law 874, Eighty-first Congress); and

(6) to submit to the Congress not later than March 31 of each year a report on its activities, which shall include any recommendations it may deem necessary for the improvement of Federal education programs in which Native Hawaiian children and adults participate, or from which they can benefit, which report shall include a statement of the Council's recommendations to the Commissioner with respect to the funding of any such programs.

(c) With respect to functions of the Council stated in clauses (2), (3), and (4) of subsection (b), the Council is authorized to contract with any public or private nonprofit agency, institution, or organization for assistance in carrying out such functions.

(d) From the sums appropriated pursuant to section 400(c) of the General Education Provision Act which are available for the purposes of section 411 of such Act and for part D of such Act, the Commissioner shall make available such sums as may be necessary to enable the Council to carry out its functions under this section.

DEFINITIONS

SEC. 11. For the purposes of this Act—

(a) the term "Native Hawaiian" means any individual whose ancestors were natives of the area which consisted of the Hawaiian Islands prior to 1778;

(b) the term "Native Hawaiian organization" shall include Native Hawaiian nonprofit institutions and agencies as well as Native Hawaiian community organizations; and

(c) the term "parent" includes a legal guardian or other person standing in loco parentis.

UP AMENDMENT NO. 2109

Mr. ROBERT C. BYRD. Mr. President, on behalf of Mr. INOUYE, I send an amendment to the desk and ask that the clerk state it.

The PRESIDING OFFICER. The amendment will be stated.

The legislative clerk read as follows:

The Senator from West Virginia (Mr ROBERT C. BYRD), for Mr. INOUYE, proposes an unprinted amendment numbered 2109.

On page 8, line 9, strike out "The" and insert in lieu thereof "Beginning with the fiscal year 1980, the".

On page 8, beginning on line 15, strike out "ending prior to October 1, 1983" and insert in lieu thereof "during the period beginning October 1, 1980, and ending September 30, 1983".

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment was agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

The title was amended so as to read:

A bill to amend the Act of September 30, 1950 (Public Law 874, Eighty-first Congress) to provide education programs for Native Hawaiians, and for other purposes.

Mr. ROBERT C. BYRD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

POSTPONEMENT OF CERTAIN CALENDAR ITEMS

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that Calendar Order No. 1189, S. 3078, be indefinitely postponed.

The PRESIDING OFFICER. Without objection, it is so ordered.

MILLER ACT AMENDMENTS

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar Order No. 1233.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senate proceeded to consider the bill (H.R. 3185) to amend the act commonly known as the Miller Act to raise the dollar amount of contracts to which such act applies from $2,000 to $25,000.

● Mr. HEINZ. Mr. President, I rise in strong support of H.R. 3185. This bill is substantially identical to my bill, S. 3359. Both bills have the Miller Act Bonding threshold from $2,000 to $25,000.

Mr. President, the Miller Act, in its present form, requires that all contractors post performance and payment bonds for any contract over $2,000. A performance bond guarantees that the contractor will complete the contract or the Government will be indemnified so that it will be able to finish the project by contracting with someone else. The payment bond guarantees that suppliers and workmen will be paid by the contractor.

The guarantors of these bonds are surety companies who screen potential contractors to insure that they have the ability to complete the contract. The Miller Act bonding threshold of $2,000, however, has the effect of screening out all new firms.

As ranking minority member of the Governmental Affairs Subcommittee on Federal Spending Practices, I was privileged to hold 1 day of hearings in Pittsburgh, Pa., last June on the problems of small and minority contractors in obtaining surety bonding. Witnesses at that hearing, which included contractors and other representatives of the minority business community, were unanimous in their call for changes in the Federal Miller Act.

To them, the Miller Act is a thorn in the side of the minority contractor. Over the past few years the Congress and the Executive have initiated a number of programs to promote and encourage the development of viable minority businesses. Such initiatives include:

The section 8(a) minority business set-aside program;

The local public works 10 percent minority business allocation;

H.R. 11318, which recently passed the Senate, requires that all contracts of less than $10,000 be set aside for small and minority contractor; and

Requirements that all Government procuring agencies establish small and minority business contracting goals.

A sizeable number of these contracts can be expected to go to minority construction companies. But the Miller Act requires that all construction contracts of greater than $2,000 be bonded and minority construction firms just cannot get bonding.

The effect of the Miller Act bonding threshold, then, is to exclude a sizeable number of firms from benefitting from the very programs set up to help them. With one hand the Government gives, and with the other it takes away. This is the thorn in the side of the minority contractors in Pittsburgh.

In testimony before the subcommittee in Florida and Pittsburgh, the Office of Minority Business Enterprise, Department of Commerce, called bonding the No. 1 need of the minority contractor. In support of raising the Miller Act bonding limit, OMBE cited the following reasons:

First. The current application of the act often precludes the average small or minority construction firm from participating in Federal construction;

Second. Because of the nature of the surety bonding business, surety companies are reluctant to write bonds for small contracts; the administrative costs are the same as those for large contracts, but the revenue is much less since it is based on a flat rate which does not vary according to the degree of risk;

Third. Inflation has spiraled the cost of construction;

Fourth. The Miller Act does not provide any alternatives to bonding for a contractor who is denied a bond arbitrarily, or by discrimination or for purposes beneficial to another contractor; and

Fifth. The existing inspection procedures, completion of approvals, withholding of retainage, et cetera, and the built-in cost to the Government of administering these safeguards appear to add unnecessarily to the total job cost when coupled with the bond premiums paid.

In testimony, the Small Business Administration called the Miller Act, in its present form, outmoded. SBA further stated that the burden to bond contractors cannot continue to be the sole responsibility of the sureties. They particularly cited the 8(a) program where a contract can be offered with relative ease, but that there can be exasperating difficulties in obtaining a surety bond.

The Miller Act was passed in 1935, when $2,000 meant a large contract. Today, it is a barrier to the small and minority contractor. Raising the limit to at least $25,000, as proposed in S. 3359, is consistent with the intent of the Miller Act but more realistic in the face of general inflation. That limit is also supported by the administration and the American Insurance Association, whose members account for 70 percent of the total surety bond premiums earned, in testimony before the House Judiciary Subcommittee on Administrative Law and Government Relations.

S. 3359 is a modest step to insure that the small and minority contractor is not locked out of Government contracts and I strongly urge that the Senate pass this bill.

Mr. President, when I cosponsored H.R. 3185 with my distinguished colleague, the Senator from the State of Florida (Mr. CHILES), I also offered an amendment to that bill to raise the Miller Act threshold even further, to $50,000. As the bill was reported from the Governmental Affairs Committee, all contracts for the construction, repair, and alteration of Government buildings or public works costing $25,000 or less would be exempt from the Miller Act. My amendment proposed that all contracts of $50,000 or less be exempt from the bonding requirement.

Approximately 40 percent of all construction contracts are for less than $25,000. But those 40 percent account for less than 7 percent of the total Federal dollars spent on construction. On the other hand, 53 percent of all contracts are for less than $50,000 which account for less than 14 percent of all Federal contract dollars.

In view of the restrictive nature of the Miller Act, I was persuaded that a $50,000 threshold would be needed to insure that small and minority contractors are not locked out of Federal construction contracts. Witnesses at the hearing before the Subcommittee on Federal Spending Practices in Pittsburgh were unanimous in their call for at least a $50,000 threshold. This level, they felt, would provide them the real stimulus they needed to insure that they would obtain construction contracts and the proper base from which they could exhibit real performance.

However, I believe it is most important to insure that the restrictions in the Miller Act are loosened. Therefore, rather than offer my amendment at this time, I am supporting H.R. 3185 as reported by the Governmental Affairs Committee.

But the problems with surety bonding experienced by the small and minority contractor will not go away with the passage of this bill. Surety bonding is a fact of life in the construction industry. To survive and prosper the small and minority contractor must eventually be able to get bonding. Whether, the Miller Act threshold is $25,000 or $50,000 is not very important if that threshold is a ceiling to the contractor who cannot get bonding at all.

Therefore, I have asked, and Senator CHILES has agreed, that the Subcommittee on Federal Spending Practices will hold additional hearings on the whole subject of surety bonding and Federal contracts. We need to explore real solutions to the problems and I know Senator CHILES would agree with me on this. With these assurances of additional hearings, I have decided not to offer my amendment to H.R. 3185.●

Mr. STEVENS. Mr. President, I urge rapid approval of H.R. 3185, which amends the Miller Act. The Miller Act was designated to protect the Government from construction contractors defaulting on their contracts by requiring a bond in the amount of one-half the contract cost. The act, however, has created a hardship on minority contractors who cannot produce the bond. Presently, the act only applies to contracts in excess of $2,000. Senate bill 3359 raises the exemption to $25,000.

Mr. President, these days $2,000 contracts are very few. In my State of Alaska, where costs are 25 percent higher than elsewhere in the country, $2,000 contracts are virtually unheard of. It seems ironic that the Federal Government has initiated numerous programs designed to help minority contractors and then indirectly cuts off their opportunities by requiring surety bonds for Federal contracts. Contractors under

$25,000 still represent a small percentage of construction revenues, but I believe this bill takes a necessary step to encourage minority opportunities and to give everyone a fair shot at winning contracts.

The bill as ordered to a third reading, read the third time, and passed.

Mr. ROBERT C. BYRD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. HEINZ. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. ROBERT C. BYRD. I ask unanimous consent that Calendar Order No. 1191 be indefinitely postponed.

The PRESIDING OFFICER. Without objection, it is so ordered.

DUTY ON 2-METHYL-4-CHLORO-PHENOL

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar Order No. 1221.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senate proceeded to consider the bill (H.R. 5551) to suspend until the close of June 30, 1980, the duty on 2-methly-4-chlorophenol, which had been reported from the Committee on Finance with amendments as follows:

On page 1, line 5, strike "immediately before item 907.80" and insert "in numerical sequence";

On page 1, following line 6, strike "907.78 2-methyl, 4-chlorophenol" and insert "907.08 2-Methyl-4-chlorophenol";

On page 2, beginning with line 1, strike through and including line 4, and insert in lieu thereof the following:

"SEC. 2. DEFINITION OF MIXED FEEDS.

Headnote 1(b) of the headnotes to schedule 1, part 15, subpart C of the Tariff Schedules of the United States is amended to read as follows:

"(b) the terms 'mixed feeds' and 'mixed-feed ingredients' in item 184.70 embrace products which are admixtures of grains (of products, including byproducts, obtained in milling grains) or of soybeans (or products, including byproducts, obtained in processing soybeans) with molasses, oil cake, oil-cake meal, or other feedstuffs (except that there shall not be included in the terms 'mixed feeds' and 'mixed-feed ingredients' in items 184.70 products which are admixtures of soybeans or soybean products with other soybean products, or of soybeans or soybean products with milk products, or with products containing milk or milk derivatives) and which consist of not less than 6 percent by weight of said grains or grain products or of said soybeans or soybean products."

SEC. 3. EFFECTIVE DATES.

The amendments made by this Act shall apply with respect to articles entered, or withdrawn from warehouse, for consumption on or after the date of enactment of this Act.

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the amendments be considered and agreed to en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. METZENBAUM. Will the leader be good enought to advise what this is? Is this a measure to be brought up in order to add something on to it?

Mr. ROBERT C. BYRD. Mr. President, I am advised that it is just precisely what the title states and the Budget Committee had cleared it.

Mr. METZENBAUM. Does it have significant financial impact?

Mr. ROBERT C. BYRD. Apparently, the Budget Committee did not consider it such and Senator Proximire felt the same about it.

Mr. METZENBAUM. I have no objection.

The amendments were agreed to.

The amendments were ordered to be engrossed and the bill to be read a third time.

The bill was read the third time, and passed.

The title was amended so as to read:

An act to suspend until the close of June 30, 1980, the duty on 2-methyl-4-chlorophenol, and for other purposes.

Mr. ROBERT C. BYRD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BAKER. Mr. President, I note now that the notation on my calender has been removed, so we have no objection and I move to table the motion to reconsider.

The motion to lay on the table was agreed to.

ORDER OF BUSINESS

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Senate Resolution 574, which is at the desk, the Budget Waiver Resolution to Calendar Order 1123, S. 859, the Hawaiian Natives Education Assistance bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

BUDGET ACT WAIVER

The resolution (S. Res. 574) waiving section 402(a) of the Congressional Budget Act of 1974 with respect to consideration of S. 857, a bill to amend the act of September 30, 1950 (Public Law 874, Eighty-first Congress), to provide for education programs for Native Hawaiians, and for other purposes, was considered and agreed to, as follows:

Resolved, That pursuant to section 402(c) of the Congressional Budget Act of 1974, the provisions of section 402(a) of such Act are waived with respect to consideration of S. 857, a bill to amend the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), to provide education programs for Native Hawaiians, and for other purposes. This waiver is necessary in view of the committee's inadvertence in providing an effective authroization date for the program authorized in section 4 of S. 857. The committee intended fiscal year 1980 to be the effective authorization date. Such waiver will permit consideration of an amendment to section 4 of S. 857 to correct this oversight.

CONSIDERATION OF CERTAIN RELIEF BILLS

Mr. ROBERT C. BYRD. Mr. President, there are various private relief bills. They have all been reported without exception, I understand, from Judiciary and Armed Services. I ask unanimous consent that the following bills be considered and adopted en bloc:

S. 1631, H.R. 1392, H.R. 1396, H.R. 1400, H.R. 1402, H.R. 1406, H.R. 1428, H.R. 1446, H.R. 1449, H.R. 1450, H.R. 1748, H.R. 1750, H.R. 1753, H.R. 1775, H.R. 1777, H.R. 1779, H.R. 1787, H.R. 1798, H.R. 1931, H.R. 1936, H.R. 1938, H.R. 1940.

H.R. 2253, H.R. 2256, H.R. 2259, H.R. 2291, H.R. 2292, H.R. 2369, H.R. 2553, H.R. 2558, H.R. 2658, H.R. 2662, H.R. 2758, H.R. 2759, H.R. 2939, H.R. 2940, H.R. 2944, H.R. 3090, H.R. 3217, H.R. 3613, H.R. 3625, H.R. 3835, HR. 4404, H.R. 4530, H.R. 4535, H.R. 4875.

H.R. 5163, H.R. 5230, H.R. 5933, H.R. 6664, H.R. 6801, H.R. 6934, H.R. 7387, H.R. 7419, H.R. 7550, H.R. 7604, H.R. 7653, H.R. 7795, H.R. 8192, H.R. 8308, H.R. 8751, H.R. 8810, H.R. 8927, H.R. 9352, H.R. 9568, H.R. 9611, H.R. 9613, H.R. 10407, H.J. Res. 489.

The distinguished minority leader has a list of these measures. I understand they have been cleared, but I yield to the distinguished minority leader.

Mr. BAKER. Mr. President, I thank the majority leader for yielding.

I do have that list. It has been cleared on this side. They are all relief bills. We have no objection to proceeding to consider them en bloc, as I understand it.

Mr. THURMOND. Could I ask a specific question?

Mr. METZENBAUM. Nothing more in these than that?

Mr. ROBERT C. BYRD. Correct.

Mr. THURMOND. I understand S. 1393 is not on that list. I just want to make sure. That is the institutionalized bill that gives the Attorney General——

Mr. ROBERT C. BYRD. That is a different type bill.

Mr. BAKER. Mr. President, I already advised the Senator from South Carolina that number is not on the list.

Mr. THURMOND. S. 1393.

Mr. BAKER. It is not on the list.

The PRESIDING OFFICER. The Chair would inform the Senator that the bill to which he referred is on the calendar.

Mr. ROBERT C. BYRD. That bill is not included in the list, may I say to the distinguished Senator from South Carolina.

CHAKRAPANI SETHUMADHAVAN

The bill (S. 1631) for the relief of Chakrapani Sethumadhavan, was considered, ordered to be engrossed for a third reading, read the third time, and passed, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, for the purposes of the Immigration and Nationality Act, Chakrapani Sethumadhavan shall be held and considered to have been lawfully admitted to the United States for permanent residence as of the date of the enactment of this Act upon payment of the required visa fee. Upon the granting of permanent residence to such alien as provided for in this Act, the Secretary of State shall instruct the proper officer to reduce by

one number, during the current fiscal year or the fiscal year next following, the total number of immigrant visas and conditional entries which are made available to natives of the country of the alien's birth under paragraph (1) through (8) of section 203(a) of the Immigration and Nationality Act.

MARIA MIRAFLOR CARABBACAN

The bill (H.R. 1392) for the relief of Maria Miraflor Carabbacan was considered, ordered to a third reading, read the third time, and passed.

MRS. SUN POK WINER

The bill (H.R. 1396) for the relief of Mrs. Sun Pok Winer was considered, ordered to a third reading, read the third time, and passed.

STEFAN KOWALIK

The bill (H.R. 1400) for the relief of Stefan Kowalik was considered, ordered to a third reading, read the third time, and passed.

ROSARIO A. CALVIN

The bill (H.R. 1402) for the relief of Rosario A. Calvin was considered, ordered to a third reading, read the third time, and passed.

LILIA ARUJO

The bill (H.R. 1406) for the relief of Lilia Arujo was considered, ordered to a third reading, read the third time, and passed.

MRS. ANGELITA SHORT

The bill (H.R. 1428) for the relief of Mrs. Angelita Short was considered, ordered to a third reading, read the third time, and passed.

LESTER BRUCE PRIDAY

The bill (H.R. 1446) for the relief of Lester Bruce Priday was considered, ordered to a third reading, read the third time, and passed.

GEOFFREY PARNHAM

The bill (H.R. 1449) for the relief of Geoffrey Parnham was considered, ordered to a third reading, read the third time, and passed.

HILDEGARD G. BLAKELEY

The bill (H.R. 1450) for the relief of Hildegard G. Blakeley was considered, ordered to a third reading, read the third time, and passed.

CARMELA SOUDIERI

The bill (H.R. 1748) for the relief of Carmela Soudieri was considered, ordered to a third reading, read the third time, and passed.

ANTHONY ROGERS

The bill (H.R. 1750) for the relief of Anthony Rogers was considered, ordered to a third reading, read the third time, and passed.

MARINA HOUGHTON

The bill (H.R. 1753) for the relief of Marina Houghton was considered, ordered to a third reading, read the third time, and passed.

KARIN EHARD

The bill (H.R. 1775) for the relief of Karin Ehard was considered, ordered to a third reading, read the third time, and passed.

CATHY GEE YUEN

The bill (H.R. 1777) for the relief of Cathy Gee Yuen was considered, ordered to a third reading, read the third time, and passed.

GILBERTO TANEO GILBERSTADT

The bill (H.R. 1779) for the relief of Gilberto Taneo Gilberstadt was considered, ordered to a third reading, read the third time, and passed.

PAZ A. NORONA

The bill (H.R. 1787) for the relief of Paz A. Norona was considered, ordered to a third reading, read the third time, and passed.

KWONG LAM YUEN

The bill (H.R. 1798) for the relief of Kwong Lam Yuen was considered, ordered to a third reading, read the third time, and passed.

JUANA TODD ATHERLEY

The (H.R. 1931) for the relief of Juana Todd Atherley was considered, ordered to a third reading, read the third time, and passed.

LEE SO RYUNG

The bill (H.R. 1936) for the relief of Lee So Ryung was considered, ordered to a third reading, read the third time, and passed.

SANTOS MARQUEZ ARELLANO

The bill (H.R. 1938) for the relief of Santos Marquez Arellano was considered, ordered to a third reading, read the third time, and passed.

DIMITRIOS, ANGELIKI, AND GEORGIOS PANOUTSOPOULOS

The bill (H.R. 1940) for the relief of Dimitrios Panoutsopoulos, Angeliki Panoutsopoulos, and Georgios Panoutsopoulos, was considered, ordered to a third reading, read the third time, and passed.

RUBEN P. DIN

The bill (H.R. 2253) for the relief of Ruben P. Din was considered, ordered to a third reading, read the third time, and passed.

EDMUNDO ALFREDO OREIRO ESPINUEVA

The bill (H.R. 2256) for the relief of Edmundo Alfredo Oreiro Espinueva was considered, ordered to a third reading, read the third time, an passed.

ROGELIO M. ENCOMIENDA

The bill (H.R. 2259) for the relief of Rogelio M. Encomienda was considered, ordered to a third reading, read the third time, and passed.

CARMEN CECILIA BLANQUICETT

The bill (H.R. 2291) for the relief of Carmen Cecilia Blanquicett was considered, ordered to a third reading, read the third time, and passed.

BOULOS STEPHAN

The bill (H.R. 2292) for the relief of Boulos Stephan was considered, ordered to a third reading, read the third time, and passed.

NATIVIDAD AND MYRNA CASING

The bill (H.R. 2369) for the relief of Natividad Casing and Myrna Casing was considered, ordered to a third reading, read the third time, and passed.

YOUNG GUN KIM

The bill (H.R. 2553) for the relief of Young Gun Kim was considered, ordered to a third reading, read the third time, and passed.

DR. JOHN ALEXIS L. S. TAM AND YEUT SHUM TAM

The bill (H.R. 2558) for the relief of Doctor John Alexis L. S. Tam and Yeut Shum Tam was considered, ordered to a third reading, read the third time, and passed.

NORA L. KENNEDY

The bill (H.R. 2658) for the relief of Nora L. Kennedy was considered, ordered to a third reading, read the third time, and passed.

CHRISTOPHER ROBERT WEST

The bill (H.R. 2662) for the relief of Christopher Robert West was considered, ordered to a third reading, read the third time, and passed.

CARMEN PRUDENCE HERNANDEZ

The bill (H.R. 2758) for the relief of Carmen Prudence Hernandez was considered, ordered to a third reading, read the third time, and passed.

SEALIE VON KLEIST HERNANDEZ

The bill (H.R. 2759) for the relief of Sealie Von Kleist Hernandez was considered, ordered to a third reading, read the third time, and passed.

DERRICK MARIANO TAN

The bill (H.R. 2939) for the relief of Derrick Mariano Tan was considered, ordered to a third reading, read the third time, and passed.

DANIEL CROWLEY

The bill (H.R. 2940) for the relief of Daniel Crowley was considered, ordered to a third reading, read the third time, and passed.

RICKY LEE TRAUTVETTER

The bill (H.R. 2944) for the relief of Ricky Lee Trautvetter was considered, ordered to a third reading, read the third time, and passed.

FIDEL GROSSO-PADILLA

The bill (H.R. 3090) for the relief of Fidel Grosso-Padilla was considered, ordered to a third reading, read the third time, and passed.

MEEJA SA FOSTER

The bill (H.R. 3217) for the relief of Meeja Sa Foster was considered, ordered to a third reading, read the third time, and passed.

IRMA VICTORIA BOLARTE ALVARADO

The bill (H.R. 3613) for the relief of Irma Victoria Bolarte Alvarado was considered, ordered to a third reading, read the third time, and passed.

PETER NEAL SMITH

The bill (H.R. 3625) for the relief of Peter Neal Smith was considered, ordered to a third reading, read the third time, and passed.

PECE D. VAN ARSDOL

The bill (H.R. 3835) for the relief of Pece D. Van Arsdol was considered, ordered to a third reading, read the third time, and passed.

SUSAN SPURRIER

The bill (H.R. 4404) for the relief of Susan Spurrier was considered, ordered to a third reading, read the third time, and passed.

ELISABETTA BASSO GALLIZIO

The bill (H.R. 4530) for the relief of Elisabetta Basso Gallizio was considered, ordered to a third reading, read the third time, and passed.

KAZUKO NISHIOKA DOWD

The bill (H.R. 4535) for the relief of Kazuko Nishioka Dowd was considered, ordered to a third reading, read the third time, and passed.

ELIZABETH D. YEE KRAUS

The bill (H.R. 4875) for the relief of Elizabeth D. Yee Kraus was considered, ordered to a third reading, read the third time, and passed.

MARINELLE KHRISTY CRUZ

The bill (H.R. 5163) for the relief of Marinelle Khristy Cruz was considered, ordered to a third reading, read the third time, and passed.

JUNG IN BANG

The bill (H.R. 5230) for the relief of Jung In Bang was considered, ordered to a third reading, read the third time, and passed.

JONATHAN WINSTON MAX

The bill (H.R. 5933) for the relief of Jonathan Winston Max was considered, ordered to a third reading, read the third time, and passed.

LILY LIRIO GALINDO

The bill (H.R. 6664) for the relief of Lily Lirio Galindo was considered, ordered to a third reading, read the third time, and passed.

HYE JIN WILDER

The bill (H.R. 6801) for the relief of Hye Jin Wilder was considered, ordered to a third reading, read the third time, and passed.

DONNA MARIANNE BENNEY

The bill (H.R. 6934) for the relief of Donna Marianne Benney, was considered, ordered to a third reading, read the third time, and passed.

NOEL ABUEG EMDE

The bill (H.R. 7387) for the relief of Noel Abueg Emde was considered, ordered to a third reading, read the third time, and passed.

VASILIOS GEORGIOS VALCANOS

The bill (H.R. 7419) for the relief of Vasilios Georgios Valcanos was considered, ordered to a third reading, read the third time, and passed.

JOHANNE LAPOINTE

The bill (H.R. 7550) for the relief of Johanne Lapointe was considered, ordered to a third reading, read the third time, and passed.

MARGARET SOMERVILLE JEFFERIS

The bill (H.R. 7604) for the relief of Margaret Somerville Jefferis was considered, ordered to a third reading, read the third time, and passed.

JACKSON ORMISTON EDWARDS CUFFY AND MERLE CLEOPATRA EDWARDS CUFFY

The bill (H.R. 7653) for the relief of Jackson Ormiston Edwards Cuffy and Merle Cleopatra Edwards Cuffy, was considered, ordered to a third reading, read the third time, and passed.

VERONICA JUDITH HUDSON

The bill (H.R. 7795) for the relief of Veronica Judith Hudson was considered, ordered to a third reading, read the third time, and passed.

ANDREE MARIE HELENE McGRIFFIN

The bill (H.R. 8192) for the relief of Andree Marie Helene McGriffin was considered, ordered to a third reading, read the third time, and passed.

JAE KEUN CHRISTIANSON

The bill (H.R. 8308) for the relief of Jae Keun Christianson was considered, ordered to a third reading, read the third time, and passed.

FRANCESCO GIUTTARI

The bill (H.R. 8751) for the relief of Francesco Giuttari was considered, ordered to a third reading, read the third time, and passed.

KIM IN YUNG

The bill (H.R. 8810) for the relief of Kim In Yung was considered, ordered to a third reading, read the third time, and passed.

MONIKA GRANTZ

The bill (H.R. 8927) for the relief of Monika Grantz was considered, ordered to a third reading, read the third time, and passed.

JAMES WILLIAM DIBBEN

The bill (H.R. 9352) for the relief of James William Dibben was considered, ordered to a third reading, read the third time, and passed.

RENATE IRENE McCORD

The bill (H.R. 9568) for the relief of Renate Irene McCord was considered, ordered to a third reading, read the third time, and passed.

CRAIG DAY

The bill (H.R. 9611) for the relief of Craig Day was considered, ordered to a third reading, read the third time, and passed.

EUSTACE JOHN D'SOUZA

The bill (H.R. 9613) for the relief of Eustace John D'Souza was considered, ordered to a third reading, read the third time, and passed.

LING-YUNG KUNG

The bill (H.R. 10407) for the relief of Ling-Yung Kung was considered, ordered to a third reading, read the third time, and passed.

PERMANENT RESIDENCE TO CERTAIN ALIENS

The joint resolution (H.J. Res. 489) granting the status of permanent residence to certain aliens, was considered, ordered to a third reading, read the third time, and passed.

ANTHONY CASAMENTO

The bill (H.R. 3307) for the relief of Anthony Casamento, was considered, ordered to a third reading, read the third time, and passed.

RECALCULATION OF CERTAIN RETIRED PAY

The bill (H.R. 10343) to provide for recalculation of the retired pay of individuals who served as sergeant major of the Marine Corps before December 16, 1967, was considered, ordered to a third reading, read the third time, and passed.

RETURN OF WORLD WAR II SEIZED PAINTINGS

The bill (H.R. 11945) to authorize the Secretary of the Army to return to the Federal Republic of Germany 10 paintings of the German Navy seized by the U.S. Army at the end of World War II, was considered, ordered to a third reading, read the third time, and passed.

U.S. MILITARY ACADEMY STRUCTURE

The bill (H.R. 13416) to amend title 10, United States Code, to modernize the permanent faculty structure at the U.S. Military Academy, and for other purposes, was considered, ordered to a third reading, read the third time, and passed.

The PRESIDING OFFICER. Without objection, the bills will be considered en bloc.

Without objection, changes in the titles thereto will be considered en bloc and adopted.

Without objection, the bills as amended, if any thereto, are considered and passed.

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that it be in order to move to reconsider en bloc the votes by which the various measures were adopted.

The PRESIDING OFFICER. Without objection, the motion is in order.

Mr. ROBERT C. BYRD. Mr. President, I make that motion.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ORDER TO HOLD BILLS AT THE DESK

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that H.R. 13336 and H.R. 11545 be held at the desk pending further disposition.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXCHANGE STABILIZATION FUND

Mr. ROBERT C. BYRD. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 2093.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the House agree to the amendments of the Senate numbered 2 and 3 to the amendment of the House to the bill (S. 2093) entitled "An Act to provide that the Exchange Stabilization Fund shall not be available for payment of administrative expenses; and for other purposes."

Resolved, That the House agree to the amendment of the Senate numbered 1 to the amendment of the House to the aforesaid bill with an amendment as follows:

Page 1, of the Senate engrossed amendment, strike out all after line 4, over to and including line 19, page 2, and insert:

SEC. 3. (a)(1) Subject to the provisions of chapter 51 of title 5, United States Code, but notwithstanding the last two sentences of section 5108(a) of such title, the Secretary may place at GS–16, GS–17, and GS–18, no more than 61 positions of the positions subject to the limitation of the first sentence of section 5108(a) of such title.

(2) A person may be appointed to a position placed at GS–16, GS–17, or GS–18 under the authority of paragraph (1) only if such person, immediately before the effective date of this Act, held a position or has reemployment rights to a position—

(A) the duties of which were comparable to those of the position to which he is to be appointed; and

(B) for which the compensation derived from the stabilization fund established under section 10 of the Gold Reserve Act of 1934 (31 U.S.C. 822a).

Appointments made under this paragraph may be made without regard to the provisions of section 3324 of title 5, United States Code, relating to the approval by the Civil Service Commission of appointments to GS–16, GS–17, and GS–18.

(3) The Secretary's authority under this subsection with respect to any position shall cease when the person first appointed to such position under paragraph (2) leaves such position.

(b) The first sentence of section 5108(a) of title 5, United States Code, is amended by striking out "3301" and inserting in lieu thereof "3362".

(c) For purposes of determining the aggregate number of positions which may be placed in GS–16, GS–17, or GS–18 under sections 5108(a) of title 5, United States Code, a position established under subsection (a) shall be deemed a GS–16 position.

Mr. ROBERT C. BYRD. Mr. President, I move that the Senate concur in the House amendment to S. 2093.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from West Virginia.

The motion was agreed to.

H.R. 13989—AN ACT TO AMEND SECTION 1445(b) OF THE FOOD AND AGRICULTURE ACT OF 1977

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent on behalf of Mr. LEAHY that the Chair lay before the Senate a message from the House on H.R. 13989.

The PRESIDING OFFICER laid before the Senate H.R. 13989, an act to amend section 1445(b) of the Food and Agriculture Act of 1977 to modify the formula for distribution of funds authorized thereunder for agricultural research.

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the bill be considered as having been read twice and that the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

● Mr. LEAHY. Mr. President, H.R. 13989, an administration request bill, would modify the formula in the Food and Agriculture Act of 1977 for allocation of agricultural research moneys to the 1890 land-grant colleges. Any funds that are appropriated up to the level of funding that existed in fiscal year 1978 would be distributed among the eligible institutions in the same proportion as existed in fiscal year 1978. Funds appropriated in excess of the 1978 level would be distributed under a formula similar to the formula for distribution of Federal extension funds to the 1890 colleges contained in the 1977 act.

On October 6, 1978, the Committee on Agriculture, Nutrition, and Forestry considered S. 3380, an identical bill to H.R. 13989. In approving the provisions of S. 3380, the committee agreed to recommend that the Senate accept the House-passed bill.

Failure to enact H.R. 13989 would result in some of the 1890 colleges having a sharp reduction in the amount of funds they would be receiving and could destroy the agricultural research program we are trying to develop. While it will not result in any additional funds, it will assure that Federal funds are appropriated in a manner that will assure effective agricultural research at the 1890 land-grant colleges.

The committee has received communications from all of the 1890 colleges expressing support of H.R. 13989. The Department of Agriculture recommends the enactment of the legislation.

I urge my colleagues to support this legislation.

Mr. President, I ask unanimous consent that there be printed in the RECORD a summary of H.R. 13989.

There being no objection, the summary was ordered to be printed in the RECORD, as follows:

SUMMARY OF H.R. 13989

H.R. 13989 amends section 1445(b) of the Food and Agriculture Act of 1977, which provides a formula for the distribution of Federal appropriations to 1890 land-grant col-

leges for agricultural research beginning in fiscal year 1979.

The bill would substitute a new formula in lieu of the formula under the 1977 Act. Under the new formula—

(1) Three percent of appropriated funds would be available to the Secretary of Agriculture to administer the agricultural research program for 1890 colleges; and

(2) The remainder would be allotted among the 1890 colleges as follows—

(A) Funds up to the total amount the colleges received for agricultural research in fiscal year 1978 would be distributed among the colleges in the same proportion as funds were distributed in 1978; and

(B) Funds in excess of the total amount the colleges received in 1978 would be distributed among the colleges as follows: (i) 20 percent in equal shares; (ii) 40 percent in shares based on the relative rural populations of the States in which the colleges are located; and, (iii) the remainder in shares based on the relative farm populations of the States in which the colleges are located.●

The bill was considered, ordered to a third reading, read the third time, and passed.

Mr. ROBERT C. BYRD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

H.R. 11861—AN ACT TO AMEND THE MERCHANT MARINE ACT

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of H.R. 11861 and that the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. The bill will be stated by title.

Mr. METZENBAUM. Reserving the right to object, and I do not intend to object——

The PRESIDING OFFICER. The bill will be stated by title.

The legislative clerk read as follows:

H.R. 11861, an act to amend the Merchant Marine Act, 1936, to direct the Secretary of Commerce to cooperate with the Secretary of the Navy and the maritime industry in establishing an adequate and well-balanced fleet.

The PRESIDING OFFICER. Is there a reservation heard to the unanimous-consent request?

Mr. METZENBAUM. Yes.

The PRESIDING OFFICER. Without objection, the Senate will proceed to its immediate consideration.

● Mr. INOUYE. Mr. President, H.R. 11861 would amend section 210 of the Merchant Marine Act, 1936, by adding a provision to require quarterly meetings between Secretaries of the Navy and Commerce and representatives of the maritime industry. It also requires submission, by the Secretaries, of an annual report to Congress and the President regarding their responsibilities under section 210.

The purpose of the bill is to formalize the cooperation between the Secretary of Commerce and the Secretary of the Navy as required by section 210 of the Merchant Marine Act, 1936, and to insure regular input from maritime industry representatives in order to achieve an adequate and well-balanced merchant fleet as required by section 101 of that act.●

The bill was ordered to a third reading, read the third time, and passed.

Mr. ROBERT C. BYRD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

CONSERVATION OF THE ANTARCTIC FLORA AND FAUNA

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the Chair lay before the Senate a message from the House on H.R. 7749. the Antarctic conservation bill.

The Chair laid before the Senate a message from the House on H.R. 7749, an act to implement the agreed measures for the conservation of the Antarctic flora and fauna, and for other purposes.

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the bill be considered as having been read the first and second times and that the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

UP AMENDMENT NO. 2110

Mr. ROBERT C. BYRD. Mr. President, on behalf of Mr. INOUYE, I send an amendment to the desk.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from West Virginia (Mr. ROBERT C. BYRD), for the Senator from Hawaii (Mr. INOUYE), proposes an unprinted amendment numbered 2110.

The amendment is as follows:

At the appropriate place in the bill insert the following:

SEC. 14. (a) The first section of the Fishermen's Protective Act of 1967 (22 U.S.C. 1971) is amended by adding at the end thereof the following new sentence: "Notwithstanding any other law, the documentation or certification of any such vessel shall not be considered to be affected, for the purposes of this Act, in any manner or to any extent if at any time during any voyage for the purpose of fishing beyond the fishery conservation zone (as defined in section 3(8)) of the Fishery Conservation and Management Act of 1976 (16 U.S.C. 1802(8)), the vessel is commanded by other than a citizen of the United States."

(b) The amendment made by subsection (a) shall take effect January 1, 1978.

● Mr. INOUYE. Mr. President, H.R. 7749 would enable fulfillment of the obligation of the United States as a member of the Antarctic Treaty.

The 13 nations including the United States who together constitute the Antarctic Treaty consultative parties have adopted the collective responsibility through the treaty to insure that the Antarctic region is used exclusively for peaceful purposes. Protection of the unique ecological character of Antarctica is a part of this responsibility.

In fulfillment of the need to protect the ecological character of Antarctica the consultative parties to the treaty adopted a detailed set of proposed actions which were called the agreed measures for the conservation of Antarctic flora and fauna. These measures were adopted at a meeting of the treaty parties in 1964, just 3 years after the treaty itself became effective. During the ensuing 14 years the agreed measures have been formally adopted by all but three of the Antarctic Treaty consultative parties: Australia, Japan, and the United States.

H.R. 7749 constitutes the necessary legislation for formal adoption of the agreed measures by the United States and provides statutory authority to enforce compliance of U.S. citizens with the terms of the agreed measures.

In accordance with the agreed measures H.R. 7749 would regulate certain activities of any U.S. citizen in Antarctica. These acts would include taking of any native mammal or bird within Antarctica, collection of any native plant within designated specially protected areas, introduction of any animal or plant to Antarctica which is not indigenous, discharge or disposal of any pollutant within Antarctica, and entry into any specially protected area or site of special scientific interest. Such acts would be unlawful unless specifically authorized by a regulation adopted or a permit issued pursuant to this act.

The Director of the National Science Foundation, the agency with primary responsibility for U.S. activities in Antarctica, is directed to issue regulations and establish a permit system to implement the necessary controls on the covered activities of U.S. citizens.

The system of regulations would designate species native to Antarctica, specify those actions necessary for the protection of each designated species, designate as a pollutant any substances which would create human health hazards or harm to marine or terrestrial living resources, specify action necessary to prevent or control discharge of such pollutants, and designate nonindigenous species which may, or may not be introduced to Antarctica. In addition the regulations would identify specially protected areas and designate any specially protected species which are approved for such status under the agreed measures. Regulations would also identify sites of special scientific interest which have unique value for scientific investigation and needing protection from interference. Such areas would be those approved by the United States in accordance with recommendation VIII–3 of the eight Antarctic Treaty consultative meeting held in 1976 and a management plan would be established for each.

The permit system that would be established under H.R. 7749, would authorize taking species, and entry into specially protected areas or areas of scientific interest only under certain specified circumstances. Native mammals or birds could be taken by permit for scientific study or for public display, education, or cultural institutions only if they are not specailly protected species and only outside of the specially

protected areas. The numbers of such mammals or birds taken must be sufficiently small that they can be replaced by natural reproduction within a year and that the balance of the ecosystem is maintained.

Permits for the taking of specially protected species may be issued only if there is a compelling scientific reason and if the ecosystem or species survival will not be jeopardized.

Permits authorizing entry into specially protected areas may be issued only for compelling scientific purposes which cannot be carried out elsewhere and if entry will not jeopardize the ecosystem. In addition such permits must not authorize the operation of surface vehicles in the specially protected areas.

Sites of special scientific interests may only be entered with a permit issued if the activity in question is consistent with the management plan for that site established in accordance with recommendation VIII–3.

The effect of the various provisions of H.R. 7749 which I have described will be to insure that the United States and our citizens fulfill our international obligations to protect the unique Antarctic ecosystem, to preserve selected unique regions of Antarctica in true wilderness condition, and to insure that the many unique untouched sites in Antarctica that are of immense scientific interest and importance are not subjected to influences which may destroy their usefulness.

Mr. President, my amendment relates to the Fishermen's Protection Act of 1967.

Under that act, if a vessel of the United States is seized by a foreign country on the basis of claims in territorial waters or on the high seas which are not recognized by the United States or if a vessel of the United States is seized by a foreign country on the basis of any general claim of any foreign country to exclusive fishery management authority which is recognized by the United States and such seizure is based on conditions and restrictions which are more restrictive or more onerous than conditions or restrictions that the United States would impose on foreign vessels fishing within waters under its jurisdiction, the Secretary of Treasury is required to reimburse to the owner of any such seized vessel the amount of any fines, fees, and other direct charges that are required to be paid to obtain release of the vessel and its crew. The act also requires the Secretary of Commerce to pay such vessel owners for other losses incurred as a result of such illegal seizures if the vessel owners have previously entered into agreements with the Secretary of Commerce to provide for such payments.

Since January 1978, approximately 15 shrimp vessels owned by citizens of the United States have been seized by the country of Brazil while supposedly fishing within the territorial waters of that nation under conditions which are not recognized by the United States. The Department of State, which is required to make a certification to the Secretary of Treasury as to the amount of fines, fees, and other direct charges actually paid by such vessel owners to obtain release of these vessels, has raised a question as to whether the vessel owners are entitled to be reimbursed since at the time of the seizure of such vessels they were commanded by foreign captains rather than U.S. citizens.

For the purposes of this act, the term "vessel of the United States" is defined to mean any private vessel documented or certificated under the laws of the United States. This definition makes it clear that so long as such a vessel is owned by a U.S. citizen and is documented or certificated then it should be reimbursed for any fines and fees paid by such owner unless the documentation or certification of such vessel had been revoked prior to the time of any seizure. Since none of such vessels seized by Brazil had had its documentation revoked, the committee is of the opinion that their documentations are still valid, and that the owners of such vessels are entitled to be reimbursed according to the provisions of the Fishermen's Protective Act.

However, in view of the fact there is still some question on the part of the Department of State as to whether a vessel is still considered to be documented for such purposes when it has on board a foreign captain, the language of the amendment to the Fishermen's Protective Act will make it clear that the documentation or certification of any such vessel of the United States would not be considered to be affected in any manner or to any extent if at any time during any voyage for the purpose of fishing beyond the 200-mile fishery zone of the United States, such vessel is commanded by other than a U.S. citizen.

The amendment would take effect January 1, 1978, and it would have the affect of providing for reimbursement of future claims submitted under the Act which fall within the purview of this section and of all prior claims which originated after January 1, 1978. It is our further understanding that the total pending claims range between $200,000 and $300,000 and they include the payments to be made under section 3 as well as section 7 of the act.●

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment was agreed to.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time, and passed.

Mr. ROBERT C. BYRD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

PRESERVATION OF AND PUBLIC ACCESS TO OFFICIAL RECORDS OF THE PRESIDENT

Mr. ROBERT C. BYRD. Mr. President, I ask the Chair to lay before the Senate a message from the House on H.R. 13500.

The Chair laid before the Senate a message from the House on H.R. 13500, an act to amend title 44 to insure the preservation of and public access to the official records of the President, and for other purposes.

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that the bill be considered as having been read twice and that the Senate proceed to its immediate consideration.

UP AMENDMENT NO. 2111

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, I send to the desk three amendments on behalf of the distinguished senior Senator from Illinois (Mr. PERCY), and ask unanimous consent that they be considered en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments will be stated.

The legislative clerk read as follows:

The Senator from Tennessee (Mr. BAKER), for the Senator from Illinois (Mr. PERCY), proposes an unprinted amendment numbered 2111.

The amendment is as follows:

On page 4, line 3, after the word "relating", insert the word "exclusively".

On page 7, line 2, after "President." insert the following:

"The Archivist shall have an affirmative duty to make such records available to the public as rapidly and completely as possible consistent with the provisions of this Act."

On page 10, line 20, insert "(1)" after "(C)".

On page 10, line 23, after "Code," insert the following: "except that paragraph (b)(5) of that section shall not be available for purposes of withholding any presidential record,".

On page 11, after line 2 insert the following:

"(2) Nothing in this Act shall be construed to confirm, limit, or expand any constitutionally-based privilege which may be available to an incumbent or former President."

● Mr. PERCY. The legislation we are considering today will for the first time assert public ownership and custody of the records of future Presidents, Vice-Presidents, and their staffs.

These papers, which have immense historical value, are not now covered by the Freedom of Information Act and have traditionally been removed by the President at the end of his term to be released at his discretion. Historians and archivists have long been concerned about the loss of valuable information which has resulted from this approach. Indeed, the Supreme Court recently underscored the inadequacy of this method by stating that:

> An incumbent President should not be dependent on happenstance or the whim of a prior President when he seeks access to records of past decisions that define or channel current governmental obligations. Nor should the American people's ability to reconstruct and come to terms with their history be truncated * * * Congress can legitimately act to rectify the hit-or-miss approach that has characterized past attempts to protect these substantial interests * * *

Judge Richey offered another of the many compelling arguments for this legislation when he noted that, "It is a general principle of law that that which is generated, created, produced, or kept by a public official in the administration and performance of the powers and

duties of a public office belongs to the Government and may not be considered the private property of the individual."

Yet while it is crucial to protect the public interest in these papers, we must also protect the constitutional rights of the individuals involved. In addition, we must not interfere with the effective functioning of the White House by "chilling" the free flow of advice or by imposing a heavy administration burden.

H.R. 13500 deals with these concerns by exempting truly personal papers and by allowing the President to restrict access to sensitive information for up to 12 years after leaving office. Papers which are not sensitive or are no longer subject to restriction will be governed by the Freedom of Information Act.

In considering this legislation, Senator RIBICOFF, Senator NELSON, and I relied heavily on the recommendations of the National Study Commission Records and Documents of Federal Officials. Indeed, we are indebted to Senator NELSON—who was a member of the Study Commission—for his excellent work in this field without which we would not be here today. In addition we have worked closely with our colleagues in the House and with the administration to arrive at workable legislation which could be brought to enactment this year. For the most part, I believe that the House-passed bill create a viable scheme which protects the interests of both the public and the Presidency. However, there are three amendments—which are acceptable to the administration—which we believe are needed to clarify certain important aspects of the bill as passed by the House.

Mr. President, the first of these amendments to the House bill addresses the definition of personal records with respect to materials relating to the President's own election. The House bill could have been interpreted to allow the classification as personal of all records which relate to the President's own election activities, regardless of whether or not such papers also involve the President's officials duties. It is the position of the House that section 2201 (3)—which states that personal records must be "of purely private or nonpublic character" and "do not relate to or have an effect upon the carrying out of the constitutional, statutory, or other official or ceremonial duties of the President"—clearly states the congressional intent that political papers which also involve official duties may not be classified as personal. While we agree with the House that this language applies to 2201(3)(C), we felt that a further clarification was needed to avoid the possibility of any confusion on this question.

This amendment would accomplish this by stating that papers and portions of papers which relate to the President's own reelection could be classified as personal only if they relate "exclusively" to that subject. Thus, for example, a memorandum suggesting that if the President supports certain legislation he will gain the support of a particular interest group for his reelection would not relate exclusively to the President's election concerns, and would, therefore, be deemed to be a Presidential record for the purposes of this act. Similarly, if the President agrees to act in his official capacity on behalf of or in the interest of an individual who agrees to further the President's election prospects, any documents concerning the matter would be considered Presidential records. In short, no document may be construed as relating exclusively to the President's election activities if it also relates to or affects the President's official duties.

The remaining amendments seeks to clarify the operation of the bill's access provisions. The legislation provides that the outgoing President may restrict access to records or segregable portions of records which contain information falling into one or more of the categories set forth in the bill (national security; trade secrets; material prohibited by statute from disclosure; material relating to Federal appointments; confidential communications; or personnel or medical files) for a period not to exceed 12 years. After the period of restriction is over, access to those Presidential records remaining closed will be governed by the Freedom of Information Act and its exemptions.

Mr. President, in this legislative scheme, the end of the period of mandatory restriction should represent a bright, discernible line to historians, archivists, journalists and the public. If after the period of Presidentially imposed restrictions there were another period of potentially far-reaching restrictions, asserted by the Archivist using the exemptions of FOIA, the bright promise of this legislation might not be realized. Rather, the legislation should provide researchers and the public with maximum assurance that at the end of the restricted period documents will be opened as fully and completely as possible.

I believe that the House intended precisely such a result. In this regard, I note that Representative BROOKS, floor manager of the legislation, stated that after the period of Presidentially imposed restriction, which could last up to 12 years for certain documents, "the withholding provisions of the Freedom of Information Act come into play, charging the Archivist with an affirmative duty to make any records which had not been previously opened, available to the public as rapidly and completely as possible." Nevertheless, this goal assumes sufficient importance to warrant statutory clarification.

Accordingly, the second amendment to the House-passed bill would state that "the Archivist shall have an affirmative duty to make such records available to the public as rapidly and completely as possible consistent with the provisions of this act." This amendment clarifies the congressional intent that once the period of Presidentially imposed restrictions has run, the Archivist should open up the remaining materials as fully and completely as possible, without waiting for requests for specific documents by particular researchers. If it were clear that serious harm would result from the release of a particular document, because it contains vital classified information or should remain closed for another compelling reason embodied by an FOIA exemption, the Archivist would assert the exemption.

One exemption to the FOIA which should not be available to the Archivist is the (b)(5) exemption. This exemption has been interpreted to protect from release all internal deliberative policy and advice memoranda which form the basis for an agency decision. However, this legislation provides ample protection for such communications by giving the outgoing President the right to impose restrictions on all materials which are "confidential communications requesting or submitting advice, between the President and his advisers, or between such advisers." This potential exemption is fully adequate to protect the confidentiality of executive communications. After the 12-year period, a document might be withheld by the Archivist because, for example, it is classified, or contains a trade secret, or opens up a medical file constituting a clearly unwarranted invasion of privacy. But no document should be withheld simply because it contains confidential materials; such a result would undermine a basic purpose of the legislation. Consequently, the (b)(5) exemption has no place in this statutory scheme. For these reasons, the third amendment provides that while the FOIA will govern access after the restricted period, "paragraph (b)(5) * * * shall not be available for purposes of withholding any presidential record."

At the same time, of course, while we can prohibit the Archivist from withholding documents, after the restricted period, on the basis of the (b)(5) exemption, we cannot prevent a former or incumbent President from arguing, even after the 12-year period, that a particular confidential communication between the President and an adviser should not be released. To what extent the concept of "executive privilege" protects the confidentiality of a former or incumbent President's communications with his advisers is a open question. If some future President believes that the 12-year closure period does not suffice, that President could object to the release of some document in the 13th or 15th or 20th year. This legislation does not resolve the outcome of such a legal action; the issue would be resolved by the courts. The fourth amendment would make it explicit that "nothing in this Act shall be construed to confirm, limit or expand any constitutionally based privilege which may be available to an incumbent or former President."●

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment was agreed to.

● Mr. NELSON. Mr. President, I am proud today to support H.R. 13500, the Presidential Records Act of 1978. This bill is the product of 2 years of intensive work and negotiation. Congressmen PREYER, BRADEMAS, and ERTEL, Chairmen BROOKS and THOMPSON of the House Government Operations and Administration Committees, and Senator PERCY and Chairman RIBICOFF of the Senate Governmental Affairs Committee all deserve enormous credit for bringing this

bill to its present state of readiness for passage.

On February 27, 1978, I introduced S. 2596 and on September 12, 1978, I, along with Senator PERCY, introduced S. 3494. Both of these bills, like the legislation before us today, would assert public ownership of the documentary materials created or received by future Presidents and their staffs and established procedures governing retention of these documents and access to them and would have taken effect in January of 1981.

Traditionally, Presidential papers have belonged to the President in whose administration they were created. They became the former President's private property, to dispose of as he saw fit.

The need for legislation to alter this state of affairs has been evident to the public since the Nixon-Sampson agreement, in 1974, in which the Ford administration acknowledged former President Nixon to be the owner of the tapes and papers of his administration and gave him great license concerning the control and disposition of 42 million pages of documents and 880 tape recordings created during his White House years.

Under the agreement, Mr. Nixon could have ordered the destruction of these vital historical materials. Our knowledge of an extraordinary historical period could have been irreparably harmed. Evidence vital to ongoing criminal investigations could have been permanently lost. For these reasons, I, along with Senator Sam Ervin, introduced the bill which became the "Presidential Recordings and Materials Preservation Act," (P.L. 93-526), which overrode the Nixon-Sampson agreement. The act directed the Administrator of General Services to take custody of Mr. Nixon's Presidential tapes and papers, and to promulgate regulations providing for the orderly archival processing of the materials for the purpose of returning to Mr. Nixon those items which were personal in nature, and determining the conditions upon which the public might eventually obtain access to those remaining in the Government's possession.

In passing the Materials Preservation Act, Congress recognized that Mr. Nixon's agreement with the Ford administration posed basic questions about the ownership and disposition of vital historical materials which had remained unresolved far too long. The Nixon-Sampson agreement became possible because of that long-standing tradition that the papers created by the President and his advisers are the property of the President. Historians and archivists had long decried the loss of valuable historical materials resulting from the tradition of private ownership, but it took the Nixon-Sampson agreement to bring home the absurdity and danger of the practice.

For this reason, in title II of the Materials Preservation Act, Congress established the National Study Commission on Records and Documents of Federal Officials to study the problems involved in the ownership and disposition of records and documents of all Federal officials and recommend appropriate legislation and rules.

The Commission included representatives of Congress; the White House; the Federal Judiciary; the Departments of State, Defense, and Justice; professional archivists and historians; and the Librarian of Congress and the Archivist of the United States. It was chaired by former Attorney General Herbert Brownell. Senator WEICKER and I represented the Senate. The Commission reported to Congress in April of 1977 and this legislation as well as my previous two bills draws heavily on its recommendation respecting Presidential papers.

At the time when I introduced S. 1596, I spoke at some length on the need for legislation to provide for public ownership of Presidential papers.

I reviewed the past practices of Presidents under the system of private ownership of Presidential papers, the recommendations of the National Study Commission on Records and Documents of Federal Officials, upon which I served, and the constitutional issues which must be dealt with when legislating in this area.

My conclusions were that legislation to assert public ownership was essential, but that the legislation must be carefully drawn to insure protection of the President's constitutional rights to privacy and freedom of association and to safeguard the confidentiality of the White House decisionmaking process. I believe that the legislation which I am supporting today meets these criteria and is worthy of the support of all who believe that the documentary materials of future Presidencies should be preserved and should find their way into the public domain under the rule of law.

The legislation would divide "Presidential papers" into two categories. "Personal records," as defined in the bill, would remain the personal property of those who create them. "Personal records" are defined as all documentary materials of a purely private or nonpublic character which do not relate to or have an effect upon the carrying out of the constitutional, statutory, or other official or ceremonial duties of the President. Diaries, journals, personal notes, and materials relating to private political associations of the President or his aides would be included under this definition.

Also, materials relating to purely private political associations of the President and those exclusively relating to the President's campaign for election to the Presidency would be considered personal records under the act.

It is hoped that allowing former Presidents considerable leeway in the definition of "personal records" will encourage those Presidents to make available those records after a reasonable length of time.

"Presidential records," which the legislation defines as documentary materials created or received by the President, his immediate staff, or a unit or individual of the Executive Office of the President whose function it is to advise and assist the President in carrying out of his official duties, would become public property. "Presidential records" would include any documentary materials relating to the political activities of the President or members of his staff, but only if such activities related to or had a direct effect upon the carrying out of constitutional, statutory, or other official or ceremonial duties of the President. At the conclusion of a President's term of office, the Archivist of the United States would assume control over these records.

The line between "personal" and "Presidential" records cannot be drawn with absolute certainty. The bill's definitions provide guidance to the Archivist in making individual determinations, but leave the necessary flexibility which allows for the exercise of informed professional judgment.

The bill grants to the outgoing President the right to impose restrictions on access to the Presidential records of his administration for a period not to exceed 12 years within one or more of the following categories:

(1) (a) Records specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (b) in fact properly classified pursuant to such Executive order;

(2) Records relating to appointments to executive or judicial positions;

(3) Records specifically exempted from disclosure by statute (other than the Freedom of Information Act), provided that such statute (A) requires that the material be withheld from the public in such a manner as to leave no discretion on the issue, or (B) establishes particular criteria for withholding or refers to particular types of material to be withheld.

(4) Records containing trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Records concerning confidential communications requesting or submitting advice, between the President and his advisors, or between such advisors; or

(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

The legislation provides that a former President could waive a previously imposed restriction and that restrictions would be lifted on a Presidential record placed in the public domain by publication by a former President or his "agents," who are defined as persons operating on behalf, or with the approval of, the former President.

Any Presidential record which is left unrestricted by an outgoing President would be exempt from disclosure until the earlier of (A) the date which is 5 years after the date on which the Archivist obtains custody of such records, or (B) the date on which the Archivist completes the processing and organization of such records.

The legislation's essential concern is with the treatment of Presidential records once a President leaves office. However, the condition of these records will depend on the manner in which the President maintains the records of his administration while in office. The degree to which outsiders can or should interfere with White House recordkeeping while a President is in office has been a source of considerable controversy

among those concerned with the question of Presidential papers.

The approach to this problem chosen in this legislation is reasonable and just. The legislation provides that the President may dispose of his records which no longer have administrative, historical, informational, or evidentiary value if the President gets the written permission of the Archivist.

It is within the power of the Archivist to notify the relevant committees of Congress if he believes that valuable Presidential records may be disposed of. If Congress takes no action within 60 days after receiving notice from the Archivist, the President will again be free to dispose of the records. I believe that this approach effectively balances the reasonable interests of the President, the Congress, and the public.

During the period of restricted access, the legislation provides that decisions concerning the proper classification of documents shall be made by the Archivist, though the former President may challenge any decision of the Archivist in U.S. district court. Here again, the intent is to provide for a sensible balance between the public interest and the rights of the former President.

At the conclusion of the period of restricted access, Presidential records shall be administered as agency records under the terms of the Freedom of Information Act, 5 United States Code section 552. Under the terms of the FOIA, properly classified materials pertaining to national security would continue to be protected from disclosure until the need for their classification had lapsed.

Also, after the 12 years were concluded, the Archivist would retain discretion under the FOIA to prevent the disclosure of materials whose disclosure would violate other statutes and could maintain the confidentiality of trade secrets, investigatory records and the like.

This revised legislation now provides that during the period of administration under the FOIA, the exemption ordinarily provided by 5 U.S.C. section 552(b)(5) for internal deliberative documents would not be available to the former President. However, this provision would not in any way be intended to impinge on whatever constitutional Presidential privilege the incumbent or the former President might assert.

Further, the bill before us today places a clear duty on the Archivist to make available those Presidential documents which can be made available within his discretion during the period of FOIA administration.

Mr. President, this legislation is fair to all parties concerned and will insure the creation of a fully documented, rich historical record of all future Presidencies. It will also contribute to the achievement of greater governmental accountability to the people than presently exists. It is landmark legislation, a bill of which the Congress and the country can be proud.●

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time, and passed.

Mr. ROBERT C. BYRD. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. BAKER. I move to lay the motoin on the table.

The motion to lay on the table was agreed to.

CIBOLA NATIONAL FOREST, N. MEX.

Mr. ROBERT C. BYRD. Mr. President, I ask that the Chair lay before the Senate a mesage from the House of Representatives on S. 553.

The PRESIDING OFFICER laid before the Senate the following message from the House of Represntatives:

Resolved, That the bill from the Senate (S. 553) entitled "An Act to enlarge the boundary of the Cibola National Forest," do pass with the following amendments:

Strike out all after the enacting clause, and insert: That the exterior boundary of the Cibola National Forest in New Mexico be modified to include the following described lands:

A tract of land containing that part of the land described in the Elena Gallegos Grant, illustrated on maps on file with the Chief of the Forest Service, Department of Agriculture and the Director of the Bureau of Land Management, Department of the Interior, lying east of a line described as beginning at the closing corner between sections 35 and 36 of township 11 north, range 4 east on the south boundary of said grant and extending north 2,700 feet; thence east 1,515 feet; thence north 1,260 feet; thence east 755 feet; thence north 11,386 feet; thence south 89 degrees 56 minutes 15 seconds west, 2,286.41 feet; thence north 0 degrees 3 minutes 45 seconds west, 4,164.89 feet to the closing corner between sections 13 and 14 of the north boundary of said grant of said township; thence south 81 degrees 30 minutes east, 2,316.42 feet along the boundary of said grant to a point on the north boundary of said grant, which point lies north 81 degrees 30 minutes west, approximately 150 feet from the 7½-mile corner of said grant; consisting of 7,461.34 acres, more or less: *Provided, however*, That the tract of land described in this section shall not be included within the Cibola National Forest until the Secretary of Agriculture determines that the City of Albuquerque, New Mexico, has acquired a tract of land containing approximately 640 acres located immediately to the west of such tract for open space or city park use.

SEC. 2. (a) The following tract of land consisting of approximately 6,423 acres is hereby designated as "Intended Wilderness": a tract of land containing that part of the land described in section 1 lying east of a line beginning at the closing corner between sections 35 and 36 of township 11 north, range 4 east, on the south boundary of such grant and extending north 2,700 feet; thence east 1,515 feet; thence north 1,260 feet; thence east 3,160 feet; thence north 4,125 feet; thence north 42 degrees east, 4,480 feet; thence north 1,710 feet; thence west 3,235 feet; thence north 19 degrees west, 2,350 feet; thence west 1,400 feet; thence north 3,820 feet to a point on the north boundary of such grant; thence south 81 degrees 30 minutes east, 150 feet along the boundary of such grant to the 7½-mile corner.

(b) Interests in the tract of land designated as "Intended Wilderness" in subsection (a) shall, when acquired be part of the Sandia Mountain Wilderness as designated by section 2 of the Endangered American Wilderness Act of 1978 (92 Stat. 40; 16 U.S.C. 1132 note), and the Secretary shall publish a notice of such classification in the Federal Register. The portion of Sandia Mountain Wilderness added by this Act shall be administered by the Secretary of Agriculture in accordance with applicable provisions of the Wilderness Act (78 Stat. 890; 16 U.S.C. 1131 et seq.), except that any reference to the effective date of such Act shall be deemed to be a reference to the date of the enactment of this Act.

SEC. 3. For the purposes of section 7 of the Act of September 3, 1964 (78 Stat. 903, as amended; 16 U.S.C. 4601-9) the boundary of the Cibola National Forest, as modified by section 1 of this Act, shall be treated as if it were the boundary of that Forest on January 1, 1965.

SEC. 4. (a) Subject to valid existing rights, lands owned by the United States in the tracts of land described in section 1 are hereby added to the Cibola National Forest and shall be administered in accordance with the laws, rules, and regulations applicable to the National Forest System.

(b) Land acquired by the Secretary of the Interior within the boundaries of Cibola National Forest as extended by this Act shall be transferred to the Secretary of Agriculture, shall be added to the Cibola National Forest, and shall be administered in accordance with the laws, rules, and regulations applicable to the National Forest System.

SEC. 5. Effective October 1, 1979, there are authorized to be appropriated not more than $12,000,000 from the Land and Water Conservation Fund for the acquisition of lands added to the Cibola National Forest by section 1 of this Act.

Amend the title so as to read: "An Act to amend the boundary of the Cibola National Forest, designate an intended wilderness area, and for other purposes.".

UP AMENDMENT NO. 2112

Mr. DOLE. Mr. President, I move that the Senate concur in the amendments of the House with an amendment which I send to the desk.

The PRESIDING OFFICER. The amendment will be stated.

The legislative clerk read as follows:

The Senator from Kansas (Mr. DOLE), on behalf of Mr. DOMENICI and Mr. SCHMITT, proposes an unprinted amendment numbered 2112.

The amendment is as follows:

On page 2, line 17, strike all of section 2 through line 18 on page 3. Redesignate the following subsections accordingly.

The PRESIDING OFFICER. Without objection, the motion of the Senator from Kansas is agreed to.

Mr. DOLE. Mr. President, I ask unanimous consent to have printed in the RECORD by the distinguished senior Senator from New Mexico (Mr. DOMENICI).

The PRESIDING OFFICER. Without objection, it is so ordered.

STATEMENT BY MR. DOMENICI

Protection of the irreplaceable lands northeast of Albuquerque, New Mexico, has long been part of the master plan for Albuquerque that has guided city planners and other city officials for many years.

A bill to provide this protection, S. 553, concerning the Elena Gallegos Grant, passed this body earlier this Congress. I was proud to be the author of this legislation.

The House of Representatives has amended this bill, to indicate that the lands in question will eventually be made part of wilderness. Since I understand that wilderness designation is a separate process, and would come after extensive public hearings and long after this proposed land transfer, I am willing to accept deletion of the House language involving wilderness designation. However, I have discussed this matter with my distinguished colleague, Senator Jackson, Chair-

man of the Senate Energy and Natural Resources Committee, and he assures me that designation of the Elena Gallegos Grant as wilderness can be considered next Congress. That is my intent.

The most immediate question is the land transfer. I believe the House and Senate bills, without any reference to eventual wilderness designation, transfers the land into a more protected status and is the critical first step in giving Albuquerque residents the assurance they deserve that this precious area will be preserved.

Therefore, I urge adoption of this measure.

BEST WISHES TO SENATOR DEWEY F. BARTLETT—SENATE RESOLUTION 593

Mr. DOLE. Mr. President, I send to the desk a resolution and ask for its immediate consideration.

The PRESIDING OFFICER. The resolution will be stated by title.

The legislative clerk read as follows:

A resolution (S. Res. 593) extending best wishes to Senator Dewey F. Bartlett.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the resolution.

Mr. DOLE. Mr. President, our distinguished colleague from Oklahoma, Mr. BARTLETT has demonstrated remarkable dedication to his Senate duties during these last several months. He certainly has the admiration of every Member of the Senate for his quiet determination and indomitable will.

The resolution which I propose expresses that admiration and extends our heartfelt best wishes to our esteemed colleague.

As we know, the Senator decided against running for reelection this year. His retirement will be a great loss for the Senate, for the people of Oklahoma, and for the Nation.

Mr. President, I urge adoption of this resolution as a fitting tribute to one who has contributed so much to the Senate. His proud courage and dedication serves as an inspiration to each and every one of us.

Mr. METZENBAUM. Mr. President, will the Senator from Kansas be willing to accept a cosponsor of the resolution?

Mr. DOLE. I would be happy to. The distinguished majority leader and the distinguished minority leader are cosponsors.

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that all Senators may be allowed to cosponsor this resolution.

The PRESIDING OFFICER. Without objection, it is so ordered.

The cosponsors of the resolution are as follows:

Abourezk, Allen (Mrs.), Anderson, Baker, Bayh, Bellmon, Bentsen, Biden, Brooke, Bumpers, Burdick, Byrd, Harry F., Va., Byrd, Robert C., W. Va., Cannon, Case, Chafee, Chiles, Church, Clark, Cranston, Culver, Curtis, Danforth, DeConcini, Domenici, Durkin, Eagleton, Eastland, Ford, Garn, Glenn, Goldwater, Gravel, Griffin, Hansen, Hart, Haskell, Hatch, Hatfield, Mark O., Oreg., Hatfield, Paul G., Mont., Hathaway, Hayakawa, Heinz, Helms, Hodges, Hollings, Huddleston, Humphrey (Mrs.), Inouye, Jackson, Javits, Johnston, Kennedy, Laxalt, Leahy, Long, Lugar, Magnuson, Mathias, Matsunaga, McClure, McGovern, McIntyre, Melcher, Metzenbaum, Morgan, Moynihan, Muskie, Nelson, Nunn, Packwood, Pearson, Pell, Percy, Proxmire, Randolph, Ribicoff, Riegle, Roth, Sarbanes, Sasser, Schmitt, Schweiker, Scott, Sparkman, Stafford, Stennis, Stevens, Stevenson, Stone, Talmadge, Thurmond, Tower, Wallop, Weicker, Williams, Young, Zorinsky.

The resolution (S. Res. 593) was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 593

Whereas Senator Dewey F. Bartlett has made major contributions to the work of the Senate and to the welfare of the Nation;

Whereas the distinguished Senator from Oklahoma has demonstrated outstanding dedication to his Senate duties and tremendous personal courage in the face of adversity; and,

Whereas Senator Bartlet will soon be leaving the Senate, as he has decided not to run for re-election: Now, therefore be it

Resolved, That the Senate hereby expresses its admiration, appreciation, and high regard for Senator Dewey F. Bartlett, and extends its sincere and heartfelt best wishes.

SEC. 2. The Secretary of the Senate is directed to transmit a copy of this resolution to Senator Dewey F. Bartlett.

ROUTINE MORNING BUSINESS

Mr. ROBERT C. BYRD. Mr. President, everything thus far is as in legislative session.

I ask unanimous consent that there be a period for the transaction of routine morning business, as in legislative session, with Senators allowed to speak up to 3 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Marks, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session, the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations, which were referred to the Committee on Armed Services.

(The nominations received today are printed at the end of the Senate proceedings.)

REPORT OF THE NATIONAL CREDIT UNION ADMINISTRATION—MESSAGE FROM THE PRESIDENT—PM 230

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report, which was referred to the Committee on Banking, Housing, and Urban Affairs:

To the Congress of the United States:

I hereby transmit to the Congress the Annual Report of the Administrator, National Credit Union Administration and an addendum, entitled "Annual Report 1977, for the calendar year 1977." This report contains additional information on unsecured loans as requested by the Committee on Banking, Finance and Urban Affairs, House of Representatives, during its consideration of Depository Institutions Amendments of 1977 (Public Law 95-22).

JIMMY CARTER.

THE WHITE HOUSE, *October 13, 1978.*

REPORT ON THE ADMINISTRATION OF THE FEDERAL RAILROAD SAFETY ACT—MESSAGE FROM THE PRESIDENT—PM 231

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report, which was referred to the Committee on Commerce, Science, and Transportation.

To the Congress of the United States:

I transmit herewith the Seventh Annual Report on administration of the Federal Railroad Safety Act of 1970 (84 Stat. 971, 45 U.S.C. 421 et seq.) as required by that Act. This report has been prepared in accordance with Section 211 of the Act, and covers the period January 1, 1977 through December 31, 1977.

JIMMY CARTER.

THE WHITE HOUSE, *October 13, 1978.*

PRESIDENTIAL APPROVAL

A message from the President of the United States reported that on today, October 13, 1978, he approved and signed the following act:

S. 2640. An act to reform the civil service laws.

MESSAGES FROM THE HOUSE

At 10:19 a.m., a message from the House of Representatives delivered by Mr. Berry, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 11545. An act to modify the method of establishing quotas on the importation of certain meat, to include within such quotas certain meat products, and for other purposes.

The message also announced that the House has agreed to House Resolution 1430, on the death of the Honorable GOODLOE E. BYRON, a Representative from the State of Maryland.

At 12:20 p.m., a message from the House of Representatives delivered by Mr. Berry, announced that the House agrees to the amendments of the Senate to H.R. 9518, an act to amend the Shipping Act, 1916, to provide for a 3-year period, to reach a permanent solution of the rebating practices in the U.S. foreign trade.

The message also announced that the House agrees to the amendments of the Senate to H.R. 6803, an act to provide a comprehensive system of liability and compensation for oilspill damage and

removal costs, and for other purposes, with amendments in which it requests the concurrence of the Senate.

At 2:49 p.m., a message from the House of Representatives delivered by Mr. Berry, announced that the House agrees to the amendments of the Senate to the amendment of the House to S. 791, an act to authorize additional appropriations for the acquisition of lands and interests in lands within the Sawtooth National Recreation Area in Idaho.

The message also announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 10239. An act to amend the Internal Revenue Code of 1954 to clarify the status of certain industrial development bonds issued to provide facilities for the furnishing of water, including water used to cool facilities for generating electric energy by steam;

H.R. 13336. An act to amend the Internal Revenue Code of 1954 to provide an exemption from withholding of tax on nonresident aliens for ship suppliers in respect of certain commissions paid to nonresident aliens; and

H.R. 13758. An act to amend the Internal Revenue Code of 1954 to provide the same treatment, with respect to determination of sources of income, for interest paid by foreign branches of domestic banks and interest paid by foreign branches of domestic savings and loan institutions.

At 3:59 p.m., a message from the House of Representatives delivered by Mr. Hackney, one of its reading clerks, announced that the House agrees to the amendment of the Senate to H.R. 12509, an act to amend the Immigration and Nationality Act to exclude from admission into, and to deport from, the United States all aliens who persecuted any person on the basis of race, religion, national origin, or political opinion, under the direction of the Nazi government of Germany, and for other purposes.

The message also announced that the House agrees to the amendments of the Senate to the amendment of the House to S. 2399, an act to amend the Comprehensive Drug Abuse Prevention and Control Act of 1970 and other laws to meet obligations under the Convention on Psychotropic Substances relating to regulatory controls on the manufacture, distribution, importation, and exportation of psychotropic substances, and for other purposes.

ENROLLED BILLS SIGNED

The message further announced that the Speaker has signed the following enrolled bills:

H.R. 11686. An act to authorize appropriations for the Department of Energy for national security programs for fiscal year 1979, and for other purposes;

H.R. 13418. An act to amend the Small Business Act by transferring thereto those provisions of the Domestic Volunteer Service Act of 1973 affecting the operation of volunteer programs to assist small business, to increase the maximum allowable compensation and travel expenses for experts and consultants, and for other purposes; and

H.R. 13635. An act making appropriations for the Department of Defense for the fiscal year ending September 30, 1979, and for other purposes.

The enrolled bills were subsequently signed by the President pro tempore (Mr. EASTLAND).

At 5:32 p.m., a message from the House of Representatives delivered by Mr. Hackney, announced that the House agrees to the amendment of the Senate to H.R. 8533, an act to amend the Internal Revenue Code of 1954 to provide that income from the conducting of certain bingo games by certain tax-exempt organizations will not be subject to tax.

The message also announced that the House agrees to the amendments of the Senate numbered 1, 2, and 4 to H.R. 10898, an act to amend the Regional Rail Reorganization Act of 1973 to authorize appropriations for the U.S. Railway Association for fiscal year 1979; that the House agrees to the amendments of the Senate numbered 3 and 5, each with an amendment in which it requests the concurrence of the Senate.

The message further announced that the House has passed S. 3081, an act to amend the Federal Railroad Safety Act of 1970 to provide the Secretary of Transportation a longer period within which to assess civil penalties for certain violations, to extend authorizations of appropriations for fiscal years 1979 and 1980 for the rail safety program, and for other purposes, with amendments in which it requests the concurrence of the Senate.

The message also announced that the House has passed S. 2981, an act to amend the Department of Transportation Act as it relates to the local rail services assistance program, and for other purposes, with amendments in which it requests the concurrence of the Senate.

The message also announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 12846. An act to amend the Internal Revenue Code of 1954 to clarify the application of the investment tax credit to certain single purpose enclosures or structures for raising poultry or hogs or for use as greenhouses; and

H.R. 13047. An act to amend the Internal Revenue Code of 1954 with respect to the treatment of redemption of discount coupons.

At 6:50 p.m., a message from the House of Representatives delivered by Mr. Berry, announced that the House recedes from its disagreement to the amendment of the Senate to H.R. 11209, an act to provide for the establishment, ownership, operation, and governmental oversight and regulation of international maritime satellite telecommunications services, and concurs therein with an amendment in which it requests the concurrence of the Senate.

At 9:40 p.m., a message from the House of Representatives delivered by Mr. Hackney, announced that the House has passed S. 3595, an act to amend section 202(d) of the Magnuson-Moss Warranty—Federal Trade Commission Improvement Act to extend the deadline for filing a report of rulemaking procedures, without amendment.

The message also announced that the House agreed to the amendments of the Senate to H.R. 5029, an act to amend title 38 of the United States Code in order to authorize contracts with the Republic of the Philippines for the provision of hospital care and medical services to Commonwealth Army veterans and new Philippine Scouts for service-connected disabilities; to authorize the continued maintenance of a Veterans' Administration office in the Republic of the Philippines; and for other purposes, with amendment in which it requests the concurrence of the Senate.

The message further announced that the House has passed H.R. 8930, an act to confer U.S. citizenship posthumously upon Leopoldine Marie Schmid, in which it requests the concurrence of the Senate.

The message also announced that the House disagrees to the amendment of the Senate to H.R. 13750, an act to implement the International Sugar Agreement, 1977, between the United States and foreign countries, to protect the welfare of consumers of sugar and of those engaged in the domestic sugar industry, and for other purposes; agrees to the conference requested by the Senate on the disagreeing votes of the two Houses thereon; and that Mr. FOLEY, Mr. ULLMAN, Mr. POAGE, Mr. ROSTENKOWSKI, Mr. VANIK, Mr. CORMAN, Mr. GIBBONS, Mr. DE LA GARZA, Mr. NOLAN, Mr. AKAKA, Mr. JOHNSON of Colorado, Mr. FRENZEL, Mr. STEIGER, and Mr. MOORE were appointed managers of the conference on the part of the House.

At 10:15 p.m., a message from the House of Representatives delivered by Mr. Berry, announced that the House agrees to the amendment of the Senate to H.R. 12874, an act to provide for an accelerated program of research, development, and demonstration of solar photovoltaic energy technologies leading to early competitive commercial applicability of such technologies to be carried out by the Department of Energy, with the support of the National Aeronautics and Space Administration, the National Bureau of Standards, the General Services Administration, and other Federal agencies.

The message also announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to H.R. 12605, an act to amend the Communications Act of 1934 to extend and improve the provisions of such act relating to long-term financing for the Corporation for Public Broadcasting and relating to certain grant programs for public telecommunications, and for other purposes.

The message further announced that, pursuant to a request of the Senate, H.R. 12929, an act making appropriations for the Departments of Labor, and Health, Education, and Welfare, and related agencies, for the fiscal year ending September 30, 1979, and for other purposes, together with all acompanying papers, is returned to the Senate.

HOUSE BILLS REFERRED

The following bills were read twice by their titles and referred as indicated:

H.R. 12846. An act to amend the Internal Revenue Code of 1954 to clarify the application of the investment tax credit to certain

single purpose enclosures or structures for raising poultry or hogs or for use as greenhouses; to the Committee on Finance.

H.R. 13047. An act to amend the Internal Revenue Code of 1954 with respect to the treatment of redemptions of discount coupons; to the Committee on Finance.

HOUSE BILLS HELD AT THE DESK

The following bill was read by title and held at the desk, by unanimous consent:

H.R. 11545. An act to modify the method of establishing quotas on the importation of certain meat, to include within such quotas certain meat products, and for other purposes.

H.R. 13336. An act to amend the Internal Revenue Code of 1954 to provide an exemption from withholding of tax on nonresident aliens for ship suppliers in respect of certain commissions paid to nonresident aliens.

ENROLLED BILLS PRESENTED

The Secretary of the Senate reported that on October 12, 1978, he presented to the President of the United States the following enrolled bills:

S. 1081. An act to amend certain laws relating to the Osage Tribe of Oklahoma, and for other purposes;

S. 2358. An act to declare that the United States holds in trust for the Pueblo of Zia certain public domain lands;

S. 2588. An act to declare that the United States holds in trust for the Pueblo of Santa Ana certain public domain lands;

S. 3259. An act to authorize the permanent establishment of a system of Federal information centers; and

S. 3486. An act to authorize appropriations for fiscal year 1979 for procurement of aircraft, missiles, naval vessels, tracked combat vehicles, torpedoes, and other weapons and for research, development, test and evaluation of the Armed Forces, to prescribe the authorized personnel strength for each active duty component and the Selected Reserve of each Reserve component of the Armed Forces and for civilian personnel of the Department of Defense, to authorize the military training student loads to authorize appropriations for civil defense, and for other purposes.

The Secretary of the Senate also reported that on today, October 13, 1978, he presented to the President of the United States the following enrolled bills:

S. 1185. An act to regulate interstate commerce with respect to parimutuel wagering on horseracing to maintain the stability of the horseracing industry, and for other purposes;

S. 1318. An act to permit the State of Hawaii to use the proceeds from the sale, lease, or other disposition of certain real property for any public purposes;

S. 1626. An act to clarify the status of certain legislation and judicial officers under the provisions of title 5, United States Code, relating to annual and sick leave, and for other purposes;

S. 2411. An act to amend chapter 315 of title 18, United States Code, to authorize payment of transportation expenses for persons released from custody pending their appearance to face criminal charges before that court, any division of that court, or any court of the United States in another Federal judicial district; and

S. 3373. An act to amend title 10, United States Code, to authorize the Secretary of Defense to provide transportation to the Girl Scouts of the United States of America in connection with International World Friendship Events or Troops on Foreign Soil meetings, and for other purposes.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. EASTLAND, from the Committee on the Judiciary, without amendment:

H.J. Res. 489. A joint resolution granting the status of permanent residence to certain aliens (Rept. No. 95–1400).

H.R. 1406. An act for the relief of Lilia Araujo (Rept. No. 95–1401).

S. 1631. A bill for the relief of Chakrapani Sethumadhavan (Rept. No. 95–1402).

H.R. 7653. An act for the relief of Jackson Ormiston Edwards Cuffy and Merle Cleopatra Edwards Cuffy (Rept. No. 95–1403).

H.R. 1392. An act or the relief of Maria Miraflor Carabbacan (Rept. No. 95–1404).

S. 3395. A bill for the relief of Jan Kutina (Rept. No. 95–1405).

S. Res. 388. A resolution to refer the bill (S. 2477), for the relief of John L. Shane and Beatrice Rosenus Oakland, to the Chief Commissioner of the United States Court of Claims (Rept. No. 95–1406).

By Mr. LONG, from the Committee on Finance, with an amendment and an amendment to the title:

H.R. 9628. An act to suspend until the close of June 30, 1980, the duty on certain nitrocellulose (Rept. No. 95–1407).

By Mr. MUSKIE, from the Committee on the Budget, without amendment:

S. Res. 574. A resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to consideration of S. 857, a bill to amend the act of September 30, 1950 (Public Law 874, 81st Congress), to provide education programs for Native Hawaiians, and for other purposes (Rept. No. 95–1408).

S. Res. 589. A resolution waiving section 303(a) of the Congressional Budget Act of 1974 with respect to consideration of the conference report to accompany H.R. 11733, the Surface Transportation Act of 1978 (Rept. No. 95-1409).

By Mr. CANNON, from the Committee on Commerce, Science, and Transportation:

Report pursuant to section 302(b) of the Congressional Budget Act of 1974 (Rept. No. 95-1410).

By Mr. STENNIS, from the Committee on Armed Services, without amendment:

H.R. 3307. An act for the relief of Anthony Casamento.

H.R. 10343. An act to provide for recalculation of the retired pay of individuals who served as sergeant major of the Marine Corps before December 16, 1967.

H.R. 11945. An act to authorize the Secretary of the Army to return to the Federal Republic of Germany 10 paintings of the German Navy seized by the U.S. Army at the end of World War II.

H.R. 13416. An act to amend title 10, United States Code, to modernize the permanent faculty structure at the U.S. Military Academy, and for other purposes.

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. STENNIS, from the Committee on Armed Services:

Maj. Gen. Pat Williams Crizer, U.S. Army, to be lieutenant general.

Lt. Gen. Charles James Simmons, U.S. Army, to be lieutenant general.

The following-named officers of the U.S. Navy for permanent promotion to rear admiral:

Almon C. Wilson, J. William Cox, Medical Corps;

Shirley D. Frost, Gerald J. Thompson; Supply Corps;

William M. Zobel, Civil Engineer Corps; and

John B. Holmes, Dental Corps.

Mr. STENNIS. Mr. President, as in executive session, I also report favorably sundry nominations in the Air Force, Army, Navy, and Marine Corps which have previously appeared in the CONGRESSIONAL RECORD and, to save the expense of printing them on the Executive Calendar, I ask unanimous consent that they lie on the Secretary's desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The nominations ordered to lie on the Secretary's desk were printed in the RECORD of September 25, September 26, October 2, and October 6, 1978, at the end of the Senate proceedings.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first time and, by unanimous consent, the second time, and referred as indicated:

By MR. THURMOND:

S. 3598. A bill for the relief of Mustafa A. Shamsedin; to the Committee on the Judiciary.

By Mr. SCHMITT (for himself, Mr. GOLDWATER and Mr. HAYAKAWA):

S. 3599. A bill entitled "The National Space and Aeronautics Policy Act of 1978"; to the Committee on Commerce, Science, and Transportation.

By Mr. WALLOP:

S. 3600. A bill to amend the Internal Revenue Code of 1954 to exempt from Federal income taxation a trust established by a taxpayer for the purpose of providing care for certain mentally and physically incompetent relatives of the taxpayer, and for other purposes; to the Committee on Finance.

By Mr. SPARKMAN:

S. 3601. A bill for the relief of Borislav Subotic; to the Committee on the Judiciary.

By Mr. MATHIAS:

S. 3602. A bill for the relief of Eurith Lloyd; to the Committee on the Judiciary.

S. 3603. A bill for the relief of Ioan Iosif and his wife Eugenia Iosif; to the Committee on the Judiciary.

S. 3604. A bill for the relief of Romulo Cayetano and his wife Erlinda Cayetano; to the Committee on the Judiciary.

By Mr. STENNIS:

S. 3605. A bill for the relief of Sidsel Hansen; to the Committee on the Judiciary.

By Mr. BURDICK:

S. 3606. A bill for the relief of Doris Olyai, Amineh Olyai, Samira Olyai, and Mohammad Olyai; to the Committee on the Judiciary.

By Mr. HEINZ:

S. 3607. A bill for the relief of Sang Sun Russo; to the Committee on the Judiciary.

S. 3608. A bill for the relief of Maxine Ann Fricioni; to the Committee on the Judiciary.

By Mr. ABOUREZK:

S. 3609. A bill to authorize the Blackfeet and Gros Ventre Tribes of Indians to file in the Court of Claims any claims against the United States for damages for delay in payment for lands claimed to be taken in violation of the U.S. Constitution, and for other purposes; to the Committee on the Judiciary.

S. 3610. An act to recognize the boundaries of the Lake Traverse Reservation; to the Committee on the Judiciary.

By Mr. BAYH:

S. 3611. A bill entitled the "Constitution Bicentennial Commission Act"; to the Committee on the Judiciary.

By Mr. BARTLETT:

S. 3612. A bill to amend the Indian Financing Act of 1974, as amended; to the Select Committee on Indian Affairs.

By Mr. KENNEDY (by request):

S. 3613. A bill to amend section 17 of the act of July 5, 1946, as amended, entitled "An Act to provide for the registration and protection of trademarks used in commerce, to carry out the provisions of certain international conventions, and for other purposes"; to the Committee on the Judiciary.

By Mr. McGOVERN (for himself and Mr. MATHIAS):

S. 3614. A bill to facilitate the economic adjustment of communities, industries, and workers to civilian-oriented initiatives, projects, and commitments when they have been affected by reductions in defense or aerospace contracts, military facilities, and arms export which have occurred as a result of the Nation's efforts to pursue an international arms control policy and to realine defense expenditures according to changing national security requirements, and to prevent the ensuing dislocation from contributing to or exacerbating recessionary effects; to the Committee on Governmental Affairs.

By Mr. KENNEDY (by request):

S. 3615. A bill to amend the fee provisions of the U.S. patent and trademark laws; to the Committee on the Judiciary.

By Mr. HATCH (for himself and Mr. GARN):

S. 3616. A bill to permit the Secretary of the Interior to use the chemical compound sodium monofloracetate for the purpose of controlling the population of coyotes on public lands, and for other purposes; to the Committee on Energy and Natural Resources.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. SCHMITT (for himself, GOLDWATER and Mr. HAYAKAWA):

S. 3599. A bill entitled "The National Space and Aeronautics Policy Act of 1978; to the Committee on Commerce, Science, and Transportation.

NATIONAL SPACE AND AERONAUTICS POLICY ACT OF 1978

● Mr. SCHMITT. Mr. President, the President has now announced his view of what our future space policy should be. Many in this country, particularly many young Americans, feel his view is far too limited with respect to their view of the future and to the realities of world leadership. I am introducing a bill today with my colleagues Mr. GOLDWATER and Mr. HAYAKAWA which would establish general guidelines by which we may pursue a long-term national space policy. This bill defines some broad goals, but more importantly, some specific objectives by which in time these goals can be achieved. It sets forth a much needed policy that seems to be missing in the areas of space and aeronautics since the early seventies and from the administration's recent statements.

The hope of the free world's ability to prevent long-term Soviet dominance of the planet Earth is the technology of space. From the monitoring of compliance with international arms control agreements, to the defense against military space systems, to the control of our own defense systems, the preservation of our civilization of freedom on Earth is increasingly dependent on our expansion of activities in space.

This country, and Americans, need to flex their muscles and their motivation against all the frontiers of human endeavor, against both the risks and the benefits of those frontiers.

A SPACE POLICY FOR CIVILIZATION

If we were to imagine a space policy that would carry this country, and the civilization of freedom we lead, into space and into the 21st century, upon what factors should such a policy rest?

Let me suggest the following essential criteria:

First. The policy must present a sense of direction and continuity for all present and future generations who must implement the policy.

Second. The policy must have flexibility that can take advantage of new science and technology as well as adapt to rapidly changing goals which events may dictate.

Third. The policy must have clearly identifiable significance to the direct or indirect solutions of the major terrestrial problems of hunger, disease, unemployment, and lack of knowledge.

Fourth. The policy must integrate budgetary requirements between the various elements of the policy, and between the governmental and private sectors, so that the demands on the taxpayer are both reasonable and consistent from year to year.

WORLD INFORMATION

The decade of the 1980's, a world information decade, should have programs

aimed at permanent, eventually self-financing, services for worldwide communications, weather and ocean forecasting, Earth resources discovery monitoring, societal services, and prediction of natural events of disastrous human consequences or broad scale economic impact.

The collection and distribution of information on a worldwide basis via satellite has provided a distinct change in the course of human history. The most graphic demonstration of this change came when, on Christmas Eve, 1968, hundreds of millions of human beings throughout the world, simultaneously had a new thought about a familiar object in the night sky—the Moon. The men of Apollo 8 were there, and the Moon would never be the same for anyone. Now, we realize that the world will never be the same; that there are solutions to the age-old problems of the human condition on Earth—hunger, disease, poverty, and lack of knowledge.

A World Information decade is a much more aggressive and comprehensive approach than the space policy outlined by the Carter administration for the 1980's. Of particular interest is the capability such a decade will provide in our assistance to those developing countries of the world who wish to move with us, as free nations, into the technological 21st century. The benefits of the high technology of space will be available to them without the need to invest alone in its creation.

ORBITAL CIVILIZATION

The decade of the 1990's, an orbital civilization decade, should emphasize the progressive creation of permanent facilities in near-Earth space. Such facilities will utilize and augment this unique research, service, and manufacturing environment. The weightlessness, the vacuum, the unique view of Earth, Sun, and stars provide unparalleled opportunities for research, education, space power production, manufacturing, health care, Earth power generation and recreational activities.

Permanent facilities in orbit will provide capabilities that relate directly to current and growing problems facing this Nation. For example, the creation of new export commodities and the supply of inexhaustible energy are needs that cannot be ignored by this generation nor denied to future generations. In addition, the now real possibility of research, education, health care, and recreation in space has caught the imagination of millions of young Americans. Let us not disappoint them or the future.

As with a world information system, the management of the development of an orbital civilization should be rapidly assumed by largely nongovernmental groups. In most cases, it is anticipated, the facilities will be economically self-sustaining, except for continual Federal involvement in high-risk improvement in technology.

SOLAR SYSTEM EXPLORATION

In the first decade of the 21st century, a space policy for our civilization should reach a major culmination of excitement with the initiation of a second solar system exploration decade. This is the decade about which most of the very young have their dreams. Bases and settlements on the Moon, missions of exploration to Mars and Venus, and the beginnings of the establishment of a Martian settlement, all are the ingredients goals are made of.

A research and test base on the Moon would provide the opportunity to develop and test the systems necessary to sustain a permanent mining, agricultural, and research settlement. Equipment required for long duration mobile exploration of Mars also can be developed and tested in this environment. It may be that the Mars and Venus missions themselves would be most economically staged from the Moon.

It is the idea, however, of a permanent settlement on Mars that seems most intriguing to the young people of today. They can visualize taking part in this next great expansion of the human race and its civilization. As on the Moon, the ingredients for self-sustaining settlements on Mars appear to already exist; particularly near the polar caps.

There is little technical distance between us and Martian habitations, compared to that which faced us when we began to race to the Moon. Now, the challenge is to develop the motivation to proceed.

SUSTAINING SCIENCE AND TECHNOLOGY

In order to sustain the technological and scientific requirements for these three decades of space activity, a significant level of basic research must be maintained, and development programs must be phased in to support the major programmatic efforts.

Of particular significance are the continued development of basic transportation systems, units and structures for space facilities, heavy capacity boosters, deep space boosters, and new power and communication systems; particularly those utilizing lasar and other advanced technologies.

The Space Shuttle concept, for economical and convenient access to the near-Earth environment and its resources, must be continued through additional phases. The chances are that both the development of an orbital civilization and the extended exploration of the solar system will demonstrate the need for expanded shuttle concepts. Also, a Moon Shuttle capability will obviously be required in the nineties to establish a Moon base and then conduct physical two-way transport between a Moon settlement and Earth.

New power and booster concepts must be developed to accomplish the civilization and exploration goals economically. New engineering concepts for space construction, and maintenance of large weightless planetary structures, also must mature in parallel with the mission demands.

These efforts in space science and technology will be the well from which will come new products and technologies for direct terrestrial applications. The systems, components, and materials developed, as well as the ideas, will, as always, produce unanticipated benefits of value far beyond their costs. This will continue to be true in space as it has always been for basic research and exploration on Earth.

A major design philosophy behind this policy is to undertake largely those activities in the world information and orbital civilization decades which would eventually sustain themselves without Federal support. It is also assumed that the settlement activities on the Moon, and eventually on Mars, will be in part, if not largely, supported by commercial interests, and will be self-sufficient after a decade or less.

The technology base exists for our world information decade of the 1980's. The technology base is being created for our orbital civilization decade of the 1990's, but it is being created much too slowly. Whereas the technology base for initiating our second solar system exploration decade is not yet adequate, we have an understanding of what we need for this effort and that makes our technical base accessible.

Thus, the challenge for a space policy that will sustain the movement of the civilization of freedom into space is to create the technology base by which future leadership can move in directions dictated by events. The Tom Jeffersons, the Teddy Roosevelts, and the John Kennedys will appear. We must begin to create the tools of leadership which they, and their young frontiersmen, will require to lead us onward and outward. Mr. President, I ask unanimous consent that the bill be printed in the RECORD together with a section-to-section analysis.

There being no objection, the bill and analysis were ordered to be printed in the RECORD, as follows:

S. 3599

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—DECLARATION OF POLICY

SEC. 101. Findings. The Congress finds and declares that—

(1) The activities of the United States related to the explorations and utilization of the space environment have vastly increased our knowledge of the Earth, its history, its future resources and its future limitations.

(2) The scientific and technical advancements resulting from the activities of the United States in space and aeronautics are contributing in ever-increasing ways to the improvement of life on Earth, particularly in the areas of health, education, food production, environment, protective resource utilization, defense, energy production and conservation, communications, transportation, and protection from natural hazards.

(3) The entrenchment in the space and aeronautical activities of the United States since the early 1970's has resulted in a serious threat to our economic progress, our national defense and to our leadership role in the movement of human civilization into space.

(4) The gradual acceleration of well-managed space and aeronautics activities by the United States, governments, institutions, and industry will further benefit the nation far beyond the cost of such activities.

(5) The future potential of automated satellites in orbit which collect and distribute many kinds of information around the Earth, include major improvements in telecommunications, weather and ocean forecasting, earth resources sensing, communications services and hazard predictions.

(6) The activities of the United States in the space environment have demonstrated

the great potential for the beneficial application of weightlessness, infinite volumes of vacuum and the orbital view of the Earth, Sun and stars.

(7) The future potential of the permanent manned and automated facilities for civilizations in orbit around the Earth include research, education, power production, manufacturing, and health care.

(8) The continued exploration and eventual settlement of other places in the solar system, including the Moon and Mars, is important to many present and future generations of Americans and should be a long-time goal of the space activities of the United States.

(9) The future space and aeronautical activities of the United States must be sustained by a variety of interrelated research, development and demonstration programs which create the knowledge and capability necessary to maintain leadership in such activities.

(10) The future space and aeronautical activities of the United States must encourage the cooperative participation of commercial, institutional and international interests in all appropriate undertakings.

(11) It is in the national interest to establish a United States space and aeronautics policy directed toward the implementation of:

(a) a World Information System during the 1980's which consists of permanent, generally self-financing services in telecommunications, weather and ocean forecasting, earth resources sensing, communication services and natural hazard predictions;

(b) an Orbital Civilization during the 1990's which consists of permanent, generally self-financing facilities for research, education, power production, manufacturing, and health care.

(c) a Solar Systems Exploration capability during the first decade of the 21st Century which provides the options for moon bases, manned missions to Mars, a Moon settlement, manned missions to Venus and a Mars settlement;

(d) space technology development necessary to support the World Information Systems, Orbital Civilization and Solar System Exploration set out in (a), (b), and (c).

(e) space research and applications on a sustaining basis in planetary sciences, basic space sciences, astronomy, solar sciences and engineering;

(f) and aeronautical technology development necessary to support general and commercial aviation, lighter-than-air and supersonic aviation, hydrogen fuel, aircraft propulsion, and appropriate new flight concepts.

SEC. 102. Purpose.

It is the purpose of this Act to establish a comprehensive National Civilian Space and Aeronautics Policy that will provide the framework for a World Information System, an Orbital Civilization, Exploration of the Solar System and the development of other space and aeronautical activities in order to preserve and expand the leadership of the United States in the movement of mankind's civilization into space.

TITLE II—NATIONAL SPACE AND AERONAUTICS POLICY

SEC. 201. National Space and Aeronautics Policy.

The Congress declares that the United States is committed to the expansion of the peaceful civilization of the space and atmospheric environments for the benefit of the National and all of mankind and pursuant thereto establishes the following national space and aeronautics principles:

(1) The United States is committed to the peaceful expansion of the benefits of free institutions and the civilization based on free institutions into space.

(2) The United States is committed to the peaceful use of the environments of space and the atmosphere.

(3) The United States is committed to the allocations of an appropriate and consistent fraction of its gross national product, but no less than one-half of one percent, to the development of space and aeronautical capabilities and to the support of appropriate sustained activities in space and the atmosphere.

(4) The United States is committed to the establishment of direction and continuity in space and aeronautical policy for present and future generations.

(5) The United States is committed to flexibility in space and aeronautics so that new scientific, technological, economic and political developments can appropriately influence this policy.

(6) The United States is committed to a space and aeronautics policy that includes clearly identifiable significance to the direct or indirect alleviation of the major human adversities of hunger, disease, poverty and lack of knowledge.

(7) The United States is committed to a space and aeronautics policy that integrates budgetary requirements between all elements of the policy and between governmental, private and international participants in related activities.

(8) The United States is committed to the encouragement and continued establishment to the maximum extent practicable, self-financing non-federal institutional or commercial enterprises in space and aeronautics.

(9) The United States is committed to the expansion of scientific knowledge and wisdom through the utilization of space and aeronautical resources and capabilities.

(10) The United States is committed to the transfer of space and aeronautical technologies to other private, governmental and international applications.

(11) The United States is committed to the maintenance and expansion of its world leadership in space and aeronautical technology as a principal means of insuring the free world economic and political strength.

(12) The United States rejects any claim of *a priori* national appropriation over outer space, including the moon and other celestial bodies, or any position therof, and any limitation on the fundamental right to freely acquire and distribute data from space.

(13) The United States recognizes that the facilities, bases or settlements of any nation or international organization are the property of such nation or international organization and have the right of passage through and operations in space without interference, and that purposeful interference with such systems shall be viewed as an infringement on sovereign rights.

(14) The United States is committed to conducting cooperative international space activities that provide economic, scientific, technological, political, and other benefits to the United States and mankind.

(15) The United States is committed to conducting national and international activities in space with the maximum possible attention given to the safety of participants in that activity, the safety of people and facilities on Earth, the efficient use of the common heritage resources of space and the atmosphere, and the protection of the terrestrial, atmospheric and space environment.

TITLE III—PROGRAM

SEC. 301. To assure the timely achievement of the policy and purpose of this Act, the National Aeronautics and Space Administration, in cooperation with appropriate private, governmental and international groups, shall pursue aggressive research and systems development in space and aeronautics science and technology. Such activities shall include, but not be limited to, the following programs:

(1) The creation of an operational World Information System by the year 1990 that would include, but not be limited to, the following elements:

(A) An expanded telecommunications network that makes maximum efficient use of the frequency and orbital position resources in near-Earth space;

(B) an expanded weather and oceans forecasting network that provides all peoples with short-term assistance in preparing for weather and ocean phenomena;

(C) an operational Earth resources monitoring system that collects and makes available data necessary for maximum efficiency and environmentally sound utilization of natural and agricultural resources on Earth.

(2) The development of the basic facilities and capabilities by the year 2000 necessary to create an Orbital Civilization in near-Earth space which would include, but not be limited to, the following elements:

(A) research in basic science and engineering that makes use of the unique characteristics of the space environment;

(B) education in disciplines that can benefit from instruction and research in the space environment and with the space perspective;

(C) space power availability sufficient to support the in-orbit requirements of other facilities;

(D) manufacturing that makes use of the unique characteristics of the space environment;

(E) health care that makes use of the unique physiological and psychological characteristics of human beings in the space environment;

(F) space to earth power capability that is economically competitive with power generation on earth; and

(G) space recreation opportunities for as broad a spectrum of human beings as possible.

(3) The development of the capabilities by the year 2010 to undertake further solar system exploration by mankind that would include, but not be limited to, the following elements:

(A) a base for research and test activities on the Moon;

(B) manned missions of exploration to Mars;

(C) a permanent settlement on the Moon;

(D) manned missions of exploration to Venus; and

(E) a permanent settlement on Mars.

(4) The development of economical and reliable space technology necessary to carry out the programs defined by paragraphs 301 (1), (2), and (3) to include, but not be limited to, the following elements:

(A) Earth to near-Earth space transportation systems;

(B) modern habitation and work units necessary to construct orbital facilities;

(C) high power production and transmission systems for use in orbit and from orbit;

(D) large space structures;

(E) large capacity earth to orbit booster systems;

(F) utility booster system for orbit to orbit transfer;

(G) earth to moon and return transportation system;

(H) deep space booster system for manned solar system exploration; and

(I) planetary surface structures for habitation and work.

(5) The establishment and maintenance of research and application programs that would include, but not be limited to, activities in the following areas:

(A) planetary sciences;

(B) basic space sciences, including physics, chemistry and biology;

(C) astronomy and astro-physics;

(4) solar sciences; and

(E) engineering.

(6) The establishment and maintenance of aeronautical technology programs that

would include, but not be limited to, the following elements:

(A) general aviation;
(B) commercial aviation;
(C) lighter-than-air transportation;
(D) hydrogen fuel propulsion;
(E) supersonic transportation; and
(F) new flight concepts at the frontiers of aviation technology.

SEC. 302. Thirty-Year Plan.

The Administrator of the National Aeronautics and Space Administration, together with the Director of the Office of Science and Technology Policy, and after consultation with appropriate Federal agencies, shall develop and submit to the Congress for review and comment no later than 180 days after the enactment of this Act, a preliminary thirty year plan, including proposed annual funding requirements and a detailed research and development schedule. No later than one year after the date of enactment of the Act, the Administrator shall submit a final thirty year plan. Status reports and revisions to the Plan shall be submitted to the Congress on an annual basis in conjunction with the submission of budget request beginning with the third fiscal year after enactment of this Act.

SEC. 303. Authorization for Appropriations.

Beginning with the third fiscal year after its enactment, the provisions of this Act shall be the general basis for authorizations of funds for the National Aeronautics and Space Administration consistent with the provisions of the National Aeronautics and Space Act of 1958, as amended.

SECTION-BY-SECTION ANALYSIS

TITLE I—DECLARATION OF POLICY

Section 101. Findings: It is recognized that the United States has greatly benefited from the activities of the space exploration activities. These activities have vastly increased human knowledge; resulted in scientific and technical advancements contributing in numerous ways to the improvement of life on Earth; demonstrated the future potential of automated satellites including telecommunications, weather and ocean forecasting, earth resources sensing and hazard predictions; demonstrated the potential for beneficial application of weightlessness, infinite volumes of vacuum and the orbital view of the Earth, Sun and stars. The great potential which the space environment offers in all these areas, and many yet unknown, create a need for a comprehensive space and aeronautics policy that would be implemented in three phases: a World Information System; an Orbital Civilization; and a second Solar System Exploration capability. Additionally, it will be necessary to sustain space research and applications in the basic sciences and sustain development of aeronautical technology.

Section 102. Purpose: This Act establishes a comprehensive National Civilian Space and Aeronautics Policy which provides the framework for a long-term policy in space and aeronautics activities and to preserve and expand the leadership of the United States in the movement of mankind's civilization into space.

TITLE II—NATIONAL SPACE AND AERONAUTICS POLICY

Section 201. National Space and Aeronautics Policy: The United States is committed to the peaceful use and expansion of the benefits of the environments of space and the atmosphere. This includes funding levels of no less than one-half of one percent of the gross national product for the development of space and aeronautical capabilities. In order to sustain a slow and steady acceleration of these activities at a reasonable cost, this bill encourages, to the maximum extent practicable, self-financing, non-federal institutional or commercial enterprises in space and aeronautics.

TITLE III—PROGRAM

Section 301: By 1990, the creation of a World Information System would include but not be limited to expanded or new networks for telecommunications, weather and ocean forecasting and earth resources monitoring.

By the year 2000, the option to create Orbital Civilization facilities would be available for such activities as education, health care, manufacturing, and orbit-to-orbit and space-to-earth power capability.

By the year 2010, the United States would have the capabilities to undertake a second Solar System Exploration program which includes a base for research and test activities on the moon, space settlements, and exploration missions to other bodies in our solar system.

During this time frame, the United States would be committed to the development of economical and reliable space technology to achieve the capabilities to carry out the programs.

NASA would submit a thirty-year plan to Congress, which would be updated and revised on an annual basis in conjunction with the submission of budget request beginning with the third fiscal year after enactment.●

By Mr. ABOUREZK:

S. 3609. A bill to authorize the Blackfeet and Gros Ventre Tribes of Indians to file in the Court of Claims any claims against the United States for damages for delay in payment for lands claimed to be taken in violation of the U.S. Constitution, and for other purposes; to the Committee on the Judiciary.

BLACKFEET AND GROS VENTRE TRIBES

● Mr. ABOUREZK. Mr. President, today I am introducing legislation to authorize the Blackfeet and Gros Ventre Tribes of Indians to file in the Court of Claims any claims against the United States for damages for delay in payment for lands claimed to be taken in violation of the U.S. Constitution. The bill would rectify past injustices by authorizing the U.S. Court of Claims to hear and decide whether the taking of their land in 1874 was in violation of the fifth amendment of the U.S. Constitution, so as to entitle them to interest. A previous judgment awarded the tribes damages for the taking of their lands, but the court did not decide or even address the constitutional issue. Later, when the tribes sought to have their day in court on this issue, they were turned down on the grounds of res judicata. The bill does not necessarily mean that the Blackfeet and Gros Ventre Tribes will win their claim; it only authorizes the Court of Claims to hear the claim on the merits and decide whether the taking was indeed in violation of the fifth amendment. The tribes only want their day in court on this issue.

In this matter, the Blackfeet and Gros Ventre Tribes seek the same relief as was granted to the Sioux Nation by Public Law 95-243, 92 Stat. 153.

BACKGROUND OF THE CLAIM

A. THE ORIGINAL CASE

On July 10, 1925, the Blackfeet and Gros Ventre Tribes, who shared a common reservation at the time the claims arose, but now reside separately on the Blackfeet and Fort Belknap Reservations, filed a petition in the Court of Claims pursuant to a special jurisdictional act passed on March 13, 1924 (43 Stat. 21), which reads in pertinent part as follows:

(J)urisdiction is hereby conferred upon the Court of Claims . . . to consider and determine all legal and equitable claims against the United States of the Blackfeet, Blood, Piegan, and Gros Ventre Nations or Tribes of Indians—for land or hunting rights claimed to be existing in all said Nations or tribes . . . which land and hunting rights are alleged to have been taken from the said Indians by the United States. . . .

In their petition, the Blackfeet and Gros Ventre Tribes sought damages against the United States for the failure to protect buffalo and other game from destruction, for the wrongful removal of wood for agency, school, and personal uses, and for the taking of certain lands without consent or the payment of compensation in violation of the treaty of October 17, 1855 (11 Stat. 657).

With respect to the taking claims, the Court of Claims held (81 Ct. Cl. 101 (1935)) that the Blackfeet and Gros Ventre Tribes had recognized title to a large reservation in Montana by virtue of the treaty of October 17, 1855, and that 15,289,344 acres had been taken from the tribes and made a part of the public domain by virtue of the act of April 15, 1874 (18 Stat. 28), and the Executive order of August 19, 1874.

Due to certain additions of about 3,000,000 acres to the reservation, the Court found the net loss from the original reservation to be 12,261,749.76 acres and further found that no compensation had been paid to the Blackfeet and Gros Ventre Tribes for the taking. Based upon a valuation of $.50 per acre, the Court awarded the tribes $6,130,874.88 in damages less $5,508,409.31 in offsets, leaving a net award of $622,465.57. The Court did not discuss whether the taking was in violation of the fifth amendment and did not award interest to the tribes. In fact, the Court never even mentioned interest anywhere in its opinion. The tribe did not ask for interest, perhaps because of a misunderstanding of the state of the law. See, *Blackfeet and Gros Ventre Tribes* v. *United States*, 127 Ct.Cl. 807, 820 (1954) (Madden, J., dissenting). However, when "just compensation" is awarded for a fifth amendment taking, the interest component "attaches itself automatically to the right for an award of damages," and thus, to specifically demand interest is superfluous. Given jurisdiction to award damages for a fifth amendment taking, and given that such a taking is proven, interest is automatic, and not even Congress can prevent its award. *Shoshone Tribe* v. *United States*, 299 U.S. 476, 497 (1937); see, *United States* v. *Klamath Tribe*, 304 U.S. 119, 123 (1938).

B. THE INDIAN CLAIMS COMMISSION CASE

Following the passage of the Indian Claims Commission Act, 60 Stat. 1049, 25 U.S.C. section 70, the Blackfeet and Gros Ventre Tribes raised the interest issue. They filed a petition with the Commission asserting, among other things, that as a result of the taking of their lands recited in the 1935 Court of Claims decision, they were entitled to the payment of just compensation by the United States under the fifth amendment. They sought simple interest at the rate of 5

percent per year from the date of taking—1874—to the date of payment—1935.

The Indian Claims Commission dismissed the interest claim in 1952 on the ground that the Court of Claims in the 1935 case had jurisdiction to award interest as a part of just compensation and, thus, the question of whether or not interest could be recovered was now foreclosed. The award of money for the land, therefore, became res judicata as to any claim for interest. (2 Ind. Cl. Comm. 302).

The Blackfeet and Gross Ventre Tribes appealed this decision and it was affirmed by the Court of Claims (127 Ct.Cl. 807 (1954)). The Court acknowledged that:

> The (Tribes') right to the designated territory granted to them by the treaty of 1855 represented a property right protected by the Fifth Amendment. . . . A right arose in (the Tribes) for just compensation under the Fifth Amendment when the United States in exercising the power of eminent domain took their property for public use. (127 Ct.Cl. at 881).

Yet, the 1954 Court ruled that even though the 1935 Court never mentioned interest in that case, the tribes' claim for interest under the Indian Claims Commission Act was barred by res judicata. The tribes sought Supreme Court review, but certiorari was denied. 348 U.S. 863 (1954).

Having exhausted their legal remedies, the Blackfeet and Gros Ventre Tribes' only recourse is to ask Congress to waive the Government's defense of res judicata and permit a judicial determination on the merits as to whether the takings of their land were indeed fifth amendment takings such that interest is due them.

The Blackfeet and Gros Ventre Tribes should be allowed to have their fifth amendment claim heard.

In Indian claims interest is the exception; most awards are not accompanied by interest increments. However, there is one well-established class of cases where interest is allowed—in fifth amendment just compensation cases; that is, where:

First. The Indian title is acquired by treaty, statute, or other congressional recognition—not merely by aboriginal use or Executive order;

Second. The Indians' property is taken without their consent—not as part of an agreement with the Indians or as an act of management of trust property; and

Third. The taking is authorized or ratified by Congress.

In such cases, the compensation to which the Indians are entitled automatically bears interest as a constitutionally mandated element of the award. Although the list of cases in which the Indians have won interest is small, it forms a well-established class. For a tribe to have a case such as this one, which falls into the established class, and not recover interest is to unfairly deprive that tribe of part of what it is entitled to and to foster a feeling of injustice. The Indians are left with an abiding sense that they have been denied justice. They say, "We did not wish to give up our reservation lands and, yet, they were taken from us without our consent. Why do we not receive what the law entitles us to and what other tribes have received?"

It may be that the Blackfeet and Gros Ventre Tribes do not meet the requirements for a fifth amendment taking, but they have never had the fundamental fairness of having their claim decided in court. Instead, they are told that an earlier case where their claim was not passed upon but supposedly could have been is a bar to their claim forever.

The tribes' entitlement to interest was ignored by the Court of Claims even though it is supposed to be an automatic part of any award for a fifth amendment taking. Then the tribes' claim was denied by the Indian Claims Commission on the ground that the Court of Claims should have awarded it. Yet, a report by the House managers of the bill that became the Indian Claims Commission Act stated:

> Where an Indian tribe has already recovered for the value of land taken from it, the Commission will be permitted to entertain a claim for just compensation where no claim was actually litigated by the tribe. Again, *the previous assertion of a claim for interest, which could not be awarded because of existing provisions of law, shall not preclude the claimant from hereafter raising before the Commission a claim for interest as a part of just compensation in the constitutional sense on the principal sum already obtained.* (92 Cong. Rec. App. A4923-24 (1946); emphasis added).

The Blackfeet and Gros Ventre Tribes brought this report to the attention of the Court of Claims, but the court refused to rely upon it, saying that it represented the views of the House managers and not necessarily those of Congress as a whole (127 Ct. Cl. at 817-18).

The Blackfeet and Gros Ventre Tribes seek only the right to be heard in court on whether the takings of their land were in violation of the fifth amendment such that their award should have included interest from the date of taking to the date of payment. They are in essentially the same position as the Sioux Nation which was successful in obtaining legislation from this Congress (P.L. 95-243, 92 Stat. 153) to rectify a virtually identical injustice.

It is not possible to predict how the court might compute the interest if it holds that there was an unconstitutional taking, but if interest is computed in the usual manner at the customary rate of 5 percent—simple, based upon the gross judgment of $6,130,875 from 1874 until 1935, the interest would be 61 x .05 x $6,130,875=$18,699,158.

The Sioux sought to have the bar of res judicata lifted so they could present their claim that they were entitled to interest on the taking of their Black Hills land in violation of the fifth amendment.

The Sioux sought to have the bar of under a special jurisdictional act and it was dismissed. The claim was subsequently filed with the Indian Claims Commission and, on appeal, the Court of Claims held that it was barred by res judicata because of the prior lawsuit. Congress recognized the injustice of this situation and lifted the bar of res judicata.

In considering the Sioux claims, Congress was properly mindful of the possible "floodgates problem" with other similar claims, and asked the Justice Department and the Indian Claims Commission how many other cases were similarly filed with the Indian Claims Commission and held to be barred by res judicata. Significantly, the interest claim of the Blackfeet and Gros Ventre Tribes appeared on both lists.

The original lists of the Justice Department and the Indian Claims Commission included many cases involving takings which clearly did not rise to the level of fifth amendment takings. These claimants were, therefore, legally not entitled to interest. The true list of cases involving a likely fifth amendment claim subsequently held by the Indian Claims Commission to be barred by the doctrine of res judicata was narrowed to five by the counsel for the Sioux Nation. This was also the number used by Mr. Raymond V. Butler, testifying on behalf of the Interior Department before the House Public Lands and Indian Affairs Subcommittee in this Congress. Significantly, the Blackfeet and Gros Ventre Tribes were included on both of these lists as well. Thus, the Justice Department, the Interior Department, and the Indian Claims Commission have all recognized that the Blackfeet and Gros Ventre Tribes are in the same situation as the Sioux, and there are really only four other tribes who are similarly situated with respect to their probable fifth amendment claims.

The history of the Sioux Black Hills claim was rife with injustice, but so is the history of the Blackfeet and Gros Ventre Tribes' fifth amendment claim. Instead of having their claim completely dismissed as the Sioux did, the Blackfeet and Gros Ventre Tribes actually prevailed on the merits and were awarded the bare land value of the property taken. However, the Court failed to say whether a fifth amendment taking had occurred and it failed to award them, or even mention, the interest that any litigant is supposedly entitled to automatically when a fifth amendment taking is proven.

Furthermore, the Sioux received a basic award of $17.1 million without any reduction for offsets on their Black Hills claims, largely because Congress passed a special law (P.L. 93-494, 88 Stat. 1499) designed primarily for them, to the effect that expenditures received from the United States by the Sioux in the form of food, rations, and provisions would not be deemed to be "payments on the claim" for offset purposes as they had been in other cases. By contrast, the award to the Blackfeet and Gros Ventre Tribes of $6.1 million was reduced by $5.5 million, or 90 percent, due to offsets, many of which were food, rations, and provisions, which at that time were allowable. To make matters worse, however, the Court of Claims took the opportunity 11 years later in one of its Sioux cases to admit that a substantial amount of the offsets in the Blackfeet and Gros Ventre Tribes' case, as well as several other cases, had been improperly allowed. In *Sioux Tribe* v. *United States*,

105 Ct. Cl. 725, 793, (1946), the Court stated:

In certain cases heretofore before the court on the question of legal and equitable offsets including gratuities, allowable to the Government against the Indians as deductions from such amount as was determined to be due the tribe concerned, the court, without full and adequate presentation and consideration of the historical origin and background of Indian agents and agencies, allowed as offsets in favor of the Government pay and expenses of Indian agents and all other agency expenses as non-treaty obligations of the Government and as gratuitous expenditures from public funds for the benefit of the Indians. *See, Blackfeet et al. Nations v. United States,* 81 Ct. Cl. 101, 136, 137, 138; *Shoshone Tribe of Indians v. United States,* 82 Ct. Cl. 23 and 85 Ct. Cl. 31. However, *further study* of the matter in the light of those treaties as they were evidently understood and intended by the parties, and in the light of their background and conditions existing at the time they were made, *convinces us that salaries of agents, agency employees, agency expenses and transportation of treaty supplies and annuities were not proper legal and equitable charges or gratuities* properly to be offset against the Indians. (Emphasis added).

The offsets which the Court admitted were improper—albeit too late—totaled about $1,000,000.

Finally, it should be noted that the maximum liability of the Government for interest on the Sioux claim is approximately $85 million. By contrast, the maximum liability of the Government for interest on the Blackfeet and Gros Ventre Tribes' claim is $18.7 million, and a court could well find reasons to allow less.●

By Mr. ABOUREZK:

S. 3610. An act to recognize the boundaries of the Lake Traverse Reservation; to the Committee on the Judiciary.

LAKE TRAVERSE INDIAN RESERVATION RECOGNITION ACT

● Mr. ABOUREZK. Mr. President, I am introducing S. 3610 to reestablish the boundaries of the Lake Traverse Reservation which is the home of the Sisseton-Wahpeton Sioux Tribe. The reservation boundaries were originally established by article III of the treaty of February 19, 1867 (15 Stat. 505). The reservation is V-shaped and lies in the northeast corner of South Dakota with a small portion in the southeast corner of North Dakota. This area contains 918,779.32 acres.

The intent of this legislation is to offer a remedy to a situation brought about by a 1975 Supreme Court decision in the case of *DeCoteau* v. *District County Court,* 420 U.S. 425 (1975). In this case, the Supreme Court, in a divided opinion, held that the Lake Traverse Reservation was terminated by an 1891 act of Congress and that all lands within the reservation for which a fee patent has been issued ceased to be a part of Indian country. As a consequence of this decision, only those parcels of land within the original boundaries of the reservation which are held by the United States in trust for the tribe or its members are considered a part of the Indian country and subject to Federal or tribal jurisdiction. There is no substantial unit of contiguous Indian land and what has previously been regarded by the Congress and the executive as a reservation has been reduced to a "crazy quilt" pattern of individual tracts of land.

The DeCoteau decision represents a step backward from rules of interpretation laid down by the Supreme Court as early as 1909 in the case of *U.S.* v. *Celestine,* 215 U.S. 278 (1909); a rule adopted by Congress in 1948 (act of June 25, 1948; 62 Stat. 757; 18 U.S.C. 1151); and reaffirmed most recently in *Mattz* v. *Arnett,* 412 U.S. 481 (1973) following *Seymour* v. *Superintendent,* 368 U.S. 351 (1961).

Whether or not the Court correctly applied the principles of law previously established should not be the concern of Congress in considering this legislation. The important concern is to correct the harm that this decision causes the Sisseton-Wahpeton Tribe.

The majority of the Court stressed the history of dealings between the Sisseton-Wahpeton Tribe which led to the 1891 statute; the three dissenting Justices disagreed with this historical analysis and stressed the chaos and tragedy the majority decision inflicted upon this tribe and government within this area. Both analyses are relevant and when fully examined lead to the inescapable conclusion that justice and commonsense require that the boundaries of the reservation defined in article III of the 1867 treaty must be reestablished.

The treaty of 1867 with the Sisseton-Wahpeton Tribe without any means of the United States to honor its obligations to this band of friendly Indians. As a result of the Sioux outbreak of 1862, Congress confiscated all the Sioux annuities and reservations. The Sisseton-Wahpeton Band did not join in these hostilities but rather served the United States in the capacity of scouts.

The confiscation left the Sisseton-Wahpeton tribe without any means of support and forced them to be "homeless wanderers, frequently subject to intense suffering from want of subsistence and clothing to protect them from the rigors of a high northern latitude, although at all times prompt in rendering service when called upon to repel hostile raids and to punish depredations committed by hostile Indians upon the persons and property of whites." (Treaty with the Sisseton and Wahpeton Sioux, 1867).

It was argued in the Supreme Court and accepted by the majority that within 24 years this tribe "willingly" and with full "consent" gave up its reservation in an arms length transaction with every intention that its reservation should be terminated. Without question the written word in the negotiations, the agreement and the statute recite willingness and consent. But the facts set forth in the Supreme Court decision indicate only that the band made the best of a very bad situation.

Only 20 years earlier in 1871 Congress determined that it would no longer deal with Indian tribes through treaty negotiations. (Act of March 3, 1871, ch. 120, Sec. 1, 16 Stat. 566.) In 1887 Congress enacted the General Allotment Act (Act of Feb. 8, 1887, ch. 119, 24 Stat. 388) which provided that Indian reservations would be allotted and opened for settlement by non-Indians. Under the terms of this statute 160 acres were to be allotted to the head of every Indian household and the remaining land was to be declared surplus and offered for sale to non-Indian settlers, the proceeds of sale to be paid to the tribe occupying the reservation thus broken up. The record in the Sisseton-Wahpeton case as reflected in the Supreme Court decision shows that the tribe extracted from the Federal negotiators provision that every member of the tribe, whether the head of a household or not, would receive 160 acres; and that a premium price—that is, $2.50/acre vis-a-vis $1.60/acre—would be paid. In addition compensation for scout services arising from performance in the 1862 uprising were also to be paid. For over 20 years the tribe had claimed this payment but the United States turned a deaf ear.

This tribe, negotiating from the standpoint of poverty; from nonpayment of claims it believed to be due from its 1862 services as scouts; and from the inevitable consequence spelled out in the 1887 Dawes Act, extracted the best it could from an impossible situation. The record may well indicate a "willing" transaction, but the facts suggest otherwise.

As noted by the majority opinion, the jurisdictional history of this reservation is not wholly clear. The court notes that the State of South Dakota has always asserted jurisdiction over those lands within the reservation held in fee patent status. From 1891 to 1908 the Lake Traverse Reservation was eliminated from maps published by the Commissioner of Indian Affairs. After 1908 some Government maps included the area as an "open" or "former" reservation, while more recent maps have characterized it simply as a "reservation." Exactly why the Lake Traverse Reservation was restored to the maps in 1908 is not made clear in the DeCoteau decision. However, it is a fact that the annual reports of the Indian agent at Sisseton for the period from 1891 through 1908 are replete with complaints that the State and county courts refused to accept jurisdiction over Indian cases. This casts some doubt over the extent to which the State asserted jurisdiction within this area.

In 1946 the Sisseton-Wahpeton tribe adopted a constitution asserting jurisdiction over Indian owned land lying within the original reservation boundaries. In 1963 the Eighth Circuit Court of Appeals held that the 1891 act had terminated the Lake Traverse Reservation. (*DeMarrias* v. *South Dakota,* 319 F. 2d 845 (8th Cir., 1963). However, in 1966, with the approval of the Commissioner of Indian Affairs, the tribe adopted a new constitution asserting jurisdiction over all lands within the original 1867 boundaries of the reservation. In 1972 a field solicitor for the Department of the Interior rendered an opinion that the 1891 act had not extinguished tribal jurisdiction within this reservation. And in 1973, in the DeCoteau case, the eighth circuit overruled its earlier 1963 opinion holding that the reser-

vation had in fact survived the 1891 act. It was this decision which the Supreme Court reversed.

Approximately 3,000 members of the Sisseton-Wahpeton tribe live within the 1867 boundaries of the Lake Traverse Reservation. Only a small percentage of these tribal members live within the "closed" portion of the reservation—that portion which the Court found to constitute the remaining Indian country. Approximately 15 percent of the land within the 1867 boundaries is held in trust by the United States for individual Indians or for the tribe itself. The office of the local Bureau of Indian Affairs is at Sisseton which is not in the "closed" part of the reservation. Federal services to members of the tribe extend to those residing on land opened to settlement as well as to those on trust allotments.

The dissenting opinion notes that:

> The tribe has a police force and a court. The tribe provides rental housing of 240 units. It provides fire protection. It is the major employer. It operates the only garbage collection and disposal. It is the major governmental entity within the reservation boundaries, servicing Indians and non-Indians. (420 U.S. at 465.)

The extent of Federal services provided the members of this tribe as well as the capacity of the government of the tribe to operate are imperiled by the DeCoteau decision. Many services performed by the Bureau of Indian Affairs are limited to tribal members living on a reservation or on trust land near a reservation. If the Bureau were to strictly apply the findings of the DeCoteau decision, many members of the Sisseton-Wahpeton tribe would be denied benefits they are presently receiving. Many other Federal programs such as CETA, housing, child welfare, et cetera, are geared to a reservation base. Statutes relating to acquisition of land and protection of natural resources are also generally limited to lands within reservation boundaries. In addition to disruption of normal governmental services, the DeCoteau decision threatens all of these programs.

The impact of this decision on Federal, State, and tribal government is best summarized in the dissenting opinion:

> (T)he Federal Government and the tribal government have no jurisdiction when an act takes place in a homesteaded spot in the checkerboard; and South Dakota has no say over acts committed on "trust" lands. . . . Jurisdiction dependent on the "tract book" promises to be uncertain and hectic. Many acts are ambulatory. In a given case, who will move—the State, the tribe, or the Federal Government? The contest promises to be unseemly, the only beneficiaries being those who benefit from confusion and uncertainty. . . . Checkerboard jurisdiction cripples the United States in fulfilling its fiduciary responsibilities of guardianship and protection of Indians. It is the end of tribal authority for it introduces such an element of uncertainty as to what agency has jurisdiction as to make modest tribal leaders abdicate and aggressive ones undertake the losing battle against superior state authority. 420 U.S. 467.

The bill will assure the continuity of Federal program delivery to this very deserving tribe and it will restore to the tribe the capacity to govern its own people.

Mr. President, I realize that it is too late in this session of Congress for any action to be taken on this bill. I introduce it today in order that it may be considered and discussed in the interim by the people who will be affected.

Finally, I would note that I have, in this session of Congress, introduced legislation which will enable this tribe and the State and local authorities to reach compatible solutions on jurisdictional issues they may confront after passage of reservation restoration bill I introduce today. I refer to S. 2502, the Tribal-State Compact Act, which has received wide support and which I expect to see enacted early next year. The leaders of the Sisseton-Wahpeton Tribe are interested in entering into such cooperative agreements with State and local governments on jurisdictional issues. I believe the leaders of the surrounding non-Indian communities will find that their interests will also be served through such agreements. In the absence of a proper reservation, however, I fail to see any basis for development of such agreements. It is my hope that this legislation will serve the common interests of both the Indian and the non-Indian in the Lake Traverse area.

I ask unanimous consent that this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 360

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Lake Traverse Indian Reservation Recognition Act."

SEC. 2. For the purpose of enabling the tribe of Indians known as the Sisseton-Wahpeton Sioux Indian Tribe of North and South Dakota to promote the integrity of the Tribe, to secure the historical inheritance of the Tribe, and to improve the social, cultural and economic life of its members, the Lake Traverse Indian Reservation in the States of North Dakota and South Dakota is restored as a Federal reservation set aside for the use and benefit of the Sisseton-Wahpeton Sioux Indian Tribe.

SEC. 3. Notwithstanding the provisions of the Act of March 3, 1891 (26 Stat. 989) or any other law to the contrary, the external boundaries of the Lake Traverse Reservation are hereby recognized to be those boundaries described in Article III of the Treaty of February 19, 1867 (15 Stat. 505), provided that nothing in this Act shall be deemed to authorize civil or criminal jurisdiction by the Tribe over non-Indians or non-trust property, but the authority of the Tribe to exercise jurisdiction over tribal members within the boundaries of this reservation is hereby recognized.

SEC. 4. Except as provided in section 3, all laws of general application to Indians because of their status as Indians and all laws of general application to lands and natural resources within Federally recognized Indian reservations shall extend to the Lake Traverse Reservation as defined in this Act.

SEC. 5. Nothing contained in this Act shall alter any existing rights or obligations, or any contractual rights or obligations, or affect any action or proceeding over which a court has already assumed jurisdiction.●

By Mr. BAYH:

S. 3611. A bill entitled the "Constitution Bicentennial Commission Act"; to the Committee on the Judiciary.

CONSTITUTION BICENTENNIAL COMMISSION ACT OF 1978

Mr. BAYH. Mr. President, today I am introducing the American Constitution Bicentennial Commission Act of 1978. In doing so I hope that persons who have an interest in the commemoration of our Constitution's 200th anniversary may have an opportunity to review and comment on this proposed legislation. As chairman of the Judiciary Subcommittee on the Constitution, it is my intention to begin a series of hearings on December 7 to explore this and other proposals designed to commemorate the Bicentennial of the American Constitution. As I am sure some of my colleagues know, it was on December 7, 1787, that the first State ratified the Constitution. That State was Delaware.

The crucial importance of the Constitution is sometimes taken for granted for the simple reason that it seems almost anticlimactic by comparison with the mighty, ringing phrases of the Declaration of Independence, and the heroic struggles of the Revolution. It is, after all, not so much a great statement of principle as a blueprint for the formation and conduct of our form of government, a blueprint that continues to serve as surpassingly well nearly two centuries later.

Mr. President, few Americans understand the long and difficult struggle that the new United States of America faced even after peace had been concluded with Great Britain under the Treaty of Paris in 1783. Many of the colonists had joined the Revolution in order to restore State autonomy rather than to form a new national government. Opinion in Europe was that the new country would quickly succumb to its international differences and many agreed with Frederick the Great of Prussia when he said: "little by little, colony by colony, province by province," America would "rejoin England and their former footing."

The Articles of Confederation were adopted by the Congress at the beginning of the Revolutionary War in 1777. The articles were finally approved by the States in 1781. The Articles of Confederation reflected the colonists' fears of a strong central government. Under the articles the Government could only request funds from the States, could not regulate interstate commerce, had no executive branch, and was run largely by committees. Each State received 1 vote in Congress with 9 of the 13 votes required for passage of any measure.

During the war the Continental Army was constantly plagued by the ineffectiveness of this system, especially when it came to paying the troops or requesting supplies. Many times during the war troops from one State would refuse to cross State lines when the campaign no longer was being waged for their immediate protection.

With the signing of a treaty with England, problems with the articles continued to plague the new country. Secretary of Foreign Affairs, John Jay, was constantly frustrated in his attempts to have British troops removed from the Northwest territories. The British were enraged that in violation of the treaty

some States continued to confiscate Tory property and in some cases lynched British loyalists. The Congress was powerless to end these abuses. There was constant trouble along the border with Spanish Florida and again the ineffectiveness of the U.S. Government was sorely apparent.

United States merchants were the victims of discriminatory trade legislation by some European countries who could rest assured that no retaliation would be taken, because the Congress could not regulate trade. Merchant ships were the victims of piracy in the Mediterranean. In 1787 the United States "purchased" a treaty with Morocco to pay off these pirates, because no strong Navy existed to protect our shipping.

Internally there was a great deal of confusion over boundary lines between States. Virginia and Pennsylvania even exchanged shots over their boundaries. Many of the territories claimed by different States were seeking to form new States. This situation finally became so serious that even the independently minded States saw the necessity of yielding their claims to the Congress. The Congress responded by enacting the most effective measure of the Confederation government—the Northwest Ordinance. This ordinance set up a blueprint for admitting new States. My own State of Indiana was admitted to the Union under this plan.

Problems continued to mount upon the Congress. A war debt of $40 million had been amassed during the Revolution. Attempts to request funds from the States to pay off this debt fell far short. At a call from Congress for $3 million the States would send only $10,000 in one instance.

The American economy reflected these circumstances. Commodity prices continued to fall year after year. Many States attempted to bolster their sagging economies by enacting duties on goods brought in from other States. States started to issue their own money which many merchants were understandably very reluctant to accept.

Massachusetts farmers enraged at seeing so many farms foreclosed for debts, attempted to shut down the courts. These desperate men rallied around Daniel Shays and finally rebelled against the government of Massachusets. The rebellion was put down with little bloodshed but Shay's Rebellion proved that discontent was getting dangerously high and that a more effective central government was critically needed.

George Washington was the catalyst who started the process of writing a new framework for the American Government. As the head of the Potomac Navigation Co., Washington invited commissioners from Maryland to talk about his proposal to build a canal on both sides of the Potomac River. It was agreed to call a larger meeting at which more States could be present to discuss the problems of commerce. Finally James Madison suggested that a convention was needed to amend the Articles of Confederation. Congress agreed to this proposal and the Philadelphia Convention was scheduled for May 25, 1787, to which all the States would be invited.

The Philadelphia Convention was composed largely of men who saw the necessity of forming a strong central government. The purpose of the convention quickly enlarged from an attempt to amend the Articles of Confederation to an attempt to replace it. Most of the brightest minds of the new country were present in Philadelphia including George Washington, Benjamin Franklin, Alexander Hamilton, James Madison, George Mason, Edmund Randolph, and Gouverneur Morris.

Mr. President, the Senate is sometimes referred to as the greatest deliberative body in the world, but it is quite likely that this gathering in Philadelphia was the greatest deliberative body in the history of government. The delegates hammered out a legal document which was able to preserve liberty and the Union at the same time. Through an elaborate series of checks and balances, separation of powers and specifically enumerated responsibilities the framers devised a system of government which was strong enough to serve the people, but not strong enough to oppress them. The great William Gladstone, Prime Minister of Great Britain, noted:

> The American Constitution is the most wonderful work ever struck off at a given time by the brain and purpose of man.

Today, that Constitution endures. The principles agreed to on September 17, 1787, remain viable. A document drawn up to serve the needs of a small, agrarian society of some 2½ million people, clustering together for survival on the Atlantic coast, continues to function in a country of 250 million citizens—or approaching that amount—of diverse backgrounds, living across an entire continent and vast stretches of Alaska and the scenic shores of Hawaii.

The Constitution is both the legacy of our past and our hope for the future. It has survived the War Between the States, economic depression, two World Wars, the shock of Presidential assassination, and Presidential resignation.

Justice Robert H. Jackson in his book "The Struggle for Judicial Supremacy," said:

> The greatest expounders of the Constitution, from John Marshall to Oliver Wendell Holmes, have always insisted that the strength and vitality of the Constitution stem from the fact that its principles are adaptable to changing events.

Mr. President, it will be the task of the American Constitution Bicentennial Commission to study the forces which have shaped the formation of the Constitution, not only its evolution but, also, the qualities of flexibility and endurance which have allowed it to remain contemporary in our rapidly changing society. The Commission will be empowered to investigate the Constitution's continuing capacity for meeting the new challenges of our Nation.

I am offering this bill for comment at this time in order to explore whether, indeed, a Federal commission is the best instrument for carrying out these tasks or whether we should look solely to private institutions. For example, Project 87 is sponsored by the American Historical Association and the American Political Science Association and has already undertaken to plan the commemoration of the Bicentennial of the Constitution.

This ambitious project proposes a three-stage preparation for 1987's activities. The first is scheduled to begin immediately and to last through 1980. It will be devoted primarily to scholarly research and program planning, to lay a solid foundation for the work of public education that follows. In the second, for which planning has already begun, new teaching materials will be developed for the schools, and the project will help to produce programs for public television relating to the Constitution. By the mid-1980's a third stage will begin, during which the project will seek to promote a better public understanding of the constitutional tradition and its prospects under modern conditions.

Mr. President, we have much to consider in terms of our alternatives. However, it is with dedication to the belief that the anniversary of our Constitution should be a time of reflection upon its principles and its endurance as well as a time of celebration, that I present this bill now for consideration and comment.

I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3611

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the Constitution Bicentennial Commission Act of 1978.

SEC. 2. For the period beginning October 1, 1979, and ending September 30, 1989, there shall be established a Commission to be called the American Constitution Bicentennial Commission, the goals of which shall be—

(a) to encourage the scholarly examination of the evolution of our Constitution and its capacity to meet new challenges in the years leading to the Bicentennial of the Constitution;

(b) to stimulate the development and dissemination of educational material on constitutional issues for general public consumption; and

(c) to devise, plan and implement appropriate activities to commemorate the Bicentennial of the American Constitution during the years 1987 and 1988.

SEC. 3. The American Constitution Bicentennial Commission shall—

(a) under the provisions of Section 7 of this Act, award federal grants-in-aid or federal matching funds in such amounts and to such individuals or institutions for research and development of such programs or projects which the Commission determines meet the criteria necessary to aid in the attainment of its goals as set forth in Section 2 of this Act;

(b) implement a national series of annual town meetings for the purpose of sharing information on the projects or programs carried out under its supervision;

(c) publish and otherwise encourage the dissemination of the results of the projects and programs assisted by the Commission including any educational material developed under its supervision;

(d) cooperate with other public and private organizations and groups in meeting the goals set forth in section 2 of this Act; and,

(e) establish such advisory committees within States as it deems advisable. The Commission may consult with governors, judges, attorneys general, and other representatives of State and local governments, and private organizations, as it deems advisable.

SEC. 4. The Commission shall be composed of the following 24 members—

(a) four members to be selected from among the members of the Congress—

1. Two to be selected from among the members of the Senate by the President Pro Tempore of the Senate upon the advice of the majority and minority leaders of that body, to serve as long as they shall be members of the Senate, and

2. Two to be selected from among the members of the House of Representatives by the Speaker of the House upon the advice of the majority and minority leaders of that body, to serve as long as they shall be members of the House.

(b) four members to be selected from among the members of the President's Cabinet, including—

1. The Secretary of State;

2. The Attorney General; and,

3. Two nominees to be selected by the President from among members of his Cabinet to serve for the duration of the President's term in office or the length of their terms as members of the Cabinet, whichever shall end first;

(c) four members to be selected from among the members of the Federal and State Judiciary, including:

1. The Chief Justice of the United States, and

2. Three members of the Judiciary selected by the Chief Justice upon the advice of the Judicial Conference.

(d) twelve members to be selected from among private citizens who, by reason of their knowledge, expertise, and diversity of experience, are particularly qualified for service of the Commission, four to be appointed by the President, four to be appointed by the Chief Justice, two to be appointed by the President Pro Tempore of the Senate upon the advice of the majority and minority leaders of that body, and two to be appointed by the Speaker of the House upon the advice of the majority and minority leaders of that body.

SEC. 5. The Chairman of the Commission shall be elected by the Commission from among its members at the opening session of its first meeting and shall serve at the pleasure of the Commission.

SEC. 6. The Commisison shall be authorized to employ a staff, including the following—

(a) a project director appointed by the Commission, and

(b) such additional staff as the project director, in consultation with the Commission, shall deem necessary.

SEC. 7. Grants by the Commission under Sec. 3 of this Act shall be awarded upon applications submitted in the form and manner prescribed by the Commission—except that—

(a) no part of any grant will inure to the financial benefit of any private profitmaking corporation or entity;

(b) no part of any grant will be used other than for the project or program for which it was granted; and

(c) no part of any grant shall be used to fund any program which discriminates on the basis of race, religion, sex, age, national origin, or handicap.

(d) as used in this section, the term "handicap" means, with respect to an individual, a circumstance that would make that individual a handicapped individual as defined in the second sentence of section 7 (6) of the Rehabilitation Act of 1973 (29 U.S.C. 706 (6)).

SEC. 8. If, after receipt of a grant under this Act and reasonable notice and opportunity for hearing, the Commission determines that the recipient has not complied with provisions of Sec. 7 of this Act, then the amount of such grant shall be a debt owing to the United States, and the Commission shall so notify the recipient.

SEC. 9. The Commission may accept, use, and dispose of donations of money, property, or personal services to assist it in carrying out the purposes of this Act.

SEC. 10. There are authorized to be appropriated such sums as may be necessary to carry out the functions of the Commission for the fiscal year beginning October 1, 1979, and for each of the nine fiscal years thereafter.●

By Mr. BARTLETT:

S. 3612. A bill to amend the Indian Financing Act of 1974, as amended; to the Select Committee on Indian Affairs.

INDIAN FINANCING ACT AMENDMENTS OF 1978

● Mr. BARTLETT. Mr. President, today I am introducing a bill to make more effective an existing program designed to enable Native Americans to develop skills and resources both individually and collectively.

In 1974, the Congress enacted the Indian Financing Act (25 U.S.C. 1486) which provides for guaranteed loans and grants to Indians and Indian tribes for economic development purposes. The program is intended to provide the necessary capital that Native Americans need to achieve economic self-sufficiency. In order to meet the credit needs of Indian tribes and individuals, the act allows for a guarantee of up to 90 percent of loans made by regulated financial institutions.

It has recently come to my attention that through an oversight in the drafting of the Indian Financing Act of 1974, credit unions were omitted as eligible lenders under this program. The bill I am introducing today will correct this oversight and make this additional financial resource available for the important and worthwhile purposes of the act.

While the bill is only a minor amendment to the act, its importance is not minor. Research has identified at least 22 credit unions in 11 States that have Indian groups as their primary field of membership. These 11 States are Alaska, Arizona, California, Florida, Minnesota, Montana, New Mexico, North Carolina, Oklahoma, South Dakota, and Wisconsin. Also, many thousands of Indians are served by other credit unions.

In addition to the above provision, the bill amends the 1974 act to, first, permit the guarantee or insuring of loans to members of all tribes, regardless of whether the tribe has a credit program; second, preserve the loan guarantee and insurance fund from depletion due to defaults; third, make clear that the Federal Government stands behind the loan guarantees and insurance and the interest subsidy agreements; fourth, permit the use of debt service subsidies as well as interest subsidies and limit them to $10 million annually; fifth, extend the appropriation authority for Indian business development grants through 1981; and sixth, modernize the "Levitt Act" provision in 25 United States Code 386a to avoid the problem of Indian debt adjustments by the Secretary of the Interior not becoming effective promptly, because of the Senate's infrequent changes in their "legislative days."

These provisions of the bill address and are designed to resolve problem areas that have surfaced in implementing the act since its enactment in 1974. The enactment of this legislation will greatly enhance the prospects of the 1974 act achieving its stated purposes; making Indian tribes economically self-sufficient, I, therefore, urge my colleagues' attention to this matter and seek their support.

I ask unanimous consent that the text of the bill and a section-by-section analysis be printed in the RECORD.

There being no objection, the bill and analysis were ordered to be printed in the RECORD, as follows:

S. 3612

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the Indian Financing Act Amendments of 1978.

SEC. 2. Section 201 of the Indian Financing Act of 1974 (88 Stat. 77, 79; 25 U.S.C. 1481) is amended by deleting "who are not members of or eligible for membership in an organization which is making loans to its members".

SEC. 3. (a) Section 206 of the Indian Financing Act of 1974 (88 Stat. 77, 80; 25 U.S.C. 1486) is amended to read as follows:

"Loans made by any agency or instrumentality of the Federal Government or by an organization of Indians from funds borrowed from the United States, and loans (other than loans by credit unions without capital stock organized and operated for mutual purposes and without profit) the interest on which is not included in gross income for the purpose of chapter 1 of the Internal Revenue Code of 1954, as amended, shall not be eligible for guarantee or insurance hereunder".

(b) Section 209 of the Indian Financing Act of 1974 (88 Stat. 77, 80; 25 U.S.C. 1489) is amended by deleting "or insurance company" and inserting in lieu thereof "insurance company, or credit union".

SEC. 4. Subsection (b) of section 217 of the Indian Financing Act of 1974 (88 Stat. 77, 82; 25 U.S.C. 1497) is amended by adding the following two sentences at the end thereof:

"The full faith and credit of the United States is pledged to the fulfillment of such obligations. There are authorized to be appropriated from time to time for deposit in the fund such sums as may be necessary for losses and expenses incurred in fulfilling the obligations with respect to loans guaranteed or insured under this title".

SEC. 5. (a) Section 301 of the Indian Financing Act of 1974 (88 Stat. 77, 82; 25 U.S.C. 1511) is amended to read as follows:

"The Secretary is authorized, under such rules and regulations as he may prescribe, to contract to pay and to pay interest or debt service subsidies on loans which are guaranteed or insured under title II of this Act in amounts which are necessary to reduce the interest or debt service rate payable to that determined under section 104 of this Act for loans by the Secretary. The aggregate of such subsidies which the Secretary is obligated to pay in any one fiscal year shall not exceed $10,000,000. On and after October 1, 1979, the Secretary shall only enter into such contracts, or amendments to such contracts increasing the amount of subsidy payable, to the extent authorized in appropriation Acts.

(b) Section 302 of the Indian Financing Act of 1974 (88 Stat. 77, 82; 25 U.S.C. 1512) is amended by adding the following new sentence at the end thereof:

"There are authorized to be appropriated not to exceed $10,000,000 per annum in fiscal

year 1980 and each fiscal year thereafter for payment of interest and debt service subsidies under contracts entered into pursuant to section 301 of this Act. The full faith and credit of the United States is pledged to the payment of the interest and debt service subsidies under such contracts".

(c) Upon enactment of this Act, funds previously obligated pursuant to section 301 of the Indian Financing Act of 1974 (88 Stat. 77, 82; 25 U.S.C. 1511) for interest subsidy payments to be made in fiscal year 1980 and subsequent years shall be deobligated and restored to the unobligated balance of the Indian Loan Guarantee and Insurance Fund created by section 217 of such Act (88 Stat. at 82; 25 U.S.C. 1497).

SEC. 6. Section 403 of the Indian Financing Act of 1974 (88 Stat. 77, 83; 25 U.S.C. 1523), as amended by the Act of July 20, 1977 (Public Law 95-68; 91 Stat. 272), is further amended by deleting "fiscal years 1978 and 1979" and inserting in lieu thereof "each of fiscal years 1978 through 1981", such sums to remain available until expended".

SEC. 7(a) The Act of July 1, 1932 (47 Stat. 564, 25 U.S.C. 386a) is amended by deleting the second and third provisos and by adding the following two sentences at the end thereof:

"An annual report shall be made to the Congress not later than the first Monday in December, showing all such adjustments or eliminations of charges and debts during the preceding fiscal year. Such adjustment or elimination shall be effective at the end of the sixty-day period (excluding days on which either the House of Representatives or the Senate is not in session because of an adjournment of more than three calendar days to a day certain) beginning on the day such plan is submitted to the Congress, unless during such sixty-day period either House adopts a resolution disapproving such action".

(b) The effectiveness of the adjustments and eliminations of charges and debts made during fiscal year 1977 and earlier years which were duly reported to the Congress pursuant to said Act of July 1, 1932, is hereby confirmed.

SECTION BY SECTION ANALYSIS—INDIAN FINANCING ACT AMENDMENTS OF 1978

Section 1 provides the above short title.

Section 2 would amend section 201 of the Indian Financing Act of 1974 to remove a restriction that precludes the Bureau of Indian Affairs from guaranteeing or insuring loans made by private lenders to those individual Indians who are members of tribes having a tribal credit program.

Section 3 would amend sections 206 and 209 of the Act to permit the guarantee or insurance of loans to Indians by credit unions on the same terms applicable to loans from other lenders.

Section 4 would amend section 217(b) of the Indian Financing Act to expressly provide that the loan guarantees and insurance by the Bureau of Indian Affairs are backed by a pledge of the full faith and credit of the United States. It would also authorize appropriations to replenish the Loan Guarantee and Insurance Fund established by the 1974 Act to the extent of losses and expenses in connection with fulfilling Federal obligations under such loan guarantee or insurance.

Section 5 would revise the interest subsidy provision in section 301 of the Indian Financing Act. The revision would authorize either an interest subsidy or a debt service subsidy by the BIA and would limit the aggregate annual amount of such payments to $10 million. The full faith and credit of the United States would be expressly pledged to the making of the payments contracted for by the Secretary.

Section 6 would amend section 403 of the Indian Financing Act to extend the appropriations authorization for the Indian Business Development Program Grants through fiscal year 1981 and to authorize such appropriations to remain available until expended.

Section 7 would revise the Act of July 1, 1932 provision codified in 25 U.S.C. 386a to modernize the portion of the provision relating to the period which must elapse before an adjustment or elimination by the Secretary of charges and debts owed by Indians under the Indian Financing or other Acts becomes effective. The proposed provision is based on 1973 Indian Judgement Funds Distribution Plan Act codified in 25 U.S.C. 1405. In addition, the effectiveness of adjustments or eliminations made during fiscal years 1977, and earlier, would be confirmed.●

By Mr. KENNEDY (by request):

S. 3613. A bill to amend section 17 of the act of July 5, 1946, as amended, entitled "An act to provide for the registration and protection of trademarks used in commerce, to carry out the provisions of certain international conventions, and for other purposes"; to the Committee on the Judiciary.

● Mr. KENNEDY. Mr. President, at the request of the Secretary of Commerce, I introduce a bill to amend section 17 of the act of July 5, 1946, as amended, entitled "An act to provide for the registration and protection of trademarks used in commerce, to carry out the provisions of certain international conventions, and for other purposes."

The Trademark Trial and Appeal Board is an administrative panel within the Patent and Trademark Office authorized by law to decide trademark appeals and inter partes trademark proceedings. Section 17 of the Trademark Act of 1946, as amended, provides that the membership of the Board shall include "such Patent Office employees, designated by the Commissioner and whose qualifications have been approved by the Civil Service Commission."

The principal purpose of the bill I am introducing today is to amend the Trademark Act to provide that persons competent in the field of trademark law may be appointed as members of the Board without regard to whether they are employed by the Patent and Trademark Office at the time of their selection. The legislation also provides for several other related changes in existing law.

Mr. President, I ask unanimous consent that the bill, along with Secretary Kreps' letter of transmittal, the statement of purpose and need in support of the measure and the section-by-section analysis, be printed in the RECORD.

There being no objection, the bill and material were ordered to be printed in the RECORD, as follows:

S. 3613

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 17 of the Act of July 5, 1946 entitled "An Act to provide for the registration and protection of trademarks used in commerce, to carry out the provisions of certain international conventions, and for other purposes" (60 Stat. 434), as amended August 8, 1958 (72 Stat. 540), and January 2, 1975 (88 Stat. 1949), 15 U.S.C. 1067, is amended by deleting the second sentence and substituting therefore:

"The Trademark Trial and Appeal Board shall include the Commissioner, the Deputy Commissioner, the Assistant Commissioners, and other persons competent in trademark law who shall be appointed as members."

SEC. 2. This amendment shall become effective on the date of its enactment. Members of the Trademark Trial and Appeal Board on the date of enactment shall continue to be members under and in accordance with the provisions of section 17 of the Act of July 5, 1946, as amended, in effect immediately preceding the date of enactment.

WASHINGTON, D.C.,
August 29, 1977.

Hon. WALTER M. MONDALE,
President of the Senate,
Washington, D.C.

DEAR MR. PRESIDENT: Enclosed are six copies of a draft bill: "To amend section 17 of the Act of July 5, 1946, as amended, entitled 'An Act to provide for the registration and protection of trade-marks used in commerce, to carry out the provisions of certain international conventions, and for other purposes.' "

The Department has determined that this proposed legislation does not constitute a major proposal requiring preparation of an Economic Impact Statement under Executive Orders 11821 and 11949, and OMB Circular A-107.

We have been advised by the Office of Management and Budget that there would be no objection to the submission of our draft bill to the Congress from the standpoint of the Administration's program.

Sincerely,

JUANITA M. KREPS.

STATEMENT OF PURPOSE AND NEED

The enclosed bill would amend the second sentence of section 17 of the Lanham Trademark Act of 1946, as amended (15 U.S.C. 1067) relating to the composition of the Trademark Trial and Appeal Board (hereinafter TTAB), an administrative panel within the Patent and Trademark Office, which hears and determines trademark appeals and trademark inter partes proceedings (i.e., oppositions, interferences, cancellations and concurrent use proceedings). The second sentence of section 17 is the only part of the Trademark Act governing the composition of the TTAB.

The TTAB was established on October 31, 1958, pursuant to the enactment of the Public Law 85-609 on August 8, 1958 (72 Stat. 540), which amended section 17, among other sections of the Trademark Act, for the primary purpose of consolidating the hearing of appellate and inter partes proceedings in the Patent and Trademark Office.

Prior to 1958 all inter partes trademark proceedings were initially heard by "examiners of interferences," whose decisions could be appealed to the Commissioner of Patents and then to the courts. The "examiners of interferences" were organizationally part of the Office of Interferences, which, besides having jurisdiction over inter partes trademark proceedings, also heard and decided patent interference matters under section 135 of title 35. Shortly after the Trademark Act was amended by the enactment of Public Law 85-609, the Office of Interferences was abolished and two new boards, the Board of Patent Interferences and the TTAB, were created as a replacement (23 Fed. Reg. 8561 (1958)).

In addition to inter partes proceedings, the TTAB was given hearing and decisional responsibility over ex parte appeals from final refusals by trademark examiners to allow the registration of trademarks. These ex parte appeals had been previously heard and decided by an Assistant Commissioner pursuant to a delegation from the Commissioner of Patents. The purpose of this change was to enable the Assistant Commissioner to devote more time to the handling of adminis-

trative responsibilities relating to the trademark operations of the Office.

Under existing section 17, the members of the TTAB are designated by the Commissioner and their qualifications approved by the Civil Service Commission. The Commissioner and Assistant Commissioners (including the Deputy Commissioner, formerly named the First Assistant Commissioner) are ex officio members and may participate in hearing and deciding cases if time permits.

This proposed amendment to section 17 is primarily concerned with the composition of the TTAB and with the filling of vacancies. The amendment is designed to authorize the filling of a vacancy on the TTAB with any person qualified in the field of trademark law, regardless of where that person is employed at the time of selection.

The need for this amendment arises because of the existence of an ambiguity in the statutory language of section 17. Until 1975, all individuals appointed to the TTAB had been employees of the Patent and Trademark Office at the time of their selection. In 1975, the selection of a person who was not an employee of the Office brought the present ambiguity to the forefront. An exchange of correspondence between the Chairman of the Subcommittee on Patents, Trademarks and Copyrights of the United States Senate Committee on the Judiciary, and the Commissioner of Patents and Trademarks (attached hereto as Appendix A), details the nature of this ambiguity.

As stated in the Commissioner's letter, dated June 4, 1976, the desire of the Patent and Trademark Office is to fill vacancies on its boards with the best qualified people available, whether selected from the ranks of employees within the Office or from the outside. There can be little question that persons qualified in the field of trademark law may acquire their special qualifications by various means, including experience as a trademark attorney in the private sector.

However, the Deputy Comptroller General concluded, in an opinion dated August 11, 1976 (attached hereto as Appendix B), that the appointment of a person not employed by the Patent and Trademark Office was beyond the Commissioner's authority. Based on that opinion, the Commissioner separated the concerned person from the TTAB. In the interest of avoiding further controversy, it would be desirable to remove any ambiguity and authorize the Commissioner to consider and select persons having trademark law expertise from all possible sources. Appointment of these persons would be made pursuant to section 3 of Title 35 which governs the appointment of all officers and employees of the Patent and Trademark Office.

Three additional changes the bill would effect are of a "housekeeping" nature. First, the bill would eliminate the reference in the statute which requires that a person appointed to the TTAB have qualifications adequate for appointment "to the position of examiner in charge of interferences". This qualification was intended to assure that only persons qualified in the area of trademark law would be appointed to the TTAB. Since the position of examiner in charge of interferences is outdated in that it no longer exists, the proposed amendment would directly refer to the relevant qualification of competency in trademark law.

The second "housekeeping" change would add the words "the Deputy Commissioner" to the second sentence, confirming that the person holding that office is among those officers of the Patent and Trademark Office entitled to sit on the TTAB. This change corrects an error in Public Law 93-601 (January 2, 1965, 88 Stat. 1956) which, among other things, amended section 3 of title 35 to redesignate the First Assistant Commissioner as the Deputy Commissioner. While Public Law 93-601 amended section 7 of title 35 to reflect this redesignation by naming the Deputy Commissioner as a member of the Patent and Trademark Office "Board of Appeals", section 17 of the Trademark Act was not similarly amended. The proposed bill corrects this error of omission by making the appropriate corresponding change in the language of section 17.

The third "housekeeping" change would eliminate the requirement that the Civil Service Commission approve the qualifications of a candidate. Such approval is not considered necessary and is not required in the case of any other positions of the same grade level (GS 15) in the Patent and Trademark Office. As in the past, it is the intention of the Patent and Trademark Office to continue to fill vacancies on the TTAB in accordance with the principles of the Merit Promotion Plan.

SECTION-BY-SECTION ANALYSIS

Section 1 of the bill amends the second sentence of section 17 of the Lanham Trademark Act of 1946, as amended (15 U.S.C. 1067) in four particulars.

First, the words "the Deputy Commissioner", are added to the second sentence, confirming that the person holding that office is one of the ex officio members of the Trademark Trial and Appeal Board. This change makes the language of section 17 of the Trademark Act consistent with section 3 of title 35, which was amended on January 2, 1975, with the enactment of Public Law 93-601 (88 Stat. 1956) to, among other things, redesignate the First Assistant Commissioner as the Deputy Commissioner.

Second, the phrase "such Patent and Trademark Office employees" is replaced by the phrase "other persons". This change authorizes the filling of a vacancy on the Trademark Trial and Appeal Board with any qualified person, regardless of that person's employment at the time of selection. Of course, any candidate for appointment to the Board who is not an employee of the Patent and Trademark Office would become an employee of the Office as of the effective date of appointment.

Third, the words "as being adequate for appointment to the position of examiner in charge of interferences" and "competent in trademark law who shall be appointed as members" are added after the words "other persons". The qualification of being "competent in trademark law" is intended to be consistent with the intent of existing section 17, which is to assure that only persons qualified in the area of trademark law are appointed to the Trademark Trial and Appeal Board. The reworded qualification would remain a precondition to appointment and could not be satisfied subsequent to the date of appointment on the basis of experience as a Trademark Trial and Appeal Board member.

Fourth, the words "and whose qualifications have been approved by the Civil Service Commission" are deleted. Such approval is not considered necessary and is not now required for any other position of the same level (GS 15) in the Patent and Trademark Office.

Section 2 provides that the Act shall take effect upon enactment and that memebrs of the Board, on the date of enactment, shall continue to be members under and in accordance with the provisions of section 17 of the Trademark Act in effect immediately preceding the date of enactment.●

By Mr. McGOVERN (for himself and Mr. MATHIAS):

S. 3614. A bill to facilitate the economic adjustment of communities, industries, and workers to civilian-oriented initiatives, projects, and commitments when they have been affected by reductions in defense or aerospace contracts, military facilities, and arms export which have occurred as a result of the Nation's efforts to pursue an international arms control policy and to realine defense expenditures according to changing national security requirements, and to prevent the ensuing dislocations from contributing to or exacerbating recessionary effects; to the Committee on Governmental Affairs.

DEFENSE ECONOMIC ADJUSTMENT ACT

● Mr. McGOVERN. Mr. President, I introduce a bill for appropriate reference entitled the "Defense Economic Adjustment Act."

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3614

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Defense Economic Adjustment Act".

DECLARATION OF PURPOSE AND POLICY

SEC. 2. (a) The Congress finds and declares that the United States during the past two and one-half decades made heavy economic, scientific, and technical commitments for defense; that these commitments led to the development of specialized skills and business practices not directly applicable in the civilian sector of the economy; that as these commitments are modified to take account of changing requirements for national security and domestic needs, careful preparation is necessary if serious economic dislocations are to be avoided; and that the economic ability of the Nation and of management, labor, and capital to adjust to changing security needs is consistent with the general welfare of the United States.

(b) It is the purpose of this Act to provide the means through which the United States can promote orderly economic adjustment which will (1) minimize the dislocation of workers, communities, and industries, (2) assure that the dislocations do not compound recessionary trends, and (3) encourage conversion of technologies and managerial and worker skills developed in defense production to the service of projects in the civilian sector.

DEFINITIONS

SEC. 3. As used in this Act, the term—

(1) "Council" means the Defense Economic Adjustment Council established under section 101 of this Act.

(2) "Defense agency" means the Department of Defense, the Energy Research and Development Administration, or the National Aeronautics and Space Administration.

(3) "Defense contract" means any contract entered into between a person or nonprofit organization, including subcontractors, component manufacturers, suppliers, service contractors and service suppliers, and a defense agency to furnish defense material or services to such agency, and any contract entered into between a person or nonprofit organization, including subcontractors, component manufacturers, suppliers, service contractors and service suppliers, and any foreign country or person acting on behalf of a foreign country to furnish defense material or services to or for such country pursuant to the Arms Export Control Act, or similar Act.

(4) "Defense contractor" means any facility engaged in the furnishing of defense material pursuant to the terms of the defense contract or subcontract, including any contract under negotiation.

(5) "Defense facility" means any private plant or other establishment (or part there-

of) used under a defense contract or engaged in the production, repair, modification, storage, or handling of defense material, or any Government-owned or Government-leased facility, including bases, forts, shipyards, and depots.

(6) "Defense material" means any item of weaponry, munitions, equipment, or specialized supplies or services intended for use by a defense agency or for sale to or for the use of a foreign country which has primarily military application.

(7) "Defense service" means the research, development, production, test, inspection, or repair of any defense material for use by a defense agency or pursuant to a defense contract.

(8) "Displace" or "displacement" means with respect to any worker, including all Federal civilian employees of the Defense Department, civilian employees of the National Aeronautics and Space Administration, and all civilian employees engaged in defense and space-related production, the separation, on a permanent or temporary basis, of such worker from employment with such facility or agency.

(9) "Fund" means the Workers Economic Adjustment Reserve Trust Fund established by title III of this Act.

(10) "Person" means any corporation, firm, partnership, association, individual, or other entity.

(11) "State" includes the District of Columbia, the Commonwealth of Puerto Rico, and all United States territories.

(12) "State agency" means the agency of a State which administers its unemployment compensation law, approved by the Secretary of Labor under section 3304 of the Internal Revenue Code of 1954.

(13) "Substantially and seriously affected" means with respect to any community a community in which a substantial part of the labor force is directly employed by a defense facility or defense contractor in furnishing specialized materials or services under a defense contract as determined by the Director of the Defense Economic Adjustment Council.

TITLE I—DEFENSE ECONOMIC ADJUSTMENT COUNCIL ESTABLISHMENT

SEC. 101. (a) There is established in the Executive Office of the President the Defense Economic Adjustment Council which shall be composed of—

(1) the Secretary of Commerce;

(2) the Secretary of Labor;

(3) the Secretary of Health, Education, and Welfare;

(4) the Secretary of Housing and Urban Development;

(5) the Secretary of Transportation;

(6) the Secretary of Defense;

(7) the Secretary of Energy;

(8) the Director of the Office of Management and Budget;

(9) the Administrator of the General Services Administration;

(10) the Chairman of the Council of Economic Advisers;

(11) six representatives of the business-management community who represent non-defense business to be appointed by the President; and

(12) six representatives of labor union organizations to be appointed by the President.

(b) The Secretaries of Commerce and Labor shall be co-Chairmen of the Council, shall preside over meetings of the Council, and shall designate a member of the Council to preside in the absence of the Chairman.

(c)(1) An Office of Economic Adjustment shall be established within the Executive Office of the President to provide necessary staff support for the Council. The Office shall be headed by a Director who shall be appointed by the President and who shall be compensated at the rate provided for grade 18 of the General Schedule under section 5332 of title 5, U.S.C.

(2) The members of such staff and any task force established by the Council shall include marketing specialists, production engineers, plant layout experts, urban planning experts, and representatives of professional engineers and trade unions. At the request of the Council, the staff and any task force established by the Council shall carry out such duties as the Council may prescribe.

(3) The Council may appoint and fix the compensation of such personnel as it deems advisable. The Council may procure temporary and intermittent services to the same extent as authorized by section 3109 of title 5, U.S.C.

(4) The Council is authorized to secure directly from any executive department, bureau, agency, board, commission, office, independent establishment, or instrumentality, information, suggestions, estimates, and statistics to carry out this Act, and each such entity shall furnish such information, suggestions, estimates, and statistics directly to the Council upon request made by the Chairman.

(d) Members of the Council who are officers or employees of the Federal Government shall receive no additional compensation by virtue of membership on the Council. Other members appointed to the Council shall receive compensation at the rate of not to exceed $135 per diem when engaged in the performance of duties of the Council. While away from their homes or regular places of business in the performance of services for the Council, members of the Council shall be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in the Government service are allowed expenses under section 5703(b) of title 5, U.S.C.

DUTIES

SEC. 102. (a) The Council shall—

(1) disseminate information furnished by the Secretary of Defense under subsection (b) to the appropriate Federal, State, and local agencies or authorities and Alternative Use Committees as soon as the proposed or pending change described in such notice is known;

(2) solicit, direct, and coordinate concrete plans for civilian-oriented and public projects addressing vital areas of national interest, taking state and local concerns into account;

(3) develop and coordinate information on priority, federally funded projects; Agency programs and funding possibilities, loans and loan guarantees; and oversee administration of these programs during the conversion process;

(4) monitor existing Job Services information bank in the Department of Labor and provide information on projected levels of employment;

(5) determine criteria for eligibility for assistance and rule on eligibility appeals;

(6) review and approve the Alternative Use Plans developed by the local Alternative Use Committees;

(7) carry out studies on problems of economic adjustment and conversion, including studies on necessary adjustment assistance and retraining programs, and the economic impact of a reduction in defense spending;

(8) prepare and distribute a Conversion Guidelines Handbook;

(9) make full use of the provisions of section 15(d) of the Small Business Act;

(10) perform such other duties as are imposed upon the Council by this Act.

(b) (1) The Secretary of Defense shall notify the Council one year in advance of a pending or proposed change in defense spending (or as soon as possible prior to such proposed change) that would affect employment in the defense industry, to include reduction, technical changes or elimination of a program by Congress, the Secretary of Defense, the Office of Management and Budget, or the President; the termination or slowdown of a research and development or procurement contract; and the proposal to close a military base; and

(2) the Secretary of Defense shall furnish the Council with projected future defense spending levels and contract progress reports.

CONVERSION GUIDELINES HANDBOOK

SEC. 103. (a) The Conversion Guidelines Handbook shall be prepared and distributed as required by section 102(a)(8) which shall—

(1) include a discussion of the basic issues involved in the retraining, reorientation, and reorganization of personnel (managerial technical, administrative, and production), trade union rights and collective bargaining contracts, and the redirection of physical plants for efficient, civilian-oriented productive activity;

(2) outline the basic requirements of programs for professional retraining of managerial personnel in order to reorient them to the management of civilian, market-oriented enterprise;

(3) outline the basic requirements for a program of professional retraining of technical personnel in order to effectively reorient them to the prevailing conditions of research, product design, and production operations within civilian-oriented facilities;

(4) outline the basic requirements for the length and nature of occupational retraining for production workers and junior level administrative employees;

(5) include illustrative case studies of successful conversion to efficient civilian-oriented production, or references thereto;

(6) prepare suggestive lists, by geographic region and area of specialization, of organizations and individual consultants in fields such as marketing, facilities design, organization, production engineering, and engineering economy whose major professional experience has been in civilian-oriented activity, and furnish such lists to local Alternative Use Committees upon their request, without explicit or implicit endorsement of the personnel so listed;

(7) provide a checklist of critical points requiring attention at each stage of the conversion process;

(8) contain an annotated bibliography of conversion related works, and

(9) be revised, as necessary, every two years.

RULES

SEC. 104. (a) The Defense Economic Adjustment Council shall promulgate such regulations as may be necessary to carry out the provisions of this Act.

TITLE II—ALTERNATIVE USE COMMITTEE ESTABLISHMENT

SEC. 201. (a) There shall be established at every defense facility employing at least 100 persons with business resulting from a defense contract or contracts, separate Alternative Use Committees representing management and labor (to include representatives of union bargaining units and democratically elected representatives of unorganized workers), to undertake economic conversion planning and preparation for the employment of the personnel and utilization of the facilities in the event of a reduction or elimination of any defense facility or the curtailment, conclusion, or disapproval of any defense contract.

(b) In the case of a defense facility that is a Government military installation, an Alternative Use Committee shall be established to represent the base management, the members to be designated by the base commander, and an Alternative Use Committee shall be established to represent the civilian employees of the installation, including representatives of respective bargaining units and representatives of unorganized civilians.

(c) In the case of a defense facility that

is not a governmental military installation, and of any defense contractor subject to subsection (a), there shall be included in each defense contract provisions to assure that Alternative Use Committees are established in accordance with the provisions of this subsection.

(d) The chief executive officer of the local community government may appoint representatives of the local community, not including any individuals employed at the facility, to participate in activities of the Alternative Use Committees in an advisory capacity.

(e) The representatives of the unorganized civilian workers shall be democratically elected, have their rights protected and a guarantee of no reprisals from management for their participation in the Committee. Provision must be made for adequate notice of elections.

(f) The reasonable cost of performing the planning and reporting requirements imposed by this section, including market research, independent studies, and the employment of specialized personnel may be included as part of the cost of performing the the contract. These funds are to be shared equally by the two Committees.

PENALTIES

SEC. 202. (a) Each contractor which fails to submit an alternative use plan or refuses or fails to carry out the provisions of a plan approved by the Council shall lose eligibility for future contracts for a period of 3 years, lose contract termination payments, and lose eligibility for tax credits.

FUNCTIONS OF THE ALTERNATIVE USE COMMITTEES

SEC. 202. (a) The Alternative Use Committees shall—

(1) evaluate the assets of the defense facility and the resources and requirements of the local community in terms of physical property, manpower skills and expertise, accessibility, environment, and economic needs;

(2) develop and review at least once every two years detailed plans for the conversion of the facility to efficient, civilian-oriented productive activity to be carried out in the event the facility is affected by a Government decision to reduce, modify, or close the facility, conclude any defense contracts, or disapprove a license to sell or export defense materials to nongovernmental parties;

(3) send periodic reports at 6 month intervals on the progress of their alternative use plans to the Council. As soon as they receive notification as provided in section 102(a) of a proposed change in defense spending that would affect employment in their facility, or the facilities of their subcontractors or suppliers, they shall submit a completed plan(s) to the Council;

(4) provide occupational retraining and reemployment counseling services for all employees to be displaced by the implementation of a conversion plan or closing of the facility as soon as the date of commencement of the implementation of that plan or the permanent closing of that facility is known as provided for in section 102(a)(1);

(5) dissolve and return all assets to the control of the management of the facility immediately upon final completion of the conversion.

ADMINISTRATIVE PROVISIONS

SEC. 204. (a) The Alternative Use Committees may hire staff personnel as well as any specialists it may determine necessary.

(b) Office space shall be provided by the management of the facility without charge.

(c) The Alternative Use Committees are authorized to obtain a complete and detailed inventory of all land, buildings, capital equipment, and other equipment, including its condition, and are authorized to obtain information of a general nature regarding the occupations and skills of civilian employees, and information concerning existing collective bargaining contracts.

CONVERSION PLANS

SEC. 205. (a) The conversion plans shall—

(1) be so designed as to maximize the extent to which the personnel required for the efficient operation of the converted facility can be drawn from personnel with the types and levels of skill approximating skill levels and types possessed by civilian personnel employed at the defense facility prior to its conversion;

(2) specifiy the numbers of civilian personnel, by type and level of skill, employed at the facility prior to conversion, whose continued employment is not consistent with the efficient operation of the civilian-oriented converted facility;

(3) specify the numbers of positions, by level and type of skill, if any, that will be needed at the converted facility because personnel employed at the pre-converted facility do not possess the levels or types of skills required;

(4) indicate in detail what new plant and equipment and modifications to existing plant and equipment are required for the converted facility;

(5) include an estimate of financing requirements and a financial plan for the conversion; and

(6) provide for completion of the entire conversion process within a period not to exceed two years;

(7) no plan shall be approved unless the plan continues wages and other benefits under the appropriate contract.

TITLE III—ECONOMIC ADJUSTMENT FUND

FUND ESTABLISHED

SEC. 301. There is hereby established in the Treasury of the United States a trust fund to be known as the Workers Economic Adjustment Reserve Trust Fund.

DEPOSITS INTO THE FUND

SEC. 302. (a)(1) The Federal Government shall not enter into any contract with any person to furnish defense material or services to a defense agency, nor shall it permit the sale of such defense material or services to or on behalf of any country, unless the contract requires the contractor to pay into the Fund an amount equal to 1¼ per centum per year of the value of the contractors gross revenue on such sales. Payments pursuant to this section shall be computed in such manner, and paid at such time as the Council, after consultation with the Comptroller General, shall by regulation prescribe. In no case shall payments required pursuant to this section be considered as a cost item in the negotiating or bidding of any defense contract, or in determining profit for purposes of this section or any provisions of law relating to the renegotiation of defense contracts.

(2) Amounts paid by the defense contractor pursuant to this section shall be deposited in the fund.

(b) The Secretary of the Treasury shall determine the projected savings in defense spending as a result of cancellation or cutback of a program or contract and shall deposit 10 per centum of the projected savings in the Fund.

(c) Contract termination payments withheld pursuant to section 202(a) shall be deposited in the Fund.

(d) There is authorized to be appropriated to the Fund such amounts as may be necessary to enable the Secretary of the Treasury to make the payments and other disbursements authorized by this Act.

MANAGEMENT OF THE FUND

SEC. 303. (a) It shall be the duty of the Secretary of the Treasury to invest such portion of the moneys in the Fund as is not, in the judgment of the Secretary, required to meet current withdrawal requirements. Such investments may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. For such purpose, such obligations may be acquired (1) on original issue at the issue price, or (2) by purchase of outstanding obligations at the market price. The purposes for which obligations of the United States may be issued under the Second Liberty Bond Act, as amended, are hereby extended to authorize the issuance at par of special obligations exclusively to the Fund. Such special obligations shall bear interest at a rate equal to the average rate of interest, computed as to the end of the calendar month next preceding the date of such issue, borne by all marketable interest-bearing obligations of the United States then forming part of the public debt; except that where such average rate is not a multiple of one-eighth of 1 per centum, the rate of interest of such special obligations shall be the multiple of one-eighth of 1 per centum next lower than such average rate. Such obligations shall be issued only if the Secretary of the Treasury determines that the purchase of other interest-bearing obligations of the United States, or of obligations guaranteed as to both principal and interest by the United States on original issue or at the market price, is not in the public interest.

(b) Any obligations acquired by the Fund (except special obligations issued exclusively to the Fund) may be sold by the Secretary of the Treasury at the market price, and such special obligations may be reduced at par plus accrued interest.

TITLE IV—ECONOMIC ADJUSTMENT ASSISTANCE FOR WORKERS

CERTIFICATION

SEC. 401. (a) All displacements affecting workers employed by a defense contractor attributable, in whole or part, to a reduction of the volume of defense work in such facility shall upon certification by the local Alternative Use Committees be reported by the management of the firm or government facility to the Defense Economic Adjustment Council and the State employment office acting as agent for the administration of the employees benefit program.

(b) Any worker displaced 6 months or less prior to the final termination date shall be eligible for benefits.

(c) Any worker employed by a facility not required to have Alternative Use Committees as provided in section 201(a) shall be eligible for benefits.

ENTITLEMENTS TO BENEFITS

SEC. 402. (a) Any worker certified pursuant to section 401 of this Act as eligible for adjustment benefits by reason of such worker's displacement from a defense contractor shall be entitled, for the two-year period following displacement, to whichever of the following benefits are applicable:

(1) Compensation, on a weekly basis, sufficient, when added to any benefits which such worker receives or is entitled to receive for such weekly period under any Federal or State unemployment compensation program (or any plan of such worker's employer providing for such benefits) by reason of such worker displacement, and any earnings during such weekly period from other employment, to maintain an income at a level equal to 90 per centum of the first $20,000 per year and 50 per centum of the next $5,000 in excess of $20,000 for that year, of that worker's regular annual wages (based on a forty-hour workweek, or, in the event a defense contractor has a regular workweek payable at straight-time wage rates other than forty

hours, for such regular workweek) prior to that worker's displacement.

(2) Vested pension credit under my applicable pension plan maintained by the defense contractor from which such worker was displaced, for the period of that worker's employment with such facility, and the two-year period following that worker's displacement, during which two-year period, for the purpose of the Employee Retirement Income Security Act of 1974 and the corresponding provisions of the Internal Revenue Code of 1954 (relating to a qualified plan) such worker shall be treated as if such worker were employed by such contractor on the same basis as such worker was employed on the day preceding such worker's displacement; except that pension credit during such two-year period shall be reduced to the extent of vested pension credit earned with another employer during such two-year period.

(3) Maintenance of any hospital, surgical, medical, disability, life (and other survivor) insurance coverage which such individual (including members of such individual's family) had by reason of employment by a defense contractor prior to such displacement; except that if such worker so displaced is otherwise employed during such two-year period, such worker shall be entitled to receive benefits under this paragraph to the extent necessary to provide such worker with the same protection described in this paragraph as such worker (including family members) would have had if such worker had not been displaced.

(4)(A) Retraining for civilian work providing pay and status comparable to the employment from which such worker was displaced which is approved by the Secretary of Labor or, in the case of a worker in a State which has entered into a contract with the Council pursuant to section 403 of this Act, by the State agency.

(B) Workers shall be eligible for a job search allowance under the same terms, conditions, and amounts as provided in section 237 of the Trade Act of 1974 (19 U.S.C. 2297).

(5) Reimbursement for reasonable relocation expenses as specified in regulations prescribed by the Secretary of Labor incurred by such worker in moving to another location in order to take advantage of an employment opportunity to which such worker is referred, or which is determined to be suitable, by the Secretary of Labor or, in the case of a State which has entered into a contract with the Council pursuant to section 403 of this Act, by the State agency.

(b) All managerial and technical employees who have spent more than 50 per centum of the ten years preceding implementation of the conversion plan working in defense-related industry or at military bases must participate in or have completed a program of professional retraining meeting the requirements specified in the Conversion Guidelines Handbook of the Defense Economic Adjustment Council in order to be eligible for the special financial assistance, relocation aid, and special job information services provided by this Act. All other employees may elect to enter such a program.

STATE AGREEMENTS

SEC. 403. (a) The Council is authorized to enter and shall, on behalf of the United States, enter into an agreement with a State, or with any agency administering the unemployment compensation law of any State approved by the Secretary of Labor under section 3304 of the Internal Revenue Code of 1954, which—

(1) as agent of the Council, shall upon certification and other determinations required in section 401 of this Act, make such payments and provide such benefits as are authorized by section 402 of this Act, on the basis provided for in this Act, and shall otherwise cooperate with the Council and other State agencies in carrying out the provisions of this Act; and

(2) shall be reimbursed for all benefits paid pursuant to such agreement and all administrative costs incurred in carrying out such agreement.

(b)(1) There shall be paid to each State agency which has an agreement under this section, either in advance or by way of reimbursement, as may be determined by the Council, such sum as the Council estimates the agency will be entitled to receive under such agreement for each calendar month, reduced or increased, as the case may be, by any sum by which the Council finds that its estimates for any prior calendar month were greater or less than amounts which should have been paid to the agency. Such estimates may be made upon the basis of statistical sampling, or other method as agreed upon by the Council and the State agency.

(2) The Council shall from time to time certify to the Secretary of the Treasury for payment to each State agency which has an agreement under this section sums payable to such agency under paragraph (1) of this subsection. The Secretary of the Treasury, prior to audit or settlement by the General Accounting Office, shall make payments to the agency, in accordance with such certification, from the Fund.

(3) All money paid a State agency under any such agreement shall be used solely for the purposes for which it is paid; and any money so paid which is not used for such purposes shall be returned, at the time specified in such agreement, to the Treasury.

(c) In any case involving a worker entitled to benefits under section 402 who is in a State with respect to which there is no agreement pursuant to this section, the Secretary of Labor shall, under regulations prescribed by the Secretary, administer such benefits on behalf of such worker. The Secretary of Labor, in administering such benefits, shall, from time to time, certify to the Secretary of the Treasury for payment to such worker the amounts of such benefits to which such worker and the Secretary of the Treasury shall make payments to such worker, in accordance with such certification, from the Fund.

LIMITATION ON BENEFITS

SEC. 404. In no case shall any displaced worker be eligible for benefits under section 402(a) of this Act unless such worker agrees (1) to maintain, on a current basis, during the period of his displacement, an active registration with the Secretary of Labor or an appropriate State employment agency, as the case may be, and (2) to accept any employment determined by the Secretary of Labor or agency, as the case may be, to be of the same skill or work of a similar nature at the same pay as such worker was receiving before such worker was displaced. No such benefits shall be paid under this Act to any worker who fails to maintain such registration or to accept such employment.

TREATMENT OF UNEMPLOYMENT COMPENSATION

SEC. 405. In no case shall any adjustment benefits paid pursuant to this Act be taken into consideration in determining eligibility for unemployment compensation under any Federal or State unemployment compensation law or in determining the amount of entitlement thereunder.

TERMINATION OF BENEFITS

SEC. 406. Adjustment benefits shall terminate when a worker eligible for benefits obtains employment providing 90 per centum of the first $20,000 per year and 50 per centum of the next $5,000 in excess of $20,000 for that year of that worker's previous wages or two years after displacement, whichever occurs sooner.

TITLE V—COMMUNITY ECONOMIC ADJUSTMENT PLANNING ELIGIBILITY

SEC. 501. (a) Each community which is substantially and seriously affected by reduction or elimination of Government military facilities or curtailment or conclusion of military contracts shall be eligible for Federal assistance for planning for economic adjustment to avoid substantial dislocations and for economic adjustment assistance should such dislocation occur. The Defense Economic Adjustment Council shall have the authority to determine and earmark an adequate portion of the economic development funds of the Economic Development Administration, the Department of Housing and Urban Development, and other Federal agencies which administer economic development funds for this purpose.

(b) The Council shall develop guidelines by which the criteria for eligibility for planning assistance are to be applied. To the fullest extent practicable, the Council shall utilize data and reports available from other agencies for statistical and other information, required to develop the guidelines. The Council may, during the first 6 months of its existence, recommend to the Congress such refinements of the criteria as it deems necessary in order that assistance is directed to the category of communities which are most vulnerable economically to reductions in defense expenditures. The Congress shall have 30 legislative days in which to disapprove any refinement submitted.

(c) The Council shall publish listings of communities currently and potentially eligible for such assistance not less than twice yearly. Communities not included may petition the Council for inclusion on the list. The Council shall make such determination within one month of receipt of the petition.

EXCESS PROPERTY PROVISION

SEC. 502. (a) Any capital property or facilities declared excess by the defense agency in conjunction with a government-owned facility reduction or closure shall be appraised for purposes of resale to the affected community. The defense agency shall take into account the cost of modernization and of improving abandoned facilities up to minimum safety and environmental standards in determining a fair price for the facility. Such property may be sold to the community at a public benefit discount.

(b) Whenever there is a dispute as to the fair public benefit discount price, the defense agency shall submit such a dispute to the Defense Economic Adjustment Council for resolution.

TITLE VI—INDUSTRIAL ECONOMIC ADJUSTMENT

SEC. 601. (a) In order to assist any eligible contractor to carry out an approved alternative use plan to convert a plant or facility to civilian purposes, the Secretary of the Treasury is authorized to make or guarantee low-interest, long-term loans for that purpose.

(b) The Defense Economic Adjustment Council shall prescribe such terms and conditions on assistance provided under this section as may be necessary to protect the interests of the United States and insure the success of the plan.

TITLE VII—USE OF CERTAIN RESEARCH FUND AMENDMENT TO PUBLIC LAW 91-441

SEC. 701. (a) Section 203(a) of the Act of October 7, 1970 (Public Law 91-441), is amended by—

(1) inserting "or, in the opinion of the Defense Economic Adjustment Council, a potential relationship to an urgent national requirement in a designated non-defense sector," after "function or operation";

(2) inserting "or the Defense Economic

Adjustment Council" after "Department of Defense" in paragraph (1); and

(3) adding at the end of such section 203 the following: "(f) The Defense Economic Adjustment Council shall be required to define urgent national requirements for non-defense sectors of the economy, and shall be required to include in the designation, any areas so defined by the Congress. Research and development related to energy and fuel efficiency shall be considered a designated area.".

(b) Section 204 of such Act is amended by inserting "or, in the opinion of the Defense Economic Adjustment Council, a potential relationship to an urgent national requirement in a designated non-defense sector of the economy" after "military function or operation".

TITLE VIII—AUTHORIZATION OF APPROPRIATIONS

APPROPRIATIONS AUTHORIZED

SEC. 801. There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act.●

By Mr. KENNEDY (by request):

S. 3615. A bill to amend the fee provisions of the United States patent and trademark laws; to the Committee on the Judiciary.

● Mr. KENNEDY. Mr. President, at the request of the Secretary of Commerce, I introduce a bill to amend the fee provisions of the U.S. patent and trademark laws.

The legislation I am introducing today would repeal the current statutory fees for patent and trademark assignments, certificates and copies, and would grant the Commissioner of Patents and Trademarks authority to establish such fees at a level to recover the actual cost of providing these products and services to the public. The funds received from these operations would be credited to the Patent and Trademark Office appropriations.

The bill would also make trademark fees applicable to Government departments and agencies as well as to private trademark applicants. The present law already contains a similar provision regarding patent fees.

Mr. President, I ask unanimous consent that the bill, together with the Secretary's letter of transmittal, the statement of purpose and need in support of the measure and the sectional analysis, be printed in the RECORD.

There being no objection, the bill and material were ordered to be printed in the RECORD, as follows:

S. 3615

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. Subsection 41(a)(9) of title 35, United States Code, is amended to read as follows:

"§ 41 (a) . . .

(9) Uncertified printed copies of specifications and drawings of patients, as available and if in print, shall be provided for libraries specified in section 13 of this title at the special rate of $50 per year. The Commissioner may, without charge, provide applicants with copies of specifications and drawings of patents when referred to in a notice under section 132."

SEC. 2. Subsections 41(a)(10) and 41(a)(11) of title 35, United States Code, are repealed.

SEC. 3. Section 41(b) of Title 35, United States Code, is amended to read as follows:

"§ 41(b)(1) The Commissioner shall prescribe by regulations the fees which shall be charged for the supplying of copies of records, furnishing of publications, other products or services provided by the Patent and Trademark Office, and any other matters set forth in this title or in the Trademark Act of 1946 (60 Stat. 427), as amended, for which a fee is not specified by statute. All fee adjustments and new fees shall be announced in the Federal Register thirty days prior to their coming into effect.

(b)(2) All fees prescribed in accordance with subsection (b)(1) of this section shall be credited to the Patent and Trademark Office appropriation, and may be made available to pay directly the cost of such products or services, to repay or make advances to appropriations or funds which do or will initially bear all or part of such costs, or to refund excess sums when necessary, the provisions of section 6 of the Act of June 26, 1934 (31 U.S.C. 725e) notwithstanding. Such amounts shall be available for these purposes only to the extent provided in appropriation acts."

SEC. 4. Section 41(c) of Title 35, United States Code, is amended to read as follows:

"§ 41(c) The fees prescribed by or under the authority of this section and the Trademark Act of 1946 (60 Stat. 427), as amended, shall apply to any other Government department or agency, or officer thereof, except that the Commissioner may waive the payment of any fee for services or materials in cases of occasional or incidental requests of a Government department or agency, or officer there: *Provided*, That nothing herein shall affect the authority to register trademarks without charge under Section 2 of the Act of August 27, 1935 (49 Stat. 891) (25 U.S.C. 305a), as amended."

SEC. 5. Section 42 of title 35, United States Code is amended to read as follows:

"§ 42 All fees shall be paid to the Commissioner who, except as provided in Sections 361(b) and 376(b) of this title, shall deposit the same in the Treasury of the United States, and the Commissioner may refund from the appropriate account any sum paid by mistake or in excess of the prescribed fee."

SEC. 6. Subsections 31(a)(9), 31(a)(11), and 31(a)(12) of the Trademark Act of 1946 (60 Stat. 427), as amended, are repealed. Subsection 31(a)(10) is renumbered as 31(a)(9), and subsection 31(a)(13) is renumbered as 31(a)(10).

SEC. 7. Section 31(b) of the Trademark Act of 1946 (60 Stat. 427), as amended, is amended to read as follows:

"§ 31(b) Trademark fees not specified in subsection (a) of this section shall be prescribed by the Commissioner under the authority of section 41 of Title 35, United States Code."

SEC. 8. In the second sentence of section 7(c) of the Trademark Act of 1946 (60 Stat. 427), as amended, the phrase "fee herein provided" is amended to read "prescribed fee".

SEC. 9. In section 7(e) of the Trademark Act of 1946 (60 Stat. 427), as amended, the phrase "fee required by law" is amended to read "prescribed fee".

SEC. 10. The effective date of this Act shall be six months after the date of enactment.

NOVEMBER 18, 1977.

HON. WALTER F. MONDALE,
President of the Senate,
Washington, D.C.

DEAR MR. PRESIDENT: Enclosed are six copies of a draft bill, "To amend the fee provisions of the United States patent and trademark laws," together with a statement of purpose and need in support thereof and a section-by-section analysis.

The Department has determined that this proposed legislation does not constitute a major proposal requiring preparation of an Economic Impact Statement under Executive Orders 11821 and 11949, and OMB Circular A-107.

We have been advised by the Office of Management and Budget that there would be no objection to the submission of our draft bill to the Congress from the standpoint of the Administration's program.

Sincerely,

JUANITA M. KREPS.

AUTHORITY TO REIMBURSE APPROPRIATIONS FROM FUNDS RECEIVED FOR CERTAIN PATENT AND TRADEMARK SERVICES

STATEMENT OF PURPOSE AND NEED

Background

Under present law, all patent and trademark fees are deposited in the general fund of the Treasury. The Patent and Trademark Office depends upon annual appropriations; the fees recovered are not available to pay for the cost of the services provided. Unexpected demands for certain services must be met at the expense of other activities, and some requests for services cannot be met. Performance of certain Patent and Trademark Office functions would be greatly facilitated by obtaining authority to utilize fees received to pay for the costs of the services offered.

Authority to reimburse appropriations was given to the Department of Commerce in 1970 by Public Law 91-412. However, in view of other existing laws, it is not clear whether Congress intended to permit the Patent and Trademark Office to utilize this authority. For instance, the provisions of the Act of June 26, 1934 (31 U.S.C. 725e) require all receipts of the Office to be deposited into the Treasury of the United States as miscellaneous receipts. In addition, the fee provisions of section 41 of Title 35, United States Code, could be interpreted to restrict the ability of the Office to use the Department's authority for those activities which might be most conveniently handled through that authority. The objective of this Act is to clarify existing law by expressly granting the Patent and Trademark Office authority similar to Public Law 91-412. Nothing contained in this Act is intended to limit the scope of Public Law 91-412.

NEED FOR AUTHORITY TO REIMBURSE APPROPRIATIONS

A principal advantage of having authority to utilize fees collected is that it will enable the Office to be more responsive to public demands for increased services. Approximately 10 million patent and trademark copies were furnished for public sale and other uses in fiscal year 1976 compared with 7.2 million in 1950. In view of the increasing number of patent and trademark applications, the Patent and Trademark Office expects a continuing growth in demand for copies of patents and trademarks and other documents and services.

In the past, the Patent and Trademark Office was not able to meet unexpected demand for certain services because appropriations had not been made for such expenditure. For example, the Office has been unable to supply cross references in classified patent files on a subscription basis. Similarly, requests for microfilm copies of certain records have been refused. In other cases, such as the furnishing of printed patent copies on an individual order basis, the demand has been met by using funds which otherwise would have been available for supporting the examining operations.

With the authority to reimburse appropriations from fees received for services, the Office could provide additional service as the demand warrants without curtailing other activities. Thus, authority to so utilize fees from services such as patent and other document sales, copy certifications, and the recording of assignments is desirable.

The proposed bill is somewhat similar to

the reimbursement to appropriation authority contained in S. 2255, the patent law revision bill passed by the Senate on February 26, 1976. Such authority was also contained in sections 41(d), 41(e) and 42 of S. 2504 and S. 1308, the Administration's patent law revision bills, submitted to the 93rd and 94th Congresses respectively. However, awaiting the passage of a general patent law revision to confer the reimbursement authority on the Patent and Trademark Office may seriously delay the Office's ability to provide services and products to the public as demand requires.

The justification for the authority explained above is not applicable to the examining operation. Nor is it applicable to activities which convey benefits to the public at large, such as: maintenance of a public search room; basic printing costs; and patent copies furnished to foreign countries under section 12, to libraries under section 13, or to applicants with examiner's actions under section 132 of Title 35. Appropriations would continue to be required to support such services because a sharing of these costs between applicants and the public is considered reasonable in view of the substantial benefits received by the general public as well as by the individual applicant.

For the foregoing reasons, the present bill contains a limited provision authorizing the reimbursement of appropriations only for fees charged for services of the Patent and Trademark Office other than those related to patent and trademark examining and those beneficial to the public at large.

PRINCIPAL FEATURES OF THE BILL

The proposed bill would repeal the present statutory fees for patent and trademark assignments, certificates and copies. Fees for these services and other patent and trademark services for which no statutory fee is specified would be established by the Commissioner of Patents and Trademarks on the basis of the actual costs of providing these services. The establishment of such fees would be in line with generally understood principles for user charges such as those outlined in OMB Circular A-25. The bill also would require all fee changes to be announced in the Federal Register at least thirty days prior to coming into effect, in order to insure ample notice to the public.

The fees collected for patent and trademark services for which no statutory fee is specified would be credited to the Patent and Trademark Office appropriations. The fees thus credited would be used to pay the costs of the products or services for which the fees are charged or to repay appropriations.

The bill would make trademark fees applicable to government agencies as well as to private trademark applicants. The existing patent fee statute, in section 41(c) of Title 35, United States Code, provides that patent fees apply to other government agencies. Extension of this provision to trademark fees will provide a uniform policy on Patent and Trademark Office fees. The change will have little effect on other government agencies, since very few applications for trademark registrations are filed by the government.

AUTHORITY TO REIMBURSE APPROPRIATIONS FROM FUNDS RECEIVED FOR CERTAIN PATENT AND TRADEMARK SERVICES

SECTIONAL ANALYSIS

Section 1 of the proposed bill would amend subsection 41(a)(9) of Title 35 of the United States Code by repealing the statutory fees for printed copies of patents, design patents, and plant patents in color. The special rate for libraries of $50. for patents issued in one year would be retained, since these copies should be provided at less than cost. The present statutory authorization would be retained for the Commissioner to provide copies of patents without charge to applicants in connection with the examination of applications.

Section 2 of the bill would repeal the fees for certificates and assignments in patent cases, specified in subsections 41(a)(10) and 41(a)(11) of Title 35 of the United States Code.

Section 3 of the bill would add several provisions to section 41(b) of Title 35, United States Code, which presently authorizes the Commissioner to establish fees for services when no fee is fixed by statute. Subsection (b)(1) would continue the authorization for the Commissioner to establish fees and would provide that all fee adjustments be announced in the Federal Register at least thirty days prior to their coming into effect. Subsection (b)(2) concerns the disposition of fees charged pursuant to subsection (b)(1) for products and services of the Patent and Trademark Office other than statutory fees. These fees would be credited to the Patent and Trademark Office appropriations. Money thus credited could be used to pay directly the costs of products or services for which fees are charged or to repay or make advances to appropriations or funds bearing such costs. The amount of such credit would be limited to the extent provided for in appropriation acts.

Section 4 of the proposed bill would amend section 41(c) of Title 35, United States Code. Existing section 41(c) states that patent fees apply to other government departments and agencies. E.g., a government agency filing a patent application in the Patent and Trademark Office ordinarily must pay the same fees as a private applicant. Proposed section 41(c) would broaden existing law to cover trademark fees as well. However, the proviso at the end of the subsection retains the established authority of the Department of the Interior to register without charge trademarks for Indian products.

Section 5 of the bill would make minor changes in the language of section 42 of Title 35 to make it consistent with amended section 41. The primary change would be to "patent fees" thus bringing fees arising in connection with the Trademark Act of 1946 within the operation of section 42. Under section 42, fees prescribed pursuant to section 41(b) would be credited to the Patent and Trademark Office appropriation as directed in subsection 41(b)(2). Other fees, except for those provided for in sections 361(b) and 376(b), would be deposited in the miscellaneous receipts of the Treasury.

Section 6 of the bill would amend section 31 of the Trademark Act of 1946, by repealing subsections 31(a)(9), 31(a)(11) and 31(a)(12) which specify fees for certificates, printed copies of registered marks and trademark assignments. Subsections (10) and (13) would be renumbered.

Section 7 would amend section 31(b) of the Trademark Act to reflect that amended section 41 of Title 35 provides the authority for the Commissioner to establish trademark fees not specified in section 31(a) of the Trademark Act. Thus, the amendment makes clear that both trademark and patent fees established by the Commissioner would be credited to the Patent and Trademark Office appropriation. Further, the amendment would make clear that section 41 of Title 35 covers both the "copies of records, publications, or services" specified in present law in the services for which existing statutory fees would be abolished by section 6 of the bill.

Sections 8–9 of the bill would make minor changes in the languages of the Trademark Act to take into account that certain fees will be prescribed by the Commissioner rather than fixed by statute.

Section 10 of the bill would provide for an effective date six months after enactment.●

By Mr. HATCH (for himself and Mr. GARN):

S. 3616. A bill to permit the Secretary of the Interior to use the chemical compound sodium monofloracetate for the purpose of controlling the population of coyotes on public lands, and for other purposes; to the Committee on Energy and Natural Resources.

● Mr. HATCH. Mr. President, JAKE GARN and I are introducing today a bill which would reinstate the use of compound 1080 on public lands. This compound, sodium monofloroacetate—commonly known as compound 1080—was used for years on public lands by trained fish and wildlife agents as an effective means of controlling coyote predation on sheep herds especially in the western United States. This compound was used without restriction until 1968 when, pressured by the surge of environmentalists and the relatively new ideas concerning the protection of our environment, its use slowly began to be curtailed. In January of 1972 an Executive order was issued which banned the use of all toxicants on public lands. Subsequently, due to continued pressure from the environmental movement, the Environmental Protection Agency realizing that compound 1080 could still be used on private and State lands ordered that registration to all manufacturers be taken away and made it illegal to ship 1080 in interstate commerce.

Since the Executive order in 1972 the coyote population across the West has steadily increased to the point where some ranchers are experiencing a 15-percent to 20-percent loss of their crop. Sheep ranchers losses from coyote predation reflect a relationship that is directly proportional to the increase in the coyote population. The sheep and wool industry has been on a steady decline for years and while not all of the losses are attributable to predation, the added losses by coyotes are sufficient to drive many ranchers out of business. Recently, one western rancher sold 7,000 head of sheep which his family had owned for three generations citing lack of predator control as the reason for selling the last of his flock.

The western rangeland resource is an asset to sheepmen in producing high quality lambs at relatively low cost. With the sheepman's dependence on ranges also comes a dependence on the Federal Government since the vast majority of western land is owned and managed by them. Western ranchers are specifically dependent on the practices and policies of the Federal land managers on public land. Some of these policies have been detrimental to the sheep industry over the years. One in particular, that of predator control, has been devastating.

As provided in this bill, compound 1080 would not be handled, nor should it be handled, by incompetent or inexperienced hands. The use of this compound would only be by trained personnel of the U.S. Fish & Wildlife Service under the direction of the Secretary of Interior. Its use would be restricted solely to public lands. I should point out that this chemical toxicant is an extremely

selective agent. When it is administered in the proper dosage, its effects are lethal only to coyotes. Other species of the canine family such as dogs, wolves, and foxes have a different lethal tolerance level. When environmentalists first lobbied against compound 1080 they suggested that it may be damaging to other species of animals found in the same food chain as coyotes. Studies since that time have revealed that for an eagle to die from eating the meat directly as treated and laid out, he would have to ingest 13 to 19 pounds of meat which is physically impossible for the species. There have been no known fatalities from 1080 to noncanine animal families or humans. The closest incident related to humans took place in Alaska where a group of people stranded due to inclement weather came across some baited meat and ingested it. The result was a mild case of diarrhea. When compound 1080 is used in the appropriate dosage for coyote predation it is safe to other animals and humans.

Until the Presidential banning of this compound no one really knew how quickly the coyote population would increase. Its growth has been exponential over the past few years. The current methods being used to curtail the killing of sheep by coyotes, specifically rudimentary steel trapping techniques and helicopter work, are both extremely slow and inefficient from a cost-benefit standpoint.

Mr. President, much could be said about the need for this compound by sheepmen everywhere. I have yet to see any evidence to show why 1080 should not be used to prevent depredation of the sheep industry. I believe that the ban was a move to quell the newly formed environmental fires without giving credence to the real benefits of this chemical agent. Evidence of its need can readily be seen in the form of thousands of sheep carcasses which dot the western landscape. I am pleased to introduce this legislation and ask my colleagues to give it thoughtful consideration.●

ADDITIONAL COSPONSORS

S. 1571

At the request of Mr. WALLOP, his name was added as a cosponsor of S. 1571, a bill to grant a charter to the National Ski Patrol.

S. 2867

At the request of Mr. GOLDWATER, the Senator from Kentucky (Mr. HUDDLESTON) was added as a cosponsor of S. 2867, a bill to remove residency requirements and acreage limitations applicable to land subject to reclamation law.

S. 3262

At the request of Mr. BENTSEN, the Senator from Hawaii (Mr. INOUYE), the Senator from North Dakota (Mr. BURDICK), the Senator from Nebraska (Mr. CURTIS), the Senator from Louisiana (Mr. LONG), the Senator from Utah (Mr. GARN), the Senator from California (Mr. HAYAKAWA), the Senator from Arkansas (Mr. HODGES), the Senator from Montana (Mr. PAUL G. HATFIELD), the Senator from Wyoming (Mr. HANSEN), the Senator from West Virginia (Mr. RANDOLPH), the Senator from Utah (Mr. HATCH), the Senator from Idaho (Mr. MCCLURE), the Senator from Alaska (Mr. GRAVEL), and the Senator from Louisiana (Mr. JOHNSTON) were added as cosponsors of S. 3262, a bill to establish a procedure to reduce by a goal of 25 percent over a 50-year period the costs of compliance with rules and regulations of Federal executive departments and independent agencies.

S. 3422

At the request of Mr. WALLOP, the Senator from Tennessee (Mr. BAKER), the Senator from Kentucky (Mr. FORD), the Senator from Oregon (Mr. PACKWOOD), the Senator from Alabama (Mr. SPARKMAN), the Senator from Texas (Mr. TOWER), and the Senator from North Dakota (Mr. YOUNG) were added as cosponsors of S. 3422, a bill to establish a congressional awards program.

SENATE CONCURRENT RESOLUTION 68

At the request of Mr. CURTIS, the Senator from Kansas (Mr. DOLE) and the Senator from North Carolina (Mr. HELMS) were added as cosponsors of Senate Concurrent Resolution 68, expressing the sense of the Senate relative to the Baltic States.

AMENDMENTS SUBMITTED FOR PRINTING

GRAND JURY REFORM ACT OF 1978—S. 3405

AMENDMENT NO. 4736

(Ordered to be printed and referred to the Committee on the Judiciary.)

Mr. ABOUREZK submitted an amendment intended to be proposed by him to S. 3405, a bill to establish certain rules with respect to the appearance of witnesses before a grand jury in order to protect the constitutional rights of such witnesses under the fourth, fifth, and sixth amendments to the Constitution; to require periodic reports to Congress, and for other purposes.

● Mr. ABOUREZK. Mr. President, I submit an amendment in the nature of a substitute to the Grand Jury Reform Act of 1978, S. 3405. During the month of August, 3 days of hearings were held on the subject of grand jury reform based on S. 3405. Witnesses came from every group affected by the grand jury process. On the first day, we heard from Congressmen EILBERG and CONYERS, my colleagues on the House side who have taken the leading role in grand jury reform, and from several lawyers representing groups long involved in the effort to reform grand jury practices. On the second day of hearings, we heard from the Justice Department, the National District Attorney's Association, the American Bar Association and a panel of scholars who spoke on the relationship between the grand jury and constitutional rights. On the third day, we heard from several individuals who had been the victims of grand jury harassment, and from a coalition of groups formed for the specific purpose of reforming the grand jury system to eliminate its abusive aspects.

During the hearings a great deal of information was amassed, and among other things, we learned a great deal about the problems individuals have when confronted by a summons from the grand jury; we were apprised of the present policies of the Department of Justice regarding suggested reforms of grand jury practices; and we dealt with the substance of the principles regarding grand jury reform adopted by the American Bar Association.

As a result of the information gathered and testimony given during the hearings, S. 3405 has been amended in some areas, most notably presence of counsel in the grand jury room and immunity of grand jury witnesses.

The following is a discussion and explanation of the major changes in the bill. First is the issue of the presence of counsel in the grand jury room. The American Bar Association terms this as the "crux of pending grand jury reform proposals" and notes that the grand jury is the last critical stage in the criminal justice process at which a person who wants a lawyer present is denied his or her constitutional rights; and that the present procedure of having witnesses leave the grand jury room repeatedly to consult with counsel is awkward and affirmatively prejudicial.

It is clear that the presence of counsel in the grand jury room is a necessary requirement to carry out constitutional due process mandates. Twelve States have enacted statutes which allow counsel to accompany the witness and advise him or her on any questions which the witness does not understand or objects to. This State experience has been nothing short of excellent. For example, in his testimony, the Honorable Francis X. Bellotti, the Attorney General of Massachusetts stated that the practice, far from being disruptive has made the grand jury process more efficient: No longer is the witness perceived to be a "bouncing ball," moving in and out of the grand jury room each time he has a question.

When something is confusing, the witness merely turns to consult with counsel, who is at his or her side. And the advisory nature of the process does not contravene the historical format of the grand jury—that is, it does not turn the procedure into a mini-trial which would, in the context of the investigatory aspect of the grand jury, be disruptive.

In his testimony, Assistant Attorney General Philip Heymann of the Department of Justice stated, "Counsel for the witness will act inevitably even if not intentionally, in a manner that will disrupt and delay the grand jury's investigation." This simply has not been the experience in the States. And the Justice Department, when asked to provide data and statistics to support this contention, cannot.

Rather, the presence of counsel aids the ultimate factfinding goals of the grand jury; it discourages the prosecutor from an overly zealous style of dealing with the witness, as well as giving the witness a sense that he is not exposed to

an attack he cannot cope with. In the hearings, some of those who had been victims of grand jury abuse said that they had been confused and afraid when brought in front of 23 strangers and a prosecutor who was clearly biased. With counsel present, the rights of the individual will be protected, and this loophole in the criminal process where the individual is not presently protected will be closed.

S. 3405 originally gave counsel an unrestricted right to represent his or her client in the grand jury room. However, the success of the States experiments has convinced me that at the present time, counsel in the grand jury should have the more limited role of advising the witness rather than actively participating in the grand jury process.

Immunity is another critical issue in the effort toward grand jury reform. One point of view is that use immunity, which was first adopted in 1970 and which is the current type of immunity being granted, is sufficient to protect the witness and to encourage him or her to speak out. Use immunity means that nothing the witness testifies to can be used against him. However, under use immunity, the witness may be prosecuted for crimes which arise out of testimony not specifically articulated by the witness.

A more expansive view is that the witness should be allowed to reject the offer of immunity, should he or she decide to remain silent; that a witness' presence may not be compelled, even to assert the right against self-incrimination is in itself a violation of that right, and harkens back to the very earliest days of the grand jury in England where there was no compelled testimony.

There is, in addition, a middle ground, known as transactional immunity. In this situation, when immunity is granted—or imposed as it is in actuality—the immunity inheres to any and all transactions arising from the testimony elicited during the grand jury, and the witness cannot be prosecuted for any crimes discovered as a result of his testifying.

Originally, S. 3405 had adopted the more expansive view toward the immunity grant. However, I feel that at this time the more desirable approach is that of reinstituting transactional immunity in the Federal grand jury. There is wide support for transactional immunity in the criminal justice community: it is backed unanimously by the Executive Council of the Criminal Justice Section of the American Bar Association which represents all segments of the criminal justice communtiy, and is now in use in 31 States. No Federal agency has been able to furnish statistics or data to show that use immunity, as opposed to transactional immunity, especially promotes the efforts of law enforcement.

It is clear, however, that a transactional immunity grant is more protective of the fifth amendment right against self-incrimination, and it makes it easier for the prosecutor to work with this particular grant in that he does not have the burden to show as he does with use immunity, that he has not obtained prosecution evidence from the witnesses' grand jury testimony.

I have also redrafted the bill to include a provision that immunity shall be granted in camera.

In addition, in the section entitled "Rights and Duties of Grand Jurors and Attorney for the Government; Independent Inquiry," I have added several subsections which deal with exculpatory evidence and unlawfully seized evidence. An affirmative duty of the grand jury will be to inquire about the use of such evidence as part of the indictment in order to prevent illegally seized evidence from being a part of the indictment, and in order to insure that all exculpatory evidence is presented during the grand jury process.

Additionally, there is an affirmative responsibility on the part of the attorney for the Government to present all exculpatory evidence to the grand jury and to refrain absolutely from presenting any illegally obtained evidence to the grand jury. If it is found that the grand jury or the attorney for the Government did not exercise their responsibilities with respect to the two types of evidence, the indictment may be quashed.

The Justice Department and the American Bar Association both support the principle that exculpatory evidence should be presented to the grand jury and that illegally obtained evidence should not. The language of S. 3405 makes concrete those principles. Only with specific legislative language can we be certain that there will be no prejudice to the witness during his or her appearance before the grand jury.

It is my hope that this final language, which is a result of the experience of the hearings and further research, will provide a basis for the much needed action toward reforming the grand jury in the next Congress.

Mr. President, I ask unanimous consent that the text of the amendment in the nature of a substitution and a letter to Mr. Philip B. Heymann, Assistant Attorney General of the Criminal Division of the Department of Justice be printed in the RECORD.

There being no objection, the amendment and letter were ordered to be printed in the RECORD, as follows:

AMENDMENT No. 4736

Strike out all after the enacting clause and insert the following:

That this Act may be cited as the "Grand Jury Reform Act of 1978".

SEC. 2. The table of contents is as follows:

TABLE OF CONTENTS

Sec. 1. Short title.
Sec. 2. Table of contents.
Sec. 3. Uncooperative witnesses.
Sec. 4. Unauthorized disclosure of grand jury information.
Sec. 5. Rights and duties of grand jurors and attorney for the government; independent inquiry.
Sec. 6. Immunity.
Sec. 7. Rights of grand jury witnesses.
Sec. 8. Recording, transcribing, and availability of grand jury proceedings.
Sec. 9. Preliminary examination.
Sec. 10. Reports concerning grand jury investigations.
Sec. 11. Effect on other laws and rules.

UNCOOPERATIVE WITNESSES

SEC. 3. (a)(1) Chapter 119 of title 28, United States Code, is amended by adding at the end thereof the following new section:

"§ 1827. Recalcitrant grand jury witnesses

"(a)(1) Whenever a witness in any proceeding before or ancillary to any grand jury of the United States refuses without just cause shown to comply with an order of the court to testify or provide other information, including any book, paper, document, record, recording, or other material, the attorney for the Government may apply to the court for an order directing the witness to show cause why the witness should not be held in contempt.

"(2) After submission of such application and a hearing at which the witness is entitled to be represented by counsel, the court may, upon a finding that such refusal was without just cause, hold the witness in contempt and order the witness to be confined. Such confinement shall be at a suitable Federal correctional institution, if one is located within fifty miles of the court ordering confinement, unless the witness waives that right. Upon a showing of need or hardship, the court ordering confinement may grant a request by the witness to be imprisoned at a suitable correctional institution near the place of residence or employment of the witness, or the witness' family or relatives or the attorney of the witness.

"(3) Confinement under this section may continue until such time as the witness is willing to give such testimony or provide such information. No period of such confinement shall exceed the term of the grand jury, including extensions, before which such refusal to comply with the court order occurred, and in no event shall such confinement exceed six months.

"(4) No hearing shall be held under this subsection unless five days' notice is given to the witness who has refused to comply with the court order. A witness may be given a shorter notice of not less than forty-eight hours if the court, after a hearing and upon a showing of special need by the attorney for the Government, so orders.

"(b) No person who has been confined under this section for refusal to testify or provide other information concerning any transaction, set of transactions, event, or events may be again confined under this section or under section 401 of title 18, for a subsequent refusal to testify or provide other information concerning the same transaction, set of transactions, event, or events.

"(c) Any person confined pursuant to this section shall be admitted to bail or released in accordance with the provisions of chapter 207 of title 18, pending the determination of an appeal taken by him from the order of his confinement, unless it affirmatively appears that the appeal is frivolous or taken for delay. Any appeal from an order of confinement under this section shall be disposed of as soon as practicable, pursuant to an expedited schedule, and in no event more than thirty days from the filing of such appeal.

"(d) In any proceeding conducted under this section, including all necessary appeals, counsel may be appointed in the same manner as provided in section 3006A of title 18, for any person financially unable to obtain adequate representation.

"(e) A refusal to answer a question or provide other information before a grand jury of the United States shall not be punishable under this section or under section 401 of title 18 if the question asked or the request for other information is based in whole or in part upon evidence seized or otherwise obtained by an unlawful act or in violation of the witnesses' constitutional rights or of rights established or protected by any statute of the United States.".

(2) The table of sections for chapter 119 of title 28, United States Code, is amended by adding at the end thereof the following:

"1827. Recalcitrant grand jury witnesses.".

(b) (1) Section 1826 (a) of title 28, United States Code, is amended—

(A) by striking out "or grand jury" in the first sentence; and

(B) by amending the second sentence to read as folows: "No period of such confinement shall exceed the life of the court proceeding before which such refusal to comply with the court order occurred, but in no event shall such confinement exceed eighteen months.".

(2) The heading for section 1826 of such title is amended by inserting "court" immediately before "witnesses".

(3) The table of sections for chapter 119 of such title is amended in the item relating to section 1826 by inserting "court" immediately before "witnesses".

(c) Chapter 21 of title 18, United States Code, is amended by adding at the end thereof the following new section:

"§ 403. Refusal of a witness to testify in a grand jury proceeding

"No person who has been imprisoned or fined by a court of the United States under section 401 of this title for refusal to testify or provide other information concerning any transaction, set of transactions, event, or events in a proceeding before a grand jury (including a special grand jury summoned under section 3331 of this title) impaneled before any district court of the United States may again be imprisoned or fined under section 401 of this title or under section 1826 of title 28 for a subsequent refusal to testify or provide other information concerning the same transaction, set of transactions, event, or events.".

(d) The table of sections for chapter 21 of title 18, United States Code, is amended by adding at the end thereof the following new item:

"403. Refusal of a witness to testify in a grand jury proceeding.".

UNAUTHORIZED DISCLOSURE OF GRAND JURY INFORMATION

SEC. 4. (a) Chapter 73 of title 18, United States Code, is amended by adding at the end thereof the following new section:

"§ 1512. Violations of grand jury secrecy.

"(a) Whoever knowingly discloses any evidence introduced, statement made, or other matter occurring before any grand jury summoned or impaneled by a court of the United States shall be fined not more than $500 or imprisoned not more than six months, or both.

"(b) Whoever knowingly discloses any evidence introduced, statement made, or other matter occurring before any grand jury summoned or impaneled by a court of the United States, with the intent to secure compensation therefor, to affect the actions of or any decisions by that jury, to affect further legal proceedings against any witness, or to affect further legal proceedings as to the subject matter of any investigation by that jury, shall be fined not more than $20,000 or imprisoned not more than five years, or both.

"(c) This section shall not apply to—

"(1) disclosure to or by an attorney for the Government in the performance of his duties if a record is presented to the court of the date and purpose of each disclosure and of the name of the person to whom the disclosure is made;

"(2) disclosure directed or permitted by a court;

"(3) disclosure by a witness who has appeared before such grand jury, or disclosure by his attorney, with the written permission of the witness, of any matter about which the witness has testified or produced before the grand jury; or

"(4) disclosure by any representative of the press, broadcasting, or information media, acting in his professional capacity.

"(d) Subsection (a) shall not apply to disclosure by any person other than a person present at the grand jury proceeding.

"(e) As used in this section—

"(1) 'attorney for the Government' means the Attorney General, an authorized assistant of the Attorney General, and a United States attorney;

"(2) 'disclosure by a witness' includes disclosure by others of matters the witness has previously disclosed when made as a consequence of such disclosure by the witness.

"(f) Nothing contained in this section may be construed as affecting the power of the court to punish any person for contempt for violation of any rule or order of the court.".

(b) The table of sections for chapter 73 of title 18, United States Code, is amended by adding at the end thereof the following new item:

"1512. Violations of grand jury secrecy.".

RIGHTS AND DUTIES OF GRAND JURORS AND ATTORNEY FOR THE GOVERNMENT; INDEPENDENT INQUIRY

SEC. 5. (a) Chapter 215 of title 18, United States Code, is amended by adding at the end thereof the following new sections:

"§ 3329. Rights and duties of grand jury and attorney for Government

"(a) Upon impanelment of each grand jury before a district court of the United States, the court shall give adequate and reasonable oral and written notice to the grand jury of, and shall assure that the grand jury reasonably understands—

"(1) its duty to inquire into offenses against the criminal laws of the United States alleged to have been committed within that district.

"(2) its rights, authority, and powers with respect to an independent inquiry under section 3330 of this title;

"(3) its right to call and interrogate witnesses;

"(4) its right to request the production of documents or other evidence;

"(5) the subject matter of the investigation;

"(6) the criminal statute involved, if such statute is known at the time the grand jury is impaneled;

"(7) the necessity of legally sufficient evidence to form the basis of any indictment as provided under this title;

"(8) the duty of the grand jury to determine that the indictment is not based on illegally seized or obtained evidence;

"(9) the duty of the grand jury to determine that the prosecutor has presented all exculpatory evidence known to him;

"(10) the duty of the grand jury by an affirmative vote of twelve or more members of the grand jury to determine, based on the evidence presented before it, whether there are sufficient grounds for issuing indictments and to determine the violations to be included in any such indictments;

"(11) the obligation of secrecy and that it is a criminal offense to disclose to any person any information concerning any grand jury proceeding; and

"(12) such other duties and rights as the court deems advisable."

The court's failure to instruct the grand jury as directed in this section shall be just cause within the meaning of section 1827 of title 28, United States Code, for a witness' refusal to testify or provide other information before such grand jury, until such time as the court instructs the grand jury in accordance with this section.

"(b)(1) Any person, including a witness who has previously testified or produced books, records, or documents, may make a written request to the attorney for the Government, or a special attorney appointed pursuant to this title, and request to testify in an inquiry before a grand jury, or to produce books, records, or documents, or to appear before a grand jury and request that the grand jury proceed in accordance with its powers under section 3330 of this title.

"(2) The attorney for the Government, or the special attorney—

"(A) shall forward any request under this subsection to the grand jury and may make a recommendation as to such request;

"(B) shall take reasonable steps to notify any person of his intention to present evidence against the person and request a presentment or indictment and of the person's right to testify or present evidence under this subsection and such notice shall be given a reasonable time in advance of any request for such presentment or indictment unless the attorney for the Government or the special attorney can prove to the satisfaction of the court that notice would result in the flight of the persons, would endanger other witnesses, would unduly delay the investigation and prosecution, or would result in the destruction of the evidence; and

"(C) shall establish a public record of all requests and the action taken on each such request.

"(3) The grand jury shall not be required to hear any witness, or consider any book, record, or document, but shall consider all requests forwarded to it by the attorney for the Government or the special attorney. Unless the grand jury, upon an affirmative vote of a majority of its members, refuses to hear the testimony or consider the documents offered by a person under this subsection, the attorney for the Government or the special attorney shall subpena the evidence or witness offered. If the grand jury refuses to hear the testimony or consider the documents offered, the attorney for the Government or the special attorney shall notify in writing the person making such request of the refusal.

"(4) Upon appearance pursuant to a subpena, such person shall be permitted to testify, only upon submission of a waiver of immunity, as to relevant and competent matters upon consideration by the jury and shall be subject to examination by the attorney for the Government or the special attorney.

"(c) The attorney for the Government or the special attorney shall not bring before the grand jury any witness who has given written notice in advance of the witness' appearance that such witness intends to exercise his privilege against self-incrimination, nor bring to the attention of the jurors, in any way, the invocation of the privilege by such witness, unless such witness has been given a grant of immunity.

"(d) The attorney for the Government or a special attorney shall not initiate, and a grand jury shall not conduct, an inquiry into a transaction or event, if any other grand jury has failed to return an indictment based on the same transaction or event, unless the court finds, upon a proper showing, that additional evidence relevant to such witness and previously unavailable to the Government has been discovered.

"(e) The attorney for the Government or the special attorney shall not present to the grand jury any evidence seized, derived from, or otherwise obtained by an unlawful act or in violation of the witness' constitutional rights or of rights established or protected by any statute of the United States.

"(f) The attorney for the Government or the special attorney shall present to the grand jury all evidence in such attorney's possession which he has reason to know will tend to negate the guilt of the person under investigation.

"§ 3330. Independent grand jury inquiry

"(a)(1) Any grand jury impaneled before any district court (including a special grand jury summoned under section 3331) may, after giving notice to the court, inquire upon

its own initiative into offenses against the criminal laws of the United States alleged to have been committed within that district. Such grand jury may request the attorney for the Government to assist the grand jury in such inquiry.

"(2) The grand jury shall serve for a term of eighteen months after giving notice to the court under paragraph (1) unless an order for its discharge is entered earlier by the court or upon a determination of the grand jury by an affirmative vote of twelve or more members that its business has been completed. If, at the end of such term or any extension thereof, the district court determines the business of the grand jury has not been completed, the court may enter an order extending such term for an additional period of six months. No grand jury term so extended shall exceed thirty-six months from the date on which notice to the court was given under paragraph (1).

"(3) If a district court within any judicial circuit fails to extend the term of a grand jury engaged upon an independent inquiry under this section or enters an order for the discharge of such grand jury before such grand jury determines that it has completed its business, the grand jury by an affirmative vote of twelve or more members may apply to the chief judge of the circuit for an order for the continuance of the term of the grand jury. Upon the making of such an application by the grand jury, the term thereof shall continue until the entry by the chief judge of the circuit of an appropriate order upon such application. No grand jury term so extended shall exceed twenty-four months.

"(b)(1) In the event that the attorney for the Government is unable to impartially assist, refuses to assist or hinders or impedes the grand jury in the conduct of any inquiry under subsection (a), or whenever the grand jury determines that the appointment of a special attorney would be appropriate, the grand jury may, upon the affirmative vote of twelve or more of its members, request at the inception and at any other point in such inquiry that the court appoint a special attorney in lieu of the attorney for the Government, to assist the grand jury in the conduct of any independent inquiry referred to in subsection (a). Such special attorney, with the approval of the court, may appoint and fix the compensation of such assistants, investigators, and other personnel as he deems necessary. The special attorney and his appointees shall be appointed without regard to the provisions of title 5 of the United States Code, governing appointments in the competitive service, and may be paid without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, except that the special attorney and any appointees shall be paid at a reasonable rate to be determined by the court. The special attorney shall be reimbursed for actual expenses incurred by him and his appointees in the performance of duties pursuant to this section.

"(2) Notwithstanding sections 516, 518, and 519 of title 28, United States Code, or any other provision of law, a special attorney appointed under this section shall carry out the functions of an attorney for the Government and shall—

"(A) assist in the conduct of independent grand jury investigations under this section,

"(B) prepare and sign any indictment returned by a grand jury pursuant to such inquiry in lieu of any attorney for the Government, and

"(C) conduct all other phases of any criminal prosecution arising out of such inquiry (including the argument of appeals in the United States court of appeals and the United States Supreme Court).

"(3) A special attorney appointed under this section is authorized to obtain from any department or agency of the United States any files, records, documents, or other materials which he deems necessary or appropriate in the carrying out of his functions under this section.".

(b) The Administrator of General Services shall furnish offices, equipment, supplies, and services to a special attorney appointed under section 3330 of title 18, United States Code, in the same manner as such items are furnished to agencies and departments of the United States.

(c) Section 524 of title 28, United States Code, is amended by adding at the end thereof the following new sentence: "Such appropriations shall also be available for payment of the compensation and other expenses of the special attorney appointed under section 3330 of title 18 to assist a grand jury in the conduct of an independent investigation.".

IMMUNITY

SEC. 6. (a) Chapter 119 of title 18, United States Code, is amended by inserting immediately after section 2513 the following new section:

"§ 2514. Immunity of witnesses

"(a) In any proceeding before or ancillary to a grand jury impaneled before a district court of the United States, the attorney for the Government shall submit an application to the court for an order that a witness shall testify or produce books, papers, or other evidence subject to the provisions of this section if—

"(1) there is an affirmative finding by twelve or more of the members of the grand jury that such testimony or the production of books, papers, or other evidence by the witness is necessary to the public interest; and

"(2) the Attorney General approves such application.

"(b) Whenever in the judgment of an attorney for the Government the testimony of any witness, or the production of books, papers, of other evidence by any witness, in any proceeding before or ancillary to a grand jury impaneled before a district court of the United States, is necessary to the public interest, such attorney for the Government, upon the approval of the Attorney General, may make application to the court for an order granting the witness immunity so that the witness shall testify or produce evidence subject to the provisions of this section.

"(c) The proceeding with respect to any application to the court for a grant of immunity shall be in camera. A transcript shall be made of the proceeding which shall not be released until after the indictment, if any, by the grand jury.

"(d) Pursuant to subsections (a) and (b) of this section, upon the court's order granting immunity, such witness shall not be excused from testifying or from producing books, papers, or other evidence on the ground that the testimony or evidence required of such witness may tend to incriminate her or him or subject her or him to a penalty or forfeiture, and no such witness shall be prosecuted or subjected to any penalty or forfeiture on account of any transaction, matter, or thing concerning which she or he is compelled, after having claimed her or his privilege against self-incrimination, to testify or produce evidence. Testimony so compelled shall not be used as evidence in any criminal proceeding (except in a proceeding described in the next sentence) against such witness in any court. No witness shall be exempt under this section from prosecution for perjury or contempt committed while giving testimony or producing evidence under compulsion as provided in this section.".

(b) The table of sections for chapter 119 of such title is amended by inserting immediately after the item relating to section 2513 the following:

"2514. Immunity of witnesses.".

(c) Section 6002 of title 18, United States Code, is amended in paragraph (1) by striking "or grand jury".

(d)(1) Section 6003 of title 18, United States Code, is amended—

(A) by striking out "and grand jury" in the section heading; and

(B) by striking out "or a grand jury of the United States" in subsection (a).

(2) The table of sections of part V of title 18, United States Code, is amended by striking out "and grand jury" in the item relating to section 6003.

RIGHTS OF GRAND JURY WITNESSES

SEC. 7. (a) Chapter 215 of title 18, United States Code, is further amended by adding at the end thereof the following:

"§ 3330A. Counsel

"(a) Every witness subpenaed to appear and testify before a grand jury impaneled before a district court or to produce books, papers, documents, or other objects before such grand jury shall be entitled to the assistance of counsel, including assistance during such time as the witness is questioned in the grand jury room.

"(b) Such counsel may be retained by the witness or shall be appointed as provided in section 3006A of this title in the case of any person financially unable to obtain legal representation. Notwithstanding any rule contained in the Federal Rules of Criminal Procedure, such witness' counsel is authorized to disclose matters with the written permission of the witness which occur before the grand jury while such counsel is in the grand jury room.

"(c) Such counsel shall be allowed to be present in the grand jury room only during the questioning of the witness and shall be allowed to advise the witness. Such counsel shall not be permitted to address the grand jurors or otherwise take part in the proceedings before the grand jury.

"(d) The court shall have the power to remove such attorney, and order the witness to obtain new counsel, when it finds that the attorney has violated subsection (c) of this section or that such removal and replacement is necessary to insure that the activities of a grand jury are not unduly delayed or impeded. Nothing in this subsection shall affect the power of the court to punish for contempt or impose other appropriate sanctions.

"§ 3330B. Subpenas

"(a) In the case of any proceeding before a grand jury impaneled before a district court, except with the consent of the witness or when the court, after a hearing and upon a showing by the attorney for the Government or a special attorney appointed under this title, finds special need, no subpena may require any witness to testify or produce other information at such proceeding at any time before the expiration of the one-week period beginning on the date of service of the subpena. In no event may a subpena be issued less than forty-eight hours prior to the intended date for the testimony.

"(b) Upon the service of any subpena requiring any witness to testify or produce other information at any proceeding before a grand jury impaneled before a district court, the witness shall be given adequate and reasonable notice of—

"(1) his right to counsel as provided in section 3330A of this title;

"(2) his privilege against self-incrimination;

"(3) the subject matter of the grand jury investigation;

"(4) whether his own conduct is under investigation by the grand jury;

"(5) the substantive criminal statute, violation of which is under consideration by the grand jury, if such statute is known at the time of issuance of the subpena;

"(6) his or her rights regarding immunity; and

"(7) any other rights and privileges which the court deems necessary or appropriate.

"(c)(1) The district court which issued a subpena, or the district court for the district in which the person resides or is served shall have concurrent jurisdiction to hear, and take appropriate action with respect to any motion relating to, including any motion to quash, such subpena.

"(2) A motion relating to a subpena may be made at any time prior to, during, or when appropriate, subsequent to the appearance of any witness before a grand jury. Any motion made during or subsequent to the appearance of the witness before the grand jury may be made only in the district in which the grand jury is impaneled.

"(3) If a motion is made under this section before the day on which the person subpenaed has been ordered to appear or books, records, or documents have been ordered to be produced, the appearance of such person, or the production of such documents, shall, upon appropriate application, be stayed until the court has ruled on such motion.

"(d) Upon proper motion, the court may quash a subpena and take other appropriate sanctions when it finds that—

"(1) a primary purpose or effect of requiring such person to so testify or to produce such objects to the grand jury is or will be to secure testimony for trial or to secure other information regarding the activities of any person who is already under indictment by the United States, a State, or any subdivision thereof for such activities, or of any person who is under formal accusation for such activities by any State or any subdivision thereof, where the accusation is by some form other than indictment;

"(2) the witness has not been advised of his rights, as specified in subsection (b);

"(3) the evidence sought is not relevant to the grand jury investigation properly conducted within the grand jury's jurisdiction;

"(4) compliance with the subpena would be unreasonable or oppressive, as such subpena would require unnecessary appearances by the witness, would lead to testimony or other information that is unnecessary or privileged, would be primarily for punitive purposes or would involve other like circumstances; or

"(5) a primary purpose of the issuance of the subpena is to harass the witness, to induce the witness to commit perjury or false utterance, or to place the witness in contempt.

"(e) Upon proper motion, the court shall quash a subpena and take other appropriate sanctions when it finds that—

"(1) the witness has already been confined, imprisoned, or fined under section 1827 of title 28, United States Code, or section 401 of this title for his refusal to testify before any grand jury investigating the same transaction, set of transactions, event, or events;

"(2) the witness has given written notice that such witness intends to exercise his privilege against self-incrimination, unless a grant of immunity has been obtained; or

"(3) the grand jury is inquiring into the same transaction or event that was under consideration by another grand jury which failed to return an indictment based on such transaction or even, unless a court finds upon a hearing that there is additional, newly discovered evidence relevant to such witness which was previously unavailable to the Government.

"(f)(1) A grand jury impaneled to conduct an inquiry into an offense against the criminal laws of the United States may be convened only in a district in which it is believed criminal conduct may have occurred which is an element of such offense, except that when a grand jury is to be convened to conduct an inquiry into both violations of substantive criminal statutes and violations of statutes forbidding conspiracy to violate substantive criminal statutes, the grand jury may not be convened before a district court in a district in which the only criminal conduct alleged to have occurred in that district is conspiracy to commit the substantive criminal act.

"(2) The district court may quash a subpena or transfer any grant jury proceedings or investigation into any other district where it might properly have been convened if the court finds that a witness' appearance would impose a substantial and unnecessary hardship on such witness or his family because of the location of the proceeding. In considering whether such hardship exists, the court shall take into consideration all the relevant circumstances, including the distance of the grand jury investigation from the places of residence of witnesses who have been subpenaed, financial and other burdens placed upon the witnesses, and the existence and nature of any related investigations and court proceedings.

"§ 3330C. Evidence presented to the grand jury

"(a) The attorney for the Government shall not be permitted to present to the grand jury any evidence seized, derived from, or otherwise obtained by any unlawful act or in violation of the witness' constitutional rights or of rights established or protected by any statute of the United States.

"(b) An attorney for the Government shall present to the grand jury all evidence in such attorney's possession which he has reason to know will tend to negate the guilt of the person under investigation.

"(c) A grand jury may indict a person for an offense when (1) the evidence before such grand jury is legally sufficient to establish that such offense was committed, and (2) competent and admissible evidence before such grand jury provides reasonable cause to believe that such person committed such offense. An indictment may be based on summarized or hearsay evidence alone only upon showing of good cause to the court which impaneled the grand jury.

"(d) The district court before which a grand jury is impaneled shall dismiss any indictment of the grand jury if such district court finds that—

"(1) the evidence before the grand jury was legally insufficient to establish that the offense for which the indictment was rendered was committed;

"(2) there was not competent and admissible evidence, or summarized or hearsay evidence allowed by the court upon a showing of good cause, before the grand jury to provide reasonable cause to believe that the person indicted committed such offense;

"(3) the attorney for the Government has not presented to the grand jury all evidence in his or her possession which the attorney knows will tend to negate the guilt of the person indicted; or

"(4) the attorney for the Government has submitted to the grand jury evidence seized or otherwise obtained by an unlawful act or in violation of the witness' constitutional rights or of rights established or protected by any statute of the United States.".

(b) Section 3006A (a) of title 18, United States Code, is amended—

(1) by striking out "or," before "(4)" in the first sentence thereof; and

(2) by inserting before the period at the end of the first sentence thereof: ", or (5) who is a witness before a grand jury impaneled before the district court".

RECORDING, TRANSCRIBING, AND AVAILABILITY OF GRAND JURY PROCEEDINGS

SEC. 8. (a) Chapter 215 of title 18, United States Code, is further amended by adding at the end thereof the following new sections:

"§ 3330D. Recording of grand jury proceedings

"(a) A complete and accurate stenographic or electronic record of all grand jury proceedings shall be kept, except that the grand jury's secret deliberations and consultations between witnesses and their counsel shall not be recorded.

"(b) Such record shall include—

"(1) the court's notice to the grand jury of its rights and duties and all other comments or charges by the court to the jury at any time;

"(2) all introductory comment, or other comments, directives, and other utterances made by attorneys for the Government or special attorneys to the grand jury, witnesses and their counsels;

"(3) all questioning of and testimony of witnesses; and

"(4) all interchanges between the grand jury and attorneys.

"§ 3330E. Availability of grand jury transcripts and other statements

"(a) Any person summoned to testify or provide other information before a grand jury impaneled before a district court shall be entitled, prior to testifying or providing other information, to examine and copy any statement in the possession of the United States which he has made and which relates to the subject matter under inquiry by the grand jury. Such examination and copying may be made by the attorney for such person if such person gives his written approval. As used in this subsection, the term 'statement' has the meaning provided by section 3500 (e).

"(b) Any witness who testifies before a grand jury, or his attorney with such witness' written approval, shall, upon request and under such conditions as the court deems reasonable, be entitled to examine and copy a transcript or electronic recording of the record for the period of such witness' own appearance before the grand jury, and if a witness is proceeding in forma pauperis, he shall be furnished, upon request, a copy of such transcript. Such transcript shall be made available for inspection and copying not later than forty-eight hours after the conclusion of such witness' testimony, unless, for cause shown, more time is required to prepare such transcript. After examination of such transcript, a witness may request permission to appear before the grand jury again to explain his testimony. Additional testimony given under this subsection shall become part of the official transcript and shall be shown to the members of the grand jury.

"(c) A reasonable time prior to trial, and after the return of an indictment or the filing of an information, a defendant shall, upon request and under such conditions as the court deems reasonable, be entitled to examine and copy a transcript or electronic recording of—

"(1) the grand jury testimony of all witnesses to be called at trial;

"(2) all statements to the grand jury by the court and the attorney for the Government or special attorney, relating to the defendant's case;

"(3) all grand jury testimony or evidence which in any manner could be considered exculpatory; and

"(4) all other grand jury testimony or evidence which the court may deem material to the defense.".

(b) Section 3500(e), title 18, United States Code, is amended—

(1) by inserting "or" at the end of paragraph (1);

(2) by striking out "; or" and inserting a period at the end of paragraph (2); and

(3) by striking out paragraph (3).

(c) The table of sections for chapter 215 of title 18, United States Code, is amended by adding at the end thereof the following new items:

"3329. Notice to grand jury of its rights and duties.
"3330. Independent grand jury inquiry.
"3330A. Counsel.
"3330B. Subpenas.
"3330C. Evidence presented to the grand jury.
"3330D. Recording of grand jury proceedings.
"3330E. Availability of grand jury transcripts and other statements.".

PRELIMINARY EXAMINATION

SEC. 9. (a) Chapter 217 of title 18, United States Code, is amended by adding at the end thereof the following new section:

"§ 3368. Preliminary examination

"(a) A defendant is entitled to a preliminary examination, unless waived, when charged with any offense, other than a petty offense, which is to be tried by a judge of the district court.

"(b) Such preliminary examination may be held prior to, or within a reasonable time following, the filing of an indictment or information in the district court.".

(b) The table of sections for chapter 217 of title 18, United States Code, is amended by adding at the end thereof the following new item:

"3368. Preliminary examination.".

REPORTS CONCERNING GRAND JURY INVESTIGATIONS

SEC. 10. Section 522 of title 28, United States Code, is amended by striking out "The Attorney General" and inserting in lieu thereof "(a) The Attorney General" and by adding at the end thereof the following new subsection:

"(b)(1) The Attorney General, at the beginning of each regular session of Congress, shall report to the Congress and to the Administrative Office of the United States Courts with respect to the last preceding fiscal year on—

"(A) the number of investigations undertaken in which a grand jury or a special grand jury was utilized together with a description of the nature of each investigation undertaken;

"(B) the number of requests by United States grand juries to the Attorney General for approval to apply to the court for an order compelling testimony under section 2514 of title 18, and the number of such requests approved by the Attorney General:

"(C) the number of applications to district courts for orders granting immunity under title 18;

"(D) the number of applications to district courts for orders granting immunity under title 18 that were approved and the nature of the investigations for which the orders were sought;

"(E) the number of instances in which witnesses in the investigations described in paragraph (1) were held in contempt and confined, and the date and lengths of such confinement;

"(F) the number of arrests, indictments, no-bills, trials, and convictions resulting from testimony obtained under orders granting immunity, the offenses for which the convictions were obtained, and a general assessment of the importance of the immunity;

"(G) a description of data banks and other procedures by which grand jury information is processed, stored, and used by the Department of Justice; and

"(H) other appropriate information concerning grand jury activity during such year.

"(2) The matters contained in the report required to be made by this section shall be set forth according to judicial district.".

EFFECT ON OTHER LAWS AND RULES

SEC. 11. (a) The enumeration of this Act of any rights and privileges of grand jury witnesses shall not affect any other rights and privileges to which such witnesses may be entitled under any other law or rule of law.

(b) Notwithstanding section 3771 of title 18, United States Code, no rule contained in the Federal Rules of Criminal Procedure shall apply to the extent that such rule is inconsistent with the provisions of this Act.

U.S. SENATE,
COMMITTEE ON THE JUDICIARY,
Washington, D.C., September 20, 1978.

Hon. PHILIP B. HEYMANN,
Department of Justice,
Washington, D.C.

DEAR MR. HEYMANN: I would like to take this opportunity to thank you again for your appearance on August 22 before the Subcommittee during the Grand Jury Reform hearings.

I have reviewed the testimony from the hearings, and request that the Department inquire into the following items raised by the witnesses. It would be most helpful if we could receive a detailed written report from you by October 9.

1. Several incidents last month involving the FBI questioning people ostensibly in relation to a renewed investigation of Katherine Power were cited by the Coalition to End Grand Jury Abuse.

Ellen Grusse, New Haven, Connecticut, was questioned by an FBI agent on August 17. It is my understanding that when Ms. Grusse refused to answer the agent's questions, he threatened her with a grand jury subpoena. Three years ago, Ellen Grusse was jailed for refusing to testify before a grand jury on what was then the Susan Saxe-Katherine Power investigation.

Gail Cohee, Lexington, Kentucky, was questioned about the whereabouts of Jill Raymond by FBI agent Wayne McDonald on August 22. Ms. Cohee had also been questioned during the Saxe-Power investigation approximately four years ago by the same FBI agent. (Jill Raymond spent 14 months in jail for her refusal to testify before the grand jury during the initial investigation. She is presently working for the American Civil Liberties Union in Washington, D.C., and was a witness at the Subcommittee's grand jury reform hearings on August 28.)

On August 22, FBI agents went to Dover, Delaware to question a woman who had become acquainted with Gail Cohee and some other women in the Lexington area only during the past three years. Apparently, since the FBI questioned not only her, but her family, colleagues and friends, she has been ostracized in the Dover community. To this day she has never been told the purpose of the investigation, or why she was being questioned.

Finally, I have been told that also on August 22, FBI agents questioned the same people questioned four years ago who were involved with the Susan Saxe Defense Committee in Boston, Massachusetts.

This series of events seems to indicate a revival of an unsuccessful investigation concluded some time ago. Many of the same persons who refused to testify before, and who were jailed for contempt, are again being threatened with yet another grand jury subpoena.

These incidents, if accurate, raise a number of questions about the government's conduct. What information prompted these renewed activities by the Bureau? Has a formal investigation been undertaken? If so, under whose direction? An FBI field office? A U.S. Attorney's Office? What specific crime or crimes are being investigated? Why are FBI agents threatening witnesses with grand jury subpoenas? If a formal investigation has not been authorized, why and under what authority have these individuals been interviewed?

2. During the course of your testimony, we discussed the activities of Guy Goodwin, who is presently the head of the Special Prosecutions Unit in the General Crimes Section of the Criminal Division of the Justice Department. Between 1971 and 1976 Mr. Goodwin was Chief of the Internal Security Section of the Justice Department, and a Special Assistant to Attorney General John Mitchell.

Although the extent of his activities is not known, many articles have been written describing Goodwin's travels around the country convening grand juries. In the overwhelming number of cases the subjects were political dissenters and activists. It is estimated that Mr. Goodwin personally convened over 100 grand juries in 36 states. Only 400 indictments were returned, and of the 200 which eventually went to trial, only 10 percent resulted in convictions, many on reduced charges. Every "major" case was lost.

It is my understanding that although some U.S. Attorneys lodged complaints with the Department about Mr. Goodwin's conduct when he appeared in their jurisdictions, no action was ever taken on any of these complaints. One such complainant was Rodney Sager, former Senior Assistant United States Attorney, Eastern District of Virginia. Mr. Sager has actively tried to pursue within the Justice Department the complaint he made approximately two years ago about Mr. Goodwin's behavior. It is Mr. Sager's contention that his charges against Mr. Goodwin have never been properly investigated by an impartial Departmental office.

Therefore, I request that your office open an official inquiry into Mr. Sager's complaint, as well as all other complaints which have been made against Mr. Goodwin. The Subcommittee is specifically interested in receiving a full report of his role in convening and conducting grand juries for the Department of Justice. Additionally, if there have been any prior Justice Department investigations of Mr. Goodwin, please identify each such investigation, who conducted it and what were the results. We would also request a copy of any final report.

Finally, substantive perjury allegations have been made against Mr. Goodwin in the Briggs Case. In view of these allegations, what is Mr. Goodwin's current status? Has any Departmental investigation of Mr. Goodwin's specific conduct in this case been made? If not, why not? If such an investigation has yet to take place, I request that it be undertaken at this time and that a final report be sent to the Subcommittee at the completion of the investigation.

3. The Subcommittee found during the hearings that there have been few studies in the area of federal grand jury practice. As a result, many, if not most, of the arguments raised by the Departments against proposed reforms are merely speculation. In April 1978, the ABA submitted to the Office for Improvements in the Administration of Justice, a proposal to study the issue of counsel in the Grand Jury room. The proposal was turned down apparently because issues related to Grand Jury reform are not a priority of the Justice Department. In view of your own expression of interest in receiving more empirical data on Grand Jury reform issues, I would request that the ABA's proposal, entitled "Proposal For Study Of Factors Involved In The Grand Jury Room Of Attorneys For Witnesses Called Before The Grand Jury" be reconsidered and if found to have merit, be funded as soon as possible.

I look forward to your responses concerning these matters.

Sincerely,

JAMES ABOUREZK,
Chairman.●

ALASKA NATIONAL INTEREST LANDS CONSERVATION ACT—H.R. 39

AMENDMENT NO. 4737

(Ordered to be printed and to lie on the table.)

Mr. HART (for himself, Mr. CHURCH, Mr. DURKIN, Mr. EAGLETON, Mrs. HUMPHREY, Mr. LEAHY, Mr. MCINTYRE, Mr. NELSON, and Mr. RIEGLE) submitted an amendment to H.R. 39, an act to designate certain lands in the State of Alaska as units of the National Park, National Wildlife Refuge, Wild and Scenic Rivers and National Wilderness Preservation Systems, and for other purposes.

FULL PROTECTION FOR ALASKA'S WILDLIFE

● Mr. HART. Mr. President, on behalf of myself and eight of my distinguished colleagues I plan to offer an amendment to H.R. 39, the Alaska National Interest Lands Conservation Act, which has been reported by the Committee on Energy and Natural Resources.

Clearly, this Alaska legislation presents us with the single most significant land and wildlife conservation opportunity of our generation. I have been following this issue with particular interest, recognizing that we in the Senate are called upon to exercise our greatest foresight and highest vision if we are to fully meet this landmark conservation challenge. Here, on Federal lands in Alaska, we can use our wisdom and our foresight to protect key parklands, wilderness, and wildlife habitat before patterns of development are fixed. We can create unique parks, refuges, and wilderness areas, before the land itself has been seriously compromised. This is not an opportunity which can last indefinitely, so our wisdom and foresight—and the bitter and costly lesson of our past—should counsel that we act promptly and well to preserve the people's natural heritage on the people's land in Alaska.

Unfortunately, my review of the decisions which have been made by the Energy and Natural Resources Committee leads me to feel that we must go further if the national interest in these Alaskan lands is to be fully and adequately protected. The bill coming from the committee is a step backward from the scale of conservation units and the degree of protection proposed by the administration and so overwhelmingly approved by the House of Representatives.

As an early cosponsor of the strongest Alaska lands bill, S. 1500/amendment No. 2176, my concerns touch every element of the committee bill: The parks, the refuges, the wilderness, and the policies governing nonconforming uses. However, as a member of the Committee on Environment and Public Works and its Subcommittee on Resource Protection—which has full jurisdiction over our National Wildlife Refuge System—I am particularly concerned about the impacts of the Energy Committee's many and serious alterations of the Administration-proposed and House-passed wildlife refuge units.

Today I am introducing an amendment I intend to offer when the Energy Committee's Alaska lands bill is considered by the full Senate. The effect of my amendment is to restore 19.9 million acres of the 43 million acres that the Senate committee dropped from national wildlife refuge designation. This would designate and restore acreage to the Alaska Peninsula, Copper River, Nowitna, Yukon Flats, Arctic Togiak, and Yukon Delta national wildlife refuges.

Also, I am including an additional provision calling for a study of the protection needed for the bald eagles in the Chilkat River Valley in southeast Alaska. This is the wintering area for the largest gathering of bald eagles in the world. My amendment would further restore certain key provisions of the House-passed bill which includes the establishment of a barren-ground caribou study for Alaska's internationally significant caribou herd.

For the most part, the committee bill deals with the same lands which my amendment will place in the national wildlife refuge system. But there is a major difference. Under the committee bill, these lands are divided into a maze of fragments, and the fragments are assigned to three different Federal management agencies. Only about one-half of the acreage covered in my amendment would be national wildlife refuges under the committee bill. Instead of a unified and cohesive system of wildlife refuges, the committee bill would give us a multitude of smaller, gerrymandered administrative units, with no overall logic. Instead of stable and coordinated management of all this wildlife habitat by one expert agency, the committee bill would have the Bureau of Land Management and the Forest Service, as well as the Fish and Wildlife Service, managing adjacent fragments of a single natural unit of wildlife habitat. The committee bill also deletes some critical wildlife lands entirely from the Federal boundaries, leaving them open to selection, ownership and development by the State of Alaska for local purposes.

In contrast, the administration has recommended, and the House of Representatives has passed, an Alaska lands bill which would establish a wildlife refuge system similar to what I propose. The professionals in the Interior Department are in agreement that the great wildlife populations of Alaska can best be protected in a unified, comprehensive system of refuges. Two committees of the House considered this refuge system and rejected the notion that Alaska's outstanding habitat should be administered by the U.S. Forest Service or the Bureau of Land Management. The House voted to accept the work of the scientists in the administration and the joint product of the two committees. It passed H.R. 39 by a vote of 277 to 31, an overwhelming bipartisan majority.

The bill passed as it did because it makes sense. It puts the wildlife habitat under the jurisdiction of the agency with the experience and expertise to manage it. A great part of these refuge lands are wetland nesting areas for waterfowl, for geese, swans, and ducks that migrate from Alaska to nearly every State. In the other States, the Fish and Wildlife Service has primary responsibility for the Federal lands on which these same birds winter. It is only reasonable to put these species under the jurisdiction of a single agency, both winter and summer, regardless of which Federal lands they may occupy at the moment. We are looking at the whole ecosystem, recognizing that these birds migrate and have particular needs at each stage of their life cycle.

My amendment places whole ecosystems within refuge boundaries to the maximum extent possible. In areas such as the Yukon Flats and the Yukon Delta, for example, (some of Alaska's best wildlife lands) the refugees cover not only the wetland waterfowl nesting areas themselves, but also the drainages which supply pure water to this critical habitat. These boundaries protect biological systems, not just tracts of land. That is why this amendment is so important.

For the first time, we are planning for our Federal lands before development takes place. We have the opportunity, this one final time, to benefit from our past experience. Now, I believe, we have the wisdom to understand how to live with our natural environment, and Alaska gives us the opportunity to act on our understanding.

In Alaska we can plan ahead. My amendment says that where we have critical wetland breeding grounds, we shall not put mines and other incompatible developments on the streams which drain into those fragile wetlands. It says that whenever possible we shall extract and harvest our resources away from the wildlife areas, such as the extremely sensitive calving areas of our last great caribou herds. Most of Alaska's mineral and oil resources are located away from these areas, and these are out side the boundaries of this amendment and may be developed. Simple logic should tell us that we should turn to those places for development—not to the very places where conflicts with wildlife values are the greatest. Neither the administration nor the House of Representatives are unaware of this Nation's resource needs, but their proposals, and my amendment, provide ample room for development in the rest of Alaska, while also assuring full protection, on a total ecosystem basis, for Alaska's critical wildlife areas.

My amendment will minimize redtape by putting the Federal wildlife lands together in a single agency. It maximizes wildlife preservation because this agency is the Fish and Wildlife Service, the organization with the mandate, the experience, and the expertise for ecological management. It looks ahead, avoiding expensive future problems by incorporating whole ecosystems.

Assigning Alaskas best Federal wildlife habitat lands to the Fish and Wildlife Service is not only simple and reasonable. It follows precedent already set by this body. Prior to the recent amendments to the National Wildlife Refuge Administration Act, several of our refuges across the country were managed not only by the Fish and Wildlife Service, but also by the Bureau of Land Management. We in Congress decided that this joint administration was costly, duplicative, and counterproductive, and we did away with it. The Congress decided that the Fish and Wildlife Service was the

single proper agency to manage these nationally important wildlife habitats.

As the Senate committee report on the National Wildlife Refuge Administration Act amendments explains,

> Clearly, the record of the BLM's (Bureau of Land Management's) wildlife management has not been an encouraging one. The reason for this undoubtedly arises from the fact that BLM has a number of other import missions such as mining, logging, livestock grazing, and fossil fuels development which often conflict with wildlife management. In performing these conflicting missions, BLM is unable to devote sufficient attention to the needs of wildlife. In short, its mission is not wildlife protection or enhancement.
>
> In contrast to the BLM, the Fish and Wildlife Service has as its basic mission the protection and enhancement of wildlife. The agency's entire resources are directed towards this goal.

I am disappointed that the Energy Committee version of the Alaska lands bill does not follow this clear precedent. Instead of assigning Alaska's best wildlife habitat to the Fish and Wildlife Service, it divides these lands among that agency, the BLM, the Forest Service, and the State of Alaska. The Energy Committee has drawn artificial lines across single areas of important wetlands and caribou range, dividing these areas into portions to be administered by three and more agencies.

Instead of one agency planning and managing a waterfoul nesting ground, or for a caribou wintering area, we shall have two, or three, or four. Instead of one team of biologists planning for these animals, we shall have several—some capable and professional, the others perhaps not so capable since they work for agencies with primary missions other than wildlife. These managers will be housed in separate offices, rented separately by the Government, reporting to separate layers of supervisory personnel. They will be conversing with each other on phone lines leased by the Government. When a citizen wishes to learn about Government regulations for these lands, or to express an opinion on how they should be managed, the citizen will have to make two, three, or more separate inquiries of the bureaucracy.

All this costs money. It is complicated. It is inefficient. It is unnecessary. It is bad for the taxpayer, it is bad for people who use these lands—and most certainly it is bad for the wildlife.

There is a rising tide of concern in the Nation for efficiency in Government. We all know the people are sending a message to this Congress, that they will no longer tolerate waste in Government, unnecessary duplication of Government services, and pyramiding expenses by redundant bureaucratic agencies. In great part, this concern is about people's ability to pay taxes, but it is more than that. It has to do with red tape and Government regulation as well. We are hearing that Government must be simplified, both to reduce expense and to make it possible for the people to deal effectively with government.

I fear that the Alaska lands bill emerging from the Energy Committee takes us precisely in the wrong direction.

My fears are borne out when I look at the details of the committee bill. Specifically, the Energy Committee has cut 43 million acres from the national wildlife refuges designated by the House-passed bill. Some units were slashed from the refuge system altogether—the Alaska Peninsula (Alaska's most rich and diverse habitat), Tojiak, Nowitna, and North Slope.

In other areas, the integral, ecosystem-based refuges passed by the House were carved up among the agencies in a way that makes no sense. The results may please administrators in these agencies seeking to aggrandize bureaucratic fiefdoms, but the boundaries are unworkable for resource management.

For example, a major reason for expanding the Arctic National Wildlife Range is to protect the porcupine caribou herd—the Nation's largest remaining herd. The Energy Committee carved the range of the herd into a refuge, a Bureau of Land Management multiple-use area, a national forest (the area has no commercially harvestable timber), and a zone for State selection and development. This is an international herd, affecting both the United States and Canada. International negotiations are necessary to coordinate management. Under the Energy Committee bill these negotiations would be complicated by involving three separate Federal agencies plus Alaska state land managers as well.

The Yukon Flats is one of the most productive waterfowl nesting areas in the world. It is considered to have the highest sustained rate of waterfowl production in North America—birds which migrate to all parts of the lower States, Canada, and Mexico. The Energy Committee put a chunk of the Yukon Flats into a national forest. This national forest would contain 25 to 33 percent of the area's waterfowl production, but not a single tree that could conceivably be logged for national markets. Another half million acres in the eastern Yukon Flats were assigned for selection by the State of Alaska. In addition, the drainages which supply essential pure water to the wetlands were sliced off and given to the Bureau of Land Management. The Fish and Wildlife Service got what was left to operate as a refuge.

The Senate can do a better job than this. The House, acting on the professional advice of administration biologists, has passed a good bill and we can do at least as well.

In 1971 we in the Congress instructed the Interior Department to study Alaska and make recommendations to us for the preservation of its nationally important resources, including wildlife. For fully 7 years since then the Department of the Interior has been studying potential Alaska refuges. Their professional recommendation is a pattern of national wildlife refuges, managed by the Fish and Wildlife Service. We in Congress established the Fish and Wildlife Service and gave it an unqualified mandate to put wildlife conservation as first priority. We decided to give that Agency sole jurisdiction over our Nation's wildlife refuges. The professionals we assigned to the job have done their work. Now it is up to the Senate to confirm the recommendations of the Administration and the actions of the House, and to put Alaska's critical wildlife habitat under unified management in the refuge system.

Mr. President, I ask unanimous consent that the text of my amendment be printed in the RECORD.

There being no objection, the amendment was ordered to be printed in the RECORD, as follows:

AMENDMENT NO. 4737

TITLE I

In Title I, section 101—"Purposes"—insert a new subsection (c) as follows and renumber the subsequent subsection accordingly:

"(c) ECOSYSTEM INTEGRITY AND COMPREHENSIVE MANAGEMENT FOR FISH AND WILDLIFE. To achieve the intent of maintaining sound populations of, and habitat for, wildlife species of inestimable value to the citizens of Alaska and the Nation, it is the purpose of this Act, and particularly of Title III hereof, to establish a pattern of single large land management units as National Wildlife Refuges embracing areas of key habitat for outstanding wildlife resources on the federal lands of Alaska. Such lands are to be administered by the Fish and Wildlife Service, Department of the Interior, the federal agency most suited by established policy of the Congress and by professional expertise for the management of fish and wildlife resources and habitat. The pattern of boundaries herein established for these National Wildlife Refuges is, to the maximum extent practicable, intended to embrace natural terrain units and to assure that the integrity of natural ecosystems is recognized and protected so that—

(1) habitat requirements for migratory and non-migratory birds are fully protected, including upland watersheds critical to the preservation of natural water quality and quantity and to nutrient flows, all essential for wetland nesting and feeding areas;

(2) lands utilized in migration by wildlife species (including calving, post-calving, migration and wintering areas for barren-ground caribou) are protected within units under single and comprehensive management, not disrupted by fragmentation among different management agencies subject to differing policies;

(3) habitat requirements for large mammals which utilize extensive range (such as the grizzly bear, wolf, Dall sheep, and numerous marine mammals) are embraced within single management units; and

(4) migration and spawning habitat conditions and associated water quality essential for anadromous and freshwater fish species are fully protected."

Strike out all of Title III and insert the following:

TITLE III—NATIONAL WILDLIFE REFUGE SYSTEM

DEFINITIONS

SEC. 301. For purposes of this title—

(1) The term "conserve" means to use, and the use of, such methods and procedures which are necessary to ensure to the maximum extent practicable, the health, preservation, and enhancement of fish and wildlife and plants, their habitats, and the ecological systems of which they form a constituent element for the ecological, educational, esthetic, cultural, recreational, and scientific enrichment of mankind. Such methods and procedures may include any activity associated with modern scientific fish and wildlife management, such as research, censuses, monitoring, law enforcement, the acquisition, maintenance, and enhancement of habitat, information and education, extension services, propagation, hunting, fishing, trapping, and transplantation.

(2) The term "existing", if used in referring to any unit of the National Wildlife Refuge System in the state, means the unit as it exists on the day before the date of the enactment of the Alaska Native Claims Settlement Act.

(3) The term "refuge" means—

(A) any unit of the National Wildlife Refuge System established by section 304;

(B) any existing unit of the National Wildlife Refuge System not included within any unit referred to in subparagraph (A); or

(C) any unit of the National Wildlife Refuge System established in the State after the date of the enactment of this Act.

PURPOSES OF REFUGE

SEC. 302. The major purposes of each refuge are—

(1) to conserve the fish and wildlife within the refuge which are designated in section 304 as significant fish and wildlife resources, as well as to conserve the other fish and wildlife, and plants, within the refuge;

(2) to fulfill the international treaty obligations of the United States with respect to fish and wildlife and plants;

(3) to provide, in a manner consistent with the purposes set forth in paragraphs (1) and (2) above, the opportunity for continued subsistence uses by local residents;

(4) to ensure, to the maximum extent practicable, and in a manner consistent with the purpose set forth in paragraph (1), water quality and water quantity within the refuge; and

(5) to protect, maintain, or enhance, in a manner consistent with the purpose set forth in paragraph (1), any special value of the refuge specified in section 304, as well as the wilderness character and any other archaeological, cultural, ecological, educational, geological, historical, paleontological, recreational or scenic or scientific value of the refuge.

ADMINISTRATION OF REFUGES

SEC. 303. (a) IN GENERAL.—The Secretary shall administer each refuge, subject to valid existing rights, to achieve the general purposes set forth in section 302 and the purposes of the individual refuge set forth in section 304, and in accordance with the laws governing the administration of units of the National Wildlife Refuge System, the laws governing the conservation and protection of fish and wildlife and plants, and this Act.

(b) USES PERMITTED WITHIN REFUGES.—(1) In applying section 4(d) of the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. S668dd(d)) with respect to each refuge, the Secretary may not permit any use, or grant any easement for any purpose, unless the use (including any oil and gas leasing) or purpose is compatible with the general purposes of this title set forth in section 302 and the purposes of the individual refuge set forth in section 304. The Secretary may issue regulations, and impose terms and conditions upon uses and easements, as necessary and appropriate to ensure that any uses permitted, or easements granted, by the Secretary are so compatible.

(2) All public lands in each refuge in Alaska are hereby withdrawn, subject to valid existing rights, from all forms of appropriation under the mining laws and from operation of the mineral leasing laws. The Secretary, however, may permit oil and gas leasing on such lands, except in designated wilderness areas, consistent with the National Wildlife Refuge Administration Act of 1966 and paragraph (1) of this subsection.

(c) REFUGE CONSERVATION PLANS.—(1) The Secretary shall prepare, and from time to time revise, a comprehensive conservation plan (referred to in this subsection as the "plan") for each refuge.

(2) Before developing a plan for each refuge, the Secretary shall identify and describe—

(A) the populations and habitats of the significant fish and wildlife resources of the refuge and of the other important fish and wildlife within the refuge;

(B) the special values of the refuge, as well as any other archaeological, cultural, ecological, geological, historical, paleontological, recreational, mineral, scenic, or wilderness values of the refuge;

(C) areas within the refuge that are suitable for use as administrative sites or visitor facilities, or for visitor services, as provided for in sections 1305 and 1306;

(D) present and potential requirements for access with respect to the refuge, as provided for Title XI; and

(E) significant problems which may adversely affect the populations and habitats identified and described under subparagraph (A).

(3). Each plan shall—

(A) based upon the identifications and the descriptions required to be made under paragraph (2)—

(i) designate areas within the refuge according to their respective resources and values,

(ii) specify the programs for conserving fish and wildlife, and the programs relating to the values referred to in paragraph (2)(B), proposed to be implemented within each such area, and

(iii) specify the uses within each such area which may be compatible with the major purposes of, and the opportunity for subsistence uses within, the refuge; and

(B) set forth those opportunities which will be provided within the refuge for recreation, ecological research, environmental education, and interpretation of refuge resources and values, if such recreation, research, education, and interpretation is compatible with the major purposes of the refuge.

(4) In preparing a plan for a refuge for which the Secretary has entered into a cooperative management agreement under section 305, the Secretary may consider the current and projected conditions of and activities on land that is within, near, or adjacent to the refuge.

(5) In preparing each plan and revision thereto, the Secretary shall consult with the appropriate State agencies and Native representatives, and shall hold public hearings in such locations in the State as may be appropriate to ensure that residents of Native villages and political subdivisions of the State which will be primarily affected by the administration of the refuge concerned have opportunity to present their views with respect to the plan of revisions.

(6) Before adopting a plan for any refuge, the Secretary shall publish notice of the proposed plan in the Federal Register, make copies of the plan available at each regional office of the United States Fish and Wildlife Service, and provide opportunity for public views and comment on the plan.

(7) The Secretary shall by regulation implement each plan prepared under this subsection.

(8) With respect to refuges established or redesignated by section 304, the Secretary shall prepare plans for—

(A) not less than five refuges within three years after the date of the enactment of this Act;

(B) not less than ten refuges within five years after such date; and

(C) all refuges within seven years after such date. With respect to any refuge established in the State after the date of the enactment of this Act, the Secretary shall prepare a plan for the refuge within two years after the date of its establishment.

ESTABLISHMENT OF NEW AREAS

SEC. 304. The following areas are hereby established as units of the National Wildlife Refuge System and shall, subject to valid existing rights, be administered by the Secretary pursuant to the provisions of law governing the administration of such units and under the provisions of this Act:

(1) Alaska Maritime National Wildlife Refuge, containing approximately two million nine hundred and eighty thousand acres consisting of existing units of the National Wildlife Refuge System specified in this paragraph and an addition thereto of approximately four hundred and sixty thousand acres of other public lands, as generally depicted on a map entitled "Alaska Maritime National Wildlife Refuge", dated April 1978, which shall be managed to maintain the wilderness character and diversity of natural values of the area and also for the following purposes, among others: to protect internationally significant marine birds, other migratory birds, marine mammals, and the land, water, and other marine resources on which they rely; to perpetuate other indigenous fish and wildlife resources of the coastal marine environment; to provide for national and international research on marine resources; to provide the opportunity for continuation of the traditional subsistence uses of local residents; to protect archaeological resources; and to participate in cooperative management programs with adjacent landowners. The Alaska Maritime National Wildlife Refuge shall consist of the public lands of the following specifically described units consisting of named and unnamed islands, islets, rocks, reefs, designated headlands, capes, and spires in the coastal water and adjacent seas of Alaska:

(A) Chukchi Sea unit—including Cape Lisburne, Cape Thompson, and the existing Chamisso National Wildlife Refuge;

(B) Bering Sea unit—including the existing Bering Sea National Wildlife Refuge, Hagemeister Island, Fairway Rock, Sledge Island, Bluff Unit, Besboro Island, Punik Islands, and Egg Island, and all other such public lands;

(C) Aleutian Islands unit—including the existing Aleutian Islands and Bogoslof National Wildlife Refuges, and all other public lands in the Aleutian Islands;

(D) Alaska Peninsula unit—including the existing Simeonof and Semidi National Wildlife Refuges, and all public lands on islands, islets, rocks, reefs, spires, spits and capes south of Katmai National Park to False Pass; and

(E) Gulf of Alaska unit—including the existing Forester Island, Hazy Islands, Saint Lazaria, and Tuxedni National Wildlife Refuges, the Barren Islands, Latax Rocks, Harbor, Pye, Middleton, Granite, and Chiswell Islands, and all islands, islets, rocks, reefs, spires, spits, and capes and submerged public lands surrounding Kodiak and Afognak Islands and all other similarly located offshore public lands (except lands within the National Forest System), including any such public lands reserved for purposes of classification under section 17(d)(1) of the Alaska Native Claims Settlement Act.

(2) Alaska Peninsula National Wildlife Refuge containing approximately one million eight hundred and eighty-two thousand acres of public lands, as generally depicted on map entitled "Alaska Peninsula National Wildlife Refuge", dated April 1978, which shall be managed to maintain the wilderness character and the diversity of natural values of this area and also for the following purposes, among others: to perpetuate the Alaska Peninsula caribou herd, significant brown bear, moose, sea otter and other marine mammal populations, American bald eagles, peregrine falcons, shorebirds, waterfowl, and migratory birds; to maintain supporting habitat including spawning habitat for salmon and sport fish species; to maintain adequate water quality and quantity; to preserve the free-flowing nature of numerous rivers and streams; to protect geologic features, including active volcanoes, Pavlov Mountains, Nelson Lagoon, coast-

lines; to provide opportunities for scientific research and interpretive and environmental education uses and fish and wildlife oriented recreational uses; to provide the opportunity for continuation of the traditional subsistence uses of local residents; and to participate in cooperative management programs with adjacent landowners.

(3) Copper River National Wildlife Refuge—The Copper River National Wildlife Refuge shall consist of the approximately one million two hundred thousand acres of public lands generally depicted on the map entitled "Copper River National Wildlife Refuge", dated April 1978, which shall be managed to maintain the wilderness character and the diversity of natural values of the area and also for the following purposes, among others: to perpetuate the internationally significant waterfowl, shorebirds, other migratory birds, and mammal populations utilizing the lands and waters of the area; to protect salmon migration and spawning habitats; to maintain other fish resources and wildlife populations and their supporting habitats; to maintain natural water quality and quantity; to provide opportunities for scientific research and interpretive and environmental education uses and fish and wildlife oriented recreation uses; to protect wilderness and scenic qualities; and to participate in cooperative management programs with adjacent landowners.

(4) Becharof National Wildlife Refuge, containing approximately one million ninety thousand acres of public lands, as generally depicted on a map entitled "Becharof National Wildlife Refuge," April 1978, which shall be managed to maintain the wilderness character and the diversity of natural values of the area and also for the following purposes, among others: to perpetuate significant brown bear, other large mammal, fishery, and migratory bird resources of the area; to protect the habitats supporting fish and wildlife populations, including the beardenning islands of Becharof Lake, and the unique geophysical characteristics of the area; to maintain adequate water quality and quantity; to provide opportunity for scientific research and interpretive and environmental education uses and fish and wildlife oriented recreational uses; to provide the opportunity for continuation of the traditional subsistence uses of local residents; and to participate in cooperative management programs with adjacent landowners.

(5) Innoko National Wildlife Refuge, containing approximately three million eight hundred and fifty thousand acres of public lands, as generally depicted on a map entitled "Innoko National Wildlife Refuge," dated September 1978, which shall be managed to maintain the wilderness character and the diversity of natural values of the area and also for the following purposes, among others; to perpetuate the nationally significant waterfowl, other migratory birds, furbearer, and mammal and fish populations and supporting habitats; to provide opportunities for scientific research and interpretive and environmental education uses and fish and wildlife oriented recreational uses; to protect historic values such as the Iditarod Trail; to provide the opportunity for continuation of the traditional subsistence uses of local residents; and to participate in cooperative management programs with adjacent landowners.

(6) Kanuti National Wildlife Refuge, containing approximately one million four hundred and twenty thousand acres of public land, as generally depicted on a map entitled "Kanuti National Wildlife Refuge", dated September 1978, which shall be managed to maintain the wilderness character and the diversity of natural values of the area and also for the following purposes, among others: to perpetuate nationally significant migratory waterfowl, other migatory birds, furbearer and mammal populations utilizing the lands and waters of the area; to protect the geologic features, including Sithylenkat Lake and the Kanuti Canyon; to provide opportunities for scientific research and interpretive and environmental education uses and fish and wildlife oriented recreational uses; to maintain adequate water quality and quantity; to provide the opportunity for continuation of the traditional subsistence uses of local residents; and to participate in cooperative management programs with adjacent landowners.

(7) Kodiak National Wildlife Refuge, consisting of all public lands within the existing Kodiak National Wildlife Refuge, generally depicted on a map entitled, "Kodiak National Wildlife Refuge," dated September 1978, which shall be managed to maintain the wilderness character and the diversity of natural values of the area and also for the following purposes, among others; to perpetuate the significant fish and wildlife of the refuge, including Kodiak brown bears, salmon, marine mammals, and migratory birds.

(8) Koyukuk National Wildlife Refuge, containing approximately three million five hundred and thirty five thousand acres of public lands, as generally depicted on a map entitled, "Koyukuk National Wildlife Refuge", dated September 1978, which shall be managed to maintain the wilderness character and the diversity of natural values of the area and also for the following purposes, among others: to perpetuate nationally significant waterfowl and other migratory bird and fish resources utilizing the lands and waters of the area; to maintain significant furbearing and other mammal populations and supporting habitats; to protect the Nogahabara Dunes as a unique ecological feature; to provide opportunities for scientific research and interpretive and environmental education uses and fish and wildlife oriented recreational uses; to maintain adequate water quality and quantity; to provide the opportunity for continuation of the traditional subsistence uses of local residents; and to participate in cooperative management programs with adjacent landowners.

(9) Nowitna National Wildlife Refuge, containing approximately one million five hundred and sixty thousand acres of public lands, as generally depicted on a map entitled "Nowitna National Wildlife Refuge", dated April 1978, which shall be managed to maintain the wilderness character and the diversity of natural values of the area and also for the following purposes, among others: to perpetuate the nationally significant waterfowl, other migratory bird, and mammal populations utilizing the lands and waters of the area; to maintain fish resources and wildlife populations and supporting habitats; to maintain natural water quality and quantity; to provide opportunities for scientific research and interpretive and environmental education uses and fish and wildlife oriented recreational uses; to provide the opportunity for continuation of the traditional subsistence uses of local residents; and to participate in cooperative management programs with adjacent landowners. That segment of the Nowitna Wild River, as established by this Act, which lies outside of the refuge, shall be managed as part of the refuge.

(10)(A) Selawik National Wildlife Refuge, containing approximately two million one hundred and fifty thousand acres of public lands, as generally depicted on a map entitled "Selawik National Wildlife Refuge", dated September 1978, which shall be managed to maintain the wilderness character and the diversity of natural values of the area and also for the following purposes, among others: to protect habitat for, and populations of, migratory birds, shee fish, caribou, and other fish and wildlife utilizing lands and waters within the area; to provide opportunities for scientific research and interpretive and environmental education uses and fish and wildlife oriented recreational uses; to maintain natural water quantity and water quality; to protect archaeological and paleontological resources; to provide the opportunity for continuation of the traditional subsistence uses of local residents; and to participate in cooperative management programs with adjacent landowners.

(B) Subject to such reasonable regulations as the Secretary may prescribe, reindeer grazing, including necessary facilities and equipment, shall be permitted within existing grazing lease units in the refuge.

(C) The Selawik River shall be managed as a wild river from its headwaters to the Kugarak River.

(11) (A) Tetlin National Wildlife Refuge, containing approximately seven hundred and sixty-five thousand acres of public lands, as generally depicted on a map entitled "Tetlin National Wildlife Refuge", dated September 1978, which shall be managed to maintain the wilderness character and the diversity of natural values of the area and also for the following purposes, among others: to perpetuate and provide habitat for internationally significant migratory birds which utilize the area as well as all other forms of fish and wildlife; to maintain water quality and quantity; to provide the opportunity for continuation of the traditional subsistence uses of local residents; to provide a variety of opportunities for scientific research and interpretive and environmental education uses; and to participate in cooperative management programs with adjacent landowners.

(B) Regardless of any requirement that a study be conducted of areas within the Tetlin National Wildlife Refuge in accordance with sections 3(c) and 3(d) of the Wilderness Act: the Secretary may authorize and grant a right-of-way for a pipeline and other facilities that may be required pursuant to section 9 of the Alaska Natural Gas Transportation Act of 1976.

(12) Yukon Flats National Wildlife Refuge containing approximately ten million and ten thousand acres of public lands, as generally depicted on a map entitled "Yukon Flats National Wildlife Refuge", dated October 1978, which shall be managed to maintain the wilderness character and the diversity of natural values of the area and also for the following purposes, among others: to perpetuate internationally significant waterfowl and other migratory bird resources that utilize the lands and waters of the Yukon Flats; to protect salmon migration and spawning habitats; to maintain mammal populations and supporting habitats; to provide opportunities for scientific research and interpretive and environmental education uses and fish and wildlife oriented recreational uses; to maintain adequate water quality and quantity; to protect the watershed values of the Hodzana Uplands and the White Mountains; to provide the opportunity for continuation of the traditional subsistence uses of local residents; and to participate in cooperative management programs with adjacent landowners.

Sec. 305. The following units of the National Wildlife Refuge System are hereby expanded or redesignated:

(1) Arctic National Wildlife Range by the addition of an area containing approximately nine million, nine hundred thousand acres of public lands, as generally depicted on a map entitled "Arctic National Wildlife Refuge," dated April 1978, which shall be managed to maintain wilderness character and the diversity of natural values of the area and also for the following pur-

poses, among others: to maintain the environmental integrity of the area for use by the internationally significant population of caribou and migratory birds; to perpetuate other migratory and resident fish and wildlife populations and their habitats; to protect representative Arctic life zones and the natural character of these habitats; to provide opportunities for scientific research and interpretive and environmental education uses and fish and wildlife oriented recreational uses to maintain natural water quality and quantity; provide the opportunity for continuation of the traditional subsistence uses of local residents; and to participate in cooperative management programs with adjacent landowners.

(2) Cape Newenham National Wildlife Refuge by addition of an area containing approximately three million, one hundred thirty-five thousand acres of public lands, as generally depicted on a map entitled "Togiak National Wildlife Refuge", dated May 19, 1978; furthermore, the Cape Newenham National Wildlife Refuge is hereby redesignated the Togiak National Wildlife Refuge which shall be managed to maintain wilderness character and the diversity of natural values of the area and also for the following purposes, among others: to perpetuate the significant marine bird and mammal, migratory bird, and fishery resources of the mountain, river, and marine habitats of the Togiak area; to restore large mammal populations historically inhabiting the area; to protect the watershed of Bristol and Kuskokwim Bays; to maintain natural water quality and quantity; to provide opportunities for scientific research and interpretive and environmental uses and fish and wildlife oriented recreational uses; and to provide the opportunity for continuation of the traditional subsistence uses of local residents, and to participate in cooperative management programs with adjacent landowners.

(3)(A) Clarence Rhode National Wildlife Range and Hazen Bay and Nunivak National Wildlife Refuges by the addition of an area containing thirteen million, eight hundred and fifty thousand acres of public lands, as generally depicted on a map entitled "Yukon Delta National Wildlife Refuge", dated April 1978; furthermore, the Clarence Rhode National Wildlife Range and Hazen Bay and Nunivak National Wildlife Refuges are hereby redesignated as specified units of the Yukon Delta National Wildlife Refuge which shall be managed to maintain wilderness character and the diversity of natural values of the area and also for the following purposes, among others: to perpetuate the internationally significant migratory bird, marine mammal, fish, and wildlife resources utilizing the lands and waters of the Yukon-Kuskokwim Delta and Andreafsky Hills area and habitat supporting fish and wildlife oriented recreational uses, to maintain adequate water quality and quantity; to provide the opportunity for continuation of the traditional subsistence uses of local residents; and to participate in cooperative management programs with adjacent landowners.

(B) Subject to such reasonable regulations as the Secretary may prescribe, reindeer grazing, including necessary facilities and equipment, shall be permitted in the refuge within areas which are, and in a manner which is, compatible with the major purposes of the refuge set forth in section 302 (1) and (2).

(C) The Secretary shall administer the refuge to assure the continuation of commercial fishing activities on the Yukon and Kuskokwim Rivers and their tributaries.

(4) Izembek National Wildlife Refuge. (A) The significant fish and wildlife resources of the Izembek National Wildlife Range (hereby redesignated as the Izembek National Wildlife Refuge), are migratory birds, brown bears, and salmonoids. Izembek Lagoon is a special feature of the refuge.

(5) Kenai National Wildlife Refuge, by addition of approximately two hundred and fifty thousand acres of public lands, as generally depicted on a map entitled "The Kenai National Wildlife Refuge," dated April 1978; furthermore, the Kenai National Moose Range is hereby redesignated the Kenai National Wildlife Refuge which shall be managed to maintain the wilderness character at designated wilderness areas within the refuge and the diversity of natural values of the area and also for the following purposes, among others: to perpetuate a nationally significant population of moose and the habitat and population of indigenous mammal, waterfowl, other migratory and nonmigratory bird, and fishery resources; to maintain adequate water quality and quantity; to protect the recreational values of the Swan Lake-Swanson River canoe system; to provide land management training opportunities for the public, and to provide opportunities for scientific research and interpretive and environmental education uses and fish and wildlife oriented recreational uses.

BARREN-GROUND CARIBOU STUDY

SEC. 306. The Congress finds that barren ground caribou are a migratory species deserving special protection and that the Western Arctic and the Porcupine herds of such caribou are of national and international significance. The Secretary shall conduct, and the Governor of Alaska is urged to cooperate with the Secretary in conducting an ecological study of the barren-ground caribou herds north of the Yukon River including, but not limited to, a determination of the seasonal migration patterns, reproduction and mortality rates, and habitat use (particularly calving grounds) that are critical to their natural stability and continued productivity, and the effects on the herds of development by man, predation, and disease. The Secretary, acting through the Secretary of State and in consultation with the Governor, shall initiate negotiations with the Government of Canada as soon as possible for the purpose of entering into a treaty to protect the Porcupine caribou herd and its habitat.

BALD EAGLE STUDY

SEC. 307. The Congress finds that the bald eagle is a migratory species deserving special protection and that the Chilkat River population of such eagles is of great national and international significance. The Secretary shall conduct and the Governor of Alaska is urged to cooperate with the Secretary in conducting a study of the bald eagles of the Chilkat River in order to determine habitat use (including nesting, roosting and feeding areas), and seasonal movement patterns that are critical to their natural stability and continued productivity, and the effects of human development and natural disease. The study should provide for the preparation and implementation of a comprehensive and systematic management plan agreed to by the United States and the State—

(1) To conserve bald eagles, fish, and other wildlife within the region;

(2) To ensure that any use within the region is carried out in a manner compatible with the conservation of such eagles, fish, and other wildlife; and

(3) To provide for such exchange of land among the Federal Government, the State, and other public or private owners or the purchases of land by the Federal Government to facilitate the carrying out of paragraphs (1) and (2).

ILIAMA RESTRICTIONS

SEC. 308. With respect to the area of the Iliama watershed, described as those lands and waters generally depicted on the map numbered FWS 71-00-1601 and dated March 1978, which map shall be on file and available for public inspection in the Office of the Director, United States Fish and Widlife Service and Alaska offices of the Secretary, it is the express intent of the Congress that the lands and waters be permanently retained in State and federal ownership and be managed for the protection of watershed and fish and wildlife habitat. The Secretary is authorized to enter into a cooperative agreement with the State of Alaska so that the United States and the State may effectively coordinate the management of their lands in this area for such purposes. Except for those lands to which State is entitled pursuant to Public Law 89 Stat. 1145, all Federal lands within such area are hereby withdrawn from further selection by the State under the Alaska Statehood Act, under the Alaska Mental Health Enabling Act, or under the Act of March 4, 1915 (38 Stat. 1214), and the Secretary shall not make any conveyance of such lands to the State unless and until he determines that the State, by appropriate legislation has authorized, and is ready, willing, and able to implement, a plan for protection and management of the watershed and the fish and wildlife resources consistent with the intent of the Congress expressed above. Federal lands within such area shall not be conveyed to the State except for the purpose of exchanging under the provisions of section 1201(f) State lands located within the external boundaries of conservation systems units. If the Secretary thereafter finds that the management and use of the area is inconsistent with such intent of Congress, and following notice in writing to the Governor and a ninety-day period thereafter in which to correct such management and use, he may establish by appropriate order one or more units of the National Wildlife Refuge System within the area referred to on such map.

MISCELLANEOUS PROVISIONS

SEC. 309. All proclamations, Executive Orders, public land orders, and other administrative actions in effect on the day before the date of the enactment of this Act with respect to units of the National Wildlife Refuge System in the State shall remain in force and effect except to the extent that they are inconsistent with this Act or the Alaska Native Claims Settlement Act, and, in any such case, the provisions of such Acts shall prevail. All public land within the boundaries described or depicted in any such action shall, if the unit of the National Wildlife Refuge System concerned is incorporated within any refuge established or redesignated by section 304, be included within such refuge.

(2) All funds available on such date of enactment for administration of any refuge shall remain available for the administration of such refuge.

NOTICE OF HEARING

SUBCOMMITTEE ON CITIZENS AND SHAREHOLDERS RIGHTS AND REMEDIES

● Mr. METZENBAUM. Mr. President, the Subcommittee on Citizens and Shareholders Rights and Remedies, of the Committee on the Judiciary, will hold 2 days of hearings, November 21 and November 22, 1978, on the impact of pension fund investment policies on individual contributors. The hearings will begin at 9 a.m., in room 2228, Dirksen Senate Office Building, on both days.●

INDIAN OCEAN NAVAL ARMS LIMITATION

Mr. BARTLETT. Mr. President, Great Britain's 1968 announcement that it would divest itself of holdings east of the Suez signaled the end of 300 years of British control of the Indian Ocean. At the time, many analysts feared that the superpowers would rush into the re-

sulting power vacuum, thus creating a spiraling naval arms race.

The Soviet Union seemed to confirm these apprehensions when it dispatched a naval squadron to the Indian Ocean in March of that same year. The squadron called on 10 ports in eight countries around the littoral. Moreover, calls at Bombay and Madras in India initiated an Indo-Soviet naval relationship which enhanced Soviet influence in the Indian Ocean. Even though relations between New Delhi and Moscow have cooled since the downfall of Indira Gandhi, the Soviets still remain visible and active.

Russian interest in the Indian Ocean region has a long history. The quest for warm water ports with direct access to a major ocean predates the Communist revolution and was reflected in the last century by an intense Anglo-Russian rivalry in the Near East and South Asia. The value of a warm water port was illustrated by the Allied supply effort in World War II. An arms pipeline to the Soviet Union from the Indian Ocean, crossing Iran, proved vital to the Russian war effort. Indeed, a post-World War II Soviet occupation of part of Iran was ended only after great pressure from the United States and Great Britain.

From that time to the present, the United States has maintained its Middle East Force in the Indian Ocean as a political and military symbol of American interest and resolve in the area. That force consists of a flagship and two destroyers, a feeble armada at best when considering the size and importance of the Indian Ocean.

The United State has two major goals in the Indian Ocean area; namely, guaranteeing the supplies of petroleum upon which the industrial West stakes its livelihood and maintaining peaceful relations with the nations on the littoral so that our many interests will not be endangered.

Since the 1973 oil embargo, Mideastern oil has been the major issue focusing American attention on the Indian Ocean. Thirty-five percent of the oil we consume travels the cape route, around the southern tip of Africa. In the same manner, 62 percent of French industry's energy demands are met by Mideastern oil as are 50 percent of Germany's energy requirements. Via sealanes to the east and through the Malaccan Straits, Japan, the world's third largest industrial nation, receives 70 percent of her energy requirements.

The Russian Navy and especially land-based Soviet Naval Aviation (SNA) are a major threat to Western oil sources in the Persian Gulf. Since Britain's announced divestiture in 1968, Soviet ship days in the Indian Ocean have increased fourfold relative to the U.S. naval presence. More recently, the U.S.S.R. has deployed the Backfire bomber with its Navy. In the last decade, the Soviet Union has enjoyed close relations with India, Iraq, South Yemen, Libya, Ethiopia, Somalia, and Mozambique. Somalia has, for the time being, left the Soviet fold, and Indo-Soviet relations are less warm. However, the Soviet Navy has been able to acquire supplemental anchorages at Socotra, Mauritius, and the Seychelles which have somewhat ameliorated the loss of their base at Berbera in Somalia.

There can be no doubt of the Soviet Union's interest in the Indian Ocean area. Soviet objectives in the Indian Ocean and its littoral appear to be to establish a shipping outlet to the south to undermine Western influence, to isolate the Chinese, to exclude U.S. military forces, particularly strategic nuclear forces, to support friendly regimes and revolutions, and to obtain leverage against Western oil sources.

Since 1968, the Soviet Union has maintained a naval presence in the Indian Ocean virtually on a permanent basis. The presence includes some 6 to 10 surface combatants, 1 or 2 submarines and perhaps a dozen supply and auxiliary vessels. Clearly, this force, even though it is less than the French naval detachment in the Indian Ocean, has a considerably greater capability than our token Middle East Force.

Therefore, at regular intervals the Pacific 7th Fleet has dispatched a supplemental force, often in the form of a carrier with escorts to conduct maneuvers in the Indian Ocean. In certain crisis situations, such as the Indo-Pakistani War in 1971 and the Yom Kippur War of 1973, a special carrier detachment was dispatched in the event that American leverage might work to end hostilities. It is interesting to note that, in response to each American increase, the Soviet Union increased its own naval deployment. This behavior by the Soviets is consistent with what has plainly become Soviet naval strategy, sea denial in opposition to our Navy's force projection and sea control.

In 1977, the United States and the Soviet Union began negotiations designed to limit their military forces in the Indian Ocean. These talks reflect the fact that, after 10 years of cautious maneuvering, each superpower realizes that limiting the military activities of the other may be as useful as gaining an advantage through intense naval competition in the region.

Proposals for an Indian Ocean agreement have come in two basic forms Those favoring total demilitarization of the Indian Ocean and those calling for a negotiated ceiling for naval forces in the area.

The issue of a demilitarized "zone of peace" in the Indian Ocean was brought before the United Nations in 1971. The proposal failed to deal with the geopolitical realities of the Middle East, and there were 60 abstentions on the vote, all coming from nations who possessed substantial navies or had significant security interests in the area. Given the historical instability of the Middle East and the considerable national security interests which are at stake for industrial nations, it would be folly for a nation not to give itself the option of protecting those interests. Certainly, it has been clear that our friends in the Middle East and South Pacific want us to maintain some presence. In fact, there are many indications that the current governments of Indian and Sri Lanka which formerly opposed any American naval presence may now favor some such presence.

It was with great dismay, then, that most political observers viewed the 1977 announcement by President Carter that he favored a completely demilitarized Indian Ocean. To the great relief of many, Mr. Carter altered that proposal 1 week later and announced a desire to "seek to establish Soviet willingness to reach agreement with us on mutual military restraint in the Indian Ocean." That is basically the status at present; the United States and Russia looking to bilateral negotiations, in which the goals and strengths of each will be bargained against those of the other.

Naturally, the advantages that either side possess in this matter will characterize the bargaining position assumed. In the view of most observers, debate will center on bases such as U.S. operated Diego Garcia and a ship count formula based on the type of ship and its length of stay in the Indian Ocean.

The issue of Diego Garcia has been discussed in this Chamber before and most of my colleagues should be familiar with its history. It was leased from Great Britain with the intention of establishing a facility to counter the growing permanent Soviet presence in the Indian Ocean. First as a communication station and now as a logistics support base, the acquisition and improvement of Diego Garcia can be heralded as one of America's few positive strategic decisions in recent years.

The tremendous strategic value of Diego Garcia lies in its location in the Indian Ocean. It lies centered, and relatively equidistant to all major land masses on the littoral. India lies nearest, 1,000 miles to the north, Somalia is 1,800 miles to the west northwest and Australia lies 3,000 miles to the east. Obviously the location lends this single facility tremendous flexibility in meeting emergency situations that might occur over the broad expanse of an entire ocean. Unfortunately, it is still 2,200 miles from the Persian Gulf and the Horn of Africa and, therefore, is less able to influence events there than are Soviet facilities with "Main Street" locations such as Ethiopia.

When the current phase of construction is completed, Diego Garcia will be equipped with a 12,000-foot runway, fuel storage, and will be capable of admitting fleet warships. It will have logistics support facilities able to extend the life of a carrier force on maneuvers in the Indian Ocean by 30 days.

Naturally, the Soviet Union has repeatedly expressed its displeasure over the presence of American naval forces at Diego Garcia and will surely seek our withdrawal in arms limitation negotiations. This is particularly true since the Soviets lost their multipurpose base at Berbera, Somalia.

During my 1975 visit to the Soviet base at Berbera, I found abundant evidence of major Soviet military capability. Facilities included an improved runway able to accommodate combat aircraft, a deepwater port, troop barracks, and missile storage buildings. The Soviet Union has not yet been able to establish

a base of similar magnitude elsewhere in the littoral, but the activities once at Berbera are being continued elsewhere in the region. And one should also remember that the matter of Berbera is not closed. Somalia may yet be returned to the Russian fold.

In future negotiations, the value of Diego Garcia cannot be underestimated. It is a bargaining chip that should not be easily surrendered. The base already exists and its removal via negotiations or by an altruistic unilateral move could be dangerous. Such a move might be taken as signaling a lack of resolve on the part of the United States and might encourage further Soviet increases in the Indian Ocean, or in Africa and the Near East. Second, in light of the withdrawal of the Middle East Force from Bahrain, that American flotilla will have no permanent basing. Without Diego Garcia, American presence along the Indian Ocean sealanes would seem but a fleeting memory. Third, the current facility at Diego Garcia lends itself to efficiency and economy in military deployments. Finally, the base's greatest value lies in its potential uses. Due to the instability of the Indian Ocean area, it is highly desirable for the interests of the industrial West to have a military facility of guaranteed permanence.

There is a third phase to the development of Diego Garcia—its development into a multipurpose base with a troop staging capability. I would suggest that this development be continued. Although, at present there are great diplomatic advantages to using the base as little as possible, its potential should be developed both as a bargaining chip and as a needed capability.

A formula to determine allowable ceilings for vessel deployment is certain to be the other major issue in future negotiations. In this matter, a compromise between ship days and ton days per year will be the key to an equitable ceiling.

An aircraft carrier, when present, clearly gives the military advantage to U.S. forces in the Indian Ocean. It would be to our clear advantage, then, to argue for ceilings based on the ship days per year, or, the amount of time expended by "x" number of vessels in the Indian Ocean area during a year's time. A one-for-one ceiling equating an American aircraft carrier with a Soviet destroyer would weight an agreement in our favor. However, the Soviets would undoubtedly reject this. The Soviets can be expected to seek either a ban on aircraft carriers, or in lieu of a carrier ban, deployment ceilings founded on a ton-day basis.

A ton-day formula if applied identically to both sides, might well preclude the dispatch of an American carrier to the Indian Ocean. An 80,000-ton Nimitz-class carrier, spending 30 days in the Indian Ocean, would have an equivalent ton-day rating as a Kresta II missile cruiser spending 11 months. This proposal would obviously favor the Soviet Union, in terms of its visibility and intelligence gathering abilities.

A third general area certain to be discussed is that of verification of any treaty agreements. The Soviets are likely to seek a complete ban on submarines. Such a provision would be extremely difficult to verify, particularly by "national technical means."

Also, the Soviet Union has argued that state owned fishing vessels and space event support ships (SESS) should be exempted from any military vessel count. Nevertheless, there is no doubt that such vessels also perform military duties. An intelligence gathering and/or antisubmarine warfare (ASW) capacity is included in many Soviet vessels whose outward appearance is ostensibly civilian in nature. Not to count such veiled military or paramilitary activities in an agreement relating to military ceilings would be a severe oversight on our part.

Mr. President, there are other factors relating to any future negotiations which in time will carry significant weight in the equity of an Indian Ocean agreement: The definition of the area involved; the matter of a nuclear free zone; the question of arms supply to littoral states; the counting of other western naval forces; protocol arrangements; and even such issues normally confined to the strategic arena, such as the Backfire bomber or our cruise missiles, are bound to be discussed in negotiations on arms limitations in the Indian Ocean.

According to former Adm. Elmo Zumwalt, "The Indian Ocean has become a region where the risk of seeing important changes in the balance of power in the next 10 years is greatest." I believe he is correct. Our negotiators at any future Indian Ocean arms limitation talks must not jeopardize our national security interests in this important region.

ALL-VOLUNTEER FORCES AND DOD MINUTEMAN STUDY

Mr. BARTLETT. Mr. President, with the end of the draft in 1973, the United States initiated the grand experiment of trying to raise and maintain a peacetime military of 2.1 million persons through voluntary service. Since then, endless studies of the successes and failures of the All-Volunteer Forces (AVF) have been conducted. As might be expected, findings concerning the performance and quality of recruits in the field vary in their conclusions. This is to be expected, because quality is often a subjective determination and measures of performance have changed.

However, studies concerning the ability of AVF to get numbers have consistently emphasized one major problem, namely, a consistent inability to fill the ranks of both the active duty and Reserve units and Reserve manpower pools. Numerical projections for the AVF into the eighties are worse, even to the point of forecasting the demise of the whole All-Volunteer Force system.

Because manpower turnover rates have significantly increased in the AVF, as many as 400,000 new recruits are needed annually instead of the originally projected 265,000. As of April 1977, the Army and Navy had consistently fallen 12,000 and 15,000 short of their respective congressionally authorized manpower levels which, in turn, have been lower. The Selected Reserve, containing those Reserve units which would mobilize first in the event of war, are 72,000 below their authorized floor. In the Individual Ready Reserve (IRR), the primary reserve pool of trained personnel, the situation is much worse. The Army alone is 276,000 below mobilization levels.

The AVF is failing to recruit a representative cross section of American social strata. In 1977, only 44 percent of those persons enlisting in the Army held high school diplomas, compared to 75 percent of the civilian population and 67 percent in the group of civilian unemployed of the same age. An estimated 35 percent of new inductees into the Army are either black or Hispanic, with another trend showing the proportion of black high school graduates exceeding that of whites. Clearly, these figures highlight a situation which is most undesirable. The fact that the Army's ranks are progressively being filled by relatively less educated recruits and a disproportionately high number of minorities raises concerns both about our military capabilities and social justice.

Clearly the problem lies in the AVF not being able to compete even in the best of times with the private sector for a sufficient number of qualified recruits. And in the next 10 years demographics and the economy do not promise to be as accommodating to the All-Volunteer Force.

From 1973 to 1976, active duty manpower declined by 200,000. The population of 18- to 24-year-olds grew by 2 million, unemployment grew from 5.6 to 8.3 percent (with teenage unemployment over 20 percent) and military pay rose significantly. However, by 1990, the 18- to 24-year-old population will drop by a half million, economic forecasts for the mid-1980's expect a decline in unemployment with corresponding drops in the unemployment rate for teenagers, and businesses will continue to open opportunities for minorities and women.

Where now the AVF currently needs to attract one in three "qualified and available" male youths, by the mideighties the AVF will be faced with recruiting one out of every two to meet its needs. Monetary incentives can no longer be expanded, and any further reduction of standards for admission would certainly spell disaster for the AVF and raise valid questions of performance and ability. Increased funding and improved efficiency of the recruiting effort will not be able to meet this challenge.

In my opinion, the demise of the AVF is a foregone conclusion unless we try a wholly new approach which might produce a significant turnaround.

I would like to outline one such approach being investigated in the Minuteman studies which are being conducted by the Department of Defense.

The proposal I have in mind would offer paid basic training to young men and women during the summer between their junior and senior years of high school, or during the summer immediately after graduation. In exchange, each individual would take on an obligation to

remain in the Individual Ready Reserve for 6 years. The Individual Ready Reserve is simply a list of civilians with military obligations who could be called to service in the event of war. No reserve unit training is involved although members of the Individual Ready Reserve can volunteer for active duty or reserve unit assignment. Minuteman program modifications such as refresher training, advanced training, and even promotion incentives might also be considered if early pilot projects proved successful.

The Minuteman approach offers a number of significant advantages to current programs, which would work to the benefit of the All-Volunteer Force and the recruit. Most importantly, the Individual Ready Reserve would possess a pool of trained manpower ready to augment Active and Reserve units if needed. This pool of standy reservists would fill the major crisis, before the slow-moving machinery of a reconstructed draft could be engaged.

To the young recruit, the capacity not to be frozen into a 2-year active tour of duty or a 6-year assignment to a Reserve unit, would allay fears of premature restrictions or inflexibility in weighing career opportunities. Further, the Minuteman program would serve as a familiarization program, having the appearance of a paid summer vacation program for youth with a military flavor. This characterization would go a long way in helping students to overcome misconceptions about and adversity toward the military. In that manner, an indirect assist would be given to other recruiting programs.

The alternatives to the Minuteman study proposal, or other proposals offering fundamentally new approaches to recruiting, may not be quite so attractive. Extremely high recruiting costs, the return of the draft or universal military service are our other main options.

Mr. President, I would suggest that next year, while the All-Volunteer Force is still afloat, Congress should insist that novel approaches from the Minuteman studies be initiated as an experiment to see if the all-volunteer military can be made to work. Otherwise, the press of rapidly worsening demographic changes would compel the serious consideration of a national service program.

I do not believe a draft, other than as an interim standby program, will be adopted.

NEW ALCHEMISTS COME TO WASHINGTON

Mr. PERCY. Mr. President, the New Alchemists are a group of scientists dedicated to helping save humanity from certain of its less sensible devices. Since the organization's founding in 1970, this small banti of innovators and visionaries has worked to develop food and energy systems which are ecologically balanced and small in scale.

When New Alchemy first got underway, "appropriate technology" had yet to become a catchword in Government and public interest circles. Even among active environmentalists, interest in promoting local self-sufficiency was not widespread.

The energy crisis of 1973 resulted in a dramatic change in American public opinion. Faced with precipitously rising foreign oil prices and no readily available domestic substitute, policymakers and citizens began to recognize the grave liabilities of an energy policy so dependent on a single, largely nondomestic source of fuel. While some attention since 1973 has rightfully focused on augmenting our native supplies of fossil fuels, many Americans have begun to see the need for more fundamental changes in our resource management policies. Research, development, and commercialization of technologies using renewable sources of energy have become a priority.

Accompanying the interest in renewable energy sources has been a growing awareness of the important role which locally based, and even household-scale resource planning can play. We have awakened to the advantages of neighborhood-scale energy schemes such as industrial cogeneration, small-scale hydroelectric plants, wind generators, solar systems, and energy conservation.

Groups such as the New Alchemists can be of great help to policymakers and concerned citizens. Whereas decentralized, renewable resource planning is a new field to most Americans, John and Nancy Todd and their coworkers at New Alchemy have been building experiments along these lines for nearly a decade. They have research institutes on Cape Cod and Prince Edward Island, Canada, and an experimental farm in Costa Rica.

The Prince Edward Island experiment is located in a northern climate, where year-round agriculture is difficult and energy needs for heating are considerable. Heating accounts for about 55 percent of Canada's energy consumption.

In this rather inhospitable setting, the New Alchemists have built an "ark"—a fitting name for a structure which provides most of the energy and food needs of its inhabitants. The ark is a single, large building which contains a family-sized residential unit, a vegetable greenhouse, an indoor fishery, a tree nursery, a waste purifying system, a small barn, and a research laboratory.

Even in the coldest winter months, a passive solar system provides most of the necessary heating for the ark. As sun streams into the south-facing greenhouse areas, much of its heat is captured by water contained in vertical fiber glass cylinders—20,000 gallons in all. Once trapped in the water, the solar heat gradually escapes into the indoor atmosphere.

A windmill generates electricity for the ark, and also supplements the local utility network. When the wind is weak, the building draws power from the island utility. When the wind is strong, the ark feeds its surplus electricity into the local grid.

The New Alchemists are also working on plans for village-scale "bioshelters." These units would operate according to the same principles of ecological balance and resource self-sufficiency as the ark, but their scale would be larger. John Todd suggests that a village bioshelter could provide part of its winter heating needs by capturing summer sun in large, well-insulated solar ponds.

The village bioshelter concept will be the subject of a colloquium here in Washington, on October 23. At this meeting, New Alchemy's codirector, John Todd, will discuss possible solar village designs. The meeting will be held at the Appalachian Regional Commission, 1028 Connecticut Avenue NW., in the fifth floor conference room. For more information, call J. B. Bleckley at 673–7822.

This meeting, sponsored by the Friends of Appropriate Technology, promises to be interesting and informative.

SELECTION OF THE NEW POPE

Mr. PERCY. Mr. President, as the College of Cardinals prepare to meet Sunday for the second time within a 2-month period to select a new Pope, and as one of the representatives of the largest Archdiocese in the United States, I want to share with my colleagues my thoughts concerning this upcoming selection that has great significance and meaning for the entire world.

It was truly a sad day for all the world when Pope John Paul passed on during his short, yet promising reign. Every act of his 34-day pontificate won more hearts and worked to unite the diverse Catholic community that has been struggling with change and tradition for the last two decades.

With his contagious smile and spontaneous joy, he embodied a new warmth and respect for that position. He spoke so all could understand him—young and old alike. And he removed the shackles of protocol that he felt kept the Pope from being close to the people.

Simply by watching him on television—which helped all of us to experience John Paul's warm and folksy manner—I felt, as millions did, that he was the uniquely right person to head the Roman Catholic Church.

He combined the most outstanding characteristics of the previous two Popes—such as John XXIII's warmth and love and Paul's VI's utter devotion to world peace. Yet, John Paul possessed a saint-like quality all his own.

The wisdom of the Cardinals in selecting a man rich in pastoral experience is an enlightening sign and proved to be John Paul's most respected quality.

I sincerely hope that such characteristics and qualities can be found in the next Pope. Subsequently, as the bridge between change and tradition, he will fulfill the dreams that the faithful had hoped for Pope John Paul.

The Roman Catholic Church is one of the most enduring institutions in the history of mankind. To Catholics and non-Catholics alike, this institution is a symbolic pillar of strength. It has survived tumultuous times and challenges to its tradition and beliefs from within. While millions of people look to the pontiff for spiritual guidance, he is also considered an influential world leader, particularly in the area of world peace. And that is why the selection of the 264th Pope is of paramount importance to us all.

During this period of questioning and soul-searching it is the hope of many that the head minister of the world's 600

million Catholics not tip this delicate balance.

I know that as the College of Cardinals gather this week to select a new Pope, they will take into consideration the unique qualities Pope John possessed and are cognizant of the inspiration he gave to all mankind, Catholic and non-Catholic alike.

FIRST MEETING OF THE PRESIDENT'S COMMISSION ON THE COAL INDUSTRY

Mr. PERCY. Mr. President, on May 26, President Carter formed the President's Commission on the Coal Industry. He gave the Commission 1 year to prepare a report assessing the current state and future prospects of the coal industry.

In the months since its formation, the Commission has made considerable progress toward making that assessment. A diverse and committed group of 13 Commission members has been selected, and a highly capable staff is being assembled. The Commission is chaired by Gov. John D. Rockefeller IV of West Virginia, and includes myself and my distinguished colleagues, JENNINGS RANDOLPH and WALTER HUDDLESTON.

The Commission held its first meeting on September 29. That meeting was very successful, and will provide a firm foundation for future efforts. The meeting gave Commission members an opportunity to make general comments about our work, and to discuss a detailed outline of the issues which we expect to address in the coming months. We discussed our proposed hearing and site visit schedule, and decided to hold hearings in Charleston, W. Va., on October 20, and Denver, Colo., on October 26. Also, we were privileged to hear remarks from Mr. Robert Lipshutz, counsel to the President; Mr. Arnold Miller, president of the United Mine Workers; Mr. Joseph Brennan, president of the Bituminous Coal Operators Association (BCOA); and Mr. Stonie Barker, vice chairman of the BCOA.

The issues which we plan to address are among the most significant facing the coal industry today. They include labor relations, the impact of Federal regulations on the coal industry, the living conditions of miners and their families, and the outlook for coal and the future of the coal industry.

While the Commission will not limit itself to these issues, we believe that they should be the main focus of our efforts. We made a number of comments on and additions to the outline of those issues in our meeting, and we will probably continue to modify it somewhat in the future. We are eager to receive comments on it from the public, the industry, and its employees, and members of Government. I will include an unrevised draft of the outline at the end of this statement (Attachment I).

The enthusiasm of Commission members for the task ahead is striking. We all share Governor Rockefeller's desire to work diligently to produce a truly useful report, and to avoid becoming "just another commission." Governor Rockefeller's opening remarks at the meeting provide a good sense of the attitude of Commission members toward our work. I will include his comments at the end of this statement (Attachment II), together with the comments I made at the meeting (Attachment III).

In view of the relatively short period of time in which we have to prepare our report, I asked the Congressional Research Service of the Library of Congress to prepare a background study for the members of the Commission. That study has just been completed, and will be printed and made available in the near future. The study will provide Commission members with information on the issues referred to above, together with additional background information which may identify other problem areas requiring our attention. I wish to express my appreciation to CRS for the fine work they have done.

In sum, the Commission has identified in detail the areas where we believe we can make our most valuable contributions. The CRS study will provide a good starting point for our evaluation of those areas, and our hearings will put us in touch with public attitudes toward them. While our task will be difficult and potentially controversial, it is clear that the Commission has both the resources and the will to undertake it successfully.

Mr. President, I ask unanimous consent that Attachments I, II, and III referred to earlier be printed in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

ATTACHMENT I

SUGGESTED ISSUES TO BE ADDRESSED BY THE PRESIDENT'S COMMISSION ON THE COAL INDUSTRY

I. The outlook for coal and issues related to the future of the industry:

American coal reserves are vast. However, this coal is of varying quality, accessibility and distance from markets. The future of coal is not assured by its geological abundance but rather by:

cost relative to other fuels
dependability as a fuel resource
strategic considerations
new uses and markets

In assessing the outlook for coal and in providing an independent determination of the extent to which the United States reasonably should be able to rely on coal in meeting energy requirements, the Commission could:

1. Current assumptions: Review and assess existing energy supply and demand projections, with particular attention to their assumptions of the role of coal.

2. Strategic considerations: Review and assess the strategic considerations in decreasing dependence on foreign energy sources through increased coal production and utilization.

3. Technology: Review and assess the practicality of new coal uses and production methods given technical and economic realities.

4. World Market: Review and assess the competitive position and outlook of United States coal in the world market.

5. Cost factor: Review and assess the following factors as they affect the cost and, hence, future demand for coal as a competitive fuel:

(a) Capital requirements, availability and costs.

(b) Labor costs, productivity, and the availability of trained labor and management.

(c) Governmental regulations which affect the mining, transportation, and utilization of coal.

6. Transportation: Review and assess the adequacy of the transportation system required to support realistic coal utilization levels.

7. Dependability: Review and assess the relative dependability of coal as a factor in limiting demand.

8. Structure of industry: Review and assess the changing structure of the industry as it affects the efficiency of the industry, the price of coal, the competitive position of coal with respect to other fuels, and the future of the coal industry.

II. Labor relations issues:

A. Review and assess the history of labor relations in the coal industry compared with other major industries.

B. Review and assess changing labor force characteristics of the coal industry in comparison with other major industries.

C. Review and assess compensation patterns in the coal industry in comparison with other major industries.

D. Review and assess health and safety in the coal industry with other major industries.

E. Review and assess the role of and extent of labor management training programs in the coal industry in comparison with other industries.

F. Review and assess current grievance and arbitration procedures reinforcing what is already underway through seminars and training.

G. Review and assess the role of training programs in improving current and future relations between labor and management. Special emphasis could be given to:

1. Supervisory training in leadership skills and in contract administration.

2. Union officer and committeeman training in leadership skills and in contract administration.

3. Safety training, looking especially at joint efforts over the last two contracts.

H. Review and assess administrative impediments to the health care benefits program under the current Bituminous Coal Wage Agreement.

I. Undertake a review and assessment relating to:

1. Compensation Systems.
2. Supervisory Training.
3. Absenteeism.
4. Contract Administration.
5. Job Safety.

J. Review and assess issues relating to collective bargaining.

III. Living conditions of miners and their families:

The growth of coal production will bring increased pressure on existing coal communities in the Eastern areas and new rapid growth problems in the West. These new pressures are part of the social and human costs of coal expansion and influence the miner's attitude toward his work, his life, and his place in American society.

Commission work in this area could:

1. Review and assess the adequacy of housing opportunities:

Land availability.
Credit availability.
Construction availability.

2. Review and assess the adequacy of roads, transportation.

3. Review and assess the adequacy of water and sewer systems.

4. Review and assess the health, welfare, and social services in coal communities.

5. Review and assess the recreational and cultural opportunities.

6. Review and assess impacts on community strength and cohesion.

IV. Government regulations as they affect the production and use of coal:

More than thirty organizational units in at least twelve federal departments and agencies are engaged in activities affecting coal production, transportation and use.

The more important of those units and their program authorities are listed below:

Department or agency and regulatory/program authority:

Department of Energy: Conversion to coal use by utilities and industry through regulation. Leasing of publicly-owned lands (with Interior). Regulation of electrical utilities.

Department of Interior: Classification of public lands. Regulation of operations on leased coal lands. Regulation of surfacing mining. Regulation of surface effects of underground mining. Leasing and operations of publicly-owned mines (with DOE).

Department of Agriculture: Leasing and leasing operations on publicly-owned lands controlled by the Department (Forest Service).

Department of Labor: Regulation of coal mine health and safety (MHSA).

Environmental Protection Agency: Air quality standards and regulations. Water quality standards and regulations. Toxic materials regulations.

Corps of Engineers: Dredge and fill operations in navigable waters.

Interstate Commerce Commission: Regulation of railroads and coal slurry pipelines.

Not included in this list, but just as important, are branches of the Executive Office of the President which formulate and coordinate Administration policies (especially the Council on Environmental Quality which overseas compliance with statutory requirements for environmental impact statements under the National Environmental Policy Act); Department of Treasury (tax policy); Justice (antitrust and other litigation); and departments, agencies, or elements of these which comment upon environmental impact statements which may impact upon coal related federal actions.

Many now argue that the national price to be paid in terms of inflation, unemployment, declining productivity, and strategic dependence upon foreign sources of energy, requires a hard look at the cumulative impacts on the coal industry of federal policies, programs, procedures and regulations.

These impacts can be generally classified under one or more of the following categories:

1. Those intended to increase production and utilization of coal—such as research and development toward new uses or improved methods for existing uses, and regulatory policies which would force, or tax policies that would provide incentives for, existing users of other fuels to convert to coal.

2. Those which, because they increase the cost involved in the production, transportation, and utilization of coal—such as environmental standards under the Clean Air Act and Surface Mining Control and Reclamation Act—may affect its competitive position relative to other fuels.

3. Those which may cause excessive delays or uncertainties for potential users of coal—such as permit procedures for opening of mines or constructing electric generating facilities. While the delays may be translated into additional costs for using coal, the uncertainty of delay imposes an additional burden, which may in the end be more damaging than increased cost.

4. Those which mandate an outright ban on the production or use of coal.

With respect to the effect that public sector laws, regulations, incentives and disincentives have or may have on coal's potential as a future energy source the Commission could:

1. Review and assess the cumulative impact of government policy on the availability, cost, and use of coal as a future energy source.

2. Recommend, as appropriate, changes in laws, regulations, administrative structure and procedure that would allow for greater reliance on coal as a future energy source, consistent with meeting other national objectives.

3. Identify, as appropriate, those areas in which there may be conflict between increased utilization of coal, on the one hand, and other national objectives on the other, and recommend ways of resolving these conflicts.

4. Review and assess the potential contributions that R&D and new technologies and processes might make in reducing the impact of government policy on coal utilization.

It should be noted that regulations under the Clean Air Act amendments of 1977 and the Surface Mining Control and Reclamation Act of 1977, which will have an impact on the production and utilization of coal, will be formulated during the life of the Commission. The Commission may wish to:

1. Provide input into the process on those matters consistent with its mandate under Executive Order 12062, or

2. For practical, and strategic considerations, take a longer term perspective and hold all recommendations until its final report.

ATTACHMENT II

REMARKS OF GOV. JOHN D. ROCKEFELLER IV

This obviously is going to be a very tough, difficult, controversial and important year for coal in this country. One year from today we will present our findings and recommendations as a Commission to the President and to the Secretaries of Energy and Labor.

It is very clear that the energy crisis transcends virtually all other crises for this nation. The President has recognized this in declaring the energy crisis the moral equivalent of war. We desperately need to cut down on oil imports. Coal is the best way to do that. We have a great deal of coal, and the President has asked us to double its production. Yet with all of this emphasis on coal, I think it is fair to say that there is no major industry in this country which faces greater problems.

Therefore, as a Commission we have an historic opportunity to help clarify some issues and to point the way on others. No one else, really, since the mid-1920's has tried to take on this problem in the way that I think we can.

What is totally clear is that unless multiple interests—business, finance, labor, federal and state government, environmentalists, people from the east, people from the west, union members, non-union members, miners and operators themselves—put a greater effort on cooperation in the realization of our shared interest in the future of coal, this country is going to be severely let down, and painfully so.

I, as Chairman, want to make it very clear that I fully understand that we will be walking on controversial ground, and that we will be getting into areas which have been either off-bounds or have not been touched or probed for a generation or two. But I am utterly determined that this Commission will make a difference, that we will help the future of coal and those who mine it, and that we will therefore essentially be helpful to the interests of the people of this country.

As a Commission we will be tough. We will be probing. We will be fair. We will be non-ideological. We will be practical. We will be concerned for the safety and the living conditions of miners as much as for the enhancement of the investment dollar. We will try to be fair on all issues, as between east and west, between surface mining and deep mining, union and non-union, BCOA and independent, large operator and small, production and safety, production and environment, production and the human dimension.

I do want all to understand realistically that we have no authority as a Commission, that we have no absolute power as a Commission, except as we are persuasive to the national purpose. I want, therefore, all to understand that I, as Chairman, recognize our limits. We will have less than $1.5 million, less than 20 people, only one year, and a history of conflict and bitterness and mutual intransigence to deal with.

I choose to look to the present and to the future, and I choose, as I am sure you do, to be utterly sincere, committed, and intense in our efforts, with our hearts full of hope and full of determination.

This will not be, under my chairmanship, just another commission. My purpose and our purpose is positive. I, along with you, want to be able to enhance the position of coal in our nation's future, and to enhance the opportunities for both labor and capital, and, most important of all, to enhance the possibility for this nation to meet its responsibilities to its citizens.

ATTACHMENT III

REMARKS OF SENATOR CHARLES H. PERCY

Mr. Chairman, fellow members of the Commission, ladies and gentlemen. It is an honor for me to be here today as we begin our evaluation of the U.S. coal industry. I would like to express my appreciation at being appointed to this Commission. I am looking forward to working with such a distinguished and diverse panel of experts.

This Commission can make significant contributions towards clarifying many of the confusing and frustrating problems now facing the industry, its employees, and the thousands of other Americans whose life it affects. The six Congressional members of the Commission are acutely aware of the need to come to grips with those problems. The five States which we represent—Alabama, Illinois, Kentucky, Pennsylvania and West Virigina—accounted for 58% of this nation's coal production in 1977. We thus represent thousands of Americans whose lives have been directly affected by the mining and processing of coal. Many of them have paid dearly in terms of illness, injury and personal sacrifice in order to supply us with a vital form of energy. Their concerns about the future of the industry and its present problems must be answered.

In order for the Commission's work to be successful, our investigations should be broad in scope and open to public input. We must be as sensitive to the prospective mine developer in Wyoming confronted by a lengthy and frustrating permit issuing process as we are to the Appalachian miner in need of decent housing for his family. We must listen to both sides of every issue, and work to bring ourselves in touch with the realities of the industry. This Commission should not operate on a pedestal.

As I look at the coal industry today, I see several areas where the Commission can make especially significant and timely contributions. One of the most important of these is labor-management relations. We seem to have entered a period in which there is a growing realization in the coal industry of the potential value of increased cooperation between labor and management. There is hope that several provisions of the 1978 UMWA contract, such as improved grievance procedures and voluntary bonus plans for increased productivity and safety, will work to reduce traditional hostilities.

It is vital that the Commission moniter and evaluate the progress being made in this area. One way we can do that is by cooperating closely with the Joint UMWA-Industry Development Committee, which was established by the 1978 contract. The Committee consists of three representatives from coal industry management and three from labor, including my friend Ken Dawes, president of the UMWA District 12 in Illinois. It is becoming an important forum for the discussion of issues of concern to both labor

and management, and this Commission should try to work closely with it.

The Commission can make another important contribution by evaluating the effects of government regulations on the industry. The past decade has witnessed an outpouring of new laws and regulations. While these regulations have vitally important objectives, they have at times been poorly administered and unnecessarily difficult to comply with. The costs of inefficient regulations weigh heavily on the industry and its employees, and ultimately on consumers as well. We must identify ways to improve the regulatory process without compromising its important objectives.

A third area which I believe the Commission should investigate is the problem of crime in the coal industry. Recent federal and state investigations of the coal industry have revealed an alarmingly high incidence of crimes involving fraud. Those crimes are often highly sophisticated and interstate in nature. Hardest hit have been small independent coal producers, although insurance and loan companies have been victimized as well. The Commission could make a valuable contribution by estimating the total costs of coal industry crime, and by identifying the nature of its impact on the industry. It should also review the adequacy of current federal and state investigatory efforts.

Lastly, I would like to suggest that the Commission try to get input from Sir Derek Ezra, Chairman of the National Coal Board of Great Britain. During his thirty-one years with the Board, Sir Derek has confronted many of the problems common to both the British and American coal mining industries. He is also knowledgeable about the international coal market, which has serious implications for certain segments of our industry. His firsthand experience with these problems could prove to be an invaluable resource to the Commission.

In conclusion, I am pleased at having been given this challenging opportunity to serve the coal industry and the Nation. When I sponsored a conference on the future of coal in Carbondale, Illinois last December, I received great satisfaction from working closely with coal operators, equipment manufacturers, labor representatives from District 12 of the UMWA, and other industry leaders. The opportunity to work with the members of this Commission is equally exciting, and I am looking forward to it with enthusiasm.

REFORM BILL STARTED IN FORD ADMINISTRATION

Mr. PERCY. Mr. President, I am pleased to rise in support of the passage of the conference committee report on the Air Transportation Regulatory Reform Act of 1978. It has been a long, hard, uphill struggle to reach this historic vote. Many individuals and organizations deserve credit.

First among them is President Ford. Basically regulatory reform has been a Republican idea that was spawned and nurtured by former Secretary of Transportation William T. Coleman, Jr., and former Civil Aeronautics Board Chairman John Robson.

Their early successes in implementing reform were amplified and expanded upon by President Carter and Civil Aeronautics Board Chairman Alfred Kahn. There is little question that Fred Kahn has proven to be one of the most outstanding appointments of the Carter administration. Without waiting for the passage of this legieslation, he has boldly and courageously encouraged competition among the airlines by approving new routes expeditiously and permitting the airlines to lower fares to virtually any level they deem fit.

Chairman Kahn's initiatives and those of his predecessor John Robson demonstrated to critics of a less regulated airline environment that the marketplace was a far better judge of what kind of airline service we wanted in this country than the Civil Aeronautics Board that was sitting as some sort of super board of directors.

We all know the results of less regulation: Record profits for the airlines, the lowest air fares in years for the travelling public, and a booming aircraft manufacturing industry.

Virtually every poll indicates that inflation—as it should—is the No. 1 issue on the minds of the American public. Many of us have contended that the heavy hand of Government regulation has been a major contributor to the inflationary spiral. And, here, we have proof that with less Government regulation airline fares have dropped dramatically despite significant increases in fuel and labor costs to the airlines.

In terms of framing airline reform into meaningful legislation, credit should be given to Senator HOWARD CANNON, Senator JAMES PEARSON, and Senator EDWARD KENNEDY. All of them played a key role in leading to the vote. Additionally, United Airlines and Sears, Roebuck & Co. were early and enthusiastic supporters of reform.

The skies above the horizon look brighter with the passage of this conference committee report. In my own city of Chicago, the first major interstate airline certificated by the CAB since 1938 is now drawing up final plans to begin low-fare service from Midway Airport to three Midwestern cities next spring—and without special restrictions or capacity limitations.

I ask unanimous consent that an excerpt from a recent Civil Aeronautics Board decision supporting additional service at Midway Airport be printed in the RECORD. It deserves careful reading because of its superb analysis of why the marketplace is a better regulator of the airline business than the Government.

There being no objection, the decision was ordered to be printed in the RECORD, as follows:

CAB DECISION

The fundamental theory of our national life is that, in most situations where sellers are prepared to sell and buyers are prepared to buy a service or commodity, both the greatest satisfaction of consumer desires and the most efficient use of resources will take place where sellers are left free to compete in offering their wares or services and buyers are left free to select the wares or services which most appeal to them at prices which both buyers and sellers find acceptable, with the government keeping out of the way except to prevent violence, fraud, deceit, monopoly, predatory practices, and avoidable threats to life and health. This is "the market" at work. To be sure, there are a small minority of situations where "the market" does not operate satisfactorily, most often because the buyers in a particular area have access to only a single seller and it is difficult or impossible for new sellers to enter. In these situations the government—usually by means of an administrative agency—intervenes to prevent the seller from abusing his monopoly power. But outside of these exceptional situations it has not been our national philosophy that any group of government officials, however well intentioned, should substitute their judgment for that of the individual buyers and sellers in the marketplace.

In 1938, in the wake of the Great Depression, the Congress thought it discerned a danger that the infant air transportation industry, then heavily subsidized through mail pay, would fall into a condiiton of destructive competition that would end either in the failure of all the competitors, so that the public would receive no air service at all, or in the monopoly domination of the market by one or a few carriers. To avert this danger, and to administer subsidy more fairly than before, Congress set up this Board and endowed it with extensive powers over which carriers would be allowed to enter the marketplace, where they would be allowed to fly, what services they would be allowed to offer, and what prices they would be allowed to charge. This Board has labored mightily for forty years, keeping most newcomers (except those flying small airplanes) out of the market, choosing "the best" one or two or three from among the established carriers to serve each route, and preventing the carriers from either raising or lowering their prices more than the Board thought reasonable at the time. In the process, the Board has interfered pretty extensively with the consuming public's freedom to choose the air services it liked best; but it was all done in the name of what was then viewed to be the higher public good.

Today, however, air transportation is no longer a struggling infant industry, but a mature giant hundreds of times larger than in 1938. Subsidy is no longer a central feature of the system; the major carriers receive none, and even the remaining subsidized carriers for the most part receive only a small fraction of their revenues from this source. Rather, the driving force of the system is consumer demand. We have reassessed our policies, we have studied the present-day economics of the industry, and we find that, in the Midway and Oakland markets at least, and in a number of other markets we have investigated, there is no discernible danger of the kind of destructive competition Congress feared in 1938. In the light of Congress's own express mandate for competition in section 102 of the Act, and the broad discretion the Act gives us, is it not then our plain duty to get out of the way as much as we can and let the consumers in these markets select the air transportation services they prefer, as they select the hotels and resorts and automobiles and newspapers and soft drinks and toothpaste which most appeal to them? And must we stick to our old practices simply because of the possibility that the public's choice of air carriers and air services may turn out to be different than ours would have been? What warrant have we to assert that our choice would be "better" than theirs?

TAXES

Mr. PERCY. Mr. President, I am pleased by the action of the Senate in defeating an attempt to repeal the deferral of taxes on foreign source income.

In my opinion, the decision on the foreign tax "deferral" system that the U.S. Senate should make should turn on only one factor: What will be the consequences?

Let us face it, the facts have been in dispute.

First are the basic facts on American foreign investment. There was a theory that American companies invested over-

seas to ship goods back into the United States. The Senate Finance Committee was very concerned about this in the past. It called upon the Tariff Commission, now the International Trade Commission, to conduct an exhaustive study on those allegations, and published its report in 1973. I think its conclusions have been upheld ever since. Here is what the Commission concluded:

> Industries characterized by heavy overseas investment in productive facilities appear also to be those which not only contribute most heavily to U.S. exports but also have the least impact on the upsurge of U.S. imports.

Now we have official studies and private estimates showing that from one-fourth to nearly one-half of total U.S. exports go to foreign affiliates of U.S. firms. Secretary Vance said in February of this year that nearly 10 million American jobs depend on U.S. exports. This means that between 2.5 million and 5 million American workers are producing exports to foreign affiliates of American companies.

To me, that settles the question of whether or not we should support our country's private foreign investments. Of course, we should. U.S. overseas investments do not produce many imports to the United States, they generate billions in badly needed exports.

What is more, every year they bring in billions of dollars of earnings from abroad. This is a big plus factor in our balance of payments. In 1977, the net amount brought home was $11.5 billion over the outgo. In the past decade this positive contribution has amounted to $65.4 billion.

What about foreign tax "deferral"? Business spokesmen have consistently said that they needed this system to stay competitive with foreign companies. They have also argued that if it were ended, U.S. companies would have to pay higher taxes, but that the additional taxes would end up in foreign treasuries because foreign governments collect extra tax on earnings that leave their countries. These are called withholding taxes.

Even the U.S. Treasury agreed. On June 29, 1976, there was a letter in the R53*84 to Senator Brock from the Treasury saying that the gains on paper of $365 million to the U.S. Treasury if deferral were ended could turn into a $375 million loss if companies acted in their best interests by incurring higher foreign withholding taxes.

This year, Arthur Anderson & Co. did a study using actual tax records of 88 companies for the year 1976. This was a rich sample. The participating companies are estimated to account for 37 percent of U.S. foreign manufacturing profits.

It is true that business sponsored this study, but the reputation of Arthur Andersen & Co. for objectivity needs no defense.

The results show that the U.S. Treasury would only obtain increased revenues if everything stayed the same. The companies would then have paid $206 million more in U.S. taxes. But, if they acted in their best bottom-line interests, the results would be far different. The U.S. Treasury would collect $153 million less while foreign governments would have a windfall in withholding taxes of $377 million.

These facts were not available to the experts in the Departments of State, Treasury, and Commerce when they prepared options papers for the administration on foreign tax deferral but the experts guessed that companies would change their repatriation patterns in their best interests and the experts advised against changing the deferral system.

Now we have better facts. Understandably, the Treasury is seeking to defend the administration's position by questioning the finality of the Arthur Andersen & Co. study. In doing so, they are casting doubts on their own previous judgments and on commonsense.

No study is perfect or even the last word. But I think at long last we have the facts we need to know that deferral is still the best bet for helping our companies compete and for maximizing U.S. tax revenues from foreign source income.

AIR REFORM BILL STARTED IN FORD ADMINISTRATION

Mr. PERCY. Mr. President, shortly, the Senate will join the House in passing the conference committee report on the Air Transportation Regulatory Reform Act of 1978. It has been a long, hard, uphill struggle to reach this historic vote. Many individuals and organizations deserve credit.

First among them is President Ford. Basically regulatory reform has been a Republican idea that was spawned and nurtured by former Secretary of Transportation William T. Coleman, Jr., and former Civil Aeronautics Board Chairman John Bobson.

Their early successes in implementing reform were amplified and expanded upon by President Carter and Civil Aeronautics Board Chairman Alfred Kahn. There is little question that Fred Kahn has proven to be one of the most outstanding appointments of the Carter administration. Without waiting for the passage of this legislation, he has boldly and courageously encouraged competition among the airlines by approving new routes expeditiously and permitting the airlines to lower fares to virtually any level they deem fit.

Chairman Kahn's initiatives and those of his predecessor John Robson demonstrated to critics of a less regulated airline environment that the marketplace was a far better judge of what kind of airline service we wanted in this country than the Civil Aeronautics Board that was sitting as some sort of super board of directors.

We all know the results of less regulation: Record profits for the airlines, the lowest air fares in years for the traveling public, and a booming aircraft manufacturing industry.

Virtually every poll indicates that inflation—as it should—is the No. 1 issue on the minds of the American public. Many of us have contended that the heavy hand of Government regulation has been a major contributor to the inflationary spiral. And, here, we have proof that with less government regulation airline fares have dropped dramatically despite significant increases in fuel and labor costs to the airlines.

Because of their persistent efforts and foresight, much credit should be given to Senator HOWARD CANNON, Senator JAMES PEARSON, and Senator EDWARD KENNEDY. All of them played a key role in leading to the vote by patiently building support for this legislation by arranging for an impressive set of hearings that documented the need for reform. Additionally, United Airlines and Sears, Roebuck & Co. were early and enthusiastic supporters of reform.

The skies above the horizon look brighter with the passage of this conference committee report. In my own city of Chicago, the first major interstate airline certificated by the CAB since 1938 is now drawing up final plans to begin low-fare service from Midway Airport to three Midwestern cities next spring—and without special restrictions or capacity limitations.

I ask unanimous consent that an excerpt from a Civil Aeronautics Board decision supporting additional service at Midway Airport be included in the RECORD. It deserves careful reading because of its superb analysis of why the marketplace is a better regulator of the airline business than the Government.

There being no objection, the decision was ordered to be printed in the RECORD, as follows:

CAB DECISION

The fundamental theory of our national life is that, in most situations where sellers are prepared to sell and buyers are prepared to buy a service or commodity, both the greatest satisfaction of consumer desires and the most efficient use of resources will take place where sellers are left free to compete in offering their wares or services and buyers are left free to select the wares or services which most appeal to them at prices which both buyers and sellers find acceptable, with the government keeping out of the way except to prevent violence, fraud, deceit, monopoly, predatory practices, and avoidable threats to life and health. This is "the market" at work. To be sure, there are a small minority of situations where "the market" does not operate satisfactorily, most often because the buyers in a particular area have access to only a single seller and it is difficult or impossible for new sellers to enter. In these situations the government—usually by means of an administrative agency—intervenes to prevent the seller from abusing his monopoly power. But outside of these exceptional situations it has not been our national philosophy that any group of government officials, however well intentioned, should substitute their judgment for that of the individual buyers and sellers in the marketplace.

In 1938, in the wake of the Great Depression, the Congress thought it discerned a danger that the infant air transportation industry, then heavily subsidized through mail pay, would fall into a condition of destructive competition that would end either in the failure of all the competitors, so that the public would receive no air service at all, or in the monopoly domination of the market by one or a few carriers. To avert this danger, and to administer subsidy more fairly than before, Congress set up this Board and endowed it with extensive powers over which carriers would be allowed to enter the

marketplace, where they would be allowed to fly, what services they would be allowed to offer, and what prices they would be allowed to charge. This Board has labored mightily for forty years, keeping most newcomers (except those flying small airplanes) out of the market, choosing "the best" one or two or three from among the established carriers to serve each route, and preventing the carriers from either raising or lowering their prices more than the Board thought reasonable at the time. In the process, the Board has interfered pretty extensively with the consuming public's freedom to choose the air services *it* liked best; but it was all done in the name of what was then viewed to be the higher public good.

Today, however, air transportation is no longer a struggling infant industry, but a mature giant hundreds of times larger than in 1938. Subsidy is no longer a central feature of the system; the major carriers receive none, and even the remaining subsidized carriers for the most part receive only a small fraction of their revenues from this source. Rather, the driving force of the system is consumer demand. We have reassessed our policies, we have studied the present-day economics of the industry, and we find that, in the Midway and Oakland markets at least, and in a number of other markets we have investigated, there is no discernible danger of the kind of destructive competition Congress feared in 1938. And must we stick to our old practices simply because of the possibility that the public's choice of air carriers and air services may turn out to be different than ours would have been? What warrant have we to assert that our choice would be "better" than theirs?

EXPORT CONTROLS

Mr. PERCY. When I first came to the Senate 12 years ago I began work on the Banking Committee to revise and update a law then called the Export Control Act to bring it into line with our true national interest. The essence of our changes at that time were to scale down drastically the strategic test by permitting American companies to sell product to Communist countries if such product was available from other sources besides the United States.

Mr. President, on September 26 the President announced his export promotion program. It was one that had been eagerly awaited by many, because of the continuation of our balance-of-payments deficit. Although export incentive programs have been revealed by previous administrations, there is particular urgency to the implementation of a meaningful program now. The dollar is at new lows in the foreign exchange markets, because of our hefty trade deficit. This is in turn exacerbating inflation at home.

In announcing his export program, the President outlined many steps he felt could be taken to place a higher priority on our export sector. He noted that he was "directing the Departments of Commerce, State, Defense, and Agriculture to take export consequences fully into account when considering the use of export controls for foreign policy purposes. Weight will be given to whether the goods in question are also available from countries other than the United States."

The business community has for some time suggested that some of the restrictions on our exports did little to accomplish the aims of the restrictions. At times, it has even appeared that the restrictions were counterproductive.

Mr. President, this is an important area of concern for Congress and I am pleased that the Senate Banking Committee has taken the initiative to undertake hearings on the use of export controls for foreign policy purposes.

One of several witnesses who appeared before the committee on October 10 was the chairman of the Board of the Hewlett-Packard Co., David Packard. Mr. Packard has raised a number of valuable points in his testimony and I would like to commend it to my colleagues for consideration.

Mr. President, I ask unanimous consent that the statement of David Packard be printed in the RECORD.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

STATEMENT OF DAVID PACKARD

Mr. Chairman and Members of the Committee: I appreciate the opportunity to appear before you today to discuss the use of U.S. export controls and export credits for foreign policy purposes. This is a subject of great importance to our country today not simply because of the direct effect of our export policies abroad, but also because they have a significant impact, on a continuing basis, on our balances of trade and payments. This in turn has an effect on inflation and economic growth here at home and on our credibility with our friends and allies around the world.

I am appearing before you today as an individual, not as a representative of any group, although I believe my views on this subject are shared by a majority of people in the U.S. business community. The Hewlett-Packard Company, of which I am Chairman of the Board, is a major manufacturer of high technology electronics products. Our sales this year will be in the range of $1.6 billion, with about half outside the United States. We estimate that over 8,500 of our employees in this country owe their livelihood to our international business.

In this statement I will confine my remarks to three areas: first, the traditional use of export constraints for national security and foreign policy purposes with respect to the Communist countries; second, their more recent and generalized use for foreign policy purposes with respect to the other countries of the world; and last, after indicating how more consistent and stable arrangements will better serve our national interest, some recommendations on how an improved trade policy might be achieved.

EXPORT CONSTRAINTS WITH RESPECT TO THE COMMUNIST COUNTRIES

I want to emphasize before discussing the use of export constraints with respect to the Communist countries, principally the Soviet Union and the People's Republic of China, that I claim no special expertise in this matter despite my long interest and involvement. The major lesson I learned during the three years I was with the Defense Department is that this is a very complex as well as an important subject and it deserves carefully developed policies and procedures.

I assume that there is basic agreement that important national security aspects take precedence over the general U.S. policy to support and encourage trade on a world wide basis. In the case of the USSR and the PRC, export controls for national security purposes have been based largely on the fact that the United States has a considerable technical superiority in terms of military weapons capabilities. This is much more important in relation to the USSR than it is with the PRC because the Soviet Union has built up its military capabilities extensively and continuously over the last ten years or more. We have, as you know, recently followed the same general export control guidelines with respect to both of these countries regarding transactions which might jeopardize U.S. technical superiorities.

There is quite a range of opinion as to how far we should go in exporting high technology products to the USSR and the PRC. Some people take a very hard line and would limit the export of any such products, even those which are clearly useful only for domestic, non-military requirements. Their theory is that the need to provide such products would force these countries to divert more of their resources, both economic and scientific, from their military build-up.

Others feel we should relax our controls because the USSR and the PRC will be able to obtain whatever they need in the way of high technology products anyway. This view holds that at best our tight export controls only slow up the military programs of these countries, and we might find compensatory benefits in the way of reduced tensions from a more relaxed policy.

I believe the way in which we currently apply export controls to national security issues is about right, but I believe we are missing a very important point. Let me describe this to you.

The export of specific high technology products such as computers is, in my view, not as serious a problem as it is often made out to be. In some cases, the Soviets can obtain comparable equipment through commercial channels from other countries. If this proves difficult they can always obtain a sample or two including key technical information through other means. Thus the question is not whether we can really prohibit them from obtaining the advanced technical products and knowledge they seek, but rather whether we make the process easier or harder for them. I have no trouble with a control policy which makes it more difficult for the Soviets to obtain key technical products and knowledge, but we should understand that when we make export licensing decisions on this basis that this is all we are able to do.

There is another national security aspect that I do not believe is very well understood. The USSR has in fact very high technical capabilities. Over the years their scientists have made many contributions to the advancement of knowledge, and most basic technical information not already in the Soviet Union is readily available to their scientists from Western sources through publications, conferences, and private exchanges among scientists.)

The USSR does, however, have a serious weakness in its general ability to put its scientific knowledge to use in practical applications. This can be done fairly well in high priority areas such as in military and space projects. The Soviets, for example, were first to put a satellite in space, not because they had any edge in scientific knowledge, but rather because they decided it was desirable to do and we did not. We were able to catch up very quickly and put a man on the moon while they have not yet done so.

We are ahead of the Soviets in this and in other important areas, not because our scientific knowledge is superior, but because we have a substantial superiority in reducing scientific knowledge to practice. Scientific

and political leaders in the USSR recognize this inherent weakness in their system and are anxiously seeking improvements. One of the ways is to try to get high technology companies from the West to build "turn-key" plants which would make high technology products in the Soviet Union. Our company has been approached as have many others. I believe there are good business reasons why it is not desirable for a U.S. company to consider building such a plant in the Soviet Union, or for that matter elsewhere in Eastern Europe. There are even more important national security reasons why this should not be done. I for one would like to see us move toward more restrictive controls over this and other types of technology transfer which would help the Soviets put their scientific knowledge to practical use. If we had more effective controls in the area of technology transfers, I believe we could liberalize to some degree the export of high technology products.

As we move away from a consideration of national security issues, I think we have a wider range of options in regard to the use of export controls and export credits in our national interest.

Economic considerations should have a very high priority. U.S. exports support many jobs here at home, and inflation is fueled by our inability to keep our exports and imports in better balance. I believe encouraging trade in peaceful goods and services with the USSR, the Socialist countries of Eastern Europe, and the PRC is an important way to increase U.S. jobs and fight inflation. U.S. exports to the USSR increased from about $120 million in 1970 to slightly over $1.6 billion in 1977, while our imports have increased from $72 million to $234 million during the same period. This contributed a net $1.4 billion to the positive side of our balance of trade in 1977, and if we include trade with the countries of Eastern Europe and the PRC, a net of about $2.6 billion was generated to support the positive side of our trade balance in 1977. For 1978 the positive net contribution to the U.S. trade balance is estimated to be $1.7 billion for the USSR and $2.6 billion for all the nonmarket countries as a group.

Despite large percentage gains, however, we have not been able to develop our trade with the USSR and most of the other Communist countries to anywhere near its real potential. Some of the reasons for this are the withholding of "most favored nation" treatment from the USSR and restrictions placed on export credits both of which, as you know, by congressional action. More recently, and most notably in the denial of a computer system to the news agency TASS, the Administration has also used export controls in an effort to influence Soviet behavior in the area of human rights.

No one can quarrel with the lofty goals underlying these actions; but I for one do not believe they have achieved a useful purpose. In fact, they probably have had a counter-productive influence on Soviet attitudes and actions.

There is no doubt that our constraints have caused a loss of export business for the United States. Soviet officials I have talked with have stated this clearly, and most U.S. companies who made long-term plans and investments to increase exports to the USSR—in our case this included opening a Moscow office—have been disappointed in the progress they have been able to make. There has clearly been an economic cost to the use of these constraints in terms of lost jobs and further deterioration in our balance of trade.

There is another cost which, although difficult to quantify, is nevertheless of considerable importance to our national interest. This is the fact that our use of these constraints has clearly raised the level of Soviet mistrust and encouraged attitudes of hostility.

I am quite certain the leaders of the Soviet Union understand our rationale for controlling exports which involve real national security issues. They would do the same thing if they were in a position to do so. However, they clearly resent our attempts to influence matters which they consider to be their own internal affairs.

Now, I do not believe any level of trade would do much to resolve the basic differences between the free world and the Communist world. Certainly not in any short period of time. Further, I cannot find much historical support for the theory that trade among nations reduces conflict or helps to avoid war. Never before, however, has there been such awesome military power in the possession of two nations, the U.S. and the USSR, each with the ability to destroy each other and neither possessing useful defense capabilities. It seems to me that this extremely dangerous situation puts a very high premium on *any* action which will keep tensions at the lowest possible levels and minimize unnecessary conflicts.

Trade, by helping keep communications open, encouraging better twoway understanding, and developing personal friendships, may help to reduce tensions and minimize conflicts. For these reasons I believe increased trade in non-strategic goods and services is vitally important and should be kept firmly in mind whenever we apply or consider applying export controls and other constraints to the USSR and the other Communist countries. I believe that outside the realm of national security we should reduce the constraints on trade—export controls and limitations on export credits—to the Communist countries and extend "most favored nation" status to the Soviet Union.

EXPORT CONSTRAINTS WITH RESPECT TO OTHER COUNTRIES

Let me turn now to a more generalized consideration of the use of export controls and export credits to influence the policies and behavior of other countries.

Until the present Administration took office little was attempted, outside our relations with the Communist countries, to use export constraints to harness the international activities of U.S. business for foreign policy purposes. However, President Carter, making good his campaign promise to "restore the moral authority of this country in the conduct of foreign policy," has included use of these constraints in an activist foreign policy with a strong emphasis on human rights.

The Congress has generally supported and sometimes even been in advance of the Administration's efforts to inject a greater moral emphasis into U.S. foreign policy. At the present time, for example, congressionally mandated concern for human rights is expressed in a number of measures including those suporting Foreign Assistance, various international financial institutions, the Overseas Private Investment Corporation, and Public Law 480.

Within the past eighteen months or so a number of restrictions for U.S. foreign and domestic policy purposes have been placed on U.S. private commercial activities with various Western countries. To name a few: the development and implementation of a comprehensive set of anti-boycott measures; further restrictions on the ability of U.S. firms to do business with South Africa; the denial of heavy duty trucks to Libya; the denial of Ex-Im financing for various programs, most notably and recently the long delayed off-again, on-again decision relating to electric generating equipment for an Argentine hydro-electric project; lengthy licensing delays and denials of various transactions to Argentina, Chile, and other countries the Administration has identified as gross human rights violators, etc.

I don't think such unilateral constraints are effective in changing the policies or the behavior of the target countries. In fact, I think about the only thing they can be guaranteed to do is lose business for the United States.

First, since our foreign policies reflect our sense of values, others are likely to resent them as being highly subjective. In the area of human rights, for example, not all nations agree with our emphasis on personal rights; a number consider economic and social rights more important. Also, U.S. policies are not applied consistently. We have little economic leverage over some of the worst offenders, and complain very little about some of them because of their overriding strategic importance to the United States. For these and other reasons, I'm sure it appears to many that U.S. human rights policies mainly affect the poorer countries, countries that are neither economically nor strategically important to the United States.

Second, our country is not a unique source of supply these days, so once U.S. exports are denied the target country usually can and will obtain comparable products and services elsewhere. In addition, denial or threat of denial builds suspicion and resentment. Under the circumstances, even if we relax our constraints, the reputation of U.S. firms as "unreliable suppliers" will continue and much of the business will likely remain in the willing hands of our foreign competitors. This is particularly true if the country fears we might reimpose restraints, and especially if the products are high technology items requiring skilled servicing and U.S. parts and components.

The reputation of U.S. firms as being "unreliable suppliers" is likely to spread to other countries which feel they may be hit next with U.S. constraints. To avoid potential disruption, I think such countries will place their business elsewhere. The "ripple" effect that results could easily snowball into a major detriment to U.S. exports and, of course, U.S. employment.

Another problem that U.S. business faces is that the people in the Administration charged with deciding foreign policy cases—particularly human rights cases—are not very sensitive to the economic consequences of their decisions. The State Department sees a denial or threatened denial of a commercial transaction as a way of "signaling" another country to change its behavior. Changes, if they occur, take time, so State is in no hurry to make a final licensing decision, and further, fearing that such changes doesn't want to say much of anything about its successes or failures.

All the businessmen I know want to avoid this kind of a fluid situation. We want a degree of certainty and firm, predictable rules before we invest time, money and effort into marketing abroad. Businessmen are very sensitive to real or perceived impediments, so the "signal" we are likely to get from denials, threatened denials, or long licensing delays is that "it's all a political game", a game in which we are likely to be the losers. Under the circumstances, who can blame us if e shift our attention away from exports and other international activities. And all this at a time when our country vitally needs increased exports to provide U.S. jobs and to correct an even-worsening balance of trade!

RECOMMENDATIONS

I am pleased that the President in his September 26, 1978, statement on U.S. export policy recognized some of the difficulties involved in using export constraints for foreign policy purposes. In this statement he directed ". . . the Departments of Commerce, State, Defense and Agriculture to take export consequences fully into account when considering the use of export controls for foreign policy purposes." The President added, significantly I hope, that "weight will be given to whether the goods in question are also available from countries other than the United States."

I am convinced that our national interest would be better served with more consistent and more stable trading policies. The development of these policies should involve the Defense, State, Commerce and Treasury Departments and should also involve, in some form, the White House and the Congress. I think it would be desirable to establish an arrangement whereby the four Executive departments I have mentioned and the appropriate committees of the Congress could thoughtfully and unemotionally review and provide advice on all policies and policy changes before they are implemented. It may not be feasible to accomplish this with specific legislation, but perhaps this committee could help by making some appropriate suggestions to the parties concerned.

I also think that the Congress should consider the damage export constraints can do and face squarely up to its own support of the unilateral use of these devices for foreign policy purposes. After reviewing the problems I think the Congress should include some strong guidelines in the Export Administration Act when it comes up for amendment and extension next year.

For example, I think the Act should clearly state the opinion of the Congress that any decision to use export controls for foreign policy purposes should be undertaken only: (a) to support clearly defined major U.S. foreign policy objectives, (b) when based on an adequate amount of factual information, (c) when the likelihood of such unilateral action will cause a desirable change in behavior in the target country, (d) where the commodities cannot be obtained readily from . . .

OUR REGULATORY AGENCIES: COMPREHENSIVE "SUNSET" REVIEW NEEDED

Mr. PERCY. Mr. President, much of this Senate session has reflected an overriding concern on the part of the American public with our regulatory bureaucracies. We are responding to the cries of citizens who feel that their Government has become an obstacle and an adversary instead of an aid.

Last Wednesday, we passed the Sunset bill. I was pleased that the Senate accepted my amendment which included regulatory agencies in the Sunset review process in such a manner as to insure a comprehensive evaluation and review of their continuing role and performance. The amendment was based on a measure, S. 600, which I introduced early in the 95th Congress together with Majority Leader ROBERT BYRD and Governmental Affairs Committee Chairman ABE RIBICOFF. Under my amendment, regulatory agencies will be subject to review every 10 years, beginning with an assessment and legislative plan submitted by the President. This will allow us to eliminate wasteful regulatory programs which burden both the Federal budget and the American taxpayer.

Mr. President, allow me to insert in the RECORD a fine article from last Sunday's Chicago Tribune, entitled "The Bureaucrats Who Shape Our Lives," by Raymond Coffey. I hope that it will serve as both an encouragement and a warning to us. The public and the press are as alert as we are to the pervasiveness of Government influence and the problems of administering large bureaucracies.

I ask unanimous consent that it be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD as follows:

[From the Chicago Tribune, Oct. 8, 1978]

THE BUREAUCRATS WHO SHAPE OUR LIVES

(By Raymond Coffey)

WASHINGTON.—In 1789, in the first year of the first term of the first President, George Washington, that American sage Benjamin Franklin wrote "in this world nothing is certain but death and taxes."

It would be hard to get an argument on that even now, nearly 200 years later. The Internal Revenue Service is the government institution that has the strongest and surest impact on the lives of Franklin's countrymen.

But through the years and through the rollcall of Presidents, the number and variety of government agencies has bloomed and multiplied to the point where the current President won his way into the White House by attacking the size of government and its interference in people's lives.

That same President who promised to tame and reduce the "bloated bureaucracy" has now created a new Department of Energy and is trying to create a new and separate Department of Education.

He has also promised, President Carter has, to keep his Agriculture Department spending millions of dollars to keep farmers growing tobacco while at the same time his Health, Education and Welfare Department is spending millions more to get people to quit smoking tobacco.

For all the public outcry about wanting to get government off its back, most people still would seem to find most government agencies hard to live without in these increasingly complex times.

These are some of the government agencies which, while not so inevitable as death and the IRS, most directly, immediately, and constantly affected Americans in their everyday lives:

POLLUTION CONTROL

The Environmental Protection Agency [EPA] recently launched an investigation to determine if miscarriages suffered by 10 women in a tiny Oregon mountain town were caused by herbicide spraying in nearby forests.

The investigation resulted from a letter written to the EPA by schoolteacher Bonnie Hill and seven other women in Alsea, Ore., which claimed there was an "incredibly close correlations" between the dates of their and other women's miscarriages and the dates between 1973 and 1977 when the forests were sprayed.

This case illustrates the close and detailed impact the EPA is having on American life in the few years since the nation became acutely aware of and concerned about its environment and the impact of technology upon it.

The EPA was created in 1976 to protect and enhance the nation's natural environment, to control and abate pollution in the areas of air, water, waste, noise, radiation and toxic substances.

Nationwide, it employes 2,317 men and women. Its annual budget: $73 million.

The investigation of the Oregon miscarriages is one of its more limited, local concerns.

On a grander scale, the EPA has also recently handed nuclear power advocates an important victory by rejecting environmentalists' arguments that the open cooling system of a proposed nuclear power plant at Seabrook, N.H., would have a seriously adverse effect on the nearby ocean. This EPA verdict cleared the way for the Nuclear Regulatory Commission to reinstate a construction permit for the Seabrook plant.

In the other direction, the EPA also has recently, for the first time, forbidden the construction of a conventional power plant on grounds that the smoke and fumes it would produce would pollute the air of a nearby clean-air area. The decision was rendered against the Montana Power Company on a complaint brought by the nearby Northern Cheyenne Indian Reservation, and it is expected to result in a major court battle.

FOOD AND DRUGS

The Food and Drug Administration (FDA), in the vast Department of Health, Education and Welfare, is charged with protecting the nation's health against impure and unsafe foods, drugs, cosmetics and other potential hazards.

So noble and necessary a purpose, it might be supposed, would almost surely make the FDA itself immune to controversy and criticism. It hasn't.

Anyone paying even the remotest attention to the headlines and the TV news in recent times will realize that the FDA has been at the epicenter of many of the country's most controversial policy earthquakes.

It banned laetrile as a anti-cancer drug; banned, and later modified the ban on saccharin as a sugar substitute; approved the birth control pill, and later qualified that approval with warnings that the pill might be dangerous in some circumstances; banned the enormously popular aerosol sprays with fluorocarbon propellants; virtually wiped out the booming "liquid protein" diet industry with its warnings of hazard; is now involved in the touchy issue of what to do about nitrites, the substance used as a safety preservative in pork and other products but which also has been identified as a cancer causing agent.

Even more emotionally tough, the FDA is currently considering whether to change the tolerable level of aflatoxin in peanut butter—and how much closer to the bedrock of American life can government get—from 20 parts per billion to 15 parts per billion.

This is because aflatoxin, a poison produced by mold which sometimes grows on grains, fruits, and vegetables stored in damp places at certain temperatures, is a powerful cancer-causing agent—and it shows up in peanut butter.

The FDA, among its many functions, approves the licensing of manufacturers of biological products, regulates their distribution in interstate commerce, develops policy with regard to the safety, effectiveness, and labeling of all drugs for human use; conducts research on and develops standards on the composition, quality, nutrition, and safety values of foods, cosmetics, food additives; develops standards for safe limits of radiation exposure (X-rays, for example).

The agency is one of the largest in the federal bureaucracy, with 8,032 employes and a budget of $289 million.

WORKER SAFETY

The occupational Safety and Health Administration [OSHA], in the Department of Labor, is another of the intensely controversial agencies that impact immediately on people's daily lives.

It was set up in 1970 to develop and promulgate safety and health standards in the factories, shops, offices, and other places where people work.

Its agents number 2,847 throughout the country, operating on an annual budget of $139 million.

While strongly supported by the labor union movement, OSHA has become a favorite target of business groups that complain about excessive government interference. This is largely because of the thousands upon thousands of regulations OSHA has issued in its brief existence, including rules on the design of toilet seats and the permissible size of knotholes in the side struts of wooden stepladders.

President Carter last year praised OSHA for wiping out "in a single day" some 1,100 of its alleged nitpicking and obsolete regulations.

But it turned out recently that most of those regulations are still on the books and that OSHA itself has found it easier to make rules than un-make them.

Its major project now is an effort to tighten restrictions on some 2,000 chemical and other substances which are now used in workplaces and which are OSHA says, suspected of causing cancer.

DISCRIMINATION

The Equal Employment Opportunity Commission [EEOC], was created under the historic 1964 Civil Rights Act, and is part of the "Great Society" heritage of the Lyndon B. Johnson administration.

Its purposes are to end discrimination based on race, color, religion, sex, or national origin in hiring, promotion, wages, job testing, training, apprenticeships and all other conditions of employment, and to promote voluntary action programs by employers, unions, and community organizations to make equal employment opportunity a reality in American life.

Carrying out these duties are 2,539 employes, many of them lawyers, working with a budget of $77 million.

The EEOC has had some notable successes in its relatively brief existence.

For example, United Air Lines agreed to pay more than $1 million in back pay to settle discrimination complaints brought by the EEOC on behalf of women and minority group employes of UAL.

However, the EEOC has also had a rocky and controversial administrative existence that has made it the target of fierce and continuing criticism even from friends of the principles on which it operates. Eleanor Holmes Norton, appointed by President Carter, is the seventh chairman the EEOC has had in its brief history.

The EEOC has also had 10 different executive directors in 14 years, and has taken on average at least two years to settle a discrimination case brought to it. And its bewildering bureaucratic maze has stuck the EEOC with a seemingly irreducible backlog of 130,000 pending cases.

HIGHWAY SAFETY

The National Highway Traffic Safety Administration [NHTSA], part of the Department of Transportation, was established only eight years age, but is already one of the most controversial government agencies and one that has constant and immediate impact on the lives of most Americans.

NHTSA is in charge of administering the national 55 mile per hour speed limit. It prescribes safety standards for motor vehicles, develops mandatory fuel economy (miles per gallon) standards for cars, keeps track of people who have had their driver licenses revoked, and runs a big research and testing program for traffic safety.

The agency employs 878. Its annual budget: $54 million.

NHTSA is currently headed by Joan Claybrook, a former colleague of consumer champion Ralph Nader. One of her first big decisions last year was to order airbags installed as safety devices in cars beginning in the early 1980s.

Claybrook now is also in the middle of the fight over allegations that Firestone 500 radial tires are not safe. In her first year on the job Claybrook also ordered the recall of some 12.9 million cars for safety reasons—more than twice the number recalled in 1976.

MONOPOLIES

The Federal Trade Commission (FTC) was designed, in the words of the United States Government Manual, to "prevent the free enterprise system from being stiffled, substantially lessened or fettered by monopoly or restraints on trade, or corrupted by unfair or deceptive trade practices. In brief, the commission is charged with keeping competition both free and fair."

That objective takes in a lot of territory, and the FTC's manifold activities include preventing price-fixing agreements, boycotts, illegal combinations of competitors, dissemination of false or deceptive advertising of a wide range of products, and mergers that may tend toward monopoly.

The FTC also regulates packaging and labeling of certain commodities, supervises some aspects of American export trade, and requires true credit-cost disclosures by finance companies and other consumer creditors.

The commission's 1,762 employes will spend $62 million this year on these chores.

Its wide and varied jurisdiction may, perhaps, best be demonstrated by examples. This year, for one, the FTC ordered an end to restrictions on the advertising of eyeglasses in order to foster competition.

Legislatures and professional groups in more than 40 states had limited the publication of prices for eyeglasses and contact lenses. The FTC found that this limited competition and cost consumers as much as $400 million a year.

The FTC also scored a notable victory this year when the U.S. Supreme Court let stand a decision under which the FTC had, for the first time, exercised its claimed power to compel an advertiser to run so-called "corrective ads" to straighten out previous allegedly unfounded claims.

This FTC victory came in a long-running battle with the makers of Listerine mouthwash. The FTC ordered that future Listerine ads and commercials include admissions that the product will not, as previously claimed, "help prevent colds or sore throats or lessen their severity."

COMMUNICATIONS

The Federal Communications Commission (FCC), created in 1934, regulates interstate and foreign communications by radio, television, wire and cable; it licenses radio and TV stations; approves rates for telephone and telegraph services; regulates radio services for aviation, marine, police, fire, taxicabs and the recently popular Citizens Band (CB radio).

Carrying out these duties are 2,196 men and women working on an annual budget of $64 million.

One thing the FCC does not have much to do with, though a lot of people seem to think it does, is the quality of television programming. Former FCC chairman Newton Minnow of Chicago became famous back in the early 1960s for his widely quoted description of TV programming as a "vast wasteland."

But in fact the FCC can't do much about it, and doesn't want to anyway. It tries generally to stay out of any "censorship" issues that might involve it in First Amendment free speech issues. The Supreme Court this year, though did uphold the FCC in its censure of a New York City radio station for broadcasting a George Carlin comedy album that included "seven dirty words."

The FCC has been increasingly criticized during the years for the slow pace at which it reaches decisions, for excessive coziness with the broadcasting interests it is supposed to regulate, and for a general lack of purpose and direction.

That criticism has now culminated in an effort in Congress to completely rewrite the laws on communications policy and revamp the structure and authority of the FCC.

CONSUMER GOODS

The Consumer Product Safety Commission [CPSC], created only four years ago, has been a major disappointment even to its most ardent original supporters. It was established to reduce deaths and injuries associated with more than 10,000 consumer products. It has, in its brief history, issued some 600 recall orders involving a total of more than seven million products already in the market.

Last month, for example, it ordered the recall of a half-million stuffed toys imported from South Korea because ink used to print the names of the toys on the sweaters they were dressed in had a lead content higher than that allowed under the law designed to protect children from lead poisoning.

However, the commission generally has flailed around aimlessly and gotten itself involved, as its new chairman, Susan King, says, with "too broad a range of projects." It was severely criticized, for example, for moving too slowly to remove from the market children's clothing treated with Tris, which is highly flammable.

Because of widespread disappointment with the commission, Congress seriously considered abolishing it.

But President Carter and Congress eventually gave CPSC a new three-year lease on life and directed it to shape up or face extinction.

King says she now intends to concentrate CPSC's $40 million annual budget and 900 employees on only 24 of the "most serious safety and health hazards," including asbestos and benzene, which have been linked to cancer when inhaled, skateboarding which has become a major source of injuries among children, potential fire hazards in cellulose home insulation, and public playground equipment.

INVESTMENTS

The Securities and Exchange Commission [SEC], created in 1934 in the depths of the Great Depression, was set up to protect investors and the public against shady practices in the financial and securities markets and to make sure the investing public gets the fullest possible disclosure about the ventures it is asked to invest in.

It also acts as adviser to U.S. courts, under the bankruptcy laws, in proceedings to reorganize corporations that go broke.

Recently the SEC has been pressing corporations to disclose more to investors about the salaries and perquisites given their top executives.

It has also been pushing a plan for linking the country's six major stock exchanges in a single highly competitive system.

The SEC also regulates brokerage firms and their employes. Not so long ago, for example, it fined Merrill Lynch, Pierce, Fenner and Smith, the world's largest stock broker, $1.6 million for misleading 4,000 of its customers about a Texas computer company.

After a lengthy investigation it also accused former Mayor Abe Beam and other New York City officials last year of deceiving public investors about New York's near-bankruptcy in order to sell another $4 billion in city securities.

It was also the SEC, along with the comptroller of the currency, that early this year filed complaints of civil fraud and numerous banking law violations against Bert Lance, President Carter's Georgia friend and former head of the Office of Management and the Budget in the Carter administration.

TRANSPORTATION

The Interstate Commerce Commission (ICC), currently embroiled in a budding scandal involving influence peddling and assorted other forms of venality and corruption, regulates all interstate surface transportation—trains, trucks, buses, inland waterway and coastal shipping, freight forwarders, and express companies.

This includes ruling on rate changes that help determine the price of everything you buy that is moved in interstate commerce.

ICC investigators not long ago, for example, secretly filmed some moving company employes in San Jose, Cal., as they loaded bricks into a truck before having their load weighed, and thus overcharged the customer by the weight of the bricks.

It subsequently charged Mayflower Van Lines with more than 21,000 violations involving alleged overcharges to customers and

officials said customers of moving companies were being bilked out of "tens of millions of dollars a year."

The ICC also recently ordered Southern Railway to continue operating its "Southern Crescent" passenger train between Washington, Atlanta, and New Orleans, though the railroad claimed it was suffering heavy losses on the service.

The commission employs 2,301 people nationwide. Its budget for this year is $63 million.

LABOR RELATIONS

The National Labor Relations Board (NLRB), also a product of FDR's "New Deal" during the Depression, was created in 1935 to protect workers' rights to organize in labor unions, to prevent and remedy unfair labor practices, and to conduct elections in which workers decide if they want to be represented by a union and by which one.

It handled a total of more than 52,000 cases last year, and more than 30 million votes have been cast in NLRB union representation elections since the board was created.

Last year the NLRB itself was accused by its own attorneys' union of unfair labor practices involving their employment conditions. A Labor Department administrator dismissed three of the charges but found the union had a "reasonable basis" for one of its complaints.

Organized labor and President Carter fought a major campaign on Capitol Hill this year for what they called a "labor law reform" bill that would have strengthened labors' hand in NLRB elections. They lost.

FOREIGN OWNERSHIP OF ILLINOIS FARMLAND: DIMENSION OF PROBLEM BEING EXPLORED

Mr. PERCY. Mr. President, foreign ownership of U.S. farmland is an issue of tremendous importance to the farmers of our Nation, and to the citizens of Illinois in particular. They, rightfully, want answers to questions relating to land ownership which neither the State nor the Federal Government presently have the capability of answering.

In Illinois, the No. 1 agricultural exporting State in the Nation, approximately 81 percent of its 35 million acres of land are classified as farmland. In the past several years, several large Illinois farms have been sold to foreign investors. Yet, it is unknown how much of this fertile farmland is foreign owned.

Along with others in Congress representing major agricultural States, I recognized the woeful lack of data which existed on this issue and began to take coordinated action.

In February, the Senate Committee on Agriculture, Nutrition, and February requested the General Accounting Office to conduct a 3-month investigation of the subject. The data developed in the initial GAO report was, to quote the report:

"Fragmentary and inconclusive."

Consequently, the Senate committee announced, on June 12, that the GAO would "enlarge and intensify" its study of the foreign ownership issue. Nine States were chosen to be included in the investigation. Illinois was not among the States selected.

Accordingly, based upon Illinois' worldwide agricultural importance, I subsequently urged GAO to include Illinois in the investigation. On July 3, the Comptroller General of the United States, Elmer B. Staats, notified me that the GAO had agreed to focus upon Illinois in the study.

The investigation is expected to take slightly less than a year to complete and a report will be submitted by June 1979. In each of the 10 States under examination, 11 randomly selected counties are being investigated to determine the extent of foreign acquisitions in an 18-month period, from January 1977 through June 1978.

In cooperation with the ongoing GAO study in Illinois, my own office has initiated certain related projects which we expect will shed light on this admittedly obscure, albeit important subject.

The most significant project we have undertaken is an attempt to determine the extent to which foreign nationals have used Illinois banking institutions as a means of concealing their identities. We have now received responses from all of the banks we contacted and are analyzing the responses. The GAO investigators working in Illinois have asked to be briefed on our findings upon completion of this analysis. We will certainly do that in the coming weeks.

In the interim, the Congress recently has taken an important step to gain a thorough understanding of the foreign ownership issue. A foreign ownership registration bill, the Agricultural Foreign Investment Information Act of 1978, was passed by both Houses and sent to the President for his signature. The bill will require all foreign citizens and corporations who either presently own, or purchase in the future, U.S. farm and timber land to supply to the Secretary of Agriculture: Their names; addresses and countries of origin; type of business; amount of land purchased; price paid; and intended use of the land.

I strongly support this legislation and believe that its pasage, along with the other initiatives which I have described, will provide the Congress in the near future with the hard data necessary to formulate a responsible and comprehensive policy keyed to the magnitude of the problem at hand.

I firmly believe that these steps have been the correct ones. Rather than enacting a highly restrictive foreign ownership law—as some have urged—without sufficient data to support such a policy, I believe we must act with dispatch to obtain first those needed facts concerning the magnitude and scope of this problem. Preliminary reports from the GAO investigation in Illinois have uncovered a surprisingly small amount of farmland purchased by foreigners.

To act precipitously and blindly, to deny foreigners the right to own property in this country could invite retribution. We should always, and only, act on the basis of solid information which we do not now have. Inclusion of Illinois in the GAO study. combined with the special investigative initiatives taken by my office, and the passage of the Agricultural Foreign Investment Information Act of 1978, will allow the Congress, and the Illinois General Assembly, to responsively assess the foreign ownership picture in its broad context. If it is shown that foreign purchases are economically harmful to the American agricultrual community, appropriate measures can and will then be swiftly taken.

Mr. President, I ask unanimous consent that the following be printed in the RECORD at this point: An exchange of letters between myself and Elmer B. Staats of the GAO; a letter sent to Senator HERMAN TALMADGE, chairman of the Senate Committee on Agriculture, Nutrition, and Forestry, accompanying the GAO report; and an excellent, well-researched article authored by R. C. Longworth and published in the Chicago Tribune, which discusses the broad question of "Who Owns the Land?" and the ramifications of that issue.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

WASHINGTON, D.C.,
June 21, 1978.

Hon. ELMER B. STAATS,
Comptroller General of the United States,
General Accounting Office,
Washington, D.C.

DEAR MR. STAATS: I read with great interest your June 12 report titled "Foreign Ownership of U.S. Farmland—Much Concern, Little Data." As you know, the subject of alien ownership of American farmland is an issue of great interest in my own state of Illinois. With approximately 81 percent of its 35 million acres classified as farmland, Illinois ranks as one of the most productive agricultural areas in the United States. For the past three years, Illinois has been the number one agricultural exporting state in the nation—$2.5 billion worth of commodities were exported last year alone. In addition, for the past three years, Illinois has ranked number one in the production and exportation of corn, soybean and feed grain.

The key to Illinois' high level of agricultural productivity lies in its soil. Illinois has literally millions of acres of the most fertile soils in the world. Understandably, the quality of the soil has made Illinois farmland exceptionally desirable to domestic and foreign investors alike. In 1976, the Northern Bank and Trust Company of Chicago, acting on behalf of an Italian family, reportedly paid $17.5 million for the 12,000 acre Norris Farms in Fulton County. The previous year, Continental Illinois National Bank and Trust Company paid approximately $6 million for two tracts of land in Wayne County, totaling over 7,500 acres. The purchase was reported to have been made for two German groups. Increased foreign sales, usually made by blind trust land holding companies to protect the beneficiaries' identity, have motivated the Illinois House of Representatives to recently pass a bill altogether forbiding farmland purchases by individual, non-resident aliens and corporations in which aliens have interests greater than 10 percent.

However, no one has been able to measure how much Illinois farmland has actually been purchased by foreign investors.

I have been informed that the Senate Committee on Agriculture, Nutrition and Forestry has requested that GAO enlarge and intensify its investigation of foreign ownership of U.S. farmland. More specifically, nine states have been targeted by the Committee for investigation. Because of the vital role Illinois plays internationally in agricultural productivity, along with the confirmed interest taken in Illinois farmland by foreign investors, I request that the General Accounting Office either include Illinois in its upcoming investigation, or, in the alternative, conduct a special survey because of the unique role Illinois plays in the nation's agricultural picture. In either event, the study should in-

clude, but not be limited to, consideration of the following questions:

(1) Of the 28 million acres of Illinois farmland, how much is foreign-owned?

(a) Has there been an influx of foreign investment in Illinois farmland in the past 10 years? 5 years? 2 years? If so, why?

(b) Has the number of farms and acreage of farmland purchased by foreign investors been increasing annually?

(c) If no legislative action is taken on the state or federal level, is there reason to believe that foreign ownership of Illinois farmland will significantly increase? If so, at what rate?

(2) (a) In what counties of the state is the largest percentage of foreign investment taking place?

(b) Why have these counties in particular attracted foreign capital? What variables do these counties share in common (e.g., similar crops, soil quality, land value, size of tracts purchased, availability of water, condition of the farms prior to purchase)?

(3) In what countries do most of the foreign owners reside or have their citizenship?

(a) Why are investors from these nations interested in Illinois farmland?

(b) Do most foreign owners of Illinois farmland represent themselves, or do they represent or are they represented by a foreign, domestic or multinational entity? If the latter, please describe some of the principal entities.

(c) Are most of the foreigners absentee landlords? What percent are personally farming the land they purchase?

(d) By way of defending foreign ownership of American agriculture, it has been argued that wealthy foreign owners have, in some cases, increased the productivity of the land by investing in costly or sophisticated farm technology and soil conservation programs. Please ascertain whether the Illinois farms purchased by foreigners increased, decreased, or remained the same in agricultural production? Do foreign owners invest heavily in capital improvements for their farms?

(e) On the average, how long do foreign owners maintain ownership of their Illinois farms? To what degree is land speculation taking place in the foreign farm purchases?

(f) What is the average annual rate of return foreign owners are receiving on their farms? Is the return greater, less than, or the same as what family farmers receive? As the return American corporate farms receive? If there is a differential between the return received by foreign owners and that of American owners, to what is the difference attributable?

(4) What, typically, is the procedure used by foreigners to purchase Illinois farmland?

(a) Are the purchases usually made by the actual owners, or are the transactions usually handled by financial institutions or other representatives?

(b) Specifically, which financial institutions are most heavily involved in the purchasing of Illinois farmland for foreign clients?

(c) Outline the procedure followed by financial institutions in the purchase of farmland? How are the financial institutions paid for their services (i.e., do they receive a commission, flat fee, etc.)?

(a) Have any laws been broken in any of the foreign purchases investigated?

(e) Are the laws governing blind land trust companies adequate or should revisions be made to more closely monitor the transactions of such companies?

(5) What has been the overall impact on the state of foreign ownership of Illinois farms?

(a) What has been the specific effect on the market price of land?

(b) Are "family farmers" being priced out of Illinois agriculture? Are the number of family farms declining in Illinois? Is the average size of farms increasing in acreage? If so, is this attributable in any way to the influence of foreign ownership of Illinois farms?

(c) The large majority of the Midwest agricultural states has laws that prohibit or severely restrict foreign ownership of farmland. Does this suggest that Illinois farmland will increasingly be the target of foreign capital?

(d) Are the laws adequate governing foreign ownership of Illinois farmland or should further revisions be made? If so, would federal or state legislation be most appropriate?

Should you have any questions concerning this request, please contact me or have your staff contact Rick Shapiro of my staff at 224–1115.

Sincerely,

CHARLES H. PERCY,
U.S. Senator.

WASHINGTON, D.C., *July 3, 1978.*

Hon. CHARLES H. PERCY,
U.S. Senate,

DEAR SENATOR PERCY: Further reference is made to your June 21, 1978, request that the General Accounting Office include the State of Illinois as part of its further investigation to identify the extent of foreign ownership in American farmland. As you know, the Senate Committee on Agriculture, Nutrition, and Forestry has requested GAO to investigate the extent of foreign ownership in farmland in nine states not including Illinois. As noted in your request, however, Illinois is one of our nation's most productive agricultural states and for that reason would be well worthwhile including in our review.

Therefore, our staff, in cooperation with the Senate Committee on Agriculture, Nutrition, and Forestry and the objectives identified in their request, will make every effort to incorporate in our overll review the State of Illinois. Our Community and Economic Development Division staff handling this work will be in touch with your office in the near future to discuss the scope and timing of GAO's review effort.

Sincerely yours,

ELMER B. STAATS.
Comptroller General of the United States.

WASHINGTON, D.C.

Hon. HERMAN E. TALMADGE,
Chairman, Committee on Agriculture, Nutrition, and Forestry, U.S. Senate.

DEAR MR. CHAIRMAN: By letter dated February 28, 1978 (app. VII), you asked us to (1) obtain information on State laws that place constraints or require reporting on ownership of farmland by nonresident aliens, (2) obtain any data collected as a result of State reporting requirements or available from other sources on foreign ownership of land, and (3) provide observations on possible approaches or follow-on initiatives for obtaining nationwide data on purchases of U.S. farmland by foreigners. You also asked us to determine whether any information was available at the county level to indicate the magnitude of foreign investment in farmland. The Chairman of the Subcommittee on Agriculture, Rural Development and Related Agencies, Senate Committee on Appropriations, expressed a similar interest (app. VIII).

Before receiving your request, we had made some preliminary inquiries on the subject of foreign investment in U.S. farmland. As we reported to you on March 17, 1978, very little aggregate data exists about the ownership of U.S. real estate; there is no national system for obtaining such information; and, although some Federal studies have been made and other efforts are underway, the data produced to date is very fragmentary and inconclusive. The results of our preliminary inquiries are included as appendix VI in this report.

In response to your request, we solicited information from each State's Governor; visited six States (California, Georgia, Illinois, Kansas, Missouri, and Oklahoma) and 25 counties; talked with legislators, State and county officials, lawyers, brokers, farmers, and other agricultural experts; and reviewed various State and county records. We also held discussions with various Federal officials. A detailed description of the scope of our work is in appendix I.

The results of our review are summarized below and are discussed in more detail in appendixes II through V.

LIMITED IMPACT OF STATE LAWS ON FOREIGN INVESTMENT IN U.S. FARMLAND

In the aggregate, State laws do not significantly inhibit foreign ownership of land. The laws range from general prohibitions on such ownership to a total absence of provisions dealing with this subject. There are so many different provisions, exceptions, and stipulations that even classifying the laws into general categories is difficult. These differences seem to mirror the diversity of State perceptions as to whether foreign ownership of land constitutes a present or potential problem in the State.

CLASSIFICATION OF STATE LAWS

As of May 1978, 25 States had laws that placed some constraints on aliens acquiring or holding farmland. As summarized below and discussed in more detail in appendix II, some of these laws had more than one type of restriction or requirement. Also, 13 States had laws that placed restrictions on corporate ownership of U.S. farmland.

	Number of States
Restrictions on alien ownership of U.S. farmland	25
General prohibition or major restrictions on nonresident alien ownership of land	9
Restrictions on size of landholdings or duration of ownership	11
Restrictions on inherited land	9
Restrictions on acquisition of State property	4
Other minor restrictions on ownership	6
No restrictions on alien ownership of U.S. farmland	25
Restrictions on corporate ownership of U.S. farmland	13

Some of the restrictions were major, while others were minor and seemed to be of little practical importance in deterring alien investment in U.S. land.

The nine States that have laws that generally prohibit, or restrict in a major way, individual alien investors residing outside the United States from owning real estate in their names are Connecticut, Indiana, Kentucky, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, and Oklahoma. Most of these States have some exceptions to the general provisions on nonresident aliens, and some have limitations on ownership or land by resident aliens.

Five States have laws that limit the total acreage that aliens can acquire or hold. These are Iowa, Missouri, Pennsylvania, South Carolina, and Wisconsin. The limits range from 5 acres to 500,000 acres. Six States (Illinois, Indiana, Kentucky, Mississippi, Nebraska, and Oklahoma) have laws that restrict aliens from owning land for more than a specified time. Illinois permits aliens to acquire land, either by purchase or inheritance, but requires them to dispose of it within 6 years. The other five States require aliens to dispose of all or part of their landholdings within specified times if they do not become U.S. citizens or, in the case of Oklahoma, U.S. citizens or residents of the State.

The laws of the 13 States that restrict corporate ownership of real estate vary in complexity and degree of severity—some apply to all corporations (regardless of whether aliens are involved); others apply only to corporations that have alien interests behind them.

Pertinent excerpts from and citations to the laws of individual States are shown in appendix V.

Ten States (Alabama, California, Georgia, Illinois, Iowa, Kansas, Nebraska, Ohio, Oklahoma, and Wisconsin) told us of proposed legislation, at the time of our review, that would place additional constraints on foreign ownership of their land or would require periodic reporting of such landholdings. Most of these States already have laws containing some restrictions on foreign ownership of land.

Even recognizing the proposed additional legislation, our overall impression is that effective control or monitoring of foreign investments in U.S. farmland through State legislation is a long way off.

DATA COLLECTED BY STATES

The States have collected very little data on foreign ownership of farmland. Only two States (Iowa and Minnesota) require nonresident aliens to file annual reports on their agricultural landholdings. These two States and Nebraska also require corporations with agricultural landholdings to file annual reports identifying the names and addresses of alien shareholders. Vermont also provided some information on the amount of farmland purchased by nonresident aliens in certain counties. Data obtained from these four States is as follows.

Iowa reported that 23 nonresident aliens owned about 7,000 acres in 1977, and that 6 of 13 corporations with at least 5-percent alien ownership owned about 2,100 acres. (Data was not available for the other seven corporations.) The 9,100 acres represents 0.03 percent of Iowa's farmland.

Minnesota reported that about 28,200 acres (0.09 percent of Minnesota's farmland) were owned or leased in 1976 by nonresident aliens or by business entities with at least 10-percent alien ownership.

A Nebraska official said that no landholdings were reported under its requirement.

Based on a limited survey, Vermont reported that nonresident aliens bought 951 acres, or about 20 percent, of the 4,746 acres of farmland that were sold in 4 or its 14 counties during 1976 and 1977.

There is no basis for concluding whether the above data provides a good clue as to the nationwide situation.

HOW FOREIGN INVESTMENT IN U.S. FARMLAND IS PERCEIVED BY STATE GOVERNMENTS

We asked the State Governors whether their States consider foreign investment in farmland to be an actual or potential problem and the reasons for this belief. The results of this survey are summarized below and discussed in more detail in appendix II.

	Number of States
Not an actual or potential problem	18
Could become a problem in the future	10
Is a problem (or limited problem) at this time	2
No official position—but some legislators and citizens are concerned	7
Mixed views	2
Not enough information for opinion or no response	11
Total	50

States that viewed foreign investment in their farmland as a potential problem generally cited one or more of the following reasons.

Foreign investors might drive up the price of farmland beyond the reach of local residents.

Too much foreign investment could eventually enable foreign interests to gain some control of the available farmland, especially prime agricultural lands. They could then gain some control over food production and possibly food prices.

Too much foreign investment could adversely affect the future of small family farms.

Most of the States that did not consider foreign investment to be a current or potential problem did not provide any insight into the reasons for their belief.

Others said that:

Data was lacking or that available data did not indicate a problem,

Foreign investment could benefit agriculture expansion,

The matter was primarily an emotional issue,

The issue has been blown out of proportion, and

Farmland prices were being driven up by farmers bidding against each other just as much as by foreigners bidding for land.

DIFFICULTY OF FINDING OUT WHAT IS HAPPENING IN COUNTIES

We visited 25 counties in 5 States to see what kind of information was available on foreign land purchases and to obtain data on the extent of such purchases in those counties. The results of these visits are discussed in appendix III. We came away with the opinion that, generally, county public records are not a useful source of information on foreign investment in county farmland. We were able to obtain some information on the subject from other sources and check it out through various means; however, the completeness of the information is uncertain and its collection depended largely on the knowledge and coeration of various private and public firms, agencies, and officials.

In trying to obtain information about recent purchases of farmland by nonresident aliens, we talked with persons who, because of their jobs or positions, we thought would be knowledgeable about their county in general and farmland transactions within that county in particular. These persons included county court clerks and tax assessors; members of county committees involved with certain Department of Agriculture activities; real estate agents, brokers, and appraisers; bankers and employees of other types of lending institutions; title insurance companies; local farmers; and others.

We asked these persons for any information they had on specific instances of farmland purchases within their respective counties by nonresident aliens since January 1976. We tried to verify any information obtained by reviewing available public records. We had no means of checking the completeness of the information obtained and therefore cannot say what proportion of all purchases or of all foreign purchases of land in each county was identified.

Also, in cases where the owners of record were corporations or other business entities, we could not identify the beneficial owners of the farmland (for example, the stockholders of a corporation). We therefore considered such farmland to be foreign owned if the corporations were either incorporated in a foreign country or listed foreign addresses for one or more officers or directors. Included in this category were corporations listing addresses in places with significant tax advantages such as the Netherlands Antilles. It is possible, however, that some of these corporations may be totally owned by U.S. citizens.

IDENTIFICATION OF FARMLAND OWNED BY NONRESIDENT ALIENS IN SELECTED COUNTIES

The information we obtained for the selected counties is summarized below by State and is discussed in more detail in appendix III.

State	Number of counties	Total farmland acres in counties	Information indicates foreign ownership: Number of acres	Information indicates foreign ownership: Percent of total acres
California	3	7,367,730	8,786	0.1
Georgia	11	1,611,010	24,239	1.5
Kansas	3	771,000	2,678	.3
Missouri	3	1,055,143	9,013	.8
Oklahoma	5	5,342,872	0	0
Total	25	16,147,755	44,716	.3

Further information on these transactions and on additional scattered land transactions in these States is presented starting on page 25 of appendix III.

Because information is not available for determining whether the above data is representative of foreign investments in the counties visited, the information we were able to gather could be only the "tip of the iceberg"; on the other hand, it could represent a conservative approximation of the situation in the counties involved.

IMPACT ON LAND PRICES

We also acquired or developed some data on the prices nonresident aliens paid for farmland in several counties, but we could not determine to our satisfaction whether these prices were on target or were considerably higher or lower than prevailing market prices for comparable property in those locations. Sales prices generally were not recorded on the property deeds we reviewed. For some sales in Georgia, we estimated sales prices on the basis of the transfer tax and other information shown on property deeds.

For example, the estimated prices paid by nonresident aliens for 17,400 of the acres we identified in six counties in east central Georgia ranged from $305 to $717 an acre. According to county sources, the average price of farmland in these counties ranged from $300 to $500 per acre—the better land costing more. Elsewhere in Georgia, prices paid for about 6,000 acres by nonresident aliens ranged from $925 to $3,155 an acre, compared with average prices ranging from $600 to $1,000 an acre. Another example showed domestic investors paying about $150 an acre less for comparable land than a foreigner.

In one case in Kansas where we could determine the price of foreign owned farmland, the price per acre was about $40 less than the average price paid by domestic purchasers in eight sales of generally comparable land.

OPINIONS OF LOCAL AUTHORITIES AND OTHERS REGARDING FOREIGN OWNERSHIP OF FARMLAND

Local authorities and others expressed differing views about the implications of nonresident aliens purchasing farmland. Some were concerned that foreign purchases might pose a potential problem; some believed that problems already have surfaced; and others said that such investment was beneficial. Nearly all of the persons we talked with had heard rumors about nonresident aliens purchasing farmland, either in their areas or elsewhere, but none of them knew the extent of such investment in their particular localities. More information on local views is presented starting on page 36 of appendix III.

OBSERVATIONS ON CURRENT EFFORTS AND ALTERNATIVE INITIATIVES

There is virtually unanimous agreement among persons at all levels of government and in the private sector that, currently, there is no reliable data on the amount of U.S. farmland owned by nonresident aliens

or on recent trends of such ownership. Such information would be very helpful to the Congress if it wishes to formulate and implement a national policy on nonresident aliens owning farmland in the United States. Clearly, efforts need to be started now to produce useful and meaningful information.

FEDERAL EFFORTS

Several Federal efforts touching on this subject have been started or planned. They are summarized below and discussed in more detail in appendix IV.

A planned Department of Agriculture feasibility study of ways to obtain nationwide land ownership data. (This has still not gotten off the ground because of funding problems.)

A Department of Agriculture questionnaire type survey designed to obtain data on the characteristics of landowners and land uses.

A Department of Commerce effort (by its Office of Foreign Investment in the United States) to identify all types of foreign investments in the United States, including those in the agriculture area.

A Department of Commerce effort (by its Bureau of Economic Analysis) to require all nonresident alien firms and individuals owning or leasing at least 200 acres of real estate to report the particulars of such landholdings.

A Department of Commerce effort (by its Bureau of the Census) to obtain information on nonresident alien owners of farmland through the 1979 Agriculture Census.

The results of Federal ongoing and planned efforts for obtaining useful data on foreign investment in U.S. farmland are not encouraging.

RECOMMENDATION

The effort planned by the Department of Commerce's Bureau of Economic Analysis to identify certain real estate owned or leased by nonresident alien firms and individuals will not separately identify the amount of farmland acres included in the total acreage reported. We suggested to Commerce officials that such a breakout of data would be useful to the Congress, but the officials told us that they do not plan to do this. We therefore recommend that your Committee request the Department of Commerce (1) to adjust its reporting requirements to specifically identify farmland and (2) include such information in its report to the Congress.

ALTERNATIVE NEW APPROACHES

Following are some observations on various approaches that have been suggested for obtaining information on nonresident alien investment in U.S. farmland. Before any system is instituted, a number of related legal, procedural and coordination issues need to be addressed. These are discussed below and in appendix IV.

1. As a condition for any individual or entity receiving any benefits through Federal rural/agricultural programs, they could be required to first register their alien status and the acreage they own or lease at the county Agricultural Stabilization and Conservation Service office. This approach has the advantage of being an all-Federal system which should reduce legal and coordination difficulties. It also has a built-in compliance factor for those benefiting or planning to benefit from such programs. A disadvantage would be that all foreign owners of farmland may not participate in, and some may choose to disassociate themselves from, such Federal programs.

2. As part of a mandatory process of recording land transfer transactions at the county level, new land owners or their agents could be required to identify on a data processing card the alien status and acreage of such ownership. This information could be routed through the States to a central Federal point for tabulation and annual reporting. This would not provide data on existing land ownership. It would require close cooperation of all States and counties, changes in State laws and county ordinances, and uniform data collection and reporting systems. A major advantage would be that information would automatically be generated on all purchases by foreigners.

3. Another approach would be to require that all parties customarily involved in real estate transfers report on any land acquisitions involving foreign interests. Major drawbacks would include uncertainty that all foreign acquisitions have been identified, the large number of data collection points, the probability of much duplication, and the probable strong opposition from nearly everyone concerned in collecting the data. Also this would not provide data on existing land ownership.

4. Periodic and extensive surveys, using scientific sampling techniques and centralized controls, might provide data that could be projected on a nationwide basis. The design and implementation of such an approach could present serious problems, and the resulting data may not be entirely satisfactory.

5. Of the alternatives considered, the most feasible and simplest approach may be to federally legislate a nationwide registration system for foreign owners of U.S. land. Such a system could be generally similar to the alien resident registration system currently used by the Immigration and Naturalization Service—which requires card-type reports to be submitted annually by resident aliens through post offices to a central Federal point. Such a system would place the reporting burden on the landowners (or their agents), would require relatively little involvement by State or county governments, would be conceptually simple, and would provide data on current ownership, rather than only subsequent farmland transfers. The usefulness of such a system would depend on the completeness of the information reported.

Any system used would require the resolution of any problems caused by constitutional and legal issues, and also should include the following:

Standard definitions of terms and clear reporting criteria.

Stipulations that only data on foreign investments in farmland would be collected.

Criteria as to the minimum number of acres to be reported.

Use of a standard card-type form to facilitate data processing.

Meaningful incentives or penalties to insure submission of full and accurate data.

We trust the foregoing information will be useful to your Committee. We plan to consult further with your Committee to decide on a future role for our Office in this area of concern.

To expedite reporting, we did not follow our normal practice of obtaining formal agency comments on the matters discussed in this report.

As arranged with your office, we are furnishing copies of this report to interested congressional committees, Members of Congress, and others.

Sincerely yours,

Acting Comptroller General of the United States.

[From the Chicago Tribune, Aug. 6, 1978]

WHO OWNS THE LAND?

(By R. C. Longworth)

We Americans go through life impaled on statistics. Governments count us, credit companies rate us, professors watch us, pollsters catalog our moods. Daily and hourly, we are sorted, punched, spindled, coded, and filed.

But there is a gap in this mass of data and it's a big one. No one knows who owns America.

City governments keep a block-by-block, house-by-house record of urban property ownership.

But outside the cities lie more than 2 billion acres of American countryside—farms and forests, parks and wilderness, rivers and roads—and no one really knows for sure who owns much of them.

Of the nation's 2 billion acres, the federal government owns 762 million, nearly 40 percent, most of it in the West. This includes not only parks and public areas but vast tracts of land rich in minerals and timber, most of it leased to big corporations.

That leaves some 1.4 billion acres in private hands. The evidence indicates that a startling amount of it is owned by the same relatively few corporations.

But no one—reformers fighting for the family farmer, state and federal officials trying to collect taxes, agriculture experts planning price supports and other aids—can point to precise statistics.

"Who owns this land?" populist land expert Peter Barnes has written. "What are the social, economic and environmental consequences of present ownership patterns?

"Few questions are more important for the future of America's land and people, yet there are no government reports, and almost no academic studies, that provide adequate answers."

The issue is receiving fresh attention now because of the controversy over the suspected purchase of American farmland and other real estate by foreigners—not only Arabs but West Europeans, Japanese, and South Americans seeking a stable haven for their money.

Congress is demanding studies to define how much of America is in foreign hands. Some congressmen want laws to limit buying. The Agriculture and Commerce departments and the General Accounting Office all are probing the issue. Several Midwestern states have passed laws requiring disclosure of land ownership, largely because of the foreign issue, and a bill before the Illinois legislature would ban any ownership at all by nonresident aliens.

The outcry over foreign ownership may be a red herring. Government surveys, admittedly incomplete, indicate that foreigners own less than half of 1 per cent of American farmland. The Federal Reserve Bank of Chicago said foreigners accounted for less than 1 per cent of recent farm sales in its Midwestern district.

Iowa's land reporting law, one of the best, turned up only 7,000 acres owned by nonresident aliens last year [including 2,000 acres owned by the Metternich family of Germany].

By contrast, there is a single 6,000-acre farm near Odebolt, Iowa—the biggest and most important farm in the area—that is owned by a Detroit trucking executive named William O. Bridge. Bridge has owned the farm for a decade but has never moved to Odebolt.

And this, according to critics of the current pattern of U.S. land ownership, is the whole point.

The sturdy, independent family farmer—the Grant Wood figure prying a hard but good living from his own soil—is a dying breed, they say. Instead, a huge and growing part of America is owned by giant corporations, unfeeling conglomerates and absentee landlords.

The critics argue that Americans—who have demanded for years that underdeveloped nations institute land reform—could use some of it themselves, for lots of good reasons:

The U.S. Agriculture Department says we will need another 98 million acres in production by 1985 to meet our food needs. Instead,

productive acreage has been shrinking by 1 million acres per year, largely because farms are sold to speculators and turned into subdivisions.

Corporation farming leads to reduced competition which leads to higher prices. Four companies now control 90 per cent of U.S. cereal output. Cereal prices doubled in the last five years.

Small farmers are being driven out. There are half as many American farms now as in 1950. And the death of every six small farms means the closing of one small-town business. Tenneco, the energy giant, farms 1.8 million acres and buys its tractors straight from its subsidiary, J. I. Case, Inc.—not from nearby small-town tractor dealers.

A concentration of land ownership means a concentration of political power, both local and national. Two former secretaries of agriculture have been directors of the Ralston Purina Corporation. Corporate farms and mining companies literally rule whole counties in California, Appalachia, and elsewhere, controlling local taxing bodies and the rates they set. A single firm, American Association, owns 90 per cent of the coal reserves and 17 per cent of the land in Claiborne County, Tenn., but pays only 3 per cent of the county's taxes.

Tax laws—especially regarding capital gains and inheritances—are driving families out of agriculture and encouraging corporate or absentee farming by permitting farms to be used as tax losses. In 1968, more than two-thirds of the 66,000 wealthiest persons reporting farm income claimed a net farm loss.

Absentee landlordism is rife. Eighty percent of Maine is owned by absentee landlords. A pilot study by the Agriculture Department in Virginia's Rappahannock County found that 53 per cent of the county's landowners lived outside its boundaries and only 5 per cent of the owners were primarily farmers.

According to available statistics, the eight largest energy companies own 64.6 million acres [larger than the total size of West Germany] plus leases on untold energy reserves—mostly on federal lands leased to them by Washington. This concentration gives them a lock on the nation's energy future—not only in oil but in coal and uranium, too.

Ecologically, present policies often are disastrous. Absentee mining companies have stripped away whole landscapes. Short-sighted corporate farms have poisoned land with too many insecticides and chemicals.

Railroads were given 131 million acres—an area almost as big as California—in federal land grants in the 19th Century. The purpose was to encourage them to build lines west to open the nation up to settlement. The rules required the railroads to sell the land cheap to settlers. They were ordered to forfeit lands not used for railway building and forbidden to use the lands for mineral prospecting.

Despite this, the railways still hold an estimated 20 million acres—estimates of the exact amount vary widely—ranking them just behind the energy and timber companies as land moguls. The St. Louis & San Francisco Railway, for instance, owns surface or mineral rights to 1.4 million acres in Arizona and New Mexico, although it runs no trains there.

Santa Fe Industries, parent of the Atchison, Topeka & Santa Fe Railway, owns huge reserves of coal, uranium, oil, and timber in the West. According to company president John J. Schmidt, "We're going to squeeze as much blood as we can from the turnip."

"Ownership and control of the land has become more and more concentrated," says Joseph Fugere of Rural America, a Washington-based research and political action group.

Rural America is one of dozens of small groups around the nation trying to work on this problem. Between them, they have come up with many of the statistics cited above.

But all are hampered by the same problem—a lack of information or, rather, a lack of the broad, nationwide data that could spur Congress to action. The instances cited above are symptoms of deep trouble, but are not complete enough to form the basis of a new policy.

The U.S. Department of Agriculture conducted a recent survey that is now conceded to be incomplete and unreliable. The department is currently doing another national study, asking landowners in every county of the nation about the size of their holdings, how they use them, and other questions.

"But it's a voluntary survey," says James Lewis, one of the experts at work on it. "There is no way to force people to give information. I'm not very optimistic about our survey producing information on non-resident ownership or corporate ownership. If people don't volunteer this information to us, we just won't get it."

Twelve states require regular reports on land ownership, but most also lack the manpower or laws to penetrate smokescreens or to force recalcitrant corporations to cooperate. In Nebraska, spot checks indicated one-third of landowning corporations failed to comply with state reporting laws.

"In Illinois, there is no law saying you have to disclose ownership," says Ray Lett, assistant director of the state department of agriculture. "You don't even have to record a deed. So trying to find out who buys property can be an impossible task if the buyer wants to hide it."

Land problems affect more people than farmers. A University of Alabama study, for instance, showed that one-fourth of that state's land area is owned by major corporations, a development which has forced thousands of small farmers—mostly poor blacks—off the land and into the overcrowded cities.

"This land problem is the source of our urban problem," says Washington lawyer Charles Morgan Jr., a former director of the American Civil Liberties Union. "All these displaced farmers came north and crowded into the cities.

"Every liberal I know worries about urban housing, without thinking where this urban crisis comes from.

"This nation can't have an urban policy without a land policy."

But before it can have a land policy, it needs firm land data.

"For example, if we want to know how a farm subsidy really affects a community, we need to know about the structure of land ownership," says Gene Wunderlich, director of the Rappahannock County survey.

Even in California, where some of the most vigorous public interest research organizations operate, land information is hard to come by.

"No statewide compilation of 'who owns California' exists," admits Robert C. Fellmeth, writing in a Ralph Nader-sponsored report.

"The California Public Utilities Commission keeps no formal records of land ownership by utilities," Fellmeth says. "Banks, savings and loan associations, and insurance companies have formed holding companies which enable them to enter into direct land speculation, ownership, and development in spite of laws designed to prohibit such activities on the part of organized financial interests. The state departments designed to regulate these interests do not have adequate ownership information to deal with this 20th Century loophole."

Available statistics show that California's top 25 landowners—including Southern Pacific Co., Tenneco, Standard Oil, and Boise Cascade—hold 58 per cent of the state's land. Actual holdings may be even greater.

The Securities and Exchange Commission requires corporations to report holdings of subsidiaries that bring in 15 per cent or more of their gross income. But anything less than this is considered insignificant and so escapes reporting rules.

Some of these subsidiaries can be agriculturally significant. Kaiser grows avocados. Dow Chemical raises lettuce. And RCA is a turkey farmer.

None of this information is necessarily secret, but neither is it generally known to the public. Most of it comes in bits and pieces from the work of Nader-type activists pouring over SEC records, assessors' rolls, and legal documents.

Sometimes these groups force action. National Land For People, Inc., representing small farmers in the Westlands Water District in California, filed a suit that resulted in a Carter administration order that, if implemented, will return more than a half million acres of federally irrigated farmland to family farmers.

Among the corporations and absentee owners that could be forced to sell is Southern Pacific, which would lose 83,000 of its 109,000 acres.

But more often, the necessary litigation costs too much for individuals of public interest groups to tackle. A Wyoming man took a mining firm to court in 1976 to try to stop a proposed strip mine. The company countersued for $14 million and the man, outgunned, dropped his case.

The solution lies in a national survey of land ownership by the federal government, with laws to guarantee cooperation among land holders. A National Conference on Rural America called for a "National Land Inventory" that would reveal ownership and also supply technical data on land use and potential.

"There's a new interest in this," Peter Barnes says. "It's a coalescing of environmental concerns, a recognition of urban overcrowding, and the result of dumb land policies and a lot of people being ripped off."

But the first step has yet to be taken.

"Land is probably the most important resource we have," says Richard H. Lehman, a legislator from a California farming district, "and we do not have the necessary tools to find out who owns it."

GROWING OLD

Mr. PERCY. Mr. President, growing old in America and all of the problems therewith has taken on far more serious aspects than a decade ago.

Persons over 65 will soon be the fastest growing segment of the U.S. population and their fears and problems have increasing importance for all of us.

In our grandfathers days, old people simply went to live with their children. Not so today. Generally, the elderly live in their own home until they are no longer able to take care of themselves. Then to a nursing home or a mental institution. There is almost no security or feeling for those growing old in America. In many States a person may be committed with very little notice and upon the request of a member of the persons family.

Illinois is one of only eight States where an elderly person cannot be found incompetent by a court until that court has first appointed a temporary guardian to look into the case.

I ask unanimous consent to print in the RECORD an article in a series reported by Ray Mosely of the Chicago Tribune which describes in great detail the problems of the elderly and especially those with mental or prospective mental problems. It is both informative and provoca-

tive for those who are interested in the problems of the mentally, elderly ill. This article is from the Tribune of Saturday, October 7, 1978.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

IN INCOMPETENCY HEARINGS, YOU NEEDN'T BE THERE TO LOSE

(Nature abhors the old, and old age seems the only disease; all others run into this one.)—Ralph Waldo Emerson.

In the 4th Century B.C., the sons of the Greek dramatist Sophocles decided the old man had become dotty because he insisted on writing plays instead of tending to business matters.

The sons went to court in an attempt to have him declared an imbecile and to have the management of his property transferred to them.

Sophocles appeared before the jury, read his latest work, "Oedipus at Colonus," and asked whether it seemed the work of an imbecile. The jury found in his favor.

In the United States, he might never have had the chance to appear in court. The laws of most states permit a court to declare an elderly person mentally incompetent without his being present or even represented by an attorney.

Once such a judgment is issued, the elderly person loses his power to sue, to charge a purchase, to sign a contract, to deed property, to marry or divorce, to open a bank account, and to vote.

His house can be sold by a court-appointed guardian or conservator without his knowledge or consent.

"The penalty can be much more severe than the penalty for murder," said Dean Jost, an attorney in Chicago's Uptown neighborhood for the Legal Assistance Foundation of Chicago, who has dealt with many cases in which elderly persons have been declared incompetent.

The Tribune Task Force examined the problems of elderly persons with mental illness as part of a six-month investigation of old age in America.

The laws under which people can be found incompetent represent just one example of the discrimination and hardship that society imposes on the elderly who are mentally ill.

Medicare's laws also discriminate against those suffering from mental illness, and in recent years state governments have taken thousands of mental patients out of state hospitals and put them in nursing and boarding homes to shift the cost of their care to the federal government.

Other old persons may suffer because some doctors mistakenly diagnose a variety of health problems as senility and fail to give them proper treatment.

Experts estimate that 3 million to 4 million of America's 23 million old people have significant mental problems. According to this estimate, two of every three persons who have such problems are not receiving any mental health care.

The likelihood of mental illness tends to increase with age because of the psychological strains that may come with retirement from productive work, loss of income, loss of spouse, departure of children, and increased physical impairments.

The elderly account for 25 per cent of the suicides in the United States, although they constitute only 11 per cent of the population. The highest suicide rates occur among white males in their 80s.

In seeking to protect the mentally incompetent, state laws provide for appointment of guardians, who have responsibility for personal welfare of the individual, or of conservators, whose responsibility is for the person's finances.

Such laws are considered necessary to help mentally impaired old people to make decisions in personal matters and to avoid their being victimized by the unscrupulous.

But many legal authorities believe the laws are too sweeping and do not provide enough safeguards of individual rights.

"The protective service law is a two-headed creature, part Santa Claus and part ogre," two legal experts wrote in a study prepared last year for the Senate Committee on Aging.

Illinois recently reformed its laws to give greater protection to the right of the mentally ill.

Under bills signed by Gov. Thompson on Sept. 5, a person cannot be found incompetent by a court until the judge has first appointed a temporary guardian to look into the case.

The temporary guardian must present recommendations on whether the person should retain all control over his affairs, partial control, or none.

"This will allow the person to retain his dignity as well as have his rights protected," said Jerome Goldberg, who served as executive director of the Governor's Commission for Revision of the Mental Health Code.

But it remains to be seen, he said, whether the temporary guardian "will be a real guardian or one in name only."

Illinois is one of only eight states that have enacted such reform legislation, according to a spokesman for the American Bar Association. The others are California, Idaho, Kentucky, Maine, North Carolina, Texas, and Washington.

In most other states, the proceedings in such cases are usually a mere formality. Often, the family of the old person initiates the action by asking the family doctor to certify that the person is mentally incompetent.

The person whose competence is questioned may be given as little as three days' notice of the legal proceedings and often does not appear in court or have legal representation, according to John Lamb, co-director of the Mental Disability Legal Resource Center of the bar association.

The doctor who has pronounced someone incompetent does not have to appear in court. In most cases, only those seeking to have an old person ruled legally incompetent are present, and the judge enters a judgment in default.

The bar association is preparing model legislation designed to put safeguards in such proceedings.

"People tend to be overprotective of old people," said Karen Lewis, a paralegal aide with the Senior Legal Aid Project at the University of Southern California.

"They want to put them in a nursing home and take away all of their rights just because they may not be able to totally handle all of their affairs."

Lewis told of an elderly woman in California who had gone into a nursing home after a fall in a bathtub. Then her daughter died, and the elderly woman lapsed into depression.

A state guardian was appointed. After a few years, the woman recovered. She was running errands for the nursing home and helping with other patients, but still she was without any legal rights.

The state guardian agreed to go to court with Legal Aid on her behalf, and her rights were restored.

In another California case, a young woman had been appointed guardian of her father. The state welfare department charged she was siphoning off his money through such devices as billing the estate for $100 worth of groceries and delivering only $30 worth to her father.

Legal Aid went to court and got the guardianship switched to a niece, but it took six months to get a hearing.

"Many times, the person involved dies before a problem gets a hearing," said Gary Rowse, project director of the Senior Citizens Legal Service at the University of Southern California. "It is bad for everyone and the confusion and strain on the elderly person are probably harmful."

Prof. John J. Ragan of the University of Maryland Law School and Georgia Springer, staff attorney for the National Council of Senior Citizens, have proposed changes in the laws in guardianship and civil commitment to give more protection to old people.

Except in emergencies, they suggest, courts should be required to order that the elderly person be screened by a psychiatrist and social worker to determine the most appropriate kind of assistance.

They also recommend that the elderly person be assured the right to be present in court, to be represented by a lawyer, and to cross-examine witnesses.

Another problem area for the old who are mentally ill involves Medicare, the federal health insurance program for the elderly.

An elderly person may receive hospital care for physical ailments as often as necessary, provided there is a 60-day break between hospital stays. But there is a lifetime limit of 190 days of coverage for treatment in a psychiatric hospital.

An old person with a physical ailment pays an initial deductible fee on doctor's bills, and Medicare covers 80 per cent of reasonable bills after that. But a mental patient, after paying the deductible, gets coverage for only 50 per cent of his bills, up to a limit of only $250.

"This is blatant discrimination against the mentally ill, and it was written into law by the U.S. Congress," said Hilda Robbins, president of the National Association for Mental Health.

The U.S. Civil Rights Commission, in a report on discrimination against the elderly in federally supported programs, said, "The area of mental health services represents one of the most glaring examples of discrimination on the basis of age."

The commission studied 328 community health centers. It found that people over 65 constituted 9.9 per cent of the populations served by the centers but only 4.1 per cent of the patients.

An additional finding was that the centers devoted only 5 per cent of staff hours to consultation with agencies that serve older persons.

"On result is that older persons do not have an opportunity to learn what preventive measures they can take to maintain good mental health," the commission said.

A further problem for the elderly mentally ill has been the "dumping" of patients from state hospitals into nursing and boarding homes, where psychiatric services are rarely available.

The reason is financial: It costs about $21,000 a year in state money to keep a patient in a mental hospital. In nursing and boarding homes, the federal government picks up the bill for the elderly under the Supplementary Security Income program, at an average cost of about $2,000 a year.

The number of patients in state hospitals has dropped more than 62 per cent in the last nine years. In Illinois, the percentage of elderly in state hospitals has declined 87 per cent, with an estimated 13,000 residents having been moved into Chicago's Uptown area, where nursing and boarding homes proliferate.

Dr. Jack Weinberg, director of the Illinois State Psychiatric Institute and past president of the American Psychiatric Association, said the dumping of mental patients into nursing homes is "devastating," both for them and for the mentally healthy patients already in the homes.

"In mental hospitals, we didn't provide enough money, so they became snake pits," he said. "Then we send the mentally ill into

the community, and again we do not provide enough money. The guilt is all of ours."

Weinberg said one of the strains that may help induce mental illness in the elderly is that they are "a people without a future."

"It's subversive to the American way of life," he said. "In our society, we value the future more than anything else. The elderly can't enjoy retirement because they are planning for the future, and it's bleak. The hope for a better tomorrow is a mirage in the twilight of life."

Society must get away from "the stereotype that the elderly are useless," Weinberg said, and the elderly individual must do a great deal himself to maintain his mental health.

"The secret of mental health is to have a multiplicity of sources of gratification—work, an interest in the community, recreation, education, church, and the family," he said.

Another problem of the elderly was highlighted recently by a group of medical experts who spoke at a National institute of Health conference on treatable diseases of the elderly.

They said that 300,000 to 600,000 elderly persons who show symptoms of brain failure have been mistakenly labeled "senile" and often go untreated in nursing homes and mental hospitals.

These experts said a number of treatable physical diseases are often undiagnosed and can cause temporary brain dysfunction, giving the appearance of senility.

Such ailments include heart disease, strokes, certain infections, anemia, nerve disease, brain tumors, kidney or liver failure, diabetes, nutritional deficiencies, reactions to tranquilizers and other drugs, and alcoholism.

"The failure to treat and diagnose reversible brain syndromes is widespread," said Dr. Robert N. Butler, director of the National Institute on Aging.

President Carter's Commission on Mental Health has estimated that 20 to 30 per cent of those diagnosed as senile have conditions that are preventable or reversible if treated early.

MODERN CZECHOSLOVAKIA

Mr. PERCY. Mr President, October 28, 1978, marks the 60th anniversary of the birth of modern Czechoslovakia. Over the years my staff and I have often had occasion to work closely with the Czechoslovak National Council of America, and I would like to join my Czechoslovak-American friends in celebrating this day. October 28 is, for me, an occasion of tempered joy and remembrance. I have a deep appreciation for the heroism and richness of the Czechoslovak tradition and culture. I felt great personal sadness and outrage when the Communists first toppled the democratic and independent Czechoslovak state in 1948, and again in April 1968 when the human face of the Dubcek regime was forcibly cast into the iron mask of Soviet communism.

Czechoslovak history has been characterized by modernism, enlightenment, high ideals and social achievement. The kingdom of Bohemia was possibly the brightest spot in Europe during the so-called Dark Ages. The Czech Reformation, which occurred a century before Luther's time, reflected the widespread literacy and the strongly held religious and nationalist sentiments of the people. The Hussite movement clearly demonstrated that the people of Bohemia were motivated by the forces of modernism and enlightenment, forces not yet felt by the rest of central Europe.

Two centuries of struggle and three of Hapsburg domination could not destroy the people's profound spirit of self-determination. Czech soldiers made important contributions to the Allied side during World War I. The Czechoslovak First Republic, founded by Prof. Thomas Masaryk, was unquestionably the strongest democracy in central Europe during the interwar period. The fundamental civil rights of all citizens were constitutionally guaranteed and were genuinely respected in practice.

The Third Republic, under President Benes, was to be a neutral intermediary between the political and economic systems of the East and West. The Communists, who could never gain control through the legitimate political practices, turned to the use of terror and outright force to bring the Czechoslovak Republic into the Soviet orbit. But two decades of Communist control could not extinguish the strong aspirations of self-determination. The 550,000 troops of the Warsaw Pact countries which occupied Czechoslovakia in April 1968 and the five divisions of Soviet soldiers still stationed in Czechoslovakia could not snuff out the spirit later shown in Charter 77. The Czechoslovak people have shown time and time again that force, that military occupation, has never proved equal to the tenacity and determination of the people. Absolutism has historically been no match for the vitality of the national identity and love of freedom.

The Czechoslovak Declaration of Independence, which brought the First Republic into existence, was signed by Thomas Masaryk in Independence Hall in Philadelphia. The Constitution of the First Republic is in many important respects similar to our own Constitution.

All Americans were horrified by the events of April 1968. We shared the agony of the Czechoslovak people. And all Americans were inspired by the courage of the signers of Charter 77. We share, and will always share and support, the aspirations for self-determination which have characterized the Czechoslovak national character throughout history.

CRIME LAB LEADS FIGHT OF SUBURBAN CRIME

Mr. PERCY. Mr. President, today's criminal is becoming an increasingly sophisticated operator. No longer limiting their activities to urban areas, criminals are branching out to the suburbs. Nowhere is this more apparent than suburban Cook County, Ill., where in the last year we have seen an alarming growth in crime. The Chicago Crime Commission reported in early September that, despite a 3 percent decrease in crime nationwide in the first 6 months of 1978 and a 7.5 percent decline in serious crime in the city of Chicago in the same period, crime in the Chicago suburbs rose 10 percent. Officials, noting large increases in the numbers of murders, robberies, aggravated assaults, and rapes, attributed this significant rise in part to a lack of cooperation and coordination on the part of suburban police officials.

The Northern Illinois Crime Laboratory is an example of what suburban police can do to increase cooperation. Located in the northern suburb of Highland Park, the lab was formed in 1968 to aid suburban police forces collect and evaluate evidence found at the scene of the crime.

Law enforcement officials across the country have learned that their efforts can be greatly aided by good crime lab work. Crime-scene searches, and quick, thorough analysis and identification of materials found at the scene are essential in assisting in the successful resolution of crimes. Information obtained in lab processes is also vital to crime prevention efforts. Accordingly, law enforcement agencies in many cities are taking steps to develop and to use sophisticated collection, detection, and examination equipment, utilizing the latest in technological innovations.

The Northern Illinois Crime Laboratory is just such a facility. Started through the combined efforts of the Highland Park police chief, Michael F. Bonamarte, and a former Chicago police chemist, Andrew Principe, the laboratory is a vital component in police attempts to reduce increasingly sophisticated suburban crime. The lab utilizes $1 million of the most advanced equipment available, including: a gas chromagraph-mass spectrometer system, used to identify organic compounds; an X-ray fluorescence spectrometer system, used to analyze soil, paint, and hair samples; and other devices which can analyze drugs, pesticides, poison, and flammable materials.

The laboratory is unique in that it is organized as a nonprofit corporation to serve Chicago suburban law enforcement agencies. In its decade of operation, it has grown from a small lab serving seven northern Chicago communities to a well-equipped facility serving 668,500 people in 45 suburban municipalities. It is financed as a cooperative undertaking of the member communities, and employs 11 specially trained and skilled technicians.

The Northern Illinois Crime Laboratory is a triumph of ingenuity and enterprise on the part of two farsighted police officers. It is also a shining example of how communities can work together to solve crimes, and is a big step toward reduction of the surburban Chicago crime problem.

On September 21, the Chicago Tribune ran an article by Patricia Leeds on the lab's director, Andrew Principe, entitled "Northern Suburb Crime Lab Is His Pride And Joy." The piece details Principe's role in the lab's growth and development over the past 10 years. I ask unanimous consent that this article be printed in full in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

NORTHERN SUBURB CRIME LAB IS HIS PRIDE AND JOY

(By Patricia Leeds)

The Northern Illinois Crime Laboratory, the only one of its kind, was born of the

frustration of a small town police chief and the determination and know how of a dynamic Chicago policeman.

The Northern Illinois laboratory will celebrate its 10th anniversary Oct. 1.

It began when Michael F. Bonamarte, chief of the Highland Park Police Department, complained to Andrew Principe, a friend he knew from Principe's years with the Chicago Crime Lab.

"What's the matter with your Chicago Crime Lab? They won't take our cases," he said. "They said they were too busy with their own!"

Principe replied, "That's right—they're overloaded with work, not only their own, but from the suburbs. Why don't you start your own lab? You're a wealthy community."

At that time, Principe, a chemist, had taken a leave from the department to work for the Illinois Racing Commission, making sure horses were not being doped.

"I didn't like it nearly as well as the crime lab, and Bonamarte called me the next morning and said, 'I've been thinking about what you said. We ought to start our own crime lab.' "

"I became enthused and agreed, 'Why don't we?' "

"From then on we were on our way."

At first there was just Andy Principe and one small office in the Highland Park police station and only the very basic equipment.

"I couldn't have made it without the help of the Chicago Crime lab," Principe is quick to emphasize. "They helped me with equipment and with their expertise on the subjects I wasn't trained in, like ballistics, toolmarks, and such."

Between Principe's enthusiasm and Bonamarte's assistance, it was only a matter of months before Lake Forest, Libertyville, Highwood, Lake Bluff, Deerfield and the Lake County sheriff's office joined.

Each municipality was assessed according to population. The quarters were expanded to four rooms in the back of the police station, and Principe began to acquire a staff.

Now, 45 municipalities are members, and the lab has 11 employes and about a million dollars worth of equipment. It occupies the entire second floor of the police building, which formerly was used for courtrooms.

It is organized under Illinois statutes as a nonprofit corporation to serve law enforcement agencies in the area. As far as is known, it is the only regional crime laboratory organized, financed, and governed as a cooperative undertaking by several small communities.

Municipalities in northern Illinois and Lake County previously relied on the Chicago Crime Detection Laboratory. It served all municipalities free of charge and offered two services: collection and evaluation at scenes of major crimes, and scientific examination.

In June of 1968 the Chicago crime lab officials decided it could no longer serve communities outside Cook County due to the rising crime rate in the city and suburbs, and the increase in arrests for narcotics offenses.

The lab also faced an increased number of court appearances for testimony, and more demands by defense attorneys and prosecutors for laboratory services.

The outlying police departments still could use the State of Illinois laboratory or the Federal Bureau of Investigation laboratory, but neither of those makes crime-scene searches.

This can be the most important part of an investigation. Skilled technicians were needed to collect, preserve, and transport evidence to ensure its acceptability in court.

Principe started a program for training evidence technicians fashioned after Chicago's.

Two men from each of the member departments are trained to search crime scenes, not just for fingerprints, but for such evidence as footprints, hair, fibers, or traces of blood or mud. They are called the "task force."

In the event of a major crime, the local police secure the crime scene and await the mobile unit and the task force.

The laboratory uses the latest in technology, and its million dollars worth of equipment includes a gas chromagraph mass spectrometer system—one of only 20 to 30 in the country—which identifies organic compounds. An X-ray fluorescence spectrometer system analyzes samples of soil, paint, and hair for trace elements.

This sophisticated equipment can analyze drugs, pesticides, poisons, and flammable materials—all important in narcotics, homicide, and arson cases.

The new superbly equipped lab started out with a $20,000 donation from a private citizen for the first purchase of equipment when Principe and Bonamarte weren't sure where the money would come from for their undertaking. The city of Highland Park donated a panel truck to be equipped and used as a mobile unit truck, and the Chicago Crime lab filled in with their assistance in those early days.

"They taught me everything I know," Principe acknowledges, "especially in forensic science."

He likes to tell how he came to be in this highly specialized field.

"I was working as a chemist for Armour & Co. on soap research. One day, one of my friends who had joined the police department and used to tell me all kinds of exciting stories about his job and invited me to come down and tour the crime laboratory," he relates.

"Before the tour was over I knew that was the kind of work I wanted to do," he said.

He told the late John Ascher, who was director of the laboratory, "I'd like to work here."

"You're not a policeman—you can't," Ascher told him.

The next day, Principe signed up for the next police exam. He took it and passed and was sworn in. He immediately went to see Ascher.

"I'm a policeman now," he told Ascher.

"So what?" Ascher replied.

"I'd like to work for you now."

Ascher answered, "Not until you get some experience."

He had him assigned to the Fillmore District, then one of the busiest, toughest districts in the city. An officer could learn more there in one year than you could in some others in 10 years, they used to say around the department.

And after one year Principe was assigned to the crime lab.

"I'm grateful for that year at Fillmore, it helped me understand a lot more than I would have about forensic science if I hadn't been there."

He worked in the crime lab for 10 years, where his knowledge about chemistry helped solve many important cases.

In 1965, he took his leave from the department and he is still on leave.

He hired two of the policemen who he considered among his best teachers. Irwin Haviland (microscopy) and John Stauffer (ballistics expert) after they retired from the Chicago Crime lab. Stauffer recently died, but Haviland is his chief aide.

Principe is proud of his son, Charles, who is his document examiner. "And a darned good one," Principe boasts.

From member municipalities, a seven-man board of trustees is elected to govern the laboratory. Four members must be chiefs of police and the other three city managers or mayors.

The laboratory serves 668,500 people and the member municipalities are assessed $249,990 a year. It handles an average of 20 cases a day. Non-member towns are charged $50 an hour for analytical work and $100 a day for testimony. They have given free service to the U.S. Army, Navy, Illinois State Department of Public Safety, and the Illinois State Police.

These cases have involved homicide, fatal hit-and-run, rape, narcotics, arson, and bombing.

Before checking out for the day, Principe checks the computer, which in the flick of an eye tells him the exact time a case was recorded, the police department and officer, the evidence obtained, and what followup action has been taken.

Principe is as sure today as the day he first saw the Chicago Crime lab that there's nothing in the world he'd rather do than what he's doing.

A CAUSE FOR CAUTIOUS OPTIMISM: THE DEPARTMENT OF LABOR UPGRADES ITS EFFORTS TO COMBAT LABOR-MANAGEMENT RACKETEERING

Mr. PERCY. Mr. President, the new Office of Special Investigation (OSI) of the Department of Labor began operations on October 1. OSI will assume the Labor Department's responsibility to assist the Department of Justice strike forces' organized crime program. Labor investigators from OSI will be expected to scrutinize the operations of national and local labor unions, with the aim of rooting out organized criminal influence within the labor movement.

Labor has assigned 90 full-time personnel to the new office, which will be headed by Mr. Rocco DeMarco. That number includes 83 criminal investigators and 7 clerical personnel. Two investigators will hold supervisory roles here in Washington. The remaining 81 compliance officers will be assigned to work with Justice Department strike forces in various cities, as follows: For New York City, 22; for Chicago, 9; for Cleveland and Miami, 7 apiece; for Philadelphia, 6; for Boston 4; 3 each for Buffalo, Detroit, Kansas City, Los Angeles, New Orleans, and San Francisco; 2 for Newark; and 1 apiece for Atlanta, Las Vegas, Camden, Phoenix, Puerto Rico, and Tampa.

Organized crime has exerted its sinister influence over a small, but significant number of this country's labor organizations, thwarting all efforts of government and law enforcement to prevent it. Billions of dollars of pension, and health and welfare funds stand vulnerable to crime syndicates, which are eager to seize these vast sums through bribery, kickbacks, fraudulent loans, extortion, and violence.

The establishment of OSI signals the beginning of a long-overdue fulfillment of a promise from the Labor Department to take the lead in the fight against labor-management racketeering. This is good news, but for the moment I will reserve my applause. In the past few years, the Labor Department has repeatedly ducked its congressionally-mandated responsibility to tackle labor corruption.

In hearings held April 24 and 25 of this year, the Permanent Subcommittee

on Investigations sought to determine why Labor had, until that time, stubbornly refused to beef up its sagging criminal investigative efforts against labor racketeering. No one can doubt the seriousness of the problem. The subcommittee heard convincing testimony from no less than nine Justice Department strike force attorneys that there has been a dramatic upsurge in labor racketeering across the country.

The panel of prosecutors—from New York, Chicago, Miami, San Francisco, Cleveland, Philadelphia, Newark, Buffalo, and Atlanta—told us that organized crime now dominates entire international unions. In some instances, the leaders of these corrupt unions are themselves lieutenants in organized crime families. According to one experienced Justice Department prosecutor quoted in U.S. News & World Report, "Organized crime in labor is probably the most serious problem in the criminal field."

The chilling conclusion of Robert C. Stewart, strike force chief in Newark, N.J. and Buffalo, N.Y. was that—

> Little or no progress has been made to control labor racketeering over the past 20 years, despite some rather good legislation. The same schemes and the same faces and the same tyranny dominate the field of labor racketeering today as they did during the original McClellan Committee hearings.

Criminal investigations of labor-management racketeering are detailed and complex. They may take years to complete. Frequently, they center on a laborious review of the union financial records. The expertise of Labor Department compliance officers is, therefore, crucial to the success of such operations.

Moreover, the Congress has given Labor Department compliance officers broad access to union records. This access is the key to the success or failure of any probe into labor-management racketeering. Crimes which go undetected cannot, of course, be investigated and prosecuted. Access to the evidence of corruption has been given to the Labor Department by Congress. If we are witnessing a significant upsurge in labor-management racketeering, the onus must fall on those who are supposed to detect the wrongdoing, and who have failed to do so.

Combining traditional strong-arm tactics and violence with sophisticated financial schemes, corrupt labor racketeers rob the union rank-and-file of their hard-earned rights and benefits. They force American consumers to pay a duty tax to racketeers for essential goods and services. In effect, consumers and laborers alike are being forced to subsidize organized crime.

The Labor Department's critical failure has been its unwillingness to assign sufficient manpower to work on labor-management racketeering. In reports to the Congress, the Department has consistently exaggerated its level of commitment to the organized crime program. For instance, although Congress approved Labor's fiscal year 1978 budget request, allotting 125 positions to the organized crime program, the Justice Department actually received only 28 man-years of assistance.

In light of this poor record, it was almost unbelievable when Assistant Secretary of Labor Francis X. Burkhardt revealed last February to the House Appropriations Committee that the Labor Department intended to curtail its participation drastically, limiting Labor's organized crime program assistance to 15 "liaison" officers, one for each strike force. Under criticism from the Justice Department and from the Congress, Labor Secretary Marshall sought to rectify the situation. He met on March 31 with Attorney General Bell, at which time a new agreement was reached.

The Labor Department agreed to create an Office of Special Investigations (OSI) the head of which would report directly to the Secretary. Participation in the organized crime program would be taken away from Mr. Burkhardt's supervision in Labor Management Standards Administration and placed under OSI. It was further agreed that the number of compliance officers working with the strike forces would be substantially increased and that they would be full time.

The subcommittee's April hearings left me troubled that the Labor Department leadership still seemed less than fully committed to the organized crime program. To a man, the strike force panel agreed that a paper commitment would accomplish nothing unless vigorously supported by top Labor Department officials. Most distressing was Secretary Marshall's seeming reluctance to give credence to compelling testimony—unanimous on the part of the nine strike force attorneys—that racketeering is a dangerous and growing menace to the American labor movement. When the strike force panel assured us that organized crime's hold on certain labor unions is stronger than ever, Mr. Marshall responded that he "simply has not seen the evidence" of this.

Following the hearings, at my suggestion, Secretary Marshall met personally with strike force prosecutors to discuss current trends in labor union corruption and possible strategies to cope with it. The exchange of views was useful in that it allowed the Secretary to hear suggestions from field experts with a close understanding of the problem.

Secretary Marshall's personal interest, along with OSI's commencement of operations, bodes well for the future of the organized crime program's anti-racketeering drive. However, the Subcommittee on Investigations intends to continue its oversight in this area and intends to work cooperatively with the Department of Labor. There is no question that the Labor Department can make a valuable contribution. The only question is whether it will keep up its interest and intensive activity. I am hopeful that reports of improvement in the Government's battle against labor-management corruption will soon be forthcoming.

Mr. President, Mr. Martin Steinberg, currently head of the Buffalo strike force and a former member of the Miami strike force was one of the nine panel members who testified before the subcommittee last April. He has handled more than 40 major criminal prosecutions, including the convictions of Bernard Rubin and Seymour Gopman, Florida racketeers both extensively involved in union embezzlements, extortion, and kickback schemes. The Rubin case in 1975 was instrumental in renewing subcommittee interest in the field of labor racketeering.

Mr. Steinberg recently published an article entitled "Proposals to Assist in Ending the Abuse of Employee Welfare and Benefit Plans," in the July 1978 issue of Journal of Pension Planning and Compliance. Mr. Steinberg's article proposes several possible solutions to criminal plundering of pension and benefit funds. One proposal advanced is to amend the union and trust fund criminal statutes (29 U.S.C. 501 and 18 U.S.C. 664), including provisions to restrict access to funds by indicted union officials and to allow civil recovery of funds upon conviction.

Mr. Steinberg's well-informed article deserves the attention of anyone concerned about the danger posed by organized crime to billions of dollars in employee benefit funds. His legislative proposals represent ideas worthy of consideration by the Congress. I ask unanimous consent that Mr. Steinberg's article be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

PROPOSALS TO ASSIST IN ENDING THE ABUSE OF EMPLOYEE WELFARE AND PENSION BENEFIT PLANS

(By Marty Steinberg)

Instead of halting the misuse of union trust fund assets with the enactment of ERISA, the abuse of trust fund assets has skyrocketed. More and more union members are finding their pension and health and welfare benefits have been plundered and depleted.

The most common methods of depletion of union trust fund assets are (1) multiple billings; (2) false and fraudulent loans; (3) inflated service contracts; (4) fraudulent insurance schemes; (5) kickbacks to labor racketeers; and (6) conversion of delinquency collections on contributions.

THE PROBLEM AREAS

I. Multiple billings

In many instances, the union trustee or union trust fund counsel sits on a number of labor union trust funds. These trust funds sent trustees and counsel to educational conferences in various parts of the world. The expenses for the trustee and counsel are either advanced or reimbursed. In the case of Bernard Rubin, officer of various labor union locals and the District Council, and trustee on six union trust funds, Rubin would seek full expense allowances from each trust fund and bill each union he represented for the same expenses. This multiple-billing scheme resulted in a $50,000 loss to the funds in a short period of time. See *United States* v. *Rubin*, 559 F.2d 975 (5th Cir. 1977). Counsel for the same fund and many others used almost the same scheme to bilk union trust funds of $50,000–$100,000 in the case of *United States* v. *Gopman*, 77–470–Cr–JE, United States District Court, Southern District of Florida. In both cases neither the trustee nor the attorney informed each board of trustees that they were receiving

expenses from other sources nor did the boards of trustees inquire into the payment of expenses. Since no other trustee sat on all of the other trust funds, the individual trustees would have no knowledge of this multiple billing.

An example of this abuse is illustrated by a multiple-billing scheme concerning a trust fund conference in San Francisco, California. The highest amount of expense money any trustee received as expenses to attend that conference was $2,500 (which was more than sufficient to cover expenses and was estimated as first-class air fare, hotel, and $150 per day. Seymour Gopman, trust fund counsel, received $15,600 from twelve different trust funds as expense allowances for this trip. In addition, his law firm specifically paid most of his actual expenses. Over a period of years the amount of money obtained from this method of conversion can be substantial.

II. False and fraudulent loans

In many cases labor union trust funds are a target for false and fraudulent loan practices. Usually the union trustee or attorney will recommend a loan to a private company and assure the trustees that the loan is a good investment with sound collateral. This "initiator" is usually the recipient of a substantial kickback, which will be discussed later.

Generally the loans will be characterized by the following:

1. Little or no actual collateral.
2. No safeguards on disbursements by the borrower.
3. A second or third position relative to any enforcement on the loan.
4. Unrecorded or misrecorded collateral documents.
5. Collateral documents which reflect collateral already pledged elsewhere.
6. A cursory, if any, financial examination of the borrower.
7. No repayment of the loan by the borrower.
8. A kickback to the initiator. (Because of the power they wield and because the employer-trustees wish to appease the union trustee, the union trustee or attorney bulldozes the phoney loan through the board of trustees for approval.) In *United States* v. *Gopman*, 77–470–Cr–JE, several such loans were charged and the defendant pleaded guilty to receiving a kickback with relation to at least one such loan.

III. Inflated service contracts

As with the fraudulent loan, above, service contract providers who wish to "sell" their services to the trust fund usually approach the influential union trustee or attorney. A deal is worked out whereby the service provider is "guaranteed' a contract with the trust fund. There is no competitive bidding for this contract, nor is there any real inspection of the ability of the service provider to execute the contract. The rate of premium charged to the trust fund is exorbitant and the "initiator," once again, receives a kickback for his services.

IV. Fraudulent insurance schemes

Masters of the fraudulent insurance schemes, having been convicted in various Justice Department investigations and having been the subject of Senate Subcommittee investigations concerning fradulent insurance practices, have "sold" their insurance programs to union trust funds throughout the country. *United States* v. *Hauser*, No. 76–1331, C.D. of Calif. 1977; also see Hearings Before the Permanent Subcommittee on Investigations of the Committee on Governmental Affairs of the United States Senate, Ninety-Fifth Congress, First Session, 1977, *"Labor Union Insurance"; United States* v. *Rubin*, Bond Revocation Hearing Oct. 1977. 75–377–Cf–PF, S.D. Fla. aff'd 559 F. 2d 975 (5th Cir. 1977); Staff Study of the Severance Pay-Life Insurance Plan of Teamsters Local 295————. Permanent Subcommittee on Investigations of the Committee on Governmental Affairs of the United States Senate, Ninety-Fourth Congress, Second Session 1976; *United States* v. *Ostrer*, 422 F. Supp. 93 (S.D.N.Y. 1976); 422 F. Supp. 103 (S.D.N.Y. 1976).

The schemes are generally run as follows:

The insurance fraud artist contacts an "initiator" [usually a union trustee or counsel who is willing (in exchange for gratuities or a kickback) to "vouch" for the insurance program and push it through the board of trustees]. The insurance schemes are marked by having (1) no competitive bidding; (2) high costs, i.e., whole life premiums as opposed to term premiums or some similar provision; (3) exorbitant commissions; (4) paper companies and shell companies which transfer premium payments back and forth in a maze of financial transactions, while hiding substantial sums of money; (5) lack of any method to guarantee the availability of funds to the beneficiaries; (6) bankruptcy or other financial dissolution within a short period of time; (7) a kickback to the "initiator."

These fraudulent insurance schemes have siphoned off literally millions of dollars of union trust fund assets.

V. Kickbacks

In all of the aforementioned areas, the kickback to the union trustee or counsel is the key to buying the influence of the "initiators." Kickbacks have included boats, condominiums, expenses, annuities, cash, interest in companies and any other thing of value that is capable of satisfying the wishes of the "initiator." The *Rubin*, *Gopman*, and *Hauser* cases have shown a wide variety of kickbacks. The receipt of a kickback, fee or commission for the use of influence in trust fund affairs is a violation of 18 U.S.C. 1954. Moreover, the inflated values of contracts, premiums and services to generate money to pay the kickback is a violation of 18 U.S.C. 664.

The kickback may be paid directly to the initiator; it may be held in trust for corrupt union trustees; or it may be funneled through fake companies as "payment" for alleged "services rendered." The kickback arrangement made in connection with the manipulation of union trust fund money is a classic example of union corruption.

VI. Conversion of delinquency collections on contributions

When employer contributors to employee benefit plans become delinquent, the need for a delinquency collection program occurs. These delinquency collection programs are usually unsupervised efforts by union business agents and counsel to collect delinquent funds. The programs are marked by (1) lack of accountability to the trustees and the fund administrator; (2) lack of adequate records; (3) no safeguards on the funds collected; (4) escrow accounts in various names into which delinquency collections are deposited; and (5) massive embezzlement and conversion of the delinquent employers' contributions.

POSSIBLE SOLUTIONS

I. The fund administrator

The fund administrator acts as the fund bookkeeper and is usually the first "outside" party to see the disposition of trust fund assets. These companies, because of their delicate position as "banker" for the trust funds, should be awarded a contract only after sealed competitive bidding. This would help prevent corrupt union trustees from picking a "friendly" company which would not monitor the disbursements of the trust funds.

Also, similar to the type of government-approved list of bonding companies, the government could have an approved list of fund administrators. Criteria could easily be developed to obtain certification and simple audit procedures could be employed to inspect the companies. This would be further assurance that reputable companies are handling trust fund money.

The administrator should be bonded in case of misuse of funds. Moreover, there should be a requirement that the fund administrator submit reports to the government concerning its financial status, assets, subsidiaries, stockholders, conflicts (that is, if the company or its principals deal with the trust fund in any other capacity), any dealings with union officers or counsel, disbursements and reasonableness of fees.

Neither the trust fund administrator nor any of its principals should be permitted to engage in business with the trust fund in any other capacity. This would discourage the corrupt trustee or counsel from dangling lucrative contracts in front of the fund administrator to guarantee his "cooperation."

The fund administrator should be designated by statute to be a fiduciary with respect to the trust fund. Moreover, any company administering trust fund money should be subject to periodic random audit by the government. This would give the government a tool to keep the administrator honest.

Finally, there should be criminal liability on the part of fund administrators for disbursing union trust funds, even at the request of the trustee, when they knew or should have known that the disbursement was improper. This, coupled with a criminal penalty for any failure to inform the government about trust fund improprieties, will be invaluable aids in insuring the honesty of trust fund administrators.

II. The trust funds

The trust funds should be required either to hire a wholly independent attorney or to be represented by a union attorney *and* a management attorney. Too many abuses have occurred in trust funds which only have union counsel as attorney for the fund.

Trustees should be elected by secret ballot of the union members and the contributing employers. The officers of any particular union should no longer automatically be trustees of union trust funds. In fact, the better practice would be to insure that union officers who have access to and control over union funds should not have access to and control over union trust funds.

Given the amounts of money involved and the gross misuse in the past, it would be a reasonable expenditure of trust fund money to hire an independent monitor (i.e., either a government agency or a well respected bank) to oversee disbursements. This would overcome the problem of the management trustee's hesitancy to object to disbursements for fear that the union trustee will affect his business in the future. Many management trustees have stated that, although they have equal voting rights, they feel powerless because of possible retribution for their votes. In this respect, it should be a criminal offense to threaten a trustee or take action against a trustee because of his objection to or failure to ratify a disbursement from the fund. It should likewise be a criminal violation to exert economic or personal pressure on a trustee to influence his vote.

The trust funds should be required to submit full certified audits every six months. Each audit should specifically be aimed at detecting embezzlements, conversions, poor loan or investment practices, and should include examination of all service contracts. The auditing procedures encountered on most trust funds are deplorable. Usually the auditor is a "friend" or a trustee or counsel and his audits are not certified nor do they examine the records for defalcation.

The trustees should be required to file financial disclosure reports with the government. These reports should include disclosure of any interest in or association with

any company or any individual who deals with the trust fund or its service providers. Moreover, the trust funds should not be permitted to deal with convicted felons as service providers. Persons convicted of ripping-off trust fund assets still deal with trust funds because of a lack of adequate legislation.

In fact, there should be a criminal penalty for any trustee, counsel or administrator who pursues such a conflict of interest for financial gain. This would mean that no trustee, counsel or administrator should be able to benefit financially, either directly or indirectly, from the actions of the trust funds.

For any trust fund investment, loan or disbursement over $1,000 there should be a requirement of: (1) full financial disclosure by the person or entity seeking the funds; (2) inspection and report by an independent certified appraiser as to the value of the collateral; (3) a recommendation by a government-certified investment firm, monitor or bank as to the feasibility of the loan or investment; (4) disclosure of any relationship the person or entity has with any trustee, counsel or administrator; and (5) a requirement concerning the type of allowable investment or loan.

The better practice would be to enact legislation only allowing union trust funds to invest money in certain items such as municipal bonds. If the ability to take money out or loan it to associates is eliminated, the union trust fund will not attract the type of individual who will try to abuse his position.

All trust funds should be required to have three signatures on all checks; two signatures should be trustees (one management and one union) and one signature should be that of an independent monitor with veto power.

Any expenses for the trustees or counsel should be actual expenses only, with proper documentation. No trustee or counsel should be permitted to draw expenses on multiple funds unless it is prorated among the funds.

Any delinquency collection program should be monitored carefully. No one individual should be given the authority to "collect" delinquent contributions for the fund. Any money collected should go directly to the fund and the person providing the collection service should bill the fund for his services.

No one should be permitted to "escrow" delinquency collections for any reason. Also, exact records of which employers paid, how much was paid, and other detailed financial records should be required.

Any union or employer trustee or counsel who is indicted for a felony should be suspended immediately from his position as trustee. In the case of *United States* v. *Rubin, supra*, the government attempted in 1975 to have Rubin removed from his union and trust fund positions pending the outcome of his appeals after his conviction for embezzling close to $500,000 from unions and trust funds. The government was unsuccessful in its efforts until October of 1977, when the government offered proof at Rubin's bond revocation hearing that since his conviction he had embezzled another $2,000,000, mainly from union trust funds. There is simply no reason this abuse has to occur and the law should be changed accordingly.

III. The trust attorney

As previously stated, the trust attorney should either be wholly independent (i.e., neither labor nor management) or there should be an attorney for labor and one for management.

No union trust fund attorney should be permitted to personally represent any trustee in a criminal investigation or case. The trust attorney should use all of his energies and abilities for the fund. His job is not to protect or represent any individual trustee, but his job is to represent the fund itself. See *United States* v. *Gopman*, 531 F.2d 262 (5th Cir. 1976) for a similar proposition with respect to union counsel.

Trust fund attorneys should be required by law to take every action possible to make the funds whole after misuse is discovered. This includes recovery bonds, suing trustees, applying for trusteeship, removing trustees, and a host of other remedies.

A fund counsel should have no independent ability to cause the dispersal of trust fund money. Nor should he be a financial advisor or investor. His sole function should be legal advice.

The trust attorney should not be given carte blanche authority with respect to delinquency collections. He should be required to keep detailed financial reports on his collection program; he should not be allowed to escrow funds, but should be required to tell all employers to send any money directly to the trust fund; and he should only receive money for services rendered by way of an appropriate billing to the trust fund.

IV. Statutory relief

In addition to the suggestions made above, statutory relief is necessary immediately with respect to the union and trust fund criminal statutes (29 U.S.C. 501 and 18 U.S.C. 664). Those statutes should be amended to contain provisions (1) for restraining orders and injunctive relief to terminate dissipation of funds upon indictment; (2) for automatic suspension of the union officer, employee, trustee or attorney indicted; and (3) for civil recovery after conviction upon the initiation of the government, including such relief as treble damages.

If the laws are tightened up to make it difficult to abuse trust fund assets, the labor racketeer will look for greener pastures. The allure of the unions and trust funds to those who would abuse their positions has historically been that they are "easy pickings." If new laws are enacted which safeguard the funds adequately, those persons who wish only to use unions and trust funds for their own purposes will have to look elsewhere for "easy pickings."

This very problem has been addressed by the Senate Permanent Investigating Committee in Hearings held on April 24 and 25, 1978.

TAXES AND SPENDING LETTERS

Mr. THURMOND. Mr. President, I recently received several hundred letters from South Carolinians concerned with rising taxes and huge spending by the Federal Government. These letters, authored originally by Mr. Martin O'Brien of Greenville, S.C., were published in the Greenville News and were cut out, signed, and sent to either Senator HOLLINGS or myself by concerned citizens. By taking the time to cut out a letter and mail it to one of their Senators, South Carolinians were able to voice their unhappiness about how the Federal Government spends their tax dollars.

Mr. President, I believe that a sample of these letters reflects the attitude of countless Americans, and, in order to share it with my colleagues, I ask that it be printed in the RECORD.

The letter follows:

Senator STROM THURMOND,
Senator ERNEST HOLLINGS,
Senate Office Building,
Washington, D.C.

DEAR SENATOR: We, the hard working and independent people of South Carolina, are deeply concerned over the way you are spending our money. We have been silent too long. We have finally come to the conclusion that the only way to get the federal government under control and to get our government back in the hands of the people who are paying the bills is to demand a limit on spending and taxes by law.

1. We want you to run our federal government like we have to run our families and businesses. We want laws that prohibit the U.S. Congress from spending this country into bankruptcy. Every time you engage in deficit spending, you are taking away from every one of us. Our common sense tells us that if Congress continues to spend more than they collect, our economic system will collapse.

2. A Constitutional Amendment to prohibit the U.S. Congress from spending more than they collect in taxes.

3. A simple tax system with a 10% minimum tax on everyone regardless of exemptions, tax shelters, loopholes, or whatever. We are tired of hearing about people and businesses who pay no tax.

4. A maximum tax of 25% on all personal and business income and business profits simply because it is fair, reasonable, and workable.

We want a strong national defense, an economic environment to let us succeed or fail on our own and little else from our federal government.

The free enterprise system has made this country what it is. Government cannot improve it. Government can, however, destroy it, along with the initiative and ingenuity of a great people. We want to turn away from the socialistic direction we are taking, and return to the principles of individual freedom before it is too late.

America is freedom to the rest of the world. If our economy fails, freedom will fail and Nikita Khrushev's boast "We will bury you" will come true, because we will destroy ourselves!

MARTIN F. O'BRIEN.

CONCERNING THE DEATH OF MR. O. M. EDWARDS

Mr. THURMOND. Mr. President, Mr. O. M. Edwards, a distinguished South Carolinian and the father of my State's Governor, passed away on September 1.

Mr. Edwards graduated from the University of Kentucky where he excelled as an athlete. While he was a student he was heavyweight wrestling champion for 4 years.

After graduating from college, Mr. Edwards began a career in education which lasted 50 years. His work in education carried him from Kentucky to Florida and finally to South Carolina. He taught public speaking and coached a national public speaking winner and a national essay winner from South Carolina.

Besides his interest in education, Mr. Edwards was active in agriculture and was said to be responsible for bringing the first centipede grass into South Carolina. He also wrote extensively on beekeeping, and contributed to several textbooks on the subject.

Mr. Edwards also has a long interest in politics and was a mayor of Hawthorne, Fla. This interest in politics extended to his family as his son is the present Governor of South Carolina and his great nephew, Julian Carroll, is the present Governor of Kentucky.

My deepest sympathy is extended to Mr. Edwards' wife Bertie Hieronymus at this time of sadness; also to his three daughters, Mrs. F. Douglas Pinckney,

Mrs. J. T. Melcher, Jr., and Mrs. Lucius P. Varn; and his two sons, Dr. M. Thomas Edwards, and Dr. James B. Edwards, presently Governor of South Carolina. They can take genuine solace, however, from the lifelong benefits gained by sharing this close family association.

Mr. President, in order to share newspaper articles and a press release concerning the death of Mr. Edwards with my colleagues, I ask that they be printed in the RECORD.

The articles follow:

GOVERNOR'S FATHER DIES AT 90

O. M. Edwards, 90, of Mt. Pleasant, father of Gov. James B. Edwards, died Friday at an Orangeburg nursing home after a long illness.

Born in 1888 in Falls of Rough, Ky., Mr. Edwards was the son of the late Harrison Thomas and Francis Patterson Edwards.

He was a graduate of the University of Kentucky, where he was a heavyweight wrestling champion for four years. He spent 50 years in educational work in Kentucky, Florida and South Carolina. Active in agricultural work, Mr. Edwards was said to be responsible for bringing the first centipede grass into South Carolina. He taught public speaking and coached a national public speaking winner and a national essay winner from South Carolina during his career.

Mr. Edwards wrote extensively on beekeeping, contributing to several textbooks on the subject.

He was a member of Hibben United Methodist Church, Mr. Pleasant, and was a master Mason.

Surviving are his widow, Bertie Hieronymus Edwards; three daughters, Mrs. F. Douglas Pinckney of Mt. Pleasant, Mrs. J. T. Melchers Jr. of Atlanta, Ga., and Mrs. Lucius P. Varn of Orangeburg; two sons, Dr. M. Thomas Edwards of Greenville and Gov. Edwards; 19 grandchildren and 7 great grandchildren.

Services will be 3 p.m. today at Hibben United Methodist Church in Mt. Pleasant, conducted by the Rev. George R. Cooper and Ed Bradham.

Pallbearers will include R. D. Schroder, G. W. Fricks, Charles Shealy, Creighton Frampton, Cmdr. Arthur Johnson and C. W. Carraway.

Friends may call at 651 McCants Drive in Mt. Pleasant or Stuhr's Funeral Home, downtown chapel, Charleston.

The family suggests that those who wish may make memorials to the Hibben United Methodist Church building fund.

STATEMENT FROM THE OFFICE OF GOVERNOR JAMES B. EDWARDS

The office of Governor James B. Edwards announced Friday that the Governor's father, O. M. Edwards of Mt. Pleasant, died early Friday after a lengthy illness.

Mr. Edwards died at an Orangeburg Nursing Home where he had been a long-time resident. He was 90 and had been in declining health for several years.

Funeral services will be held Saturday, September 2, at the Hibben United Methodist Church in Mt. Pleasant, at 3:00 p.m. with graveside services to follow. The services will be performed by the Reverend George R. Cooper, pastor of Hibben United Methodist Church, and the Reverend Ed Bradham, of the Isle of Palms.

Mr. Edwards was born in 1888 in Falls of Rough, Kentucky, the son of Harrison Thomas Edwards and Frances Patterson Edwards. He was a member of Hibben United Methodist Church in Mount Pleasant. He was a graduate of the University of Kentucky where he was heavyweight wrestling champion for 4 years.

He spent 50 years in educational work in Kentucky, Florida, and South Carolina. He was active in agricultural work and was responsible for bringing the first centipede grass into South Carolina. Mr. Edwards taught public speaking and coached a national public speaking winner and a national essay winner from South Carolina during his career.

He wrote extensively on the subject of beekeeping and contributed to several national textbooks on that subject, and he was a master mason.

He is survived by his wife, Bertie Hieronymous Edwards; three daughters, Mrs. F. Douglas Pinckney of Mt. Pleasant, Mrs. J. T. Melchers, Jr. of Atlanta, Georgia, and Mrs. Lucius P. Varn of Orangeburg; two sons, Dr. M. Thomas Edwards of Greenville, and Governor James B. Edwards of Columbia, 19 grandchildren and 7 great-grandchildren.

Friends may call at the home in Mt. Pleasant at 651 McCants Drive or at Stuhr's Funeral Home, Downtown Chapel, Charleston.

[From the Post Courier, Charleston, S.C., Sept. 2, 1978]

O. M. EDWARDS, GOVERNOR'S FATHER, DIES AT AGE 90

The office of Governor James B. Edwards announced Friday that the governor's father, O. M. Edwards of Mount Pleasant, died early Friday after a lengthy illness.

Mr. Edwards died in an Orangeburg nursing home where he had been a long-time resident. He was 90 and had been in declining health for several years.

A spokesman for the governor said the governor's plans to travel to Europe on an industry-hunting trip would be postponed until after his father's funeral. The governor was scheduled to leave for Switzerland and Belgium on Saturday, but the spokesman said Edwards would leave late Sunday instead.

The funeral will be Saturday at 3 p.m. at Hibben United Methodist Church in Mount Pleasant, directed by Stuhr's Funeral Home, with a graveside service to follow.

Mr. Edwards was born in 1888 in Falls of Rough, Ky. a son of the late Harrison T. Edwards and Mrs. Frances Patterson Edwards. He was a graduate of the University of Kentucky where he was a heavyweight wrestling champion. He was a member of Hibben United Methodist Church.

Mr. Edwards spent 30 years in educational work in Kentucky, Florida and South Carolina. He was active in agricultural work and was reponsible for bringing the first centipede grass into South Carolina.

He taught public speaking and coached a national public speaking winner and national essay winner from South Carolina. He wrote extensively on the subject of bee keeping and contributed to several textbooks on that subject. He was a master Mason.

Also surviving are his widow, Mrs. Bertie Hieronymus Edwards; three daughters, Mrs F. Douglas Pinckney of Mount Pleasant, Mrs. J. T. Melchers Jr. of Atlanta and Mrs. Lucius P. Varn of Orangeburg; another son, Dr. M. Thomas Edwards of Greenville, 19 grandchildren and seven great-grandchildren.

DEATH OF MR. PHILIP A. BUCHHEIT OF SPARTANBURG, S.C.

Mr. THURMOND. Mr. President, an outstanding journalist, Mr. Philip A. Buchheit of Spartanburg, S.C., passed away on September 24, 1978.

I knew Mr. Buchheit for many years, and he was a man of distinction and integrity. He was dedicated and sincere in everything that he understood and was an inspiration to all those around him.

Mr. Buchheit was editor-in-chief of the Spartanburg Herald Journal, president of the Newspaper Management and Production Co., and president of Mid-South Management Co. which publishes a number of daily and weekly newspapers in several southeastern States. He was also a founder of General Advertising Service in Atlanta, Ga.

He began his newspaper experience on a small newspaper in Georgia, and worked his way up through several Georgia newspapers until he became general manager of the Macon, Ga., Telegraph and News.

Mr. Buchheit came to Spartanburg in 1946 to become publisher of the Spartanburg Herald-Journal. In Spartanburg he was active in religious, educational, and civic activities. His energetic work and his selfless dedication to his community will long be remembered by the countless people he helped.

My deepest sympathy is extended to Mr. Buchheit's wife, Mrs. Vena Buchheit; his daughter, Mrs. Phyllis Babb; his son, Mr. William Buchheit; his three stepdaughters, Mrs. Mary Herrin, Mrs. James Mynatt, and Mrs. Steve Skaggs; his stepson, Mr. Robert Daly; and to his grandchildren and other relatives at this time of sadness. They can take genuine solace, however, from the life-long benefits gained by sharing this close family association.

Mr. President, in order to share two of the newspaper articles concerning the death of Mr. Buchheit with my colleagues, I ask that they reprinted in the RECORD.

The articles follow:

BUCHHEIT, HERALD-JOURNAL CHIEF EXECUTIVE, DIES AT 71

Philip A. (Phil) Buchheit, editor-in-chief of the Spartanburg Herald-Journal died Sunday at 2:20 p.m. at General Hospital following a long illness.

He was 71.

Well known to most Spartans, Buchheit was president of Newspaper Management and Production Co., the operating company for the Herald-Journal. He came to Spartanburg in 1946 to publish the Spartanburg newspapers.

He was also president of Mid-South Management Co. which publishes a number of daily and weekly newspapers in several southeastern states. He was a founder of General Advertising Service in Atlanta.

Mr. Buchheit was born in 1907, son of the late John Quincy and Katherine Mobley Buchheit. He was a Methodist.

Surviving are: his wife, Vena Daly Buchheit of Spartanburg; one daughter, Mrs. Phyllis Babb and one son, William C. Buchheit, both of Spartanburg; three stepdaughters, Mrs. Mary Herrin of Birmingham, Ala., Mrs. James Mynatt of Atlanta and Mrs. Steve Skaggs of Goldsboro, N.C.; a stepson, Robert W. Daly of Florence, Ala.; three brothers, Edwin of Charleston, Tenn., Jack of Chamblee, Ga. and Fred Buchheit of Spartanburg; five grandchildren, Philip J. and Andrew Babb of Spartanburg, Mrs. Laurene Burnett of LaGrange, Ga., Philip G. and William C. Buchheit of Spartanburg.

Graveside services will be held at 4 p.m. Tuesday at Greenlawn Memorial Gardens by Drs. Harry Chandler, John Wood Robison and James Barrett.

The family requests that flowers be omitted and that contributions be made instead to the Phil Buchheit Scholarship Fund at Spartanburg Methodist College or to the charity of choice.

The family is at the home of Mrs. Phyllis Babb at 1036 Glendalyn Circle.

A native of Savannah, Ga., Mr. Buchheit attended public schools in Sylvania, Ga., the Georgia Institute of Technology Evening School and the Georgia School of Business Administration.

His first newspaper experience came when he worked as a youth on the weekly newspaper in Sylvania. He began daily newspaper work as an apprentice printer with the Savannah Morning News. He later worked for the Savannah Press, the Atlanta Journal and the Atlanta Georgian as a journeyman printer and linotype operator.

He also worked in Atlanta for awhile as an advertising copy writer for Davison-Paxon Department Store.

He was advertising manager, business manager and general manager at the Macon, Ga. Telegraph and News from 1941–46. Prior to that he served in advertising capacities for the Wilmington, N.C. Star-News and the Greenville News-Piedmont.

Mr. Buchheit came to Spartanburg in 1946 to become publisher of the Spartanburg Herald-Journal.

Mr. Buchheit took an active and leadership role in educational, religious and civic activities in Spartanburg.

He founded the Edgar Gwynne Education Fund for deserving college students and the Buchheit Nursing Fund at the University of South Carolina in Spartanburg; was a member of the Board of Trustees of Spartanburg Methodist College for 15 years, five of them as chairman. He headed the $3 million building Fund Campaign for SMC in recent years and the administration building at the college was named in his honor.

He also served on the Converse College Board of Associates, the Board of Visitors at Columbia College and the Board of Trustees of Georgia State College.

In April of this year, 28 business associates created in his honor the Phil Buchheit Scholarship at Spartanburg Methodist College with an endowment of $20,000. Proceeds from the fund are to be used for deserving students at the college.

In the 1960's, Mr. Buchheit headed the funds campaign for $1,350,000 to build the YMCA Family Center on Pine Street. He served as a director and president of the YMCA.

He created the Goodfellows Fund in 1948 to aid the needy at Christmas time. The fund has annually provided food and necessities to poor families in the community through donations from citizens, businesses and various civic and social groups.

Mr. Buchheit received many honors and awards in recognition of his contributions to his community and his profession.

Wofford College presented him the Citizens Distinguished Service Award in 1977; he received the Sertoma International Club's Service to Mankind award in 1970; an award of Special Merit from the Spartanburg Jaycees for the years 1959, 1960 and 1961; an award of Special Merit for service as president of the Spartanburg Chamber of Commerce, 1953–55; and an Award of Excellence as president of the United Fund in 1961.

As a member on the Board of Governors of the Bureau of Advertising of the American Newspaper Publishers Association, he was awarded a Distinguished Service Award. He served on the Board of Southern Newspaper Publishers Association and was active in the South Carolina Press Association.

He was a member of the Spartanburg Rotary Club, the Sixth Naval District National Defense Executive Advisory Board and had served on a number of community interest boards in Spartanburg, including the Spartanburg County Foundation Board.

Mr. Buchheit was a member of Central United Methodist Church and was a member of its Board of Trustees and had served on the Administrative Board. A former member of Trinity Methodist Church, he served there on the Board of Stewards.

In Macon, prior to coming to Spartanburg, Mr. Buchheit was active in the business and civic life of that community. He received the Outstanding Citizen of the Year award from the Macon Exchange Club; was a member of the Chamber of Commerce and Merchants Association; a director of the Macon YMCA and a director and president of the Macon Boys Club. He also served as a president of the Georgia-Alabama Advertising Managers Association.

PHIL BUCHHEIT: MAN OF LOVE

Phil Buchheit loved The Herald-Journal and the employees of The Herald-Journal loved him.

Next to his family, they were the most important people in his life. When he walked through the newspaper building, there was always a hello, a joke, a pat on the back, a smile for everyone—position or status meant nothing.

Every single employee of The Herald-Journal was his friend, and, in turn, he was their friend. When they had a problem, Herald-Journal employees knew they could turn to Phil Buchheit for advice, a kind word or material aid. Phil Buchheit started life out as a poor Georgia boy and he knew the importance of a helping hand.

One of the biggest joys in Phil Buchheit's life was the Christmas season. It was a time when his normal goodness overflowed a hundredfold.

He loved the annual newspaper Christmas parties where he was able to share his good fortune with his fellow workers. He passed out more than a million dollars as Christmas gifts to the people who helped him bring The Herald-Journal to Spartanburg homes since 1947.

Goodfellows was his pride and joy. His heart, his soul and his body went into this opportunity to bring joy to the less fortunate in Spartanburg County during the Christmas season.

He enjoyed the greatest gift of all—he was loved.

ORDER OF BUSINESS

Mr. ROBERT C. BYRD. Mr. President, are there any orders for the recognition of Senators on tomorrow?

The PRESIDING OFFICER. The Chair informs the Senator that there are no such orders.

Mr. ROBERT C. BYRD. I thank the Chair.

SPECIAL ORDER ON TOMORROW

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that after the two leaders are recognized under the standing order on tomorrow, Mr. PROXMIRE be recognized, as in legislative session, for 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, reserving the right to object, will Mr. PROXMIRE be recognized as in legislative session?

Mr. ROBERT C. BYRD. Yes, because we still will be in executive session when we come back.

Mr. BAKER. I have no objection.

ORDER OF BUSINESS

Mr. ROBERT C. BYRD. Mr. President, does any Senator wish to seek recognition? I am about to move to recess.

RECESS UNTIL 9 A.M. TOMORROW

Mr. ROBERT C. BYRD. Mr. President, if there be no further business to come before the Senate, in executive session I move in accordance with the order previously entered, and as a further mark of respect to the memory of the deceased Hon. Goodloe E. Byron, late a Representative from the State of Maryland, that the Senate stand in recess until 9 o'clock this morning.

The PRESIDING OFFICER. Without objection, the Senate will stand in recess until 9 a.m. today in memory of former Representative Goodloe E. Byron.

At 12:19 a.m. the Senate recessed until Saturday, October 14, 1978, at 9 a.m.

NOMINATIONS

Executive nominations received by the Senate October 13, 1978:

IN THE AIR FORCE

The following-named officers for promotion in the Regular Air Force, under the appropriate provisions of chapter 835, title 10, United States Code, as amended. All officers are subject to physical examination required by law:

LINE OF THE AIR FORCE

First lieutenant to captain

Aaron, Gregory J., [redacted].

CONFIRMATIONS

Executive nominations confirmed by the Senate October 13, 1978:

TENNESSEE VALLEY AUTHORITY

Richard Merrell Freeman, of Illinois, to be a member of the Board of Directors of the Tennessee Valley Authority for the term expiring May 18, 1987.

CALIFORNIA DEBRIS COMMISSION

Col. John Miley Adsit, [redacted], U.S. Army, to be a member of the California Debris Commission, under the provisions of section 1 of the Act of Congress approved 1 March 1893 (27 Stat. 507) (33 U.S.C. 661).

The above nominations were approved subject to the nominees' commitments to respond to requests to appear and testify before any duly constituted committee of the Senate.

HOUSE OF REPRESENTATIVES—*Friday, October 13, 1978*

The House met at 10 a.m.

The Chaplain, Rev. Edward G. Latch, D.D., offered the following prayer:

Not by might, nor by power, but by my Spirit, says the Lord of Hosts.—Zechariah 4: 6.

Eternal God, our Father, grant unto us insight and inspiration for the living of these days. Touch our minds with Your wisdom and our hearts with Your love that we may be wise in our decisions and understanding in our relationships with one another. Help us to realize that if these days are to be radiant in spirit we must cultivate the larger life of faith and learn to be obedient to the touch of Your hand upon us. Help us to walk in wholesome ways and be ready to step forward in our efforts to build on Earth a world where truth and right shall reign and love and peace shall triumph over hatred and strife.

Again, death has invaded this House and has taken from our midst our beloved Goodloe E. Byron. We remember his splendid character, his concern for his people, his loyalty to our country, and his determination to do his best to lift our Nation to higher levels of living. Bless his wife and children with the assurance of Your presence and give them strength and courage for this day and for the days to come. We pray in spirit of Him who is the Way, the Truth, and the Life. Amen.

CALL OF THE HOUSE

Mr. ASHBROOK. Mr. Speaker, under rule I, clause 1, of the rules of the House, I make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

Without objection, a call of the House is ordered.

There was no objection.

The call was taken by electronic device, and the following Members failed to respond:

[Roll No. 908]

Ambro	Delaney	Harrington
Ammerman	Dellums	Harsha
Andrews, N.C.	Derrick	Heckler
Archer	Derwinski	Hillis
Ashley	Dickinson	Hollenbeck
Badham	Dicks	Hyde
Beard, R.I.	Diggs	Ireland
Beilenson	Dornan	Jacobs
Buchanan	Early	Johnson, Colo.
Burke, Calif.	Eckhardt	Kasten
Burton, John	Edgar	Kemp
Caputo	Erlenborn	Keys
Carr	Ertel	Kostmayer
Cavanaugh	Evans, Colo.	LaFalce
Cederberg	Flowers	Lehman
Chappell	Fountain	Lujan
Chisholm	Frey	McCloskey
Clawson, Del	Garcia	McDonald
Cochran	Gephardt	Marlenee
Conyers	Giaimo	Marriott
Crane	Goldwater	Mathis
D'Amours	Hall	Mazzoli
Meeds	Pritchard	Skelton
Mikva	Quie	Solarz
Milford	Risenhoover	Stark
Moffett	Roncalio	Steed
Moss	Rosenthal	Stokes
Murphy, Ill.	Rudd	Taylor
Myers, Gary	Runnels	Teague

Nedzi	Russo	Udall
Nix	Skubitz	Ullman
Nolan	Santini	Vander Jagt
Patterson	Sarasin	Wiggins
Pattison	Scheuer	Wilson, Bob
Pease	Schulze	Wilson, Tex.
Pepper	Seiberling	Wirth
Pettis	Shipley	Young, Alaska
Pike	Shuster	Young, Tex.
Pressler	Sikes	

The SPEAKER. On this rollcall 311 Members have recorded their presence by electronic device, a quorum.

By unanimous consent, further proceedings under the call were dispensed with.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Without objection, the Journal stands approved.

There was no objection.

MESSAGES FROM THE PRESIDENT

Sundry messages in writing from the President of the United States were communicated to the House by Mr. Chirdon, one of his secretaries, who also informed the House that on the following dates the President approved and signed bills of the House of the following titles:

On October 10, 1978:

H.R. 1445. An act conferring jurisdiction upon the United States Court of Claims to hear, determine, and render judgment upon the claim of Commander Edward White Rawlins, United States Navy (retired);

H.R. 9214. An act to amend the Bretton Woods Agreements Act to authorize the United States to participate in the Supplementary Financing Facility of the International Monetary Fund;

H.R. 10126. An act to amend title 5, United States Code, to establish a program to increase part-time career employment within the civil service;

H.R. 10581. An act relating to judgment funds awarded by the Indian Claims Commission to certain Indian tribes, and for other purposes;

H.R. 11005. An act to provide authorization of appropriations for the U.S. International Trade Commission for fiscal year 1979;

H.R. 11400. An act to authorize the appropriation of specified dollar amounts for each of the National Science Foundation's major program areas (and certain subprograms), and to provide requirements relating to periods of availability and transfers of the authorized funds;

H.R. 12930. An act making appropriations for the Treasury Department, the United States Postal Service, the Executive Office of the President, and certain Independent Agencies, for the fiscal year September 30, 1979, and for other purposes;

H.R. 12934. An act making appropriations for the Departments of State, Justice, and Commerce, the Judiciary, and related agencies for the fiscal year ending September 30, 1979, and for other purposes; and

H.R. 13349. An act to repeal certain sections of title III of the Immigration and Nationality Act, and for other purposes.

On October 11, 1978:

H.R. 12026. An act to create the Indian Peaks Wilderness Area and the Arapaho National Recreation Area, to authorize the Secretary of the Interior to study the feasibility of revising the boundaries of the Rocky Mountain National Park, and to add certain lands to the Oregon Islands Wilderness; and

H.R. 13125. An act making appropriations for Agriculture, Rural Development, and Related Agencies programs for the fiscal year ending September 30, 1979, and for other purposes.

On October 12, 1978:

H.R. 8588. An act to reorganize the executive branch of the Government and increase its economy and efficiency by establishing Offices of Inspector General within the Departments of Agriculture, Commerce, Housing and Urban Development, the Interior, Labor, and Transportation, and within the Community Services Administration, the Environmental Protection Agency, the General Services Administration, the National Aeronautics and Space Administration, the Small Business Administration, and the Veterans' Administration, and for other purposes; and

H.R. 9945. An act to amend the act creating the Indian Claims Commission to repeal the provision limiting the activities of Commissioners during the two years following their terms of office.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 15) entitled "An act to extend and amend expiring elementary and secondary education programs, and for other purposes."

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 13635) entitled "An act making appropriations for the Department of Defense for the fiscal year ending September 30, 1979, and for other purposes," the message also announced that the Senate agrees to House amendments to Senate amendments numbered 2, 4, 6, 10, 12, 27,

42, 44, 49, 51, 58, 60, 65, 74, 76, 77, 84, 85, and 89, to the foregoing bill.

The message also announced that the Senate had passed a bill of the following title, in which the concurrence of the House is requested:

S. 3595. An act to amend section 202(d) of the Magnuson-Moss Warranty—Federal Trade Commission Improvement Act to extend the deadline for filing a report of rulemaking procedures.

NATIONAL PARKS AND RECREATION ACT OF 1978

Mr. PHILLIP BURTON. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the Senate bill (S. 791) to authorize additional appropriations for the acquisition of lands and interests in lands within the Sawtooth National Recreation Area in Idaho, with Senate amendments to the House amendment thereto, and concur in the Senate amendments to the House amendment.

The Clerk read the title of the Senate bill.

The Clerk read the Senate amendments to the House amendment as follows:

(1) Delete section 301(4) in its entirety.

(2) Amend section 301(12) by adding the following new sentence at the end thereof: "Furthermore, notwithstanding any other provision of law to the contrary the Secretary may, if he determines that to do so will not have a substantial adverse affect on the preservation of the fossil and other resources within the remainder of the monument, convey approximately 60 acres acquired by the United States for purposes of the monument in exchange for non-Federal lands within the boundaries of the monument, and, effective upon such conveyance, the boundaries of the monument are hereby revised to exclude the lands conveyed."

(3) Amend section 309(a) by deleting "570" and inserting in lieu thereof, "450".

(4) Amend section 309(b) by inserting the following new proviso at the end thereof:

"*Provided further*, That the Secretary is directed to study the possible reconstruction of the historic remains of Ft. Union, and the Secretary is further directed to transmit to the Congress, within one year of the enactment of this bill, a recommendation on the reconstruction of the Fort based on historic documentation."

(5) Delete section 314(h) in its entirety and insert the following in its place:

"(h) The Congress recognizes that the Mineral King Valley area has outstanding potential for certain year-round recreational opportunities, but the development of permanent facilities for downhill skiing within the area would be inconsistent with the preservation and enhancement of its ecological values."

(6) Amend section 315(c) by deleting "$7,000,000" and by inserting in its place "$13,000,000".

(7) Delete section 322(b) in its entirety, and inserting in its place the following new subsection:

"(b) The authority of the Secretary to condemn undeveloped tracts within the Dune District as depicted on map entitled 'Fire Island National Seashore' numbered OGP-0004 dated May, 1978, is suspended so long as the owner or owners of the undeveloped property therein maintains the property in its natural state. Undeveloped property within the Dune District that is acquired by the Secretary shall remain in its natural state."

(8) Delete section 502 in its entirety and insert the following new section:

SEC. 502. (a) The Congress finds that—

(1) the Pinelands area in New Jersey, containing approximately 1,000,000 acres of pine-oak forest, extensive surface and ground water resources of high quality, and a wide diversity of rare plant and animal species, provides significant ecological, natural, cultural, recreational, educational, agricultural, and public health benefits;

(2) there is a national interest in protecting and preserving these benefits for the residents of and visitors to the area;

(3) a primary responsibility for protecting and enhancing these benefits resides with the State of New Jersey and the various local units of government having jurisdiction over the area;

(4) in view of the longstanding Federal practice of assisting the States in creating, protecting, preserving, and enhancing areas of significant regional and urban importance, and in view of the national significance of this resource, the Federal Government has an interest in assisting the State of New Jersey and its local units of government in fulfilling their responsibilities and in avoiding adverse Federally approved or assisted impacts before these responsibilities can be undertaken;

(5) the State of New Jersey and its local units of government have authority to prevent or minimize adverse uses of the land and water resources of the Pinelands area and can, to a great extent, protect the health, safety, and general welfare by the use of such authority; and

(6) there is a demonstrated need to protect, preserve and enhance the land and water resources of the Pinelands area through a new program which combines the capabilities and resources of the local, State and Federal governments and the private sector and provides an alternative to large-scale direct Federal acquisition and management in cases where such acquisition and management is inappropriate.

(b) The purposes of this section are—

(1) to protect, preserve and enhance the significant values of the land and water resources of the Pinelands area;

(2) to encourage and assist the State of New Jersey and its units of local government in the development of a comprehensive management plan for the Pinelands area in order to assure orderly public and private development in the area consistent with the findings of this section;

(3) to provide, during the development of this comprehensive plan, Federal financial assistance for the acquisition of lands in the Pinelands area that have critical ecological values which are in immediate danger of being adversely affected or destroyed;

(4) to encourage and assist the State and its units of local government in developing governmental mechanism to implement this comprehensive plan, and to provide Federal financial assistance for the acquisition of lands consistent with the comprehensive plan;

(5) to encourage adequate coordination of all government programs affecting the land and water resources of the Pinelands area.

(c) There is hereby established the Pinelands National Reserve which shall consist of the approximately 1,000,000-acre area generally depicted on the map entitled "Pinelands National Reserve Boundary Map" numbered NPS/80,011 A and dated September 1978. Within the Pinelands National Reserve, there is hereby established the Federal Project Review Area, which shall consist of the approximately 486,000 acre area also depicted on the map. The map shall be on file and available for public inspection in the offices of the Department of the Interior in Washington, and in the offices of the State of New Jersey planning entity established pursuant to subsection (d), and in locations throughout the Pinelands National Reserve as determined by the planning entity.

(d) Within thirty days after the date of enactment of this section, the Secretary of the Interior (hereinafter referred to as the "Secretary") shall request the Governor of the State of New Jersey to establish, within ninety days of such request, a planning entity to develop a comprehensive management plan for the Pinelands National Reserve. In order to carry out the purposes of this section, such planning entity shall be composed of fifteen members to be appointed as follows: one member appointed by the Secretary; one member from each of the seven counties in the Pinelands National Reserve to be appointed by the respective governing bodies of each county; and seven members to be appointed by the Governor. The membership of the planning entity shall include residents of the Pinelands National Reserve who represent economic activities such as agriculture in the area, as well as residents of New Jersey who represent conservation interests. The Secretary shall provide technical assistance and grants to the State for the development of the plan or revisions thereof: *Provided*, That such grants shall not exceed 75 percent of the cost of developing the plan, shall be made only upon application of the Governor, on behalf of the planning entity, and shall be subject to such other conditions as the Secretary may deem appropriate to assure state and local interim protection of the area.

(e) During the development of the management plan, the planning entity shall:

(1) consult with appropriate officials of any local government or State or Federal agency which has jurisdiction over lands and waters within the area;

(2) consult with the officials of any local government which has jurisdiction over lands and waters within areas delineated in accordance with subsection (f)(2)(B);

(3) consult with interested professional, scientific and citizen organizations;

(4) consult with a citizens advisory committee which may be established by the Governor; and

(5) conduct public hearings at places within the area, and at such other places as may be appropriate, for the purpose of providing interested persons with an opportunity to express their views with respect to matters covered by the management plan.

(f) The comprehensive management plan for the Pinelands National Reserve shall include, but need not be limited to—

(1) A resource assessment which:

(A) determines the amount and type of human development and activity which the ecosystem can sustain while still maintaining the overall ecological values described in this section with special reference to (i) ground and surface water supply and quality; (ii) natural hazards, including fire, (iii) endangered, unique and unusual plants and animals and biotic communities; (iv) ecological factors relating to the protection and enhancement of blueberry and cranberry production and other agricultural activity; (v) air quality; and (vi) other appropriate considerations affecting the ecological integrity of the area; and

(B) includes an assessment of scenic, aesthetic, cultural, open space, and outdoor recreation resources of the area together with a determination of overall policies required to maintain and enhance these resources.

(2) A map showing the detailed boundary of the Pinelands National Reserve, such map to delineate:

(A) major areas within the boundary which are of critical ecological importance;

(B) major areas and resources adjacent to the boundary that have significance to the ecological integrity of the Pinelands National Reserve; and

(C) areas of scenic, open space, cultural, and recreational significance.

(3) A land use capability map and a comprehensive statement of policies for land use management of the area which:

(A) consider and detail the application of a variety of land and water protection and management techniques, including but not limited to, zoning and regulation derived from State and local police powers, development and use standards and permit systems, acquisition of conservation easements and other interests in land, public access agreements with private landowners, purchase of land for resale or lease-back, fee acquisition of public recreation sites and ecologically sensitive areas and any other method of land and water protection and management which will help meet the goals and carry out the policies of the management plan;

(B) include a policy for the use of State and local police power responsibilities to the greatest extent practicable to regulate the use of land and water resources in a manner consistent with the purposes of this section; and

(C) recognize existing economic activities within the area and provide for the protection and enhancement of such activities as farming, forestry, proprietary recreational facilities, and those indigenous industries and commercial and residential developments which are consistent with the findings and purposes of this section.

(4) A coordination and consistency component which details the ways in which local, State and Federal programs and policies may best be coordinated to promote the goals and policies of the management plan, and which details how land, water and structures managed by governmental or nongovernmental entities in the public interest within the area may be integrated into the management plan.

(5) A public use component including, among other items, a detailed program to educate the public concerning appropriate uses of the area.

(6) A financial component, together with a cash flow timetable, which:

(A) details the cost of implementing the management plan, including, but not limited to, payments in lieu of taxes, general administrative costs, and any anticipated extraordinary or continuing costs; and

(B) details the sources of revenue for covering such costs, including, but not limited to, grants, donations and loans from local, State, and Federal departments and agencies, and from the private sector.

(7) A program to provide for the maximum feasible local government and public participation in the management of the Pinelands National Reserve.

(8) A program for State and local governmental implementation of the comprehensive management plan in a manner that will insure the continued, uniform, consistent protection of this area in accord with the purposes of this section.

(9) In conjunction with existing State programs and planning processes, a plan to implement the provisions of the Clean Water Act and the Safe Drinking Water Act which pertains to the surface and ground waters of the Pinelands National Reserve.

(g)(1) The State of New Jersey, through the planning entity, shall adopt and submit to the Secretary a comprehensive management plan within eighteen months after the date that funds are first provided for its preparation under subsection (d). In the event the State fails to submit the plan within such time period, the Secretary may obtain reimbursement or offset from the State of all Federal funds previously granted under this section. The Secretary shall, within 90 days after the date the plan is submitted to him, either approve or disapprove the plan. Should the Secretary fail to act on the proposed plan within 90 days, the plan shall be regarded as approved. Upon approval, the Secretary shall submit the plan to the Congress for a period of 90 days prior to implementation.

(2) In determining whether or not to approve the management plan, the Secretary shall consider whether:

(A) the planning entity has afforded adequate opportunity, including public hearings, for public and governmental involvement in the preparation and review of the plan, and whether such review and comment thereon were considered in the plan or revision as presented to him;

(B) he has received adequate assurances from appropriate State officials that the recommended implementation program identified in the plan will be initiated within a reasonable time after the date of approval of the plan and such program will insure effective implementation of the State and local aspects of the plan;

(C) provision is made for the participation of a Federal representative in the implementation program;

(D) the plan requires the exercise of police power responsibilities to the greatest extent practicable to regulate the use of land and water resources in a manner consistent with the purposes of this section;

(E) the plan, if implemented, would adequately protect the significant natural, ecological, agricultural, scenic, cultural and recreational resources of the Pinelands National Reserve and, consistent with such protection, provide adequate and appropriate outdoor recreational opportunities and economic activities within the area;

(F) the plan provides for the Governor of the State of New Jersey to exercise effective and continuing oversight over its implementation; and

(G) after consultation with the Secretary of Defense, the national defense mission of the military installations within, contiguous or adjacent to the Pinelands National Reserve has been adequately provided for.

(3) If the Secretary disapproves the management plan or a revision thereof, he shall, within 60 days after the date of such disapproval, advise the planning entity in writing of the reasons therefor, together with his recommendations for revision. The State of New Jersey, through the planning entity shall, within 120 days after receipt by the planning entity of notification of such disapproval, revise and resubmit the plan to the Secretary who shall approve or disapprove a proposed revision within 60 days after the date it is submitted to him. Should the Secretary fail to act on a proposed revision within 60 days, the revision shall be considered as approved.

(4) The Secretary shall consider a plan revision in accordance with the procedure set forth in paragraph (2). Such revisions must be consistent with the purposes of this section.

(5) In the event that the planning entity fails to obtain approval of the plan by the Secretary within thirty-six months after the date funds are first provided under subsection (d) for development of the plan, the Secretary shall terminate all Federal assistance for and participation in the development of such plan, and may obtain reimbursement or offset from the State of New Jersey of all Federal funds previously granted under this section.

(6) The Secretary shall provide technical assistance for and monitor at periodic intervals the implementation of the approved management plan. A local jurisdiction or the State shall obtain the approval of the Secretary prior to any modification of the approved plan. The Secretary shall consider a plan revision in accordance with the procedure set forth in paragraph (2). Such revisions must be consistent with the purposes of this section. Any jurisdiction that implements changes to the approved management plan, or adopts or acquiesces in changes to laws, regulations, or policies adopted to implement such plan, without approval of the Secretary, may be liable for reimbursement or offset of all Federal funds previously granted to it under this section without regard to such additional terms and conditions or other requirements of law that may be applicable to such grants.

(h)(1)(A) During the development of the management plan, the Secretary is authorized to make grants to the State of New Jersey for the acquisition of lands and waters or interests therein within the Pinelands National Reserve that he determines, in consultation with the State planning entity, have critical ecological values which are in immediate danger of being adversely affected or destroyed.

(B) The grants authorized by subsection (h)(1)(A) together with the grants made under paragraph (4) of this subsection, shall (i) be made in a manner consistent with the requirements of the Land and Water Conservation Fund Act; (ii) not exceed 75 percent of the total cost of all property acquired by the State pursuant to this subsection; (iii) be supplemental to any other Federal financial assistance for any other program; and (iv) be subject to such additional terms and conditions as the Secretary may deem necessary to effectuate the purposes of this section.

(2) In the event the State elects not to make acquisitions as authorized under subsection (h)(1), the Secretary, during the development of the management plan, is authorized to acquire such lands, waters or interests therein by donation, purchase with donated or appropriated funds, exchange, or otherwise, and to administer such property under the laws generally applicable to units of the National Park System or National Wildlife Refuge System in a manner to carry out the purposes of this section.

(3) After his approval of the management plan, the Secretary (A) is authorized to convey property acquired pursuant to subsection (h)(2) to State or local authorities in accordance with the management plan, under such terms and conditions as he may deem appropriate, which shall include (i) a requirement that where the Secretary transfers land acquired with appropriated funds, the State or local government shall repay not less than 25 percent of the cost of such lands to the Secretary under such terms and conditions as he may deem appropriate, and (ii) a retention of a right of reversion of title to the United States, and (B) shall accept from the State those lands acquired pursuant to subsection (h)(1), which are identified in the management plan as being appropriate for Federal ownership and management: *Provided*, that the Secretary shall reimburse to the State such sums as are necessary to (i) cover 100 percent of the original cost of acquisition as to each parcel of land so transferred and (ii) assure that as to the remainder of lands acquired pursuant to subsection (h)(1) not transferred under this subsection, the total Federal land acquisition cost does not exceed 75 percent of the purchase price of such lands.

(4) Upon approval of the management plan, the Secretary is authorized to make grants for the acquisition within the Pinelands National Reserve of lands and waters or interests therein in a manner consistent with the management plan. All applications for such grants shall be made within ten years from the date of implementation of the management plan.

(i) During the development of the management plan for the Pinelands National Reserve, all applications for Federal assistance under programs covered by Part I of OMB Circular A-95 and direct Federal actions covered by Part II of OMB Circular A-95 within the Federal Project Review Area generally depicted on the map referred to in subsection (c) which involve the construction of hous-

ing, industrial parks, highways, or sewage or water treatment facilities shall be reviewed by the planning entity, upon receipt from the New Jersey State A–95 Clearinghouse (hereinafter referred to as the Clearinghouse). If the planning entity finds that such application or proposed action would have no adverse impact on the resources and ecological values of the Federal Project Review Area, the planning entity shall so notify the Clearinghouse. If the planning entity does not so find, Congress authorizes the planning entity to notify the Clearinghouse and other affected parties that such application or proposed action shall not proceed pending further review, and the planning entity shall forward such application or notice of proposed action to the Secretary. Any such application or proposed action which the Secretary determines would be significantly adverse to the purposes of this section shall not proceed while the management plan is being developed. The review process established under this subsection, shall begin upon the appropriation of funds under subsection (k).

(j) Nothing in this section shall be construed to limit or prohibit any Federal action ordered by a court of competent jurisdiction or directed by a Federal agency as essential for the protection of public health or safety, for national security or defense, or for the maintenance of environmental values within the Pinelands National Reserve or the Federal Project Review Area.

(k) There is authorized to be appropriated not to exceed $26 million to carry out the provisions of this section. Not to exceed $3 million shall be available for planning: *Provided*, That any funds not used for planning shall be available for land acquisition; *Provided further*, that $23 million shall be made available for land acquisition, as authorized by this section. Such appropriations may be made from the general fund of the Treasury or from revenues due and payable to the United States under the Outer Continental Shelf Lands Act, as amended, which would otherwise be credited to miscellaneous receipts.

(9) Amend section 401(7) by deleting map reference "numbered 157–20, 001–A and dated January 1978," and by inserting in lieu thereof "157–20,001–B and dated October 1978,".

(10) Amend section 505(e) by inserting "as appropriate" between "directed" and "to".

(11) Amend section 505(e) by adding the following new sentence at the end thereof: "For the purposes of this section, native Hawaiians are defined as any lineal descendants of the race inhabiting the Hawaiian Islands prior to the year 1778."

(12) Delete section 512 in its entirety and insert the following new section:

CROW CREEK VILLAGE ARCHEOLOGICAL SITE

"SEC. 512. (a) The Secretary shall prepare and transmit to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs of the House of Representatives within two years from the date of enactment, a feasibility/suitability study of the Crow Creek Village archeological site, Buffalo County, South Dakota, as a unit of the National Park System. The study shall include cost estimates for any necessary acquisition, development, operation and maintenance, as well as any feasible alternatives for the administration and protection of the area, including, but not limited to, Federal financial and technical assistance to the State of South Dakota, Buffalo or other suitable entity.

(b) Notwithstanding any other provision of law, the Secretary of the Army is directed to take such actions as may be necessary to preserve and protect such site from any adverse impact on the site and to refrain from any activities which might cause such impact until two years from the date of submission of the study by the Secretary."

(13) Delete section 551 in its entirety and insert the following new section:

Subtitle B—Trails

SEC. 551. The National Trails System Act (82 Stat. 919; 16 U.S.C. 1241), as amended, is further amended as follows:

(1) In section 2(a) after promote insert the preservation of,; and after outdoor areas insert and historic resources".

(2) In section 2(a) delete (ii) and the remainder of the sentence and insert (ii) secondarily, within scenic areas and along historic travel routes of the Nation, which are often more remotely located.

(3) In section 2(b) delete and scenic and insert scenic and historic.

(4) In section 3 redesignate subsection (c) as (d), and insert a new subsection (c) as follows:

(c) National historic trails, established as provided in section 5 of this Act, which will be extended trails which follow as closely as possible and practicable the original trails or routes of travel of national historical significance. Designation of such trails or routes shall be continuous, but the established or developed trail, and the acquisition thereof, need not be continuous on site. National historic trails shall have as their purpose the identification and protection of the historic route and its historic remnants and artifacts for public use and enjoyment. Only those selected land and water based components of an historic trail which are on federally owned lands and which meet the national historic trail criteria established in this Act, are established as initial Federal protection components of a national historic trail. The appropriate Secretary may subsequently certify other lands as protected segments of an historic trail upon application from State or local governmental agencies or private interests involved if such segments meet the national historic trail criteria established in this Act and such criteria supplementary thereto as the appropriate Secretary may prescribe, and are administered by such agencies or interests without expense to the United States.

(5) In the new section 3(d) delete or national scenic and insert national scenic or national historic.

(6) Change the title of section 5 to read NATIONAL SCENIC AND NATIONAL HISTORIC TRAILS.

(7) In section 5(a), insert in the first sentence after the word scenic the words and national historic and change the second sentence to read: There are hereby established the following National Scenic and National Historic Trails:.

(8) In section 5(a)(1), in the first sentence, after the word Appalachian, insert National Scenic, and in section 5(a)(2), in the first sentence, after Pacific Crest, insert National Scenic.

(9) In section 5(a), delete paragraph (3) and insert in lieu the following new paragraphs:

(3) The Oregon National Historic Trail, a route of approximately two thousand miles extending from near Independence, Missouri, to the vicinity of Portland, Oregon, following a route as depicted on maps identified as Primary Route of the Oregon Trail 1841–1848, in the Department of the Interior's Oregon Trail study report dated April 1977, and which shall be on file and available for public inspection in the office of the Director of the National Park Service. The Trail shall be administered by the Secretary of the Interior.

(4) The Mormon Pioneer National Historic Trail, a route of approximately one thousand three hundred miles extending from Nauvoo, Illinois, to Salt Lake City, Utah, following the primary historical route of the Mormon Trail as generally depicted on a map, identified as "Mormon Trail Vicinity Map, figure 2" in the Department of the Interior Mormon Trail study report dated March 1977, and which shall be on file and available for public inspection in the office of the Director, National Park Service, Washington, D.C. The trail shall be administered by the Secretary of the Interior.

(5) The Continental Divide National Scenic Trail, a trail of approximately thirty-one hundred miles, extending from the Montana-Canada border to the New Mexico-Mexico border, following the approximate route depicted on the map, identified as "Proposed Continental Divide National Scenic Trail" in the Department of the Interior Continental Divide Trail study report dated March 1977 and which shall be on file and available for public inspection in the office of the Chief, Forest Service, Washington, D.C. The Continental Divide National Scenic Trail shall be administered by the Secretary of Agriculture in consultation with the Secretary of the Interior. Notwithstanding the provisions of section 7(c), the use of motorized vehicles on roads which will be designated segments of the Continental Divide National Scenic Trail shall be permitted in accordance with regulations prescribed by the appropriate Secretary.

(6) The Lewis and Clark National Historic Trail, a trail of approximately three thousand seven hundred miles, extending from Wood River, Illinois, to the mouth of the Columbia River in Oregon, following the outbound and inbound routes of the Lewis and Clerk Expedition depicted on maps, identified as "Vicinity Map, Lewis and Clark Trail" study report dated April 1977. The map shall be on file and available for public inspection in the Office of the Director, National Park Service, Washington, D.C. The trail shall be administered by the Secretary of the Interior.

(7 The Iditarod National Historic Trail, a route of approximately two thousand miles extending from Seward, Alaska, to Nome, Alaska, following the routes as depicted on maps identified as "Seward-Nome Trail", in the Department of the Interior's study entitled "The Iditarod Trail (Seward-Nome Route) and other Alaskan Gold Rush Trails" dated September 1977. The map shall be on file and available for public inspection in the office of the Director, National Park Service, Washington, D.C. The trail shall be administered by the Secretary of the Interior.

(10) In section 5(b) after "national scenic" wherever it appears insert "or national historic"; in the first sentence after the phrase "Secretary of the Interior," insert "through the agency most likely to administer such trail," delete the third sentence; and delete that portion of the fourth sentence which precedes the numerical listing, and insert in lieu the following: "The studios listed in subsection (c) of this section shall be completed and submitted to the Congress, with recommendations as to the suitability of trail designation, not later than three complete fiscal years from the date of enactment of their addition to this subsection, or from the date of enactment of this sentence, whichever is later. Such studies, when submitted, shall be printed as a House or Senate document, and shall include, but not be limited to:".

(11) In section 5(b)(3) after the semicolon add "and in the case of national historic trails the report shall include the recommendation of the Secretary of the Interior's National Park System Advisory Board as to the national historic significance based on the criteria developed under the Historic Sites Act of 1935 (49 Stat. 666; U.S.C. 461);

(12) In section 5(b)(8) delete the word and at the end of the sentence; in section 5(b)(9) change the period at the end of the

sentence to a semicolon; and at the end of section 5(b) add the following new paragraphs:

(10) the anticipated impact of public outdoor recreation use on the preservation of a proposed national historic trail and its related historic and archeological features and settings, including the measures proposed to ensure evaluation and preservation of the values that contribute to their national historic significance; and

(11) to qualify for designation as a national historic trail, a trail must meet all three of the following criteria:

(A) It must be a trail or route established by historic use and must be historically significant as a result of that use. The route need not currently exist as a discernible trail to qualify, but its location must be sufficiently known to permit evaluation of public recreation and historical interest potential. A designated trail should generally accurately follow the historic route, but may deviate somewhat on occasion of necessity to avoid difficult routing through subsequent development, or to provide some route variation offering a more pleasurable recreational experience. Such deviations shall be so noted on site. Trail segments no longer possible to travel by trail due to subsequent development as motorized transportation routes may be designated and marked on-site as segments which link to the historic trail.

(B) It must be of national significance with respect to any of several broad facets of American history, such as trade and commerce, migration and settlement, or military campaigns. To qualify as nationally significant, historic use of the trail must have had a far-reaching effect on broad patterns of American culture. Trails significant in the history of native Americans may be included.

(C) It must have significant potential for public recreational use or historical interest based on historic interpretation and appreciation. The potential for such use is generally greater along roadless segments developed as historic trails, and at historic sites associated with the trail. The presence of recreation potential not related to historic appreciation is not sufficient justification for designation under this category.

(13) In section 5(c), add the following at the end thereof:

(20) Overmountain Victory Trail, extending from the vicinity of Elizabethton, Tennessee, to Kings Mountain National Military Park, South Carolina.

(14) In section 5 delete subsection (d), and insert a new section 5(d) to read as follows:

(d) The Secretary charged with the administration of each respective trail shall, within one year of the date of the addition of any national scenic or national historic trail to the System, and within sixty days of the enactment of this sentence for the Appalachian and Pacific Crest National Scenic Trails, establish an advisory council for each such trail, each of which councils shall expire ten years from the date of its establishment. The appropriate Secretary shall consult with such council from time to time with respect to matters relating to the trail, including the selection of rights-of-way, standards for the erection and maintenance of markers along the trail, and the administration of the trail. The members of each advisory council, which shall not exceed thirty-five in number, shall serve for a term of two years and without compensation as such, but the Secretary may pay, upon vouchers signed by the chairman of the council, the expenses reasonably incurred by the council and its members in carrying out their responsibilities under this section. Members of each council shall be appointed by the appropriate Secretary as follows:

(i) a member appointed to represent each Federal department or independent agency administering lands through which the trail route passes, and each appointee shall be the person designated by the head of such depart or agency;

(ii) a member appointed to represent each State through which the trail passes, and such appointments shall be made from recommendations of the Governors of such States;

(iii) one or more members appointed to represent private organizations, including corporate and individual landowners and land users, which in the opinion of the Secretary, have an established and recognized interest in the trail, and such appointments shall be made from recommendations of the heads of such organizations: *Provided*, That the Appalachian Trail Conference shall be represented by a sufficient number of persons to represent the various sections of the country through which the Appalachian Trail passes; and

(iv) the Secretary shall designate one member to be chairman and shall fill vacancies in the same manner as the original appointment.".

(15) In section 5 add two new subsections (e) and (f) as follows:

(e) Within two complete fiscal years of the date of enactment of legislation designating a national scenic trail, except for the Continental Divide National Scenic Trail, as part of the system, and within two complete fiscal years of the date of enactment of this subsection for the Pacific Crest and Appalachian Trails, the responsible Secretary shall, after full consultation with affected Federal land managing agencies, the Governors of the affected States, the relevant advisory council established pursuant to section 5(d), and the Appalachian Trail Conference in the case of the Appalachian Trail, submit to the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, a comprehensive plan for the acquisition, management, development, and use of the trail, including but not limited to, the following items:

(1) specific objectives and practices to be observed in the management of the trail, including the identification of all significant natural, historical, and cultural resources to be preserved (along with high potential historic sites and high potential route segments in the case of national historic trails), details of anticipated cooperative agreements to be consummated with other entities, and an identified carrying capacity of the trail and a plan for its implementation;

(2) an acquisition or protection plan, by fiscal year, for all lands to be acquired by fee title or lesser interest, along with detailed explanation of anticipated necessary cooperative agreements for any lands not to be acquired; and

(3) general and site-specific development plans, including anticipated costs.".

(f) Within two complete fiscal years of the date of enactment of legislation designating a national historic trail or the Continental Divide National Scenic Trail as part of the system, the responsible Secretary shall, after full consultation with affected Federal land managing agencies, the Governors of the affected States, and the relevant Advisory Council established pursuant to section 5(d) of this Act, submit to the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, a comprehensive plan for the management, and use of the trail, including but not limited to, the following items:

(1) specific objectives and practices to be observed in the management of the trail, including the identification of all significant natural, historical, and cultural resources to be preserved, details of any anticipated cooperative agreements to be consummated with State and local government agencies or private interests, and for national scenic or national recreational trails an identified carrying capacity of the trail and a plan for its implementation; and

(2) the process to be followed by the appropriate Secretary to implement the marking requirements established in section 7(c) of this Act.".

(16) In section 6 in the first sentence delete ", or national scenic" and insert "national scenic or national historic", and in the second sentence delete ", or scenic" and insert "national scenic, or national historic."

(17) In section 7(a) in the first sentence delete "National Scenic Trails" and insert "national scenic and national historic trails"; in two instances in subsection (b), and in the first sentence of subsection (c), after "scenic", insert "or national historic"; in subsection (c) in the second proviso, after "recreation" delete "or scenic" and insert ", national scenic, or national historic"; and in the fifth sentence after "recreation" delete "and scenic" and insert ", national scenic, and national history"; in subsection (d) after "recreation" delete "or scenic" and insert ", national scenic, or national historic"; in subsection (e) after "scenic" in both instances where it appears insert "or national historic"; in subsection (h) in the first sentence after "recreation" delete "or scenic" and insert ", national scenic, or national historic", and in the second sentence after "scenic" insert "or national historic"; in subsection (i) after "recreation" delete "or scenic" and insert ", national scenic, or national historic".

(18) In section 7(c) at the end of the fourth sentence insert the following: "Where a national historic trail follows existing public roads, developed rights-of-way or waterways, and similar features of man's nonhistorically related development, approximating the original location of a historic route, such segments may be marked to facilitate retracement of the historic route, and where a national historic trail parallels an existing public road, such road may be marked to commemorate the historic route.".

Other uses along the historic trails and the Continential Divide National Scenic Trail, which will not substantially interfere with the nature and purposes of the trail, and which, at the time of designation, are allowed by administrative regulations, including the use of motorized vehicles, shall be permitted by the Secretary charged with the administration of the trail.

(19) In section 7(e), in the first proviso, delete within two years.

(20) In section 7(g), delete the second proviso entirely.

(21) At the end of subsection 7(g) add the following new sentence: "For national historic trails, direct Federal acquisition for trail purposes shall be limited to those areas indicated by the study report or by the comprehensive plan as high potential route segments or high potential historic sites.".

No land or site located along a designated national historic trail or along the Continental Divide National Scenic Trail shall be subject to the provisions of section 4(f) of the Department of Transportation Act (49 U.S.C. 1653(f)) unless such land or site is deemed to be of historical significance under appropriate historical site criteria such as those for the National Register of Historic Places.

(22) In section 8 in the first sentence of subsection (a) after "establishing park, forest, and other recreation" insert "and historic" and after "administered by States, and recreation" insert "and historic"; and at the end of the first sentence insert the following: "The Secretary is also directed to encourage States to consider, in their comprehensive statewide historic preservation plans and proposals for financial assistance for State, local, and private projects submitted pursuant to the Act of October 15, 1966 (80 Stat.

915), as amended, needs and opportunities for establishing historic trails."

(23) In section 10, strike "(a)(1)" and insert in lieu thereof "(a)", strike "the subsequent fiscal years": strike the paragraph numbered "(2)" in its entirety; and add a new "subsection (c)" as follows:

"(c) There is hereby authorized to be appropriated such sums as may be necessary to implement the provisions of this Act relating to the trails designated by paragraphs 5(a), (3), (4), (5), (6), and (7): *Provided*, That no such funds are authorized to be appropriated prior to October 1, 1979: *And provided further*, That notwithstanding any other provisions of this Act or any other provisions of law, no funds may be expended for the acquisition of lands or interests in lands for the Continental Divide National Scenic Trail, the Oregon National Historic Trail, the Mormon Pioneer National Historic Trail, the Lewis and Clark National Historic Trail, and the Iditarod National Historic Trail "."

(14) Delete Section 603 in its entirety and insert the following new section:

Sec. 603(a) the Act of June 27, 1960 (74 Stat. 220) as amended May 24, 1974 (88 Stat. 174, 176; 16 U.S.C. 469) is amended as follows:

(b) In section 7(b), delete the "and" following "1977;", change the period at the end of the sentence to a semicolon; and add the following words: "$500,000 in fiscal year 1979; $1,000,000 in fiscal year 1980; $1,500,000 infi scal year 1981; $1,500,000 in fiscal year 1982; and $1,500,000 in fiscal year 1983.".

(c) In section 7(c), delete the "and" following "1977;", change the period at the end of the sentence to a semicolon, and add the following words: "$3,000,000 in fiscal year 1979; $3,000,000 in fiscal year 1980; $3,500,000 in fiscal year 1981; $1,500,000 in fiscal year 1982; and $4,000,000 in fiscal year 1983.".

(d) Add the following new subsection "(d)" to section 7:

"(d) Beginning fiscal year 1979, sums appropriated for purposes of section 7 shall remain available until expended."."

(15) Delete section 701 in its entirety and insert the following new language:

Sec. 701. Section 3(a) of the Wild and Scenic Rivers Act is amended by adding the following new paragraph at the end thereof:

(16) Pere Marquette, Michigan.—The segment downstream from the junction of the Middle and Little South Branches to its junction with United States Highway 31 as generally depicted on the boundary map entitled 'Proposed Boundary Location, Pere Marquette Wild and Scenic River,'; to be administered by the Secretary of Agriculture. After consultation with State and local governments and the interested public, the Secretary shall take such action as is provided for under subsection (b) with respect to the segment referred to in this paragraph within one year from the date of enactment of this paragraph. Any development or management plan prepared pursuant to subsection (b) shall include (a) provisions for the dissemination of information to river users and (b) such regulations relating to the recreational and other uses of the river as may be necessary in order to protect the area comprising such river (including lands contiguous or adjacent thereto) from damage or destruction by reason of over use and to protect its scenic, historic, esthetic and scientific values. Such regulations shall further contain procedures and means which shall be utilized in the enforcement of such development and management plan. For the purposes of carrying out the provisions of this Act with respect to the river designated by this paragraph, there are authorized to be appropriated not more than $8,125,000 for the acquisition of lands or interests in lands and $402.000 for development.

(16) Delete section 753(b) in its entirety.

(17) In section 762, delete "permits, Federal assistance and other Federal actions".

(18) Delete section 908(a) and insert in lieu thereof the following new section:

"Sec. 908. (a) There is authorized to be appropriated, to carry out the provisions of this Title, not to exceed $50,000,000 from the Land and Water Conservation Fund for acquisition of lands, waters, and interests therein and such sums as necessary for the development of essential facilities."

(19) Amend that portion of section 1005(a) following the third sentence as follows: "Such criteria shall be based upon factors which the Secretary determines are related to deteriorated recreational facilities or systems, and physical and economic distress."

(20) Amend section 1005(c)(2) to read as follows: "condition of existing recreation areas and facilities;"

(21) Amend section 1009 to read as follows:

MATCHING REQUIREMENTS

Sec. 1009. The non-Federal share of project costs assisted under this title may be derived from general or special purpose State or local revenues. State categorical grants, special appropriations by State legislatures, donations of land, buildings, or building materials and/or in-kind construction, technical, and planning services. No monies from the Land and Water Conservation Fund (77 Stat. 49), as amended, or from any other Federal grant program other than general revenue sharing and the community development block grant programs shall be used to match Federal grants under this program. Reasonable local costs of action program development to meet the requirements of section 1007(a) of this title may be used as part of the local match only when local applicants have not received program development grants under the authority of section 1007(c) of this title. The Secretary shall encourage States and private interests to contribute, to the maximum extent possible, to the non-Federal share of project costs.

(22) At the end of section 317(a) insert the following new sentence:

"Notwithstanding any other provision of this Act, the Secretary shall not acquire the Marin County Assessor's parcels numbered 199–181–01, 199–181–06, 199–181–08, 199–181–13, and 199–181–14, located in the Muir Beach portion of the recreation area."

(23) Delete section 729 in its entirety and insert in its place the following section:

"DESIGNATION OF ALLEGHENY RIVER FOR STUDY

"Sec. 729. Section 5(a) of the Wild and Scenic Rivers Act is amended by adding the following new paragraph at the end thereof:

'(67) Allegheny, Pennsylvania.—The main stem from Kinzua Dam downstream to East Brady.'."

(24) Amend section 732(70) to read as follows:

"(70) Myakka, Florida—The segment south of the southern boundary of the Myakka River State Park."

(25) Insert the following proviso preceding the period at the end of the third sentence of section 507(c): *Provided, however*, that the value of any lands acquired by the Secretary under the exception in this sentence shall be deducted from the amount of monies available for grants to the State under subsection (n) of this section.

(26) Delete the proviso in section 507(o).

(27) Add a new title XIII to read as follows:

Sec. 1301. Within 90 days from enactment of this Act, the Secretary of Agriculture shall report to the Committee on Interior and Insular Affairs in the House of Representatives, and the Committee on Energy and Natural Resources of the Senate, the nature and extent of the progress of any proposal to exchange lands owned by the Burlington Northern Railroad on either the Beaverhead or Gallatin National Forests in the State of Montana for lands owned by the United States elsewhere in the State of Montana. Such report shall also discuss any study or appraisal work done by any agency of the Federal Government concerning the feasibility, impact, or cost of any such an exchange between the Burlington Northern Railroad and the Federal government, including the sharing of cost of such study. The Department of Agriculture shall not proceed with the processing of any exchange of more than 6,400 acres until and unless authorized to do so by a Concurrent Resolution of the Congress."

(28) Add a new title XIII as follows:

HAMPTON NATIONAL HISTORIC SITE

Sec. 1301. (a) In order to preserve, as part of the Hampton National Historic Site, lands and buildings historically associated with Hampton Mansion, the exterior boundaries of such historic site are hereby revised to include the following described lands:

All that certain tract or parcel of land lying and being situated in Baltimore County, Maryland, and being more particularly described as follows:

Beginning at a point on the Northwest side of Hampton Lane (50 feet wide), said corner being common to the lands now or formerly of Hampton Village, Inc. and the lands of Gertrude C. Ridgely, et al; thence, with the Northern right-of-way line of said Hampton Lane, the two following courses and distances:

North 69° 19' 40" East, 188.75 feet; and

Easterly by a line curving toward the right having a radius of 408.59 feet for a distance of 196 feet (the chord bearing of North 83°04'12" East, 194.12 feet); thence, leaving said Hampton Road, North 14°20'20" East, 1,095.18 feet to the westernmost corner of Lot No. 1 as shown on Plat "D" of Hampton and filed for record in Plat Book G.L.B. No. 20, Folio 32; thence, running along the southerly line of the lots fronting on St. Francis Road (as shown on said Plat) on a line parallel to and 200 feet from said street, South 68°25'30" West, 777.75 feet to a point on the easterly side of a 40 feet wide road; thence, with said road, North 21°34'30" West, 200.00 feet to a point on the southerly right-of-way line of St. Francis Road; thence, leaving said 40 feet wide road and with said St. Francis Road, South 68°25'30" West, 40.00 feet to a point on the westerly side of said 40 feet wide road; thence, leaving said St. Francis Road and with said 40 feet wide road, South 21°34'30" East, 200.00 feet to a pipe; thence, leaving said 40 foot wide road, South 68°25'30" West, 200.00 feet to a corner common to said Hampton Village, Inc. and the lands of subject owner; thence, with said Hampton Village, Inc., South 21°29'33" East, 835.03 feet to the point of beginning.

Containing 14.02 acres, more or less.

(b) The Secretary of the Interior (hereinafter referred to as the "Secretary") in furtherance of the purposes of this section, is authorized to acquire by donation, purchase, or exchange lands and interests in lands described in subsection (a) of this section.

(c) The Secretary shall administer lands acquired under the authority of this section as part of the Hampton National Historic Site in accordance with the Act of August 25, 1916 (39 Stat. 535), as amended and supplemented and the Act of August 21, 1935 (49 Stat. 666).

(d) There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.

Mr. PHILLIP BURTON (during the reading). Mr. Speaker, I ask unanimous

consent that the Senate amendments to the House amendment be considered as read and printed in the RECORD.

The SPEAKER. Is there objection to the request of the gentleman from California?

Mr. LAGOMARSINO. Mr. Speaker, reserving the right to object, and I do so only to ask the gentleman from California (Mr. PHILLIP BURTON) if he would briefly explain the changes that have been made in this Omnibus Park bill.

Mr. PHILLIP BURTON. Mr. Speaker, will the gentleman yield?

Mr. LAGOMARSINO. I yield to the gentleman from California.

Mr. PHILLIP BURTON. Mr. Speaker, if the gentleman will yield, as the gentleman from California knows, this bill is virtually identical to the House-passed version a few days ago. The House position is virtually in all respects protected. This is approved by the executive department, and I am quite pleased with the result.

Mr. Speaker, any list of participants who deserve particular credit for enactment of this legislation must include MATT MCHUGH and JOE MCDADE, our colleagues from the Appropriations Committee. During his service on the Interior and Insular Affairs Committee, Representative MCHUGH authored the section of the bill designating the Upper Delaware River as a component of the National Wild and Scenic Rivers System. His persistence and hard work have brought forth an innovative solution to this river which will preserve its character with a maximum of local public involvement.

Representative JOE MCDADE offered invaluable assistance and his unwavering support throughout the development of this proposal.

Representative JOHN BURTON has spent uncounted hours in pursuit of the expansions of both Point Reyes National Seashore and Golden Gate National Recreation Area. His unflagging effort to resolve a host of land use and preservation issues associated with these additions has resulted in the addition of some 6,000 acres to these beautiful and heavily visited recreation areas.

Another expansion of an existing area is the Cuyahoga Valley National Recreation Area in Ohio. During the 93d Congress, Representatives JOHN SEIBERLING and RALPH REGULA succeeded in their effort to establish this new recreation area in close proximity to the major populations of the Greater Cleveland-Akron area. They have authorized the section of this measure which rounds out the boundaries of the recreation area and provides the initial major authorization for the visitor facilities that have been planned.

The progress of this legislation was shaped and assisted by many of our colleagues in the Senate. While I will not attempt to mention all those who have played an important role in this enterprise, I must offer my personal thanks to the subcommittee chairman, JAMES ABOUREZK, and the ranking minority member of the Senate Energy and Natural Resources Committee, Senator CLIFF HANSEN, as well as their capable and effective staff members, who labored mightily to produce this result. JIM ABOUREZK and CLIFF HANSEN are closing their careers in the U.S. Senate and this legislation is but one further testament to their dedicated and effective leadership in preserving our country's natural and historic heritage.

Chairman HENRY M. JACKSON of the Senate Committee again demonstrated his long-standing interest in these issues and his work in shepherding the measure through its final stages was superb.

Senator ALAN CRANSTON played the key role in pressing forward to include the bill on the priority list for Senate passage, and was instrumental in securing the debate time necessary to pass this measure.

A joint Senate and House effort led to the inclusion of the magnificent New River Gorge in this measure. Senators ROBERT BYRD and JENNINGS RANDOLPH worked in close cooperation with Representative NICK JOE RAHALL to develop the consensus that has made this project a reality.

In deliberating a long and complex measure such as S. 791, the continued interest and hard work of many committee members is vital. Representatives LAMAR GUDGER and PAUL TSONGAS lent their efforts in the formative stages of this legislation and worked selflessly to insure that the committee reported a well-constructed measure. Their continuing assistance has been crucial to the success of this matter.

Representative BRUCE VENTO also contributed mightily to this effort and deserves our thanks for his time and effectiveness.

I believe it is fair to say that one of the strengths of S. 791 is the bipartisan effort which led to its enactment. Our ranking minority member on the subcommittee, Representative KEITH SEBELIUS, has been a most constructive force in guiding the substance and progress of this effort.

Representative JOE SKUBITZ, who is closing his career as ranking minority member of the House Committee on Interior and Insular Affairs, can look back with pride at this capstone to his long efforts to protect and preserve these important areas.

Many Members have assisted the committee by bringing to our attention meritorious projects which could be considered in this omnibus measure. Representative JAMES BROYHILL joined by Representative LAMAR GUDGER championed a study of the Overmountain Victory Trail, an important route related to our American Revolution. Representative JAMES QUILLEN has worked for and succeeded in increasing the development authorization for the Andrew Johnson National Historic Site. Through the efforts of Representative DEL LATTA, vitally needed funding has been authorized to repair and restore the facilities at Perry's Victory and International Peace Memorial.

Representative JAMES FLORIO worked until quite literally the 11th hour of this legislation to develop and refine the optimum language for a framework to conserve the Pine Barrens area of New Jersey, joined by his colleagues, Representatives HUGHES and FORSYTHE.

Another joint House-Senate effort is surely the urban park and recreation recovery program contained in S. 791. Representatives JONATHAN BINGHAM and JOHN SEIBERLING have again demonstrated their unflagging commitment to improving these programs and Senator HOWARD METZENBAUM and his staff refined this product to its final form.

The magnificent Rio Grande River in Texas will now be preserved in our National Wild and Scenic Rivers System, thanks to the efforts of Representative BOB ECKHARDT.

Representative TOM DOWNEY has been steadfast in his resolve to insure full protection for Fire Island National Seashore. His hard work has resulted in provisions that will maintain the fragile dunes of this barrier island free from further development.

The measure reflects Representative GEORGE MILLER'S continuing efforts for the upgrading of the John Muir National Historic Site. Representative AL ULLMAN who shepherded the John Day Fossil Beds National Monument into reality in the 93d Congress has continued his work in this measure to adjust the boundaries of this area to afford better protection to its important values.

A major increase in the land acquisition for the Sawtooth National Recreation Area is due to the good work of Representative NORMAN DICKS and STEVE SYMMS in conjunction with Senator FRANK CHURCH.

A fortunate addition to the list of wild and scenic river designations is that of the American River in northern California, thanks to the personal interest and continued work of Representative HAROLD (BIZZ) JOHNSON. And a special bow should go to Representative BILL GRADISON whose long standing interest in the preservation of the superlative Red River Gorge in Kentucky led to its inclusion for study as a potential wild and scenic river.

Hawaii's two House Members, DANIEL AKAKA and CECIL HEFTEL, both freshmen, successfully pressed their case that Kaloko-Honokohau National Historical Park be established in order to preserve from extinction certain historical and cultural areas and traditions of ancient Hawaiians. Thanks to these two Members' efforts, Native Hawaiians and all their descendants will have continuing access to their "roots."

A segment of the Missouri River, from Gavins Point Dam, S. Dak., to Ponca State Park., Nebr., has been designated as a wild and scenic river because of Virginia Smith from Nebraska, Hess Dyas from Nebraska, and Tom Daschle from South Dakota. the Contributions of the latter to the successful inclusion of this provision in the bill are particularly noteworthy because they are not yet in the Congress. Hess Dyas is a candidate for Congress from the First District of Nebraska and Tom Daschle is running for a seat from the First District of South Dakota. If their lobbying efforts are any indication of their potential effectiveness as House Members, their would-be con-

stituents should look forward to two very effective and dynamic Congressmen.

St. Paul's Church, Eastchester, in Mount Vernon, N.Y., will be preserved and protected for present and future generations thanks to DICK OTTINGER's untiring efforts to include this in the omnibus parks bill.

Without JOSH EILBERG's dedication to bringing this about, the bill as sent to the White House might not have contained the section authorizing the establishment of the Edgar Allen Poe National Historic Site.

Additional land has been added to the Oregon Caves National Monument in Oregon, due to the efforts of our colleague, JIM WEAVER, the outstanding Member from that State. As a member of the House Interior Committee, JIM's contributions to the cause of conservation are continuous and substantive.

In particular I want to single out for my heartfelt thanks and unstinting praise the hard working members of our subcommitee. All of them, Democrats and Republicans alike, made important contributions to the omnibus parks bill. They are: BOB KASTENMEIER, TONY WON PAT, RON DE LUGO, JIM FLORIO, DAWSON MATHIS, JOHN KREBS, PETER KOSTMAYER, AUSTIN MURPHY, LAMAR GUDGER, BALTASAR CORRADA, JONATHAN BINGHAM, BOB ECKHARDT, PAUL TSONGAS, MO UDALL, KEITH SEBELIUS, JOE SKUBITZ, DON CLAUSEN, PHIL RUPPE, BOB BAUMAN, and BOB LAGOMARSINO. Our late beloved colleague, Goodloe Byron, should also be cited here for his numerous contributions right up to his untimely death this week. I am convinced that no other subcommittee chairman has such a fine group of intelligent, energetic, creative and committed members as I can boast of the membership of the House Interior Subcommitee on National Parks and Insular Affairs.

As one who introduced the bill unsuccessfully many years ago when I first came to Congress, I want to express my appreciation and admiration to my friend and colleague, the gentleman from California, JOHN KREBS, who was the successful author of the Mineral King component of this legislation. His leadership will make it possible for countless Americans to enjoy the unique beauty of this scenic alpine valley, yet provide appropriate protection from the threat of commercialization.

Georgians can thank Bo GINN and DAWSON MATHIS, their two able House Members, for the increase in the authorized development limitation for Andersonville National Historic Site. With this increased authorization, the construction of an information center, roads and parking, reconstruction of part of the prison stockade and other parts of the park can now be funded.

LINDY BOGGS, our colleague from Louisiana, and our friend, BENNETT JOHNSTON, the Senator from the same State, are responsible for the inclusion in the bill of Jean Lafitte National Historical Park. They were assisted in their efforts by Jerry Huckaby. This park, long sought after by the people of Louisiana, will now become a reality thanks to these three fine Members of Congress.

With the final approval of S. 791, the beauty and recreational benefits of the Santa Monica Mountains area will be preserved forever for people not only from the State of California, but from everywhere in this great country. And all those people who take advantage of these benefits in future can thank in particular three House Members and one Senator who relentlessly worked to bring this recreation area into being. TONY BEILENSON, BARRY GOLDWATER, JR., BOB LAGOMARSINO, and Senator ALAN CRANSTON are to be applauded for their outstanding efforts. Generations to come will benefit from their refusal to give up their willingness to negotiate, their ability to put partisan feelings aside for the betterment of their constituents.

Mr. Speaker, I want to clarify that the Melcher amendment in the Senate committee amendment to the omnibus bill was accepted by the House with the clear and unambiguous understanding that it applied exclusively to the exchange of lands owned by the Burlington Northern Railroad on either the Beaver Head or the Gallatin National Forest in the State of Montana.

This understanding on behalf of the House is based on the expressed assurance by the distinguished senior Senator from the State of Montana, Mr. MELCHER, to this Member.

Devotees of Carl Sandburg owe LAMAR GUDGER a debt of thanks for his successful efforts to increase the authorized development limitation at Carl Sandburg National Historic Site in order to permit construction of a visitor orientation facility and various other improvements needed on the property.

The Boston National Historical Park will be enriched by the addition of Dorchester Heights. The Member who played the vital role in securing this extra land for the park was our colleague from Boston, JOE MOAKLEY. Additionally, it was JOE who led the effort in the Rules Committee to secure a favorable rule for the bill.

The Palo Alto Battlefield in Texas has been designated a national historic site because of KIKO DE LA GARZA's effective efforts to bring this about.

The compelling leadership of PETER KOSTMAYER, from Pennsylvania, was displayed when he was joined by his colleagues, ANDY MAGUIRE, HELEN MEYNER, and MILLICENT FENWICK (three Members from New Jersey), to bring about a favorable disposition of the Tocks Island controversy. He is responsible for the middle segment of the Delaware River being designated as a wild and scenic river and protected from the building of the controversial dam on the Tocks Island site heretofore selected for this dubious distinction. People from the surrounding areas with frequent access to the Delaware Gap National Recreation Area can thank those four Members for saving this beautiful area with all of its wildlife, recreational facilities, archeological treasures, and other assets from the devastation of flooding.

Credit for bringing about the inclusion of Friendship Hill as a national historical site in Pennsylvania goes to AUSTIN MURPHY, the dedicated first-term Member from the 22d District.

There are innumerable people, both in Washington, D.C. and around this country who have given of their time and energies to contribute to the success of this effort. No list of them could be complete. But here is a small sample with my thanks to those many others who can measure, in terms of their own satisfaction, their personal contributions that made enactment of the National Parks and Recreation Act of 1978 possible:

Pete Lafen.
Mary Anne Thompson.
Carol Barrett.
Mae Barringer.
Dudley Gilbert.
Gary Patterson.
Rick Walnut.
Diane Graves.
Elmer Rowley.
Paul Bea.
Jack Vandenberg.
Marsha Wolfe.
Dave Conrad.
Brock Evans.
Bill Lienesch.
Eileen Barthelmy.
Maitland Sharpe.
John McComb.
Chuck Clusen.
Destry Jarvis.
Howard Brown.
Debbie Sease.
David Foreman.
Randy Snodgrass.
Linda Billings.
Cathy Smith.
Kathy Barton.
Bob Dennis.
Patricia Goggin.
Barry Tindall.
Margot Fuer.
Bill Richardson.
Hal Lockwood.
Bunty Gomoroy.
George Whitmore.
Joe Fontaine.
Mary Ann Ericksen.
Brent Blackwelder.
Thoron Lane.
Linda Lewis.
Howard Saxion.
John Baker.
Linda Lewis.
Barbara Wadsworth.

Mr. LAGOMARSINO. Mr. Speaker, further reserving the right to object, I want to compliment the gentleman from California (Mr. PHILLIP BURTON) for steering this bill through a very intricate legislative maze. I think he has done a real service to this House on this legislation.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from California that the Senate amendments to the House amendment be considered as read and printed in the RECORD?

There was no objection.

The SPEAKER. Is there objection to the first request of the gentleman from California?

There was no objection.

A motion to reconsider was laid on the table.

A DEFEAT FOR THE PUBLIC SAFETY

(Mr. MARKEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MARKEY. Mr. Speaker, on September 12, the House acted responsibly in passing by voice H.R. 11622, the Fuels Transportation Safety Amendments Act of 1978.

That bill, coauthored by Energy and Power Subcommittee Chairman JOHN DINGELL and myself, mandated strict new national safety standards in the transportation and storage of natural gas, liquified natural gas (LNG) and liquified petroleum gas (LPG).

As our hearing record and the debate on the House floor clearly demonstrated, this legislation is essential to prevent accidents and save lives.

Shortly after House passage of our bill, Columnist Jack Anderson reported in the Washington Post of September 23:

> Gas industry lobbyists are trying to scuttle a congressional effort to protect the public from dangerous pipeline accidents . . . The House passed tighter safety standards for pipeline operators. But a private memo prepared for Rep. John D. Dingell warns of "an aggressive, behind-the-scenes effort to pressure senators to emasculate the House version."

I regret to have to inform my colleagues that on Friday, September 29, those predictions were borne out and this crucial measure was gutted on the Senate floor. Why the other body chose to do this I certainly do not know nor understand.

Mr. Speaker, we may have been stymied for this session, but I want to assure you and my colleagues that Chairman DINGELL and I will not desist from this battle. Perhaps next year the other body will find the time to consider the public safety.

In the meantime, I pray that we are spared any catastrophes in the transportation and storage of these extraordinarily hazardous materials. I suspect that those who have succeeded in killing this essential legislation will be praying with equal vigor.

TRIBUTE TO ROY LAWRENCE OF FLINT, MICH., ON RETIREMENT

(Mr. KILDEE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KILDEE. Mr. Speaker, I want to bring to the attention of my colleagues in the Congress a brief description of the career of union leadership that is being capped by the retirement of Roy Lawrence of Flint, Mich. Mr. Lawrence is retiring this year after 44 years with General Motors Corp., the last 27 of those years as an active member of the United Auto Workers, serving for many years as a union officer.

During his years in the UAW, Mr. Lawrence has served as alternate, district and shop committeeman. Upon his retirement, he was on the publicity committee and served as editor of the union newspaper at UAW Local 651 at the AC Spark Plug plant in Flint. He also was chairman of the shop committee before becoming publicity committee chairman.

Mr. Lawrence is a native of Hancock, Mich., but Flint has been his home since he was 10 years old, except for the 1942–46 period when he served his country in the Armed Forces during World War II. He began working at a Chevrolet plant in Flint in 1934, and started working at AC Spark Plug on August 29, 1940. He and his wife, Evelyn, have three children. I extend my best wishes to them for a happy and productive retirement.

Members of the United Auto Workers can take pride in the knowledge that theirs is a progressive union that is universally recognized for its social leadership as well as for its dedication to the well-being of its members. This reputation is due to the leadership of people like Roy Lawrence.

MIKHAIL PRESSMAN

(Mr. TRAXLER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAXLER. Mr. Speaker, as part of my contribution to "A Vigil for Freedom" this morning, I wish to bring to the attention of my colleagues the matter of Mikhail Pressman and his wife, Galina.

Mikhail Pressman is an economist and city planner from Kiev. But as soon as he applied for a visa in 1976, he also lost his job. He now works in a jewelry factory, sweeping floors. His wife, Galina, accepts the hardship of the refusniks' daily struggle for she continues to hope for the day when she will be reunited with her sister in Israel.

On September 29, 1977, the Pressmans planned to commemorate the 36th anniversary of the massacre at Babi Yar by saying Kaddish, a special memorial prayer, at the site where about 100,000 persons, mainly Jews, were killed by the Nazis. The Jews of Kiev had applied to authorities for permission to lay wreaths and hold a memorial service.

Not only was the request turned down, but Jews who planned to show their respect from all over the Soviet Union were prevented from traveling to Kiev on that day. Because the monument erected on the site in July 1976 fails to mention the Jews who were slaughtered there, Babi Yar has become almost a holy place. In the words of an activist:

> Our yearly pilgrimage to the site signifies a protest to all injustice and brutality.

Babi Yar must never happen again.

POOR SCHEDULING IN LAST DAYS OF SESSION

(Mr. BAUMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BAUMAN. Mr. Speaker, I want to appeal to the majority leadership of the House to consider the importance of scheduling matters in these closing hours of this session with a greater eye to the integrity and reputation of the House of Representatives. We are just about to take up a string of suspensions headed by two resolutions dealing with South Africa, which will probably not be read beyond the liberal parlors of New York City. If they do come up these matters will probably be debated for an hour or more.

Yet, most of us have not had a chance to read these voluminous reports that have only been available for a matter of hours on three of our colleagues who are about to be either reprimanded or censured by the House of Representatives. There has to be serious misjudgment of the schedule on the next-to-last day of the session when minor matters of little import are accorded this kind of precedence as business of the House, and does not allow the House the time to consider the most important matters of all.

THE CASE OF THE BALBARER FAMILY WHO ARE DETAINED IN RUSSIA

(Mr. BROWN of Michigan asked and was given permission to address the House for 1 minute and to revise and extend his remarks).

Mr. BROWN of Michigan. Mr. Speaker, I am pleased to join my colleagues in the "Vigil for Freedom" on behalf of Soviet Jewish families and individuals who are being detained in the U.S.S.R. as a result of the Soviet Union's repressive emigration policies which are in disregard of the human rights provisions of the 1975 Helsinki Final Act.

Boris Balbarer is a pediatrician living in Kishinev. He is married and has 1 child. In 1971, he was discharged from the army where he had served as a physician. When, shortly thereafter, he applied for a visa, he was refused because of "secrets" acquired during military service. And, while more than 5 years have passed since the demobilization of his army group—a time usually considered sufficient for forgetting such "secrets"—he still remains separated from his parents, a victim of Soviet bureaucracy.

Balbarer was a principal organizer of the Kishinev seminar of Jewish Cultural Affairs which is one of the most successful outside the major cities. But, in May 1977 he was questioned for 7 hours by the KGB. Authorities tried to force him to sign a statement that his seminar activities were "causing division among the Soviet people." He was then told that he would have to wait another 5 years for an exit visa.

Meanwhile, his elderly and ill parents are appealing for his release. It was promised to them, before they left the U.S.S.R. for Israel in 1972, that their son would be able to emigrate to Israel when the 5-year period since his army service expired. His father, aged 67, has been suffering from high blood pressure and a heart condition, while his 60-year-old mother suffers from an acute form of diabetes.

Numerous appeals to Soviet authorities by his parents have brought no results. It is my earnest hope that this "Vigil for Freedom" will result in early issuance of an emigration visa so that the Balbarer family might be reunited.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF S. 666, ALLOWING FEDERAL EMPLOYMENT PREFERENCE TO CERTAIN EMPLOYEES OF BUREAU OF INDIAN AFFAIRS AND INDIAN HEALTH SERVICE

Mr. BOLLING, from the Committee on Rules, submitted a privileged report (Rept. No. 95–1781), on the resolution (H. Res. 1431) providing for consideration of the Senate bill (S. 666) to allow Federal employment preference to certain employees of the Bureau of Indian Affairs, and to certain employees of the Indian Health Service, who are not entitled to the benefits of, or who have been adversely affected by the application of, certain Federal laws allowing employment preference to Indians, and for other purposes, which was referred to the House Calendar and ordered to be printed.

PROVIDING FOR CONSIDERATION OF REPORTS FROM COMMITTEE ON RULES

Mr. BOLLING. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 1426 and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. RES. 1426

Resolved, That it shall be in order at any time during the remainder of the second session, Ninety-fifth Congress, up to and including October 15, 1978, to consider reports from the Committee on Rules as provided in clause 4(b), rule XI, except that the provision requiring a two-thirds vote to consider said reports is hereby suspended during said period.

The SPEAKER. The gentleman from Missouri (Mr. BOLLING) is recognized for 1 hour.

Mr. BOLLING. Mr. Speaker, I yield 30 minutes to the gentleman from Illinois (Mr. ANDERSON), pending which I yield myself such time as I may consume.

Mr. Speaker, last week by direction of the Committee on Rules I called up a procedural resolution which dealt with certain of the House powers granted to the Speaker at the end of a session, and this week I call up another one which in effect does the same kind of thing as that procedural resolution did.

This resolution provides that a privileged resolution from the Committee on Rules will require only a majority vote by the House when called up on the same day on which it is reported and the question of consideration may not be raised. In a sense this is a little bit academic, because a rule of the House already provides for that to happen on the last 3 days of the session. We know as a practical matter that we are trying to finish this session tomorrow night, so for all practical purposes, if we had the precedent of passing a sine die resolution, we would be under the rules of the House doing this already, but since for a variety of practical reasons we do not perform in that fashion this is the only substitute method to make it possible for the House to use that technique to advance its business and finish it, as often happens, through adopting a resolution from the Rules Committee on the same day.

Mr. Speaker, I must say that there was some confusion and misunderstanding in the Rules Committee and on the floor on the filing of this resolution, but I hope that is behind us and the facts as I have stated are precise—I know they are precise—and I hope, therefore, there will be very little controversy on this matter.

Mr. Speaker, I reserve the balance of my time.

The SPEAKER. The gentleman from Illinois (Mr. ANDERSON) is recognized for 30 minutes.

Mr. ANDERSON of Illinois. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, an effort has just been made to portray this House Resolution 1426 as simply a housekeeping resolution, but it seems to me that rather than being a simple housekeeping resolution that is needed in order to conclude this 2d session of the 95th Congress, it is really an example of what the Washington Post referred to editorially yesterday as bad housekeeping, and according to that editorial this current House has set for itself two very dubious records this year. One of those records is for the most rollcalls in a single year and the other—and I quote—is the most yeas and nays cast without any clear idea of what the vote is about.

I would submit that this resolution would guarantee us that the second dubious distinction would indeed characterize the final closing actions of this session of Congress, because this resolution would permit the same day, indeed, the very same hour consideration by the House of reports from the Committee on Rules, reports that of course determine the order of our business and may waive all manner of germaneness and other rules of the House. Or, to put it another way, if ignorance is bliss, this resolution ought to make one absolutely ecstatic.

The suggestion has been made by my distinguished colleague that this resolution is much ado about nothing, because under House rule XI, clause 4(b), there is already a provision that waives the requirements of a two-thirds vote on the same day consideration of the rule during the last 3 days of the session.

We are very blithely assured that we are, after all, in the last 3 days of this 2d session of the 95th Congress. But we really have no clear assurances that such is the case.

I happened to walk over to the Chamber of the House a few minutes ago with counsel for the Committee on Ways and Means who assured me that there are more than 75 outstanding differences that have to be reconciled—major differences—that have to be reconciled between the House and the Senate on what is undoubtedly one of the most important bills of this Congress, the bill dealing with taxes, so that there is clearly the likelihood that this session could very well stretch into Monday, Tuesday, and even Wednesday of next week.

So there is no clear assurance without the adoption of a sine die resolution that we are in the posture where we can blithely assume that we should be taking up the rules on the same day without requiring a two-thirds vote.

Let me suggest something else as a rationale for rejecting this resolution. When we finish this rule, or when we proceed to the final consideration of the matter now before us, we have on the Calendar some 15 suspensions, 15 bills on which suspensions have been requested. We are going to be asked to suspend the rules. Well, we are not seeking to change the rules and suggest that we could adopt any of those 15 suspensions by a simple majority vote. We are still requiring, even in what may be the last 2 or 3 days of this session of the Congress, we are still requiring observance of the rule that those matters be decided on the basis of a two-thirds vote.

So I would point out that the same logic ought to obtain with respect to any rule that we consider in the closing days of this Congress.

I cannot think of any rule, frankly, that ought to be so controversial, any rule coming before this body in the final 2 or 3 or 4 or 5 days, whatever it may turn out to be, that would be so controversial that it cannot get the required two-thirds that our rules now require.

So, lacking any specific information to the contrary, I think that we ought to keep this blanket waiver of the rules of the House under cover. And if Confucius did not say it, he should have. That he who flies blind deserves to be a lame duck.

And I would urge a "no" vote on this particular bit of quackery.

Mr. BAUMAN. Mr. Speaker, will the gentleman yield?

Mr. ANDERSON of Illinois. I yield 2 minutes to the gentleman from Maryland (Mr. BAUMAN).

Mr. BAUMAN. Mr. Speaker, I do hope that the House will heed the advice of my senior colleague, the gentlemen from Illinois (Mr. ANDERSON) and reject this resolution.

Mr. Speaker, martial law usually is only declared when a government collapses or is about to collapse, and this resolution constitutes the last step in full martial law in the House of Representatives.

But, let me embellish somewhat on the suggestions the gentleman from Illinois (Mr. ANDERSON) has made, about how this power could be used.

I think anyone who has a particular interest in pending matters in the House, whether it is the tax-cut bill mentioned or the energy bill, should be greatly concerned about the same day consideration by less than two-thirds vote of actions that could be brought out of the Com-

mittee on Rules. At this point in any session the Committee on Rules may do just about anything. We do know that there has been a consistent attempt throughout by the leadership to force the Members to swallow whole all of the bittersweet parts of the lump that is the energy bill, for example. Certainly the power granted by this resolution would facilitate whatever action might now require a two-thirds vote, although what happened yesterday in the Committee on Rules showed an amazing although momentary display of independence.

Therefore, I would suggest that with all of the oxen which could be gored in the next 48 hours, those who have some concern about the direction of the Congress would at least help the Nation generally by retaining this two-thirds requirement and rejecting this resolution.

Mr. ANDERSON of Illinois. Mr. Speaker, I have no further requests for time. I reserve the balance of my time.

Mr. BOLLING. Mr. Speaker, I yield 5 minutes to the distinguished gentleman from Texas (Mr. WRIGHT).

Mr. WRIGHT. Mr. Speaker, I would just like to remind my colleagues that this is a standard procedure which quite frequently has been followed in the closing days of a Congress.

If there had been any desire on the part of the majority to cram anything down the throats of the minority, this would have been asked for long ago. We have 2 days, today and tomorrow. There are numerous bills in conference. To refuse this rule would be to require that nothing could come up; none of those conference committee reports could come up if they required a rule, and many of them will require a rule; nothing could come up unless we mustered a two-thirds vote.

Mr. Speaker, that gives to a minority, it gives to one-third, however, it might be put together, the right to stop this House from considering a conference report on a bill which has already passed the House, already passed the Senate, on which differences already have been reconciled in the conference committee. It would give to one-third, a minority, the right to estop consideration of vital legislation.

It conceivably might result in our not being able to complete our schedule tomorrow night.

Mr. Speaker, this is a simple thing. The Committee on Rules is not asking for any grasp of power. All it asks is that in these last 2 days a rule granted by the Committee on Rules may be brought up on the same day. That is all it asks. The rule still would have to be adopted by a majority vote.

Let me just suggest two or three thoughts to the Members. Think about the tax bill. I do not know what is going to happen to the tuition tax credits which were voted to be sent back to the committee yesterday. That is not a two-thirds matter. Bear in mind, those of you who are interested in the tuition tax credits, that you did not have two-thirds to insist on that position.

Stop and think about the question of capital gains taxation. That is not necessarily a two-thirds position.

To deny the Committee on Rules and the Speaker this simple right to bring rules accompanying conference committee reports up on the same day on which the Committee on Rules reports them will be to do one of two things: Either to deny this House the right to complete its business today and tomorrow, or to give to the hands of a minority, one-third—whether they be one-third from this side of the aisle or from that side of the aisle—the tyrannical right to deny this House the opportunity to vote on important unfinished business.

Mr. Speaker, I cannot imagine anyone's opposing this simple request. It is just a procedural matter. There is no seizing of power. I think the Members on the Republican side of the aisle realize that we have been fair with them in the scheduling of legislation. We have talked with them every step of the way. We have advised them in advance daily of what we intended to bring up and the order in which we intended to schedule it. I think they will agree that we have kept those commitments we have made.

Let us not deny to the Speaker and to the Committee on Rules the right to bring to this House rules for bills and conference committee reports which are not yet finished. Some of them will not be finished until tomorrow. If we deny this request, we will end up tomorrow in the hands of the minority, one-third, which will have the right to stymie consideration by this House of any legislation that it does not want considered. That is not democracy.

This is a very modest request, one that has been made year by year at the time of adjournment. So I plead with all of my colleagues at least to demonstrate such confidence in the leadership as to let us have the flexibility to bring bills and conference committee reports requiring rules on the same day that the Committee on Rules grants them.

Mr. WAGGONNER. Mr. Speaker, would the distinguished gentleman from Texas yield?

Mr. WRIGHT. I yield to the gentleman from Louisiana.

Mr. WAGGONNER. I thank the gentleman for yielding.

Mr. Speaker, I want to say to my friend, the majority leader, that I concur in his approach to the adoption of this rule. I would agree completely with him that there is no way to adjourn this Congress unless the leadership has this authority. But I do want to stress one point. Adopting this rule will not in any way prevent the democratic process from working here in the House, because the majority will prevail on each and every issue, and we can judge the issues on the basis of their merit. That is the democratic way.

Mr. WRIGHT. The gentleman is precisely right. The majority of the Members still will have to agree to any rule that is presented.

Mr. ANDERSON of Illinois. Mr. Speaker, I have one additional request for time, I will say to the gentleman from Missouri (Mr. BOLLING). I yield 1 minute to the gentleman from Maryland (Mr. BAUMAN).

Mr. BAUMAN. Mr. Speaker, I am somewhat surprised at the description of the gentleman from Texas (Mr. WRIGHT) of what this rule allows. This rule does not allow any conference reports to be brought up under any different circumstances than they are brought up now. Right now the House has the right of same-day consideration of all conference reports. That was granted last week. The only prohibition, I believe, is the 2-hour written requirement of the so-called Burton rule.

Mr. BOLLING. Mr. Speaker, will the gentleman yield to me?

Mr. BAUMAN. I yield to the gentleman.

Mr. BOLLING. I thank the gentleman for yielding.

I heard the majority leader indicate that he was talking about conference reports that required a rule. Virtually everything in the way of conference reports that we are getting that is very important does require a rule. They do require a rule.

Mr. BAUMAN. I readily concede that, but the gentleman talked about tuition tax credits. Without the power the pending resolution grants, that conference report could have been considered yesterday.

Mr. BOLLING. I do not want to argue with the gentleman. If the gentleman would yield further, the clear impression I got was that he was talking about conference reports.

Mr. BAUMAN. The clear impression I got was he was trying to obfuscate the issue to get the votes for this resolution. The only time this rule will be used will be to bring up matters in extraordinary situations which will force the House to vote on them. It will, for instance, waive the 2-hour printed requirement so Members will not have written copies. That has been done in the past under this rule. It could be used to bring up many different matters, lump them into one, and try to bring them before the House as one matter.

I would hope that we would reject this resolution.

Mr. BOLLING. Mr. Speaker, the obfuscation has not come from this side, in my opinion. This is a simple housekeeping matter, essential to the final adjournment of this Congress tomorrow or early the next morning. It should be adopted, and it should be adopted with votes from both sides.

Mr. Speaker, I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER. The question is on the resolution.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. BAUMAN. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 260, nays 134, not voting 36, as follows:

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. JONES of Tennessee. Mr. Speaker, I rise this morning to make a correction in a vote I cast yesterday, October 12. On the motion by my colleague, Mr. CONABLE, to instruct House conferees on the bill H.R. 13511, I recorded my vote as "Nay."

I want to take this opportunity to admit an error on my part and ask that it be inserted in today's RECORD that my vote should have been "Yea."

I regret this error and just wanted to take this opportunity to let the conferees on the Revenue Act of 1978 know that I support the Conable motion pertaining to said bill.

RESTAURANT HOURS

(Mr. JONES of Tennessee asked and was given permission to address the House for 1 minute.)

Mr. JONES of Tennessee. Mr. Speaker, I have an announcement I would like to make. This is in the way of an apology. I know that last evening a large number of Members were disturbed because the dining room closed at 9 p.m. I regret very much that this error was made. I accept the reason for it having been closed, because there was a misunderstanding between the people who operate the restaurant and my staff.

Tonight, and until we have finished these long sessions that we are in the process of holding, the restaurant will remain open until 9 p.m. for regular dinners. Members can order their steaks and whatever they like until 9 p.m. Following 9 p.m. we are going to let part of the work force go home, and from then until the end of the legislative business we will serve sandwiches and soups, desserts, and beverages.

Mr. Speaker, I hope that will meet with the approval of the Members of the House.

F. EDWARD HÉBERT'S 77TH BIRTHDAY

(Mr. STRATTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STRATTON. Mr. Speaker, yesterday was the birthday of a great American, F. Edward Hébert.

Eddie Hébert represented the First Congressional District of Louisiana in the House of Representatives for 34 years, a record for service in the House by a Louisianian. His career in Congress spanned three wars, the assassination of a President, and, for the first time, the forced resignation of a President.

Daniel Rapoport, in his book "Inside the House," summed up Eddie's career as follows:

> Hébert is the prototype of a vanishing breed . . . the last of the Titans . . . shrewd in combat, flamboyant in style and comfortable with power. Other men in the House of Representatives still had these traits, but Hébert was the only one who possessed all of them.

In his book, "The Prophet," Kahlil Gibran said:

> You give but little when you give your possessions. It is when you give of yourself that you truly give.

Eddie Hébert constantly gave of himself, as a member and as chairman of the Armed Services Committee, to make this country great, and I am proud to be numbered among his many friends and admirers.

Mr. TREEN. Mr. Speaker, will the gentleman yield?

Mr. STRATTON. I yield to the gentleman from Louisiana.

Mr. TREEN. Mr. Speaker, I just want to join in sending congratulations to F. Edward Hébert on his 77th birthday. There was a time, about a year and a half ago, when we thought Mr. Hébert was "a vanishing breed." His health was poor and his life was in jeopardy. I saw him 3 weeks ago, and he is in good health, robust and irreverent as ever!

I join with the gentleman from New York in extending our best wishes to Mr. Hébert's 77th anniversary.

Mr. STRATTON. I thank the gentleman.

Mr. LIVINGSTON. Mr. Speaker, will the gentleman yield?

Mr. STRATTON. I yield to the gentleman from Louisiana.

Mr. LIVINGSTON. Mr. Speaker, I might also add that I had the pleasure of speaking with my predecessor, Chairman Hébert, yesterday morning, and I

wished him a happy birthday. He is doing well. He extends his warm wishes to all the Members of the House, and I appreciate the gentleman from New York extending his best wishes to Mr. Hébert.

Mr. STRATTON. I thank the gentleman. I am sure we all wish the gentleman from Louisiana a long life.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. Pursuant to the provisions of clause 3(b) of rule XXVII, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

After all motions to suspend the rules have been entertained and debated and after those motions, to be determined by "non-record" votes have been disposed of, the Chair will then put the question on each motion on which the further proceedings were postponed.

IRC AMENDMENTS FOR STATE-OPERATED BINGO GAMES (LOCK AND DAM 26)

Mr. ULLMAN. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 1432) providing that the bill, H.R. 8533, together with the Senate amendment thereto, be, and the same is hereby taken from the Speaker's table to the end that the Senate amendment is agreed to.

The Clerk read as follows:

H. RES. 1432

Resolved, That immediately upon the adoption of this resolution, the bill, H.R. 8533, to amend the Internal Revenue Code of 1954 to provide that income from the conducting of certain bingo games by certain tax-exempt organizations will not be subject to tax, together with the Senate amendment thereto, be, and the same is hereby taken from the Speaker's table to the end that the Senate amendment is agreed to.

The SPEAKER. Is a second demanded?

Mr. FRENZEL. Mr. Speaker, I demand a second.

The SPEAKER. Without objection, a second will be considered as ordered?

Mr. ASHBROOK. Mr. Speaker, I object, and on that I demand tellers.

Tellers were ordered, and the Speaker appointed as tellers Mr. ASHBROOK and Mr. ULLMAN.

The House divided, and the tellers reported that there were—yeas 105, nays, 7.

Mr. ASHBROOK. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 374, nays 4, not voting 52, as follows:

Mr. GARY A. MYERS changed his vote from "yea" to "nay."

So a second was ordered.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. KAZEN). The gentleman from Oregon (Mr. ULLMAN) will be recognized for 20 minutes, and the gentleman from Minnesota (Mr. FRENZEL) will be recognized for 20 minutes.

The Chair now recognizes the gentleman from Oregon (Mr. ULLMAN).

Mr. ULLMAN. Mr. Speaker, I yield myself 5 minutes.

Mr. Speaker, this matter of locks and dam 26 and waterway user fuel tax has been debated fully before the House and in the various committees for a long period of time. We have had a bill, the navigation development bill, H.R. 8309, that had incorporated in it the locks and dam 26 and the basic tax structure that we have in this bill that has been added to somewhat by the Senate.

Mr. Speaker, on October 10 the Senate passed H.R. 8533 with an amendment in the nature of a substitute. The Senate amendment reflects a compromise agreement on certain provisions which had been passed by both Houses as part of H.R. 8309, the navigation development bill.

This amendment has four principal objectives:

First, to authorize replacement of locks and dams 26 on the Mississippi River;

Second, to provide for development of

a management plan for the upper Mississippi River system;

Third, to provide for imposition of an excise tax on fuel used by commercial cargo vessels on specified inland waterways, together with establishment of an inland waterways trust fund; and

Fourth, to provide for a comprehensive study with respect to inland waterway user taxes and charges, to be submitted to the Congress.

Mr. Speaker, I understand that all interests having a strong concern with this legislation—the administration, the barge operators who use the waterways, others who depend on efficient movement of goods along the Mississippi, and groups having environmental interests—support this compromise.

This amendment is as fair and reasonable a compromise as can be achieved. It is essential to enact this legislation now, in light of the totally inadequate facilities of present locks and dam 26 and the resulting costly delays in moving food, fuel, and other goods along the Mississippi River System.

Mr. Speaker, I will now describe in more detail the provisions of the Senate-passed amendment to H.R. 8533.

LOCKS AND DAM 26

The amendment authorizes replacement of locks and dam 26 at Alton, Ill., with a new dam and single lock, at an estimated cost of $421 million. An identical provision was passed by both the House and Senate as part of H.R. 8309.

In addition, the amendment authorizes the replacement of certain wildlife habitat flooded as a result of constructing the new dam and lock, and also authorizes certain project-related recreation development in a specified surrounding area.

UPPER MISSISSIPPI MASTER PLAN

The amendment provides for a master plan to be developed by the Upper Mississippi River Basin Commission for the management of the upper Mississippi River system, and authorizes appropriations of $12 million for this purpose. The plan is to be submitted to the Congress by January 1, 1982, and will become effective only if approved by an act of Congress.

Until congressional approval of a master plan, the Secretary of the Army is prohibited from undertaking any replacement, construction, or rehabilitation of locks, dams, or channels which would expand the navigation capacity of the upper Mississippi River system, except for replacement of locks and dam 26 and except for necessary operating and maintenance activities.

FUEL EXCISE TAX AND TRUST FUND

Both the House and Senate versions of H.R. 8309 impose a retailers excise tax on diesel and other liquid fuels used by commercial cargo vessels on those inland or intracoastal waterways of the United States which are specified by name and description in the legislation.

Under the amendment, the tax begins October 1, 1980, at 4 cents per gallon for 1 year, and then increases to 6 cents per gallon beginning October 1, 1981. After 2 years at the 6-cent rate, the tax rises to 8 cents per gallon beginning October 1, 1983; 2 years later, beginning October 1, 1985, the tax increases to 10 cents per gallon.

The waterways fuel tax under the amendment is estimated to produce revenue collections of $30 million in fiscal year 1981, $58 million in fiscal year 1982, and rising to $101 million in fiscal year 1985.

The operation of the fuel tax provision can be briefly summarized as follows. In the case of a commercial cargo vessel, only fuel consumed on the specified inland waterways is subject to tax. The 26 waterways listed in the amendment include the Mississippi River upstream from Baton Rouge, the Mississippi's tributaries, and the Gulf and Atlantic Intracoastal Waterways.

These waterways are primarily used by commercial shallow-draft vessels and generally involve substantial and recurring Federal expenditures for navigation improvement.

This tax will not apply to deep-draft, ocean-going vessels, which generally do not make substantial use of the inland waterways. Also, the tax will not apply to recreational vessels, most of which are already subject to gasoline or other fuel taxes, or to noncargo vessels such as passenger vessels and fishing boats.

In addition, the amendment exempts from the tax the use of fuel by tugs in moving "Lash" and "Seabee" ocean-going barges carrying international cargoes. This exemption is necessary to avoid imposition of foreign taxes with respect to these barges moving U.S. goods on inland waterways or other countries.

The amendment also establishes an inland waterways trust fund, to be managed by the Secretary of the Treasury. Revenues from the new excise tax will be transferred periodically to the trust fund.

The amendment provides that amounts in the trust fund will be available—but only as provided by authorization and appropriation acts—for making construction and rehabilitation expenditures for navigation on the inland and intracoastal waterways which are the subject of the tax. The amendment does not authorize any expenditures for projects not otherwise authorized by law.

USER CHARGE STUDY

The amendment requires the Secretaries of Transportation and Commerce, in consultation with the heads of other specified agencies, to conduct a comprehensive study with respect to inland waterway user taxes and charges. Both the House and Senate versions of H.R. 8309 call for such a comprehensive study.

The final report of the study is to be submitted to the Congress by September 30, 1981. The amendment authorizes appropriations of up to $8 million to carry out the study.

Mr. FRENZEL. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, I rise in support of H.R. 8533 as amended by the Senate so as to responsibly solve the impasse associated with the waterway user charge issue. While the diesel fuel tax rate embodied here goes considerably beyond the level which the Ways and Means Committee and the House of Representatives recommended in H.R. 8309, I believe that we should accept these terms. Certainly, they are substantially preferable to the markedly higher levels which some interests have advocated.

The adoption of this legislation will also authorize the construction of the new dam and lock at Alton, Ill., to replace the outmoded and deteriorating structures now there. Timely work on this project is absolutely essential to the flow of commerce in the Midwest.

The imposition of this fuel tax will mean that the barge industry will begin to contribute directly to the costs of our extraordinarily valuable inland waterway system. This fuel tax represents a significant departure from our Nation's historic policy, under which the waterways have been available to shippers without charge. It is extremely important that any break with this tradition should be a gradual one so as to avoid interference not only with the affected transportation industry, but with the commerce that relies upon that mode.

Mr. Speaker, I concur in the description of the pending bill which was given by the distinguished chairman of the Committee on Ways and Means.

In my judgment, the toll that has been extorted by the building of Lock and Dam 26—and that is ultimately to be a tax of 10 cents a gallon on diesel fuel—is extreme, but it is terribly important that Lock and Dam 26 be begun. For that reason, those of us from areas which are absolutely reliant on that lock and dam to move our agricultural produce to market have agreed that the bill will be acceptable.

I would note, however, Mr. Speaker, that if the lock and dam is not completed for any reason, such as an attack through the judicial system, it would certainly be my intention that these taxes not go into effect. It would be ridiculous to pay the ransom for the kidnapping and then not get the child back. So I hope that all the Members are aware that that is the intention here, that the lock and dam will go forward and will be accompanied by the increased users' tax on fuel.

I urge that bill be promptly passed.

Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Illinois (Mr. FINDLEY).

Mr. FINDLEY. Mr. Speaker, I urge my colleagues to vote for the motion to suspend the rules on this bill.

The Mississippi River has become the natural and indispensable artery for moving the enormous amount of commodities that we send to overseas markets from America's farmlands. It is also of vital importance and is becoming increasingly important as a means of moving coal and other commodities that are literally the lifeblood of the entire Nation.

Even though lock and dam 26 is located at Alton, Ill., and obviously has great economic importance to that community, its importance goes also to the entire Nation. In this past year we are

shipping about $25 billion worth of food products abroad, and much of that is in the form of grain. The railroads simply cannot handle the enormous volume of grain, and there is no prospect that in the future they will be able to handle it entirely on their own. We need a balanced merchandising system in order to serve efficiently the growing demands of customers abroad.

This is vital to earning foreign exchange which is vital to the welfare of every citizen, not just the farm population. It is very true the user fee which is part of this measure will add to the cost of shipping grain and other commodities. It will be viewed by some people perhaps only as a cost, but I view it as a gain, even for the farmer whose price might be slightly less than otherwise.

I say it is a gain, because the efficient movement of grain will help to improve market prices at harvest time.

We are now in the process of merchandising the most enormous crop of corn this Nation has even seen. The backup has already begun at the barge lines, at the elevators, and at everyplace else in our system. This backup causes a depression in prices. This depression in prices will be lessened as we improve the system for merchandising grain on the rivers. And by all accounts, the lock and dam 26 at Alton is the bottleneck of the entire river barge system. It will take some time to build the new structure, but when it is built we will have a still better system for merchandising grain, and farmers and all other citizens of the country will benefit from this improvement.

There is resistance, of course, to the idea of imposing a user fee on the operation of barges. But just as we need a balanced system for handling merchandise, we also need a balanced system for financing the various aspects of this transportation system.

The replacement of lock and dam 26 on the Mississippi River at Alton will be a great benefit to Illinois, the Midwest, and the Nation. The old lock and dam has become a bottleneck that restricts the flow of commerce on an important waterway. The locks on the Mississippi River to both the north and south of Alton are of larger capacity. They allow barge traffic to pass efficiently only to become backed up at Alton.

The old lock and dam have become structurally weak. During a recent period a runaway barge tore a hole in a portion of the lead-in to the lock, necessitating a closing of the facility for sevral days of repair.

When river traffic it stopped because of the inadequacy or failure of this vital link, the entire Nation's economy suffers. Farmers depend on river transportation to get their product to market. And the U.S. balance of payments benefits as we can efficiently ship American farm products down the river and to foreign markets. Much of the fuel used to heat homes, factories, and schools comes to the Midwest by river transport. The well-being of our people during could winters depends on efficient functioning on the lock and dam at Alton.

Mr. FRENZEL. Mr. Speaker, I yield such time as he may consume to the distinguished gentleman from Ohio (Mr. HARSHA), the ranking minority member on the Committee on Public Works and Transportation.

Mr. HARSHA. Mr. Speaker, I rise in reluctant support of the compromise offered by the Senate on the replacement of Locks and Dams 26 and waterway user charges. I do not believe that the establishment of a waterway trust fund is the direction we should be moving towards, however, I will not impose my personal objections to a trust fund on this compromise.

Section 102 of this bill authorizes the Corps of Engineers to replace Locks and Dam 26. As part of the decision to authorize this project we have reviewed and approved the recommendations of the Chief of Engineers in his report on the project, dated July 31, 1976. The committee specifically considered the information contained in the environment impact statement. The statement is sufficient and our decision has been based upon the information contained therein.

Mr. Speaker, I would also like to point out that the language of the bill relating to the Upper Mississippi Basin Study specifically prohibits expansion of the navigational capacity of the Upper Mississippi until such time as the study has been completed and Congress has acted upon those recommendations. However, the provision specifically permits normal operation and maintenance activities to maintain the existing navigation capacity during this period. This means, for example, that if a miter gate needs to be replaced at any lock the Corps is expected to go ahead and provide a new, modern replacement gate and not replace the equipment with outdated equipment. We further expect the corps will not wait until a crisis occurs before acting, but rather will anticipate replacement needs and schedule their activities in advance of the occurrence of a problem.

Additionally, Mr. Speaker, it is expected that efforts to maintain and enhance the safety aspects of navigation will continue. This includes safety improvements at locks such as the traveling kavells and other aids to navigation carried out by the Coast Guard in the channel as well as at the locks.

Finally, Mr. Speaker, I should point out that while the amendment specifically limits the navigation depths of the Upper Mississippi to 9 feet, this means that the existing practices to maintain a 9-foot depth will be preserved—that is the Corps is expected to continue the practice of dredging to a depth deeper than 9 feet during routine maintenance in order to prevent the occurrence of shoaling prior to the next scheduled dredging of the channel.

Mr. Speaker, the chance to resolve the controversy surrounding the replacement of Locks and Dam 26 is before us. I urge my colleagues to take this opportunity to solve this problem and vote to send this bill to the President.

Mr. FRENZEL. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, this bill started out in the House as a bill to assist bingo operations of veterans' organizations and charitable organizations. There was an attempt to amend that bill in the Senate to add this lock and dam 26 bili to it. By mistake, the bingo bill lies slain on the floor of the Senate since the amendment was in such form as it eliminated the original intent of the bill. Sometime in the next 24 or 48 hours I would hope that the bingo bill would reappear, and I hope the Members of the House will be gracious and allow us to go forward with the bill.

Mr. TRAXLER. Mr. Speaker, will the gentleman yield?

Mr. FRENZEL. I yield to the gentleman from Michigan.

Mr. TRAXLER. I thank the gentleman for yielding.

Mr. Speaker, I wish to commend the gentleman from Minnesota (Mr. FRENZEL) and the chairman of the full committee for their concern over the original House bill. We recognize, as my colleague stated, it is an inadvertent error, it is very difficult to correct it at this time, and this amendment that the Senate put on is of great interest and importance to all Members of this House.

The SPEAKER pro tempore. The time of the gentleman from Minnesota (Mr. FRENZEL) has expired.

Mr. FRENZEL. Mr. Speaker, I yield myself 1 additional minute.

Mr. TRAXLER. Mr. Speaker, I know that the gentleman from Minnesota (Mr. FRENZEL) shares my view as to the importance of the original House bill, the bingo bill. Realizing it is of great importance to veterans' organizations, service organizations, and so forth, I would hope that, in the event it might get tidied up in some fashion tomorrow or tonight, the chairman and the ranking minority Member will lend their firm and diligent support. It is great importance to my State and other States.

Mr. FRENZEL. Mr. Speaker, I thank the gentleman for his contribution. I can assure the gentleman that he will have my complete cooperation.

Mr. Speaker, I yield such time as he may consume to the gentleman from Illinois (Mr. FINDLEY).

Mr. FINDLEY. Mr. Speaker, I want to recognize the diligent work over a period of years by the gentleman from Texas (Mr. ROBERTS) and by the gentleman from Ohio (Mr. HARSHA). The consideration of the lock and dam 26 question has been very complicated, it has been very demanding, and I for one appreciate very much the leadership these Members have provided.

Mr. FRENZEL. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. ULLMAN. Mr. Speaker, I yield 3 minutes to the distinguished chairman of the Subcommittee of the Committee on Public Works and Transportation, the gentleman from Texas (Mr. ROBERTS), who has, as the gentleman from Illinois has indicated, taken leadership in the development of locks and dam 26 through the years.

Mr. ROBERTS. Mr. Speaker, I rise in support of the bill. The provisions of the bill relating to the replacement of Locks and Dam 26 and the imposition of a waterway user charge are essentially the same as those which the House passed earlier in H.R. 8309, the Navigation Development Act. The principle of user charges in the form of a tax has been accepted by the House. The level established in this bill is reasonable, and the study of the impacts of user charges which the bill calls for will provide us with the necessary information to determine whether any changes of the level and type of charges need to be made.

The replacement of Locks and Dam 26 at an early date is essential. The facility, now 40 years old, is in a deteriorated condition. In addition, the small size of its locks causes many costly delays in the movement of barges.

Much concern has been expressed over the possibility of increased environmental damage which may result from additional barge traffic on the Upper Mississippi River. The potential damage is associated with bottom silt materials which are stirred up as the barge tows move along the river. The concern is that as the materials resettle, damage may be caused to bottom organisms.

The possibility of environmental damage is due not so much to construction of a single 1,200-foot lock, but rather to the construction of a second lock thereafter if deemed desirable and if authorized by the Congress.

The study of the need for, feasibility of, and effects of a second lock, which study is included in the authorization of the replacement project, together with the great study authorized in the Water Resources Development Act of 1976, will provide the answers to these very important questions. Any decision made as to a second lock will have the benefit of the information developed in these studies including the environmental impact study which will accompany any recommendation for a second lock.

I wish to concur with my distinguished chairman, the gentleman from California (Mr. JOHNSON) with regard to the final environmental impact statement accompanying the report of the Chief of Engineers on a replacement for Locks and Dam 26. We reviewed the impact statement very carefully, and we consider it to provide adequate information for Congress to make a decision with respect to the recommended project, and to be in full compliance with the requirements of the National Environmental Policy Act.

Mr. Speaker, I urge enactment of the bill.

There is a full analysis of the EIS in Public Works Report on the original bill H.R. 8309.

Mr. ULLMAN. Mr. Speaker, I yield 2 minutes to the distinguished chairman of the Committee on Public Works and Transportation, the gentleman from California (Mr. JOHNSON).

Mr. JOHNSON of California. Mr. Speaker, I rise in support of the bill. The authorization of a replacement for Locks and Dam 26, and the waterway user charge provision represent a reasonable and workable compromise, and I urge my colleagues to support it.

Locks and Dam 26 is located on the Mississippi River at Alton, Ill. Above it are the upper Mississippi River navigation system and the Illinois waterway. Below it are found the remainder of the Mississippi River, the Ohio River navigation system which feeds into the Mississippi River and the gulf intracoastal waterway. It is one of the most vitally located of the inland waterway projects. All waterborne commerce shipped between the upper Mississippi and Illinois Rivers and the Ohio River, the lower Mississippi River and the gulf intracoastal waterway must pass through this facility.

The present 9-foot channel on the upper Mississippi River was authorized by the River and Harbor Act of 1930. Locks and Dam 26 at Alton, Ill., one of the last in the system, was completed in 1938. It is now almost 40 years old. Its physical condition has deteriorated, and it cannot efficiently serve current traffic without delays.

The early replacement of this project is essential to the continued efficient operation of our inland waterway system.

Mr. Speaker, the report and the recommendations of the Chief of Engineers, and the final environmental impact statement accompanying the report of the Chief of Engineers to the Congress have been reviewed very carefully by our committee in its consideration of the authorization of a replacement for Locks and Dam 26. This environmental impact statement is considered by the committee to provide adequate information for Congress to make a decision with respect to the recommended project, and to be in full compliance with the requirements of the National Environmental Policy Act.

The bill before us also provides for the preparation of a comprehensive master plan for the management of the upper Mississippi River system by the Upper Mississippi River Basin Commission. In developing this plan the Commission would perform a number of studies.

The Secretary of the Interior and the Secretary of the Army would study the carrying capacity of the upper Mississippi River system, including long- and short-term ecological impacts of present and projected navigation capacity and operation and maintenance programs. The Commission would also study the need for a second lock at Alton, Ill. since the recommendations of the Chief of Engineers in accordance with which the replacement of Locks and Dam 26 would be authorized, provides for the study of the need for a second lock, our committee expects that the Commission will assign the Chief of Engineers the responsibility of performing for it the Commission's study of a second lock so as to avoid unnecessary duplication of effort. We also expect that the Commission will utilize the Corps of Engineers in conducting the dredge spoil disposal study called for by the legislation.

With regard to the provision in the legislation that the project depth in the upper Mississippi River shall not exceed 9 feet, I would like to point out the meaning of the phrase "project depth." This phrase includes the allowances required for advance maintenance dredging, dredging tolerances, squat and trim for the class of vessels for which the project was designed, wave action, shoaling rates, and other overdepth allowances necessary to afford safe navigation for vessels with a draft of 9 feet.

I wish to point out that replacement of Locks and Dam 26 and the imposition of a waterway user charge are inextricably linked. Our committee acquiesced in the user charge provision with the understanding construction of the replacement for Locks and Dam 26 would be commenced at an early date.

The legislation provides that new replacement construction, or rehabilitation that expands the navigation capacity of locks, dams, and channels should not be undertaken by the Secretary of the Army until the master plan for the upper Mississippi River has been approved by the Congress. This does not prevent the replacement of inefficient or deteriorated components of the lock structure such as mitre gates. It is designed only to prevent physical expansion of the dimensions of the lock facilities to enable them to handle larger tows.

Mr. Speaker, I urge passage of the bill.

Mr. ULLMAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Oklahoma (Mr. JONES), who has been very helpful in developing this bill.

Mr. JONES of Oklahoma. Mr. Speaker, I thank the chairman for yielding. I rise in support of this legislation, and I urge the House to suspend the rules and adopt this bill. I think this is an acceptable compromise, and it is very near to what the House approved by an overwhelming majority earlier this year.

The purpose of this legislation is to require that commercial transportation users pay a fair share of the use of this transportation system. The tax that is called for is roughly equivalent to that imposed on other forms of transportation, such as the trucking industry.

Now, some would want to hinder the development of water transportation by forcing this mode to pay a much higher tax to pay for the entire cost of the operation and development of the inland waterways. What I would like to clarify with the chairman is to make sure that the record shows that from the beginning of this bill in the House Ways and Means Committee through the debate in the House and up to today, that the intention was not to have this trust fund be responsible for the full recovery of all the costs of operation, maintenance, and development of inland waterways.

Mr. ULLMAN. If the gentleman will yield, of course there really is no such connection. There is no intent to set up a trust fund to pay for all Federal inland waterway expenditures.

Mr. JONES of Oklahoma. I thank the chairman.

Mr. ULLMAN. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Missouri (Mr. GEPHARDT).

Mr. GEPHARDT. Mr. Speaker, I thank the chairman, and certainly commend him and the other members of the conference who worked on this valuable compromise with a very difficult subject matter.

There is one point I would like to cover with the gentleman. There is implicit linkage in this bill between user's fees and building of Locks and Dam 26. Obviously, from the previous colloquy, it is clear that that linkage will be decided at a later time, and the exact extent of that linkage will be decided at a later time. But my concern as expressed by the gentleman from Minnesota is that we have a trigger on this bill for the imposition of a tax. That is October 1980, but we do not have a definite date for the starting of Locks and Dam 26. Lawsuits on the environment and other matters can impose difficulties between now and when that dam is started.

I want to make it clear that it is possible for us to come back in at a later date if there are reasons the dam is not started, and on equitable grounds ask the Congress to suspend the imposition of the tax until Locks and Dam 26 is actually started.

Mr. ULLMAN. If the gentleman will yield, the tax will not go into effect, at the initial 4-cent rate, until October 1, 1980.

The SPEAKER pro tempore. The time of the gentleman from Missouri (Mr. GEPHARDT) has expired.

Mr. ULLMAN. Mr. Speaker, I yield the gentleman 1 additional minute.

Mr. GEPHARDT. I thank the gentleman from Oregon.

Mr. ULLMAN. Mr. Speaker, if the gentleman will yield, I agree that although there is no legal connection in the bill between Locks and Dam 26 and the waterway user fuel tax, the intent is to authorize replacement of Locks and Dam 26 and to impose the tax. The Congress certainly could look at this tax again in light of the status of Locks and Dam 26 at some future time.

Mr. GEPHARDT. I thank the chairman very much.

Mr. ULLMAN. Mr. Speaker, I yield 1 minute to the gentleman from Missouri (Mr. VOLKMER).

Mr. VOLKMER. Mr. Speaker, I thank the gentleman from Oregon for yielding.

Mr. Speaker, I, too, wish to commend the chairman (Mr. ULLMAN) and the genleman from Minnesota (Mr. FRENZEL), along with the gentleman from Texas (Mr. ROBERTS) and also my colleague from across the Mississippi River, the gentleman from Illinois (Mr. FINDLEY), for the long hours of work they have put into this bill. I urge my colleagues to vote favorably on this measure and adopt it unanimously in this House.

I would like to ask a question of the chairman. That is, I do not find in the bill where the projects are in any way connected or that they have to be necessarily funded from the trust fund. Is that correct, that the project is not tied in any way and does not have to be funded from the trust fund?

Mr. ULLMAN. That is correct.

Mr. VOLKMER. Also I would join with my friends from St. Louis, the gentlemen from Missouri (Mr. YOUNG and Mr. GEPHARDT), to urge that this body will look again at the fuel tax trust fund and the imposition of this fuel tax if this project, Locks and Dam 26, does not begin by 1980.

Mr. ULLMAN. Mr. Speaker, I yield 1 minute to the gentleman from Iowa (Mr. BEDELL).

Mr. FRENZEL. Mr. Speaker, will the gentleman yield?

Mr. BEDELL. I yield to the gentleman from Minnesota.

Mr. FRENZEL. Mr. Speaker, I ask that I may reclaim my time. I was not aware of the fact at that time that opponents of the bill wanted to be heard and, although I have no sympathy with their position on this measure, being a member of the minority party, I have some sympathy with the minority, and I ask to reclaim my time.

The SPEAKER pro tempore. The gentleman from Minnesota still has his time.

Mr. FRENZEL. In that case Mr. Speaker, I yield 4 minutes to the gentleman from Iowa (Mr. BEDELL).

Mr. BEDELL. Mr. Speaker, I thank the gentleman for yielding me this time.

This compromise measure before us now is yet another litmus test of Congress dedication to responsible spending in Government programs. The bill would authorize the construction of a new Locks and Dam 26 as well as initiate other action to improve on our inland waterways system. I want to stress the fact that I have no opposition to Locks and Dam 26. In fact, I support either the rehabilitation or the replacement of Locks and Dam 26. However, I do have great concern over the user charge which is proposed in this bill, because I think it is completely inadequate.

A recent Congressional Budget Office study has found that American taxpayers are subsidizing barge traffic at a rate of up to 42 percent of total barge industry revenues.

For railroads, Federal subsidization is 3 percent. For trucks, it is 1 percent. In spite of this glaring imbalance, H.R. 8533 simply calls for a 4-cent-per-gallon fuel tax escalating to 10 cents per gallon, at which level the barge industry will still receive Federal subsidies over 20 percent. After 1985, the proposed fuel tax may raise $100 million, while the Federal Government would spend $500 million per year on the construction, rehabilitation, operation, and maintenance of the Inland Waterway system.

Mr. SIMON. Mr. Speaker, will the gentleman yield?

Mr. BEDELL. I yield to the gentleman from Illinois.

Mr. SIMON. Mr. Speaker, I think the point the gentleman from Iowa has made is well taken, but I support the bill because we have. for the first time. a users' fee inaugurated. I do not happen to join my colleague, the gentleman from Missouri (Mr. GEPHARDT) and one other colleague who objected to inaugurating the fee. Even though Lock and Dam 26 may not be started, there ought to be a users' fee. The point the gentleman from Iowa (Mr. BEDELL) has made is well taken and I hope we keep it in mind for future legislation.

Mr. BEDELL. I thank the gentleman.

Mr. Speaker, when this bill first came before the House, I went to the Committee on Rules asking for a rule that would provide us with an opportunity to consider an amendment which would have mandated 25 percent recovery of the cost of operation and maintenance and construction. Unfortunately, that request was denied.

Let me tell you one especially telling reason why I believe there should be a percentage users' fee. When this bill first came to the House it called for two 1,200-foot locks, the second of which would have cost the taxpayer an additional $100 million. Everybody agrees at this time that we do not need two, but there was little incentive for anybody to try to keep us from building that second lock. However, I submit that if the users had had to pay for 25 percent of the cost, they would have been the first ones in here to say "Don't waste that $100 million to build the second lock." That is why I urge you to vote down H.R. 8533 so we can obtain a user fee that will transform the users themselves into watchdogs to monitor every project's cost-effectiveness.

Mr. FRENZEL. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Pennsylvania (Mr. EDGAR).

Mr. EDGAR. Mr. Speaker, we have a bill here that reminds me of the song that my children sing. That song is "Bingo Is Its Name."

We have a bill that is labeled a bingo bill that happens to be a users' fee bill, and a bill to construct Lock and Dam No. 26.

Mr. Speaker, I believe we are all for adequate users' fees on our waterways, as has been indicated. In almost every study since Franklin Roosevelt was President of the United States users' fees have been advocated.

But, I believe that the users' fees placed in this particular piece of legislation are, as my colleague, the gentleman from Iowa indicated, woefully inadequate.

Let me just place a few figures before my colleagues.

First, the construction of Lock and Dam No. 26 is conservatively estimated to cost around $421 million. We conservatively spend between $400 million to $500 million a year on construction, rehabilitation, maintenance, and operation of our system of waterways.

We have reasonable users' fees in the

trucking industry. We have reasonable users' fees in the railroad industry. We have zero users' fees on the waterways.

It seems to me if we are really going to go in the direction of waterway users' fees, we ought to go back to the administration's original proposal which was to recover 100 percent of the operation and maintenance costs phased in over a period of time, and 50 percent of the construction costs necessary to maintain our waterways.

It is my personal belief that we can disguise this legislation and we can say it is a compromise, but really it is a pork barrel project that is being funded at just about 100-percent funding by the Federal Government with a very minimal waterway users' fee being placed on it. I would hope my colleagues can vote down this bill under suspension and send it back and then hopefully, in the next Congress, the 96th Congress, we can bring back a bill that reasonably addresses the need of waterway users' fees, and responds to at least recovering 100 percent of the cost of operations and 50 percent of the cost of construction.

Mr. Speaker, I am in strong opposition to H.R. 8533, legislation which authorizes the construction of a new $421 million lock and dam at Alton, and which establishes a token user tax for fuel used on on the inland waterway system.

I could support construction of a new lock and dam if the user tax would recover a substantial portion of the hundreds of millions of taxpayers dollars which are expended annually to benefit this mode of transportation. I have no quarrel with the view that such taxes should be phased in to minimize the economic dislocation which would occur with an immediate full recovery program. I lauded the administration for its support of a program which would eventually recover 100 percent of operations and maintenance costs and 50 percent of construction costs attributable to commercial inland waterway navigation.

Unfortunately, I find now that the administration has backed away and now supports this bill. This bill has become convenient for the politicians to support. But if the taxpayers knew what we were proposing today, I think they would be more outraged than they were about the last public works-energy research appropriation bill.

Mr. Speaker, both in 1976 and 1977, I introduced an amendment in the House Public Works and Transportation Committee to impose a phased-in waterway user charge. In my view, continuing to subsidize the barge industry at the expense of the taxpayers, and at the expense of other modes of transportation, is unjustifiable. Establishing a system of user charges, in the same way we have done for virtually every other commercial mode, is something which should be done on its own merits, not as a price for authorizing the construction of a $421 million lock and dam.

Since July of 1977, when it was clear that even those who vehemently opposed user charges knew that they were inevitable in some form, I testified before three House committees urging support for a 10-year program phasing in user charges or taxes which would eventually recover 100 percent of operating and maintenance expenditures and 50 percent of capital costs. This schedule was approved at one time during this Congress by the full Senate, and did receive courageous support by the administration. The phased-in approach recognizes the economic chaos which could result for the barge industry if immediate recovery were imposed. Yet the magnitude of recovery is sensitive to the results and conclusions of nearly a score of major reports and studies which indicate that this massive subsidy to a single mode distorts our transportation policy, and subverts the national interest.

Every administration since Franklin Roosevelt has endorsed recovery of what today amounts to more than $400 million annually for the construction, rehabilitation, maintenance, and operation of our inland waterway system. The barge industry is the only mode which gets a free ride at taxpayers' expense.

The user tax proposed in this bill is a step in the right direction. It would allow for a 4-cent fuel tax beginning in October of 1980, increasing to 6 cents the following year, 8 cents by October of 1983, and 10 cents by October of 1985. Such a tax will recover perhaps $90 million annually by then. However, Federal expenditures for the inland waterway system are expected to increase also by 1985, and a 10-cent tax, while better than nothing, is no more than a token of the fair share of costs.

On October 11, 1977, when this legislation was first debated in the House, I shared with my colleagues the reasons why the arguments against a tax do not hold water. I urge my colleagues to review my remarks at this time.

Mr. Speaker, the American taxpayer is playing a bingo game today with no chance of winning. The prize can only go to the barge industry, much of which is more profitable than every other commercial mode. I urge my colleagues to strike down this bill and come back during the next Congress with a more substantial waterway user tax or charge.

Finally, Mr. Speaker, I wish to point out that the authorization of Locks and Dam 26 is not intended to affect in any manner the litigation which is currently ongoing in the U.S. District Court for the District of Columbia—Atchison, Topeka Santa Fe Railway, and others against Alexander, and others. The Congress does not intend by this authorization of the project to circumscribe the full scope of judicial review, including a review of all alternatives of the project. This authorization is not intended to restrict the rights of the plaintiffs in that litigation or to affect the judicial review of the actions of the Corps of Engineers in planning and proposing Locks and Dam 26.

Mr. ULLMAN. Mr. Speaker, I yield 1 minute to the gentleman from Michigan (Mr. BRODHEAD).

Mr. BRODHEAD. Mr. Speaker, I thank the chairman for yielding.

I would like to propound an inquiry to the chairman, if I might. As the chairman knows, I was a sponsor of this original bill, and we are told by staff that it was a clerical error that the original bill was stricken here.

I wonder whether we could get some assurances from the chairman that if we are able to work out the process in the Senate with respect to my original bill, H.R. 8533, that he will undertake to have it considered before we go home here this week.

Mr. ULLMAN. If the gentleman will yield, Mr. Speaker, I was as surprised as the gentleman was when this transpired. It was an error, clearly an error, and one which they are trying to recover from at the present time. In the process, they have a Member of the Senate who has been opposing it. Otherwise, long ago they would have sent us back the bill in which the gentleman is interested. However, it is my understanding that later today they will be able to, hopefully, accomplish that purpose and get the bill back here.

Mr. BRODHEAD. If the bill does come back, will we then have the cooperation of the chairman of the Committee on Ways and Means?

Mr. ULLMAN. As an urgent priority matter, yes, I will say to the gentleman.

Mr. BRODHEAD. I thank the chairman.

Mr. ULLMAN. Mr. Speaker, I yield 1 minute to the gentleman from Missouri (Mr. YOUNG).

Mr. YOUNG of Missouri. Mr. Speaker, I rise to express my support for this compromise legislation which authorizes a new Locks and Dam 26 and creates a system of waterway user taxes.

This landmark measure was passed in a similar form by the House almost exactly 1 year ago. The only differences between the House version and this new version are that this bill authorizes somewhat higher user taxes for waterway carriers and establishes a waterway trust fund for those fuel taxes.

The heart of this legislation—the replacement of the crumbling locks and Dam 26 on the Mississippi River—remains the same as the House version, which was developed by the Committee on Public Works and Transportation.

This project is extremely important to the economic health of the St. Louis area, the Mississippi River Valley, and ultimately to the entire Nation. The growth and prosperity of the region around Locks and Dam 26 depends on efficient transportation—and the replacement of this bottleneck with a larger lock is vital to such efficient, energy-saving transportation.

Mr. Speaker, this bill would authorize the replacement of a 40-year-old facility which has serious structural problems. The dam has two locks which were designed in the 1930's for small packet boats—not the large barge tows that are now on the Mississippi River. Because of the small size of the locks—one 600-foot and one 360-foot lock—more than 60 percent of the river tows are forced to

break into sections when they go through the facility.

That has contributed to delays at Locks and Dam 26 that averaged 12 hours per tow in 1976 and have been growing longer since that time. The losses caused by delays at this facility run into millions of dollars per year.

There is no question that the facility must be repaired or replaced, and a study by the U.S. Army Corps of Engineers showed that rehabilitating and enlarging the present Locks and Dam 26 would cost about $40 million more than constructing the new facility. That study, and many others, led the Public Works Committee to report legislation authorizing a new locks and dam 2 miles downstream from the present one.

It is important that we act today on this bill. Even if construction on the new locks and dam began today, it would not be completed until 1988 or later. And the tonnage carried on the river is increasing at such a pace that it will exceed the economic capacity of Locks and Dam 26 by the mid-1980's. Every month of delay will add to the cost of the construction and to the losses sustained because of delays in the late 1980's.

Mr. Speaker, this compromise bill has been worked out to satisfy most of the parties involved. The Senate has already approved this compromise, the Ways and Means Committee supports it, the Public Works Committee supports it, the administration is backing it. I urge my colleagues to support this legislation.

Mr. FRENZEL. Mr. Speaker, I yield 2 minutes to the distinguished minority whip, the gentleman from Illinois (Mr. MICHEL).

Mr. MICHEL. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I take this time only to say that having teamed up several years ago with the gentleman from Illinois (Mr. MIKVA), I think we were the ones responsible, on an unsuspecting afternoon, for scuttling Lock and Dam 26 at that time simply because we had some very grave reservations about the manner in which it was coming about, with no discussion by Members of this body or the other body.

Now we have had that extended discussion, in both Houses, and I for one am glad we have finally broken the ice, so to speak, on the principle of a user fee for the barge lines. I have always been wedded to the proposition that there ought to be a user fee commensurate with those in our other modes of transportation. While this bill is still a far cry from what we ought to be requiring as a user fee, we are really under the gun for we have to begin work on a new lock as soon as possible. Furthermore under the circumstances, we need a two-thirds vote for passage under suspension of the rules.

Therefore, Mr. Speaker, I certainly want it to be known and spread upon the record that I intend to vote for the legislation and hope we can muster the sufficient two-thirds of our Members present later in the day.

Mr. FRENZEL. Mr. Speaker, I yield 2 minutes to the gentleman from Iowa (Mr. SMITH).

Mr. SMITH of Iowa. Mr. Speaker, I urge the adoption of this legislation today.

About 2 years or 2½ years ago, here in the House the Members voted down an opportunity to go ahead with Lock and Dam 26. It is going to cost at least $75 million more in construction costs because the project did not go ahead at that time, but that is only a small part of the cost of not going ahead several years ago.

Farmers in southeast Iowa right now are getting 15 to 25 cents more for their corn than they get in northwest Iowa and in central Iowa. It is because we do not have adequate transportation in this country. Railroads are not furnishing enough cars or fast enough turn around time at any price.

So what happened to cause the delay? The railroads were really slick. They really know how to lobby. They hoodwinked some gullible environmentalists into thinking they had a stake in this bill. One of the prominent Senators received a call from a prominent environmentalist who wanted to come in and talk to him about it. When they arrived, in walked one environmentalist and six railroad attorneys.

Who are these railroads? Illinois Central-Gulf is one of them. What kind of business are they in? They are part of a conglomerate which includes the oil business, they are building apartment houses in Chicago and they are in about 50 different kinds of businesses. I have been a strong supporter of railroads and railroad loans and subsidies but I thoroughly disagree with their opposition to other transportation systems. They want to stop other systems from providing needed transportation which they are not furnishing adequately for farmers and small businesses.

They want to hold farmers transportation needs hostage while they pay more attention to other enterprises and fail to provide enough service.

Mr. Speaker, I say we need balanced transportation in this country. A lot of this talk we hear around here about user fees and all of these things is a lot of hogwash. What some of the railroads want is to have a monopoly on the farmers' demand for transportation, even though they do not provide an adequate transportation service in this country.

Mr. BEDELL. Mr. Speaker, will the gentleman yield?

Mr. SMITH of Iowa. I yield to the gentleman from Iowa.

Mr. BEDELL. Mr. Speaker, may I ask the gentleman this question: Does the gentleman feel subsidizing barges 42 percent of their revenues and subsidizing railroads 3 percent of their revenues is a reasonable way in which to operate our transportation?

Mr. SMITH of Iowa. We are subsidizing the railroads to the tune of billions of dollars in appropriations.

Mr. ULLMAN. Mr. Speaker, I yield 1 minute to the gentleman from Iowa (Mr. BLOUIN).

Mr. BLOUIN. Mr. Speaker, I want to take this time to commend not only the chairman of the Committee on Ways and Means, but my colleague, the gentleman from Texas (Mr. ROBERTS), for the fine work that they have done in reaching a fair and acceptable compromise. Like the majority of the Members of this body, I was originally opposed to that proposition put forth on this floor about 3 years ago because of a lack of attention to user fees and a lack of attention to environmental concerns.

This bill, however, has the basic ingredients of the amendment that was adopted on the floor of this House earlier this year that I proposed—a prohibition on even studying the 12-foot channel, the study of the upper Mississippi River system and its role as part of our entire transportation network, and the environmental consequences of its development, as well as the construction of a long overdue new lock and dam facility at Alton. There is also the imposition of user fees at a fair level that establish the beginnings of some kind of parity among transportation systems.

I commend all of the Members involved and hope this is passed.

Mr. FRENZEL. Mr. Speaker, I yield myself 1 minute.

I do want to compliment the Committee on Public Works and Transportation for its splendid work on this bill and the hard work it has done over the years. And I want to remind the body here that this is a compromise approved overwhelmingly in the Senate, and approved by the administration. I hope that it is promptly passed.

I again, and finally, yield back the balance of my time.

Mr. ULLMAN. Mr. Speaker, I yield such time as he may consume to the gentleman from Wisconsin (Mr. BALDUS).

Mr. BALDUS. Mr. Speaker, sometimes my district is called a river district because the district is along the river.

I want to commend the chairmen of the committees, and the ranking minority Members in both Houses for their patience in working this through the conference. I certainly support the proposition.

● Mr. RAILSBACK. Mr. Speaker, I wholeheartedly support the construction of a new Lock and Dam 26 at Alton, Ill. I support the use of barges to move goods on the Mississippi River, just as I have supported our Nation's railroads and particularly the railroads in my own district, the 19th of Illinois. I think it is most important in this time of concern for energy that we utilize all available modes of transportation, including rail, truck, and the barge lines to the fullest extent possible.

The 19th District of Illinois is a very large agricultural area, with a lot of excellent farmland. We do a great deal of exporting, of soybeans and grain primarily. But I am concerned that at some point in the future the expense of transportation will plague agriculture.

Beside my concern over agricultural transportation, I am very concerned about energy. There is a serious energy shortage. In 20 or 30 years we are not going to have enough gas or oil to use readily. I conclude that it is in the best

national interest—not just that of the Midwest—to develop alternative modes of transportation. To the extent that we use less petroleum based fuels in the Midwest, there is that much more available for use in areas of the country where river transportation is not feasible.

Getting back to the necessity of this means of conveyance, it is expected that by 1981, 73 million tons of goods will move through this facility. Lock and Dam 26 now handles approximately 55 million tons per year, both agricultural goods going to foreign ports and materials, coal, other fuels, not to mention a host of raw materials for manufacturing traveling up and down the river.

In 1975–76, $22.27 billion in agricultural goods were sold for export. The forecast for 1976–77 was $24 billion. Our trade deficit in 1976 was $5.9 billion.

In that same year our oil expenses were $30 billion. The forecast for oil expenses was at least $32 billion. The $24 billion projection for agricultural goods will somewhat offset the added expense for oil. The indications were that the 1977 crop will nearly total the highest agricultural production this country has ever had.

Where does that leave us? That makes it clear to me that construction of the new Lock and Dam 26 will alleviate our balance-of-payments deficit by decreasing our needs for oil and increasing our ability to trade abroad.

I hope that the issue of user fees will not present an insurmountable obstacle. I consider those fees a necessary price to pay for this essential project.●

GENERAL LEAVE

Mr. ULLMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the resolution under consideration, House Resolution 1432.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

There was no objection.

The SPEAKER pro tempore. All time has expired.

The question is on the motion offered by the gentleman from Oregon (Mr. ULLMAN) that the House suspend the rules and agree to the resolution (House Resolution 1432).

The question was taken.

Mr. EDGAR. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to the provisions of clause 3, rule XXVII, and the Chair's prior announcement, further proceedings on this motion will be postponed.

TAX TREATMENT OF BONDS ISSUED FOR WATER FACILITIES

Mr. ULLMAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 10239) to amend the Internal Revenue Code of 1954 to clarify the tax status of certain industrial development bonds issued to provide facilities for the furnishing of water including water used to cool thermal generating plants or to generate hydroelectric energy, as amended.

The Clerk read as follows:

H.R. 10239

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) subparagraph (G) of section 103(b)(4) of the Internal Revenue Code of 1954 (relating to certain exempt activities) is amended to read as follows:

"(G) facilities for the furnishing of water (including water to be used for cooling purposes in connection with a facility for generating electric energy by steam)."

(b) The amendment made by subsection (a) shall apply to obligations issued after the date of the enactment of this Act.

The SPEAKER pro tempore. Is a second demanded?

Mr. FRENZEL. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Oregon (Mr. ULLMAN) will be recognized for 20 minutes, and the gentleman from Minnesota (Mr. FRENZEL) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Oregon (Mr. ULLMAN).

Mr. ULLMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill, H.R. 10239, extends the tax-exempt treatment provided under the Tax Code to the interest received on State or local bonds issued to finance facilities for furnishing water used for cooling purposes in connection with a facility for generating electric energy by steam.

Presently, the IRS views the facilities covered by the bill as electric facilities, the result of which being that the bonds are exempt only if they are for the "local furnishing" of electricity. This is further interpreted to mean that the electricity cannot be furnished to more than two contiguous counties.

Present law provides tax exemption for water facility bonds only if the water facilities are to be "available on reasonable demand to members of the general public." The IRS has narrowly interpreted this requirement. The bill eliminates this requirement. In addition, the bill insures that bonds issued to finance facilities for furnishing water to be used in cooling electric-steam generating facilities would no longer be required to meet the "local furnishing" requirement applicable to electricity bonds.

Mr. Speaker, I urge the adoption of this bill.

Mr. FRENZEL. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, I rise in support of H.R. 10239 concerning the treatment of interest paid on certain industrial development bonds.

Currently, interest paid on bonds issued by State and local governments will generally be exempt from tax unless the bonds are "industrial development bonds." However, interest paid on certain industrial development bonds will be exempt from tax if the bonds proceeds are used in connection with facilities that furnish water and meet certain technical requirements of the Internal Revenue Code, including the requirement that, in general, the water be available to members of the general public.

Internal Revenue Service interpretations have made it difficult for many State and local governments to issue bonds, whose proceeds will be used for the furnishing of water, to comply with current tax exemption requirements.

The bill extends the current exemption for water facility industrial development bonds to include bonds whose proceeds are used to provide facilities for the furnishing of water—including water to be used for cooling purposes in connection with a facility for generating electric energy by steam. Thus, the interest on these bonds would be tax-exempt.

Mr. Speaker, this is a bill of our departing colleague, the gentleman from Texas (Mr. BURLESON).

I concur in the description of the distinguished chairman of the Committee on Ways and Means.

There is no objection on this side. I hope the bill is promptly passed.

Mr. Speaker, I have no further requests for time. I yield back the balance of my time.

Mr. ULLMAN. Mr. Speaker, I yield 5 minutes to the gentleman from Texas (Mr. BURLESON).

Mr. BURLESON of Texas. Mr. Speaker, I thank the gentleman for yielding. I simply want to ask a question of the chairman to clarify the intent of the legislation.

As I understand it, the bill, H.R. 10239, merely extends the authority in present law for tax-exempt treatment of interest paid on industrial development bonds issued by State or local government units to provide facilities for furnishing water to include facilities where the water furnished is used for cooling purposes in connection with a facility for generating electric energy by steam?

Mr. ULLMAN. Mr. Speaker, if the gentleman will yield, the gentleman from Texas is correct.

Mr. BURLESON of Texas. There is no intent whatsoever in this legislation to restrict present law?

Mr. ULLMAN. The gentleman is correct. The bill merely seeks to extend present law to cover this additional situation.

Mr. Speaker, I have no further requests for time.

Mr. FRENZEL. Mr. Speaker, I have no further requests for time. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Oregon (Mr. ULLMAN) that the House suspend the rules and pass the bill H.R. 10239, as amended .

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title was amended so as to read: "A bill to amend the Internal Revenue Code of 1954 to clarify the status of cer-

tain industrial development bonds issued to provide facilities for the furnishing of water, including water used to cool facilities for generating electric energy by steam.".

A motion to reconsider was laid on the table.

TAX EXEMPTIONS FOR CERTAIN NONRESIDENT ALIEN COMMISSIONS

Mr. ULLMAN. Mr. Speaker, I move to suspened the rules and pass the bill (H.R. 13336) to amend the Internal Revenue Code of 1954 to provide an exemption from withholding of tax on nonresident aliens for ship suppliers in respect of certain commissions paid to nonresident aliens, as amended.

The Clerk read as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 1441(c) of the Internal Revenue Code of 1954 is amended by inserting after paragraph (8) the following new paragraph:

"(9) CERTAIN COMMISSIONS IN RESPECT OF SALES TO FOREIGN VESSELS.—No deduction or withholding under subsection (a) shall be required in the case of commissions paid by a ship supplier to a non-resident alien individual who is employed by another nonresident alien individual, a foreign partnership, or foreign corporation in the operation of a ship or ships documented under the laws of a foreign country if such commissions relate to the sale of supplies to be used in connection with the operation of such ship or ships."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to commissions paid after the date of the enactment of this Act.

The SPEAKER pro tempore. Is a second demanded?

Mr. FRENZEL. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Oregon (Mr. ULLMAN) will be recognized for 20 minutes, and the gentleman from Minnesota (Mr. FRENZEL) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Oregon (Mr. ULLMAN).

Mr. ULLMAN. Mr. Speaker, I yield myself such time as I may consume.

The bill, H.R. 13336, exempts from U.S. withholding tax certain commissions paid by U.S. ship chandlers to nonresident alien individuals employed by foreign persons on ships of foreign registry.

Crew members of foreign-flag ships often receive commissions from ship chandlers from whom they buy supplies. Generally, payments made to a nonresident alien for services in the United States are subject to a 30-percent withholding tax. There are de minimis exceptions to this rule, but the IRS has asserted that the exceptions do not apply to these commissions.

In most cases, the final U.S. income tax liability of the nonresident alien crew member, with respect to which the tax is to be withheld, is small or nonexistent. Ways and Means Committee believes that the complexity and ill will engendered by withholding is not warranted by the small revenue involved.

The bill exempts from U.S. withholding tax commissions paid by U.S. ship Chandlers to nonresident alien individuals employed by foreign persons on ships of foreign registry if the commissions relate to the sale of supplies to be used in connection with the operation of the ship.

The bill applies to commissions paid after the date of enactment. The Ways and Means Committee estimates that this provision will reduce budget receipts fiscal years 1979 through 1983.

Mr. Speaker, I urge the adoption of H.R. 13336.

Mr. Speaker, I reserve the balance of my time.

Mr. FRENZEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 13336 concerning the withholding of taxes on certain payments to nonresident alien individuals.

In general, withholding is required on payments received by nonresident aliens for services performed in the United States. However, it is not entirely clear how this and certain related rules apply to commission payments received by nonresident alien individuals, employed on ships of foreign registry, from individuals selling supplies to the ship.

Over the years, the proper treatment of these payments has depended on various factors, including the payments legality, or whether the ship's owner knew and approved of the payments.

H.R. 13336 removes the current uncertainty and provides that commissions received by nonresident aliens, employed by a foreign resident on a ship of foreign registry, will not be subject to withholding, if the commissions are paid in connection with the sale of supplies that are used in the ship's operations.

Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

Mr. WAGGONNER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Oregon (Mr. ULLMAN) that the House suspend the rules and pass the bill H.R. 13336, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

TAX TREATMENT OF FOREIGN BRANCHES OF U.S. SAVINGS AND LOANS

Mr. WAGGONNER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 13758) to amend the Internal Revenue Code of 1954 to provide the same treatment, with respect to determination of sources of income, for interest paid by foreign branches of domestic banks and interest paid by foreign branches of domestic savings and loan institutions, as amended.

The Clerk read as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) subparagraph (F) of section 861(a)(1) of the Internal Revenue Code of 1954 (relating to income from sources within the United States) is amended to read as follows:

"(F) interest—

"(i) on deposits with a foreign branch of a domestic corporation or a domestic partnership if such branch is engaged in the commercial banking business, and

"(ii) on amounts satisfying the requirements of paragraph (2) of subsection (c) which are paid by a foreign branch of a domestic corporation or a domestic partnership,".

(b) The amendment made by subsection (a) shall apply to taxable years beginning after the date of the enactment of this Act.

The SPEAKER pro tempore. Is a second demanded?

Mr. FRENZEL. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Louisiana (Mr. WAGGONNER) will be recognized for 20 minutes, and the gentleman from Minnesota will be recognized for 20 minutes.

The Chair recognizes the gentleman from Louisiana (Mr. WAGGONNER).

Mr. WAGGONNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the bill, H.R. 13758, makes it clear that interest received from Puerto Rican branches of U.S. savings and loan associations is to be treated as Puerto Rican source income and will thus qualify for the special treatment afforded Puerto Rican source income received by Puerto Rican residents and possessions corporations.

Generally, interest received from a U.S. corporation is treated entirely—or, in some cases, partially—as U.S. source income and thus does not qualify for the special tax treatment for Puerto Rican income. However, interest on deposits with a foreign branch of a U.S. commercial bank, including a branch located in Puerto Rico, is treated as income from sources within that foreign locality. As a result, interest paid by Puerto Rican branches of a U.S. commercial bank generally qualifies for the special treatment provided Puerto Rican residents and possessions corporations. This exception for foreign branches of U.S. banks does not extend to similar branches of U.S. savings and loan associations. The exception would be extended to the savings and loans by the bill.

The bill is effective for taxable years after enactment. The Committee on Ways and Means estimates that H.R. 13758 will reduce budget receipts by less than $5 million annually for fiscal years 1979 through 1983. The Treasury Department does not oppose the bill, and a similar provision is included in the Senate version of the Revenue Act of 1978.

Mr. Speaker, I urge the adoption of H.R. 13758.

Mr. FRENZEL. Mr. Speaker. I yield myself such time as I may consume.

Mr. Speaker. I rise in support of H.R. 13758 concerning the treatment of certain interest payments.

Interest paid by foreign branches of U.S. commercial banks is treated as foreign source income and eligible for special treatment when paid by a branch of a U.S. commercial bank located in Puerto Rico. This special treatment is not available if the interest is paid by a foreign branch of a U.S. savings and loan association.

The bill removes this distinction and provides that interest paid by a foreign branch of a U.S. savings and loan association will be treated as foreign source income. Interest paid by a Puerto Rican branch of a U.S. savings and loan association would thus be eligible for the same special treatment as interest paid by a Puerto Rican branch of a U.S. commercial bank.

Mr. WAGGONNER. Mr. Speaker, I yield such time as he may use to the gentleman from Puerto Rico, the Resident Commissioner (Mr. CORRADA).

Mr. CORRADA. Mr. Speaker, I rise in support of H.R. 13758, a bill which would provide the same treatment, with respect to the determination of sources of income, for interest paid by foreign branches of domestic banks and interest paid by foreign branches of domestic savings and loan institutions.

Section 102(a)(2) of the Foreign Investors Tax Act of 1966, treats interest earned on deposit with foreign branches of a domestic corporation or a domestic partnership, if such branches are engaged in the commercial banking business, as income from sources without the United States. In effect this provision would allow such income to be treated as foreign source income and thus free from U.S. income taxes when paid to nonresident aliens and foreign corporations.

The Internal Revenue Code ("The Code") treats Puerto Rico corporations as foreign corporations for purposes of U.S. income taxation. In addition, subsection 936(a)(1) of the Code allows a so-called possessions corporation to qualify for a tax credit equal to 100 percent of the Federal tax liability on income derived from qualified possession source investment income.

Interest received on deposits with Puerto Rican commercial banks qualifying under the definition of code section 861(a)(1)(F) would appear to qualify as possession source investment income and therefore would be eligible for the tax credit provided by code section 936. However, because code section 961(a)(1)(F) does not specifically mention federally chartered savings and loan associations, it would appear that the interest paid by such associations does not fall with the rubic of the term "qualified possession source investment income." This situation places the federally chartered savings and loan industry in Puerto Rico at a competitive disadvantage with commercial banks operating in the same jurisdiction. There is no justification for such discrimination.

As a matter of fact, an examination of Senate report—Finance Committee—No. 1707 of October 11, 1966, accompanying H.R. 13103, which subsequently was enacted into law as the Foreign Investors Tax Act of 1966, reveals that the committee felt that the above discrimination should not be allowed. Said report states, and I quote—United States Code, Congressional and Administrative News, 89th Congress, 2d session 1966, volume 3, page 4456:

Your committee also agrees with the House that, as long as bank deposit interest is to be treated as foreign source income, there is no justification for denying similar treatment for interest paid by savings and loan institutions generally as well as interest earned on the proceeds of an insurance policy which are left on deposit with an insurance company. These all represent interest income received on deposits and, therefore, it is believed that the competing businesses should be treated in the same manner for tax purposes.

Because such was the intent of Congress, savings and loan associations in Puerto Rico have accepted deposits from section 936 corporations and interest paid thereon has been treated by such corporations as qualified possession source investment income subject to the appropriate tax credit. H.R. 13758 would in effect recognize the intent of Congress in 1966 and would correct this anomaly by providing for similar treatment for interest paid by both commercial banks and by federally chartered savings and loan institutions.

I urge my colleagues to support this bill.

Mr. WAGGONNER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. FRENZEL. Mr. Speaker, I have no requests, for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Louisiana (Mr. WAGGONNER) that the House suspended the rules and pass the bill H.R. 13758, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

TAX TREATMENT OF REDEMPTIONS OF DISCOUNT COUPONS

Mr. WAGGONNER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 13047) to amend the Internal Revenue Code of 1954 to provide for a special tax accounting rule for the redemption of trading stamps and coupons, as amended.

The Clerk read as follows:

H.R. 13047

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. QUALIFIED DISCOUNT COUPONS REDEEMED AFTER CLOSE OF TAXABLE YEAR.

(a) GENERAL RULE.—Subpart C of part II of subchapter E of chapter 1 of the Internal Revenue Code of 1954 (relating to taxable year for which deductions taken) is amended by adding at the end thereof the following new section:

"SEC. 466. QUALIFIED DISCOUNT COUPONS REDEEMED AFTER CLOSE OF TAXABLE YEAR.

"(a) ALLOWANCE OF DEDUCTION.—At the election of a taxpayer whose taxable income is computed under an accrual method of accounting, the deduction allowable under this chapter for the redemption costs of qualified discount coupons shall be an amount equal to the sum of—

"(1) such costs incurred by the taxpayer with respect to coupons—

"(A) which were outstanding at the close of the taxable year, and

"(B) which were received by the taxpayer before the close of the redemption period for the taxable year, plus

"(2) such costs (other than costs properly taken into account under paragraph (1) for a prior taxable year) incurred by the taxpayer during the taxable year.

"(b) QUALIFIED DISCOUNT COUPONS.—For purposes of this section—

"(1) IN GENERAL.—The term 'qualified discount coupon' means a discount coupon which—

"(A) was issued by the taxpayer.

"(B) is redeemable by the taxpayer, and

"(C) allows a discount on the purchase price of merchandise or other tangible personal property.

"(2) METHOD OF ISSUANCE NOT TAKEN INTO ACCOUNT.—The determination of whether or not a discount coupon is a qualified discount coupon shall be made without regard to whether the coupon was issued through a newspaper, magazine, or other publication, by mail, on the pack or in the pack of merchandise, or otherwise.

"(3) DISCOUNT ON ITEM CANNOT EXCEED $5.—A coupon shall not be a qualified discount coupon if—

"(A) the face of such coupon is more than $5, or

"(B) such coupon may be used with other coupons to bring about a price discount of more than $5 with respect to any item.

"(4) THERE MUST BE REDEMPTION CHAIN.—A coupon shall not be a qualified discount coupon if the issuer directly redeems such coupon from the person using the coupon to receive a price discount. For purposes of the preceding sentence, corporations which are members of the same controlled group of corporations (within the meaning of section 1563(a)) as the issuer shall be treated as the issuer.

"(5) REDEEMABLE BY TAXPAYER.—A coupon is redeemable by the taxpayer if the terms of the coupon require the taxpayer to redeem the coupon when presented for redemption in accordance with its terms.

"(c) REDEMPTION COSTS; REDEMPTION PERIOD.—For purposes of this section—

"(1) REDEMPTION COSTS.—The term 'redemption cost' means, with respect to any coupon—

"(A) the lesser of—

"(i) the amount of the discount provided by the terms of the coupon, or

"(ii) the amount incurred by the taxpayer for paying such discount, plus

"(B) the amount incurred by the taxpayer for a payment to the retailer (or other person redeeming the coupon from the person receiving the price discount), but only if the amount so payable is stated on the coupon.

"(2) REDEMPTION PERIOD.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the redemption period for any taxable year is the 6-month period immediately following the close of the taxable year.

"(B) TAXPAYER MAY SELECT SHORTER PERIOD.—The taxpayer may select a redemption period which is shorter than 6 months.

"(C) CHANGE IN REDEMPTION PERIOD.—Any change in the redemption period shall be treated as a change in the method of accounting.

"(d) QUALIFIED DISCOUNT COUPONS TO WHICH SECTION APPLIES.—

"(1) ELECTION OF BENEFITS.—This section shall apply to qualified discount coupons if and only if the taxpayer makes an election under this section with respect to the trade or business in connection with which such

coupons are issued. An election under this section may be made without the consent of the Secretary. The election shall be made in such manner as the Secretary may by regulations prescribe and shall be made for any taxable year not later than the time prescribed by law for filing the return for such taxable year (including extensions thereof).

"(2) SCOPE OF ELECTION.—An election made under this section shall apply to all qualified discount coupons issued in connection with the trade or business with respect to which the taxpayer has made the election.

"(3) PERIOD TO WHICH ELECTION APPLIES.—An election under this section shall apply to the taxable year for which it is made and for all subsequent taxable years, unless the taxpayer secures the consent of the Secretary to the revocation of such election.

"(4) TREATMENT AS METHOD OF ACCOUNTING.—Except to the extent inconsistent with the provisions of this section, for purposes of this subtitle, the computation of taxable income under an election made under this section shall be treated as a method of accounting.

"(e) SUSPENSE ACCOUNT.—

"(1) IN GENERAL.—In the case of any election under this section which (but for this subsection) would result in a net decrease in taxable income under section 481(a)(2), in lieu of applying section 481, the taxpayer shall establish a suspense account for the trade or business for the taxable year for which the election is made.

"(2) INITIAL OPENING BALANCE.—The initial opening balance of the account described in paragraph (1) for the first taxable year to which the election applies shall be the amount by which—

"(A) the largest dollar amount which would have been taken into account under subsection (a)(1) for any of the 3 immediately preceding taxable years if this section had applied to such 3 preceding taxable years, exceeds

"(B) the sum of the increases in income (and the decreases in deductions) which (but for this subsection) would result under section 481(a)(2) for such first taxable years.

This subsection shall be applied by taking into account only amounts attributable to the trade or business for which such account is established.

"(3) ADJUSTMENTS IN SUSPENSE ACCOUNT.—At the close of each taxable year, the suspense account shall be—

"(A) reduced by the excess (if any) of—

"(i) the opening balance of the suspense account for the taxable year, over

"(ii) the amount deducted for the taxable year under subsection (a)(1), or

"(B) increased (but not in excess of the initial opening balance) by the excess (if any) of—

"(i) the amount deducted for the taxable year under subsection (a)(1), over

"(ii) the opening balance of the suspense account for the taxable year.

"(4) INCOME ADJUSTMENTS.—

"(A) REDUCTIONS ALLOWED AS DEDUCTION.—In the case of any reduction under paragraph (3)(A) in the account for the taxable year, an amount equal to such reduction shall be allowed as a deduction for such taxable year.

"(B) INCREASES ADDED TO GROSS INCOME.—In the case of any increase under paragraph (3)(b) in the account for the taxable year, an amount equal to such increase shall be included in gross income for such taxable year.

If the amount described in paragraph (2)(A) exceeds the dollar amount which would have been taken into account under subsection (a)(1) for the taxable year preceding the first taxable year for which the election is effective if this section had applied to such preceding taxable year, then an amount equal to the amount of such excess shall be included in gross income for such first taxable year.

"(5) SUBCHAPTER C TRANSACTIONS.—The application of this subsection with respect to a taxpayer which is a party to any transaction with respect to which there is nonrecognition of gain or loss to any party to the transaction by reason of subchapter C shall be determined under regulations prescribed by the Secretary.

"(f) 10-YEAR SPREAD OF ANY NET INCREASE IN TAXABLE INCOME UNDER SECTION 481(a)(2).—In the case of any election under this section which results in a net increase in taxable income under section 481(a)(2), under regulations prescribed by the Secretary, such net increase shall (except as otherwise provided in such regulations) be taken into account by the taxpayer in computing taxable income in each of the 10 taxable years beginning with the year for which the election is made."

(b) CLERICAL AMENDMENT.—The table of sections for such subpart B is amended by adding at the end thereof the following new item:

"Sec. 466. Qualified discount coupons redeemed after close of taxable year."

SEC. 2. EFFECTIVE DATE.

(a) IN GENERAL.—The amendments made by section 1 of this Act shall apply to taxable years ending after December 31, 1978.

(b) APPLICATION TO CERTAIN PRIOR TAXABLE YEARS.—

(1) IN GENERAL.—If—

(A) the taxpayer makes an election under section 466 of the Internal Revenue Code of 1954 for his first taxable year ending after December 31, 1978, and

(B) for a continuous period of 1 or more taxable years each of which ends on or before December 31, 1978, the taxpayer used a method of accounting with respect to any type of discount coupons which was reasonably similar to the method of accounting provided by section 1.451–4 of the Income Tax Regulations,

then the taxpayer may make an election under this subsection to have the method of accounting which he used for such continuous period treated as a valid method of accounting with respect to each such type of discount coupons for such period for purposes of the Internal Revenue Code of 1954. A taxpayer may make an election under this subsection with respect to only one such continuous period.

(2) CERTAIN AMOUNTS TO WHICH METHOD OF ACCOUNTING APPLIES.—An accounting method which the taxpayer used for the period described in paragraph (1) may include—

(A) costs of the type permitted by section 1.451–4 of the Income Tax Regulations to be included in the estimated average cost of redeeming coupons, plus,

(B) any amount designated or referred to on the coupon payable by the taxpayer to the person who allowed the discount on a sale by such person to the user of the coupon.

(3) SUSPENSE ACCOUNT NOT REQUIRED IN CERTAIN CASES.—A taxpayer whose election under this subsection applies to all types of discount coupons which he issued during the continuous period referred to in paragraph (1)(B) shall not be required to establish a suspense account under section 466(e) of the Internal Revenue Code of 1954.

(4) RULES RELATING TO ELECTION UNDER THIS SUBSECTION.—An election under this subsection may be made only before the expiration of the period for making an election under section 466 of the Internal Revenue Code of 1954 for the taxpayer's first taxable year ending after December 31, 1978. An election under this subsection shall be made in such a manner and form as the Secretary of the Treasury or his delegate may by regulations prescribe. For purposes of the Internal Revenue Code of 1954, such an election shall be treated as a method of accounting, except that the approval of the Secretary of the Treasury or his delegate to the making of the election may not be required.

The SPEAKER pro tempore. Is a second demanded?

Mr. FRENZEL. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Louisiana (Mr. WAGGONNER) will be recognized for 20 minutes, and the gentleman from Minnesota (Mr. FRENZEL) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Louisiana (Mr. WAGGONNER).

Mr. WAGGONNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 13047 amends the Internal Revenue Code to provide a special tax accounting rule under which certain taxpayers may claim a limited deduction for the cost of redeeming qualified discount coupons redeemed after the close of the taxable year in which they are issued.

Presently, there is some confusion regarding the correct tax accounting rule for discount coupons. The IRS and taxpayers disagree as to how an existing income tax regulation applies to discount coupons. The rapid increase in the use of discount coupons in recent years has led the committee to conclude that definitive rules in this area are needed.

Under the bill, an issuer of qualified discount coupons generally would be allowed to elect to deduct for the taxable year the cost of redeeming the discount coupons received by the taxpayer within 6 months after the close of the taxable year. The bill also provides an election under which taxpayers may validate, to a limited extent, certain methods of accounting employed in prior years for discount coupons. This election, if made, would "protect" a qualified method of accouting employed by the taxpayer in prior years from IRS challenge.

Mr. Speaker, this bill establishes tax accounting rules needed to provide certainty and administrability to the tax accounting for discount coupons. I urge the House to approve H.R. 13047.

Mr. VOLKMER. Mr. Speaker, will the gentleman yield?

Mr. WAGGONNER. I yield to the gentleman from Missouri.

Mr. VOLKMER. I thank the gentleman for yielding.

These types of coupons, are these the type that are used usually in retailing, by taxpayers, for retailing merchandise?

Mr. WAGGONNER. They are.

Mr. VOLKMER. And the accounting method, as I understand it, is being improved, or will be improved after the bill is passed, and that even though the coupon had been redeemed at the retail store where the manufacturer or the distributor—whoever is redeeming the coupons from the retailer—would pay it within 6 months after their taxable year closes, whether it is fiscal or calendar, that they could then include that

in that prior fiscal year, if done within 6 months; is that correct?

Mr. WAGGONNER. The gentleman is correct.

Mr. VOLKMER. The issuer is the taxpayer; is that correct?

Mr. WAGGONNER. That is correct.

Mr. VOLKMER. Now, there is one thing that concerns me a little bit, and I would like to have someone explain to me how this can occur. The present law is that it has to be redeemed in the taxable year by the taxpayer, who is also the issuer.

Mr. WAGGONNER. That is right, according to the Internal Revenue Service.

Mr. VOLKMER. How do we arrive at the reduction of $103 million in revenues in 1980 and then additional revenues the following years? What is the causation of that? Can the gentleman explain that to me?

Mr. WAGGONNER. Well, there is just that much coupon business. About $100 million of the $103 million is attributable to fiscal years prior to 1980, as far back as 1972. This assumes the IRS position is correct.

Mr. VOLKMER. I understand there is coupon business. But if an issuer redeems presently in the current year and, say, within 6 months of his prior year, then under the present law is he not permitted to deduct that in his current year?

Mr. WAGGONNER. The provision allows retroactive protection of the accounting method used by some taxpayers in prior years and there is a revenue cost to that.

Mr. VOLKMER. In other words, we are going to let some of the issuers, taxpayers, then go back into prior years, or at least 1 prior year, for coupons redeemed in, say, the current year; is that correct?

Mr. WAGGONNER. They would be protected from IRS challenge.

Mr. VOLKMER. For prior years. In other words, where they, in their accounting method, had included the redemptions that actually occurred following their fiscal or taxable year, as a deduction IRS is disallowing it, and this would permit them to take that?

In other words, they have already done it in their return.

Mr. WAGGONNER. That is correct.

Mr. VOLKMER. We are saying, "You don't have to pay the tax because what you did is all right."

Mr. WAGGONNER. That is correct.

Mr. VOLKMER. I thank the gentleman.

Mr. SIMON. Mr. Speaker, will the gentleman yield?

Mr. WAGGONNER. I am happy to yield to the gentleman from Illinois.

Mr. SIMON. Mr. Speaker, I have no opposition to this particular bill, I would call attention to something that could create a problem in future fiscal years, however, this ballooning effect. I do not know what is going to happen in the tax conference. but the Senate tax bill, while it has limited impact on fiscal year 1979, has major impact when we start with fiscal year 1980.

There have been a whole series of bills that have been moving through the House and Senate that have major impact starting in succeeding fiscal years, and this is one of that series. I simply call to the attention of my colleagues the fact that we are creating some long-range problems.

Now, this bill involves a $103 million loss in 1980 and somewhat less in succeeding years. It is not that major a thing, but when we start adding up $103 million, a few billion here and a few billion there, we could be creating some problems for ourselves. I simply call that to the attention of my colleagues.

Mr. FRENZEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 13047, a bill designed to clarify the tax treatment of discount coupons.

The bill establishes the proper tax accounting practices for issuers of discount coupons. Discount coupons are those commonplace newspaper coupons which are clipped out and entitle the person to a certain amount of "cents-off" on the purchase of a product. Also included in the definition are so-called pak/on pak coupons. These are the coupons contained within or on the package of a product. For example, a box of breakfast cereal may contain a coupon entitling the person to a discount on the subsequent purchase of the same or a different product.

H.R. 13047 elaborates the acceptable tax accounting methods for accrual basis coupon issuers. It allows the issuer to deduct the cost of coupons redeemed up to 6 months after the close of the taxable year. The cost of coupons includes the face amount of the coupon plus the handling fees payable to the retailer and redeeming agent.

The bill also addresses the transition for taxpayers between their current accounting practices and the procedures in this legislation. It assures that the transition will be orderly and contains safeguards to prevent any distortion of income by manipulating accounting periods.

Mr. Speaker, discount coupons provide business with a valuable marketing tool for promoting their products. In addition, consumers benefit from the savings which the coupons give. H.R. 13047 will help business adopt workable accounting methods for coupons and will help consumers to control their living expenses in this period of high inflation.

Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Ohio (Mr. GRADISON).

Mr. GRADISON. Mr. Speaker, I thank the gentleman for yielding, and I rise to compliment those members of the committee who have been active in working out this legislation, especially the gentleman from Louisiana and the gentleman from Minnesota.

I know, because of problems faced by some of my constituents, that one of the principal problems that has existed for years, but especially in recent times, in connection with this issue is the uncertainty which has arisen because of the Internal Revenue Service approach and its attempt to go back into earlier years. It is not entirely clear how this legislation will affect particular companies, whether it will be beneficial or harmful in terms of the tax impact, but I think the great virtue of the legislation is that it resolves longstanding disputes and should prevent such disputes in the future. It removes a continuing source of argument which has taken quite unnecessarily a great deal of time, not only of the Revenue Service, but also the individual companies that are affected.

I support the legislation, and very much hope that it will be overwhelmingly approved by the House.

Mr. FRENZEL. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. WAGGONNER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Louisiana (Mr. WAGGONER) that the House suspend the rules and pass the bill H.R. 13047, as amended.

The question was taken.

Mr. SIMON. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Pursuant to clause 3 of rule XXVII and the Chair's prior announcement, further proceedings on this motion will be postponed.

The point of order is considered as withdrawn.

IRC AMENDMENTS FOR INVESTMENT TAX CREDIT

Mr. WAGGONNER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 12846) to amend the Internal Revenue Code of 1954 to clarify the application of the investment tax credit to certain enclosures or structures used for the housing, raising, or feeding of poultry or their produce as amended.

The Clerk read as follows:

H.R. 12846

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) paragraph (1) of section 48(a) of the Internal Revenue Code of 1954 (defining section 38 property) is amended by striking out the period at the end of subparagraph (C) and inserting in lieu thereof ", or" and by inserting after subparagraph (C) the following new subparagraph:

"(D) single purpose agricultural or horticultural structures."

by designating subsection (1) as subsection (m) and by inserting after subsection (k) the following new subsection:

"(1) SINGLE PURPOSE AGRICULTURAL OR HORTICULTURAL STRUCTURE DEFINED.—For purposes of this section—

"(1) IN GENERAL.—The term 'single purpose agricultural or horticultural structure' means—

"(A) a single purpose poultry or hog structure, and

"(B) a single purpose greenhouse.

"(2) SINGLE PURPOSE POULTRY OR HOG STRUCTURE.—The term 'single purpose poultry or hog structure' means any enclosure or structure specifically designed, constructed, and used—

"(A) for housing, raising, and feeding poultry or hogs and their produce, and

"(B) for housing the equipment (including any replacements) necessary for the

housing, raising, and feeding referred to in subparagraph (A).

(3) SINGLE PURPOSE GREENHOUSE.—The term 'single purpose greenhouse' means a greenhouse specifically designed, constructed and used for the commercial production of plants.

"(4) STRUCTURES WHICH INCLUDE WORK SPACE.—An enclosure or structure which provides work space shall be treated as a single purpose agricultural or horticultural structure only if such work space is solely for—

"(A) the stocking, caring for or collection of poultry, hogs, or plants (as the case may be) or their produce,

"(B) the maintenance of the enclosure or structure, and

"(C) the maintenance or replacement of the equipment or stock enclosed or housed therein.

"(5) SPECIAL RULE FOR APPLYING SECTION 47—For purposes of section 47, any single purpose agricultural or horticultural structure shall be treated as meeting the requirements of this subsection for any period during which such structure is held for the use under which it qualified under this subsection.

"(6) Hogs.—The term 'hogs' includes pigs."

(c)(1) Paragraph (3) of section 1245(a) of such Code (defining section 1245 property) is amended by striking out "or" at the end of subparagraph (C), by striking out the period at the end of subparagraph (D) and inserting in lieu thereof ", or", and by adding at the end thereof the following new subparagraph:

"(E) any single purpose agricultural or horticultural structure (as defined in section 48(1))."

(2) Paragraph (2) of section 1245(a) of such Code (defining recomputed basis) is amended by striking out "or" at the end of subparagraph (C), by inserting ", at the end of subparagraph (D), and by inserting after subparagraph (D) the following new subparagraph:

"(E) with respect to any property referred to in paragraph (3)(E), its adjusted basis recomputed by adding thereto all adjustments attributable to periods after December 31, 1978."

(d) The amendments made by subsections (a) and (b) shall apply to taxable years ending after August 15, 1971. The amendments made by subsection (c) shall apply to adjustments attributable to periods after December 31, 1978.

The SPEAKER pro tempore. Is a second demanded?

Mr. FRENZEL. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Louisiana (Mr. WAGGONNER) will be recognized for 20 minutes and the gentleman from Minnesota (Mr. FRENZEL) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Louisiana (Mr. WAGGONNER).

Mr. WAGGONNER. I yield myself such time as I may consume.

Mr. Speaker, H.R. 12846 concerns the investment tax credit for certain agricultural structures. The bill clarifies the present law treatment of greenhouses and other special purpose structures and enclosures which are used to raise and feed poultry and hogs.

Present law provides the investment credit for special purpose structures but does not allow the credit for buildings, such as factories and office buildings. The Internal Revenue Service takes the position that unitary hog and poultry facilities and greenhouses are buildings and are not eligible for the credit. The poultry, egg, and hog producer and the plant and flower grower must take the IRS to court in order to establish their right to the credit. Although the taxpayers have been successful in most of the court cases, it is both expensive and troublesome to do so, particularly for the farmer whose credit may be little more than it costs to contest the IRS before the courts.

As I have stated, the bill does no more than clarify present law. Under its provisions, poultry and hog structures and greenhouses are specifically eligible for the investment credit if the structures are specifically designed, constructed and used for the housing, raising, and feeding of poultry or hogs or for the commercial production of plants and plant produce. These special purpose productive facilities cannot be used for other purposes. Because the bill reflects how the law was intended to be interpreted when the investment credit was restored by the Congress on August 15, 1971, it will apply to taxable years ending after that date.

In addition, the bill makes these structures subject, on a prospective basis, to the same depreciation treatment as is provided generally for property subject to the investment credit under present law. The revenue loss under this bill is estimated to be $53 million for fiscal year 1979 and approximately $30 million for subsequent years. However, this estimate presumes that the IRS position is correct, an assumption which is not borne out by the court cases.

Mr. Speaker, I urge adoption of H.R. 12846.

Mr. FRENZEL. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the bill H.R. 12846, which has been accurately described by our distinguished colleague, the gentleman from Louisiana, and which clarifies the applicability of the investment tax credit.

The investment tax credit does not apply to buildings and structural components except in specified cases. Over the last several years, there has been a great deal of controversy over whether certain types of structures are included in these exceptions. The controversies have for the most part involved the applicability of the investment tax credit to "single purpose agricultural structures" such as unitary hog-raising facilities, greenhouses, or facilities used for the production of eggs or poultry.

The bill clarifies the issue by making the investment tax credit specifically applicable to certain greenhouses, hog-raising and poultry facilities. The legislation will end unnecessary litigation and save the Government and taxpayers the legal expenses they would otherwise incur.

I urge the bill's immediate adoption.

I have no further requests for time.

I reserve the balance of my time.

Mr. WAGGONNER. Mr. Speaker, I yield such time as he may consume to the gentleman from Oklahoma (Mr. JONES).

Mr. JONES of Oklahoma. Mr. Speaker, I thank the gentleman from Louisiana (Mr. WAGGONNER) for yielding to me.

Mr. Speaker, I would inquire of the distinguished gentleman from Louisiana (Mr. WAGGONNER) that, under present law there are structures primarily designed and used as an integral part of manufacturing, part of the production process, and these structures presently qualify for the credit. I want to make certain and to clarify that the intention of the managers and of the House is that no inference should be drawn from this particular legislation with respect to the qualification of other types of properties.

In other words, properties, special purpose facilities, that qualify for the credit under existing law, will continue to qualify. And it is intended that this legislation does not narrow the scope of existing law.

Is that the understanding of the gentleman?

Mr. WAGGONNER. That is the understanding of the gentleman from Louisiana now speaking.

Mr. JONES of Oklahoma. I thank the gentleman for yielding.

Mr. WAGGONNER. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. PICKLE).

Mr. PICKLE. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise in support of H.R. 12846, investment credit for certain agricultural or horticultural structures. This bill has unfortunately gotten some questionable publicity—the press has managed to get a few laughs out of referring to it as the "tax break for the greenhousing of America." However this is not a laughing matter to the florists, the hog raisers, and the poultry raisers involved. The whole thing resulted from the Revenue Act of 1971 that made some general changes to the investment tax credit, including a change in the available credit in respect to the term "building." The Senate report clearly indicates that it was not intended to include a structure which houses property used as an integral part of a manufacturing or production activity. I quote from the Senate report.

The committee also desires to make it clear that the term "building" is not intended to include a structure which houses property used as an integral part of a manufacturing or production activity (or other activity referred to in sec. 48(a)(1)(B)(i)) if the use of the structure is so closely related to the use of the equipment it houses that the structure clearly can be expected to be replaced when the property it houses is replaced. Factors which would tend to indicate that a structure is closely related to the use of the equipment include the fact as to whether the structure has been specifically designed to provide for the stress and other demands of the equipment which the structure houses and the fact as to whether the structure could not be economically used for other purposes.

One example of a type of structure closely related to the product it houses which was called to the attention of the committee is a unitary system for raising hogs which includes automatic feed systems, special airflow units, slatted flooring, pens and parti-

tions. The structure which can be added to according to the number of hogs raised, is no more than a cover and way of tying together the specially designed pens, automatic feeding systems, etc. There is no other practical use for the structure and it can, therefore, be expected to be used only so long as the equipment it houses is used. Such a structure would be eligible for an investment credit. S. Rep. No. 437, 92d Cong., 1st Sess. (1971), 1972–1 C.B. 575.)

The courts have ruled time and again that poultry housing facilities were eligible for the investment tax credit. *Melvin Satrum*, 623 T.C. 413 (1974) and most recently on August 8, 1978 in *Walter Sheffied Poultry Company, Inc.*, Petitioner v. *Commissioner of Internal Revenue*, T.C. Memo. 1978–308. Yet the Internal Revenue persists in harrassing these poultry producers so that they must go to court every time to prove that their housing facilities are, in fact, eligible for the investment tax credit.

This bill has already been added in the Senate version of H.R. 13511 the Tax Revenue Act of 1978. I urge you to pass this bill which merely clarifies the existing law with reference to buildings that are an integral part of the production process.

Mr. WAGGONNER. Mr. Speaker, I yield such time as he may consume to the gentleman from New York (Mr. PIKE).

Mr. PIKE. Mr. Speaker, I thank the gentleman for yielding. I also thank him for the courtesy of handing me a copy of the bill, which they do not seem to have back there by our cloakroom.

This bill refers to certain enclosures or structures used for the housing and raising or feeding of poultry, is that all this legislation is about? Is that what the legislation is limited to at this time, or does this include the so-called unitary hog raising facilities?

Mr. WAGGONNER. This bill has a committee amendment which includes, among other things, the hog raising facilities to which the gentleman refers. In addition to that, so that there will not be any misconception, there is only one other thing, and that has to do with greenhouses used for the commercial production of plants.

Mr. PIKE. The unitary hog raising facility, is that a unit of production which sometimes is more colloquially known as a pigpen? Is that a fair statement?

Mr. WAGGONNER. Well, I guess some people call them pigpens just like some people refer to special purpose poultry structures as chicken coops.

Mr. PIKE. That was my next question.

So what we are doing here is providing the investment tax credit for pigpens and chicken coops. I just want to make sure that I understand what we are doing.

Mr. WAGGONNER. What we are doing here is trying to clarify, because differences of opinion do exist, on what the present law was intended to be when the credit was restored on August 15, 1971. As a result of this confusion there has been a great deal of litigation, most of which has been decided in favor of the taxpayer.

There is this confusion, and oftentimes investment-credit litigation is probably, in many instances, more expensive than what the investment credit is worth. Therefore, what we are really trying to do is to clarify the intent of the 1971 law in the instance of these special-purpose structures.

Mr. PIKE. If the gentleman will yield further, I heard everything the gentleman said, but I want to make sure that I understand it. Are we in essence clarifying it so that we can give an investment tax credit to pigpens and chicken coops?

Mr. WAGGONNER. No, we are clarifying it with Treasury's approval so the taxpayer receives the investment credit when he builds these special-purpose structures without having to go to court for it.

Mr. PIKE. And the special-purpose structure is a pigpen or a chicken coop; is that a fair statement?

Mr. WAGGONNER. The gentleman is streetwise in New York. I hope I am streetwise down in hog and chicken country. Sometimes we jokingly refer to them as "chicken coops" and "pigpens."

Mr. PIKE. When the gentleman is not jokingly referring to them, does he really call them "unitary hog-raising structures"?

Mr. WAGGONNER. They really are.

Mr. PIKE. And that is the way the people refer to them in their normal day-to-day conversation down in Louisiana, "unitary hog-raising structures"?

Mr. WAGGONNER. One has to do that when he is discussing it on a serious basis with somebody like the IRS, which does not understand.

Mr. PIKE. Mr. Speaker, I yield to the gentleman's expertise. I yield to his semantics, and I have no further questions.

Mr. WAGGONNER. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia (Mr. JENKINS).

Mr. JENKINS. Mr. Speaker, several months ago I introduced with my colleague JAKE PICKLE of Texas this bill to provide a clarification of the law with respect to the application of the investment tax credit to certain single purpose enclosures or structures for raising of poultry. Our bill comes to the floor today with an amendment of the Committee on Ways and Means providing the identical clarification of law for unitary hog raising structures and greenhouses. The amendment is a good one and the entire bill should be enacted into law.

The legislative history and intent of the Congress that the tax credit apply to these unitary structures is well known and has been well recited by my colleagues who have spoken on behalf of this bill. For years the Internal Revenue Service has issued rulings that these facilities were not eligible for the investment tax credit. I refer to *Rev. Rul.* 63–39, 1966–2 C.B. 16 and *Rev. Rul.* 66–89, 1966–1 C.B. 7, mod'f. by *Rev. Rul.* 72–222, 1972–1 C.B. 17. Judicial decisions have disputed the Service's position. The case of *Melvin Satrum*, 62T.C. 413 (1974), app. dism. 9th Cir., 1975, is an example of a court ruling on poultry houses which rejects the Service's position.

Nevertheless, small chicken and hog farmers continue to be confused by the Internal Revenue Service's unyielding position and the contrary judicial rulings. It has produced a bad situation where small farmers can claim the investment tax credit for their investment in these depreciable structures only if willing and able to spend enormous sums in attorney's fees to litigate with the Internal Revenue Service.

The struggle of small farmers across the Nation to survive in the farming business is well known to us. Clearly, this Congress should lift this burden where the poultry and hog farmer are entitled by law to an investment tax credit but the tax collector refuses to allow it without an expensive legal battle. This legislation is, indeed, a test for this Congress to protect the interests of our citizens against unreasonable bureaucratic intrusion.

I urge passage of this bill.

Mr. WAGGONNER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. FRENZEL. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Louisiana (Mr. WAGGONNER) that the House suspend the rules and pass the bill H.R. 12846, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title was amended so as to read: "A bill to amend the Internal Revenue Code of 1954 to clarify the application of the investment tax credit to certain single purpose enclosures or structures for raising poultry or hogs or for use as greenhouses."

A motion to reconsider was laid on the table.

IMMIGRATION AND NATIONALITY ACT AMENDMENTS

Ms. HOLTZMAN. Mr. Speaker, I move to suspend the rules and concur in the Senate amendment to the bill (H.R. 12509) to amend the Immigration and Nationality Act to exclude from admission into, and to deport from, the United States all aliens who persecuted any person on the basis of race, religion, national origin, or political opinion, under the direction of the Nazi Government of Germany, and for other purposes.

The Clerk read the Senate amendment as follows:

Strike out all after the enacting clause and insert:

TITLE I

SEC. 101(a). Section 212(a) of the Immigration and Nationality Act (8 U.S.C. 1182 (a)), relating to general classes of aliens ineligible to receive visas and excluded from admission, is amended—

(1) by striking out the period at the end of paragraph (32) and inserting in lieu thereof a semicolon; and

(12) by adding immediately after paragraph (32) the following new paragraph:

"(33) Any alien who during the period beginning on March 23, 1933, and ending on May 8, 1945, under the direction of, or in association with—

"(A) the Nazi government in Germany,

"(B) any government in any area occupied by the military forces of the Nazi government of Germany,

"(C) any government established with the assistance or cooperation of the Nazi government of Germany, or

"(D) any government which was an ally of the Nazi government of Germany,

ordered, incited, assisted, or otherwise participated in the persecution of any person because of race, religion, national origin, or political opinion."

SEC. 102. Section 212(d)(3) of such Act (8 U.S.C. 1182(d)(3)), relating to waiver of exclusions for certain non-immigrants, is amended by striking out "(27) and (29)" and inserting in lieu thereof "(27), (29), and (33)" each place it appears.

SEC. 103. Section 241(a) of the Immigration and Nationality Act (8 U.S.C. 1251 (a)), relating to general classes of deportable aliens, is amended—

(1) by striking out "or" at the end of paragraph (17);

(2) by striking out the period at the end of paragraph (18) and inserting in lieu thereof "; or"; and

(3) by adding immediately after paragraph (18) the following new paragraph:

"(19) during the period beginning on March 23, 1933, and ending on May 8, 1945, under the direction of, or in association with—

"(A) the Nazi government of Germany,

"(B) any government in any area occupied by the military forces of the Nazi government of Germany,

"(C) any government established with the assistance or cooperation of the Nazi government of Germany, or

"(D) any government which was an ally of the Nazi government of Germany,

ordered, incited, assisted, or otherwise participated in the persecution of any person because of race, religion, national origin, or political opinion."

SEC. 104. Section 243(h) of the Immigration and Nationality Act (8 U.S.C. 1253(h)), relating to withholding of deportation, is amended by inserting "(other than an alien described in section 241(a)(19))" after "The Attorney General is authorized to withhold deportation of any alien".

SEC. 105. Section 244(e) of the Immigration and Nationality Act (8 U.S.C. 1254(e)), relating to voluntary departure of aliens under deportation proceedings, is amended by striking out "or (18)" and inserting in lieu thereof "(18), or (19)".

TITLE II

SEC. 201. Section 2(b) of the Indochina Migration and Refugee Assistance Act of 1975 is amended to read as follows:

"None of the funds authorized to be appropriated by subsection (a) may be available for obligation after September 30, 1979".

SEC. 202. The amendments made by this title shall take effect on October 1, 1978.

The SPEAKER pro tempore. Is a second demanded?

Mr. FISH. Mr. Speaker, I demand a second.

The SPEAKER pro tempore Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentlewoman from New York (Ms. HOLTZMAN) and the gentleman from New York (Mr. FISH) will be recognized for 20 minutes each.

The Chair recognizes the gentlewoman from New York (Ms. HOLTZMAN).

Mr. BURKE of Massachusetts. Mr. Speaker, will be gentlewoman yield?

Ms. HOLTZMAN. I am happy to yield to my distinguished colleague from Massachusetts.

PARLIAMENTARY INQUIRY

Mr. BURKE of Massachusetts. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state his parliamentary inquiry.

Mr. BURKE of Massachusetts. Mr. Speaker, item No. 9 on suspension was supposed to come up next. May I ask what the program calls for?

The SPEAKER pro tempore. The Chair will advise the distinguished gentleman that that legislation is no longer on the suspension list.

Mr. BURKE of Massachusetts. It is no longer on the calendar?

The SPEAKER pro tempore. That is correct.

Mr. BURKE of Massachuetts. And it will not be on the calendar for the rest of the day?

The SPEAKER pro tempore. The Chair is not advised. All the Chair knows is the schedule which is before it.

That item has been taken off this particular schedule.

Mr. BURKE of Massachusetts. I thank the Speaker.

Ms. HOLTZMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the Senate amendment to H.R. 12509 makes no change in the provisions of the bill as passed by the House. The amendment adds a second title to the bill which continues for 1 year full funding for the Indochinese refugee assistance program.

Mr. Speaker, adoption of this Senate amendment is necessary in order to continue 100 percent Federal reimbursement to States and local governments for their costs of providing assistance to Indochina refugees. If the authorization is not extended, the present program will automatically phase-down to 75 percent for fiscal year 1979. This funding reduction would also be applicable to those refugees now being admitted under the current Indochina refugee admission program. This would have the effect of imposing an added burden on those States in which large numbers of refugees are settling and inevitably on property taxpayers in those States.

In my judgment, it would be unreasonable for the Federal Government to provide funding for this new group of refugees at a level lower than it has provided for past groups of refugees.

Mr. Speaker, adoption of this amendment would extend the program at the 100-percent reimbursement level for fiscal year 1979 only.

It is my firm hope that early in the first session of the next Congress the administration will present the Congress with a long-overdue, comprehensive and coordinated Indochina refugee program which will tie together the closely related issues of refugee admission and resettlement funding.

I should also advise my colleagues that the amendment under consideration has been brought to the attention of the Budget Committee which has expressed no opposition to its consideration in this manner.

The temporary extension of this program at its present 100-percent level is strongly supported by the State governments, the private voluntary agencies responsible for resettling refugees, and by the administration.

Mr. Speaker, we should not allow the failure on the part of the administration to come up with a coherent and well-reasoned response to the critical Indochina refugee situation or refugee problems in general to work a hardship on States and localities as well as on refugees themselves who currently participate in the program. Rather, the most reasonable action which we can take now is to agree to this Senate amendment, thereby extending for a year the current program, and then concentrate on the development of a comprehensive and permanent refugee program.

Mr. FISH. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the motion to suspend the rules and pass the bill, H.R. 12509, with the Senate amendment. As you recall, the House passed title I of this bill on September 26, 1978. Now, the Senate has added a title II, dealing with Federal funding of the Indochinese refugee program. Public Law 95–145 presently provides a 75-percent Federal participation for fiscal 1979.

The Senate amendment to this bill in the form of title II replaces the three remaining years of the program, which is funded in part by the Federal Government, with a 1-year program which is funded in full by the Federal Government.

When we established the 4-year program involving reduced Federal participation in each of the last 3 years, 130,000 Indochinese refugees who had escaped after the fall of Saigon were here and resettled. However, Vietnamese continue to risk their lives by sailing from Vietnam through the South China Sea to refugee camps in Thailand and other neighboring countries. Four exercises of parole by the Attorney General in 1976, 1977, and 1978 will result in the admission of an additional 55,000 refugees by May 1979. Refugees continue to stream out of Cambodia and the Congress last week included in the Department of Justice appropriation bill a sense of the Congress that the Attorney General parole into the United States 15,000 Cambodian refugees.

It is clear, Mr. Speaker, that the Indochinese refugee population in this country is not static but is growing. Therefore, it would be fair to the States not to reduce Federal participation in a program addressed to aid an increasing population. Another advantage of a 1-year program will be that the administration and the Congress will be required next year to seek long-term solutions in the establishment of a long-term refugee policy for our country.

The senior Senator from California, a prime sponsor of this amendment, agrees that passage of this bill "makes imperative an overall review of U.S. refugee policy early next year." I agree that such a review is necessary, and I

fully support the motion to suspend the rules and pass this bill as amended.

Mr. Speaker, I reserve the remainder of my time.

Ms. HOLTZMAN. Mr. Speaker, I yield 3 minutes to the distinguished chairman of the subcommittee, the gentleman from Pennsylvania (Mr. EILBERG).

Mr. EILBERG. I thank the gentlewoman for yielding.

Mr. Speaker, I wish to commend the gentlewoman for her great work in connection with the bill which originally passed the House and also in providing the information to the Members as to what the Senate amendment provides.

Mr. Speaker, adoption of this amendment is essential to avoid severe impacts on States and local welfare costs, and to prevent a cutoff in needed assistance and services to refugees. This program enables all States to provide cash and medial assistance and social services to refugees and prevents any locality from being overburdened by these costs.

Mr. Speaker, I had hoped that we could phase-down this program this year however, it is clear that due to the continuing admission of Indochinese refugees, an immediate phase-down is not now possible. The extension proposed today will continue full funding for 1 year only. All funds for the program will terminate after fiscal year 1979. This termination date will force the administration to confront this continuing problem in a comprehensive manner. I say to you that I will not support another stopgap funding program. This country must have a comprehensive, coordinated policy for the admission and resettlement of refugees which clearly defines the respective responsibilities of the States, the Federal Government, and the refugees themselves.

Mr. Speaker, I have repeatedly called for such a policy and intend to insist upon it. I communicated this view to the President in a letter of August 7, 1978, in which I state that—

> . . . the Administration is now asking the Congress to once again extend the Indochina Migration and Refugee Assistance Program: in a limited, "stopgap" manner. In my judgment it is unreasonable and inefficient to propose such an extension and at the same time support a continuing admissions program of 25,000 Indochina refugees per year.

Mr. Speaker, the Senate Human Resources, and Foreign Relations Committees also, in their report on a bill to extend this program noted that this extension can only be viewed as an interim measure until a sensible resettlement policy is more developed.

Mr. Speaker, although a long-range policy must be developed, we must now meet the needs of needy refugees who are arriving on our shores. We must approve this 1-year extension to provide for their immediate needs. We should not deny to them the same benefits which have been available to all other Indochina refugees.

Mr. Speaker, it is my fervent hope that adoption of this amendment will at once make clear our concern for the refugees and the localities which receive them and emphasize our determination to insist on the submission of a sensible refugee policy by the administration in the next session of Congress.

Ms. HOLTZMAN. Mr. Speaker, I wish to commend the gentleman from Pennsylvania for his tireless efforts in respect to the basic bill that the House passed and that we are reviewing today.

I yield now 2 minutes to the gentleman from California (Mr. STARK).

Mr. STARK. Mr. Speaker, I rise in strong support of this measure to extend full Federal funding of the Indochina refugee assistance program for 1 additional year.

Mr. Speaker, I want to thank the honorable chairman of the Judiciary Subcommittee on Immigration, Citizenship, and International Law and my colleague, Ms. HOLTZMAN, for their efforts in bringing this needed legislation to the floor.

The continuation of full Federal funding of the Indochina refugee assistance program has my strong support. Parole authority has recently been granted to 25,000 Indochinese refugees who reached the United States during fiscal year 1979. They will be in addition to the 22,000 refugees who entered this country during the fiscal year 1978.

In light of this great number of refugees who are still entering the United States for resettlement, it is my strong feeling that 100 percent Federal funding must be retained for 1 additional year under the Indochina Refugee Assistance Program (IRAP). I testified before Chairman EILBERG's subcommittee last year in support of a rapid phase-down of the program. At that time, however, it was assumed that the number of refugees would remain around 150,000. This assumption, on which we based the extension of IRAP, has now been rendered invalid by virtue of recent actions with regard to refugee admission. We must act to insure that our States and counties are not forced to bear the cost of these unanticipated Federal actions.

As you know, Public Law 95–145 presently limits Federal reimbursement in fiscal year 1979 to 75 percent of the State's fiscal year 1978 costs. Based on HEW estimates, the Federal share in fiscal year 1979 could be no more than $67,500,000, or 75 percent of the estimated $90 million cost in fiscal year 1978. However, due to the admission of 25,000 additional refugees, it is estimated that the total cost in fiscal year 1979 will be in the vicinity of $126 million. Because of these increases, the State and local share of the IRAP could be more than 50 percent larger than originally anticipated.

This problem is further aggravated due to the delay in the fiscal year 1978 appropriation for IRAP. The supplemental appropriations bill was not passed until March of this year. Consequently, States made great efforts to hold down all controllable costs during the 5 months of fundlessness. Therefore, it is probable that the final costs for fiscal year 1978 on which the phase-down is based will be artificially low and not reflect the true cost of the program. If this is the case, the burden of our States and counties will be proportionately greater.

The legislation before us today is fiscally responsible and reasonable. It will allow us to seriously review during the next session our over-all approach to refugee policy in other than a crisis atmosphere. I urge my colleagues to support it.

Mr. FISH. Mr. Speaker, I yield such time as he may consume to the gentleman from Ohio (Mr. ASHBROOK).

Mr. ASHBROOK. Mr. Speaker, I thank the gentleman for yielding.

I merely take the time to ask a couple questions.

We all want the objectives, but sometimes it is strange how concerns on constitutional and civil rights liberties are lessened when we get to a subject we all agree on.

I had personal knowledge of a case, I would have to say in all honesty I do not know the man. I do not know what the true situation is; but in checking it out, I find the only charge against this man was an unsubstantiated charge made in an East European country, forwarded to this Government to followup. In other words, the man was not confronted by his accuser. There was no opportunity for cross-examination.

I was a little bit surprised when I learned from the file that the Justice Department proceeded to bring a man in to ask questions on the basis of unsubstantiated allegations made in Eastern Europe behind the Iron Curtain.

I just point that out to ask either of my colleagues from New York whether this bill would envision that wide latitude being given to officials in this country to determine whether or not a person is in fact a Nazi sympathizer or a person who engaged in Nazi activities in the past. There is something about this bill that concerns us a little bit. If we all of a sudden suspend what otherwise would be constitutional liberties while in pursuit of somebody who is obviously a bad guy, where do you draw the line?

I would ask the gentlewoman from New York whether such a situation could happen under this bill. I have to admit I am concerned about it.

Ms. HOLTZMAN. Mr. Speaker, will the gentleman yield?

Mr. ASHBROOK. I am glad to yield to the gentlewoman.

Ms. HOLTZMAN. Mr. Speaker, I would like to assure the gentleman that the full panoply of constitutional rights will be brought to bear with respect to any person who would come within the purview of this bill. No one could be deported from this country without hearings, without confrontation of witnesses and so forth.

I will assure the gentleman there is no intent in any respect to—nor could we—abridge anyone's constitutional rights.

Mr. ASHBROOK. Mr. Speaker, I thank my colleague from New York. I think we all agree that the most despicable person under our system deserves his constitutional rights to prevent arbitrary action and prevent an injustice from occurring. I know the gentlewoman agrees we do not want one injustice to be wiped out, in effect, by propounding another injustice.

I have seen at least one case that smells a little. As I say, I do not know the man. He may be dead guilty, but for the

Justice Department to proceed on an unsubstantiated allegation when the accusing person is not even in this country, at least raises a red flag.

Mr. Speaker, I certainly appreciate receiving that assurance from my colleague, the gentlewoman from New York.

● Mr. COTTER. Mr. Speaker, on September 26, 1978, the House passed H.R. 12509, a bill to amend the Immigration and Nationality Act. This measure provides grounds for exclusion, and direct authority for deportation, of any alien who, under direction of, or in association with the Nazi government of Germany or its allies, persecuted any person, because of race, religion, national origin, or political opinion.

Although our permanent immigration law has never expressly excluded from admission into the United States aliens who have participated in persecution, similar provisions have appeared in special legislative enactments providing for the admission of refugees and certain other displaced persons after World War II. Section 13 of the Displaced Persons Act of 1948 prohibited the admission of aliens under that act who advocated or assisted in the persecution of any person because of race, religion, or national origin. The Refugee Relief Act of 1953, another postwar refugee statute, similarly prohibited the admission of such aliens. Thus, the enactment of H.R. 12509 would establish, within the permanent U.S. immigration law, a provision which has appeared previously in special refugee measures.

Mr. Speaker, it is my understanding that the Senate passed H.R. 12509 on Tuesday, October 10, including in the legislation an ungermane unprinted amendment involving Indochina migration.

I believe that clearing this measure for the President is of utmost importance, and I urge you to immediately request a conference and appoint conferees so that this bill can be acted upon prior to the sine die adjournment of the 95th Congress.

My office has been investigating the case of Valerian Trifa, a Romanian Orthodox bishop and naturalized citizen of the United States who allegedly participated in the Romanian Iron Guard's abortive coup against the military government of Gen. Ion Antonescu. During the Iron Guard coup, thousands of Romanian Jews were massacred. We became involved in this case at the request of Dr. Charles H. Kremer, president of the Committee to Bring Nazi War Criminals to Justice in the United States of America.

Bishop Trifa is now under investigation by the Immigration and Naturalization Service. The charge against him is that he obtained U.S. citizenship illegally by concealing his association with the Iron Guard. My last contact with Immigration and Naturalization officials indicated that the complaint against Bishop Trifa was filed in May of 1975. Since that time, it has gone through two assistant U.S. attorneys and some pretrial discovery. On March 6 of this year, the case was transferred to the Washington office, and I assume is still undergoing analysis.

The presence of Nazi war criminals in the United States cannot be tolerated, and as a democracy committed to the idea of human rights and dignity, it is imperative that our immigration laws include the provisions of H.R. 12509. I urge your immediate action on this legislation.●

● Mr. ANDERSON of California. Mr. Speaker, I would like to call our colleagues, attention to, and solicit support for, two important measures we will be voting on today; H.R. 12509, and the conference report on H.R. 15.

They are related. Both contain provisions pertaining to Indochina refugees. It has been generally recognized that many of these individuals are in need of certain Government services. There are, of course, special problems which all immigrants face. But Indochinese refugees have additional problems in adapting to American society. Generally speaking, they leave their native countries under less than ideal circumstances. They have left their homes hurriedly and secretively, leaving behind their money and possessions. Many of them have spent their entire lives under conditions of war. They have known only chaos. Educational opportunities have been limited. The conditions they are accustomed to are totally alien to what they are experiencing in America. Some have never before seen indoor plumbing or electric lights. That some level of government should provide assistance to lessen this culture-shock, is clear.

Demographic studies make it equally clear that most of these refugees have settled in a few geographic areas. Should these areas assume the financial burden of providing services the need for which stems from a national policy? It is the Federal Government which has, justifiably, opened its doors to these refugees. If we had not, these refugees might still be languishing under the Communist regime in Vietnam, or the terrorist group which has captured control in Cambodia. Some might have been floating on the open seas, without a home, or have been swallowed up by those seas. The national policy of allowing these refugees into our country is corollary to our belief in human rights, and is in the same spirit with which we have welcomed immigrants since the birth of the Nation.

Under similar circumstances during World War II, we were not always so accommodating to Jewish refugees wishing to leave Europe. Like other nations at the time, we refused to allow many of these refugees into the country. The consequences are known. We must allow Indochinese refugees into the United States.

This national policy, however, creates grave fiscal problems in those States and localities where the refugees have settled. Washington has recognized this in the past, and assumed responsibility for financing those services needed by the refugees. H.R. 12509, and the conference report on H.R. 15 will continue such financing.

H.R. 12509 will continue 100 percent Federal financing of Indochinese refugee assistance programs (IRAP). H.R. 15, amending the Elementary and Secondary Education Act, includes Senate provisions continuing Federal assistance for the education of Indochinese refugees.

I have been active in urging that these actions be taken, and am gratified to see them brought to the floor today. Reason demands that we pass these bills, and send them to the President for his approval.

Mr. Speaker, I would like to include in the RECORD the most recent letter I have written regarding IRAP, and a copy of the letter I sent to each of the House conferees on H.R. 15.

CONGRESS OF THE UNITED STATES,
Washington, D.C., September 13, 1978.

Hon. JOSHUA EILBERG,
Chairman, Subcommittee on Immigration, Citizenship and International Law, Rayburn Building, Washington, D.C.

DEAR CHAIRMAN EILBERG: The basic premise behind the Indochina Refugee Assistance Program was that the federal government, which determines immigration policies, should finance state and local programs helping out newly arrived refugees. The need for this arose when demographic data clearly indicated that the Indochinese refugees were concentrating themselves in certain areas of the country.

Now, this federal assistance to lower levels of government is being phased out, on the assumption that the refugees are becoming settled and are in less need of special programs. Yet the federal government is continuing to let new refugees in, and these newcomers are settling in the same areas as their predecessors. The conditions necessitating 100% federal financing of programs for these refugees still exist, yet this financing is being phased down. Because these conditions still exist, the federal government should continue its 100% financing.

The Subcommittee has before it legislation continuing federal support that IRAP costs at the current 100%. I would urge that the Subcommittee give this issue its prompt attention.

Sincerely,

GLENN M. ANDERSON,
Member of Congress.

CONGRESS OF THE UNITED STATES,
Washington, D.C., September 15, 1978.

Hon CARL D. PERKINS,
U.S. House of Representatives, Washington, D.C.

DEAR REPRESENTATIVE PERKINS: As a conferee on H.R. 15, amendments to the Elementary and Secondary Education Act, you will have an opportunity to help thousands of new citizens make greater contributions to America in the years that lie ahead.

Federal assistance to help educate Southeast Asian refugee students under P.L. 94–405, is fast running out. The Senate has amended ESEA to give this program new life for the next five years. It would be a terrible blow if the House did not concede on this point to the Senate conferees.

It would be a blow to students who have been participating in programs under P.L. 94–405, but who are not yet "up to speed." It would be a blow to newly arriving refugees who will not have had the opportunity to ever participate in these programs. It will hit hard at our local school districts which will be trying to help these students without federal assistance, despite the fact that it was federal policy to admit these refugees into the country. And finally, it will leave us all wondering what achievements many of these youngsters would one day accomplish if only the federal government had provided this assistance.

Like all children, the talents and aptitudes of these refugees are wideranging; some are brilliant, some appear hopelessly backward

from years of educational and social deprivation. Some will undoubtedly make it in America without this assistance. Others will survive in American society only with federal assistance in the future, such as welfare and food stamps. Our dollars will be better spent educating these children now, than feeding their children tomorrow.

I urge you to support the five-year continuation of these important programs.

Sincerely,

GLENN M. ANDERSON,
Member of Congress.●

Mr. FISH. Mr. Speaker, I have no further requests for time. I yield back the balance of my time.

Ms. HOLTZMAN. Mr. Speaker, I have no further requests for time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from New York (Ms. HOLTZMAN) that the House suspend the rules and concur in the Senate amendment to the bill, H.R. 12509.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the Senate amendment was concurred in.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Ms. HOLTZMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate amendment to the bill H.R. 12509, just concurred in.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New York?

There was no objection.

PSYCHOTROPIC SUBSTANCES ACT OF 1978

Mr. ROGERS. Mr. Speaker, I move to suspend the rules and concur in the Senate amendments to the House amendment to the Senate bill (S. 2399) to amend the Comprehensive Drug Abuse Prevention and Control Act of 1970 and other laws to meet obligations under the Convention on Psychotropic Substances relating to regulatory controls on the manufacture, distribution, importation, and exportation of psychotropic substances, and for other purposes; as amended.

The clerk read the Senate amendments to the House amendment as follows:

TITLE II—PCP CRIMINAL PENALTIES AND PIPERIDINE REPORTING

SEC. 201. Section 401 of the Controlled Substances Act (21 U.S.C. 841) is amended—

(1) by inserting ", except as provided in paragraphs (4) and (5) of this subsection," after "such person shall" in the first sentence of subsection (b)(1)(B);

(2) by adding after paragraph (4) of subsection (b) the following new paragraph:

"(5) Notwithstanding paragraph (1)(B) of this subsection, any person who violates subsection (a) of this section by manufacturing, distributing, dispensing, or possessing with intent to manufacture, distribute, or dispense, except as authorized by this title, phencyclidine (as defined in section 310(c)(2)) shall be sentenced to a term of imprisonment of not more than 10 years, a fine of not more than $25,000, or both. If any person commits such a violation after one or more prior convictions of him for an offense punishable under paragraph (1) or this paragraph, or for a felony under any other provision of this title or title III or other law of the United States relating to narcotic drugs, marihuana, or pressant or stimulant substances, have become final, such person shall be sentenced to a term of imprisonment of not more than 20 years, a fine of not more than $50,000, or both. Any sentence imposing a term of imprisonment under this paragraph shall, in the absence of such a prior conviction, impose a special parole term of at least 2 years in addition to such term of imprisonment and shall, if there was such a prior conviction, impose a special parole term of at least 4 years in addition to such term of imprisonment."; and

(3) by adding after subsection (c) the following new subsection:

"(d) Any person who knowingly or intentionally—

"(1) possesses any piperidine with intent to manufacture phencyclidine except as authorized by this title, or

"(2) possess any piperidine knowing, or having reasonable cause to believe, that the piperidine will be used to manufacture phencyclidine except as authorized by this title,

shall be sentenced to a term of imprisonment of not more than 5 years, a fine of not more than $15,000, or both.".

SEC. 202. (a) Part C of the Controlled Substances Act is amended (1) by inserting "; PIPERIDINE REPORTING" at the end of its heading, and (2) by adding after section 309 (21 U.S.C. 829) the following new section:

"PIPERIDINE REPORTING

"SEC. 310. (a)(1) Except as provided under paragraph (3), any person who distributes, sells, or imports any piperidine shall report to the Attorney General such information, in such form and manner, and within such time period or periods (of not less than 7 days), concerning the distribution, sale, or importation as the Attorney General may require by regulation, and the person shall preserve a copy of each such report for 2 years. The Attorney General may include in the information required to be reported the following:

"(A) The quantity, form, and manner in which, and date on which, the piperidine was distributed, sold, or imported.

"(B)(i) In the case of the distribution or sale of piperidine to an individual, the name, address, and age of the individual and the type of identification presented to confirm the identity of the individual.

"(ii) In the case of the distribution or sale of piperidine to an entity other than an individual, the name and address of the entity and the name, address, and title of the individual ordering or receiving the piperidine and the type of identification presented to confirm the identity of the individual and of the entity.

"(2) Except as provided under paragraph (3), no person may distribute or sell piperidine unless the recipient or purchaser presents to the distributor or seller identification of such type, to confirm the identity of the recipient or purchaser (and any entity which the recipient or purchaser represents), as the Attorney General establishes by regulation.

"(3) Under such conditions and to such extent as the Attorney General establishes, paragraphs (1) and (2) shall not apply to—

"(A) the distribution of piperidine between agents or employees within a single facility (as defined by the Attorney General), if such agents or employees are acting in the lawful and usual course of their business or employment;

"(B) the delivery of piperidine to or by a common or contract carrier for carriage in the lawful and usual course of its business, or to or by a warehouseman for storage in the lawful, and usual course of its business; but where such carriage or storage is in connection with the distribution, sale, or importation of the piperidine to a third person, this subparagraph shall not relieve the distributor, seller, or importer from compliance with paragraph (1) or (2); or

"(C) any distribution, sale, or importation of piperidine with respect to which the Attorney General determines that the report required by paragraph (1) or the presentation of identification required by paragraph (2) is not necessary for the enforcement of this title.

"(b) Any information which is reported to or otherwise obtained by the Department of Justice under this section and which is exempt from disclosure pursuant to subsection (a) of section 552 of title 5, United States Code, by reason of subsection (b)(4) thereof shall be considered confidential and shall not be disclosed, except that such information may be disclosed to officers or employees of the United States concerned with carrying out this title or title III or when relevant in any proceeding for the enforcement of this title or title III.

"(c) For purposes of this section, section 401(d), and section 402(a)(9):

"(1) The term 'import' has the meaning given such term in section 1001(a)(1).

"(2) The term 'phencyclidine' means 1-(1-phenylcyclohexyl) piperidine, its salts, or any immediate precursor, homolog, analog, or derivative (or salt thereof) of 1-(1-phenylcyclohexyl) piperidine that is included in schedule I or II of part B of this title.

"(3) The term 'piperidine' includes its salts and acyl derivatives.".

(b)(1) Section 402(a) of such Act (21 U.S.C. 842 (a)) is amended—

(A) by striking out "or" at the end of paragraph (7);

(B) by striking out the period at the end of paragraph (8) and inserting in lieu thereof "; or"; and

(C) by adding after paragraph (8) the following new paragraph:

"(9) to distribute or sell piperidine in violation of regulations established under

section 310(a)(2), respecting presentation of identification.".

(2) Section 402(c)(2) of such Act (21 U.S.C. 842(c)(2)) is amended by adding after subparagraph (B) the following new subparagraph:

"(C) Subparagraphs (A) and (B) shall not apply to a violation of subsection (a)(5) with respect to a refusal or failure to make a report required under section 310(a) (relating to piperidine reporting).".

(3) Section 403(a)(4) of such Act (21 U.S.C. 843(a)(4) is amended—

(A) by inserting "(A)" after "(4)", and lowing: ", or (B) to present false or fraudulent identification where the person is receiving or purchasing piperidine and the person is required to present identification under section 310(a)".

(c) The table of contents of the Comprehensive Drug Abuse Prevention and Control Act of 1970 is amended—

(1) by inserting "; PIPERIDINE REPORTING" at the end of the item relating to part C, and

(2) by adding immediately after the item relating to section 309 the following new item:

"Sec. 310. Piperidine reporting.".

SEC. 203. (a)(1) Except as provided under paragraph (2), the amendments made by this title shall take effect on the date of the enactment of this Act.

(2) Any person required to submit a report under section 310(a)(1) of the Controlled Substances Act respecting a distribution, sale, or importation of piperidine during the 90 days after the date of the enactment of this Act may submit such report any time up to 97 days after such date of enactment.

(3) Until otherwise provided by the Attorney General by regulation, the information required to be reported by a person under section 310(a)(1) of the Controlled Substances Act (as added by section 202(a)(2) of this title) with respect to the person's distribution, sale, or importation of piperidine shall—

(A) be the information described in subparagraphs (A) and (B) of such section, and

(B) except as provided in paragraph (2) of this subsection, be reported not later than 7 days after the date of such distribution, sale, or importation.

(b) The Attorney General shall—

(1) first publish proposed interim regulations to carry out the requirements of section 310(a) of the Controlled Substances Act (as added by section 202(a)(2) of this title) not later than 30 days after the date of the enactment of this Act, and

(2) first promulgate final interim regulations to carry out such requirements not later than 75 days after the date of the enactment of this Act, such final interim regulations to be effective with respect to distributions, sales, and importations of piperidine on and after the ninety-first day after the date of the enactment of this Act.

(c) The Attorney General, after consultation with the Secretary of Health, Education, and Welfare, shall analyze and evaluate the impact and effectiveness of the amendments made by this title, including the impact on the illicit manufacture and use of phencyclidine and the impact of the requirements imposed by such amendments on legitimate distributions and uses of piperidine. Not later than March 1, 1980, the Attorney General shall report to the President and the Congress on such analysis and evaluation and shall include in such report such recommendations as the Attorney General deems appropriate.

(d) On January 1, 1981, section 310, subsection (d) of section 401, paragraph (9) of section 402(a), subparagraph (C) of section 402(c)(2), and clause (B) of section 403(a)(4) of the Controlled Substances Act (as added by this title) are repealed.

TITLE III—FORFEITURE OF PROCEEDS OF ILLEGAL DRUG TRANSACTIONS

SEC. 301. (a) Section 511 of the Comprehensive Drug Abuse Prevention and Control Act (21 U.S.C. 881) is amended—

(1) by adding at the end of subsection (a) the following new paragraph:

"(6) All moneys, negotiable instruments, securities, or other things of value furnished or intended to be furnished by any person in exchange for a controlled substance in violation of this title, all proceeds traceable to such an exchange, and all moneys, negotiable instruments, and securities used or intended to be used to facilitate any violation of this tile, except that no property shall be forfeited under this paragraph, to the extent of the interest of an owner, by reason of any act or omission established by that owner to have been committed or omitted without the knowledge or consent of that owner.";

(2) in subsection (e)(2) by striking out ", but the proceeds" and all that follows through "court costs"; and

(3) by adding at the end of subsection (e) the following new sentence: "The proceeds from any sale under paragraph (2) and any moneys forfeited under this title shall be used to pay all proper expenses of the proceedings for forfeiture and sale including expenses of seizure, maintenance of custody, advertising, and court costs. The Attorney General shall forward to the Treasury of the United States for deposit in the general fund of the United States Treasury any amounts of such moneys and proceeds remaining after payment of such expenses.".

(b) The second sentence of section 1015 of such Act (21 U.S.C. 965) is amended by inserting "or 511" after "510" each place it appears.

The SPEAKER pro tempore. Is a second demanded?

Mr. CARTER. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Florida (Mr. ROGERS) will be recognized for 20 minutes and the gentleman from Kentucky (Mr. CARTER) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. ROGERS).

Mr. ROGERS. Mr. Speaker, I yield myself such time as I may consume.

GENERAL LEAVE

Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the legislation under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. ROGERS. Mr. Speaker, I am pleased to present to the House for consideration the Senate amendment to the House amendment to S. 2399, the Psychotropic Substance Act of 1978 and urge all Members to join me in concurring in the Senate amendment. This amendment has been cleared on both sides of the aisle.

Mr. Speaker, on September 18 of this year, the House passed H.R. 12008, the Psychotropic Substance Act of 1978 by voice vote under suspension of the rules. As you know, that legislation amends the Comprehensive Drug Abuse Prevention and Control Act of 1970 and other laws to prescribe administrative procedures for the United States to meet its obligations under the 1971 Convention on Psychotropic Substances upon its ratification of that international agreement. The convention is an international agreement aimed at halting the illicit distribution and abuse of mind-altering substances including LSD, PCP, and other hallucinogens and tranquilizers. The United States is currently not a party to the convention although 49 other countries have ratified it or acceded to it.

Earlier this year the Senate passed S. 2399, comparable legislation to H.R. 12008 as passed by the House. In addition to the provisions of title I of the Senate-passed bill which are intended to implement the Convention on Psychotropic Substances, the Senate bill contains two additional titles not included in the House-passed bill. Title II of the Senate bill increases the penalties for violations of the controlled substances laws respecting the abusable drug, PCP and requires reporting of sales and distributions of piperidine, a chemical used in the manufacture of PCP. Title III of the Senate bill authorizes the seizure and forfeiture of moneys, negotiable instruments, securities, and other things of value furnished in exchange for illicit drugs as well as the seizure and forfeiture of proceeds of such drug transactions.

During the past 3 weeks, I, joined by other members of the Interstate and Foreign Commerce Committee and the Select Committee on Narcotics Abuse and Control, have been consulting with Members of the Senate responsible for these additional provisions in the Senate bill. We agreed with the general intent of these provisions but differed in some respects with the manner in which this intent was to be carried out. We have resolved those differences in language which is embodied in a Senate amendment which passed the Senate on October 7 after the Senate agreed to the language of the House amendment for the implementation of the Convention on Psychotropic Substances.

Title II of the Senate amendment which is now before the House differs from the comparable provision in the original Senate-passed bill in several respects. First, the amendment is designed to provide the Attorney General with greater flexibility in administering its piperidine transaction reporting requirements. He may exempt piperidine transactions from all or part of its reporting requirements and he may prescribe different reporting frequencies for different types of piperidine sale and distributions as he deems appropriate for the administration and enforcement of its provisions.

Second, the Senate amendment revises the provisions of the Senate-passed bill, which prohibits certain transfers of piperidine, to more specifically delineate the prohibited conduct involving the possession of piperidine in relationship to its illicit use in the manufacture of PCP, distinguished from its possession for legitimate purposes. Specially, the Senate

amendment prohibits the knowing or intentional possession of piperidine by a person with the intent to unlawfully manufacture PCP or having reasonable cause to believe that piperidine will be used to unlawfully manufacture PCP.

Third, it revises the procedural provisions of the Senate-passed version to assure that trade secrets and confidential business information are protected in accordance with the exemptions from disclosure of such information under the Freedom of Information Act. It also revises the procedures for providing that the piperidine reporting requirements are self-executing upon the date of enactment and for assuring that interim and final regulations are promulgated within a specific time period and in accordance with administrative procedures guaranteeing an opportunity for interested parties to have input in the early stages of the rulemaking process.

The Senate amendment revises the 3-year sunset provisions in the Senate-passed bill to a 2-year sunset of its provisions pertaining to piperidine reporting and related sanctions respecting the illicit possession of piperidine and the failure to file or improper filing of reports of piperidine transactions.

Finally, it requires the Attorney General's report to the President and Congress on the effectiveness of the piperidine reporting requirements to be prepared after consultation with the Secretary of Health, Education, and Welfare. It requires the report to include an assessment of the impact of the reporting requirements on the illicit use of PCP in addition to the provision of the Senate-passed bill which requires an assessment of the impact of those requirements on the illicit manufacture of PCP. The report is also required to assess the impact of the reporting requirements on legitimate distributions and uses of piperidine.

Mr. Speaker, I wholeheartedly support the revised version of title II of the Senate amendment which is intended to help stem the rapid increase in the abuse of PCP. Testimony at several hearings held by the House Select Committee on Narcotics Abuse and Control, the Senate Judiciary Committee's Subcommittee on Juvenile Delinquency, and our Subcommittee on Health and the Environment have established that the abuse of PCP is a serious and growing problem in the United States, especially among the youth. The National Institute on Drug Abuse, NIDA, estimated that approximately 7 million young people have used PCP during the past 5 years. A study of PCP use supported by NIDA and based on a 1976–77 survey of 2,750 youthful drug abuse clients representing 97 drug abuse treatment programs, reported that over 31 percent of the subjects reported current or past use of this drug. The data of this study suggested that PCP users tend to be multiple substance users who, on the average, take twice as many different substances as other youthful drug users, that half of the PCP users reported using the drug one or more times weekly over the course of a 3-month period, and that PCP users were more likely than non-PCP users to report difficulties involving toxic reactions, self destructive acts, and prior treatment episodes.

In addition, recent data collected by NIDA and the Drug Enforcement Administration, DEA, indicates a dramatic increase in PCP use. Emergency room reports of the drug abuse warning network, DAWN, system show a major increase in injuries or problems relating to the use of PCP alone, or in combination with other drugs, during the last 2 years. These PCP reports increased from 795 in 1975 to 3,069 in 1977. Although the Drug Enforcement Administration is currently reviewing the 1975 reports of PCP use, because it believes they may have been understated, NIDA officials still estimate the increase in PCP use at 100 percent during the last 2 years and indicate that this trend shows no signs of diminishing. Between 1975 and 1977 deaths from PCP have increased about 60 percent—from 22 in 1975 to 36 in 1977. Of all deaths in 1975 from hallucinogens, 76 percent involved the use of PCP. In 1977, 97 percent of all such deaths involved the use of PCP. Although the number of deaths from PCP does not currently comprise a substantial portion of total drug-related deaths in the United States, there is still reason for serious concern, because unlike most other frequently abused substances, its use can cause death.

Mr. Speaker, I am optimistic that the increased penalties and reporting requirements embodied by the Senate amendment will be effective in reducing the illicit manufacture and use of PCP. The study on the effectiveness of these requirements and the 2-year sunset provisions on these requirements will assure appropriate and timely administrative and legislative review of their effectiveness before the end of the next Congress. I sincerely hope they help curb or significantly reduce the abuse of this extremely dangerous and unpredictable drug.

Title III of the Senate amendment which is now before the House also differs from the original Senate-passed version in several respects.

First, it provides for the seizure and forfeiture of moneys, negotiable instruments and securities if they are used or intended to be used to facilitate any violation of controlled substances laws not just those violations involving an illegal exchange of controlled substances. It also makes minor clarifying changes in the provisions of the Senate-passed bill respecting the seizure and forfeiture of moneys and property furnished or intended to be furnished in exchange for illicit controlled substances and of the proceeds traceable to such exchanges.

Second, it expands the rights of innocent parties who own or have an interest recognized by the law in the seized property, to assert their claim in court to the extent of their interest in that property by establishing that the illicit use of the property was without their knowledge or consent.

Finally, it provides that moneys forfeited or derived from the sale of forfeited property shall be used to pay all proper expenses of the Government involved in proceedings for forfeiture and sale of this property in accordance with and in same manner as moneys derived from the sale of forfeited vessels, aircraft, and vehicles used in transporting illegal drugs, are now disposed under existing law. The Senate amendment further provides that amounts of such moneys and proceeds remaining after payment of these expenses must be forwarded for deposit in the general fund of the U.S. Treasury.

The purpose of title III of the Senate amendment is to provide Federal drug law enforcement officials with the ability to strike at the profits of illicit trafficking abusable controlled substances. The Drug Enforcement Administration estimates that the value of the illicit drugs sold in the United States each year ranges between $18 to $20 billion. Under current law, however, money or property bartered in exchange for illicit drugs or used to facilitate drug law violations must be returned to the individuals arrested and convicted of these violations. Existing law, however, provides for the seizure and forfeiture of illicit drugs and raw materials and equipment used to manufacture or deliver illicit drugs, vessels, aircraft, and vehicles used to facilitate the transportation, sale, receipt, possession, or concealment of such illicit drugs, and certain written or graphic materials used in violation of the controlled substance laws. It is, therefore, appropriate to extend the seizure and forfeiture laws to include monetary and other property forms used in illegal drug transactions.

Mr. Speaker, I want to take this opportunity to thank the Chairman of the full Committee, Mr. STAGGERS, for his support of this legislation aimed at curbing drug trafficking. I particularly want to thank the distinguished ranking minority member of the subcommittee, Dr. Carter, for his leadership and efforts in bringing the legislation to the floor of the House and all the other members of the Subcommittee on Health and the Environment—Mr. SATTERFIELD, Mr. PREYER, Mr. SCHEUER, Mr. FLORIO, Mr. MAGUIRE, Mr. MARKEY, Mr. WALGREN, Mr. BROYHILL, Mr. MADIGAN, and Mr. SKUBITZ—for their work on the legislation. I want to give special thanks to Chairman WOLFF, Mr. GILMAN, and the other members of the Select Committee on Narcotics Abuse and Control who have assisted our committee by holding hearings on PCP abuse and by helping in the formulation of this legislation. Finally, I want to thank and commend Senators CULVER, BENTSEN, NUNN, BAYH, MATHIAS, WALLOP, and many other Members of the Senate for their leadership and cooperation in formulating this amendment.

I believe passage of the Senate amendment and ratification of the Convention on Psychotropic Substances by the United States is vital to our efforts aimed at controlling the trafficking and abuse of dangerous drugs at home and abroad. The President has requested us to enact titles I and III of this legislation in his message to Congress on drug abuse and his White House Domestic Council and Office of Management and Budget Advisors, Secretary Califano, Attorney

General Bell, and Secretary Vance unanimously support all the provisions of the Senate amendment. I want to thank the heads and staff members of the following offices and agencies for their assistance on this legislation: The Office of Drug Abuse Policy and Domestic Policy Staff of the White House, the Drug Enforcement Administration of the Justice Department, the National Institute on Drug Abuse and the Food and Drug Administration of the Department of Health, Education, and Welfare and the Office of International Narcotic Control Matters of the State Department.

In conclusion, Mr. Speaker, I urge all Members of the House to join me in support of and concurrance with the Senate amendment which will provide the United States with strong new domestic and international controls over the illicit trafficking and abuse of drugs.

Mr. Speaker, I include the joint House-Senate explanation of the Senate amendment be printed at this point in the RECORD:

JOINT HOUSE-SENATE EXPLANATION OF SENATE AMENDMENT

TITLE II—PCP CRIMINAL PENALTIES AND PIPERIDINE REPORTING

Section 201 of the Senate amendment amends section 401(b) of the Controlled Substances Act (21 U.S.C. 841(b)) to increase the penalties for unlawfully manufacturing, distributing, or dispensing phencyclidine (PCP) and the penalties for possessing phencyclidine with the intent to unlawfully manufacture, distribute or dispense it. Specifically, it increases the current maximum penalty of five years imprisonment and/or a $15,000 fine to a maximum penalty of ten years imprisonment and/or a fine of $25,000. Similarly, it increases the current penalty for any person who has previously been convicted of a felony offense under Federal drug laws from a maximum of ten years imprisonment and/or a $30,000 fine to a maximum of twenty years imprisonment and/or a $50,000 fine.

The increases in the penalties for offenses involving the unlawful distribution of PCP are intended to respond to the alarming increase in the illicit availability and abuse of this harmful substance. Although legislating penalties on a substance-by-substance basis presents some practical difficulties particularly as once-popular abusable drugs become obsolete as the drug of choice of abusers and new "fad drugs" appear on the scene, penalties for illicit distribution of PCP warrant special attention because it can be extremely harmful to humans and because it can be easily manufactured. It is recognized that ultimately the penalties for offenses involving the illicit distribution of all non-narcotic drugs in Schedules I and II of the Controlled Substances Act should be increased to make them comparable to those for narcotic drugs in Schedules I and II of the Act. It is well recognized that some psychotropic drugs can be as harmful and as subject to abuse as narcotic drugs.

Section 201 also imposes a special parole term of at least two years on any person sentenced to a term of imprisonment under section 401(b) of the Act for unlawfully manufacturing, distributing, dispensing or possessing phencyclidine. In the case of any person who has previously been convicted of a felony offense under Federal drug laws, it increases the special parole term to a minimum of four years.

For the purpose of section 401(b) of the Controlled Substances Act the term "phencyclidine" includes any salt, immediate precursor, homolog, analog or derivative (or salt thereof) of phencyclidine that is included by legislation or regulation in Schedule I or II of the Act.

Section 201 of the Senate amendment provides that it is unlawful for any person to knowingly or intentionally (1) possess piperidine (a chemical used in making phencyclidine) with intent to unlawfully manufacture phencyclidine or (2) possess piperidine, knowing or having reasonable cause to believe that the piperidine will be used to unlawfully manufacture phencyclidine. It provides a penalty for these violations of a term of imprisonment of up to five years and/or a fine of up to $15,000.

Section 202 of the Senate amendment adds a new section 310 to the Controlled Substances Act. This new section establishes the requirement that anyone who distributes, sells or imports piperidine (a chemical used in making phencyclidine) must report such transactions to the Attorney General. It should be emphasized, however, that this new section is solely intended to establish a reporting system for piperidine transactions. It is not intended as a new regulatory system or as an expansion of the Controlled Substances Act to cover precursor substances beyond those now covered. It is rather intended to be implemented as a pilot program to study and determine whether it can be effective in reducing the illicit manufacture, distribution, and use of PCP.

Specifically, proposed new subsection 310(a)(1) of the Act requires any person who distributes, sells or imports piperidine to report information respecting these transactions to the Attorney General in such form and manner as the Attorney General may require. It specifies that this information may include

—the quantity, form, date, and manner in which the piperidine was distributed, sold, or imported; and

—the name, address, age, title and identification presented by the individuals and/or entities involved in the transactions.

It is the intent of these provisions to reach only that information that is necessary to prevent the illicit diversion of piperidine and to enforce other provisions of the Act. Since this information will vary greatly depending on the transaction, the Attorney General is authorized to add or subtract from this list.

Proposed new subsection 310(a)(1) of the Act also permits the Attorney General to vary the time period or periods in which these transactions are required to be reported. Thus, the Attorney General may set one time period for reporting transactions that are not likely to result in illicit diversion and a shorter time period for other transactions. In no event, however, is the Attorney General authorized to require reports under subsection 310(a)(1) to be submitted within a period of less than seven days. Of course, the parties to these transactions may voluntarily file their reports in less than seven days, and in fact they are encouraged to do so.

Proposed new subsection 310(a)(2) of the Act prohibits any person from distributing or selling piperidine to another unless the recipient or purchaser presents to the distributor or seller such identification as the Attorney General may require. Once again, the Attorney General is authorized to require different types of identification for different transactions depending upon the parties and entities involved, the form of the transaction, and the likelihood of any illicit diversion of piperidine.

Since this legislation is not intended to place any undue burden on legitimate uses of piperidine, proposed new subsection 310(a)(3) of the Act requires the Attorney General to exempt certain transactions in piperdine from all or part of the reporting requirements in subsection 310(a)(1) and the identification requirements in subsection 310(a)(2). Specifically, it requires the Attorney General to exempt, under such conditions and to such extent as he may require—

(1) transactions in piperidine which he determines do not need to be reported for the enforcement of section 310.

(2) distributions of piperidine between agents or employees within a single facility if the agents or employees are acting in the lawful and usual course of their business or employment; and

(3) deliveries of piperidine to or by common or contract carriers or warehousemen in the lawful and usual course of their business or employment.

Proposed new subsection 310(b) of the Act places certain restrictions on the disclosure of information that is reported to or otherwise obtained by the Department of Justice under that section to assure its confidentiality. Specifically, the new subsection provides that any trade secrets or confidential commercial or financial information that is exempt from disclosure under 5 U.S.C. 552(a)(b)(4) shall be considered confidential and shall not be disclosed. The only exceptions to this rule are disclosure of this information—

(1) to officers and employees of the United States concerned with carrying out the Controlled Substances Act and the Controlled Substances Import and Export Act; and

(2) when relevant in any enforcement proceedings under the Controlled Substances Act or the Controlled Substances Import and Export Act.

Under section 1905 of Title 18 of the United States Code any disclosure of trade secrets or certain confidential commercial or financial data by an officer or employee of the United States that is not authorized by law is punishable by a maximum fine of $1,000 and/or a maximum term of imprisonment of one year and loss of his office and employment.

In implementing this section it should be remembered that there are relatively few manufacturers, distributors and users of piperidine in the United States. Therefore the Attorney General is instructed to take particular care not to reveal proprietary commercial information which individually or cumulatively, would cause substantial harm to the competitive position of such parties. Such proprietary information would include inter alia, customer lists, price lists, and respective market shares.

Proposed new subsection 310(c) of the Act defines several terms. First, it defines "piperidine" to include any salts or acyl derivatives of piperidine. It also defines "phencyclidine" to include any salts, immediate precursors, homologs, analogs, or derivatives (or salts thereof) of phencyclidine that are included (by legislation or regulation) in Schedule I or II of the Controlled Substances Act.

Subsection 202(b)(1) of the Senate amendment amends section 402 of the Controlled Substances Act (21 U.S.C. 842) to provide penalties for violations of reporting and identification requirements in proposed new section 310(a) of the Act. Specifically it provides that anyone who distributes, sells or imports piperidine in violation of section 310(a) is subject to a maximum civil penalty of $25,000.

Subsection 202(b)(2) of the Senate amendment amends section 403 to provide criminal penalties for the knowing and intentional presentation of false or fraudulent identification by any person receiving or purchasing piperidine. It provides a penalty for such violations of a maximum term of imprisonment of four years and/or a maximum fine of $30,000. It should also be noted that the existing language in section 403(a)(4) would apply similar penalties to anyone who knowingly and intentionally furnished false or fraudulent material information in/or omits such information from, any applica-

tion, report, record, or sales document required to be made, kept, or filed under proposed section 310.

Section 203 of the Senate amendment establishes a mechanism for implementing the piperidine reporting requirements prior to the promulgation of final regulations by the Attorney General. Specifically section 203(a)(1) provides that the amendments made by Title II of the Senate amendment shall take effect on the date of enactment. Under the provisions of section 203(a)(2), however, anyone required to submit a report on a piperidine transaction during the first 90 days after enactment is not required to submit these reports until 97 days after enactment. Of course, these transactions could be reported at an earlier date on a voluntary basis. Under subsection 203(a)(3), all reports are required to contain the quantity, form, date and manner in which the piperidine was distributed, sold, or exported and the type of identification used to confirm the identity of any person and entities that purchase or receive the piperidine.

In order to assure that the Attorney General has promulgated regulations to govern transactions in piperidine at the end of this ninety day period, subsection 203(b) of the Senate amendment requires him to promulgate proposed interim regulations not later than 30 days after the date of enactment. After a suitable comment period, it requires him to promulgate final interim regulations not later than 75 days after the date of enactment, and provides that these final interim regulations shall take effect on the ninety-first day after enactment.

It is intended that the Attorney General will proceed to promulgate final regulations to govern transactions in piperidine in accordance with all of the requirements of the Administrative Procedures Act and applicable Executive Orders. Whenever these final regulations take effect, they should supercede the final interim regulations promulgated under subsection 203(b)(2).

Subsection 203(c) of the Senate amendment requires the Attorney General, after consulting with the Secretary of Health, Education and Welfare, to analyze and evaluate the impact and the effectiveness of the amendments made by Title II of the Senate amendment. This analysis and evaluation specifically includes the impact of the reporting requirements on the illicit manufacture and use of phencyclidine and on legitimate use of piperidine. It requires the Attorney General, not later than March 1, 1980, to submit a report to the President and the Congress containing this analysis and evaluation and any recommendations he deems appropriate.

Subsection 203(d) of the Senate amendment contains a two-year "sunset" provision which provides that all of Title II except for the provisions respecting increased criminal penalties for the illicit manufacture, distribution, dispensing or possession of phencyclidine, shall be repealed on January 1, 1981, unless Congress enacts legislation to continue such provisions before that date. This provision reflects the view that Title II of the Senate amendment is intended to be implemented as a pilot program to study and determine whether the reporting of chemical precursors of a controlled substance can be effective in reducing the illicit manufacture, distribution and use of that controlled substance.

TITLE III—FORFEITURE OF PROCEEDS OF ILLEGAL DRUG TRANSACTIONS

Section 301 of the Senate amendment amends section 511 of the Controlled Substances Act (21 U.S.C. 1881), which currently provides for the forfeiture of certain types of property if such property is used, or intended for use, in the manufacture or distribution of illegal drugs or used or intended to be used to facilitate certain violations of the Act. The types of property covered under the current law includes illicit abusable drugs, raw materials and equipment used in manufacturing such drugs, property used to contain or conceal such drugs, vehicles used to facilitate the transportation of such drugs, and any records, books, or formulas used in violation of Federal illicit drug laws.

The Senate amendment expands section 511 of the Act to provide for the forfeiture of the following additional types of property:

(1) All monies, negotiable instruments, securities, or other things of value furnished or intended to be furnished by any person in exchange for illicit controlled substances,

(2) All proceeds traceable to such an exchange for illicit controlled substances, and

(3) All monies, negotiable instruments, and securities used or intended to be used to facilitate any controlled substance law violations.

Due to the penal nature of forfeiture statutes, it is the intent of these provisions that property would be forfeited only if there is a substantial connection between the property and the underlying criminal activity which the statute seeks to prevent. Specifically, the Senate amendment provides for the forfeiture of property exchange or intended to be exchanged in an illegal drug transaction. In addition it provides for forfeiture of property which is the proceeds of an illegal drug transaction only if there is a traceable connection between such property and the illegal exchange of controlled substances. Thus if such proceeds were, for example, comingled with other assets, involved in intervening legitimate transactions, or otherwise changed in form; they would still be subject to forfeiture, but only to the extent that it could be shown that a traceable connection to an illegal transaction in controlled substances existed. Similarly, any moneys, negotiable instruments, or securities that were used or intended to be used to facilitate any violation of the Controlled Substances Act would be forfeitable only if they had some substantial connection to, or were instrumental in, the commission of the underlying criminal activity which the statute seeks to prevent.

Finally it should be pointed out that no property would be forfeited under the Senate amendment to the extent of the interest of any innocent owner of such property. The term "owner" should be broadly interpreted to include any person with a recognizable legal or equitable interest in the property seized. Specifically the property would not be subject to forfeiture unless the owner of such property knew or consented to the fact that:

1. the property was furnished or intended to be furnished in exchange for a controlled substance in violation of law,

2. the property was proceeds traceable to such an illegal exchange, or

3. the property was used or intended to be used to facilitate any violation of Federal illicit drug laws.

The Senate amendment also provides that any monies forfeited under the Controlled Substances laws and the proceeds from any sale of property forfeited under these laws shall be used to pay all proper expenses of the proceedings for forfeiture and sale including expenses of seizure, maintenance of custody, advertising, and court costs in the same manner as currently required for proceeds from the sale of other forfeited property under section 511 of the Act. Any amounts of such monies or proceeds remaining after the payment of such expenses are required to be forwarded to the Treasurer of the United States for deposit in the general fund of the United States Treasury.

Subsection 301(b) of the Senate amendment amends section 1015 of the Controlled Substance Import and Export Act (21 U.S.C. 905) to provide further clarification that section 511 of the Controlled Substances Act is applicable to forfeitures for violations of the Controlled Substances Import and Export Act.

Mr. STAGGERS. Mr. Speaker, I am pleased to move that the House concur in the Senate amendment to the House amendment to S. 2399, the Psychotropic Substance Act of 1978 and urge all Members to join me in supporting it.

Mr. Speaker, earlier this year, the House passed H.R. 12008, the Psychotropic Substance Act of 1978 by voice vote under suspension of the rules. That legislation amends Federal drug control laws to prescribe administrative procedures for the United States to meet the requirements of the International Convention on Psychotropic Substances. The convention is a treaty aimed at halting the illicit distribution and abuse of dangerous mind-altering drugs such as LSD and PCP. Our Nation, is currently not a party to that treaty although 49 other countries have ratified it. The United States is, however, a party to several treaties for the control of narcotics drugs.

Earlier this year the Senate passed similar legislation to the psychotropic substances bill which passed the House. The Senate bill also contained two additional titles not included in the House-passed bill. Title II of the Senate bill increases the penalties for violations of drug laws involving the illegal possession and distribution of PCP. It also requires the reporting of transactions involving a chemical used in the manufacture of PCP. Title III of the Senate bill provides for the seizure and forfeiture of moneys, securities, and other things of value furnished in exchange for illicit drugs.

During the past 3 weeks, the members of our committee have consulted with Members of the Senate who worked on the Senate bill. We agreed with the general intent of their provisions except for some revisions. Those revisions are included in the Senate amendment now before the House. The Senate agreed to the language of the psychotropic substances legislation which was reported by our committee.

Mr. Speaker, title II of the Senate amendment is intended to help stem the rapid increase in the abuse of PCP. Testimony at hearings held by our committee established that the abuse of PCP is a serious problem among the youth of our Nation. The National Institute on Drug Abuse estimated that approximately 7 million young people have used PCP during the past 5 years. In addition, recent data collected by the Drug Enforcement Administration from emergency rooms across the country indicate a dramatic increase in PCP related injuries. Drug treatment officials estimate the increase in PCP use at 100 percent during the last 2 years and indicate that this trend shows no signs of diminishing.

In addition, deaths from PCP have increased about 60 percent between 1975 and 1977. These figures are cause for serious concern because the use of PCP can cause injury and death.

Mr. Speaker, I believe the Senate amendment will help curb the illegal manufacture and abuse of this dangerous drugs and urge Members to support it.

In addition, the Senate amendment will enable the Drug Enforcement Administration to strike at the profits of illicit drug trafficking. The Drug Enforcement Administration estimates that the value of the illicit drugs sold in the United States each year ranges between $18 to $20 billion. Currently, the DEA cannot seize moneys used in illegal drug transactions or seize the proceeds of those transactions.

I believe passage of the Senate amendment and ratification of the convention on psychotropic substances by our Nation is vital to our efforts aimed at controlling the trafficking and abuse of dangerous drugs at home and abroad. The President and the Federal agencies all support this legislation as do minority leaders of the committee.

Therefore, Mr. Speaker, I urge the House to concur in this Senate amendment aimed at the illicit trafficking and abuse of drugs.

Mr. CARTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the other body has amended the House amendment to the Psychotropic Substances Act of 1978 with three provisions which I believe are worthy of our support.

First, the Senate has proposed new penalties for trafficking in phencylidine, called PCP for "angel dust." Specifically, the current maximum penalty of 5 years imprisonment and/or a $15,000 fine is increased to a maximum penalty of 10 years imprisonment and/or a $25,000 fine for trafficking, or possession with intent to traffic.

The Senate has also proposed to impose reporting requirements on businesses which distribute, sell, or import piperidine—the major chemical used in formulating PCP. The provision gives the Attorney General the power to waive the reporting requirements so that legitimate businesses will not have unnecessary reports required of them.

Finally, the Senate amendment expands section 511 of the Controlled Substances Act to require the forfeiture of all moneys or other things of value which are substantially connected to a criminal violation of our drug control laws. In other words, Mr. Speaker, the Senate amendment simply requires the drug pusher to give up his ill-gotten gains.

I strongly believe that the House should support these beneficial additions to the Controlled Substances Act. Let me point out to my colleagues that the use of PCP in this country in recent years has been truly alarming. In fact, some drug abuse experts term PCP our No. 1 drug abuse problem. An estimated 7 million individuals between the ages of 12 and 25 have reportedly used PCP a drug which can cause unpredictable behavior, irrational, and violent actions, delusions of grandeur and persecution, distorted perceptions, and catatonic rigidity. This drug can even cause death.

Moreover, this drug is extremely easy to manufacture, and is often produced in basement laboratories for very little money. Mr. Speaker, the problems we face in controlling the abuse of this dangerous drug are serious, and that is why I would urge my colleagues to support this Senate amendment.

● Mr. GILMAN. Mr. Speaker, I rise in support of S. 2399, the Psychotropic Substances Act of 1978 whose fourfold purpose: First, would conform U.S. law to administratively implement the 1971 Convention on Psychotropic Substances which this Nation has signed but has not ratified; second, would increase the maximum penalties under the Comprehensive Drug Abuse Prevention and Control Act of 1970 for the unlawful manufacture, distribution, or dispensing of phencyclidine, commonly known as PCP or "angel dust," from 5 years and/or a $15,000 fine to 10 years and/or a $25,000 fine; third, would establish a reporting mechanism to monitor the distribution, sale or importation of piperidine, the major ingredient in the manufacture of PCP, the most dangerous hallucinatory drug on the market to date; and fourth, would require the forfeiture of the proceeds of illegal drug transactions.

I commend the distinguished chairman of the Subcommittee on Health and the Environment, the gentleman from Florida (Mr. ROGERS), whose dedication on this and other related issues will be missed in the 96th Congress, and the ranking minority member of the subcommittee, the gentleman from Kentucky (Mr. CARTER), as well as the distinguished chairman of the parent committee—the Interstate and Foreign Commerce Committee—the gentleman from West Virginia (Mr. STAGGERS), and the ranking minority member, the gentleman from Ohio (Mr. DIVINE) for their leadership in bringing this important measure before the House today. I also commend Senators CULVER, BENTSEN, HATHAWAY, and NUNN for their leadership in obtaining support for this measure that unanimously passed the Senate on October 7, 1978.

Mr. Speaker, S. 2399 is not a controversial measure. Rather it is designed to regulate the unlawful manufacture or sale of the most dangerous drug on the market to date and an hallucinatory drug that is so widely used by our Nation's youth. This measure has been carefully studied by the House Subcommittee on Health and the Environment. The House Select Committee on Narcotics Abuse and Control, of which I am a member, held extensive hearings on PCP abuse as did the Senate Subcommittee on Juvenile Delinquency (chaired by Senator CULVER) and the Senate Subcommittee on Alcoholism and Drug Abuse (chaired by Senator HATHAWAY). And I have had the opportunity to assist in formulating this legislative proposal which I believe is a step in the right direction to regulate the unlawful trafficking of PCP.

After listening to the abundant testimony that was presented to the Narcotics Select Committee, I am still puzzled why so many of our Nation's youth—an estimated 7 million, mostly between the ages of 12 and 15—escape into this debilitating drug whose unpredictable reactions can induce psychotic-schizophrenic behavior that last year sent a reported 4,000 users to hospital emergency rooms and was responsible for an untold number of bizarre suicides, homicides, and self-inflicted injuries.

Mr. Speaker, I urge my colleagues to support this important measure. It regulates the unlawful manufacture and distribution of PCP, and requires those who distribute, sell, or import piperidine to report such information to the Attorney General. This measure strikes at the coffers of the traffickers of this deadly drug by requiring the forfeiture of the proceeds from illicit drug transactions. It is urgently needed if this Nation is to regulate the king cobra of hallucinatory drugs.●

● Mr. WOLFF. Mr. Speaker, I rise in support of S. 2399, the Psychotropic Substances Act. I commend the distinguished chairman of the Health Subcommittee for his tireless efforts in working on this legislation and bringing it to the floor before the end of the session.

The Psychotropic Substances Act is an extremely important piece of legislation. Title I conforms U.S. law to meet the requirements of the Convention on Psychotropic Substances which will enable the United States to become a party to that document. There is no question that illicit trafficking in psychotropic drugs is the greatest single drug abuse problem in the United States today. Title I will bring these drugs under closer international scrutiny and should be significant in reducing the diversion of these drugs into illicit channels.

Title II of this bill addresses the pressing matter of the newly popular drug phencyclidine—known on the streets as PCP. The Select Committee on Narcotics Abuse and Control, which I have the privilege to chair, recently held hearings on this dangerous drug. Not only does this title increase criminal penalties for the unlawful possession of PCP, but it establishes a reporting mechanism designed to monitor the distribution of piperidine—the key ingredient in manufacturing PCP. I believe this to be a crucial part of this bill.

Title III of the bill amends the Controlled Substances Act to expand the forfeiture provisions to include moneys, negotiable instruments, and securities used or intended to be used for the purchase of illicit drugs. In addition, and perhaps more importantly, title III subjects to forfeiture the traceable proceeds of illegal drug transactions. This provision, which is almost identical to a legislative recommendation of the Select Committee, is an extremely important weapon against the financial backers of illegal drug trafficking since it reaches them where it hurts the most. No longer will the big-money men of illegal drugs be able to hide their ill-gotten profits with impunity.

This legislation is critical if we are to continue to fight the war against drugs. I cannot too strongly urge my colleagues to support and approve this bill.●

Mr. ROGERS. Mr. Speaker, I have no further requests for time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. ROGERS) that the House suspend the rules and concur in the Senate amendments to the House amendment to the Senate bill, S. 2399, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the Senate amendments to the House amendment

to the Senate bill, as amended, were concurred in.

A motion to reconsider was laid on the table.

RAILWAY SAFETY AUTHORIZATIONS

Mr. ROONEY. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 12577) to amend the Federal Railroad Safety Act of 1970 to authorize additional appropriations, and for other purposes, as amended.

The Clerk read as follows:

H.R. 12577

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SHORT TITLE

SECTION 1. This Act may be cited as the "Federal Railroad Safety Authorization Act of 1978".

AUTHORIZATION FOR APPROPRIATIONS

SEC. 2. Section 212 of the Federal Railroad Safety Act of 1970 (45 U.S.C. 441) is amended to read as follows:

"SEC. 212. AUTHORIZATION FOR APPROPRIATIONS

"(a) There are authorized to be appropriated to carry out the provisions of this Act not to exceed $37,725,000 for the fiscal year ending September 30, 1979, and not to exceed $37,725,000 for the fiscal year ending September 30, 1980.

"(b) The amounts appropriated under subsection (a) of this section for a fiscal year shall be available for expenditure in such fiscal year as follows:

"(1) For the Office of Safety, including salaries and expenses for not more than (A) 600 safety inspectors, (B) 45 signal and train control inspectors, and (C) 125 clerical personnel, not to exceed $20,725,000. Such funds shall be available for travel expenses of safety inspectors for not less than 20 days per month.

"(2) To carry out the provisions of section 206(d) of this Act, relating to State safety programs, not to exceed $3,500,000.

"(3) For the Federal Railroad Administration, for salaries and expenses not otherwise provided for, not to exceed $3,500,000.

"(4) For conducting safety research and development activities under this Act, not to exceed $10,000,000.

Sums appropriated under this section for research and development, automated track inspection, and the State safety grant program are authorized to remain available until expended.".

LIMITATIONS ON FUNDING

SEC. 3. Not less than 50 percent of the funds appropriated to the Secretary of Transportation for any fiscal year to conduct railroad research and development programs under the Federal Railroad Safety Act of 1970 or any other Act shall be available for safety research, improved track inspection and data acquisition technology, improved rail freight service, and improved rail passenger systems.

HOURS OF SERVICE OF SIGNAL SYSTEM EMPLOYEES

SEC. 4. (a) Section 3A(a) of the Hours of Service Act (45 U.S.C. 63a(a)) is amended by adding at the end thereof, without paragraph indention, the following:

"Whenever the time on duty of an individual is broken or interrupted by any period of time off duty of less than eight consecutive hours, such individual may be on duty for not more than twelve hours during a twenty-four-hour period, if such individual has had at least eight consecutive hours off duty immediately before reporting for duty, or, where required by paragraph (1) of this subsection, at least ten consecutive hours off duty immediately before so reporting. After an individual has been on duty for a total of twelve hours during a period of twenty-four hours as permitted by the foregoing sentence, or at the end of such twenty-four-hour period, whichever occurs first, such individual shall not be required or permitted to continue on duty or to go on duty until he has had at least eight consecutive hours off duty. For purposes of this subsection, a twenty-four-hour period shall begin when an individual reports for duty immediately after he has had at least eight consecutive hours off duty or, where required by paragraph (1) of this subsection, at least ten consecutive hours off duty.".

(b) Section 3A(c) of the Hours of Service Act (45 U.S.C. 63a(c)) is amended to read as follows:

"(c) For purposes of this section, time on duty shall commence when an individual reports for duty and terminate when an individual is finally released from duty, except that—

"(1) time spent in travel on return from a trouble call, whether directly to the individual's residence or by way of the individual's headquarters, shall be considered neither time on duty nor time off duty, except that up to sixty minutes of such time on return from the final trouble call of a period of continuous or broken service shall be considered time off duty;

"(2) if, at the expiration of scheduled duty hours, an individual has not completed the trip from the final outlying worksite of the duty period to the individual's headquarters or from the final outlying worksite directly to the individual's residence, then the time spent in travel outside the scheduled duty hours which is required to complete the trip to such headquarters or directly to such residence, as the case may be, shall be considered neither time on duty nor time off duty;

"(3) if an individual is released from duty at an outlying worksite prior to the end of such individual's scheduled duty hours in order to comply with this section, the period of time required for the trip from the outlying worksite to the individual's headquarters, or the period of time required for the trip from the outlying worksite direct to the individual's residence, as the case may be, shall be considered neither time on duty nor time off duty;

"(4) all time spent in transportation on an ontrack vehicle, including time referred to in paragraphs (1), (2), and (3) of this subsection, shall be considered time on duty; and

"(5)(A) regularly scheduled meal periods and other release periods of thirty minutes or more up to sixty minutes shall be considered time off duty but shall not break an individual's continuity of service for purposes of this section, and (B) release periods of more than one hour shall be considered time off duty and shall break an individual's continuity of service for purposes of this section.".

(c) The amendments made by this section shall be effective as of July 8, 1976, except that no action or conduct which occurred during the period beginning on such date and ending on the date of enactment of this Act and which was lawful under the Hours of Service Act as in effect on July 8, 1976, shall be deemed to be unlawful under such Act as amended by this Act.

HOURS OF SERVICE ACT; INTERSTATE COMMERCE REQUIREMENT

SEC. 5. Subsection (a) of the first section of the Hours of Service Act (45 U.S.C. 61(a)) is amended to read as follows: "(a) this Act shall apply to any common carrier engaged in interstate or foreign commerce by railroad.".

DESIGNATED TERMINAL

SEC. 6. Subsection (b) of the first section of the Hours of Service Act (45 U.S.C. 61(b)) is amended by adding at the end thereof the following new paragraph:

"(4) The term 'designated terminal' means the home terminal and the away from home terminal for the assignment of a particular crew. Time on duty shall not include interim rest periods of four or more hours between designated terminals where the employee is prevented from reaching his or her designated terminal by act of God, track obstruction, casualty, derailment or major disabling equipment failure, which derailment or disabling equipment failure was the result of a cause not known to the carrier or its officer or agent in charge of the employee at the time such employee left the designated terminal, and which could not have been foreseen, and only then at a place where suitable facilities for food and lodging are available.".

ASSESSMENT OF PENALTIES

SEC. 7. (a) Section 6 of the Act of March 2, 1893 (45 U.S.C. 6) is amended by inserting "assessed by the Secretary of Transportation and" immediately after "shall be liable to a penalty of not less than $250 and not more than $2,500 for each and every such violation, to be".

(b) Section 4 of the Act of April 14, 1910 (45 U.S.C. 13) is amended by inserting "assessed by the Secretary of Transportation and" immediately after "shall be liable to a penalty of not less than $250 and not more than $2,500 for each and every such violation, to be".

(c) Section 9 of the Act of February 17, 1911 (45 U.S.C. 34) is amended by inserting "assessed by the Secretary of Transportation and" immediately after "shall be liable to a penalty of not less than $250 and not more than $2,500 for each and every such violation, to be".

(d) Section 25(h) of part I of the Interstate Commerce Act (49 U.S.C. 26(h)), is amended by inserting "assessed by the Secretary of Transportation and" immediately after "shall be liable to a penalty of not less than $250 and not more than $2,500 for each and every day such violation, refusal, or neglect continues, to be".

NOTICE OF VIOLATIONS

SEC. 8. The first sentence of section 207 of the Federal Railroad Safety Act of 1970 (45 U.S.C. 436) is amended to read as follows: "In any case in which the Secretary has failed to assess the civil penalty applicable under section 209 of this title, or no civil action has been commenced to obtain injunctive relief under section 210 of this title, with respect to a violation of any railroad safety rule, regulation, order, or standard issued under this title, within 90 days after the date on which notification was received by the Secretary from a State agency participating in investigative and surveillance activities under the provisions of section 206 of this title, that State agency may apply to the district court of the United States within the jurisdiction of which the violation occurred for the enforcement of such rule, regulation, order, or standard.".

ROLE OF DEPARTMENT OF TRANSPORTATION IN RAILROAD ACCIDENT INVESTIGATIONS; LIABILITY OF DEPARTMENT OF TRANSPORTATION'S AGENTS

SEC. 9. Section 208 of the Federal Railroad Safety Act of 1970 (45 U.S.C. 437) is amended—

(1) by striking out subsection (b) and redesignating subsections (c) and (d) as subsections (b) and (c), respectively, and

(2) by amending subsection (b), as so redesignated, to read as follows:

"(b) To carry out the Secretary's responsibilities under this title, officers, employees,

or agents of the Secretary are authorized to enter upon, inspect, and examine rail facilities, equipment, rolling stock, operations, and pertinent records at reasonable times and in a reasonable manner. Such officers, employees, or agents shall display proper credentials when requested, and during the course of such inspection or examination shall be considered employees of the Federal Government for purposes of chapter 171 of title 28 of the United States Code.".

RAIL TRANSPORTATION SAFETY AND EFFICIENCY STUDY

SEC. 10. (a) The Secretary of Transportation shall conduct a study and evaluation concerning the safety and efficiency of rail transportation. Such study and evaluation shall include—

(1) a determination of the relationship of the size, weight, and length of railroad cars (other than those contained in unit trains) to the safety and efficiency of rail transportation; and

(2) a determination of the effect of the exclusive ownership and control of rights-of-way by individual railroads on the safety and efficiency of rail transportation, considering, among other things, whether or not such rights-of-way might be better employed under new structures of ownership or other conditions for joint usage.

(b) Within one year after the date of enactment of this Act, the Secretary of Transportation shall complete the portion of the study described in subsection (a)(1) of this section.

Within two years after the date of enactment of this Act, the Secretary of Transportation shall complete the portion of the study described in subsection (a)(2) of this section and submit a report to the Congress setting forth the results of such study, together with recommendations for such legislative or other action as the Secretary deems appropriate.

The SPEAKER pro tempore. Is a second demanded?

Mr. CARTER. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Pennsylvania (Mr. ROONEY) will be recognized for 20 minutes, and the gentleman from Kentucky (Mr. CARTER) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. ROONEY).

Mr. ROONEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, my amendment in the nature of a substitute contains parts of H.R. 12577 as reported and S. 3081, as passed by the Senate. The substitute is a 2-year authorization for the Federal Railroad Administration. The substitute authorizes $37,725,000 for fiscal years 1979 and 1980 and authorizes an additional 100 safety inspectors. I believe these additional safety inspectors should begin to make inroads on the disturbingly high number of accidents and derailments on our Nation's rails. The substitute retains the provision contained in the House-passed bill which limits the Secretary to committing not less than 50 percent of appropriated funds to research and development programs for safety research, improved track inspection, and data acquisition technology, improved rail freight service, and improved rail passenger systems.

The substitute amends section 5 of H.R. 12577, which section deals with the designated terminal provisions under the Hours of Service Act. This amendment has been agreed upon by rail labor and the Association of American Railroads.

The amendment is designed to clarify the meaning of the term "designated terminal" as used in the Hours of Service Act. The amendment achieves this goal by providing a specific definition of the term.

The Hours of Service Act established limitations on the number of hours during which certain classes of railroad employees may remain on duty. The act specifies that "time on duty" shall include "interim periods available for rest at other than a designated terminal". The 1969 amendments to the act did not define "designated terminal." Uncertainty about the term's meaning has generated considerable litigation. FRA has stated that because of the different interpretations given by the courts, it will be forced to decline enforcement of additional alleged violations involving certain improper points of release until Congress defines the term.

To correct this situation and to prevent further litigation the amendment provides that a place shall be considered a designated terminal only if that place is the "home" or "away from home" terminal for the particular crew assignment involved. However, it is the intent of the amendment to permit, but not require, the carrier and employee representatives to mutually agree upon other release points as "designated terminals." To be valid, any such agreement would, of course, have to clearly indicate that the parties intended to establish the point in question as a "designated terminal" for purposes of the Hours of Service Act.

The amendment permits employees to be released for rest periods of 4 hours or more at points which are not designated terminals only if: First, such a point has suitable food and lodging available, and second, the employees are prevented from reaching their "designated terminal" within the time requirements of this act by act of God, track obstruction, casualty, derailment or major disabling equipment failures. The "act of God, track obstruction, casualty, derailment, or major disabling equipment failure" are the only conditions which permit carriers to release crews at other than a designated terminal. That is, the railroads under this amendment may release a crew at interim points under the following circumstances for 4 or more hours and it shall not be counted as time on duty.

Track obstruction, such as that caused by a highway grade crossing accident, but not other traffic ahead of the train (unless that traffic is itself affected by a cause identified in the amendment, such as a derailment).

Casualties: Act of God which is intended to include floods, washouts, snowstorms, hurricanes, et cetera.

Derailments: Major disabling equipment failures, which are intended to include conditions such as broken wheels, engine failures, journal failures, broken rail which halts traffic, track which is out of alignment and halts traffic, complete signal or electrical system failure, and other conditions where corrections cannot be made in time for the crew to complete its trip to the designated terminal within the time requirements of the act. This provision does not include minor malfunctions such as broken air hoses, pulled drawbars, train separations, slow orders or individual signal (or electrical) failures. Also, yard congestion is not a condition which would permit the railroad to release the crew at an interim release point under this amendment.

Furthermore, a derailment or major disabling equipment failure will justify releasing an employee between designated terminals only if it is the result of a cause not known to or foreseeable by the carrier or its officer or agent in charge of the employee at the time that employee left the designated terminal. Title 45 U.S.C. 64 a(d) contains a similar requirement.

The above five conditions are the only ones under which a carrier could release a crew at other than a designated terminal. Under all circumstances, if a condition can be corrected, and the crew can reasonably be expected to reach the designated terminal within the time requirements of the act, then the carrier shall not relieve the crew at the interim release point.

Some of the terms in the amendment are similar to terms employed in 45 U.S.C. 64 a(d). But the purpose of the latter section—total lifting of the requirements of the Hours of Service Act—is quite different from the much more limited purpose of the new paragraph 1(b)(4). It is the intent that the new paragraph 1(b)(4) be given a common sense interpretation geared to its purpose and that it be interpreted independently of the decisions construing section 64 a(d). Thus, for example, whereas some court decisions have held that section 64a(d) does not come into play where a relief crew can be dispatched, that consideration would not be relevant to the application of paragraph 1(b)(4).

The phrase "a place where suitable facilities for food and lodging are available" at other than a designated terminal requires as a minimum:

First. Where reasonably available, single occupancy sleeping rooms, containing adequate furniture and accessories, temperature controls, and toilet and shower facilities.

Second. Transportation will be furnished where lodging is located an unreasonable walking distance from the on and off duty points and will also be furnished to a restaurant if no restaurant is within reasonable walking distance from the lodging facility. Provisions defining reasonable distance in the respective collective bargaining agreements will govern where applicable. Otherwise, reasonable distance takes into consideration not only distance per se, but such factors as time, location, weather, and safety.

If the release point is at a "designated terminal" for other crews, the lodging facilities accepted as suitable for such other crews will likewise be considered as

suitable for interim rest periods. Transportation will be furnished as provided for such other crews.

Finally, this amendment is not intended in any way to affect the other provisions of the hours of service law relating to maximum hours an employee may be on duty.

The substitute amends section 7 of H.R. 12577 which provides for a study of rail transportation safety and efficiency. That section now requires, among other things, that the Secretary of Transportation conduct a study relating to, first, size, weight, and length of cars and trains as well as, second, the effect of exclusive ownership and control of rights-of-way by railroads on safety.

The Association of American Railroads and the Railway Labor Executives Association have requested that the aforesaid studies be amended and limited to, first, the size, weight, and length of railroad cars only, and second, whether the railroad right-of-way might be better employed under new structures of ownership or other conditions for joint usage. They have also requested that the cars contained in unit trains be excluded entirely from that portion of the study dealing with car size, weight, and length.

The substitute amendment I am proposing would accomplish what rail labor and the Association of American Railroads have requested. I know of no opposition to the amendment in the nature of a substitute and urge its adoption.

Mr. Speaker, I reserve the balance of my time.

Mr. CARTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the amendment in this bill is virtually the same as one to the Senate version of this legislation, S. 2981, offered by the junior Senator from my State, the honorable WENDELL FORD.

The only changes were minor ones to clarify the first paragraph and to add a clause ensuring that notice be given of any Interstate Commerce Commission hearing under this provision.

These nonsubstantive changes were made with the knowledge of Senator FORD, and he concurs with them.

The background of this amendment lies in a critical situation in two of the eastern Kentucky coalfields in the area I represent.

Because of either the inability or the refusal of the single railroad serving the Harlan and Hazard coalfields to provide adequate service, the entire coal industry there is being jeopardized because the railroad is unable to move but a fraction of the coal being produced.

The economic disruption wrought by the failure of the railroad to provide safe and adequate service to the coal shippers in eastern Kentucky has widespread ramifications.

It endangers the economy of Kentucky—which is inextricably linked to coal—and it endangers this country's energy future by holding down production of coal in the country's leading coal-producing State.

Under this amendment, if the ICC were to find that a railroad had failed to provide safe and adequate service as it is required by law to do—then the ICC would have the means to compel the railroad to make investments in facilities or equipment sufficient to allow the railroad to live up to its statutory obligations.

The amendment has been carefully worked out to protect against ICC action bankrupting a railroad by mandating investments which are neither prudent nor reasonable.

However, where a railroad could provide safe and adequate service at recoverable cost—but fails to do so to the detriment of the shippers—then the shippers harmed by the railroad's inadequate service could go before the ICC to seek relief.

No railroad which is properly executing its obligation to the public—and which is being run in a businesslike fashion with proper attention to adequate investment in facilities, equipment, or maintenance in order to maintain adequate service—should fear this legislation.

I have received a letter from the Chairman of the ICC, A. Daniel O'Neil, in which he endorses this amendment.

I should like to quote a portion of it at this time.

Chairman O'Neal has written:

> Passage of this legislation would give the Commission greater powers to deal with rail car shortages than exist under present law. I believe that the amendment would give the Commission an important tool to deal with problems of rail car shortage and utilization, and I fully support its adoption.

Mr. SKUBITZ. Mr. Speaker, I rise in support of the Rooney amendment to H.R. 12577.

This amendment changes the bill as reported by the Interstate and Foreign Commerce Committee in the following ways:

First. It makes the authorization for 2 years rather than one to conform with the action previously taken by the other body.

Second. It substitutes language for the "designated terminal" definition contained in the bill reported by the Interstate and Foreign Commerce Committee to reflect a negotiated agreement between railroad management and the brotherhoods.

Third. It substitutes language for two study provisions relating to railroad car and train sizes and Government ownership of railroad rights-of-way to reflect agreement reached by committee members, railroads, and rail labor organizations.

Fourth. It contains a number of technical amendments contained in the Senate bill and requested by the Department of Transportation.

Mr. Speaker, I include a full explanation of the "designated terminal" provisions and the study provisions in my remarks:

The amendment is designed to clarify the meaning of the term "designated terminal" as used in the Hours of Service Act. The amendment achieves this goal by providing a specific definition of the term.

The Hours of Service Act establishes limitations on the number of hours during which certain classes of railroad employees may remain on duty. The act specifies that "time on duty" shall include "interim periods available for rest at other than a designated terminal." The 1969 amendments to the act did not define "designated terminal." Uncertainty about the term's meaning has generated considerable litigation. FRA has stated that because of the different interpretations given by the courts, it will be forced to decline enforcement of additional alleged violations involving certain improper points of release until Congress defines the term.

To correct this situation and to prevent further litigation the amendment provides that a place shall be considered a designated terminal only if that place is the "home" or "away from home" terminal for the particular crew assignment involved. However, it is the intent of the amendment to permit, but not require, the carrier and employee representatives to mutually agree upon other release points as "designated terminals." To be valid, any such agreement would, of course, have to clearly indicate that the parties intended to establish the point in question as a "designated terminal" for purposes of the Hours of Service Act.

The amendment permits employees to be released for rest periods of 4 hours or more at points which are not designated terminals only if: First, such a point has suitable food and lodging available; and second, the employees are prevented from reaching their "designated terminal" within the time requirements of this act by act of God, track obstruction, casualty, derailment, or major disabling equipment failure. The "act of God, track obstruction, casualty, derailment, or major disabling equipment failure" are the only conditions which permit carriers to release crews at other than a designated terminal. That is, the railroads under this amendment may release a crew at interim points under the following circumstances for 4 or more hours and it shall not be counted as time on duty.

Track obstruction, such as that caused by a highway grade crossing accident, but not other traffic ahead of the train (unless that traffic is itself affected by a cause identified in the amendment, such as a derailment).

Casualties: Act of God which is intended to include floods, washouts, snowstorms, hurricanes, and so forth.

Derailment: Major disabling equipment failure, which are intended to include conditions such as broken wheels, engine failures, journal failures, broken rail which halts traffic, track which is out of alinement and halts traffic, complete signal or electrical system failure, and other conditions where corrections cannot be made in time for the crew to complete its trip to the designated terminal within the time requirements of the act. This provision does not include minor malfunctions such as broken air hoses, pulled drawbars, train separations, slow orders or individual signal—or electrical—failure. Also, yard congestion is not a condition which would permit the railroad to release the crew at an interim release point under this amendment.

Furthermore, a derailment or major disabling equipment failure will justify releasing an employee between designated terminals only if it is the result of a cause not known to or foreseeable by the carrier or its officer or agent in charge of the employee at the time that employee left the designated terminal. Title 45 United States Code 64a(d) contains a similar requirement.

The above five conditions are the only ones under which a carrier could release a crew at other than a designated terminal Under all circumstances, if a condition can be corrected, and the crew can reasonably be expected to reach the designated terminal within the time requirements of the act, then the carrier shall not relieve the crew at the interim release point.

Some of the terms in the amendment are similar to terms employed in 45 U.S.C. 64a(d). But the purpose of the latter section—total lifting of the requirements of the Hours of Service Act—is quite different from the much more limited purpose of the new paragraph 1(b)(4). It is the intent that the new paragraph 1(b)(4) be given a commonsense interpretation geared to its purpose and that it be interpreted independently of the decisions construing section 64a(d). Thus, for example, whereas some court decisions have held that section 64a(d) does not come into play where a relief crew can be dispatched, that consideration would not be relevant to the application of paragraph 1(b)(4).

The phrase "a place where suitable facilities for food and lodging are available" at other than a designated terminal requires as a minimum—

First. Where reasonably available, single occupancy sleeping rooms, containing adequate furniture and accessories, temperature controls and toilet and shower facilities.

Second. Transportation will be furnished where lodging is located an unreasonable walking distance from the on and off duty points and will also be furnished to a restaurant if no restaurant is within reasonable walking distance from the lodging facility. Provisions defining reasonable distance in the respective collective bargaining agreements will govern where applicable. Otherwise, reasonable distance takes into consideration not only distance per se, but such factors as time, location, weather, and safety.

If the release point is at a "designated terminal" for other crews, the lodging facilities accepted as suitable for such other crews will likewise be considered as suitable for interim rest periods. Transportation will be furnished as provided for such other crews.

Finally, this amendment is not intended in any way to affect the other provisions of the Hours of Service law relating to maximum hours an employee may be on duty.

Third. Mr. Speaker, this amendment will provide funding for the assurance of a continued railroad safety program and clears up the definition of "designated terminal" used in the Hours of Service Act. I urge its adoption and the passage of the bill.

Fourth. I should add, however, that we will not achieve significant improvements in our railroad safety record until we change our basic approach from our present haphazard regulatory system to one based on performance standards and certified safety plans submitted by each railroad. Mr. MADIGAN and I have introduced a bill today, the Rail Safety Incentive Act of 1980, which embodies a better approach to railroad safety. I hope that the next Congress will give our new approach to this very old problem careful consideration.

Fifth. At this time, Mr. Speaker, I urge support of the pending amendment which will provide money for railroad safety programs in fiscal years 1979 and 1980 and initiate important railroad safety related studies and provide certainty for the term "designated terminal under the Hours of Service Act.

● Mr. STAGGERS. I rise in support of H.R. 12577; the Federal Railroad Safety Act of 1978, as amended. This bill authorizes appropriations of $37.725,000 for each of fiscal years 1979 and 1980 to implement and enforce the Federal Railroad Safety Act of 1970. That act is administered by the Federal Railroad Administration within the Department of Transportation. The bill increases the number of authorized safety inspectors from 500 to 600 and requires that at least 50 percent of the funds available to the Secretary of Transportation for railroad research and development programs be expended in specific programs directly related to improved rail safety.

The bill also clarifies the meaning of the term "designated terminal" used in the Hours of Service Act, which governs maximum permissible employees' hours for certain classes of railroad employees. That act specifies that computation of time on duty shall include interim rest periods of less than 4 hours at a designated terminal and interim rest periods not spent at a designated terminal. The term is not defined in the Hours of Service Act, and confusion about its meaning has arisen.

Two studies concerning the safety and efficiency of rail transportation to be conducted by the Secretary of Transportation are also mandated by the bill. One study entails a determination of the safety impact of the size, weight, and length of certain railroad cars. The other study involves a determination of the safety impact of the exclusive ownership of railroad rights-of-way by the individual railroads and whether other forms of ownership might improve safety.

These compromise amendments defining "designated terminals" and requiring studies to be conducted by the Secretary of Transportation are the product of lengthy negotiations between rail labor and rail management, and represents a constructive approach to solving serious rail safety problems.

Finally, the bill also makes minor and technical amendments to existing law to enhance the administration and enforcement of the railroad safety program and improve railroad safety generally.

Mr. Speaker, the growing dimensions of the railroad safety problem are of considerable national concern. This bill is essential if we are to address those problems and solve them, and I strongly urge the passage of the bill.●

Mr. CONABLE. Mr. Speaker, it was my intention to offer an amendment to the Railway Safety Act legislation correcting a provision in the companion Safety Appliances Act which now hampers timely repair of railroad cars. This unfortunate provision contributed to the drastic shortage last year of railroad cars for hauling the products of the salt mine in my area. As a result, shipping of the salt was hampered severely in one of the worst winters on record, when cities in the Northeast had a need for larger than ever supplies of road salt.

The Safety Appliances Act and court interpretations of almost 40 years ago require that repair of safety appliances on rail cars must be provided on the railroad which has possession of the cars at the time the defect is discovered, even though a connecting railroad may have the facilities, the time, and willingness to repair those cars much more promptly. However, such cars cannot be interchanged with the connecting carrier under present restrictions. This is particularly ironic when the cars must be transported long distances to repair shops when the facilities of a connecting line are available nearby. This requirement caused serious delays in repairs and added to shortages of cars in western New York last year.

It has been my intention to offer an amendment today to correct this defect in the Safety Appliances Act. This would bring these kinds of safety defects into the same kind of repair program as presently authorized for the repair of major defects, such as bad wheels or axles under the Railway Safety Act. The Railway Safety Act has recognized the practical necessity of interchanging cars in order to get them repaired in a timely manner and enhance car utilization.

Because we are late in the session and realize that amendments can jeopardize the final passage of any piece of legislation, I discussed the amendment with all the parties involved in an effort to obtain agreement on it. Congressman FRED ROONEY, chairman of the Subcommittee on Commerce and Transportation, agreed that this is a matter requiring correction and that my amendment was very much in order. He agreed to accept it during the consideration of the bill. A check was made with representatives of the Association of American Railroads, who felt it would be a good step toward increasing car utilization throughout the national rail system. However, a representative of the United Transportation Union expressed concern about an amendment at this late hour. He indicated a willingness to cooperate in resolving the problem but did not wish to jeopardize in any way final passage of the Railway Safety Act. Rather than proceeding with the amendment at this time, he suggested instead that the concerned parties meet with the Federal Railroad Administration to work out this problem administratively, and he offered support. If that is unsuccessful, he agreed to cooperate on seeking passage of appropriate legislation in the next Congress.

Because I understand the concern for the passage of the Railway Safety bill, I have agreed not to offer my amendment today. I pledge that I will seek to have this problem resolved administratively with the help of all the parties; if we find this impossible, however, I will seek correction of this defect by Congress next year. I appreciate the cooperation of Chairman ROONEY on this issue. His concern for improving rail transportation is clear and I look forward to working with him to resolve this issue.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. ROONEY) that the House suspend the rules and pass the bill H.R. 12577 as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

Mr. ROONEY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table a similar Senate bill (S. 3081) to amend the Federal Railroad Safety Act of 1970 to provide the Secretary of Transportation a longer period within which to assess civil penalties for certain violations, to extend authorizations of appropriations for fiscal year 1979 and 1980 for the rail safety program, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 3081

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Federal Railroad Safety Act Amendments Act of 1978".

NOTICE OF VIOLATIONS

SEC. 2. The first sentence of section 207 of the Federal Railroad Safety Act of 1970 (hereinafter in this Act referred to as the "Safety Act") (45 U.S.C. 436) is amended to read as follows: "In any case in which the Secretary has failed to assess the civil penalty applicable under section 209 of this title, or no civil action has been commenced to obtain injunctive relief under section 210 of this title, with respect to a violation of any railroad safety rule, regulation, order, or standard issued under this title, within 90 days after the date on which notification was received by the Secretary from a State agency participating in investigative and surveillance activities under the provisions of section 206 of this title, that State agency may apply to the district court of the United States within the jurisdiction of which the violation occurred for the enforcement of such rule, regulation, order or standard.".

ROLE OF DEPARTMENT OF TRANSPORTATION IN RAILROAD ACCIDENT INVESTIGATIONS; LIABILITY OF DEPARTMENT OF TRANSPORTATION'S AGENTS

SEC. 3. Section 208 of the Safety Act (45 U.S.C. 437) is amended—

(1) by deleting subsection (b) and redesignating subsections (c) and (d) as subsections (b) and (c) respectively; and

(2) by amending newly designated subsection (b) to read as follows:

"(b) To carry out the Secretary's responsibilities under the title, officers, employees, or agents of the Secretary are authorized to enter upon, inspect, and examine rail facilities, equipment, rolling stock, operations and pertinent records at reasonable times and in a reasonable manner. Such officers, employees, or agents shall display proper credentials when requested, and during the course of such inspection or examination shall be considered employees of the Government for the purposes of the Federal Tort Claims Act (28 U.S.C. 2671 et seq.).".

AUTHORIZATION OF APPROPRIATIONS

SEC. 4. Section 212 of the Safety Act (45 U.S.C. 441) is amended to read as follows:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 212. There are authorized to be appropriated to carry out the provisions of this Act not to exceed $35,000,000 for the fiscal year ending September 30, 1979, and not to exceed $35,000,000 for the fiscal year ending September 30, 1980. Sums appropriated for research and development, automated track inspection and the State safety grant program shall remain available until expended.".

HOURS OF SERVICE ACT; INTERSTATE COMMERCE REQUIREMENT

SEC. 5. Subsection (a) of the first section of the Act of March 4, 1907, as amended (45 U.S.C. 61), is amended to read as follows:

"(a) This Act shall apply to any common carrier engaged in interstate or foreign commerce by railroad.".

SEC. 6. (a) Section 4 of the Act of April 14, 1910, as amended (45 U.S.C. 13), and section 9 of the Act of February 17, 1911, as amended (45 U.S.C. 34), are each amended by inserting "assessed by the Secretary of Transportation and" after "shall be liable to a penalty of not less than $250 and not more than $2,500 for each and every such violation, to be", where those words appear in the respective sections.

(b) Section 25(h) of part I of the Interstate Commerce Act (49 U.S.C. 26(h)), is amended by inserting "assessed by the Secretary of Transportation and" after "shall be liable to a penalty of not less than $250 and not more than $2,500 for each and every day such violation, refusal, or neglect continues, to be".

AMENDMENTS TO THE RAILROAD REVITALIZATION AND REGULATORY REFORM ACT OF 1976

SEC. 7. Section 505 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 825) is amended by (a) striking the last sentence of subsection (d)(3) thereof; and (b) striking "purchase under this title after September 30, 1978," and inserting in lieu thereof ", after September 30, 1979, make commitments to purchase under this title" in subsection (e) thereof.

MOTION OFFERED BY MR. ROONEY

Mr. ROONEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. ROONEY moves to strike out all after the enacting clause of the Senate bill, S. 3081, and insert in lieu thereof the text of H.R. 12577, as passed by the House.

The motion was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed.

The title was amended so as to read: "A bill to amend the Federal Railroad Safety Act of 1970 to authorize additional appropriations, and for other purposes."

A motion to reconsider was laid on the table.

A similar House bill (H.R. 12577) was laid on the table.

LOCAL RAIL SERVICE ASSISTANCE ACT OF 1978

Mr. ROONEY. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 11979) to amend section 5 of the Department of Transportation Act, relating to local rail service assistance, as amended.

The Clerk read as follows:

H.R. 11979

Be in enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—LOCAL RAIL SERVICE ASSISTANCE

SHORT TITLE

SEC. 101. This title may be cited as the "Local Rail Service Assistance Act of 1978".

EXPANSION OF ASSISTANCE

SEC. 102. Section 5(f) of the Department of Transportation Act (49 U.S.C. 1654(f)) is amended—

(1) in paragraph (2), by striking out "purchasing a line of railroad or other rail properties" and inserting in lieu thereof "acquiring, by purchase, lease, or in such other manner as the State considers appropriate, a line of railroad or other rail properties, or any interest therein,";

(2) in paragraph (3), by striking out "and" immediately after the semicolon;

(3) in paragraph (4), by striking out the period and inserting in lieu thereof "; and"; and

(4) by adding at the end thereof the following new paragraph:

"(5) the cost of constructing rail or rail related facilities (including new connections between two or more existing lines of railroad, intermodal freight terminals, sidings, and relocation of existing lines) for the purpose of improving the quality and efficiency of rail freight service.".

COST SHARING

SEC. 103. Section 5(g) of the Department of Transportation Act (49 U.S.C. 1654(g)) is amended to read as follows:

"(g) The Federal share of the costs of any rail service assistance program shall be 80 per centum, except that the Federal share of costs for financial assistance under paragraph (1) of subsection (f) of this section for any project described in subsection (k)(1) of this section shall be 80 per centum for the first and second years such project is conducted and 70 per centum for the third year such project is conducted. The State share of the costs may be provided in cash or through any of the following benefits, to the extent that such benefits would not otherwise be provided: (1) forgiveness of taxes imposed on a common carrier by railroad or on its properties; (2) the provision by the State or by any person or entity on behalf of such State, for use in its rail service assistance program, of real property or tangible personal property of the kind necessary for the safe and efficient operation of rail freight service; (3) trackage rights secured by the State for a common carrier by railroad; or (4) the cash equivalent of State salaries for State public employees working in the State rail service assistance program, but not including overhead and general administrative costs. If a State, or any person or entity on behalf of a State, provides more than such State's percentage share of the cost of its rail service assistance program during any fiscal year, the amount in excess of such share shall be applied toward such State's share of the costs of its program for subsequent fiscal years.".

FORMULA ALLOCATION

SEC. 104. Section 5(h) of the Department of Transportation Act (49 U.S.C. 1654(h)) is amended to read as follows:

"(h)(1) For the period beginning October 1, 1978, and ending September 30, 1979,

each State which is eligible to receive rail service assistance under this section is entitled to an amount equal to the total amount authorized and appropriated for such purposes, multiplied by a fraction the numerator of which is the rail mileage in such State which was eligible for rail service assistance under this section prior to October 1, 1978, and the denominator of which is the rail mileage in all of the States which was eligible for rail service assistance under this section prior to such date. Notwithstanding the provisions of the preceding sentence, the entitlement of each State shall not be less than 1 percent of the funds appropriated

"(2) Effective October 1, 1979, each State which is eligible to receive rail service assistance under this section is entitled annually to a sum from available funds as determined pursuant to this subsection. Available funds are funds appropriated for rail service assistance for that fiscal year and any funds to be reallocated for that fiscal year in accordance with this subsection. Subject to the limitations set forth in paragraph (3) of this subsection, the Secretary shall calculate each State's entitlement as follows:

"(A) two-thirds of the available funds, multiplied by a fraction (i) the numerator of which is the sum of the rail mileage in the State which, in accordance with section 1a(5)(a) of the Interstate Commerce Act (49 U.S.C. 1a(5)(a)), is either 'potentially subject to abandonment' or with respect to which a carrier plans to submit, but has not yet submitted, an application for a certificate of abandonment or discontinuance, and (ii) the denominator of which is the total of such rail mileage in all the States; and

"(B) one-third of available funds, multiplied by a fraction (i) the numerator of which is the rail mileage in the State with respect to which the Interstate Commerce Commission, within 3 years prior to the first day of the fiscal year for which funds are allocated or reallocated under this section, has found that the public convenience and necessity permit the abandonment of, or the discontinuance of rail service on, such rail mileage (including, until September 30, 1981, the rail mileage which was eligible for assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762), and all rail mileage in the State which has, prior to October 1, 1978, been included for formula allocation purposes under this section); and (ii) the denominator of which is the total rail mileage in all the States eligible for rail service assistance under this section which the Interstate Commerce Commission has made such a finding (including, until September 30, 1981, the rail mileage in all the States which was eligible for financial assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762), and the rail mileage in all the States which has, prior to October 1, 1978, been included for formula allocation purposes under this section).

Notwithstanding the preceding provisions of this paragraph, the entitlement of each State in a fiscal year shall not be less than 1 percent of the funds appropriated for such fiscal year.

"(3)(A) For purposes of paragraphs (1) and (2) of this subsection, rail mileage shall be measured by the Secretary as of the first day of each fiscal year. In making calculations under this subsection, no rail mileage shall be included more than once in either the numerator or the denominator of a fraction.

"(B) Entitlement funds are available to a State during the fiscal year for which the funds are appropriated. In accordance with the formula stated in this subsection, the Secretary shall reallocate, to each State which is eligible to receive rail service assistance under this section, a share of any entitlement funds which have not been the subject of an executed grant agreement between the Secretary and the State before the end of the fiscal year for which the funds were appropriated. Reallocated funds are available to the State for the same purpose and for the same time period as an original allocation and are subject to reallocation if not made the subject of an executed grant agreement between the Secretary and the State before the end of the fiscal year for which the funds were reallocated. Funds appropriated in fiscal year 1978 and prior years which are not the subject of an executed grant agreement as of October 1, 1978, shall remain available to the States during fiscal year 1979.

"(4) Two or more States which are eligible to receive rail service assistance under this section may, where not in violation of State law, enter into an agreement to combine any portion of their respective Federal entitlements under this subsection for purposes of conducting any project which is eligible for assistance under subsection (k) of this section and which will benefit each State which is a party to such agreement.".

PLANNING ASSISTANCE

SEC. 105. Section 5(i) of the Department of Transportation Act (49 U.S.C. 1654(i)) is amended to read as follows:

"(i) During each fiscal year, a State may expend not to exceed $100,000, or 5 percent, whichever is greater, of its annual entitlement under subsection (h) of this section to meet the cost of establishing, implementing, revising, and updating the State rail plan required by subsection (j) of this section.".

STATE ELIGIBILITY

SEC. 106. (a) Paragraph (2) of section 5(j) of the Department of Transportation Act (49 U.S.C. 1654(j)(1)) is amended—

(1) by inserting "(A)" immediately after "(2)"; and

(2) by adding immediately before the semicolon at the end thereof the following: ", and (B) such State plan includes, as soon as practicable after the date of enactment of the Local Rail Service Assistance Act of 1978, a methodology for determining the ratio of benefits to costs of projects which are proposed to be initiated after such date of enactment and which are eligible for assistance under paragraphs (2) through (4) of subsection (k) of this section".

(b) During the period prior to the inclusion in a State rail plan of the methodology referred to in the amendment made by subsection (a) of this section, the Secretary of Transportation shall continue to fund projects on a case-by-case basis where he has determined, based upon analysis performed and documented by the State, that the public benefits associated with the project outweigh the public costs of such project.

PROJECT ELIGIBILITY

SEC. 107. Section 5(k) of the Department of Transportation Act (49 U.S.C. 1654(k)) is amended to read as follows:

"(k)(1) A project is eligible for financial assistance under paragraph (1) of subsection (f) of this section only if—

"(A)(i) the Interstate Commerce Commission has found, since February 5, 1976, that the public convenience and necessity permit the abandonment of, or the discontinuance of rail service on, the line of railroad which is related to the project; or (ii) the line of railroad or related project was eligible for assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762); and

"(B) the line of railroad or related project has not previously received financial assistance under paragraph (1) of subsection (f) of this section for more than 36 months, except that a line of railroad or related project which was eligible for financial assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762) or under this section prior to October 1, 1978, shall be eligible only until September 30, 1981.

"(2) A project is eligible for financial assistance under paragraph (2) of subsection (f) of this section only if—

"(A) the Interstate Commerce Commission has found, since February 5, 1976, that the public convenience and necessity permit the abandonment of, or the discontinuance of rail service on, the line of railroad related to the project;

"(B) the line of railroad related to the project is listed for possible inclusion in a rail bank in part III, section C of the Final System Plan issued by the United States Railway Association under section 207 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 717); or

"(C) the line of railroad related to the project was eligible to be acquired under section 402(c)(3) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762(c)(3)), except that a line of railroad or related project which was eligible for financial assistance under such section 402 or under this section prior to October 1, 1978, shall be eligible only until September 30, 1981.

"(3) A project is eligible for financial assistance under paragraphs (3) and (5) of subsection (f) of this section only if—

(A) the line of railroad related to the project is certified by the railroad as having carried 3 million gross ton miles of freight or less per mile during the prior years;

"(B) the line of railroad related to the project is certified by the railroad as having carried less than 5 million gross ton miles of freight per mile during the prior year and the Secretary has determined that the project is essential to carry out proposals made under authority of subsections (a) through (e) of this section;

"(C) an application for a certificate of abandoment or discontinuance with respect to the line of railroad related to the project has been filed with the Interstate Commerce Commission prior to January 1, 1979 (whether or not such application has been granted);

"(D) the line of railroad related to the project is listed for possible inclusion in a rail bank in part III, section C of the Final System Plan issued by the United States Railway Association under section 207 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 717); or

"(E) the line of railroad related to the project was eligible to be acquired under section 402(c)(3) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762(c)(3).

Any project involving a line of railroad described in subparagraph (C), (D), or (E) of this paragraph shall only be eligible for financial assistance until September 30, 1981.

"(4) A project is eligible for financial assistance under paragraph (4) of subsection (f) of this section only if—

"(A) the Interstate Commerce Commission has found, since February 5, 1976, that the public convenience and necessity permit the abandonment of, or the discontinuance of rail service on, the line of railroad which is related to the project; or

"(B) the line of railroad or related project was eligible for financial assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762), except that a line of railroad or related project which was eligible for assistance under such section 402 or under this section prior to October 1, 1978, shall be eligible only until September 30, 1981.

"(5) On or before August 1 of each year, each common carrier by railroad subject to part I of the Interstate Commerce Act shall prepare, update, and submit to the Secretary

a listing of those rail lines of such carrier which, based on level of usage, carried 3 million gross ton miles of freight or less per mile during the prior year.".

REHABILITATION ASSISTANCE

SEC. 108. Section 5 of the Department of Transportation Act (49 U.S.C. 1654) is amended by redesignating subsection (o) as subsection (p), and by inserting immediately after subsection (n) the following new subsection:

"(o) A State shall use financial assistance provided under paragraph (3) of subsection (f) of this section in accordance with the following provisions:

"(1) The financial assistance shall be used to rehabilitate or improve rail properties in order to improve rail freight service within the State.

"(2) The State shall, in its discretion, grant or loan funds to the owner of rail properties or operator of rail service related to the project.

"(3) The State shall determine all financial terms and conditions of a grant or loan, except that the timing of all advances with respect to grants in and under this subsection shall be in accordance with Department of Treasury regulations.

"(4) The State shall place the Federal share of repaid funds in an interest-bearing account or, with the approval of the Secretary, permit any borrower to place such funds, for the benefit and use of the State, in a bank which has been designated by the Secretary of the Treasury in accordance with section 10 of the Act of June 11, 1942 (12 U.S.C. 265). The State shall use such funds and all accumulated interest to make further loans or grants under paragraph (3) of subsection (f) of this section in the same manner and under the same conditions as if they were originally granted to the State by the Secretary. The State may, at any time, pay to the Secretary the Federal share of any unused funds and accumulated interest. After the termination of a State's participation in the rail service assistance program established by this section, such State shall pay the Federal share of any unused funds and accumulated interest to the Secretary."

TECHNICAL AMENDMENTS

SEC. 109. (a) Section 5 of the Department of Transportation Act (49 U.S.C. 1654) is amended—

(1) in subsection (g), subsection (m)(1), and the first sentence of subsection (p) (as redesignated by section 108 of this title), by striking out "(o)" each place it appears and inserting in lieu thereof "(p)"; and

(2) by amending the third sentence of subsection (p) (as so redesignated) to read as follows: "In addition, any appropriated sums ranging after the repeal of section 402 of the Regional Rail Reorganization Act of 1973 and of section 810 of the Railroad Revitalization and Regulatory Reform Act of 1976 are authorized to remain available to the Secretary for purposes of subsections (f) through (p) of this section.". (c)(1) Section 810 of the Railroad Revitalization and Regulatory Reform Act of 1976 (49 U.S.C. 1653a) is repealed.

(2) The table of contents for title VIII of the Railroad Revitalization and Regulatory Reform Act of 1976 is amended by striking out "Sec. 810. Rail bank.".

EFFECTIVE DATE

SEC. 110. The provisions of this title shall take effect on October 1, 1978.

TITLE II—AMENDMENTS TO THE REGIONAL RAIL REORGANIZATION ACT OF 1973

AMENDMENTS TO THE REGIONAL RAIL REORGANIZATION ACT OF 1973

SEC. 201. Section 304(e) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 744(e)) is amended—

(1) by striking out the comma at the end of paragraph (4)(B) and inserting in lieu thereof "; or"; and

(2) by adding immediately after paragraph (4)(B) the following new subparagraph:

"(C) offers a rail service continuation payment, pursuant to subsection (c)(2)(A) of this section and regulations issued by the Office pursuant to section 205(d)(5) of this Act, for the operation of rail passenger service provided under an agreement or lease pursuant to section 303(b)(2) of this title or subsection (c)(2)(B) of this section where such offer is made for the continuation of the service beyond the period required by such agreement or lease, except that such services shall not be eligible for assistance under section 17(a)(2) of the Urban Mass Transportation Act of 1964 (49 U.S.C. 1613(a)(2)),"; and

(3) by adding at the end thereof the following new paragraphs:

"(7)(A) If a State (or a local or regional transportation authority) in the region offers to provide payment for the provision of additional rail passenger service, the Corporation shall undertake to provide such service pursuant to this subsection (including the discontinuance provisions of paragraph (2) of this subsection). An offer to provide payment for the provision of additional rail passenger service shall be made in accordance with subsection (c)(2)(A) of this section and under regulations issued by the Office pursuant to section 205(a)(5) of this Act, and shall be designed to avoid any additional costs to the Corporation arising from the construction or modification of capital facilities or from any additional operating delays or costs arising from the absence of such construction or modification. The State (or local or regional transportation authority) shall demonstrate that it has acquired, leased, or otherwise obtained access to all rail properties, other than those designated for conveyance to the National Railroad Passenger Corporation pursuant to sections 206(c)(1)(C) and 206(c)(1)(D) of this Act and to the Corporation pursuant to section 303(b)(1) of this title, necessary to provide the additional rail passenger service and that it has completed, or will complete prior to the inception of the additional rail service, all capital improvements necessary to avoid significant costs which cannot be avoided by improved scheduling or other means on other existing rail services (including rail freight service) and to assure that the additional service will not detract from the level and quality of existing rail passenger and freight service.

"(B) As used in this paragraph, the term 'additional rail passenger service' means rail passenger service (other than rail passenger service provided pursuant to the provisions of paragraphs (2) and (4) of this subsection), including extended or expanded service and modified routings, which is to be provided over rail properties conveyed to the Corporation pursuant to section 303(b)(1) of this title, or over (i) rail properties contiguous thereto conveyed to the National Railroad Passenger Corporation pursuant to this Act, or (ii) any other rail properties contiguous thereto to which a State (or local or regional transportation authority) has obtained access.

"(C) Notwithstanding any other provision of this paragraph, the Corporation shall not be required to operate additional rail passenger service over rail properties leased or acquired from or owned or leased by a profitable railroad in the region.

"(8) The Secretary shall, in consultation with the Association, conduct a study to determine the best means of compensating the Corporation for liabilities which it may incur for damages to persons or property, resulting from the operation of rail passenger service required to be operated pursuant to this subsection or section 303(b)(2) of this title, which are not underwritten by private insurance carriers or are not indemnified by a State (or local or regional transportation authority). Such study shall identify the nature of the risks to the Corporation, the probable degree of uninsurability of such risks, and the desirability and feasibility of various indemnification programs, including subsidy offers made pursuant to this section, self insurance through a passenger tax or other mechanism, or government indemnification for such liabilities. Within one year after the date of enactment of this paragraph, the Secretary shall prepare a report with appropriate recommendations and shall submit such report to the Congress. Such report shall specify the most appropriate means of indemnifying the Corporation for such liabilities in a manner which shall prevent the cross-subsidization of passenger services with revenues from freight services operated by the Corporation.".

TITLE III—AMENDMENTS TO THE RAILROAD REVITALIZATION AND REGULATORY REFORM ACT OF 1976; RELATED PROVISIONS

INCREASE IN FUNDING LIMITATION ON PURCHASE OF TRUSTEE CERTIFICATES; EXTENSIONS OF AUTHORITY TO ISSUE AND SELL FUND ANTICIPATION NOTES

SEC. 301. (a) Section 505 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 825) is amended—

(1) in subsection (d)(3), by striking out the last sentence; and

(2) in subsection (e), by striking out "purchase under this title after September 30, 1978," and inserting in lieu thereof ", after September 30, 1979, make commitments to purchase under this title,".

(b) Sections 507(a) and 507(d) of the Railroad

Revitalization and Regulatory Reform Act of 1976 (7 U.S.C. 827(a) and (d)) are amended by striking out "1978" and inserting in lieu thereof "1979".

(c) Section 509 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 829) is amended by striking out "March 31" each place it appears and inserting in lieu thereof "September 30".

SECURITY FOR TRUSTEE CERTIFICATES

SEC. 302. Section 505(d)(2) of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 825(d)(2)) is amended—

(1) in the last sentence of subparagraph (B), by striking out "No certificate" and inserting in lieu thereof "Except as provided in subparagraph (C) of this paragraph, no certificate"; and

(2) by adding at the end thereof the following new subparagraph:

"(C) The Secretary may purchase certificates under this section without making the finding referred to in clause (iii) of subparagraph (B) only if such certificates are senior in rights to all outstanding capital stock, common and preferred, of the debtor corporation, and all unsecured debt incurred before the date of commencement of railroad reorganization proceedings pursuant to section 77 of the Bankruptcy Act, but subordinate to all senior debt of the debtor corporation whenever such senior debt is incurred. As used in this subparagraph, the term 'senior debt' means—

"(i) all costs of administration, incurred or to be incurred by a trustee, and secured debt assumed by a trustee, in connection with the reorganization proceedings and the operation of a debtor's business by a trustee during the pendency of such proceedings; and

"(ii) all secured debt incurred before the date of commencement of railroad reorganization proceedings pursuant to section 77 of the Bankruptcy Act and determined by the court to be a proper claim against the estate and an obligation of the debtor corporation.".

FRA REVIEW

SEC. 303. The Federal Railroad Administration shall promptly review the condition of the Chicago, Milwaukee, and Saint Paul Railroad and consider assisting such railroad with loans for roadbed and track improvement.

TITLE IV—AMENDMENTS TO THE INTERSTATE COMMERCE ACT RENEWAL

SEC. 401. (a) Section 15(8)(c) of the Interstate Commerce Act (49 U.S.C. 15(8)(c)) is amended—

(1) in clause (i), by striking out "within 2 years after the date of the enactment of this subdivision" and inserting in lieu thereof "prior to July 1, 1980";

(2) in clause (ii), by inserting "and" after the semicolon; and

(3) by striking out clauses (iii) and (iv) and inserting in lieu thereof a new clause (iii) to read as follows:

"(iii) the aggregate of increases or decreases in any rate filed pursuant to clause (i) or (ii) of this subdivision during any calendar year is not greater than 7 per centum of the rate in effect on January 1 of that year.".

(b) The last sentence of section 15(8)(d) of the Interstate Commerce Act (49 U.S.C. 25(8)(d)) is amended by striking out "clauses (iii) or (iv)" and inserting in lieu thereof "clause (iii)".

CAR SERVICE

SEC. 402. Section 1(14) of the Interstate Commerce Act (49 U.S.C. 1(14)) is amended by redesignating subdivision (b) as subdivision (c), and by inserting immediately after subdivision (a) the following new subdivision:

"(b) If the Commission finds, upon the petition of an interested party and after notice and a hearing on the record, that a common carrier by railroad subject to this part has materially failed to furnish safe and adequate car service as required by paragraph (11) of this section, the Commission may require such carrier to provide itself with such facilities and equipment as may be reasonably necessary to furnish such service, if the evidence of record establishes, and the Commission affirmatively finds, that—

"(i) the provision of such facilities or equipment will not materially and adversely affect the ability of such carrier to otherwise provide safe and adequate transportation services;

"(ii) the expenditure required for such facilities or equipment, including a return which equals such carrier's current cost of capital, will be recovered; and

"(iii) the provision of such facilities or equipment will not impair the ability of such carrier to attract adequate capital.".

The SPEAKER pro tempore. Is a second demanded?

Mr. CARTER. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Pennsylvania (Mr. ROONEY) will be recognized for 20 minutes, and the gentleman from Kentucky (Mr. CARTER) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. ROONEY).

Mr. ROONEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to explain why I have introduced this substitute and also give a brief explanation as to its contents.

Although I am offering a substitute, in essence the differences between this amendment and the bill reported by the committee are not overwhelmingly significant. The substitute that I am offering represents a consensus of all parties interested in the original bill. That is, due to the fact that we will be adjourning shortly, and do not have time to have formal conferences with the Senate, I have attempted to work out a compromise bill with my counterparts in the Senate as well as with the administration, the Association of American Railroads, the Railway Labor Executives Association, the National Industrial Traffic League, State representatives and others. I am pleased to state that all of these parties wholeheartedly endorse the substitute bill I am offering.

In order to best utilize Government funds, the bill approved by the committee provided that branch lines would be eligible for assistance if they had been scheduled for abandonment, or were potentially subject to abandonment. The Senate bill, on the other hand, provided that all branch lines which carried 5 million gross tons of freight or less per mile during the preceding year, would be eligible for assistance. A compromise has now been reached which is acceptable to all parties, whereby a branch line will be eligible for assistance if it carried 3 million gross tons of freight or less per mile during the preceding year. Also with regard to eligibility, a compromise was reached whereby all abandoned or discontinued lines receive assistance for 3 years, except for lines excluded by the United States Railway Association from ConRail which will receive assistance through fiscal year 1981.

I would also like to assure my friend from Kentucky, Dr. CARTER, that the substitute that I am offering includes the provision which he intended to offer as an amendment to the committee bill.

Dr. CARTER was rightfully concerned that certain railroads have failed to furnish safe and adequate car service as required by the Interstate Commerce Act. I would like to call to his attention that section 402 of this substitute pertains to the amendment that he intended to offer. This section permits the ICC to require railroads to use safe and adequate facilities and equipment as determined by the ICC.

Another change in the bill pertains to the formula for allocating the available funds. As I stated during the general debate, emphasis is now to be placed on rehabilitation of lines, rather than operating subsidies for abandoned lines. Therefore, commencing in fiscal year 1980, two-thirds of the funds available will be allocated on the basis of a State's percentage of rail mileage which is potentially subject to abandonment or which carriers plan to abandon. That is, the so-called categories 1 and 2. One-third of the funds will be allocated on the basis of the State's percentage of rail mileage which has been authorized for abandonment, or excluded from the ConRail system.

Nevertheless, each State will continue to be entitled to a minimum of 1 percent of the funds appropriated, notwithstanding the foregoing formulas.

Understandably, the change in the allocation formula will have different effects among the various States. The exact amount of differences are not known at the present time, because there can be variations in the number of miles summitted by various railroads. Nevertheless, the administration has furnished a fairly accurate estimate. Moreover, in order to compensate for the reduction in funds that some States may realize as a result of this formula change, and in addition, in an effect to expedite the rehabilitation program, the administration has promised that commencing with fiscal year 1980, it will request an appropriation increase of $23 million. That is, the current appropriation for fiscal year 1979 is $67 million, and they have indicated that they will request $100 million. In this way, those States which would receive a smaller amount due to the change in the formula allocation, due to the increased total funding would receive approximately the same amount of funds.

Other than these changes, in my opinion, there are no other material differences between the substitute and the bill reported by the committee. I would like to assure you that the bill contains no nongermane, no additional funding, nor does it contain any special interest matters.

Mr. VOLKMER. Mr. Speaker, will the gentleman yield?

Mr. ROONEY. I yield to the genleman from Missouri.

Mr. VOLKMER. I thank the gentleman for yielding.

Does the substitute which the gentleman is now proposing to the House contain any language on recyclable materials?

Mr. ROONEY. Will the gentleman repeat the question?

Mr. VOLKMER. Does it contain any language or provision with regard to cyclable materials?

Mr. ROONEY. No, it does not.

Mr. VOLKMER. So that is a matter that still would have to be considered by the committee next year?

Mr. ROONEY. That is correct.

Mr. VOLKMER. What is the difference between the substitute the gentleman now offers and the bill as reported out of committee? Will the gentleman tell me briefly the actual changes that were made?

Mr. ROONEY. As I said in my explanatory remarks, one of the principle differences in the substitute pertains to eligibility. In order to best utilize the Government funds, the bill approved by the committee provided that branch lines would be eligible for assistance if they were scheduled for abandonment or potentially subject to abandonment. The Senate bill, on the other hand, provided that all branch lines which carried 5 million gross tons of freight or less per mile during the preceding year would be eligible. The compromise follows the Senate provision except that it reduces the tonnage to 3 million gross tons of freight or less per mile during the preceding year

Mr. VOLKMER. Is this assistance also in the gentleman's substitute providing for 80 percent?

Mr. ROONEY. Yes.

Mr. VOLKMER. That does not vary

from the bill, but the gentleman took the Senate language instead of the House language, is that correct?

Mr. ROONEY. No. We compromised, as I originally stated.

Mr. VOLKMER. What is the compromise? Does it mean that we have both provisions in, or either one, on a local branch line?

Mr. ROONEY. We went from 5 million to 3 million gross tons of freight.

Mr. VOLKMER Then the gentleman is using the Senate language with a 3 million figure instead of a 5 million figure as to those branch lines that would qualify for assistance?

Mr. ROONEY. That is correct.

Mr. VOLKMER. So that if the branch line was somewhat under that figure——

Mr. ROONEY. It is 3 million or less.

Mr. VOLKMER. So if it is a little bit over the figure but is scheduled for reduction in service or taken off altogether, it would not be eligible for assistance?

Mr. ROONEY. Yes, it would be eligible if, as the substitute provides in section 107, the Secretary has determined that this project is essential to carry out proposals made under authority of subsections (a) through (e) of this section.

If it satisfies this additional criteria.

Mr. VOLKMER. If it is on their list it would still be eligible for assistance. I thank the gentleman.

Mr. ROONEY. I would also like to again assure my friend and colleague from Kentucky (Mr. CARTER) that the substitute bill I am offering includes a provision which he intended to offer as an amendment to the committee amendment. The gentleman may recall that I assured him that I would take care of this provision in the committee, and I certainly thank him for his cooperation.

Mr. CARTER. Mr. Speaker, will the gentleman yield?

Mr. ROONEY. I yield to the gentleman from Kentucky.

Mr. CARTER. Mr. Speaker, I want to thank the gentleman for his cooperation in this matter. It certainly will be helpful to some of the smaller branch lines there in the district I represent. I thank him very kindly.

Mr. BAUMAN. Mr. Speaker, will the gentleman yield?

Mr. ROONEY. I will be happy to yield to the gentleman from Maryland.

Mr. BAUMAN. I thank the gentleman from Pennsylvania for yielding, and for all the interest he has shown in the rail problems nationally, and in those in the Delmarva Peninsula of Delaware, Maryland, and Virginia.

Having testified before his committee many times, most recently a few months ago, I know that he is aware of the great concern expressed by the short line operators in the Delmarva Peninsula. They have said that changes in the funding formula could take place to their disservice, substantially reducing not only the amount of support they might have, but also their ability to operate at all since they are existing lessees of the Penn Central successor companies and not yet in a profitable situation.

What has the compromise done in a general sort of way to meet these concerns that were expressed to the gentleman's committee?

Mr. ROONEY. Well, understandably the change in the application formula will have significant effect upon the various States, of which the Delmarva Peninsula is a part.

The exact amount of the differences at this time are not known because there may be variations in the number of miles submitted by the various railroads, but nevertheless the administration has promised to request an appropriation in the amount of $100 million next year—an increase of $23 million—for this program. Thus, hopefully, we will be able to work out this problem.

Mr. BAUMAN. Am I correct that there will be no change for the coming year in the funding levels now in the law?

Mr. ROONEY. That is correct. These changes take effect commencing in fiscal year 1980.

Mr. BAUMAN. So that at the very least this will give us an additional 12 months to try to work out the problems the short line operators now have?

Mr. ROONEY. That is correct.

Mr. SIMON. Mr. Speaker, will the gentleman yield?

Mr. ROONEY. I yield to the gentleman from Illinois.

Mr. SIMON. Mr. Speaker, since we are on railroad legislation, let me mention one thing I have discussed with the gentleman from Pennsylvania (Mr. ROONEY) before and that is the ponderously slow movement of the Federal Railroad Administration toward moving on safety devices. I am specifically talking about strobe lights or oscillating lights to be required on the front of locomotives. There have been three studies which have been made by the FRA which have indicated that such things will save lives and save money for the railroads. We are—I hope—gradually getting there, but I am unimpressed by the way they move so slowly. I hope we can get some assistance from the chairman of the subcommittee in moving them in the right direction.

Mr. ROONEY. Know the gentleman's concern and I commend him for his interest in safety on railroads. I have been informed by the FRA that regulations on this matter should be issued this fall which will satisfactorily resolve the matter.

Mr. CARTER. Mr. Speaker, I yield such time as he may consume to the ranking minority member of the subcommittee, the gentleman from Kansas (Mr. SKUBITZ).

Mr. SKUBITZ. Mr. Speaker, I deeply appreciate that.

Mr. Speaker, the gentleman from Pennsylvania (Mr. ROONEY) has done an excellent job explaining this bill to the House. I know that everybody is happy with it.

Mr. Speaker, if my distinguished colleague, the gentleman from Kentucky (Mr. CARTER), will yield to the distinguished gentleman from Massachusetts (Mr. CONTE), I will appreciate it.

Mr. CARTER. Mr. Speaker, since the gentleman from Kansas has been such a close friend of mine over the years and the gentleman from Massachusetts is also quite a good friend, I yield to the gentleman from Massachusetts such time as he may consume.

Mr. CONTE. Mr. Speaker, at the outset I want to take this opportunity to commend the gentleman from Pennsylvania (Mr. ROONEY) not only for his leadership on this particular legislation but also for his leadership down through the years on railroad legislation. He has been one who has done his homework well, studied the problems, and knows the problems of the railroads in our country. He has come forth with monumental railroad legislation which will benefit this Nation for many, many years. Also I would commend the gentleman from Kansas (Mr. SKUBITZ), my good friend the ranking minority member of the subcommittee, who will no longer be with us after this Congress adjourns sine die. He has been a bulwark of strength here not only on the subcommittee but also in the Congress, and also on my baseball team. Many years ago he was one of the finest baseball players I ever coached on the congressional baseball team on the Republican side.

Mr. ROONEY. If the gentleman will yield, was the gentleman from Kansas an active player or a back bench one?

Mr. CONTE. He was a really outstanding player and an active player and a guy with a hell of a glove. If I ever were to award the golden glove to anybody, it would be to the gentleman from Kansas.

Mr. SKUBITZ. Mr. Speaker, if the gentleman will yield, I appreciate those kind remarks, but as I recall that was the first and the last time that the Republicans lost and I think it was my presence on the field that brought about that defeat.

Mr. CONTE. Mr. Speaker, we are going to miss the gentleman from Kansas. As he said in the fine letter he sent to some of his colleagues, we are not saying goodbye because we are going to have the gentleman back here in the next decade or two and we want him to come back because we love him and respect him and we are going to miss him greatly.

Mr. Speaker, I am pleased to rise in support of this legislation. It will make a major improvement in the State rail assistance program and it is in the interests of better transportation throughout the nation.

In the past I have, at times, been critical of the Federal Railroad Administration because of the relative slowness with which funds were committed to the Nation's railroads. However, I am convinced that the Federal Railroad Administration officials were very sincere in their efforts to administer the program in the interests of the overall transportation program of the Nation. I have been particularly impressed with the efforts of the FRA in recent weeks to conclude agreements with a number of railroads and to commit practically all of their appropriated funds before the end of the fiscal year. They worked hard and long to assure that the funds available to them were put into critical track projects throughout the nation.

I was particularly pleased, of course, that their negotiations with the Boston & Maine Railroad were concluded in a $26 million trustee certificate for important trackwork on the B. & M. main line. Much of the work to be performed under this funding will be in my congressional district and will create new jobs, not only on the railroad, but in industries served by the railroad as well. The FRA showed great flexibility and concern in their efforts in dealing with difficult problems involved in the B. & M.'s present position of reorganization under the bankruptcy courts.

Today the bill which is before us contains language which I very strongly support which will give the FRA additional room for flexibility for dealing with railroads such as the Boston & Maine. This language will allow them to waive the "liquidation finding" when a project which is clearly in the public interest is pegged in the hierarchy of debt of a bankrupt corporation in such a way as to give the Government adequate security. This amendment is a greatly scaled-down version of a fine proposal put forth by Congressman MARTIN RUSSO. It is not as presently a cure-all for all of the administrative problems faced by bankrupt carriers and at least one of them, the Rock Island, feels that it will not be applicable to resolving their difficulties in seeking Federal financing. However, the Boston & Maine feels that it potentially could be of great assistance in resolving their own security position with the FRA. I believe it could potentially also be of assistance to the Milwaukee and to the Delaware & Hudson as well, should they be forced to declare bankruptcy in the future. It gives the FRA additional flexibility and, given the indications we have received of their willingness to work hard to get money into track projects, I believe that it will be helpful in working with applications of bankrupt carriers. I understand that this language has been checked with the Federal Railroad Administration and, while they do not officially endorse it, it is completely consistent with the capital needs report released by the FRA report earlier this week.

Mr. CARTER. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Montana (Mr. MARLENEE) and, in addition, I yield the balance of my time to the ranking member, the gentlman from Kansas (Mr. SKUBITZ).

Mr. MARLENEE. Mr. Speaker, I rise in order to make it known that my vote in favor of this bill in no way lessens my enthusiasm for the amendment that I had planned to offer, designed to provide up to $135 million in loans for the Milwaukee Railroad, to be used for rehabilitation of the roadbed west of Minneapolis, Minn. I regret that the chairman has decided to bring this bill up under suspension of the rules.

At a meeting held yesterday in Montana, the trustee of the railroad stated that the line cannot operate in its present condition and that there is no money to rehabilitate it in the manner it should be. The importance of this transcontinental railroad cannot be overstated. The Milwaukee Railroad is currently considering the abandonment of its Pacific coast extension which runs from Minneapolis to the west coast. The economic potential of the agricultural States through which the Milwaukee runs with their huge, untapped energy resources, will be severely limited should the railroad be allowed to deterioriate and eventually be abandoned. In Montana alone it is estimated the coal reserves are over 100 billion tons—one-third of the Nation's supply. The most efficient way to move that coal is by train.

Jobs, more than 2,000 railroad employees of all classes and crafts, will be lost if the railroad is not financially helped. Hundreds of shippers in cities and towns completely dependent on continued rail service will be adversely impacted unless something is done immediately.

Present and future economic considerations must be realized for the seven States directly affected, as well as the rest of the Nation. The Milwaukee provides a vital link between the food and fuel of the northern tier and the rest of the country.

I hope that the importance of the Milwaukee is not lost sight of and that it will be able to remain a potent transportation route. I firmly believe the continuation of the Milwaukee is an important factor for the Nation's transportation, industry, agricultural, and future energy needs.

Mr. SKUBITZ. Mr. Speaker, I yield back the balance of my time.

Mr. ROONEY. Mr. Speaker, I yield such time as he may consume to the distinguished chairman of the Committee on Interstate and Foreign Commerce, the gentleman from West Virginia (Mr. STAGGERS).

Mr. STAGGERS. Mr. Speaker, the primary purpose of H.R. 11979 is to improve existing financial assistance programs to enable the States to preserve and enhance essential rail freight services within their borders. The bill does not contain any new authorizations.

Mr. Speaker, in many instances, it is uneconomical for private railroads to continue service to shippers on light density branch lines, although these lines are essential to shippers as an outlet to markets and to the economic health and employment stability of the communities served. With infusion of financial assistance in appropriate forms, many deteriorated branch lines in a poor financial posture can be successfully rehabilitated, both physically and financially. The Federal branch line assistance program, established on a cost-sharing basis with the States, encourages the States to make responsible decisions about the allocation of finite resources to address their branch line problems This bill gives the States additional flexibility within defined guidelines to deal with those problems.

Under existing law, financial assistance can only be channeled into abandoned and similar lines. This bill permits rehabilitation assistance to be used for lines, which, although not yet abandoned, appear to be likely candidates for abandonment. Timely infusion of assistance can prevent further deterioration, while a permanent solution to a particular branch line problem is set in motion. Often, these solutions will involve cooperation among States, communities, shippers, and carriers, all of whom will benefit by revitalized service.

The bill also extends for 1 year the railroad rehabilitation and improvement financing fund established in the Railroad Revitalization and Regulatory Reform Act of 1976 and liberalizes certain restrictive funding conditions in existing law. Additionally, the bill amends the Interstate Commerce Act to renew until July 1, 1980, an expired provision in existing law permitting railroad ratemaking flexibility within a 7-percent zone of reasonableness.

Mr. Speaker, this bill makes many important improvements to programs that are vital to many communities and shippers dependent on rail service. It will materially assist in solving many pressing problems confronting these communities and shippers. Therefore, I urge the passage of the bill.

Mr. BEDELL. Mr. Speaker, I rise in support of H.R. 11979, the Local Rail Service Assistance Act of 1979, and ask permission to revise and extend my remarks.

Mr. Speaker, in testimony presented last July before the Subcommittee on Transportation and Commerce, I voiced my strong support for the key provisions embodied in H.R. 11979. I firmly believed then, as I still do today, that the changes made by this bill will do much to remedy some of the critical problems which plague railroad rehabilitation today. These changes include: Streamlining procedures by which States receive Federal funding for railroad branch line rehabilitation, giving the States greater flexibility in allocating these funds to prioritize projects by minimizing Federal involvement, and allowing the distressed lines to remain under private ownership.

In that same testimony, I also urged the subcommittee to rectify a major shortcoming in the Local Rail Assistance Act of 1979 by adding a provision to broaden the scope of the project eligibility criteria in order to allow States more discretion in utilizing Federal funds on branch lines that are economically viable and that have not gone through abandonment or been classified as category 1 or 2 lines. I am pleased that, after much delicate negotiating by the principals involved, this needed change has been made in the final version of H.R. 11979, and I would like to take this opportunity to commend both the distinguished chairman of the committee, Mr. STAGGERS, and the chairman of the Transportation Subcommittee, Mr. ROONEY, for their diligent effort in making its inclusion a reality.

Under current law, only the most debilitated and least-needed lines can be assisted. H.R. 11979, as originally drafted, acknowledged the need for expansion in project eligibility criteria, but it did not go far enough in meeting this need. The bill which we are considering today has been improved by allowing the States to

use Federal funds on lines other than category 1 and 2 lines that carry up to 3 million gross ton-miles of freight annually. The measure would further provide that such eligibility could be expanded up to 5 million gross ton-miles—which is what the Senate version contains—if the Secretary of Transportation were to determine that it was in the public interest.

Let me take a moment at this point to explain why such a provision is so badly needed, A good example comes from my own State of Iowa which, I am proud to say, has one of the most progressive and capable State departments of transportation in the Nation. The Iowa rail system plan has identified nearly 1,200 miles of branch line track as priority projects for branch line rehabilitation. The estimated price tag of these projects is $52 million. Had the provision to expand branch line eligibility criteria not been included in this bill, virtually none of these projects could have been funded because none have been designated as either category 1 or 2 lines. Such a development would have been a terrible waste, since the opportunity to prevent further deterioration of these branch lines, before the cost effectiveness of salvaging them is severely reduced, would have been lost.

Simply put, Mr. Speaker, the new eligibility expansion language makes operative the old adage, "an ounce of prevention is worth a pound of cure." And, it is significant to note, the new language would not result in any increase or shift in the allocation of appropriated funds. It merely allows the States to use these funds more wisely.

This Nation is finding out the hard way that its rail industry is a vital cog in the national economic machine. We are now paying for years of abuse and benign neglect. Legislation like H.R. 11979 signals our readiness to reverse that ill-advised approach and to get down to the business of making our railroads responsive to the demands being placed upon them.

I urge my colleagues to support this important piece of legislation.

● Mr. ABDNOR. Mr. Speaker, I wish to associate myself with the remarks made earlier by Messrs. ROONEY, SKUBITZ, and MADIGAN in support of H.R. 11979, the Local Rail Service Assistance Act of 1978.

Earlier this year I testified before the Interstate and Foreign Commerce Subcommittee on Transportation and Commerce. At that time I stressed the importance of continued Federal assistance to the States so that they may make full use of the provisions stated in the Railroad Revitalization and Regulatory Reform Act of 1976.

In order to maximize the benefits accrued from the 4–R Act, more flexibility is needed to allow individual States to funnel funds into lines they deem as top priority. This is important because of the emphasis placed on rehabilitation of branch lines before they have deteriorated to a point at which abandonment becomes necessary.

The 4–R Act resulted in the establishment of State railroad planning offices. These offices have developed a good working relationship between Federal, State, and local units of government, as well as the railroads and shippers. State rail plans have been formulated to implement this program. I am proud to note that my State of South Dakota was the first in the Nation to accomplish its State rail plan.

Mr. Speaker, this legislation modifies the 4–R Act to provide for a more efficient means of implementing a good local rail program. H.R. 11979 provides flexibility to the States, allowing distressed lines to remain under private ownership.

Funds for rehabilitation projects will be available on an 80–20 basis—the same as highway and urban mass transit funds.

Mr. Speaker, now is the time for enactment of this legislation. Recently, the trustee for the bankrupt Milwaukee Railroad announced the possibility of the abandonment of all lines running west from Minneapolis to the Pacific coast. Its operation affects seven northern-tier States whose communities depend on rail transportation. In South Dakota, more than 1,500 miles of track, representing 51 percent of the total trackage, is classified as potentially subject to abandonment. If all Milwaukee lines in my State are abandoned, these figures will escalate tremendously.

The Local Rail Service Assistance Act will save many of these lines from being abandoned. Economic assistance must be available early enough to avoid deterioration of service. As a result, railroads will continue to provide a fast, economical and energy-efficient method of transportation.●

● Mr. FLORIO. Mr. Speaker, there is a serious problem which threatens our Nation's rail transportation which we cannot ignore. From July 10, 1978, until September 27, 1978, the Brotherhood of Railway and Airline Clerks struck the Norfolk & Western Railroad after failing in nearly 2 years of negotiations, to reach an agreement.

This strike had a disasterous economic result in the 17 States through which the Norfolk & Western runs. Eventually, the strike expanded to nearly all railroads in the country other than ConRail, Amtrak, and a few others. It was only after the strike paralyzed our Nation's rail traffic that the administration quickly intervened. The administration first attempted marathon, round the clock bargaining, which failed, and finally, President Carter named a Presidential Emergency Board to deal with the dispute.

It has been alleged that one of the reasons the Norfolk & Western did not reach agreement was because the railroad was receiving $800,000 per day under an insured mutual aid pact. The pact is called a "service interruption policy" and is financed by 73 railroads. Its effect is to not only shield a struck carrier against loss, but they also receive economic benefits during a work stoppage. A carrier under the "service interruption policy" can receive payments for 400 some days. Whereas workers strike benefits are limited to 130 days during a benefit year. Since the creation of the Presidential Emergency Board there is now a 60-day cooling-off period, covering 30 days of emergency board proceedings and an additional 30 day status quo period thereafter. But the Board so far has not settled the dispute. If the strike resumed after the 60-day cooling-off period the Norfolk and Western would be able to obtain its $800,000 per day in mutual aid pact benefits for approximately 320 additional days. This could impede the parties from agreeing to the recommendations of the Board, which are not binding, and we could be back to a nationwide rail strike at a time when Congress probably will not be in session—late November or early December.

Mr. ROONEY, chairman of the Transportation and Commerce Subcommittee scheduled hearings for September 29 on the ramifications of the railroad mutual aid pact. However, hearings were postponed since most of the scheduled witnesses were tied up in the strike action in one way or another and could not testify. It is my judgment that even if we are adjourned sine die at the time the chairman may want to schedule hearings to answer the many questions we have as to the effect of the mutual aid pacts.●

● Mr. RUSSO. Mr. Speaker, I concur with the remarks of the gentleman from New Jersey (Mr. FLORIO) about the national rail strike.

Through more than 2 months, there were more than 25,000 people out of work directly as a result of the Norfolk & Western strike, and 100,000 other workers—mine workers, construction workers, and automobile workers—were laid off. When the strike went nationwide, millions of workers—including 500,000 railroad workers—were not working. In addition, the effect on the economy of our Nation and the railroad industry, which is so vital to our Nation's recovering economy demands we take some action to learn more about this mutual aid pact; and then, armed with the facts, we can decide what if anything should be done about it.

I have received information that BRAC strikers received large benefits from unemployment compensation and union strike funds. I would like to examine this in light of the rail mutual aid pact.

The strikers did receive railroad unemployment benefits of $25 a day, as well as an additional $20 per week in strike benefits from the union. The law provides these unemployment benefits do not begin until the eighth day of a strike. Rail labor, some time ago, negotiated with the carriers and presented to Congress a package providing for the $25 per day unemployment benefits. This was an increase over the previous $12.50 per day. The Interstate and Foreign Commerce Committee presented H.R. 8714 to the 94th Congress, in July of 1975. The committee stated the package was the result of collective bargaining between rail unions and the carriers. The unions negotiated these unemployments for their members in lieu of other benefits such as wages and other fringes. It should be noted that H.R. 8714 passed this body by a recorded vote of 420 yeas to 0 nays.

And lastly, these strike benefits are not paid unless a strike is legal. I think it is

also important to point out, by the way, as I did in connection with an amendment offered by Congressman OBERSTAR dealing with the mutual aid pact in the airline industry, that comparing these two types of benefits is like a comparison of apples and oranges. The apples being the ability of a large corporation to continue during a strike to make a profit; and the oranges being an individual head of household who must meet basic food and housing needs, and must dip into his savings to exist. This difference in apples and oranges has severely complicated collective bargaining in both the railroad and airline industries.

The airline industry, during the pre-mutual-aid-pact era, averaged strikes of only 15 days. Now the average is more than double that amount. In fact, the last strike against Northwest Orient Airlines lasted 109 days.

It was unfortunate that the Subcommittee on Transportation and Commerce did not conduct their hearings as scheduled. However, I suggest that the chairman, Mr. ROONEY, may still want to schedule hearings for the subcommittee to determine whether such pacts should be permitted to exist or should be modified; and the effect they have on collective bargaining.●

Mr. ROONEY. Mr. Speaker, I have no further requests for time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. ROONEY) that the House suspend the rules and pass the bill H.R. 11979, as amended.

The question was taken; and (two-thirds having voted in favor thereof), the rules were suspended and the bill, as amended, was passed.

The title was amended so as to read: "A bill to amend section 5 of the Department of Transportation Act, relating to rail service assistance, and for other purposes."

A moton to reconsider was laid on the table.

Mr. ROONEY. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 2981) to amend the Department of Transportation Act as it relates to the local rail services assistance program, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The Clerk read the Senate bill as follows:

S. 2981

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Local Rail Services Act of 1978".

DECLARATION OF POLICY

SEC. 2. It is declared to be the policy of Congress in this Act that the Government shall assist in the provision of adequate transportation service to shippers and communities now served by light density lines. Federal funds shall be used to assist transportation services where such assistance provides economic benefits to the affected communities without placing a financial drain on the carriers providing that service.

Congress believes, however, that the parties benefiting from a Federal investment on a light density line must act to preserve the benefits of the Federal investment. Accordingly, Congress expects the States and local communities, shippers, and all elements of the railroad industry to commit themselves to long-term solutions which will enable the continued provision of adequate transportation service after the completion of the federally assisted projects.

EXPANSION OF ASSISTANCE

SEC. 3. Section 5(f) of the Department of Transportation Act (hereinafter referred to as the "DOT Act") (49 U.S.C. 1654(f)) is amended—

(1) by striking "purchasing a line of railroad or other rail properties" in paragraph (2) and inserting in lieu thereof "acquiring, by purchase, lease or in such other manner as the State considers appropriate, a line of railroad or other rail properties or any interest therein";

(2) by striking "and" immediately after the semicolon in paragraph (3);

(3) by striking the period at the end of paragraph (4) and inserting in lieu thereof a semicolon; and

(4) by adding the following new paragraphs at the end thereof:

"(5) the cost of constructing rail- or rail-related facilities (including new connections between two or more existing lines of railroad, intermodal freight terminals, and sidings), for the purpose of improving the quality and efficiency of local rail freight service; and

"(6) the cost of developing, administering, and evaluating innovative experimental programs that are designed to improve the quality and efficiency of service on lines of railroad eligible for assistance under this section and which involve cooperative action between State and local communities and railroad industry representatives or shippers.".

COST SHARING

SEC. 4. Section (5)(g) of the DOT Act (49 U.S.C. 1654 (g)) is amended to read as follows:

"(g) The Federal share of the costs of any rail service assistance program for any fiscal year is 80 percent. The State share of the costs may be provided in cash or through the following benefits, to the extent the benefit would not otherwise be provided: (1) forgiveness of taxes imposed on a common carrier by railroad or on its properties; (2) the provision by the State or by any person or entity on behalf of a State, for use in its rail service assistance program, of realty or tangible personal property of the kind necessary for the safe and efficient operation of rail freight service by the State; or (3) the cash equivalent of State salaries for State public employees working in the State rail services assistance program, but not including overhead and general administrative cost. If a State provides more than 20 percent of the cost of its rail service assistance program during any fiscal year, the amount in excess of the 20 percent contribution shall be applied toward the State's share of the costs of its program for subsequent fiscal years.".

FORMULA ALLOCATION

SEC. 5. Section 5(h) of the DOT Act (49 U.S.C. 1654(h)) is amended to read as follows:

"(h)(1) For the period October 1, 1978, through September 30, 1979, each State which is, pursuant to subsection (j) of this section, eligible to receive rail service assistance is entitled to an amount equal to the total amount authorized and appropriated for such purposes, multiplied by a fraction whose numerator is the rail mileage in such State which is eligible for rail service assistance under this subsection and whose denominator is the rail mileage in all of the States which are eligible for rail service assistance under this subsection. Notwithstanding the provisions of the preceding sentence, the entitlement of each State shall not be less than 1 percent of the funds appropriated. For purposes of this subsection, rail mileage shall be measured by the Secretary, in consultation with the Interstate Commerce Commission. For the purpose of calculating the formula under this subsection, the rail mileage which is eligible shall be that for which the Commission has found that (A) the public convenience and necessity permit the abandonment of, or the discontinuance of rail service on, the line of railroad which is related to such project; or (B) the line of railroad or related project was eligible for assistance under title IV of the Regional Rail Reorganization Act of 1973; and such line or related projects has not previously been the subject of Federal rail service assistance under this section for more than 5 fiscal years.

"(2) Effective October 1, 1979, every State which is eligible to receive rail service assistance pursuant to subsection (j) of this section is entitled annually to a sum from available funds as determined pursuant to this subsection. Available funds are funds appropriated for rail service assistance for that fiscal year and any funds to be reallocated for that fiscal year in accordance with this paragraph. Subject to the limitations contained in paragraph (3) of this subsection, the Secretary shall calculate each State's entitlement as follows:

"(A) two-thirds of the available funds multiplied by a fraction whose numerator is the sum of the rail mileage in the State which, in accordance with section 1a(5)(a) of the Interstate Commerce Act (49 U.S.C. 1a(5)(a)), is either 'potentially subject to abandonment' or with respect to which a carrier plans to submit, but has not yet submitted, an application for a certificate of abandonment or discontinuance; and whose denominator equals the total of such rail mileage in all the States; and

"(B) one-third of available funds remaining after completion of the calculations under paragraph (1)(A) of this subsection multiplied by a fraction whose numerator equals the rail mileage in the State for which the Interstate Commerce Commission, within 2 years prior to the first day of the fiscal year for which funds are allocated or reallocated under this section, has found that the public convenience and necessity permit the abandonment of, or the discontinuance of rail service on, the rail mileage, and including, until September 30, 1981, (1) the rail mileage which was eligible for assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762) and (2) all rail mileage in the State which has, prior to October 1, 1978, been included for formula allocation purposes under this section; and whose denominator equals the total rail mileage in all the States eligible for rail service assistance under this section for which the Interstate Commerce Commission has made such a finding and including, until September 30, 1981, (1) the rail mileage in all the States which was eligible for financial assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762) and (2) the rail mileage in all the States which had been, prior to the enactment of this amendment, included for formula allocation purposes under this section. For purposes of the calculation directed by this paragraph, no rail mileage shall be included more than once in either the numerator or the denominator. Notwithstanding the provisions of this subsection, each State is entitled to receive pursuant to this subsection not less than 1 percent of the total appropriation under subsection (q) of this section for that fiscal year.

"(3) For purposes of paragraphs (1) and (2) of this subsection, rail mileage shall be measured by the Secretary as of the first day of each fiscal year. Entitlement funds are available to a State during the fiscal year for which the funds are appropriated. In accordance with the formula stated in this subsection, the Secretary shall reallocate to each State eligible to receive rail service assistance under subsection (j) of this section a share of any entitlement funds which have not been the subject of an executed grant agreement between the Secretary and the State before the end of the fiscal year for which the funds were appropriated. Reallocated funds are available to the State for the same purpose and for the same time period as an original allocation and are subject to reallocation if not made the subject of an executed grant agreement between the Secretary and the State before the end of the fiscal year for which the funds were reallocated. Funds appropriated in fiscal year 1978 and prior years which are not the subject of a grant agreement when this bill becomes effective will remain available to the States during fiscal year 1979.".

PLANNING ASSISTANCE

SEC. 6. Section 5(i) of the DOT Act (49 U.S.C. 1654(i)) is amended to read as follows:

"(i) During each fiscal year, a State may expend not to exceed $100,000, or 5 percent, whichever is greater, of it annual entitlement under subsection (h) of this section to meet the cost of establishing, implementing, revising, and updating the State rail plan required by subsection (j) of this section.".

PROJECT ELIGIBILITY

SEC. 7. Section 5(k) of the DOT Act (49 U.S.C. 1654(k)) is amended to read as follows:

"(k)(1) On August 1 of each year, each carrier by railroad subject to part I of the Interstate Commerce Act, shall prepare, update, and submit to the Secretary a listing of those rail lines which, based on a level of usage, carried 5 million gross tons of freight or less per mile during the prior year.

"(2) A project is eligible for financial assistance under paragraph (1) of subsection (f) of this section only if—

"(A)(i) the Interstate Commerce Commission has found. since February 5, 1976, that the public convenience and necessity permit the abandonment of, or the discontinuance of rail service on, the line of railroad which is related to the project; or (ii) the line of railroad or related project was eligible for assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762); and

"(B) the line of railroad or related project has not previously received financial assistance under paragraph (1) of subsection (f) of this section for more than 36 month: *Provided, however,* That a line of railroad or related project which was eligible for financial assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762) or under this section prior to October 1, 1978, is eligible only until September 30, 1981.

"(3) A project is eligible for financial assistance under paragraph (2) of subsection (f) of this section only if—

"(A)(i) the Interstate Commerce Commission has found, since February 5, 1976, that the public convenience and necessity permit the abandonment of, or the discontinuance of rail service on, the line of railroad related to the project; or (ii) the line of railroad related to the project is listed for possible inclusion in a rail bank in part III, section C of the Final System Plan issued by the United States Railway Association under section 207 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 717); or (iii) the line of railroad related to the project was eligible to be acquired under section 402(c)(3) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762(c)(3)). A line of railroad or related project which was eligible for financial assistance under such section 402 or under this section prior to October 1, 1978, is eligible only until September 30, 1981; and

"(B) the Secretary finds that the project satisfies benefit/cost criteria developed by the Secretary under subsection (o) of this section.

"(4) A project is eligible for financial assistance under paragraphs (3) and (5) of subsection (f) of this section only if—

"(A) the line of railroad related to the project is contained in the most recent submission under paragraph (1) of this subsection, and the project has been approved by the affected railroad; and

"(B) the Secretary finds that the project satisfies benefit/cost criteria developed by the Secretary under subsection (o) of this section.

"(5) A project is eligible for financial assistance under paragraph (4) of section (f) of this section only if—

"(A)(i) the Interstate Commerce Commission has found, since February 5, 1976, that the public convenience and necessity permit the abandonment of, or the discontinuance of rail service on, the line of railroad which is related to the project; or (ii) the line of railroad or related project was eligible for financial assistance under section 402 of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 762): *Provided,* That a line of railroad or related project which was eligible for assistance under this section or such section 402 prior to October 1, 1978, shall remain eligible for financial assistance only until September 30, 1981; and

"(B) the Secretary finds that the project satisfies benefit/cost criteria developed by the Secretary under subsection (o) of this section.

"(6) A project is eligible for financial assistance under paragraph (6) of subsection (f) of this section only if—

"(A) there is a reasonable likelihood that it will improve the quality and efficiency of local rail freight service by increasing operating efficiency, reducing the cross subsidization of unprofitable portions of a system by profitable portions of a system, or increasing productivity of workers; and

"(B) the cooperative action project shall not exceed 18 months in duration.".

TECHNICAL AMENDMENTS

SEC. 8. (a)(1) Section 5(o) of the DOT Act (49 U.S.C. 1654(o)) is redesignated as section 5(q).

(2) The first sentence of subsection (m)(1) of section 5 of the DOT Act (49 U.S.C. 1654(m)(1)) is amended by striking "(o)" and inserting in lieu thereof "(q)".

(b) The third sentence of subsection (q) of section 5 of the DOT Act, as redesignated by subsection (a) of this section, is amended to read as follows: "In addition, any appropriated sums ranging after the repeal of section 402 of the Regional Rail Reorganization Act of 1973 and of section 810 of the Railroad Revitalization and Regulatory Reform Act of 1976 are authorized to remain available to the Secretary for purposes of subsections (f) through (q) of this section.".

(c) Section 810 of the Railroad Revitalization and Regulatory Reform Act of 1976 (49 U.S.C. 1653a) is repealed.

BENEFIT-COST CRITERIA

SEC. 9. Section 5 of the DOT Act (49 U.S.C. 1654) is further amended by adding after subsection (n) thereof a new subsection (o) as follows:

"(o) The Secretary, in cooperation with representatives chosen by the States, shall, within 60 days of the effective date of this subsection, promulgate regulations establishing criteria to be used by the Secretary to determine the ratio of benefits to costs of proposed projects eligible for assistance under paragraphs (2) through (5) of subsection (k) of this section. During the period prior to the Secretary's promulgation of such a methodology, the Secretary shall continue to fund projects on a case-by-case basis where he has determined, based upon analysis performed and documented by the States, that the public benefits associated with the project outweigh the public costs of that project.".

REHABILITATION ASSISTANCE

SEC. 10. Section 5 of the DOT Act (49 U.S.C. 1654) is further amended by adding after subsection (o), as added by section 9 of this Act, a new subsection (p) as follows:

"(p) A State shall use financial assistance provided under paragraph (3) of subsection (f) of this section as follows:

"(1) The funds shall be used to rehabilitate or improve rail properties in order to improve local rail freight service within the State.

"(2) The State, in its discretion, shall grant or loan funds to the owner of rail properties or operator of rail service related to the project.

"(3) The State shall determine the financial terms and conditions of a grant or loan.

"(4) The State shall place the Federal share of repaid funds in an interest-bearing account, or with the approval of the Secretary, permit any borrower to place such funds for the benefit and use of the State, in a bank which has been designated by the Secretary of the Treasury, in accordance with section 265 of title 12, United States Code. The State shall use such funds and all accumulated interest to make further loans or grants under paragraph (3) of subsection (f) of this section in the same manner and under the same conditions as if they were originally granted to the Secretary. The State may at any time pay to the Secretary the Federal share of any unused funds and accumulated interest. After the termination of a State's participation in the local rail service assistance program established by this section, it shall pay the Federal share of any unused funds and accumulated interest to the Secretary.".

COMBINATION OF ENTITLEMENTS

SEC. 11. Section 5 of the DOT Act (49 U.S.C. 1654) is further amended by adding after subsection (q) as redesignated by section 8 of this Act, a new section (r) as follows:

"(r) Two more States that are eligible for local rail assistance under this section may, subject to agreement between or among them, combine their respective Federal entitlements under subsection (h) of this section in order to improve rail properties within their respective States or regions. Such combination of entitlements, where not violative of State law, shall be permitted, except that—

"(A) combined funds may be expended only for purposes listed in this section; and

"(B) combined funds that are expended in one State subject to the agreement entered into by the involved States, and which exceed what the State could have expended absent any agreement, must be found by the Secretary to provide benefits to eligible rail services within one or more of the States which is party to the agreement.".

AMENDMENTS TO THE INTERSTATE COMMERCE ACT

SEC. 12. (a) Section 1(14) of the Interstate Commerce Act (49 U.S.C. 1(14)) is amended—

(1) by designating subsection (b) thereof as subsection (c); and

(2) by adding a new subsection (b), as follows:

"(b) The Commission may, upon petition and after a hearing on the record, and upon

finding that a carrier by railroad subject to this part has materially failed to furnish safe and adequate car service as required by subsection 1(11), require such railroad to provide itself with such facilities or equipment as may be reasonably necessary to meet such obligation, provided the evidence of record establishes, and the Commission affirmatively finds, that—

"(1) The provision of such facilities or equipment will not materially and adversely affect the railroad's ability to otherwise provide safe and adequate transportation services;

"(2) The expenditure required for such facilities or equipment, including a return which equals or exceeds the railroad's current cost of capital, will be recovered; and

"(3) The provision of such facilities or equipment will not impair the railroad's ability to attract adequate capital.".

(b) Section 1a(4) of the Interstate Commerce Act (49 U.S.C. 1a(4)) is amended by adding at the end thereof the following new sentence: "The terms and conditions referred to in subsection (b) of this paragraph may include a direction, where the Commission finds it to be in the public interest to do so, awarding trackage rights to another common carrier by railroad or to a State, or a political subdivision thereof, over all or any portion of the lines of the applicant's railroad, solely for the purpose of moving equipment and crews in nonrevenue service between any lines operated by such other carrier, State, or political subdivision. In making such determination, the Commission shall consider the views of any State or other party directly affected by such abandonment or discontinuance and shall fix just and reasonable compensation, in accordance with section 3(5) of this part, for such trackage rights.".

AMENDMENTS TO THE REGIONAL RAIL REORGANIZATION ACT OF 1973

SEC. 13. Section 304(e) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 744(e)) is amended—

(1) by—

(A) striking the comma at the end of paragraph (4)(B), and inserting in lieu thereof "; or"; and

(B) adding the following new subparagraph after paragraph (4)(B):

"(C) offers a rail service continuation payment, pursuant to subsection (c)(2)(A) of this section and regulations issued by the Office pursuant to section 205(d)(5) of this Act, for the operation of rail passenger service provided under an agreement or lease pursuant to section 303(b)(2) of this title or subsection (c)(2)(B) of this section where such offer is made for the continuation of the service beyond the period required by such agreement or lease: *Provided*, That such services shall not be eligible for assistance under section 17(a)(2) of the Urban Mass Transportation Act of 1964 (49 U.S.C. 1613(a)(2), as amended;"; and

(2) by adding at the end thereof the following new paragraphs:

"(7) If a State (or a local or regional transportation authority) in the region offers to provide payment for the provision of additional rail passenger service (as hereinafter defined), the Corporation shall under take to provide such service pursuant to this subsection (including the discontinuance provisions of paragraph (2) hereof). An offer to provide payment for the provision of additional rail passenger service shall be made in accordance with subsection (c)(2)(A) of this section and under regulations issued by the Office pursuant to section 205(d)(5) of this Act, and shall be designed to avoid any additional costs to the Corporation arising from the construction or modification of capital facilities or from any additional operating delays or costs arising from the absence of such construction or modification. The State (or local or regional transportation authority) shall demonstrate that it has acquired, leased, or otherwise obtained access to all rail properties other than those designated for conveyance to the National Railroad Passenger Corporation pursuant to sections 206(c)(1)(C) and 206(c)(1)(D) of this Act and to the Corporation pursuant to section 303(b)(1) of this title necessary to provide the additional rail passenger service and that it has completed, or will complete prior to the inception of the additional rail service, all capital improvements necessary to avoid significant costs which cannot be avoided by improved scheduling or other means on other existing rail services, including rail freight service and to assure that the additional service will not detract from the level and quality of existing rail passenger and freight service. As used in this section, "additional rail passenger service" shall mean rail passenger service (other than rail passenger service provided pursuant to the provisions of paragraphs (2) and (4) of this subsection) including extended or expanded service and modified routings, which is to be provided over rail properties conveyed to the Corporation pursuant to section 303(b)(1) of this title, or over (A) rail properties contiguous thereto conveyed to the National Railroad Passenger Corporation pursuant to this Act or (B) any other rail properties contiguous thereto to which a State (or local or regional transportation authority) has obtained access. Any provision of this paragraph to the contrary notwithstanding, the Corporation shall not be required to operate additional rail passenger service over rail properties leased or acquired from or owned or leased by a profitable railroad in the region.

"(8) The Secretary, in consultation with the Association, shall undertake a study to determine the best means of compensating the Corporation for liabilities which it may incur for damages to persons or property resulting from the operation of rail passenger service required to be operated pursuant to this subsection, or section 303(b)(2) of this title which are not underwritten by private insurance carriers or are not indemnified by a State (or local or regional transportation authority). The study shall identify the nature of the risk to the Corporation, the probable degree of uninsurability of such risks, the desirability and feasibility of various indemnification programs including subsidy offers made pursuant to this section, self insurance through a passenger tax or other mechanism or government indemnification for such liabilities. Within one year of the date of enactment of this paragraph, the Secretary shall prepare a report with appropriate recommendations and shall submit the report to Congress. Such report shall specify the most appropriate means of indemnifying the Corporation for such liabilities in a manner which shall prevent the cross-subsidization of passenger services with revenues from freight services operated by the Corporation.".

CHICAGO, MILWAUKEE, AND SAINT PAUL RAILROAD, REVIEW OF

SEC. 14. The Federal Railroad Administration is required to promptly review the condition of the Chicago, Milwaukee, and Saint Paul Railroad and to consider assisting the railroad in loans for roadbed and track improvement.

EFFECTIVE DATE

SEC. 14. This Act shall take effect on October 1, 1978.

MOTION OFFERED BY MR. ROONEY

Mr. ROONEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. ROONEY moves to strike out all after the enacting clause of the Senate bill S. 2981, and insert in lieu thereof provisions of H.R. 11979, as passed by the House.

The motion was agreed to.

The Senate bill was ordered to be read a third time, was read the third time, and passed and a motion to reconsider was laid on the table.

The title was amended so as to read: "A bill to amend section 5 of the Department of Transportation Act, relating to rail service assistance, and for other purposes.".

A motion to reconsider was laid on the table.

A similar House bill (H.R. 11979) was laid on the table.

AMENDING SENATE AMENDMENTS TO USRA AUTHORIZATION

Mr. ROONEY. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 1433), to provide that the bill (H.R. 10898) to amend the Regional Rail Reorganization Act of 1973 to authorize appropriations for the United States Railway Association for fiscal year 1979, with the Senate amendments thereto, be taken from the Speaker's table, and that the Senate amendments be agreed to with amendments.

The Clerk read as follows:

H. RES. 1433

Resolved, That upon the adoption of this resolution, the bill (H.R. 10898) to amend the Regional Rail Reorganization Act of 1973 to authorize appropriations for the United States Railway Association for fiscal year 1979, with the Senate amendments thereto, be, and the same is hereby, taken from the Speaker's table to the end that—

(1) Senate amendments numbered 1, 2, and 4 be, and the same are hereby, agreed to;

(2) Senate amendment numbered 3 be, and the same is hereby agreed to with an amendment as follows:

In lieu of the matter inserted by Senate amendment numbered 3, insert the following:

SEC. 3. (a) Section 211(d) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 721(d)) is amended by adding at the end thereof the following: "Notwithstanding any other provision of this section, in the case of a loan made under subsection (a) of this section to a railroad in the region, the Association may, upon the request of such railroad—

"(1) continue to make advances to such railroad pursuant to such loan, up to the total pirncipal provided, as of the date of enactment of this sentence, under the agreement between such railroad and the Association under this section, upon finding only that (A) a good faith effort has been commenced by such railroad toward the establishment of an employee stock ownership plan, and (B) such continued advances will permit the continuation of rail service determined by the Association, in the Final System Plan or under the goals of this Act, to be desirable; and

"(2) increase the principal amount of such loan to such railroad, in an amount not to exceed $2,000,000, only if the Association makes the finding referred to in paragraph (1)(B) of this subsection and such railroad has in effect an employee stock ownership plan which has been approved by the Association.

"The Association may not take any action pursuant to the preceding sentence of this subsection after December 31, 1979.".

(b) Section 3(a) of the Emergency Rail Services Act of 1970 (45 U.S.C. 662(a)) is

amended by adding at the end thereof the following new sentence: "Notwithstanding any other provision of this section, the Secretary, in guaranteeing certificates under this section, is authorized to waive the findings required by paragraphs (1), (5), and (6) of this subsection upon a finding that the guarantee of certificates is necessary in order for a railroad which has received continued loan advances, pursuant to section 211(d)(1) of the Regional Rail Reorganization Act of 1973, to maintain rail services in the region (as such term is defined in section 102(15) of such Act). The Secretary may not make any waiver under the preceding sentence after December 31, 1979."; and

(3) Senate amendment numbered 5 be, and the same is hereby, agreed to with an amendment as follows:

In lieu of the matter inserted by Senate amendment numbered 5, insert the following:

SEC. 5. Section 17(9)(f)(1) of the Interstate Commerce Act (49 U.S.C. 17(9)(f)(1)) is amended to read as follows:

"(1) a majority of the Commissioners, by public vote, agree to such further extension; and".

SEC. 6. (a) The Secretary of Transportation shall conduct an investigation and study for purposes of determining equitable rates to be charged for the rental of Alaska Railroad lands. In carrying out such investigation and study, the Secretary shall consider—

(1) the per centum increase in such rates proposed after 1977 as compared with rates in effect on January 1, 1977;

(2) the services and the quality thereof provided by the rentors of such land and the services and the quality thereof received by such rentors from such railroad;

(3) the burden on commerce which may result from such proposed rate increase; and

(4) such other factors as may be appropriate.

The Secretary shall report the results of such investigation and study to the Congress not later than one year after the date of enactment of this Act.

(b) Prior to 180 days after the date on which the Secretary's report pursuant to subsection (a) is received by the Congress, rental charges on lands rented by the Alaska Railroad shall not be increased by more than 100 per centum of the amount charged for such land on January 1, 1977.

The SPEAKER pro tempore. Is a second demanded?

Mr. SKUBITZ. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Pennsylvania (Mr. ROONEY) and the gentleman from Kansas (Mr. SKUBITZ) will be recognized for 20 minutes each.

The Chair recognizes the gentleman from Pennsylvania (Mr. ROONEY).

Mr. ROONEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, when the House passed the USRA authorization, it included an amendment designed to assist the Delaware & Hudson Railroad. The U.S. Railway Association had determined that it was unable to permit an additional drawdown of funds on a previously approved loan because in its opinion, the railroad was unable to satisfy the criteria for such loans included in section 211 of the Regional Rail Reorganization Act of 1973.

The House, in an effort to provide sufficient funds to the D. & H. while the Federal Railroad Administration completes its section 401 study and for the USRA and the New England Regional Commission to complete their study, amended the 3–R Act to permit USRA to modify the findings in section 211 so as to allow the D. & H. to make further drawdowns of the funds. The Senate, however, provided that Secretary of Transportation could guarantee trustee certificates for a bankrupt railroad in the region to maintain services until December 31, 1979.

The Department of Transportation stated at the Transportation and Commerce Subcommittee's hearing on August 15, 1978, that in the event the D. & H. filed a petition for bankruptcy, it would be unable to provide it with funds from the Emergency Rail Services Act of 1970, because this act also contained a provision which would preclude assistance to the D. & H.

The amendment has now been drafted to provide that a railroad in the region which has been loaned funds pursuant to section 211(a) may request USRA to continue payments of such loan, but not to exceed the existing loan commitment, if USRA finds only that a good faith effort has been commenced to establish an employee stock ownership plan by such railroad and such continued payments will permit the continuation of rail service determined by the USRA in the final system plan in order for the goals of the 3–R Act to be desirable. This provision permits USRA to continue payments under the original loan commitment without making the findings heretofore required in section 211 (e) and (f), however, still subject to the necessary prerequisite in section 210(b). USRA may still provide an additional $2 million to such railroad upon its request, if USRA makes the same finding as in section 211(d)(1)(B), and such railroad has in effect an employee stock ownership plan.

The second part of the amendment provides that the Secretary of Transportation, in guaranteeing trust certificates, may waive the findings in paragraphs (1), (5), and (6), if he finds that the guarantee of certificates is necessary in order for a railroad which has received continued payments of a loan under section 211(d)(1) of the 3–R Act to maintain services in the region, until December 31, 1979.

In short, the amendment that I am proposing basically includes the provisions both of the House bill and the Senate bill, with the added condition that an Employee Stock Ownership Plan be established. In this way, the railroad and the USRA board will have an option to attempt to solve the railroad's financial problems in the best available means at the time the funds are required. The amendment does not mandate that the railroad file for bankruptcy before becoming eligible for assistance. By the same token, the USRA is not obliged to provide further drawdowns of the loan funds. Rather, what Congress is doing is removing the barriers in the 3–R Act and the Emergency Rail Services Act which the USRA and the Department indicated prevented providing assistance to the D. & H.

I believe that this arrangement is eminently fair in that it provides the mechanism for the best chance for the railroad to continue the services which are essential to the region it serves.

Mr. Speaker, I would like to take a moment to thank my colleagues on both sides of the aisle for the assistance they have rendered in preparing this legislation, in particular Representatives HANLEY, STRATTON, MCDADE, and CONTE, who provided my staff and me invaluable time and effort on this important legislation.

Mr. SKUBITZ. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 10898, the authorization for U.S. Railway Association.

As you know this bill passed the House on August 17 with an amendment. The amendment was a simple provision that would have facilitated additional money for the Delaware & Hudson Railroad.

At that time it was pointed out that the Delaware & Hudson had become involved in Government-originated expansion as a result of the final system plan.

In short the Delaware & Hudson had doubled its operating territory while falling prey to a considerable loss in bridge traffic as a result of the elimination of the Erie Lackawanna & Lehigh Valley Railroads once they were folded into ConRail.

The Senate passed the bill on September 14—but instead of accepting the House amendment to assist the Delaware & Hudson Railroad—the Senate substituted an amendment which would make loans easier under the Emergency Rail Services Act.

Unfortunately, loans under the Emergency Rail Services Act can be made only to bankrupt railroads. At this point in time, the Delaware & Hudson Railroad is not bankrupt.

Mr. Speaker, during the last several weeks, numerous discussions have been held with the other body and an amendment agreeable to the leadership of both the House committee and the Senate committee has been worked out.

Simply stated, the amendment will include—both the House provision and the Senate provision, with slight modification.

The modification in the House provision will be that a ceiling will be put on the amount of money the D. & H. can receive from USRA.

That ceiling will be the remaining loan commitment payment of $2.7 million and a possible additional $2 million.

In addition, there will be conditions precedent to the payment of either amount.

With respect to the first amount of $2.7 million, the D. & H. must show that they have begun the establishment of an employee stock option plan. With respect to the second amount of $2 million, the Delaware & Hudson must demonstrate that the stock option plan has been set up and that there is a reasonable expectation that it will be undertaken.

Finally, Mr. Speaker, there is also a provision in the bill relating to the payment of moving expenses for the new president of the Alaska Railroad.

The Federal Railroad Administration, the railroad itself, and the Department of Transportation had made a commitment to pay moving expenses only to find that present law precludes such payment for an employee entering the Federal service.

The provision in this bill which originated in the other body is just and equitable and while involving only a few thousand dollars eliminates an unwarranted hardship for the gentleman who relied upon the commitments made to him before moving from St. Louis to Alaska.

I believe that the agreements worked out with respect to this bill are good ones and urge the passage of this bill as it will be amended by the chairman of the subcommittee.

● Mr. YOUNG of Alaska. Mr. Speaker, I rise in support of the substitute amendment.

Mr. Speaker, the section of the substitute was drafted by Senator STEVENS, the gentleman from Pennsylvania (Mr. ROONEY), the gentleman from Kansas (Mr. SKUBITZ) and myself. It would authorize the Secretary of Transportation to recommend to Congress equitable rates to be charged for the rental of Alaska Railroad lands.

The Federal Government owns the Alaska Railroad, with direct responsibility for the railroad vested in the Federal Railroad Administration of the Department of Transportation. Many Alaskan businesses presently lease lands from the railroad.

In May 1977, the railroad notified its leaseholders of rental rate increases ranging from 100 to 1,800 percent. Although the railroad allowed proration of these increases over a 3-year period, the leaseholders face annual rental rate increases ranging from 33 to 500 percent.

These rental rate increases threaten the viability of the many businesses that lease land from the railroad. Some of these businesses operate under long-term contracts with fixed costs. Others must compete with businesses outside of Alaska. These leaseholders cannot pass along the rate increases to their customers. Facing increased operating costs, these leaseholders may be forced to cease doing business in Alaska. The Alaska Railroad would then suffer the loss of freight revenue that it presently receives from this source.

A few businesses that lease from the Alaska Railroad could pass along the increased operating costs to their customers. Although these businesses may continue doing business in Alaska, the consumer would bear the burden of the inflationary rate increases.

While the leaseholders demand relief from these increases, the Comptroller General has recognized that the rates effective prior to the May 1977 increases were below the rental rates for comparable Alaska lands. To resolve the dilemma faced by the railroad and the leaseholders, this amendment authorizes the Secretary to recommend an equitable rental rate schedule. It includes protection against inflationary rate increases pending congressional consideration of the Secretary's recommendations. Total increases are limited to only 100 percent of pre-1977, rents. This seems an entirely fair approach until the Secretary has had a chance to make his study. No refunds of rents paid would be issued. Rent increases in excess of the limit set out in the amendment would be reduced as of the next payment period.●

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Pennsylvania (Mr. ROONEY) that the House suspend the rules and agree to the resolution (H. Res. 1433).

The question was taken; and (two-thirds having voted in favor thereof), the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. ROONEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on House Resolution 1433 and the other bills just agreed to.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Debate has been concluded on all motions to suspend the rules.

Pursuant to clause 3, rule XXVII, the Chair will now put the question on each motion on which further proceedings were postponed in the order in which that motion was entertained.

Votes will be taken in the following order: House Resolution 1432 by the yeas and nays, and H.R. 13047, de novo.

The Chair will reduce to 5 minutes the time for any electronic vote after the first such vote in this series.

IRC AMENDMENTS FOR STATE-OPERATED BINGO GAMES (LOCK AND DAM 26)

The SPEAKER pro tempore. The unfinished business is the question of suspending the rules and agreeing to the resolution (H. Res. 1432).

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Oregon (Mr. ULLMAN) that the House suspend the rules and agree to the resolution (H. Res. 1432) on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 287, nays 123, not voting 20, as follows:

Ms. OAKAR, Mr. FLORIO, Mrs. HOLT, and Messrs. FORD of Michigan, COHEN, HANSEN, and SYMMS changed their vote from "yea" to "nay."

Messrs. FOUNTAIN, ZEFERETTI, BUCHANAN, and PEASE changed their vote from "nay" to "yea."

So (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

TAX TREATMENT OF REDEMPTIONS OF DISCOUNT COUPONS

The SPEAKER pro tempore. The unfinished business is the question of suspending the rules and passing the bill H.R. 13047, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Louisiana (Mr. WAGGONNER) that the House suspend the rules and pass the bill H.R. 13047, as amended.

The question was taken.

Mr. ROUSSELOT. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were refused.

So (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

The title was amended so as to read: "A bill to amend the Internal Revenue Code of 1954 with respect to the treatment of redemptions of discount coupons."

A motion to reconsider was laid on the table.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION EN BLOC OF CONFERENCE REPORTS ON H.R. 4018, H.R. 5146, H.R. 5037, H.R. 5289, AND H.R. 5263, ENERGY LEGISLATION

Mr. BOLLING, from the Committee on Rules, submitted a privileged report (Rept. No. 95–1782) on the resolution (H. Res. 1434) providing for the consideration en bloc of conference reports on the bills H.R. 4018, H.R. 5146, H.R. 5037, H.R. 5289, and H.R. 5263, on energy legislation, which was referred to the House Calendar and ordered to be printed.

PROVIDING FOR CONSIDERATION OF CONFERENCE REPORTS ON H.R. 4018, H.R. 5146, H.R. 5037, H.R. 5289 (AND H.R. 5263 IF FIRST ADOPTED BY THE SENATE)

Mr. BOLLING. By the direction of the Committee on Rules I call up House Resolution 1434 and ask for its immediate consideration.

H.R. 1434

Resolved, That upon the adoption of this resolution, any rule of the House to the contrary notwithstanding, it shall be in order in the House to consider en bloc the conference reports on the bills H.R. 4018, H.R. 5146, H.R. 5037, H.R. 5289 (and H.R. 5263 if first adopted by the Senate), and all points of order against said conference reports are hereby waived. After debate in the House on said conference reports, which shall continue not to exceed four hours, to be equally divided and controlled by the chairman and ranking minority member of the Ad Hoc Committee on Energy, the first hour of which shall be confined solely to the conference report on the bill H.R. 5289, the previous question shall be considered as ordered on said conference reports to one vote on their final adoption, and the vote on said conference reports shall not be subject to a demand for a division of the question or to a motion to reconsider.

The SPEAKER pro tempore. The gentleman from Missouri (Mr. BOLLING) is recognized for 1 hour.

Mr. BOLLING. Mr. Speaker, I yield 30 minutes to the gentleman from Illinois (Mr. ANDERSON) and, pending that, Mr. Speaker, I yield myself such time as I may consume.

I consider this the most important rule that I have ever handled. I do so because I have been concerned about the problem of energy in the United States ever since I read the Paley report many years ago. I have had the privilege or the responsibility of presiding over the House in the Committee of the Whole during the consideration of most of the energy bills out of the Committee on Interstate and Foreign Commerce. And I have had the privilege of serving on the ad hoc Committee on Energy.

I also am the chairman of the Joint Economic Committee, which makes me a way station for all of the visiting firemen from all over Europe where our allies are, and from Japan. Everyone that has come to see me in the last 2 years has expressed his concern about America's will, about America's ability to deal with this problem of energy, which is a much more crucial problem in other countries even than it is here.

This rule is enormously controversial. It is no wonder that the Committee on Rules had great diffculty in coming to a resolution, and it finally did this morning.

We reported out a rule that would put together all of the work of the House on energy, and which follows exactly what we did in the beginning when we had the ad hoc committee's bill on the floor of the House.

We are finishing as we began, dealing with the matter in whole as the various parts survive.

Mr. Speaker, I know there is great controversy over this rule; and having presented what I believe to be the salient point of the rule, that all the available conference reports will be dealt with in one vote, I am going to reserve the balance of my time in order to be able to continue in the debate at a later time.

Mr. Speaker, I yield 5 minutes to the gentleman from Louisiana (Mr. LONG).

Mr. LONG of Louisiana. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker and Members of the House, none of us can argue with the position taken by the gentleman from Missouri (Mr. BOLLING) that this is an important rule and that the legislation which this rule pertains to is important legislation.

The basic question involved in the argument before the Committee on Rules and in the controversy which exists here today with respect to this rule is whether or not the matter of the natural gas conference report should be entitled to a separate vote. If it is as important as the gentleman from Missouri feels it is; as I feel it is; as many Members of this House feel it is; as the President of the United States feels it is; as many people all over the country feel it is, is it not then important enough that with respect to its most important aspect that the House of Representatives have an opportunity to express its opinion? Not on just one occasion, not on just two occasions, but on three occasions in considering this particular legislation the other body had an opportunity to express its opinion on the question of the regulation of natural gas.

Mr. Speaker, it was a strange combination of people; representing perhaps the most diverse group which ever supported a major controversial proposal in the House of Representatives advocating that the House was entitled to have a separate vote on that provision pertaining to the control or regulation of natural gas. That was and remains my position.

Mr. Speaker, the question really boils down just to that. If the question is as important as the gentleman from Missouri (Mr. BOLLING) says it is, it seems to me, again, that is is even more important that we be entitled to a separate vote with respect to this question.

Let me tell the Members what happened in the Committee on Rules.

The gentleman from Missouri moved that there be possibly as many as five reports included—if all were passed by the other body in sufficient time, and that these would be treated by one vote rather than as individual conference reports.

I know the argument has been made, and with some validity, that all of these things have an interrelationship. However, nearly everything we deal with here in the House of Representatives is related one part to another to something. That argument is not valid.

Mr. Speaker, the Members will recall that when the matter was before us previously, we had separate votes on the various parts of the rule, and we had separate votes on the various parts of the legislation.

Now the legislation, and particularly that which relates to natural gas, has been changed substantially by the other body. Why would be be more entitled to a vote on it at that time, a separate vote, and we are not entitled to a separate vote on it at this time?

Mr. Speaker, in the Committee on Rules I offered an amendment to the motion of the gentleman from Missouri that would entitle us to a separate vote with respect to the conference report dealing with natural gas.

That amendment was not agreed to by an 8-to-8 vote. Then, upon the motion of the gentleman from Missouri, again by an 8-to-8 vote, no rule was granted because of the lack of a majority. So, consequently, that meant that ordinary procedure of the House of Representatives would be followed and each of the conference reports would be voted upon as separate conference reports.

The SPEAKER. The time of the gentleman has expired.

Mr. BOLLING. I yield 1 additional minute to the gentleman from Louisiana.

Mr. LONG of Louisiana. I thank the gentleman.

This morning in the Committee on Rules my amendment was not accepted, and a new resolution of the gentleman from Missouri was voted out.

I think all fairness dictates and the importance of the matter dictates that we have a separate vote with respect to the natural gas conference report. I urge my colleagues to so vote.

Mr. ANDERSON of Illinois. Mr. Speaker, I yield myself 6 minutes.

Mr. Speaker, the issue that confronts us this afternoon is, indeed, one of the most serious importance on both procedural and substantive grounds. It has to do not only with the nature of the very controversial Natural Gas Policy Act but with the very nature and content of our legislative process here in the House of Representatives.

I can agree with the gentleman from Missouri that the energy problem is such that it is the moral equivalent of war, but I would suggest that we do not do battle with the energy crisis by beginning with a surrender of our legislative prerogatives here in the House of Representatives.

We are told that we have to engage in this unusual precedent because it is late in the session and these conference reports are so intricately interwoven and intertwined that we thereby expedite the business of this House. I suppose, Mr. Speaker, that, using that kind of logic, we could suggest that one way to unclog the courts of our land is to permit a single verdict on several defendants at the same time on the ground that they had all something in common: they were accused of a crime. While that might expedite the judicial process, I think that no one in this Chamber would suggest that that would be anything but a denial of due process and equity and essential justice and fairness. I, frankly, consider the resolution that is before us this afternoon just that, a breach of justice and fairness with this body, a confession by the leadership—a confession by the leadership and by the administration—that at least one component of the energy package, the Natural Gas Policy Act, is too weak to stand on its own merits. While I think the administration is quite correct in that belief, that certainly does not justify lumping it together with the more viable portions of that energy package.

This is bad legislation. Even the President's own adviser on inflation rates it no better than a C minus, and I suspect that that mark would be even lower objectively if he were not grading his boss' paper. Yet we hear the exhortation to Members of this body that we should vote for this entire package because we need a national energy policy, no matter how bad and counterproductive those provisions may be. I do not think that the people who trade in dollars on the international currency markets are going to be impressed with bad legislation. We are not going to halt the precipitous decline in the value of the dollar by adopting policies, as the gentlewoman from New York (Mrs. CHISHOLM) pointed out in the Committee on Rules just today, that can very well lead to the consumption of more oil as people flee from high prices for natural gas and turn to oil instead.

I think it is incredible when you look at the list of organizations that are arrayed against this bill. The list that was sent around by my friend, the gentleman from New Jersey (Mr. MAGUIRE) ranges from the AFL–CIO and the United Auto Workers to the Chamber of Commerce, to the National Rural Electric Co-ops, to the Farmers Union, Americans for Democratic Action, and I could go on and take all my time reciting the prestigious national organizations that are in all-out flat opposition to this legislation. Yet we are being told, as a proud legislative body, that we should swallow this whole indigestible mass with one single up or down vote.

Well, Mr. Speaker, I am aware that the clock has been ticking now for much too long, as the President and the Congress and consumers have haggled to literally the 13th hour over what is an appropriate energy policy; but my friends, I do not think that we are going to be satisfied in our hearts if we go home having adopted legislation that could result in, as was pointed out earlier in the Committee on Rules, transferring literally billions of dollars from the pockets of consumers to producers without even giving the Members of this House of Representatives a chance to register a vote on that important question.

I think it would be in dereliction of the very oath that we take at the beginning of each session of Congress, if we were to engage in that kind of procedure.

So I urge that we defeat the previous question and if we do that, I will offer a substitute resolution which will provide for a separate vote on the natural gas conference report and give us a chance for at least an hour of debate and at least one up or down vote.

I told the Speaker of the House of Representatives just minutes ago, "At least you gave us that opportunity last August. We had a single energy package before us then; but at least you gave us that much dignity and honor that we could have a vote on that very important issue that has divided this country for literally a quarter of a century."

I hope very much that you will be faithful to your responsibility this afternoon and vote down that previous question so that we can conduct the business of this Chamber in a responsible manner.

Mr. ANDERSON of Illinois. Mr. Speaker, I yield 2 minutes to the gentleman from Vermont (Mr. JEFFORDS).

Mr. JEFFORDS. Mr. Speaker, I would like to talk about a different issue right now. I have heard about natural gas, but let us talk about tax credits, because the only way we are going to get an option to vote on two different tax credit propositions is to vote against the previous question and to vote for the substitute rule.

We have now at the desk H.R. 112, which is a much better tax credit package than the one that is now resting over in the Senate. It has passed rules. It has passed the Senate. It need only be taken up, passed, and sent to the President. If we agree to the substitute rule, then tomorrow we will have a chance to vote on that opinion. This will occur because the substitute rule will require a vote today on the energy conference reports that have passed the Senate. The tax credit bill will not pass until tomorrow, if at all. Thus we will have a choice. What is the option? Why is it better than the conference committee version.

I come from an area where the situation is such that I am not directly affected by the natural gas part of this bill because we get ours from Canada. I have nothing to gain or lose in the matter of natural gas, but I am concerned about the low-income and middle-income people in Vermont who are trying to face the energy crisis. Their alternatives are very limited. They cannot afford elaborate solar devices. They are limited to trying to get new boilers and new furances. Most have very old and inefficient systems. Yet they have limited funds to purchase new systems. Due to these problems their only other option is to purchase less expensive wood stoves. These people need help. Only by waiting will we be able to give them a tax credit, meaningful help. The experts say that help here will be very productive and will result in savings of 500,000 barrels of oil a day by 1985. Compared to the rest of the package this will be one of the most important provisions.

Also H.R. 112 lives up to the promise of a 20-percent tax credit, not the lower 15 percent in the conference report, for insulation.

So if we want to help our low- and middle-income people, if we want to live up to the promise we gave of a 20-percent tax credit for insulation versus a 15-percent tax credit, then we must vote no on the previous question.

Tomorrow we will then have the option to do what we promised we would do to help the low- and middle-income people, those who really need help.

In addition to that, the solar energy credits and other tax credits that we have in H.R. 112 are better. That bill gives us tax credits for solar heat pumps, passive solar and other credits that we will not have in the package that will be presented to us if we do not vote down the previous question.

So if we want to help our people who are struggling, the ones whose only choice is to use wood stoves, the ones who want desperately to buy new furnaces and boilers but need help, then it is critically important to vote no to get the best deal in tax credits.

Mr. Speaker, I urge the Members to vote no on the previous question.

Mr. BOLLING. Mr. Speaker, I yield 2 minutes to the gentlewoman from New York (Mrs. CHISHOLM).

Mr. ANDERSON of Illinois. Mr. Speaker, I also yield 2 minutes to the distinguished gentlewoman from New York (Mrs. CHISHOLM).

The SPEAKER. The gentlewoman from New York (Mrs. CHISHOLM) is recognized for 4 minutes.

Mrs. CHISHOLM. Mr. Speaker, the natural gas package is one of the most controversial parts of this entire energy legislation. I think it is very important that we as the peoples' representatives have the opportunity to debate this issue and have a separate vote on said issue in the same manner that the Members of the U.S. Senate did.

We are speaking about the creation of a natural gas policy which should lead ultimately to the diminution of the importation of oil to this country. I think that if most of us had the courage to say it, we would recognize that what has happened is that the bill really involves a subsidy to the natural gas industry and, as such, will cause the escalation of the switching of many industries from natural gas to oil. Once that switch occurs it will really mean then that we will have to revert to the importation of more oil, although it was originally purported that one of the reasons why we were moving in this direction was to lessen our dependency on the oil market.

What is even more important is the fact that every one is talking about the fact that the "hour is late" and that there is a necessity for a national energy policy, but nobody speaks about the inevitability of what will happen to the consumers in this country.

This point seems to be an issue that is at the very bottom of everybody's priorities. All we hear about is the fact that we must have a natural gas policy. And that means, to many of us, a natural gas policy at any cost.

Second, nobody is discussing ultimately what will happen to the consumers of this country. You know and I know that, inevitably, the disproportionate increases will be affecting the consumers of this Nation.

I think it is very important that the will of the House on this particular issue should be worked on by the people's representatives and that we should not have all of these conference reports which had different conferees lumped together and presented to us at the zero hour and have a kind of veiled threat, in terms of the fact that if we do not do thus and thus, so and so is going to happen. I think we should show a profile in courage and stand up this afternoon; let us vote down the previous question and have the opportunity to really debate this issue in the way that it should be debated.

Mr. Speaker, I want to thank the membership for this opportunity to share this time with them; I ask that the Members vote down the previous question.

Mr. ANDERSON of Illinois. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Wisconsin (Mr. STEIGER).

Mr. STEIGER. Mr. Speaker, given what has been said and the articulate spokesmen who have appeared here there is very little more that can be added.

I must add that I approach this not from any position in opposition to the natural gas bill, or the fact that I signed the tax portion of the conference report, or that I signed the conservation portion of the report. I rather approach this on the basis as to whether or not the House has the integrity to do what is right, in terms of this institution.

There is simply no other way to look at this vote on the previous question than to judge whether or not we as an institution, we as Members of this body, are going to have the kind of guts and honesty that I think is required in terms of speaking to our constituents, and the only way we can retain that integrity is to vote down the previous question and adopt a different rule.

Mr. Speaker, I yield back the balance of my time.

Mr. BOLLING. Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. OTTINGER).

Mr. OTTINGER. Mr. Speaker, as I see it, what we are involved here with is a basic denial of democracy and a serious transgression of the procedures of this House.

The leadership of this House simply does not trust you. It does not trust you to be able to exercise your discretion on legislation which will transfer $200 billion from the consumers of this country to the producers, on legislation which may result in our greater dependence on imported oil, on legislation that has been controversial in this House for many years. And they are saying they do not trust you to pass on that legislation; they are going to insist that that legislation be combined with other parts of this package which they think are sweeteners so that you cannot avoid voting for an energy bill.

I respect the Speaker and the rest of our leadership, but I think they have made a terrible mistake. In fear that a bad gas bill will not stand on its own merits, the leadership has decided to run roughshod over our rules and our Members. They refuse to allow us to exercise our democratic prerogatives with respect to the gas bill. Through this extraordinary rule they will permit only one vote, up or down, on vastly disparate pieces of legislation. I think that is an horrendous transgression on our prerogatives, a transgression on the orderly procedure of this House that we should not tolerate.

Mr. Speaker, I hope my colleagues will resoundingly say that we deserve the right to vote on this most important legislation, we are going to vote on it, we are going to exercise our congressional prerogatives as representatives of our people, we are going to vote against the previous question.

Mr. ANDERSON of Illinois. Mr. Speaker, I yield 5 minutes to the distinguished gentleman from Ohio (Mr. BROWN).

Mr. BROWN of Ohio. Mr. Speaker, I suppose many must wonder—because they have asked me—what kind of an issue would bring BUD BROWN, TOBY MOFFETT, JOE WAGGONNER, FRANK HORTON, JOHN ANDERSON, ANDREW MAGUIRE, SHIRLEY CHISHOLM, and BOB BAUMAN together. The answer, I think, is a sense of outrage about the process by which we have been asked to consider the most massive piece of legislation that many of us will have the opportunity to vote on while we serve in the U.S. Congress.

The natural gas bill is a "fraud", and the opportunity for us to look at that bill separately is what this argument is all about. Let me just say that the rule offered by the gentleman from Missouri will require the four energy-related conference reports to be considered en bloc,

and under this rule we do not have the opportunity to consider each part or any one part separately. If ordinary procedures were followed, each of these conference reports would have been separately dealt with and would have required a separate rule. Each of them is a magnum opus, a major piece of work that we should have opportunity to look at. The Senate did exactly that. They took them up one by one and gave each of them the consideration they were due.

Over a year ago this mismatched collection of energy legislation was presented to the House under a closed rule, but even at that time we were given the opportunity to have a separate vote on the natural gas bill, because even then simple equity demanded it. Whether you agree or disagree with the fact that the natural gas bill is a problem, the importance of this issue of bringing them all together transcends that argument.

To put that issue into proper perspective, it is really not whether or not we should enact the natural gas bill or whether the energy package will or will not positively contribute to the enactment of an equitable and workable energy approach in our country, but rather how we want this body to operate. Now, in the future, do we want to bring public works bills and military construction acts together, because they both have something to do with impact on the economy? I think not.

If we allow the leadership to force us to consider four energy conference reports as one, with a single vote on the entire package, what will we face in the future in this body? It seems to me that it is obvious that we should vote down the rule.

Let me just say something to the Members about why I worry about the natural gas part of the bill. Yesterday in the Rules Committee, when we had under consideration the rule on this issue, one of our colleagues offered an addition to the rule which would have provided for a concurrent resolution that had about four pages of modifications of the conference report in it, and that concurrent resolution was going to follow the adoption of the legislation. We were going to change the conference report, in effect, by concurrent resolution after it was passed. That should tell you something about how bad this bill is.

Let me just show the Members something else, a 16-page document that was put into the RECORD last night, a statement of Representative JOHN DINGELL, on filing of the natural gas conference report on H.R. 5289. It is a closely typed, explanatory statement of all the various parts of that conference report. Now, is that legislative history modifying the conference report? I think not, but I have not had the chance to read it, and Members cannot read it either, because that part of the RECORD has not been printed. It was in the RECORD late last night. I do not think that is the way for us to legislate on anything that vital.

I would just say to my colleagues that no matter how they feel about the various parts of this bill, if they cannot sustain the logical, sensible operation of this body so that we have a chance to look at and be responsible for what we vote on, for our action, then I wonder where we are headed. I am also offended at the arm twisting and the kind of coercion that has been used by the administration; the fact that one of the rooms over here was occupied last night, as I understand it, by the Secretary of Energy doing his number, on some of the Members. Maybe I am naive in thinking that the administration should not be permitted to do that, but I do think it has brought us to a relatively low estate when we are jerked around on legislation in this way without the opportunity to exercise our responsibilities and vote on it separately.

I know we want to get home for that campaign, but we ought to go home with some pride, at least.

Mr. BOLLING. Mr. Speaker, I yield 3 minutes to the gentleman from Indiana (Mr. SHARP).

Mr. SHARP. Mr. Speaker, I appreciate this opportunity to address what I consider one of the most important questions the country has faced in my brief career in Congress. I know each of us has had a struggle in his or her own mind to define our individual responsibility. I have a lot of respect for some of the individuals who just spoke against the rule. I worked side by side with the gentleman from Connecticut for some of the consumer provisions in the bill, and even though he does not like the gas bill—and I understand that—nevertheless I think it is a better bill, because of the work he did on it.

This rule is not something we have discovered new this afternoon. The fact is when the President of the United States submitted his recommendations to the Congress, they came as a whole, as one package. They were introduced in the House of Representatives as one bill. With the great enthusiasm of many Members, we established one committee, the ad hoc committee, so we could treat the bill as a whole and bring together its various parts.

We went to conference as a whole, not as separate conferees. Separation was the Senate approach from first to last. It still is. We went with the same conferees on the tax matters, on the regulatory matters, on the utility matters, and on the natural gas matters. We have treated the bill as a whole, and we are now about to finish the process of considering it as a whole.

It is not something new. It is something many of us enthusiastically endorsed. I hope we will endorse it. We endorsed it in the beginning, because we knew the issues were interrelated and also because we understood the critical importance of forging a majority decision. That is the point we are at today, the question whether or not we are capable of bringing about a majority decision in this country on the tough and crucial issue of energy.

Some in this House have dealt with the natural gas problem for the first time in their careers. I have dealt with it for the second time. Some people here have dealt with it for 20 years. The same afflictions arise each time. We all know we need a national market which is ultimately best for the consumer and for the country. We are deeply divided on how we get there. This division has plagued the Congress for 20 years and it will continue to plague the Congress if we do not break the deadlock this year.

Mr. Speaker, the question is whether we are able to build a majority decision. Whether we are able to temporarily set aside our strong advocacy for long held positions, but positions which remain minority positions.

Yes, the compromise is opposed by those who fervently believe in immediate deregulation, who believe there ought to be even more producer incentive. And they are here to fight the rule and the bill.

Yes, it is opposed by those who fervently oppose any kind of deregulation effort, who would like to solve the problem by regulating intrastate markets, and those who fervently hope, and I think it is the most false of all hopes that somehow the Federal Regulatory Commission can solve the gut issue. The issue is in our hands to solve and the people are going to know whether we were decisive or not. Let us make the tough decision.

Mr. ANDERSON of Illinois. Mr. Speaker, I yield 1 minute to the gentleman from Alaska (Mr. YOUNG).

Mr. YOUNG of Alaska. Mr. Speaker, I rise in support of the rule which would package together the various provisions of the energy legislation currently under consideration. I do so, because I feel that to vote on each provision individually could greatly endanger the most important provision left in the pending energy legislation, which is the natural gas pricing provision worked out by the Senate and House conferees.

I think that there is no question but that the vote on this rule is a vote for or against the gas pricing compromise. Left in a total energy package, the compromise stands a good chance of passage with the other provisions. But I fear that if the gas compromise is taken out and voted on separately, its chances of enactment will diminish.

Without the gas pricing compromise, the energy legislation passed by this Congress would accomplish little in the way of meeting our goals of reducing our dependence on foreign oil. With the provision, new sources of domestic natural gas, especially Alaskan natural gas, will find their way to the U.S. market.

The most important means by which this is accomplished is in a section in the compromise which allows for the construction of a natural gas pipeline from the North Slope oil and gas field. This section sets a wellhead price for Prudhoe Bay gas at $1.45 per million Btu's plus inflator, and also institutes a "rolled-in" pricing mechanism which insures the marketability of the gas by averaging the cost of transportation into consumer gas prices.

These two provisions will have a tremendous effect on U.S. energy supplies in the coming decade. Alaskan supplies constitute a significant percentage of total domestic known sources of natural gas. The pipeline from Prudhoe Bay alone will deliver 26 trillion cubic feet of gas, and according to the President's decision and report to Congress, this gas promises to compare favorably in terms of supply reliability with other possible sources of gas such as SNG and LNG.

By paving the way for private financing for the pipeline, construction on the transportation system could begin by 1980–81. Once the gas is on line, annual delivery rates will reach 0.8 trillion cubic feet of gas per year.

It is not difficult to foresee the beneficial effects such supplies will have on our now-faltering world trade position. This supply of gas promises to reduce our dependence on foreign oil by over 150 million barrels of oil per year. This amount, calculated at current oil prices, will reduce our mammoth balance-of-trade deficit by $2 billion a year.

And as we all know, new sources of domestic energy will help strengthen our world position in terms of national security. It was only a few short years ago that we saw what the potential for disaster was when a couple of foreign leaders decided to stop selling us oil. I would think, then, that few would disagree that it would be wise to enact legislation to enhance securing a new steady domestic supply of natural gas.

Without congressional action, the responsibility for setting a pricing mechanism for North Slope gas lies in the hands of the Federal Energy Regulatory Commission (FERC). I am told that since the FERC has been awaiting congressional action, they have delayed consideration of this issue themselves. It would be at least a year before a final decision could be reached, and since a number of parties are expected to contest any decision, court action could easily delay final action considerably beyond that.

With inflation increasing the potential costs of construction for each month that the startup date is delayed. It is critical that we act before it is too late. Furthermore, with the lead time necessary before supplies can come on line, the longer we delay the decision, the closer we come to serious natural gas shortages.

With this in mind, congressional negotiators have worked closely with the financing experts on Wall Street and in the banking community to set up a mechanism that makes it attractive enough for private interests to invest in the pipeline. It appears that the provision for a wellhead price on North Slope gas and the "rolled-in" pricing mechanism will do much to assure the banking community that the Federal Government intends to see to it that the gas is marketable and that the rate of return on the investment will be sufficient. Current uncertainties surrounding pricing preclude that assurance, especially when combined with investors' fear of possible litigation and the accompanying added costs of construction resulting from delay.

Probably the most serious argument that detractors of this legislation make is that this new energy will cost more to the consumer. The fear is strong that the negative effect of the increase in cost will more than offset the positive effect of new sources of energy.

And yet, short of Federal subsidy for energy sources, it is simply not possible to get at the new energy without spending more of the consumer dollar to do so. The Prudhoe Bay gas is a good example. Gathering and processing of North Slope gas for delivery to the lower 48 States is more expensive and complex than preparing gas for transportation elsewhere. The facilities required for this process will be expensive. The cost must be factored into consumer prices for gas, which is why Congress chose the "rolled-in" and incremental methods of pricing. This will require that only consumers of gas pay for the increased cost instead of all taxpayers regardless of their personal consumption of gas.

I cannot overemphasize to my colleagues the importance of the natural gas supply issue. Natural gas supplies are dropping at the rate of 5 to 10 percent a year, and shortages among high priority industrial users of gas will arise with increasing frequency. By 1985, severe disruptions in the market will be felt as nonconvertible users are forced to shut down, because of shortages. The economic consequences could be serious.

While North Slope gas is not the final solution to the problem, the pipeline does promise to deliver up to 5 percent of all known domestic gas reserves to the market. Furthermore, the construction of this pipeline should spark new exploration efforts into seven other sedimentary basins in Alaska which have supply potential. Early indications are that this potential exists in areas such as the Beaufort Sea, the Arctic Wildlife Range, and the Pet-4 Field. Such areas will be of critical importance to our long-term energy supply capabilities, and with the lead time necessary to develop new fields, anything that the Congress can do to expedite such exploration should be beneficial.

For these reasons, it is crucial that we enact the gas pricing compromise provision as part of the complete energy package. None of the alternatives before us is without certain disadvantages, but the Nation has reached the point where it is going to have to swallow a bitter pill in some form before a sound national energy program can be developed. And in voting for the energy package as a whole, with the gas pricing compromise included, Congress can take an opportunity to take a real as well as a symbolic step forward toward minimizing the adverse economic and environmental effects of the energy crunch to come.

Mr. BOLLING. Mr. Speaker, I yield 4 minutes to the gentleman from Ohio (Mr. ASHLEY).

Mr. ASHLEY. Mr. Speaker, as we all know, there are five parts of the national energy plan: Energy conservation, coal conversion, electric utility rate reform. natural gas prices, and energy incentives and penalties.

These parts, these conference reports-Mr. Speaker, are interrelated and interconnected. Taken together, not separately, but taken together, they do represent a framework for a national energy policy. Taken together they will add up to a substantial savings in our use of imported petroleum, they will help to cut our balance-of-payments problem, and they will help to solve the very distressing weaknesses that our dollar has been confronted with in the international exchange markets.

Mr. Speaker, I submit that it is logical and consistent to require a vote on this energy package as a package.

These components of the national energy program came to us as a package. They were acted upon in this body as a package and we should send them back to the White House for the President's signature as a package.

Yes, the rule before us does call for a single up or down vote on the components of H.R. 8444, the National Energy Act. The reason for this is that the reports before us are really one conference report of four parts, because the House conferees were the same for each part, they simply continued meeting as one part yielded to another.

The energy package in these conference reports before us today, Mr. Speaker, is a solid, logical, platform on which to build for the future. It does give us a start in coping with our energy problem. It demonstrates our resolve to enact an energy policy which may be a little painful, to be sure, to some areas and to some special interests; but it is one which serves the overall national interest. It demonstrates to our citizenry, to our friends overseas, and to those who may not be our friends, that we are willing, we in this body and in this Congress, to make a start in coping with this critical problem which surely lies ahead.

Let me conclude, Mr. Speaker, by saying that the energy future of the United States is very much at stake in what we do in this hour on this floor. If we vote down the previous question, let there be no question about it, there will not be an energy program this year. What we will be inviting, Mr. Speaker, as we well know, is the prospect of a legislative stalemate emanating from the Congress of the United States on the most important issue facing the country today.

Mr. Speaker, that is what is at stake in this procedural vote on the previous question, so Mr. Speaker, with all of the sincerity that I can summon, I urge that the previous question be sustained and that we vote for the rule and get on with the business of this Nation.

Mr. ANDERSON of Illinois. Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. HORTON).

Mr. HORTON. Mr. Speaker and Members of the House, the first vote that I

cast in the House of Representatives was a very important vote. Sixteen years ago the burning question was, Shall the Committee on Rules be expanded?

The Republicans wanted it kept at the number that it was. Perhaps I did not know any better, but I cast my vote to expand the Committee on Rules.

The minority leader came back to me in the back of the room, and he said, "Young man, you made a mistake, did you not?"

I said, "No sir, I did not," whereupon he just walked away.

Mr. Speaker, I did not make a mistake, because I felt at that time, as I do here as I stand in the well, that the will of the House ought to be the determining factor as to what happens in the House of Representatives. That is the issue which is involved here.

It is incredible, in my mind, that five conference reports can be considered with one up-or-down vote. That is not the same thing we had when the ad hoc committee made its report, because then we had a chance to vote on the question of natural gas. We had a chance to vote on vanpooling, because that was an amendment I sponsored, and we had a chance to vote on other matters.

In this instance, we do not have a chance to vote for anything, except up or down under this rule.

Now it is also different, because when we came in with the ad hoc committee report, we had a chance to vote on those separate items. Then we went to conference, and I was one of the conferees. We had five separate conferences with five separate groups of conferees from the Senate. Changes, substantial changes, were made in those bills and particularly in the natural gas bill.

Mr. Speaker, I urge the Members to vote down the previous question and give the House of Representatives a chance to exercise its will.

Mr. ANDERSON of Illinois. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Mr. COLLINS).

Mr. COLLINS of Texas. Mr. Speaker, we must be fair today, and the best way to be fair is to vote down this previous question. We must be reminded as we look back on our own experience in energy at what happened in 1973. Congress had the emergency oil bill at that time. America was faced with an energy crisis. We acted too quickly, and Congress did not act deliberately. In 1972 this country was importing $5 billion in oil. This year we are going to import $50 billion in oil. The oil emergency bill did not provide a successful solution. All we did was increase the oil imports.

The oil bill created a dollar crisis. The oil bill created a deficit, a tremendous import deficit problem. Congress did not solve anything, and we certainly did not solve the energy problem.

I want to repeat what happened. Today over one-half of the oil used in America is imported. We went from $5 billion in imports to $50 billion, because of the emergency oil bill. Let us vote down this previous question today.

Mr. ANDERSON of Illinois. I yield 2 minutes to the distinguished gentleman from Maryland (Mr. BAUMAN).

Mr. BAUMAN. Mr. Speaker, coalitions are not all bad. There was some reference made a moment ago to the diversity of opinion represented in the opposition to this rule. Every now and then even a blind hog will snout up a truffle, and maybe the House collectively has stumbled upon a key to what is happening here today. That is that there are producers, and there are consumers, and there are liberals and conservatives, and Democrats and Republicans, who want to solve the energy crisis just as much as does Jimmy Carter, or the Speaker, or the gentleman from Missouri (Mr. BOLLING). I think we all give each other credit for that good intention. But the extraordinary parliamentary situation in which we find ourselves today is almost unequaled. We are being told by the presentation of this restrictive rule that we are no better than children.

The other day the majority leader of this House called the President's action in vetoing the public works bill a use of the House as a scapegoat. Yes, in his usual elegant fashion he called us a scapegoat for the President. The Speaker stood before us and talked about the true issue on that veto being the dignity and the integrity of the proceedings of the House. I have never seen the proceedings of the House, in my 25 years around this floor, being abused as it is today. And why is it being abused? Why is this extraordinary before us? We all know why. It is not because we do not want to solve the energy problem. It is because the solution before us in five conference reports lumped together is absolutely inadequate. We are forced to take the sexy with the plain, the good with the bad, the abysmal with the passable, perhaps, and there is only one reason: The natural gas section of this entire matter cannot stand on its own, because it will harm this country. It will not produce more gas. It will drive up the prices of natural gas. So they will not let us vote separately on this important issue.

We are being made scapegoats. We do want an energy solution, but we want a correct solution. For that reason and for the sake of the integrity of our proceedings, I urge the Members today to vote down this previous question and to support the rule the gentleman from Illinois will offer that will allow a separate vote, and we can go back to the people saying, "Yes, we are the House of Representatives, and we voted for your best interests on this matter in a free and open fashion."

Mr. ANDERSON of Illinois. I yield 1 minute to the gentleman from Michigan (Mr. BROWN).

Mr. BROWN of Michigan. Mr. Speaker, I rarely differ to any extent with my good friend and colleague, the gentleman from Ohio (Mr. ASHLEY), but I have to disagree with him today, because I do not think that we can say the natural gas bill is an energy program. The only reason that someone would vote for the rule today is because he is afraid that if the rule is not adopted and a separate vote occurs on the natural gas bill, it will be defeated and, therefore, the energy program will be defeated.

I remember way back when we first started talking about having an energy program. From the White House emanated the words that conservation, coal conversion, and the crude oil equalization tax, those three things, were the real guts of the energy program. The COET, the crude oil equalization tax, has been referred to as the cornerstone, the centerpiece, the heart and soul of the energy program, and there is no COET tax in this legislation.

I respectfully suggest, Mr. Speaker, that we can have an energy program, and it is not essential to have the natural gas bill. Therefore, we should vote against the previous question.

Mr. ANDERSON of Illinois. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. KRUEGER).

Mr. KRUEGER. Mr. Speaker, I have on many occasions supported rules when I intended to vote against a bill, because I wanted to see the matter receive open and fair discussion. In 1976 when we considered the question of natural gas policy, we were presented, through the Committee on Rules, with a set of alternatives that allowed us to choose between various approaches to natural gas policy. The rule allowed Members to make clear choices; and to fulfill our roles properly as representatives of the people, we need to be allowed to make clear choices, following clear discussion. In 1977 again we were presented with a set of alternatives and we had an opportunity to discuss them.

On this occasion, we are asked to bunch together five disparate pieces of legislation and to pretend that somehow they form a unity which cannot be sundered, when our logic, and any sort of clear thinking shows to us they ought, in fact, to be considered separately. We are now told that the natural gas section of this bill is the centerpiece of the administration's energy plan. But previously, the crude oil equalization tax, now thrown out by the Congress, was the centerpiece. The truth is that there is no centerpiece and no center to the bill. As William Butler Yeats says:

> The center cannot hold. Mere anarchy is loosed upon the world.

This legislation should not be loosed upon the world. And the gas legislation should be considered separately from the sections dealing with coal conversion, electric utility rates, and conservation.

Now, there is simply no logic to that position, and genuine respect for us as a body and genuine respect for freedom of discussion in this Chamber would urge that we vote against this rule in order that a natural gas policy might be considered on its own merits.

This particular approach is going to combine in the natural gas bill the worst of all worlds. It will immediately increase costs to consumers. In my own State the current price received for intrastate natural gas by producers is about $1.70. If this bill is passed, the new price will be-

gin above $2; so the consumers in my own State, which produces more natural gas than any other, will see an immediate price increase. At the same time, we are told by no less than the Congressional Budget Office and the Department of Energy, and every other supporter of this bill, that the bill will elicit no significant new gas production.

I would say with Hamlet:

We would rather bear those ills we have, than fly to others that we know not of.

Mr. ANDERSON of Illinois. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. PHILLIP BURTON).

Mr. PHILLIP BURTON. Mr. Speaker, I wish that I had obtained my time from my own side; but I realize fully that there are a good number of Members who want to share in this discussion.

I voted for the energy bill as it left the House. I did not like all of it, but I did think it provided a reasonable framework to see if this problem could be resolved. I probably would vote for four of the five elements of this package if I were permitted to do so.

There are just two thoughts that tend to dominate my view at this moment. The first one is that I am a little reminded of a vote I had to cast in May of 1965, when my own President asked us to fund the war in Vietnam, a proposal that was interwoven with crippled children's services, with helping the elderly and so forth. It was just sugarcoating to avoid tasting the bitterness of the pill.

It is no accident that every single group that represents consumers in this country shares my view that the deregulation aspect of this bill is an outrage. My colleagues on this side of the aisle are kidding themselves if they think this vote is the only way to achieve an energy bill. When the price of energy goes up to the poor, the small homeowners and the workers of this land, those who support this rule will rue their vote.

● Mr. YOUNG of Missouri. Mr. Speaker, I rise in opposition to the special rule combining the four major energy bills into a package for a single vote.

Under normal parliamentary procedure, Members of the House would have the right to vote on each conference report. In fact, there are very few precedents in our history for this kind of a rule.

The energy plan came to us as a package last year, and we voted on it as a package at that time. But as soon as the energy plan went to conference, it was divided into five sections and sent to different conference committees.

Each section was considered independently of the others. Some major provisions of the House plan were deleted, and others were altered dramatically.

The five conference reports emerged one by one over a period of months. The Senate voted on each report separately and sent it to the House.

We have not been given a package this time. We have been given five separate bills. These bills contain major policy changes, some of which we never agreed to before.

The Members of the House should be free to consider each bill on its own merits. The rule combining the bills would deprive us of this freedom. More importantly, it would deprive the American people of their right to fair representation on each of several major policy decisions.

I strongly urge my colleagues to vote against this rule.●

● Mr. OBERSTAR. Mr. Speaker, I rise in support of the rule, not because I support the energy package. On the contrary, I shall vote against the package because, in my judgment the harm of natural gas deregulation outweighs whatever good the other four parts of this package may achieve.

We have to look at the vote on this procedural motion in the light of the whole history of House action on the energy program

The House leadership, working together with the administration, acted responsibly and decisively, early in the 95th Congress, establishing the Ad Hoc Committee on Energy to deal exclusively with the diverse components of the energy program.

The Members of this House voted to establish that committee. The committee spent weeks debating the program and did a most commendable service to the Nation and reflected credit on the House.

After several days of floor consideration of the committee's product, this House voted out a national energy program—as a single package. We should now consider the conference report in the same manner: as a package.

We have before us a national energy program—it is a unit. We should not act on such a program on a piecemeal basis. We should vote the package as a whole up or down on its merits. The President does not have the luxury of "item" veto authority; we should not arrogate unto ourselves that luxury; that would amount to giving ourselves an escape valve.

I will vote against the energy package; the merits, or should I say disadvantages leave me no other choice.

The interests of corporate energy producers and other proponents of deregulation must not be allowed to override the rights of the consumers—the American people—whom we represent in this House.

It is vitally important to continue controls on natural gas. Deregulation would do a great disservice to the American people and would provide unconscionable windfall profits to the corporate energy giants.

These profits will come from the pockets of the needy, the elderly, the retired, people living on fixed incomes. I have been opposed to deregulation for this reason. It is not the answer to our Nation's energy needs, and we should not—cannot—pass a package with this measure as the centerpiece.

Yet, in all fairness, the ad hoc committee, the House leadership, and the administration deserve the opportunity to submit this package to the House for consideration, in its entirety, and on the merits. To separate it into its constituent parts would be a "cop out," a failure to exercise our responsibility to weigh the whole energy program—the good with the bad—and to accept or reject it, on balance, not piecemeal.

If we cannot stand the heat of a "no" vote on the whole package, then, paraphrasing Harry Truman, we ought to get out of this legislative kitchen.

I urge my colleagues to be consistent with the previous action of the House: vote "yes" on the previous question, then be fair with the consumers and vote "no" on the package.●

● Mr. SKUBITZ. Mr. Speaker, so there is no misunderstanding concerning my position on the energy bill, I take this time to make my position crystal clear. I shall vote for the previous question and for the bill.

We who are Americans can be proud that we are Americans. We can be thankful that we live in the greatest country on Earth. But it can be destroyed from within as it can from without. Unless we find an answer to the energy problem—unless we stop the inflation that hounds us, catastrophe and chaos will be our lot.

For months the respective committees of the House and Senate have labored and dawdled around in an effort to find a solution to our energy problem. Unprecedented pressures have been exerted not only on the members of the committees but upon all of us, in an effort to influence our decision.

That the problems involved are complicated, complex and difficult, no one will deny. But that in itself is no excuse for men of good will—with the national interest at heart—to be deterred in their effort to come forth with a vehicle upon which we can take at least one step forward in finding a solution to our problem.

I know this is easier said than done. I know that the scent of large profits have excited the nostrils of some. I know that many small operators are being used as pawns in this chess game for high stakes. On the other extreme, are those who look at profit as a "dirty word"—at business as the villain in our economic system—that the primary goal of business is to gouge the public. This I cannot accept.

I happen to believe that under the free enterprise system the objective of Government should be to create a climate that would encourage growth but at the same time Government should act as an umpire to see that all the players and the public receive equitable treatment. For without business growth there can be no progress and no jobs. I happen to believe that in between the two extremes, "The truth is often sandwiched in between."

I have grave doubts with respect to certain provisions in this bill. I question whether they will achieve in practice all that is claimed for them. I don't know whether they will produce more energy, but I do know if we do nothing—energy production will not go up and energy prices will go up.

I do know that if we sit here after 18 months and do nothing—our indecision will make a decision for us and that decision will solidify in the public mind—

that this Congress does not have the competency or the courage to act. When the winter chill brings higher prices and less energy—the public indignation will accelerate. Fortunately for some of you the election will be over, but the image of Congress will have sunk to a new low.

About 40 years ago, the transportation system of this country had reached the breaking point. At that time the Honorable Senator Burton K. Wheeler was chairman of the Senate Committee on Interstate Commerce. The committee had reached a hopeless impasse. I remember it as if it were only yesterday. I remember the Senator taking his cigar out of his mouth and in a serious voice saying:

Gentleman—this problem is with us—it won't go away—we can't sweep it under the rug. I don't know whether this will work or not. But we are not leaving this room without a bill. If it is wrong we can change it—if we do nothing chaos will result.

Legislation was introduced and passed. It has been changed many times since, but the railroads were kept in operation.

Wheeler's advice was good then; I repeat it to you today. The Congress cannot adjourn without at least making an effort to solve the energy problem. I do not know that it is the best. Maybe it is not—but it can be changed by the next Congress. I doubt that any discussion in this body can do any better job than is provided in the bill before us.

I shall, therefore, support the rule, vote for the previous question and vote favorably for the legislation. I pray I am right. If I am wrong—it has been an honest mistake.●

● Mrs. COLLINS of Illinois. Mr. Speaker, I rise in opposition to the proposed rule on the conference report to accompany H.R. 8444, the National Energy Act, which would require an all-or-nothing vote on five separate pieces of legislation, each of which will have an enormous impact on the availability and cost on energy supplies for our Nation and the world for the foreseeable future.

It has been 14 months since the House voted in support of H.R. 8444. During this interval the bill has gone to the Senate and to conference where it has been, disassembled, dismembered and virtually disembodied such that it is now hardly recognizable as the same piece of legislation. The Natural Gas Act, for example (H.R. 5289) which is now both the centerpiece of the legislation and the center of controversy is a complete turnabout from the bill passed by the House last year which, unlike the present measure, was not a blatant piece of special interest legislation, but rather an earnest effort to increase gas supplies without placing new burdens on the consumer. It is obvious that the new version as reported from conference has a completely different purpose, and therefore, must be considered on its own merits.

Mr. Speaker, I am aware of the fact that a great deal depends upon our country's adoption of a national energy plan that will increase productivity, conserve resources and lessen our dangerous dependence on foreign suppliers. Some of the bills before us do indeed address these urgencies, and I intend to vote for such measures. However, other aspects of this legislation such as the natural gas bill will, I am afraid, have quite the opposite effect, even contributing to an increase in our oil imports as well as creating an intolerable burden for some of our indigent and elderly citizens. I cannot see how we, as legislators, can gloss over these contradictions in the name of expediency. I, therefore, urge my colleagues to vote against this rule and to decide the various issues before us on their respective merits.●

● Mr. WEISS. Mr. Speaker, formulation of an effective and equitable national energy policy is perhaps the most important task facing this Congress. The conference committee report incorporating the key energy proposals deserves careful and close consideration by the House.

I believe it essential that the major components of the energy policy proposal be debated and voted on separately. One particular provision—the natural gas pricing proposal—should certainly be considered on its own merits and not be held hostage to the obvious need for a broad, coherent energy policy.

For this reason, I will vote against the rule which would require the House to consider natural gas pricing as but one component of an omnibus energy bill. And I will also vote against the so-called compromise on natural gas prices, whether or not this specific provision is detached from the overall conference committee report.

The anticonsumer legislation which this "compromise" represents bears very little resemblance to the original proposal advanced by President Carter and subsequently approved by the House. That measure would have permitted gradual, moderate and basically fair increases in the price of natural gas while retaining Federal controls over the interstate market.

But the conference committee report sanctions steep and sudden hikes in the price to consumers and industry of this widely used energy resource. The "compromise" would likewise remove nearly all interstate price controls by 1985.

The existing law governing natural gas pricing is superior to the conference report in every respect. The House will be acting courageously, wisely and in the best interests of our Nation if it votes to detach the natural gas pricing provision from the overall energy bill and then defeats this attempt to transfer billions of dollars from consumers to the energy corporations.

The regressive nature of this proposal has become quite clear to many organizations and to the American people. Only a very few groups are supporting the conference committee report while a broad array of coalitions and analysts are strongly opposing it. Among the organizations urging defeat of the natural gas "compromise" are the U.S. Chamber of Commerce, the AFL–CIO, the National Farmers Union, the National Coalition of Senior Citizens, and the Consumer Federation of America.

One of the major rationales being offered by the Carter administration for enactment of this provision is that Congress must produce some sort of comprehensive energy package in order to impress European money markets and thus strengthen the dollar.

Enacting a balanced and reasonable energy policy may well aid the dollar abroad, but the natural gas proposal is likely to quicken the rate of inflation and thereby further damage our economy and currency. The Wall Street firm of Smith Barney Harris Upham & Co. observes that the conference committee proposal will actually increase our Nation's dependence on oil imports by about 2 million additional barrels a day in 1983. The astronomical price increases permitted under the proposal are thought likely to discourage industrial use of natural gas and boost reliance on oil.

The U.S. Energy Information Administration estimates that the price of natural gas will increase by at least $29 billion over the next 7 years through enactment of the conference committee report. And this huge increase in consumer and industrial utility bills will occur prior to 1985 when the vast interstate market becomes almost totally deregulated. There are simply no reliable estimates of what prices will be charged by the energy conglomerates when they are free to set whatever price they like.

In New York State, consumer costs for natural gas will leap $2 billion between 1978 and 1985 under this proposal, according to the State's energy office. Mr. Speaker, my constituents and those of many of my colleagues from New York already pay indefensibly high utility bills. This "compromise" measure will drive natural gas prices beyond the reach of many lower income and older New Yorkers and will severely strain the budgets of moderate wage earners.

And what will we get in return for this profit windfall to be handed over to the energy giants? According to Department of Energy statistics, we will be rewarded with a declining rate of production. By giving the energy corporations a multibillion dollar blank check, we will experience a 16-percent decrease in natural gas production rates.

What about the assertions that we need this legislation if we are to avoid natural gas shortages like those that occurred last winter?

Again, Wall Street provides a convincing rejoinder to these claims. Highly respected firms like Wertheim & Co., and Merrill Lynch are now forecasting a surplus of natural gas in coming years. Not only the traditionally overstocked intrastate market, but also the larger and currently regulated interstate market are expected to experience an oversupply of natural gas.

Two recent Supreme Court decisions also empower the Department of Energy to shift intrastate supplies on to the interstate market when the need arises. The far-reaching implications of one of these cases was not even considered by the conference committee prior to adoption of its report.

Despite the enormous profits which this proposal would provide to the energy corporations, the largest natural

gas producers are less than enthusiastic in their appraisal of the legislation. They have concluded that the conference committee report would worsen, not alleviate, one of their major problems with natural gas pricing mechanisms: the complexity and amount of paperwork required by the Federal bureaucracies.

Indeed, the Federal Energy Regulatory Commission has described the conference proposal as "so complex, ambiguous and contradictory that it would be virtually impossible for this commission to enforce it in a conscientious and equitable manner."

Independent natural gas producers are meanwhile among the staunchest opponents of the measure. They fear—and with good reason—that the legislation would drive them out of business, further accelerating the trend toward monopolization of the energy industry.

If the House passes this legislation, inflation in our country will be given enormous impetus. The price of practically every manufactured product will rise as the cost of natural gas to industrial users soars.

From every perspective, I believe this to be ill-advised and unnecessary legislation that will harm our economy, wreck consumers' budgets, do nothing to increase energy supplies and weaken the dollar abroad. I sincerely hope that the proposal will be rejected.●

● Mr. MIKVA. Mr. Speaker, I am voting for the rule to provide for consideration of H.R. 8444, the National Energy Act. I did not vote to move the previous question on this rule because I think the natural gas pricing provision is an issue of such importance that it deserved to be considered separately from the other provisions of the National Energy Act package.

By the same token, however, I think it is essential that we take the first step toward formulating a national energy policy. Adoption of the rule will permit the Congress to consider whether the elements of the National Energy Act, taken together, represent the proper first step of a comprehensive policy.

I think the energy package with its provisions for coal conversion, utility rate reform, conservation measures, and tax credits is a positive step, and although I would have preferred to vote separately on the natural gas pricing provisions I intend to vote for the package. I am announcing my intention to vote for the package today, Mr. Speaker, because I will be attending the funeral and burial services for Congressman Ralph Metcalfe tomorrow when the package is before the House, and in light of that and other commitments, I may not be able to return to the House in time for the vote.●

Mr. BOLLING. Mr. Speaker, I yield 4 minutes to the distinguished gentleman from Texas, the majority leader (Mr. WRIGHT).

Mr. WRIGHT. Mr. Speaker, the Members of this Congress will cast no more important vote for the future of America than the vote we are called upon to cast very shortly. This is the most important crisis that confronts us. For too long we have done nothing. We now have the opportunity to do something.

In 1973, when the Arab oil embargo should have shocked us out of our lethargy and into action, this country imported some $7 billion worth of foreign petroleum, and we thought that was bad.

Last year we imported $45 billion worth of foreign petroleum, more than six times the dollar drain.

This year we probably will import $50 billion worth of foreign petroleum, more than seven times the dollar volume of only 5 years ago.

This Nation is hemorrhaging in dollars. Take that $45 billion worth of imports which occurred because of our shameful reliance upon foreign sources and our unwillingness to do anything about it, and lay that $45 billion up against the $26 billion deficit in our balance of payments last year. Does it not become crystal clear? The overriding reason for the deficit in our balance of payments and the decline in the value of the dollar—and to a considerable extent, therefore, the inflation that rages in the country—is our unwillingness to do the two things we absolutely must do if we are to show the necessary self-discipline as a Nation to come to grips with this most central economic problem of our time.

Those two things: Waste less, and produce more. If we do not do both of them, then not only shall we not have solved the problem, we will not even have addressed the problem.

To suggest that we can answer the problem only by conservation is to fall far short of an answer; it is to give to the future of America no answer at all.

Conservation is necessary, of course, and this bill contains incentives for conservation. It contains incentives for better insulation, for more fuel-efficient automobiles, for the conversion of industrial usage from scarce fuels to more abundant fuels, and all of that is important. But it is far from enough. It does not constitute a complete, or even a balanced, program.

If all we did were to conserve, we would be consigning future generations to a steadily declining standard of living. Historically, every percentage point of economic growth has been accompanied by a 1-percent growth in the use of energy. By stringent conservation we may be able to reduce that usage side of the equation to perhaps six-tenths of a percent. But we will never have the capacity to maintain a continually growing economy unless we address the supply side as well—unless we find and produce more energy from our own sources.

If I did not believe earnestly that this natural gas bill compromise will produce more gas, I would not be working for it; I would not be standing here pleading with the Members on both sides to abandon their more petty, parochial concerns and the special pleadings of those economic interests that are clamoring at us. But I do believe the gradual deregulation embodied in this bill will result in more exploration and more domestic discovery. It is on that basis that I do ask you to reject the polarized pleaders, some of them saying, "Oh, we must have immediate, total deregulation," and others of them insisting, "We must never have any deregulation ever."

We should recognize that the Congress has done its best in 20 months of deliberation, resulting in this bill. Then we must face the question: Do we want this Congress to go into adjournment without having addressed this problem?

Each of us can find something in a bill this complex and comprehensive with which to disagree. From no individual point of view is it a perfect bill. But it clearly is the best this Congress can produce. Sure, I think I could write a better bill if left to my own devices. Probably every Member here thinks he could write a better bill. But it is obvious that this Congress as a whole cannot.

Consider the chair that is set in front of this table before me. It has four legs. Each one of them is essential, an integral part of the whole structure. Cut off any one of them, and it has no balance. Thus it is with the program before us.

Throughout the world every leader of a foreign country with whom I have talked in the last year or two has asked first of all, "What are you going to do about energy?" I discern a gnawing apprehension among our country's friends throughout the world. They share an unspoken concern that we may have become too fat and self-indulgent and too petty, polarized, and quarrelsome to assert the self-discipline to lay aside our regional differences and come together as one nation to face and subdue this central problem of our energy shortage.

Let us give the answer to them that our leadership is still worthy of confidence in the world, and that we are capable of facing this problem for the sake of the future of America and of generations yet to come.

Mr. Speaker, let us vote aye on the previous question, aye on the rule, and aye on the bill.

Mr. ANDERSON of Illinois. Mr. Speaker, I yield the remaining time on this side of the aisle to the minority leader, the distinguished gentleman from Arizona (Mr. RHODES).

Mr. RHODES. Mr. Speaker, I must remind the distinguished majority leader that this chair next to me in the well has four legs, but what we are asked to vote on has five legs. Four legs stand a lot better than five, and I think it is time to take one of them off.

Actually this is not a good bill. I agree with the majority leader when he says it is absolutely necessary for us to do something about producing more energy in the continental United States. There is no doubt about it. But this bill does not do it.

If we pass this bill, it will have no effect whatsoever on our balance of payments, which is just as horrendous as the majority leader says it is.

So I suggest to the Members that we vote down the previous question, that we amend the bill, and that we knock out this horrendous natural gas section and then come back in the next Congress and get a bill which will really do something about the drain of dollars we are experiencing. Let us get a bill which will really

do something about producing more energy for the United States of America.

That is what the people want. That is what they need. And that is what we are here to do.

So let us vote "no" on the previous question and vote "no" on the bill when it comes up.

Mr. BOLLING. Mr. Speaker, I yield myself the balance of my time.

GENERAL LEAVE

Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the measure now being considered.

The SPEAKER. Is there objection to the request of the gentleman from Missouri?

There was no objection.

Mr. BOLLING. Mr. Speaker, it has all been said very well on both sides. And it is the kind of thing that makes one feel good about the House and, at the same time, wonder how the system has survived. I mean that quite seriously, because we are a system of divided powers. And within those powers, we divide ourselves. I think it is terribly important to remember that this is not a House bill coming from a committee to the floor. This is a conference report which, after months, has come through the mill, through the grinding mill of two very, very different institutions. This is the Congress and not just the House. The Senate has already dealt with these matters in its way. And we seek to deal with them in our way. It is terribly important to remember that as we sit here this is our country, not just 435 districts. We are acting together. This is a matter of the national interest, not the sum of all of the special interests. The special interests do not add up to the national interest. The reason for this bill, in the face of this coalition of old enemies—the AFL–CIO and Chamber of Commerce—is the dilemma of the democratic process in the United States. How do we act together for the national interest? And sometimes the only way we can do that is by putting together complicated things that are better liked in one region than in others, and worse hated in one region than in another. This bill is that product—the product of the enormous effort of talented men and women on both sides.

Mr. Speaker, it is time for us to act. We have delayed over and over again in our bickering and bitter battles between interests to serve the national interest. I beg the Members to vote for the previous question, to vote for the rule, so that we may make a real step forward in achieving an effective energy program.

Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER. The question is on ordering the previous question.

Mr. ANDERSON of Illinois. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 207, nays 206, answered "present" 1, not voting 16, as follows:

[Roll No. 912]

ANSWERED "PRESENT"—1

Fenwick

NOT VOTING—16

Ammerman	Diggs	Rudd
Badham	Frey	Sarasin
Burke, Calif.	Gonzalez	Shipley
Cochran	Lujan	Teague
Crane	Pettis	
Dickinson	Quie	

The Clerk announced the following pairs:

On this vote:

Mrs. Fenwick for, with Mr. Crane against.

Mrs. Burke of California for, with Mr. Ammerman against.

Mr. Badham for, with Mr. Rudd against.

Mr. Gonzalez for, with Mr. Cochran against.

Until further notice:

Mr. Shipley with Mr. Frey.

Mr. Teague with Mr. Quie.

Mr. Diggs with Mr. Dickinson.

Mr. Sarasin with Mr. Lujan.

Mr. AMBRO changed his vote from "nay" to "yea."

Mrs. FENWICK changed her vote from "yea" to "present."

So the previous question was ordered.

The result of the vote was announced as above recorded.

The SPEAKER. The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 12931) entitled "An act making appropriations for Foreign Assistance and

related programs for the fiscal year ending September 30, 1979, and for other purposes."

The message also announced that the Senate agrees to House amendments to Senate amendments Nos. 16, 40, 45, 94, 96. The message also announced that the Senate recedes from amendment No. 63 to the foregoing bill.

The message also announced that the Senate had passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 14279. An act to extend the authority for the flexible regulation of interest rates on deposits and accounts in depository institutions.

The message also announced that the Senate insists upon its amendment to the bill (H.R. 5285) entitled "An act to amend the Tariff Schedules of the United States with respect to the tariff treatment accorded to film, strips, sheets, and plates of certain plastics or rubber," request a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. LONG, Mr. TALMADGE, Mr. NELSON, Mr. DOLE, and Mr. PACKWOOD to be the conferees on the part of the Senate.

The message also announced that the Senate insists upon its amendments to the bill (H.R. 13750) entitled "An act to implement the International Sugar Agreement, 1977 between the United States and foreign countries, to protect the welfare of consumers of sugar and of those engaged in the domestic sugar industry, and for other purposes," requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. LONG, Mr. MATSUNAGA, Mr. BENTSEN, Mr. CURTIS, and Mr. DOLE to be the conferees on the part of the Senate.

The message also announced that the Senate insists upon its amendment to the amendment of the House to the bill (S. 2566) entitled "An act to amend the Pennsylvania Avenue Development Corporation Act of 1972 to authorize appropriations and borrowings from the U.S. Treasury for further implementation of the development plan for Pennsylvania Avenue between the Capitol and the White House, and for other purposes," request a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. JACKSON, Mr. ABOUREZK, Mr. METZENBAUM, Mr. CHURCH, Mr. JOHNSTON, Mr. BUMPERS, Mr. MATSUNAGA, Mr. ANDERSON, Mr. LAXALT, Mr. MCCLURE, Mr. WEICKER, and Mr. HATFIELD of Oregon to be the conferees on the part of the Senate.

The message also announced that the Senate had passed a concurrent resolution of the following title, in which the concurrence of the House is requested:

S. Con. Res. 113. Concurrent resolution relating to H.R. 13511.

PARLIAMENTARY INQUIRY

Mr. BAUMAN. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state his parliamentary inquiry.

Mr. BAUMAN. Mr. Speaker, has the question on the passage of the rule been put?

The SPEAKER. The Chair will state that the Chair has put the question and announced that the ayes had it and the resolution was agreed to and that the motion to reconsider was laid on the table.

The gentleman from Maryland must be fully aware of what took place.

Mr. BAUMAN. Mr. Speaker, the gentleman from Maryland was listening for the question and failed to hear it.

The SPEAKER. The Chair will state that the Chair waited and nobody asked for a vote on the rule.

Mr. BAUMAN. Mr. Speaker, the gentleman from Maryland was on his feet and did not hear the question being put. I wish to ask for the yeas and nays.

The SPEAKER. The gentleman was given ample time to ask for a vote on the rule. The Chair has been nothing but patient.

The House appreciates the seriousness of the pending motions and would appreciate having the Members take their seats.

The Chair recognizes the gentleman from Georgia (Mr. FLYNT).

IN THE MATTER OF REPRESENTATIVE CHARLES H. WILSON OF CALIFORNIA

Mr. FLYNT. Mr. Speaker, I call up a privileged resolution (H. Res. 1414) and ask for its immediate consideration.

The Clerk read the resolution as follows:

H. RES. 1414

Resolved, That the House of Representatives adopt the report by the Committee on Standards of Official Conduct dated October 6, 1978, in the matter of Representative Charles H. Wilson of California.

The SPEAKER. The Chair recognizes the gentleman from Georgia (Mr. FLYNT) for 1 hour.

Mr. FLYNT. Mr. Speaker, for purposes of debate only, I yield 20 minutes to the gentleman from South Carolina (Mr. SPENCE). For purposes of debate only, I yield 20 minutes to the gentleman from California (Mr. CHARLES H. WILSON). I reserve 20 minutes for myself, and I now yield myself 6 of those minutes.

Mr. Speaker, in early 1977 near the beginning of the 1st session of the 95th Congress, at the unanimous direction of the House, the House directed the Committee on Standards of Official Conduct to pursue and conduct a "full and complete inquiry and investigation to determine whether Members of the House of Representatives, their immediate families, or their associates accepted anything of value, directly or indirectly, from the Government of the Republic of Korea or representatives thereof."

House Resolution 252 further directed this committee to recommend to the House what actions it should take as a result of any misconduct by any Member discovered in the investigation. It was pursuant to that unanimous directive of the House of Representatives that I call up this resolution at this time, and that subsequently I shall call up two additional resolutions.

Let me say that I am confident that the gentleman from South Carolina (Mr. SPENCE) will support the position the committee has taken and will support the chairman of this committee in the statement I have made and which I am about to make.

What few disagreements developed in our committee were on no occasion divided along partisan lines.

Let me say that in the investigation, in the deliberations and in the votes, that I found my colleagues on this committee to be men and women of fair, objective, impartial, judicious temperament. We had one of the most difficult assignments and one of the most difficult mandates ever handed to a committee of this House by a House vote which was unanimous.

We have undertaken that mandate and we believe that we have carried it out without fear, favor, affection, reward, or the hope thereof.

Let me say that in this case we have made every effort to hear all sides of each issue presented to us. When the committee voted that there was probable cause to proceed in the manner which resulted in the matter of CHARLES H. WILSON of California, House Resolution 1414, we proceeded with what we believed was absolute fairness and objectivity. When the public hearings were held, I found occasion to compliment all parties concerned and counsel for the respondent as well as counsel for the committee, on the personal and professional manner in which every person had carried out his and her assigned tasks.

This violation charged against my colleague and my friend, CHARLES H. WILSON of California, is that he acted in a manner that did not reflect creditably on the House of Representatives, in that he made a statement in writing to the committee in response to a questionnaire, whether he had received anything of value over $100 from Tongsun Park.

When Mr. WILSON responded, he said that he had not. Subsequently, he told the committee, and let me say that it is to his credit that he did so, that he had previously received a wedding gift, on the occasion of his marriage in the Republic of Korea, from Tongsun Park. Ordinarily the committee would have accepted that at full value and let it have gone at that; but there were other matters involved in it which indicated that while there was no question of honor or integrity of this House concerned, that Mr. WILSON knew and reasonable persons would have believed that he knew that when he filled in and responded to that questionnaire, that he was aware then and thereof the fact that he had been offered Korean currency of the value of $1,000 and had subsequently accepted $600 in American currency and $400, or the equivalent of, in Korean currency. He says that he gave the $400—and we believe it—to members of his family in Korea to use for charitable purposes in that country. We do not quarrel with that, but we do quarrel with the fact that

he could receive a pair of chopsticks as a wedding gift from this same man and yet could not remember having been offered the equivalent of $1,000 in American currency and having received, by his own subsequent admission, $600 in American currency.

The committee felt, and the committee voted by a vote of 8 to 1, that a reasonable person would believe that Mr. WILSON then and there knew his answer to be incorrect. He is not charged with making such statement under oath because in his sworn appearance before the committee, to the best of my knowledge, Mr. WILSON spoke the truth. He told us that at the time he filled it out he did not remember, but we believe that a reasonable person looking at it purely objectively would come to the same conclusion that the committee came to, that he should have remembered it, and that he did in fact remember it.

Let me say that we are living in the year 1978, that we are not living in the decades of the 1950's or the 1960's or even the early part of the decade of the 1970's. We are living in the year 1978, when, rightly or wrongly, the eyes of a Nation and the eyes of a free world are focusing themselves upon the conduct of public officials, and we who serve in this body are not exempt from that spotlight under which we and other public officials find ourselves.

Mr. Speaker, I ask for an affirmative vote when the question is put by the Speaker on House Resolution 1414, and I reserve the balance of my time.

The SPEAKER. Does the gentleman from Georgia (Mr. FLYNT) yield 20 minutes to the gentleman from South Carolina (Mr. SPENCE)?

Mr. FLYNT. Mr. Speaker, for the purposes of debate only, I yield 20 minutes to the gentleman from South Carolina (Mr. SPENCE), and for the purposes of debate only, I yield 20 minutes to the gentleman from California (Mr. CHARLES H. WILSON).

Mr. SPENCE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as the chairman has stated, the decision and recommendations of this committee are based on the facts and only on the facts—facts contained in the report which have been made available to you. There is more to the development of these facts, however, than is apparent from the reports. The committee's staff has labored to uncover the facts for almost a year and a half. Tens of thousands of documents have been obtained and analyzed. Hundreds of interviews have been conducted, hundreds of depositions have been taken. I personally have presided at the taking of 47 depositions.

When we started this investigation, few thought we would ever obtain the truthful testimony of Tongsun Park concerning the money which he paid to Members of Congress. When this investigation began, he was beyond the territorial jurisdiction of the United States and, by the time he was indicted, he had gone to Korea, a country with which we have no extradition treaty. Through the joint efforts of the commitee, its Special Counsel, the Department of Justice and the Department of State, Tongsun Park returned to this country and testified fully—first in executive session, and then in open session—about his payments to Members of Congress. Due in large measure to the exceptionally thorough preparation done by our staff, it became apparent, to a reasonable degree of certainty, that Mr. Park had told us of every payment which he made to a Member of Congress. The result was that we established, as untrue, press reports that 115 Members of Congress were involved in this so-called Korean influence affair. Instead, it was established that Mr. Park had a clearly corrupt relationship with a few ex-members of Congress; and had made payments of questionable propriety to a few sitting Members. The committee continued its work and cleared all but four of the sitting Members. I issued reports to that effect in July 1978. As to four, Congressman MCFALL, ROYBAL, WILSON, and PATTEN. Statements of alleged violation were filed. This was done after months of intensive investigation by the staff and days of agonizing deliberation by the committee.

After giving to the respondents, or their lawyers, all the information they needed for their defense; and after hearing their motions to dismiss the charges filed against them, the committee decided to hold public hearings to resolve the charges. After the hearings, one Member, Mr. PATTEN, was exonerated, unanimously. The other three are the subject of reports which the committee puts before this House today. These three have been separated from the others based on the facts—facts which have been painstakingly gathered by the staff, presented to the committee, sifted at several stages by the committee, and the committee has sustained the charges against these three Members.

The facts have been considered by the committee without partisanship, and without fear of, or favor to, anyone. As we have been guided solely by our judgment of the facts, so we expect our work to be judged by the public and by our colleagues on the basis of the facts. If the facts contained in these House reports do not support our findings and recommendations, then the reports should be disapproved. If, on the other hand, the facts do support our findings and recommendations, then the reports should be adopted by the full House. This will not, in a spirit of hysteria, wrongly accuse its Members of misconduct, but that we will—when the facts are there—not hesitate to express our disapproval of the conduct of a colleague.

It is extremely difficult for a Member of this institution, like myself, to sit in judgment of another Member. It is even more difficult to find that charges have been sustained, and to recommend punishment. None of us have enjoyed the assignment. I believe we have performed it conscientiously, and I am completely confident that the recommendations in these three cases merit the agreement of the full House.

In the case of the first report, the facts support our findings that Mr. WILSON deliberately made a false statement to the committee on his questionnaire when he denied receiving anything over $100 in value from Tongsun Park. In fact, as it later was revealed to the committee, Mr. WILSON received a wedding gift from Tongsun Park in the Chosun Hotel in Seoul, Korea, of $1,000 in cash—partly in U.S. currency and partly in Korean currency. The questionnaire was not answered under oath, and consequently, Mr. WILSON's conduct does not rise to the level of perjury. However, the questionnaire was an important fact gathering tool for the committee. And the making of a deliberate false statement in an official document, relating to a central issue in an important investigation, is a very serious matter. He conducted himself in a manner which did not reflect creditably on the House of Representatives and is thereby in violation of Rule 1 of the Code of Conduct.

The punishment recommended by the committee reflects the seriousness of the offense.

Mr. Speaker, I have no requests for time, and I yield back the balance of my time.

The SPEAKER. The gentleman from California (Mr. CHARLES H. WILSON) is recognized for 20 minutes.

Mr. FLYNT. Mr. Speaker, will the gentleman yield to me to correct a statement which I made in my opening statement?

Mr. CHARLES H. WILSON of California. I yield to the gentleman from Georgia.

Mr. FLYNT. Mr. Speaker, it was called to my attention that I said that the matter of the chopsticks were not reported, that they were reported earlier than the currency. It has been called to my attention, and I accept that correction, that the chopsticks and currency were both reported at the same time.

Mr. CHARLES H. WILSON of California. Mr. Speaker and my fellow colleagues. I stand before you today to face the report of the Committee on Standards of Official Conduct which has voted that acceptance of its report shall constitute a reprimand to me. This results from my failure to report to the committee the fact that I had received a perfectly lawful and, in the circumstances, proper wedding present from Tongsun Park on the occasion of my marriage to my lovely wife in Korea in 1975. I want to emphasize that it is not the wedding present which forms the basis of the committee's report. It is, rather, my inadvertent failure to originally report the wedding present in response to a committee's questionnaire in July 1977. Even though I later corrected my error, it is the original omission which constitutes the grounds upon which the committee has recommended that I be reprimanded.

I have already informed the House of my decision not to contest the committee's recommendation that acceptance of its report shall constitute a rep-

rimand. I stand by that decision. It is the most difficult decision I have ever had to make in my public life, which spans nearly a quarter of a century. I want to take this opportunity to explain to you, my colleagues, why I made this decision not to contest the committee's report. I think that my action has fundamental importance to the well-being of this institution which I am proud to serve.

My decision was extraordinarily difficult for several reasons. My action may be considered by some as an admission of guilt. This is not the case. I assure you that I now believe, as I have throughout, that I am innocent. I freely admit that my wife and I received a cash wedding present from Tongsun Park. But there was nothing improper in this. The committee itself has found that the receipt of that present violates no statute or rule of this House. I have told the committee, and I tell you now, that I regret having accepted the wedding present. I should have refused it the second time as I did when it was first offered to me. But that is a purely personal judgment. The committee has found that the wedding present was lawful and my decision to accept it was appropriate.

I also admit that I neglected to report the fact of that innocent wedding present when I responded to the committee's questionnaire in July 1977. I am deeply disappointed that the committee was unwilling to accept the fact that I had completely forgotten about the present when I answered the questionnaire. I swear to you that when I originally answered, I did not know that my answer was incomplete; I did not deliberately suppress information; and I did not ever intend to deceive or mislead the committee or this House. My oversight was genuinely innocent.

And, I corrected my omission voluntarily and freely as soon as I became aware of it. I was the first to report to the committee the fact of the wedding present. I seriously doubt that the wedding present would be known to this day if I had not come forward. I do not regret that action.

I believe that I am entirely, absolutely innocent of wrongdoing. I believe I am innocent even of the technical violation which the committee found. Nevertheless, I have chosen not to contest the committee's finding that a technical violation of the rules of the House has occurred.

My decision not to contest this matter was also made extremely difficult because the sanction which has been imposed is harsh. The committee's recommendation is the mildest form of penalty which our code of conduct provides. I think that this, in itself, reveals the committee's recognition that my violation, if there was one, was of a highly technical nature. I still believe that even this mild rebuke is cruel. It fails to discriminate between an innocent mistake such as mine, and affirmative misconduct. I am deeply troubled that our standards of conduct do not make the more complete distinctions of punishment which are necessary. Our code does not permit the punishment, if there is to be one, to fit the crime. If there has been one.

The question is why? I believe I am truly innocent of even technical wrongdoing. I know that the penalty for my conceded failure to originally report the wedding present is harsh. Why then have I chosen not to dispute the committee's recommendation?

The answer is relatively simple. I have decided this: that there is some meaning, some broad long-range lesson, some teaching, which will benefit this House to be derived from my ordeal; and that, therefore, unjust and unfair as it may be, I should not contest the action of my colleagues on the committee.

This experience has been a long and difficult ordeal. It is never pleasant to be viewed with suspicion; it is especially trying to be accused of having submitted a false statement when you yourself corrected it. It is baffling to be placed under suspicion, to be examined, cross-examined, deposed and ultimately found to have committed a technical error, when the wedding present itself was entirely innocent.

There is no question that the long ordeal has taken its toll on me personally. Despite it, I have attempted to the best of my ability to perform my duties to my constituents and to this House. I have carried out my committee assignments scrupulously. I have voted on matters which I believe to be important, without seeking or expecting favor. I have spoken out on issues without regard to personal consequences. In a word, I have attempted throughout it all to perform the important office to which the citizens of California have elected me. I believe that my record throughout confirms that I have succeeded in this.

I decided, then, that there is some purpose to be served, in the interests of this great institution by my decision. There are, I believe, two lessons for us all to be drawn from my experience.

My decision teaches that we in the House of Representatives are prepared to accept ethical standards for ourselves which are higher than those imposed upon any other citizen. I have long been resentful of the view that a person elected to Congress is, by definition, corrupt, venal, unethical. That is not true. I think my willingness to accept the committee's recommendation demonstrates the falsity of this opinion. The committee found there was no criminal misconduct in my acceptance of the gift or in my original failure to report it. The committee found that I voluntarily and freely came forward to correct the omission. Nevertheless, the committee has recommended a reprimand. This, I believe, sets a standard of behavior higher than that which would be imposed upon any other citizen.

My decision not to dispute the committee's report endorses this principle that Congressmen are held to a high standard of behavior; indeed, higher than that which we expect of anyone else. I certainly mean to endorse that principle. In so doing, however, I do not intend to suggest that our existing code of conduct is perfect. On the contrary, I believe it is desperately in need of reform. Those standards make it impossible to excuse a technical lapse such as the one I am charged with having made.

I truly believe this: we all must recognize that the committee's recommendation constitutes the establishment of an extremely high standard of conduct. If so, my decision not to contest the committee's action will have been worthwhile. It will serve as a guide so that we can go forward and improve our code of conduct. We can make it one which is just, but is also tempered with mercy. I trust also that my action will silence the cynics and critics who suggest that this institution is venal and incapable of managing its own affairs. Then, my decision will have been worth it.

Second, I take the committee's action as a personal reminder in the performance of my duties as a member of this body. It is a reminder which I think all of us need to share. The committee's action essentially exonerates me of serious wrongdoing. But it is also a reminder that I must be vigilant and careful in my efforts to be completely candid with my colleagues. This is no easy task. There are terrific pressures under which we, as public officials, live. Careless mistakes, no matter how innocent, occur. I made one. The committee has now recommended that I at least be chided for it. You may be sure that I will never forget that. I am determined to redouble my efforts. I will do my utmost to prevent in the future any occurrence, even of the most innocent or trivial nature, which could lead anybody to the conclusion that I am less than candid. With humility, I suggest that this is a lesson from which all of my colleagues can profit.

I came here today not to apologize, but to explain. I believe that I have very little to apologize for. Undeniably, I made mistakes in connection with this matter. I should have refused the present the second time as I did when it was first offered to me. I should have answered the questionnaire more promptly and with greater care. I made an error. I wish I had remembered and corrected my response sooner than I did.

At the same time, there are things for which I have no apology. I was a champion of our support and aid—military and economic—to Korea long years before Tongsun Park was ever heard of. I will continue to urge that support for as long as that policy seems to me to be needed. I have no apology for my marriage to a lovely woman who happens to be of Korean birth. I would make that wedding trip again today. I have no regrets for my decision to rectify the omission in my original response to the committee's questionnaire, although it has caused me more difficulty and anguish than the incident would warrant.

Above all, I have no regrets for my action today in deciding not to contest the committee's report. I deeply believe that this action can serve the fundamental purposes which I have described—as a reference point by which meaningful reformation of our code of conduct can

be achieved; and as a reminder to us all of the need for absolute care and candor. Then, although it has unquestionably cost me dearly, this experience will have been a price worth paying.

In the spirit that the committee's investigation has made it possible for this House to be restored to the confidence of the American people, in the spirit that my decision has served an important purpose, I will not contest the report. I assure you that I will continue in the future to serve the interests of this House and our great country. I will do so openly, fairly and to the best of my ability. I trust that, for as long as I am privileged to serve among you, you will treat me in the same spirit.

Mr. CLAY. Mr. Speaker, will the gentleman yield?

Mr. CHARLES H. WILSON of California. I will be happy to yield such time as he may consume to the gentleman from Missouri (Mr. CLAY).

Mr. CLAY. Mr. Speaker, Charles Dickens wrote:

> It was the best of times, it was the worst of times, it was an age of wisdom, it was an age of foolishness, it was an epoch of belief, it was an epoch of incredulity, it was the spring of hope, it was the winter of despair.

Mr. Dickens could well have been describing the mood of this House today. The fear, tension, hypocrisy permeating this body concerning allegations of wrongdoing is unbelievable. The present climate takes on epic proportions to the same degree as that of the great Holy Wars. The heathens must be sought out and destroyed; the pagans chastised, disciplined, converted. And all of this must come to pass so that pseudo-knights in tainted armor, waving bloody flags might triumphantly return to their districts as conquering heroes.

Mr. Speaker, it is a time of incredulity when lifelong cowards become overnight heroes. It is the worst of times when the House of Representatives becomes a battleground upon which passion and appetite wage war against reason and justice. It is the winter of despair when men and women of common decency must recoil in indignation to see so many called to dance to the music but so few chosen to pay the piper.

Only three of our colleagues are marched into this coliseum to face the lions and cheering mobs while bloodthirsty scribes sit perched ahigh in the press gallery awaiting the carnage. Two years ago those same scribes proclaimed that at least 115 Members of this distinguished body participated in a scheme involving millions of dollars to influence votes in behalf of a foreign nation.

Mr. Speaker, here we are today at the grand finale, having spent over a million dollars of the taxpayers money investigating those wild, reckless, irresponsible allegations, having looked at tens of thousands of documents, hundreds of hours of testimony. Here we are today contemplating the censure of one Member and the reprimand of two others. What began as possibly 115 Members has now dwindled to only three. What began as alleged influence at the top echelons of Government has now fizzled to three relatively inconspicuous Members, not one a committee chairman. What began as $9 million in graft and bribes has shrunk to $4,600. What began as visions of another Teapot Dome scandal has diminished to visions of sugar plums dancing in someone's head.

Mr. Speaker, what began as a noble investigation to rid this body of possibly 115 public servants betraying their public trust has now degenerated into an inquisition to suppress the heresy of three Members. It is indeed an age of foolishness because overnight heroes and overzealous crusaders have become more concerned about how this Congress is perceived by the public than they are about how Congress itself perceives the public. Apparently, we view the public with utter contempt. It is the spring of hope to think the degradation and embarassment of CHARLES WILSON, ED ROYBAL, and JOHN MCFALL will improve our image. Have we taken sabbatical leave from our sense of equity and fairplay? Why is it necessary to inflict such myopic embarrassment? These men are not accused of any illegality and certainly the accusation of impropriety is far less than that of some who are not being judged today.

Mr. Speaker, to those genuinely concerned about chopsticks and how the public views this Congress, let me assure them that these proceedings are perceived as a farce, a sham, a charade, our boast of justice merely an unholy license, our sanctimonious conduct a hollow mockery. The Byzantine mentality pervasive in this Chamber is one more concerned with image than equity; one more concerned with the appearance of justice than justice itself. To discipline three Members based on such paltry evidence is not a profile in courage. Let history not record the 95th Congress as the one which discarded values of the past to create an image in the present so as to protect its selfish interest in the future. Whether CHARLES WILSON contests the report or not—simply justice dictates that a person not be treated in such a shoddy manner—I urge defeat of the motion.

Mr. MAZZOLI. Mr. Speaker, will the gentleman yield?

Mr. CLAY. I yield to the gentleman from Kentucky.

Mr. MAZZOLI. Mr. Speaker, with all due respect to my friend, the gentleman from Missouri (Mr. CLAY), I must disagree with him about this being a star chamber or a court of inquisition or that this is a coliseum.

I do not serve on the gentleman from Georgia's committee, and I am not familiar with all of the charges; but I really feel that the gentleman does a disservice to the quality of the committee's investigation and, I think, to the whole issue of why we are here today, with a great number of our people present to listen to the evidence.

I would only say to my friend, with whom I have served on another committee, that I think he may have inadvertently, perhaps, cast aspersions on this entire proceeding.

Mr. CLAY. I would say to the gentleman that quite a number of Members have shown up to hear the arguments today; but I venture to say that 95 percent of them have not read the report and they do not know what they are voting on, because the report was just issued this morning.

I would venture to say that the gentleman has not read the report. It is an inquisition, and we have panicked because the members of the press have said that somebody did wrong in this Congress. Every time the members of the mighty press accuse a Member of this body of a wrong, we immediately rush to the defense of the press to prove that the press is right.

What happened to the 115 Members which the Washington Post and the New York Times put on the front page of their newspapers 2 years ago, saying that $9 million had passed hands?

Mr. MAZZOLI. If the gentleman will yield further, Mr. Speaker, I place my trust in the gentleman from Georgia (Mr. FLYNT) and his distinguished committee.

Mr. ICHORD. Mr. Speaker, will the gentleman yield?

Mr. CLAY. I yield to the gentleman from Missouri.

Mr. ICHORD. Mr. Speaker, I am shocked to hear the gentleman from Kentucky (Mr. MAZZOLI) say on the floor of this House that he is over here to listen to the "evidence."

It goes against my grain and my training as a lawyer. Does the gentleman call what is being presented on the floor of the House now "evidence" We are not hearing evidence. We are listening to arguments.

I am not condemning the gentleman from Georgia (Mr. FLYNT), the distinguished chairman of the Committee on Standards of Official Conduct. I am not condemning the gentleman from South Carolina (Mr. SPENCE), the ranking minority member of the committee. They had a job to do and they have done their job in an admirable manner. Their task has indeed been a difficult one.

But how does the gentleman from Kentucky say that this is evidence? The only people who could have possibly heard the evidence were the members of the Committeee on Standards of Official Conduct. All anyone is reading when he reads the report and all anyone is hearing when people stand up and speak on the floor of this House is strictly hearsay evidence. I would not describe these proceedings with the eloquent rhetoric and perhaps exaggerated characterization of the gentleman from Missouri (Mr. CLAY) but what he has said gives me reason to stop and think more seriously about what we are about to do.

But I will state this to the gentleman from Missouri (Mr. CLAY) and the Members of this House, that every Member of this House should consider disqualifying himself as I am considering so doing by voting present on these resolutions. I am greatly bothered by the fact that I am asked to judge innocence and guilt without the benefit of hearing the evidence and also under the pressure of elections just 3 weeks away.

Mr. MAZZOLI. Mr. Speaker, will the gentleman yield?

Mr. CLAY. I yield to the gentleman from Kentucky.

Mr. MAZZOLI. I thank the gentleman for yielding.

Just in answer to what the gentleman from Missouri (Mr. ICHORD) said, if the gentleman from Kentucky used the wrong language, let me certainly apologize. We are here today to hear the debate. As I stated it, I used the term "evidence" in a too-legal sense, maybe.

Mr. ICHORD. The gentleman from Kentucky should apologize; if the gentle man from Missouri (Mr. CLAY) will yield further, I will state to the gentleman from Kentucky, because he was not present to listen to the inflection in the voices of witnesses. He was not present at the hearing to see the demeanor of the witnesses. And the gentleman from Missouri (Mr. CLAY) is right. Ninety percent of the Members have not even read the report.

Mr. MAZZOLI. If the gentleman from Missouri (Mr. CLAY) will yield, this is not a star-chamber; this is not an inquisition; this is not a coliseum. I would continue to insist.

Mr. ICHORD. I will state to the gentleman from Kentucky, we cannot describe this as hearing evidence on the floor of the House.

Mr. MAZZOLI. If the gentleman from Kentucky is wrong in that regard, he is not wrong in stating this is not a coliseum in which people are being thrown to the lions.

Mr. RISENHOOVER. Mr. Speaker, will the gentleman yield?

Mr. CLAY. I yield to the gentleman from Oklahoma.

Mr. RISENHOOVER. I would like to associate myself with the gentleman's remarks. As a member of the media profession, as a publisher who has taken as much hide off of politicians, I guess, as anyone in my short career in the media, I would just like to say from a point of personal experience that if the people the gentleman described, the media who brought all of this about, maintained just half the level of moral, legal, and ethical standards that the Members of this body maintain, the world would be a lot better place, and a lot of them would not be there.

Mr. CLAY. I thank the gentleman for his comments.

Mr. DELLUMS. Mr. Speaker, will my colleague yield to me?

Mr. CLAY. I yield to the gentleman from California.

Mr. DELLUMS. I thank my distinguished colleague, the gentleman from Missouri, for yielding to me.

I truly rise reluctantly, because I think that any time we set about to judge our peers, it is a very serious moment, serious, indeed, whether we serve on juries in our local communities or whether we serve in this body to judge our colleagues.

My colleague, the gentleman from Kentucky (Mr. MAZZOLI) raised a question about the gentleman from Missouri's challenging this process. A few moments ago I was sitting with one of my colleagues who said, "You know, if you are really going to challenge this, you are going to have to take on the whole system." I am not a kamikaze, but for a minute I would like to take on this whole system because this entire thing to me stinks to high heaven.

If the Members will give me a moment, I would like to point out, first, I challenge not the personalities who serve here but the process itself, the structure of the institution. I first challenge the fact that this committee held no judicial proceedings whatsoever—none—with no rules to guide them that are judicial rules.

Second, I would say to my colleagues that I hope those of us who come back next time never allow the development of an Ethics Committee that does not represent all of the people in this body. For those of you who went up there, there were nine men and one woman—no blacks, no Chicanos. We are here, Mr. Speaker, and members of the committee, and we demand to be part of the process. If we are going to have an Ethics Committee next year, then let it represent all the people.

The next point: My colleague, the gentleman from Missouri, raised some statistics I think of critical importance. This was supposed to be Koreagate. I was ready for hell to break loose. So the criminality of 115 Members came down now to 3 Members of the House. The $870,000 is now down to $4,600, and these are not illegal crimes.

We all started out here trying to investigate serious felonious charges. No one has been brought here with any illegal charges. I am concerned about why that did not happen, and no one has told me what has happened to this investigation to water it down to this level.

Next, somebody on the floor tell me if I am wrong, but I thought receiving money from a foreign agent was illegal. Now I find that if one reported it properly, it was not illegal. What are the criteria? We have allowed several Members of our body to never have to face any public charges. Two of our white colleagues are brought down here to be slapped on the wrist. And one of my brown brothers is down here to be totally wiped out in the process.

Where is the justice? Where is the equity? Where is the proper procedure? When we look around this country, people are saving the only person who got ripped off in this process was a brown man with no power except his ability to push a button and vote.

I am concerned, and if you want to ask me am I raising the question, did the investigation go far enough? Yes. I am raising that and I am questioning the whole process, because I think these whole proceedings stink to high heaven.

Mr. CAPUTO. Mr. Speaker, will the gentleman yield?

Mr. CLAY. I yield to the gentleman from New York.

Mr. CAPUTO. Mr. Speaker, did the gentleman read Tongsun Park's testimony?

Mr. CLAY. I did not have to read Tongsun Park's testimony.

Mr. CAPUTO. Mr. Speaker, I take back my time.

Mr. CLAY. The gentleman does not have the time. It is my time. I will reclaim my time.

Mr. CAPUTO. Did the gentleman read Tongsun Park's testimony?

Mr. CLAY. Does the gentleman just want a yes or no answer?

Mr. CAPUTO. Yes.

Mr. CLAY. Mr. Speaker, I reclaim my time.

Mr. Speaker, I yield to the gentleman from New York (Mr. BIAGGI).

Mr. BIAGGI. Mr. Speaker, I want to congratulate the gentleman from Missouri and the gentleman from California for their comments. Their comments, I think, exceed the narrow issue on the floor today. They are talking about a philosophy and a standard of conduct that has frustrated me since my youth, the double standard that people apply to every walk of life.

I would hope that in this Chamber, at least, I did when I came here initially, that double standards would not permeate this area. I was disappointed. Time after time those double standards have manifested themselves.

I, for one, will not vote for the resolution on the committee report. I will not go any further into the criticism of the entire report but I very closely associate myself with the remarks of the gentleman in the well and the gentleman from California. The gentleman from California characterized this proceeding in a very earthy fashion. I do not think it could have been done more appropriately.

Mr. Speaker, I yield back the balance of my time.

Mr. SPENCE. Mr. Speaker, if I could reclaim my time, I yield 5 minutes to the gentleman from New York (Mr. CAPUTO).

Mr. CAPUTO. Mr. Speaker, I respect the right of everyone to feel differently about this matter; but some of us went to Korea to hear Tongsun Park. I do not know if you had a chance to read his testimony. I gather a lot of you did not. He testified that he made $850,000 in payments to some 34 Members of the House and the Senate. A lot of them are no longer Members of the House. Some of them are Members of the Senate. That is why all are not here today facing charges.

Second, a former Member of the House was indicted and convicted. Let me read to you from his conviction:

> It was further part of said conspiracy that Tongsun Park, with knowledge and under the direction of the Korean Central Intelligence Agency, would corruptly provide money to various Members of the Congress and the Senate.

POINT OF ORDER

Mr. SISK. Mr. Speaker, a point of order.

The SPEAKER. The gentleman will state the point of order.

Mr. SISK. Mr. Speaker, I make a point of order that the gentleman is not speaking on the subject under consideration. At the present time we are hearing a situation in connection with our colleague from California (Mr. CHARLES H. WILSON). We are not discussing the whole Korean episode from start to finish.

I think the gentleman is talking out of

line in connection with something he is raising. I do not think he is in order.

The SPEAKER. The gentleman will speak on the subject matter before us, which is House Resolution 1414, concerning Mr. CHARLES H. WILSON of California.

Mr. CAPUTO. Yes, sir; I was confused by the last five or six speakers about the scope of this discussion.

Let me return to the matter before us. There was some discussion that this was a mere technical violation that you are asked to pass judgment on. We know that a U.S. court found that Tongsun Park was involved in a conspiracy with the Korean Central Intelligence Agency and other parts of the Korean Government to make illegal payments in $1,000 increments to Members of Congress.

The committee found that the Member before you did what he admitted to doing. He took $1,000 from Tongsun Park.

Mr. RANGEL. Mr. Speaker, will the gentleman yield on that point just for clarification?

Mr. CAPUTO. Yes, I yield.

Mr. RANGEL. Because I would not want to be sitting too close to any Member of Congress that has been influenced by a foreign agent.

My question to the gentleman is: If Tongsun Park was indeed a foreign agent, did our U.S. Government know this, and was the Member in question advised by our Government that the moneys he received from Tongsun Park, who was very well-known in legislative and executive party circles, were in fact coming from an agent of a foreign country? I ask that because that to me would make the case.

Mr. CAPUTO. I believe our Government knew it and that several Members of Congress were advised of it, but not the Member in question.

Mr. RANGEL. Mr. Speaker, let me try to ask it again.

If it is proven that Park was a foreign agent and it was proven the Member took $1,000, my question is, Did the Government advise the Member that Park was a foreign agent?

Mr. CAPUTO. I will answer that, and then I am going to have to reclaim my time because I have a limited amount of time.

Mr. Speaker, I believe our Government knew it, I believe our Government advised several Members of the gifts, but not Mr. WILSON, whom we are discussing right now.

Mr. WILSON testified that he did not know Tongsun Park; he had met him for about 1 minute the day before he received $1,000 in cash from Tongsun Park; that Park was a stranger who gave him a $1,000 in cash.

Now, the committee made some decisions about how we would treat that kind of incident. There is no question that Tongsun Park was an agent of a foreign government in my mind, or in the mind of Mr. Jaworski, or in the mind of many of us. We have direct evidence of that agency relationship, and we have direct evidence of several $1,000 payments by Tongsun Park to Members of Congress and direct evidence that those payments were intended to influence the opinions and actions of recipient Members. And in the case where a Member had no direct knowledge of the true source and purpose of payments received from any source, the committee wrote an opinion. Let me read it to the Members:

> Even if a Member of Congress did not have actual knowledge of a donor's ties to the Korean Government, for example, or did not actually know of any corrupt motivation underlying the gift offer, the Member should still be subject to at least some sanction if the circumstances place that Member on notice that the gift was tendered in an attempt by a foreign government to influence his present or future actions and he took no action or insufficient action to attempt to discover the true nature and purpose of the gift; that is, if all the circumstances should have alerted a responsible Member concerned about both the letter and spirit of the law to hesitate and inquire before acting, the failue of a Member to learn the truth should not be an excuse.

Mr. Speaker, I am not suggesting that we have an expulsion offense here. I am suggesting to the Members that there was a very real conspiracy, and that Mr. WILSON, perhaps unwittingly was caught up in it and indeed was a direct target of one of these $1,000 payments, and that Mr. WILSON failed to do what a reasonable Member would have done: Find out who this stranger was that gave him $1,000 in cash.

Mr. GONZALEZ. Mr. Speaker, will the gentleman yield?

Mr. CAPUTO. Not at this point.

Mr. RANGEL. Mr. Speaker, will the gentleman yield just to clarify that point?

Mr. CAPUTO. Not at this time. The gentleman can get some time of his own. I have several other points I wish to make.

Mr. WILSON asserts he committed a mere technical infraction, meaning there was nothing illegal, nothing criminal, nothing improper, about what he did. The gentleman was asked by the committee: "Did you ever get anything from Tongsun Park?"

He was asked by a committee of Congress in a formal document at a time when there was a good deal of publicity surrounding that question and those questionnaires, and he said, "No."

I can believe he could have misunderstood the questionnaire or the seriousness of the questionnaire, but he subsequently changed his answer at exactly the time when some of us were in Korea asking Tongsun Park questions about who he gave money to, when, where, and why. Press reports had started coming back to the United States describing how freely Park was testifying. And it was exactly at that time that the gentleman in question decided to change his testimony and indicate that he had indeed received $1,000 from Tongsun Park.

I do not think that is an expulsion offense. I do not think that is a criminal offense, and because that statement was not under oath it is not perjurious. But I think if we take this body seriously, as I know the Members do, that was an offense against this body.

It strains credulity. I think the vote was nearly unanimous in the committee—although I do not recall—that Mr. WILSON knew at the time he filled out the questionnaire that he got $1,000 from Tongsun Park. And it was only at the point in time that Mr. WILSON began to fear that his untruthful statement was being exposed by the only person who could expose it, that Mr. WILSON recanted and decided to tell the truth to the Congress. It is not a mere technical offense. It was not a minor conspiracy that Mr. WILSON was caught up in. It was a major conspiracy. He was a minor player in a corrupt effort to subvert the U.S. Congress, an effort which has led to convictions, indictments and other penalties of former Members of this body.

The SPEAKER. The time of the gentleman from New York (Mr. CAPUTO) has expired.

Mr. SPENCE. Mr. Speaker, I yield 1 additional minute to the gentleman from New York.

Mr. GONZALEZ. Mr. Speaker, will the gentleman yield?

Mr. CAPUTO. I will yield on the gentleman's time. I just do not have the time. I am sorry, Mr. GONZALEZ.

Mr. Speaker, I want to close with my sense of the gravity of this matter and explain why the respondent's conduct warrants reprimand. Tongsun Park said he gave $850,000 to Members of Congress. Hancho Kim was indicted for giving $600,000 for the explicit purpose of making payments to Members of Congress. Leon Jaworski, whose legal skills exceed most, said that he thought 8 sitting Members had criminal problems. I do not think we have an absence of scandal here. We may well have a want of a diligent investigation.

You may disagree. You may think Tongsun Park's payments were proper. But before you reach that conclusion, I hope you take as much time as I have to read the testimony, to read the indictments, and to understand what was said by whom, with what kind of evidence. We do not have time to present it to you here now. You had an opportunity to read it all. I think this is a serious matter. Mr. WILSON was involved in to a minor degree, which is why a minor penalty is recommended.

Mr. GONZALEZ. Mr. Speaker, will the gentleman yield?

The SPEAKER. The time of the gentleman from New York (Mr. CAPUTO) has expired.

The gentleman from Georgia (Mr. FLYNT) has 11 minutes remaining.

Mr. BAUMAN. Mr. Speaker, will the gentleman yield for a question?

Mr. FLYNT. Mr. Speaker. I will yield to the gentleman from Maryland, but first I yield such time as he may consume to the gentleman from Virginia (Mr. DAN DANIEL).

Mr. DAN DANIEL. I thank the gentleman for yielding.

Mr. Speaker, this Member participated in a discussion in Korea with the Ambassador, our Ambassador, Mr. Sneider, and CHARLES WILSON, the Honorable CHARLES WILSON, in the second week of November 1977, which I think might have some bearing on this matter before us. We were in Korea on a mission under the jurisdiction of the Committee on Armed Services.

The Members will recall that at that time our Government was attempting to persuade Tongsun Park, and others, to return to the United States to give testimony on influence peddling charges. Mr. WILSON and I were having lunch with our Ambassador, and during the course of that meal Mr. WILSON was asked by our Ambassador if he would pay a visit to President Park of Korea in an attempt to impress upon him the importance of complete cooperation in our Government's effort to get Tongsun Park to return to this country. Mr. WILSON agreed to so do. And, Mr. Speaker, it appears to me that this act of cooperation should be taken into account in consideration of the matter before us.

Mr. BAUMAN. Mr. Speaker, will the gentleman yield?

Mr. FLYNT. I yield to the gentleman from Maryland.

Mr. BAUMAN. I thank the gentleman for yielding.

Mr. Speaker, I have a question from one who has tried to read all the reports in the time available to us. It seems central to the defense of the gentleman from California (Mr. WILSON), as evidenced by the statement that he presented here this afternoon, that he mistakenly made a statement in response to a questionnaire and subsequently sought to amend that statement. The committee apparently did not accept that amended statement which was submitted several months later. I have had alleged to me by various Members of the House who claim to have knowledge that other Members of the House who stood accused before the gentleman's committee were permitted to amend their original statements and, thus, avoid punishment.

Could the gentleman from Georgia tell me whether or not any other Member who was accused or in any way implicated was allowed to amend his statement so as to avoid punishment?

Mr. FLYNT. The gentleman from Maryland may wish he had not asked the gentleman from Georgia that question. But the gentleman from Georgia is going to answer it.

It became public knowledge that Mr. Tongsun Park had testified under oath in Seoul before representatives of the Department of Justice and one member of this committee.

The general contents of that testimony became publicly known. The specific contents of that testimony did not become publicly known. At the time that the amendatory letter amending the statement, the answer to the questionnaire filed in July of 1977 which the committee found was made knowing it to be inaccurate to say the least; false to say the most, and that 3 days before the amendment to the questionnaire was filed the gentleman from California, Mr. CHARLES H. WILSON, had been served with a notice of intention to take his deposition under oath. The date of that deposition was the 19th of January, 1978.

This question was raised. The defense which the effort to exonerate was made by the gentleman from California before the committee, just as it was made here today. The committee seriously and carefully considered that defense. The committee came to a conclusion by a vote of 8 to 1 that the circumstances surrounding the serving of the notice to take the deposition under oath, coupled with the fact that it became known that Tongsun Park had testified under oath before officials of the U.S. Department of Justice and a member of this committee, was responsible entirely for the amendment to the false statement, the inaccurate statement to say the least, which was filed in July of 1977.

Mr. BAUMAN. If the gentleman will yield further, I think he has made an important point, but my question has not been fully answered. Since the gentleman from California was not permitted to amend his first statement, was any other Member accused before the committee permitted to make such amendments to previous statements so as to avoid being charged, reprimanded, or censured? I think the same standard should be applied to all Members.

Mr. FLYNT. The Chair has inquired of the Chief Counsel if there were any other instances in which an amended answer to the questionnaire was filed. The chairman of the committee has been advised that there were none of this specific nature.

Mr. BAUMAN. Was there any later change in testimony from previous testimony by any Member? You can see the implication of my questions; any change permitted a Member that would allow him to avoid a charge seems to me to be relevant to the defense the gentleman from California has given us.

Mr. FLYNT. The gentleman from Georgia will respond to the gentleman from Maryland further by saying that he has now been advised specifically that there were some who changed their statements with regard to trips, but there were none who changed their statements with regard to having received anything of value.

Mr. BAUMAN. Would the changes have avoided a reprimand or a censure, any changes in previous testimony? That certainly seems central to the question to me.

Mr. FLYNT. In each case the decision was made, based upon whether or not the committee found as a matter of fact that the original statement was made knowing it to be inaccurate and false at the time that it was made. There was no other such instance in the records of the committee.

Mr. BAUMAN. I thank the gentleman for his response, but I must say I am deeply troubled by the information the gentleman has given the House.

Mr. RANGEL. Mr. Speaker, will the gentleman yield?

Mr. FLYNT. I yield to the gentleman from New York.

Mr. RANGEL. Mr. Speaker, my colleague from New York (Mr. CAPUTO) made certain statements which I did not have enough time to respond to, but he was speaking allegedly on behalf of the committee. I hope the chairman might be able to clarify some of the things on whether in fact this was the committee's view. It is my understanding that he said that while people in the Government knew that Tongsun Park was a foreign agent, and while there was no testimony to prove that Congressman WILSON knew that Tongsun Park was a foreign agent, that inasmuch as Mr. WILSON received $1,000 from a Korean during a wedding in which he was marrying a Korean girl, that the committee reached a conclusion that he should have looked beyond the gift and make a reasonable conclusion that Tongsun Park was not a Korean friend of his bride, but was, in fact, a foreign agent.

Is that a statement that is consistent with what Mr. CAPUTO said as to what responsibility this Member had in determining whether or not he was subject to an influence peddler or whether or not a Korean giving a present to him because they both had the same nationality as his wife?

Mr. FLYNT. I will at this time yield to the gentleman from New York for the purpose of responding to the question of his colleague from New York.

Mr. CAPUTO. Yes, that is about what I said.

Mr. RANGEL. You made it a lot easier for me.

Mr. CAPUTO. I meant to call you the gentleman from New York. Sorry.

Mr. RANGEL. I am just saying that you are saying that Mr. WILSON at this wedding with his Korean bride, in receiving a gift from a Korean for $1,000, had the responsibility to determine whether or not the gift came from a friend of the bride or whether or not it came from an agent of a foreign country, right? You have answered. Thank you.

Mr. FLYNT. If I may reclaim my time I will further attempt to answer the question of the gentleman from New York (Mr. RANGEL) by saying this:

There is nothing in this allegation of alleged violation that says that the receipt of the gift constituted a wrong action. What the allegation does say and what this committee has found and now asks this House to approve is that a reasonable man would believe that any other reasonable man would remember receiving $1,000 in a gift from a man whom he had only met the day before and then only for a minute or two of time. That is what we are saying, that the gentleman from California knew at the time he filed his information and answered the questionnaire in July, 1977, that he omitted a material fact.

Mr. RANGEL. That is quite different from what the gentleman from New York said, but he said—and I am assuming the chairman is rejecting that—that Mr. WILSON had the responsibility to investigate as to whether or not the donor was in fact an agent of a foreign government, and I say that is different. I thank the gentleman.

Mr. ROUSSELOT. Will the gentleman yield?

Mr. FLYNT. For purposes of debate only I gladly yield to the gentleman from California.

Mr. ROUSSELOT. To pursue the line of questioning of my colleague from Maryland (Mr. BAUMAN), could the gentleman tell us how many did alter or anywhere change the material that had been given to them to respond to?

Mr. FLYNT. I would say less than half a dozen.

Mr. ROUSSELOT. Less than half a dozen.

Mr. FLYNT. Yes.

Mr. ROUSSELOT. Can we know who those were or is that secret material?

Mr. FLYNT. At this point in time the gentleman from Georgia cannot respond specifically.

Mr. ROUSSELOT. Is there a reason for that?

Mr. FLYNT. No; there is no reason. There is no reason. But let me say this: that the staff has computerized and studied and physically examined it.

The SPEAKER. The time of the gentleman from Georgia has expired.

The gentleman from South Carolina has 7 minutes.

Mr. ROUSSELOT. May I have 2 additional minutes?

Mr. SPENCE. I yield 2 minutes to the gentleman from California.

Mr. ROUSSELOT. I appreciate the gentleman yielding.

If 12 or 10 or so were allowed to alter it.

Mr. FLYNT. I did not say 12; I said 7 or less.

Mr. ROUSSELOT. I stand corrected, a half dozen. I am so used to dealing in billions here.

If a half a dozen or so were allowed to in some way alter or change these questionnaires or other material sent to them—and I think the gentleman mentioned the gentleman from Maryland—that something about the term intentional, that he felt that if the individuals had not inntentionally misled the committee, they were allowed to alter their various reports.

Mr. FLYNT. Will the gentleman yield?

Mr. ROUSSELOT. Yes; I certainly yield.

Mr. FLYNT. What the gentleman from Georgia said was that none of the others to the best of the knowledge of the gentleman from Georgia had anything to do with the receipt of cash or anything in value in excess of $100, that they related to the trip or to the date and place and time of the trip.

Mr. ROUSSELOT. So these individuals were in no way considered to be in violation.

Mr. FLYNT. And if the gentleman would yield further, the gentleman from California (Mr. WILSON) himself amended his response with respect to trips.

But there was no charge made against him relating to that.

The only charge—if the gentleman from California would yield?

Mr. ROUSSELOT. Yes.

Mr. FLYNT. The only charge against the gentleman from California (Mr. WILSON) is that he falsely replied to the questionnaire. Because the committee believes, and asks the House of Representatives to sustain the committee, that a reasonable man would have remembered a gift of $1,000 in currency from almost a total stranger whom he had met only the day before.

The SPEAKER. The time of the gentleman has expired.

The gentleman has 5 minutes remaining.

Mr. SPENCE. Mr. Speaker, I have no further requests for time and I yield back the balance of my time.

CALL OF THE HOUSE

Mr. CORMAN. Mr. Speaker, I move a call of the House.

A call of the House was ordered.

The call was taken by electronic device, and the following Members failed to respond:

[Roll No. 913]

Alexander	Flood	Pressler
Ammerman	Frey	Pursell
Andrews, N.C.	Gibbons	Quie
Armstrong	Hammer-schmidt	Rostenkowski
Badham	Harrington	Rudd
Bedell	Harsha	Santini

Dickinson	Miller, Calif.	Waxman
Diggs	Moss	Whitehurst
Drinan	Pettis	Young, Alaska
Evans, Del.		

The SPEAKER. On this rollcall 369 Members have recorded their presence by electronic device, a quorum.

By unanimous consent, further proceedings under the call were dispensed with.

IN THE MATTER OF REPRESENTATIVE CHARLES H. WILSON OF CALIFORNIA

Mr. FLYNT. Mr. Speaker, I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER. The question is on the resolution.

The question was taken; and the Speaker announced that the noes appeared to have it.

RECORDED VOTE

Mr. FLYNT. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 329, noes 41, answered "present" 29, not voting 31, as follows:

[Roll No. 914]

Mr. AKAKA changed his vote from "aye" to "present."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

CONFERENCE REPORT ON S. 2466, HEALTH SERVICES RESEARCH, HEALTH STATISTICS, AND HEALTH CARE TECHNOLOGY ACT OF 1978

Mr. STAGGERS submitted the following conference report and statement on the Senate bill (S. 2466) to amend the Public Health Service Act to extend and revise the assistance programs for health services research and health statistics; to establish the Office of Health Technology, and for other purposes:

CONFERENCE REPORT (H. REPT. 85–1783)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2466) to amend the Public Health Service Act to extend and revise the assistance programs for health services research and health statistics; to establish the Office of Health Technology, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following:

SHORT TITLE, REFERENCE TO ACT

SECTION 1. (a) This Act may be cited as the "Health Services Research, Health Statistics, and Health Care Technology Act of 1978".

(b) Whenever in this Act (other than in sections 12 and 13) an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Public Health Service Act.

EXTENSION OF AUTHORIZATIONS

SEC. 2. (a) Section 308(1)(1) is amended—

(1) in the first sentence (A) by striking out "and" after "1976,", and (B) by inserting before the period a comma and the following: "$35,000,000 for the fiscal year ending September 30, 1979, $40,000,000 for the fiscal year ending September 30, 1980, and $45,000,000 for the fiscal year ending September 30, 1981"; and

(2) by striking out the second sentence and inserting in lieu thereof the following: "At least 20 per centum of the amount appropriated under the preceding sentence for any fiscal year or $6,000,000, whichever is less, shall be available only for health services research, evaluation and demonstration activities directly undertaken through the National Center for Health Services Research, and at least 5 per centum of such amount or $1,000,000, whichever is less, shall be available only for dissemination activities directly undertaken through such Center.".

(b) Section 308(1)(2) is amended (1) by inserting "and epidemiological" after "statistical", (2) by striking out "and" after "1976,", and (3) by inserting before the period a comma and the following: "$50,000,000 for the fiscal year ending September 30, 1979, $65,000,000 for the fiscal year ending September 30, 1980, and $70,000,000 for the fiscal year ending September 30, 1981".

GENERAL AUTHORITY

SEC. 3. (a) Subsection (a) of section 304 is amended to read as follows:

"(a)(1) The Secretary, acting through the National Center for Health Services Research, the National Center for Health Statistics, and the National Center for Health Care Technology, shall conduct and support research, demonstrations, evaluations, and statistical and epidemiological activities for the purpose of improving the effectiveness, efficiency, and quality of health services in the United States.

"(2) In carrying out paragraph (1), the Secretary shall give appropriate emphasis to research, demonstrations, evaluations, and statistical and epidemiological activities respecting—

"(A) the accessibility, acceptability, planning, organization, distribution, utilization, and financing of systems for the delivery of health care,

"(B) alternative methods for measuring and evaluating the quality of systems for the delivery of health care.

"(C) the collection, analysis, and dissemination of health related statistics,

"(D) alternative methods to improve and promote health statistical and epidemiological activities,

"(E) the safety, efficacy, effectiveness, cost effectiveness, and social, economic, and ethical impacts of health care technologies,

"(F) alternative methods for disseminating knowledge concerning health and health related activities,

"(G) the special health problems of low income and minority groups and the elderly to insure that these problems are assessed on a periodic regular basis.

"(H) the prevention of illness, disability, and premature deaths in the United States,

"(I) health care costs, increases in such costs, and the reasons for such increases, and

"(J) the impact of the environment on individual health and on health care.

"(3) The Secretary shall, through the National Center for Health Services Research, the National Center for Health Statistics, and the National Center for Health Care Technology and using National Research Service Awards and other appropriate authorities, undertake and support training programs to provide for an expanded and continuing supply of individuals qualified to perform the research, examination, and demonstration projects set forth in sections 305, 306, and 309.".

(b) Paragraph (1) of section 304(b) is amended (1) by inserting ", when appropriate," before "enter into contracts", and (2) by striking out all after "entities and individuals" the second time it appears and inserting in lieu thereof a period.

(c) Subsection (c) of section 304 is amended to read as follows:

"(c)(1) The Secretary shall coordinate all health services research, evaluations, and demonstrations, all health statistical and epidemiological activities, and all research, evaluations, and demonstrations respecting the assessment of health care technology undertaken and supported through units of the Department of Health, Education, and Welfare. To the maximum extent feasible such coordination shall be carried out through the National Center for Health Services Research, the National Center for Health Statistics, and the National Center for Health Care Technology.

"(2) The Secretary shall coordinate the health services research, evaluation, and demonstrations, the health statistical and (where appropriate) epidemiological activities, and the research, evaluations, and demonstrations respecting the assessment of health care technology authorized by this Act through the National Center for Health Services Research, the National Center for Health Statistics, and the National Center for Health Care Technology.".

(d) Section 304(d)(3) is amended (1) by striking out "experts and", (2) by inserting "but in accordance with section 3109 of title 5, United States Code" after "advisable", and (3) by adding at the end the following: "The Secretary may, for the purpose of carrying out the functions set forth in sections 305, 306, and 309, obtain (in accordance with section 3109 of title 5 of the United States Code, but without regard to the limitation in such section on the number of days or the period of service) for each of the centers the services of not more than fifteen experts who have appropriate scientific or professional qualifications.".

(e) The heading for section 304 is amended to read as follows:

"GENERAL AUTHORITY RESPECTING RESEARCH, EVALUATIONS, AND DEMONSTRATIONS IN HEALTH STATISTICS, HEALTH SERVICES AND HEALTH CARE TECHNOLOGY".

NATIONAL CENTER FOR HEALTH SERVICES RESEARCH

SEC. 4. Subsection (b) of section 305 is amended—

(1) by striking out "may undertake and support" and inserting in lieu thereof "shall undertake and support";

(2) by striking out "construction," in paragraph (3);

(3) striking "and" at the end of paragraph (2);

(4) striking the period in paragraph (3) and inserting in lieu thereof ", and"; and

(5) adding at the end thereof the following new paragraph:

"(4) the uses of computer science in health services delivery and medical information systems.".

NATIONAL CENTER FOR HEALTH STATISTICS

SEC. 5. (a) Subsection (b) of section 306 is amended (1) by striking out "may", (2) by inserting "shall" after "(1)" and after "(2)", (3) by striking out "and" at the end of paragraph (1), (4) by striking out the period at the end of paragraph (2) and inserting in lieu thereof a semicolon, and (5) by adding after paragraph (2) the following:

"(3) may undertaken and support by grant or contract) epidemiological research, demonstrations, and evaluations on the matters referred to in paragraph (1); and

"(4) may collect, furnish, tabulate, and analyze statistics, and prepare studies, on matters referred to in paragraph (1) upon request of public and nonprofit private entities under arrangements under which the entities will pay the cost of the service provided.

Amounts appropriated to the Secretary from payments made under arrangements made under paragraph (4) shall be available to the Secretary for obligation until expended.".

(b) Section 306(c) is amended by—

(1) inserting "and epidemiological" after "statistical" each place it occurs; and

(2) striking "Labor and Public Welfare" and inserting in lieu thereof "Human Resources".

(c)(1) Subsection (e) of section 306 is amended to read as follows:

"(e) For the purpose of producing comparable and uniform health information and statistics, there is established the Cooperative Health Statistics System. The Secretary, acting through the Center, shall—

"(1) coordinate the activities of Federal agencies involved in the design and implementation of the System;

"(2) undertake and support (by grant or contract) research, development, demonstrations, and evaluations respecting the System;

"(3) make grants to and enter into contracts with State and local health agencies to assist them in meeting the costs of data collection carried out under the System; and

"(4) review the statistical activities of the Department of Health, Education, and Welfare to assure that they are consistent with the System.

States participating in the System shall designate a State agency to administer or be responsible for the administration of the statistical activities within the State under the System. The Secretary, acting through the Center, shall prescribe guidelines to assure that statistical activities within States participating in the system produce uniform and timely data and assure appropriate access to such data.".

(2) Paragraph (4)(D) of subsection (1) of section 306 is amended by inserting before the semicolon the following: ", with respect to the Cooperative Health Statistics System established under subsection (e), and with respect to the standardized means for the collection of health information and statistics to be established by the Secretary under subsection (j)(1)".

(d) The first sentence of subsection (f) of section 306 is amended by inserting ", acting through the Center," after "the Secretary".

(e)(1) Section 306(1)(1) is amended by striking out "United States".

(2) Paragraph (2)(A) of section 306(1) is amended by inserting "health planning," after "health statistics,".

(f) Section 306 is amended by redesignating subsection (1) as subsection (k) and by inserting after subsection (h) the following new subsections:

"(1) The Center may provide to public and nonprofit private entities engaged in health planning activities technical assistance in the effective use in such activities of statistics collected or compiled by the Center.

"(j) In carrying out the requirements of section 304(c) and paragraph (1) of subsection (e) of this section, the Secretary shall coordinate health statistical and epidemiological activities of the Department of Health, Education, and Welfare by—

"(1) establishing standardized means for the collection of health information and statistics under laws administered by the Secretary;

"(2) developing, in consultation with the National Committee on Vital and Health Statistics, and maintaining the minimum sets of data needed on a continuing basis to fulfill the collection requirements of subsection (b)(1);

"(3) after consultation with the National Committee on Vital and Health Statistics, establishing standards to assure the quality of health statistical and epidemiological data collection, processing, and analysis;

"(4) in the case of proposed health data collections of the Department which are required to be reviewed by the Director of the Office of Management and Budget under section 3509 of title 44, United States Code, reviewing such proposed collection to determine whether they conform with the minimum sets of data and the standards promulgated pursuant to paragraph (2) and (3), and if any such proposed collection is found not to be in conformance, by taking such action as may be necessary to assure that it will conform to such sets of data and standards, and

"(5) periodically reviewing ongoing health data collections of the Department, subject to review under such section 3509, to determine if the collections are being conducted in accordance wtih the minimum sets of data and the standards promulgated pursuant to paragraphs (2) and (3) and, if any such collection is found not to be in conformance, by taking such action as may be necessary to assure that the collection will conform to such sets of data and standards not later than the ninetieth day after the date of the completion of the review of the collection.".

NATIONAL CENTER FOR HEALTH CARE TECHNOLOGY; NATIONAL COUNCIL ON HEALTH CARE TECHNOLOGY

SEC. 6. (a) Section 309 is amended—

(1) by amending the section heading to read as follows:

"HEALTH CONFERENCES AND HEALTH EDUCATION INFORMATION";

(2) by inserting "(a)" before "A conference"; and

(3) by striking out "309" and inserting in lieu thereof "310".

(b) Section 310 (as in effect before the date of the enactment of this Act) is amended—

(1) by striking out the section heading; and

(2) by striking out "SEC. 310." and inserting in lieu thereof "(b)".

(c) Part A of title III is amended by adding after section 308 the following new section:

"NATIONAL CENTER FOR HEALTH CARE TECHNOLOGY; NATIONAL COUNCIL ON HEALTH CARE TECHNOLOGY

"SEC. 309. (a) There is established in the Department of Health, Education, and Welfare the National Center for Health Care Technology (hereinafter in this section referred to as the 'Center') which shall be under the direction of a Director who shall be appointed by the Secretary and supervised by the Assistant Secretary for Health (or such other officer of the Department as may be designated by the Secretary as the principal adviser to him for health programs).

"(b)(1) The Secretary, acting through the Center, shall undertake and support (by grant or contract) assessments of health care technology. Such assessments shall take into acount the safety, effectiveness, and cost effectiveness of, and the social, ethical, and economic impact of health care technologies.

"(2) The Secretary, acting through the Center, shall encourage, undertake, and support (by grant or contract) research, demonstrations, and evaluations respecting—

"(A) the factors that affect the use of health care technologies in the United States;

"(B) methods for diseminating information on health care technologies; and

"(C) the effectiveness, cost effectiveness, and social, ethical, and economic impacts of particular medical technologies.

"(3) The Secretary, acting through the Center, shall encourage and support (by grant or contract) research, evaluations, and demonstrations respecting the safety and efficacy of particular health care technologies.

"(4) The Secretary, acting through the Center and in consultation with the National Council on Health Care Technology, shall establish priorities for the activities prescribed by paragraphs (1), (2), and (3). In determining if an activity respecting a particular health care technology should be given priority, emphasis shall be place on—

"(A) the actual or potential risks and the actual or potential benefits to patients associated with the use of the technology,

"(B) the actual or potential cost of the technology,

"(C) the actual or potential rate of its use, and

"(D) the stage of development of the technology.

"(5) The Center may make recommendations to the Secretary respecting health care technology issues in the administration of the laws under the Secretary's jurisdiction, including recommendations with respect to reimbursement policy.

"(c)(1) The Secretary, acting through the Center, shall, by grant or contract, assist public and private nonprofit entities in meeting the costs of planning and establishing new centers, and operating existing and new centers, for assessments, multidisciplinary research evaluations, and demonstrations respecting the matters referred to in paragraphs (1) and (2) of subsection (b). To the extent practicable, the Secretary shall take such actions, in accordance with the requirements of this subsection and section 308, to assure that three such centers shall be operational by September 1, 1981.

"(2)(A) No grant or contract may be made under this subsection for planning and establishing a center unless the Secretary, acting through the Center, determines that when it is operational it will meet the requirements listed in subparagraph (B), and no payment shall be made under a grant or contract for operation of a center unless the center meets such requirements.

"(B) Each center shall meet the following requirements:

"(i) There shall be a full-time director of the center who possesses a demonstrated capacity for sustained productivity and leadership in asssesments, research, demonstrations, and evaluations respecting the matters referred to in paragraphs (1) and (2) of subsection (b), and there shall be such additional professional staff as may be appropriate.

"(ii) The staff of the center shall have expertise in the various disciplines needed to conduct assessments, multidisciplinary research, evaluations and demonstrations repecting the matters referred to in paragraphs (1) and (2) of subsection (b).

"(iii) The center shall be located within an established academic or research institution with departments and resources appropriate to the programs of the center.

"(iv) Each center shall meet such additional requirements as the Secretary may by regulation prescribe.

"(d) Any grant or contract under subsection (b) or (c), the direct cost of which will exceed $35,000, may be made or entered into only after appropriate review for scientific merit by peer review groups composed of experts in the relevant fields and only after the National Council on Health Care Technology has had an opportunity to review the project with respect to which the grant or contract is to be made or entered into.

"(e) To assist in carrying out this section, the Secretary, acting through the Center, shall cooperate and consult with the National Institutes of Health, the Veterans' Administration, and any other interested Federal departments or agencies and with State and local health departments and agencies.

"(f)(1) There is established the National Council on Health Care Technology (hereinafter in this subsection referred to as the 'Council'). The Council shall—

"(A) advise the Secretary and the Director of the Center with respect to the perform-

ance of the functions prescribed by this section;

"(B) review applications for grants and contracts under this section in excess of $35,000 and provide the Secretary its recommendation respecting the approval of such applications;

"(C) after consultation with appropriate public and private entities, advise the Secretary respecting the safety, efficacy, effectiveness, cost effectiveness, and the social and economic impacts of particular health care technologies;

"(D) after consultation with appropriate public and private entities, develop, when appropriate and to the extent practicable exemplary standards, norms, and criteria concerning the use of particular health care technologies; and

"(E) promptly publish, disseminate, and otherwise make available, through the National Library of Medicine, standards, norms, and criteria developed under subparagraph (D).

"(2) The Council shall consist of—

"(A) the Director of the National Institutes of Health, the Chief Medical Officer of the Veterans' Administration, the Assistant Secretary for Health and Environment of the Department of Defense, the Chairman of the National Professional Standards Review Council, a member of the National Council on Health Planning and Development (established under section 1503), the Director of the Office of Science and Technology Policy, the head of the Food and Drug Administration (or the successor to such entity) who head of the Center for Disease Control (or the successor to such entity), and the head of the Health Care Financing Administration (or the successor to such entity), the (or their designees) shall be ex officio members, and

"(B) eighteen members appointed by the Secretary.

The Secretary shall make his initial appointments to the Council within one hundred and twenty days of the date of the enactment of this section. Six of the appointed members shall be selected from individuals who are distinguished in the fields of medicine, engineering, or science (including social science). Of such six members, at least two shall be selected from individuals who are representatives of business entities engaged in the development or production of health care technology. Two of the appointed members shall be physicians, two of the appointed members shall be selected from individuals who are hospital administrators, two of the appointed members shall be selected from individuals who are distinguished in the field of economics, two of the appointed members shall be selected from individuals who are distinguished in the field of law, one of the appointed members shall be selected from individuals who are distinguished in the field of ethics, and three of the appointed members shall be selected from members of the general public who represent the interests of consumers of health care.

"(3)(A) Each appointed member of the Council shall be appointed for a term of four years, except that—

"(i) any member appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed shall be appointed for the remainder of such term; and

"(ii) of the members first appointed after the date of the enactment of this section, four shall be appointed for a term of four years, four shall be appointed for a term of three years, four shall be appointed for a term of two years, and four shall be appointed for a term of one year, as designated by the Secretary at the time of appointment.

Appointed members may serve after the expiration of their terms until their successors have taken office.

"(B) Members of the Council who are not officers or employees of the United States shall receive for each day they are engaged in the performance of the functions of the Council compensation at rates not to exceed the daily equivalent of the annual rate in effect for grade GS-18 of the General Schedule, including traveltime; and all members, while so serving away from their homes or regular places of business, may be allowed travel expenses, including per diem in lieu of subsistence, in the same manner as such expenses are authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

"(4) The Council shall annually elect one of its apointed members to serve as Chairman until the next election.

"(5) The Council shall meet at the call of the Chairman, but not less often than four times a year.

"(6) The Director of the Center shall (1) designate a member of the staff of the staff Center to act as Executive Secretary of the Council, and (2) make available to the Council such staff, information, and other assistance as it may require to carry out its functions.

"(7) The Council shall be subject to the Federal Advisory Committee Act except that the Council shall terminate September 30, 1981.

"(g) The Director of the National Institutes of Health, the head of the Food and Drug Administration (or the successor to such entity), the head of the Center for Disease Control (or the successor to such entity), the head of the Health Care Financing Administration (or the successor to such entity), and the head of any other entity of the Department of Health, Education, and Welfare designated by the Secretary shall each make available annually to the Center and the Council a listing of all health care technologies of which he is aware that are under development and appear likely to be used in the practice of medicine.

"(h) For purposes of this section, the term 'health care technology' means any discrete and identifiable regimen or modality used to diagnose and treat illness, prevent disease, maintain patient well-being, or facilitate the provision of health care services.

"(i) There are authorized to be appropriated to carry out this section $15,000,000 for the fiscal year ending September 30, 1979, $25,000,000 for the fiscal year ending September 30, 1980, and $33,000,000 for the fiscal year ending September 30, 1981. Not less than 15 per centum of the amount appropriated for the fiscal year ending September 30, 1981, shall be obligated for assessments, research, demonstrations, and evaluations directly undertaken from the Center under paragraph (1) or (2) of subsection (b).".

(d)(1) Subsection (a)(1) of section 308 is amended (A) by inserting "and section 309" after "307", and (B) by striking out "health statistics" and inserting in lieu thereof ", health statistics, and health care technology".

(2) Subsection (b)(1) of such section is amended by striking out "or 307" and inserting in lieu thereof "307, or 309".

(3) Subsection (d) of such section is amended (A) by striking out "or 307" and inserting in lieu thereof "307, or 309", and (B) by inserting "or epidemiological" after "statistical" in clause (1).

(4) Subsection (e) of such section is amended by striking out "or 307" each place it occurs and inserting in lieu thereof "307, or 309".

(5) Subsection (f) of such section is amended by striking out "or 306" and inserting in lieu thereof "306, or 309".

(6) Subsection (g)(2) of such section is amended by striking out "and 306" and inserting in lieu thereof "306, and 309".

(7) Subsection (h)(1) of such section is amended by striking out "or 306" each place it occurs and inserting in lieu thereof "306, or 309".

(8) The heading for such section is amended by striking out "AND 307" and inserting in lieu thereof "307, AND 309".

STUDY OF COSTS OF DISEASES AND ADVERSE EFFECTS ON HUMANS WHICH ARE ENVIRONMENTALLY RELATED

SEC. 7. Section 304 (as amended by section 3(d)) is amended by adding at the end the following:

"(e)(1) The Secretary and the National Academy of Sciences (acting through the Institute of Medicine and other appropriate units) shall, jointly and in cooperation with the Administrator of the Environmental Protection Agency, the Secretary of Labor, the Consumer Product Safety Commission, the Council of Economic Advisers, the Council on Wage and Price Stability, the Council on Environmental Quality, and other entities of the Federal Government which the Secretary determines have the expertise in the subject of the study prescribed by this paragraph, conduct, with funds appropriated under section 308(i)(2), an ongoing study of the present and projected future health costs of pollution and other environmental conditions resulting from human activity (including human activity in any place in the indoor or outdoor environment, including places of employment and residence). In conducting the study, the Secretary and the National Academy of Sciences (hereinafter in this subsection referred to as the 'Academy') shall, to the extent feasible—

"(A) identify the pollution (and the pollutants responsible for the pollution) and other environmental conditions which are, or may reasonably be anticipated to be, responsible for causing, contributing to, increasing susceptibility to, or aggravating human diseases and adverse effects on humans;

"(B) identify each such disease and adverse effect on humans and specifically determine whether cancer, birth defects, genetic damage, emphysema, asthma, bronchitis, and other respiratory diseases, heart disease, stroke, and mental illness and impairment are such a disease or effect;

"(C) identify (on a national, regional, or other geographical basis) the source or sources of such pollutants and conditions and estimate the portion of each pollutant and the extent of each condition which can be traced to a specific type of source;

"(D) ascertain (i) the extent to which the pollutants and conditions identified under subparagraph (A) are, or may reasonably be anticipated to be, responsible, individually or collectively, for causing, contributing to, increasing susceptibility to, or aggravating the diseases and effects identified under subparagraph (B), and (ii) the effect upon the incidence or severity of specific diseases and effects of individual or collective, as appropriate, incremental reductions in the pollutants and changes in such conditions; and

"(E) quantify (i) the present and projected future health costs of the diseases and effects identified under subparagraph (B), and (ii) the reduction in health costs which would result from each incremental reduction and change referred to in subparagraph (D)(ii).

"(2) The Secretary shall enter into appropriate arrangements with the Academy under which the Secretary shall be responsible for expenses incurred by the Academy in connection with the study prescribed by paragraph (1).

"(3) The first report on the study prescribed by paragraph (1) shall be made to the Committee on Human Resources of the Senate and the Committee on Interstate and Foreign Commerce of the House of Representatives by the Secretary and the Academy not later than eighteen months after the date of the enactment of this subsection.

Subsequent reports on the study shall be made by the Secretary and the Academy every two years after the date the first report is submitted. Each report shall (A) identify deficiencies and limitations in the data on the matters considered in the study and recommend actions which may be taken to eliminate such deficiencies and limitations, (B) include such recommendations for legislation as the Secretary determines appropriate, (C) include recommendations for facilitating studies of the effects of hazardous substances on humans, and (D) include a description of any administrative action proposed to be taken by the Secretary, the Administrator of the Environmental Protection Agency, the Secretary of Labor, and the Consumer Product Safety Commission to reduce the costs which have been quantified under paragraph (1)(E)(i). In conducting the study, the Secretary and the Academy shall seek assistance from public and private health financing entities in securing the data needed for the study.

"(4) For purposes of paragraph (1), the term 'health costs of pollution and other environmental conditions' means the costs of human diseases and other adverse effects on humans which pollution and other environmental conditions are, or may reasonably be anticipated to be, responsible for causing, contributing to, increasing susceptibility to, or aggravating, including the costs of preventing such diseases and effects, the costs of the treatment, cure, convalescence, and rehabilitation of persons afflicted by such diseases, costs reasonably attributable to pain and suffering from such diseases and effects, loss of income and future earnings resulting from such diseases and effects, adverse effects on productivity (and thus increases in production costs and consumer prices) resulting from such diseases and effects, loss of tax revenues resulting from such decreases in earnings and productivity, costs to the welfare and unemployment compensation systems and the programs of health benefits under titles XVIII and XIX of the Social Security Act resulting from such diseases and effects, the overall increases in costs throughout the economy resulting from such diseases and effects, and other related direct and indirect costs.".

INFORMATION ON EFFECTS ON HEALTH OF THE ENVIRONMENT AND EMPLOYMENT CONDITIONS

SEC. 8. (a) Section 306 (as amended by section 5) is amended by inserting after subsection (k) the following new subsection:

"(l)(1) The Secretary, acting through the Center, shall develop a plan for the collection and coordination of statistical and epidemiological data on the effects of the environment on health. Such plan shall include a review of the data now available on health effects, deficiencies in such data, and methods by which existing data deficiencies can be corrected. The Secretary shall submit such plan to the Congress not later than January 1, 1980.

"(2)(A) The Secretary, acting through the Center, shall establish, not later than two years after the date of the enactment of this subsection, guidelines for the collection, compilation, analysis, publication, and distribution of statistics and information necessary for determining the effects of conditions of employment and indoor and outdoor environmental conditions on the public health. Guidelines established under this subparagraph shall not (i) authorize or require the disclosure of any matter described in section 552(b)(6) of title 5, United States Code, and (ii) authorize or require the disclosure of any statistics or other information which is exempt from disclosure pursuant to subsection (a) of section 552 of title 5, United States Code, by reason of subsection (b)(4) of such section. The guidelines shall be reviewed and, if appropriate, revised at least every three years after the date they are initially established. Guidelines shall take effect on the date of the promulgation of the regulation establishing or revising the guidelines or such later date as may be specified in the guidelines.

"(B) The guidelines shall be designed—

"(i) to improve coordination of environmental and health studies, statistics, and information, and to prevent overlap and unnecessary duplication with respect to such sudies, statistics, and information;

"(ii) to assure that such studies, statistics, and information will be available to executive departments responsible for the administration of laws relating to the protection of the public health and safety or the environment;

"(iii) to encourage the more effective use by executive departments of such studies, statistics, and information;

"(iv) to improve the statistical validity and reliability of such studies, statistics, and information; and

"(v) to assure greater responsiveness by the Department of Health, Education, and Welfare and other executive departments in meeting informational and analytical needs for determining the effects of employment and indoor and outdoor environmental conditions on public health.

"(C) In establishing and revising guidelines under subparagraph (A), the Secretary shall take into consideration the plan developed pursuant to paragraph (1).

"(D) The Center shall serve as a clearinghouse for statistics and information with respect to which guidelines have been established under subparagraph (A) and shall assist executive departments in obtaining such statistics and information for purposes of administering laws under their jurisdiction relating to environmental health protection or the safety and health of employees.

"(E)(i) Each executive department shall comply with the substantive and procedural requirements of the guidelines.

"(ii) The President shall by Executive order require each executive department to comply with requests, made in accordance with the guidelines, by the Secretary, the Administrator of the Environmental Protection Agency, the Consumer Product Safety Commission, or the Secretary of Labor for statistics and information.

"(iii) The President may by Executive order exempt any executive department from compliance with a requirement of the guidelines respecting specific statistics or other information if the President determines that the exemption is necessary in the interest of national security.

"(F) In carrying out his duties under this paragraph, the Secretary, acting through the Center, shall, insofar as practicable, provide for coordination of his activities with those of other Federal agencies and interagency task forces relating to the collection, analysis, publication, or distribution of statistics and information necessary for determining the effects of conditions of employment and indoor and outdoor environmental conditions on the public health.".

'('G) For purposes of this paragraph, the term 'guidelines' means the guidelines, either as initially established or as revised, in effect under this paragraph.

(b) The first sentence of subsection (d) of section 308 is amended by inserting after "unless authorized" the following: "by guidelines in effect under section 306(l)(2) or".

"(3) The Secretary, acting through the Center, shall conduct a study of the issues respecting, and the recommendations for, establishing a Federal system to assist, in a manner designed to avoid invasion of personal privacy, Federal, State, and other entities in locating individuals who have been or may have been exposed to hazardous substances to determine the effect on their health of such exposure and to assist them in obtaining appropriate medical care and treatment. In conducting such study, the Secretary may consult with any public and private entity which it determines has expertise on any matter to be considered in the study. Not later than one year after the date of the enactment of this subsection, the Secretary shall complete the study and report to the Congress the results of the study and any recommendations for legislation or administrative action.

"(4) In carrying out paragraphs (1), (2), and (3), the Secretary shall consult with and take into consideration any recommendations of the Task Force on Environmental Cancer and Heart and Lung Disease, the Administrator of the Environmental Protection Agency, the Secretary of Labor, the Consumer Product Safety Commission, the Council on Environmental Quality, the National Committee on Vital and Health Statistics, and the National Academy of Sciences (including the Institute of Medicine and any other unit of the Academy)."

TASK FORCE ON ENVIRONMENTAL CANCER AND HEART AND LUNG DISEASE

SEC. 9. The Director of the National Center for Health Statistics and the head of the Center for Disease Control (or the successor to such entity) shall each serve as members of the Task Force on Environmental Cancer and Heart and Lung Disease established under section 402 of Public Law 95–95.

MINE WORKERS STUDY

SEC. 10. The Secretary, acting through the National Center for Health Services Research, shall arrange for the conduct of a study to evaluate the impact upon the utilization of health services by and the health status of members of the United Mine Workers and their dependents as a result of changes in the United Mine Workers' collective-bargaining agreements of March 1978, that require copayments for health services. Such study and a report thereon shall be completed and submitted to the Secretary, the Committee on Human Resources, the Committee on Appropriations, and the Committee on Finance of the Senate, and the Committee on Ways and Means, the Committee on Appropriations, and the Committee on Interstate and Foreign Commerce of the House of Representatives no later than thirty months after the date of enactment of this section. Not more than $1,000,000 of the sums authorized to be appropriated for health services research, evaluation, and demonstration activities by section 308(l)(1) of the Public Health Service Act shall be made available for such study.

AMENDMENTS TO THE PUBLIC HEALTH SERVICE ACT

SEC. 11. (a) Subsection (g) of section 208 is amended (1) by striking out "one hundred and fifty-five" and inserting in lieu thereof "one hundred and seventy-nine", (2) by striking out "and not less than" and inserting in lieu thereof ", not less than", and (3) by inserting after "alcoholism," the following: "not less than ten shall be for the National Center for Health Services Research, not less than twelve shall be for the National Center for Health Statistics, and not less than seven shall be for the National Center for Health Care Technology,".

(b) Part K of title III is repealed.

(c) Section 453 is amended by adding at the end the following: "The Secretary, through the Institute, may, effective October 1, 1978, and without regard to section 405, carry out a program of grants for public

and nonprofit private vision research facilities.".

(d)(1) Section 472(a)(1)(A) is amended—

(A) by striking out "and" at the end of clause (iii),

(B) by redesignating clause (iv) as clause (vii),

(C) by inserting after clause (iii) the following:

"(iv) research at the National Center for Health Services Research, the National Center for Health Statistics, and the National Center for Health Care Technology,

"(v) training at such Centers to undertake such research,

"(vi) research on the matters set forth in section 304(a)(2) at public institutions and at nonprofit private institutions, and", and

(D) by striking out "such research" in clause (vii) (as so redesignated) and inserting in lieu thereof "biomedical and behavioral research and the research described in clause (vi)".

(2) Section 472(a)(1)(B) is amended by striking out "such research" and inserting in lieu thereof "biomedical and behavioral research and the research described in subparagraph (A)(vi)".

(e) Title V is amended by adding at the end the following:

"CONTRACT AUTHORITY

"SEC. 514. The authority of the Secretary to enter into contracts under this Act shall be effective for any fiscal year only to such extent or in such amounts as are provided in advance by appropriation Acts.".

(f)(1) The second sentence of subsection (a) of section 705 is amended to read as follows: "Such records shall include records which fully disclose (A) the amount and disposition by such entity of the funds paid to it under such grant, loan, loan guarantee, interest subsidy, or contract, (B) the total cost of the project or undertaking for which such grant, loan, loan guarantee, interest subsidy, or contract is made, (C) the amount of that portion of the cost of the project or undertaking received by or allocated to such entity from other sources, and (D) such other records as will facilitate an audit conducted in accordance with generally accepted auditing standards.".

(2) Subsection (b) of section 705 is amended to read as follows:

"(b) Each entity which received a grant or entered into a contract under this title shall provide for a biennial financial audit of any books, accounts, financial records, files, and other papers and property which relate to the disposition or use of the funds received under such grant or contract and such other funds received by or allocated to the project or undertaking for which such grant or contract was made. For purposes of assuring accurate, current, and complete disclosure of the disposition or use of the funds received, each such audit shall be conducted in accordance with such requirements concerning the individual or agency which conducts the audit, and such standards applicable to the performance of the audit, as the Secretary may by regulation provide. A report of each such audit shall be filed with the Secretary at such time and in such manner as he may require.".

(g) Section 771(d) is amended by adding at the end the following:

"(5) The Secretary may waive (in whole or in part) application to a school of dentistry of the requirement of any paragraph of this subsection if the Secretary determines, after receiving the written recommendation of the appropriate accreditation body or bodies (approved for such purpose by the Commissioner of Education) that compliance by such school with such requirement will prevent it from maintaining its accreditation.".

HEALTH PROFESSIONS REPORTS AND PROGRAMS

SEC. 12. (a) Section 708(d) of the Public Health Service Act is amended (1) by striking out "not later than September 1 of each year", and (2) by inserting at the end the following: "Such report shall be submitted biennially, and the first such report shall be due not later than October 1, 1979.".

(b) Section 709(b) of such Act is amended by striking out "January 1, 1979" and inserting in lieu thereof "February 1, 1980".

(c) Section 751(i) of such Act is amended by striking out "December" and inserting in lieu thereof "March".

(d) Section 771(b)(2)(B) of such Act is amended by striking out "45 days after the date for which the determination is made" and inserting in lieu thereof "the first December 31 occurring after the date for which the determination is made".

(e) Section 782(c) of such Act is amended by striking out "September 30, 1979" and inserting in lieu thereof "March 1, 1980".

(f) Section 788(b)(6) of such Act is amended by striking out "September 30, 1978" and inserting in lieu thereof "October 1, 1979".

(g) Section 793(c) of such Act is amended (1) by striking out "annually" and inserting in lieu thereof "biennially", and (2) by striking out "December 1, 1978" and inserting in lieu thereof "October 1, 1979".

(h) Section 951(b) of the Nurse Training Act of 1975 is amended by striking out "Not later than February 1, 1977, and February 1 of each succeeding year" and inserting in lieu thereof "Not later than October 1, 1979, and October 1 of each odd-numbered year thereafter".

(i)(1) Section 702(d) of the Health Professions Educational Assistance Act of 1976 is amended by striking out "not later than two years after the date of enactment of this Act" and inserting in lieu thereof "not later than October 1, 1979".

(2) Section 903(a)(2) of the Health Professions Educational Assistance Act of 1976 is amended by striking out "January 1, 1979" and inserting in lieu thereof "April 1, 1979".

(j) Section 772(e) of the Public Health Service Act is amended by inserting before the period a comma and the following: "except that a student who, for other than academic reasons, withdraws from a year class before the end of an academic year or does not complete an academic year shall not be considered as having been enrolled in a year class in that academic year".

MISCELLANEOUS

SEC. 13. (a)(1) Section 111(h) (42 U.S.C. 7411) of the Act of July 14, 1955, as amended by Public Law 95-95, is amended by adding the following at the end thereof:

"(5) Any design, equipment, work practice, or operational standard, or any combination thereof, described in this subsection shall be treated as a standard of performance for purposes of the provisions of this Act (other than the provisions of subsection (a) and this subsection).".

(2) Subsections (d)(1)(A) and (g)(4)(B) of such section are each amended by striking out "under subsection (b)" and inserting in lieu thereof "under this section".

(3) Subsection (j) of such section is amended by striking out "subsection (b) of" in paragraphs (1)(A) and (2)(A) thereof.

(b) Section 112(e) of such Act (42 U.S.C. 7412) is amended by adding the following at the end thereof:

"(5) Any design, equipment, work practice, or operational standard, or any combination thereof, described in this subsection shall be treated as an emission standard for purposes of the provisions of this Act (other than the provisions of this subsection)."

(c) Section 117(c)(3) of such Act (42 U.S.C. 7417) is amended by striking out "(b)(1)(B)" in each place it appears.

(d) Section 317(a)(1) of such Act (42 U.S.C. 7617) is amended by striking out "(b)".

And the House agree to the same.

That the Senate recede from its disagreement to the amendment of the House to the title of the bill and agree to the same.

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 2466) to amend the Public Health Service Act to extend and revise the assistance programs for health services research and health statistics; to establish the Office of Health Technology, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The House amendment to the text of the bill struck out all of the Senate bill after the enacting clause and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House with an amendment which is a substitute for the Senate bill and the House amendment. The differences between the Senate bill, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

SHORT TITLE; REFERENCE TO ACT

The Senate bill provided that the Act may be cited as the "National Institutes of Health Care Research Act of 1978."

The House amendment provided that the Act may be cited as the "Health Service Research, Health Statistics, and Health Care Technology Act of 1978."

The conference substitute conforms to the House amendment.

NATIONAL CENTER FOR HEALTH CARE TECHNOLOGY

Both the Senate bill and the House amendment established an entity to conduct assessments of and other activities with respect to health technology.

Under the Senate bill, the entity was named the Office of Health Technology.

Under the House amendment, the entity was named the National Center for Health Care Technology.

The conference substitute conforms to the House amendment.

GENERAL AUTHORITY OF THE SECRETARY

The Senate bill provided that, in carrying out his responsibilities under section 304 of the Public Health Service Act, the Secretary was to give appropriate emphasis to (1) the

accessibility, acceptability, planning, organization, distribution, utilization, and financing of systems for the delivery of health care; (2) alternative methods for measuring and evaluating the quality of systems for the delivery of health care; (3) the collection, analysis and dissemination of health-related statistics; (4) alternative methods to improve and promote health statistical and epidemiological activities; (5) the safety, efficacy, effectiveness, cost effectiveness, and social, economic and ethical impacts of medical technologies; (6) alternative methods for disseminating knowledge concerning health and health-related activities; (7) the special problems of low-income and minority groups and the elderly; and (8) the prevention of illness, disability and premature deaths in the United States.

The House amendment provided that, in addition to his existing responsibilities under section 304, the Secretary is to give appropriate emphasis to health care costs, increases in such costs and the reasons for such increases.

The conference substitute combines the provisions of the Senate bill and the House amendment.

MANPOWER TRAINING PROGRAMS

The Senate bill required the Secretary (through National Research Service Awards) to undertake and support manpower training programs to provide for an expanded and continuing supply of individuals qualified to support research, evaluation and demonstration projects with respect to health services research, health statistics and health care technology.

The House amendment required that the health services research and health statistics training authorized to be conducted under section 304 of the Public Health Service Act be conducted through the National Center for Health Services Research and the National Center for Health Statistics.

Under the provisions of the conference substitute, the Secretary is required, through the National Center for Health Services Research, the National Center for Health Statistics and the National Center for Health Care Technology and using National Research Service Awards and other appropriate authorities, to undertake and support manpower training programs to provide for an expanded and continuing supply of individuals qualified to perform the research, evaluation and demonstration projects with respect to health services research, health statistics and health care technology.

EXPERTS AND CONSULTANTS

The Senate bill authorized the Director of the National Center for Health Services Research and the Director of the National Center for Health Statistics each to obtain the services of not more than 15 experts or consultants who have appropriate scientific or professional qualifications.

The House amendment contained no comparable provision.

The conference substitute conforms to the provisions of the Senate bill, with a technical amendment.

COORDINATION OF ACTIVITIES

Existing law requires that all health services research, evaluation, demonstration and health statistical activities undertaken and supported through units of the Department of Health, Education, and Welfare be coordinated by the Secretary. In addition, existing law requires that, to the maximum extent feasible, such coordination should be carried out through the National Center for Health Services Research and the National Center for Health Statistics.

The Senate bill retained the provisions of existing law except that it included epidemiological activities and required that the coordination also be carried out through the proposed Office of Health Technology, as well as the two existing Centers.

The House amendment changed existing law to require coordination of health services research, evaluation, demonstration and health statistical activities through the two existing Centers, but only those activities authorized by the Public Health Service Act.

The conference substitute combines the provisions of the Senate bill and the House amendment.

In directing the Secretary to coordinate activities in the area of health services research, health statistics, epidemiology, and the assessment of health care technologies, the conferees do not intend to prevent other agencies within the Department from pursuing programs which are directly relevant to their mandates. The conferees feel strongly that the Secretary should provide sufficient direction through the Centers to reduce to a minimum any overlap and duplication in the areas of health services research, health statistics, epidemiology and the evaluation of health care technologies. However, the conferees recognize fully that the National Institutes of Health, the Food and Drug Administration, the Center for Disease Control, and the Health Care Financing Administration, among other agencies, must pursue research and demonstration activities necessary to administer their individual programs and to fulfill legislative mandates. The Secretary will naturally have to exercise careful judgement in determining where such activties should be better coordinated and where the individual agencies should be granted substantial independence. For example, the conferees would not find it appropriate for the National Center for Health Statistics to coordinate epidemiological activities undertaken at the National Institutes of Health, unless the Secretary finds that the NIH lacks the capacity to perform that coordinating role for itself.

AMENDMENTS WITH RESPECT TO THE NATIONAL CENTER FOR HEALTH SERVICES RESEARCH

The Senate bill (1) deleted the authority for the National Center for Health Services Research to support research with respect to technology, (2) authorized the Center to conduct research with respect to the uses of computer science and health services delivery and medical information systems.

Under the House amendment (1) the Center was required, as opposed to authorized, to undertake and support research activities, (2) the existing authority to conduct research with respect to construction was deleted, and (3) no application for a grant or contract for health services research under a law administered by the Secretary of HEW could be approved before the National Center and the Health Care Financing Administration had been given a reasonable opportunity to review the application for technical competence.

Under the conference substitute, the Center is afforded authority to conduct research with respect to computer science and its authority to support research with respect to technology is retained. In addition, the conference substitute includes the provision of the House amendment which requires certain research to be conducted as well as the provision which deletes authority with respect to construction. The conference substitute does not include the requirement with respect to review of applications by the Center and the Health Care Financing Administration.

In retaining the mandate of the National Center for Health Services Research to undertake and support experiments and demonstrations respecting the "technology" of health services and systems, the conferees wish to make clear that they do not intend the NCHSR to compete with the new National Center for Health Care Technology in conducting assessments, research, evaluations and demonstrations respecting the efficacy, safety, effectiveness, cost-effectiveness and social, economic and ethical impacts of health care technologies. The conferees intend, rather, to make certain that the National Center for Health Services Research can continue to undertake and support development programs concerning new technologies directly relevant to the organization and delivery of health care services. The NCHSR should be free to undertake and support work relevant to designing, developing, and demonstrating such new technologies. The NCHSR should also have authority to evaluate the results of studies concerning the design, development, and demonstration of these technologies.

Evaluating and assessing the effectiveness, cost-effectiveness, social, ethical and economic implications of health care technologies should be the primary responsibility of the National Center for Health Care Technology. The conferees recognize that distinguishing the precise boundaries of the activities of the National Center for Health Services Research and the National Center for Health Care Technology may be difficult in some situations and expect the two centers to work closely together to minimize duplication of effort.

AMENDMENTS WITH RESPECT TO THE NATIONAL CENTER FOR HEALTH STATISTICS

The Senate bill (1) authorized the Secretary to undertake and support epidemiological research, demonstrations and evaluations, (2) required that surveys provided to relevant committees of Congress include epidemiological surveys, (3) changed the reference to the Senate Committee on Labor and Public Welfare to the Senate Committee on Human Resources, (4) formally named the Cooperative Health Statistical System, (5) correctly named the National Committee on Vital and Health Statistics and (6) required that the Secretary, in consultation with the National Committee on Vital and Health Statistics, maintain needed minimum sets of data and establish standards to assure the quality of health statistics and epidemiological data collection, and properly coordinate data collections.

The House amendment (1) required as opposed to existing law's permissive authority, the Center to collect statistics and to undertake and support certain activities, (2) authorized the Center to collect statistics and prepare studies upon request of pubic and non-profit private entities under arrangements under which the entities will pay the cost of the services provided, (3) required the establishment of standardized means for the collection of health information and statistics in laws administered by the Secretary of Health, Education, and Welfare, (4) formally established the Cooperative Health Statistical System and delineated the activities of the Center with respect to the system, (5) specified that the unit of HEW which is to cooperate with other Federal agencies in carrying out statistical activities is to be the Center, (6) added health planning as a field from which persons may be appointed to the National Committee on Vital and Health Statistics, and (7) authorized the Center to provide to public and non-profit private entities engaged in health planning activities, technical assistance in the effective use in such activities of statistics selected or compiled by the Center.

The conference substitute includes the provisions of both the Senate bill and the House amendment.

HEALTH CARE TECHNOLOGY

Duties of the National Center for Health Technology

The Senate bill required the Secretary, acting through the proposed Office of Health

Technology, to: 1) establish priorities for research, demonstrations, and evaluations of medical technologies; 2) undertake and support, by grant or contract, research, demonstrations, and evaluations concerning the safety, efficacy, effectiveness, cost-effectiveness, and social and ethical impacts of medical technologies; and 3) undertake and support similar studies respecting the factors that affect the utilization of medical technologies, alternative methods for disseminating information on medical technologies, alternative methods for measuring the quality of health services, and other matters.

The House amendment required the Secretary, acting through the Center, to undertake and support comprehensive assessments of health care technology. In determining if the assessment of a particular technology should be given priority, the Center was to consider a number of factors including the actual or potential risks and the actual or potential benefits to patients associated with the use of the technology, the actual or potential cost of the technology, the actual or potential rate of its use, and the stage of development of the technology.

The conference substitute combines provisions of House and Senate bills. The Secretary is required, acting through the Center, to undertake and support assessments of health care technology. In addition, the Secretary is required, acting through the Center, to undertake and support research in, and demonstrations and evaluations of 1) the factors that affect the use of health care technologies in the United States; 2) methods for disseminating information on health care technologies; and 3) the effectiveness, cost-effectiveness, and social, ethical and economic impacts of particular medical technologies. The Secretary is also required to encourage and support research evaluations, and demonstrations respecting the safety and efficacy of particular medical technologies. In determining if an activity respecting a particular technology is to be given priority, the Secretary is instructed to place emphasis on those factors which were emphasized in the House amendment.

The conferees feel that the National Center for Health Care Technology should have at least two primary missions. First, it should stimulate increased scrutiny of new and existing health care technologies to insure that their safety, efficacy, cost-effectiveness, social, ethical and economic impacts are more completely explored. Secondly, and just as important, the new Center should encourage the rapid dissemination of newly developed health care technologies which have proved their worth in terms of safety, efficacy, cost-effectiveness. The work of the Center and its Council should act, therefore, both to identify those health care technologies which have been insufficiently evaluated and to spur more rapid adoption of practices, procedures and devices whose usefulness has been demonstrated. The conferees feel strongly that the Center should be even-handed and balanced in fulfilling these two missions.

COOPERATION

Under the Senate bill, the Secretary was required to cooperate and consult with the National Institutes of Health, the Veterans Administration and any other interested Federal department with respect to health care technology.

The House amendment contained no comparable provision.

The conference substitute conforms to the Senate bill.

ESTABLISHMENT OF CENTERS TO ASSESS HEALTH CARE TECHNOLOGY

The Senate bill required the Secretary to assist public and private non-profit entities in meeting the costs of planning and establishing new, and operating existing and new, centers for research, evaluation and demonstrations respecting health care technologies. The Senate bill established the following requirements with respect to each such center: (1) a full-time Director and additional professional staff, (2) a staff with expertise in the various disciplines needed to conduct multi-disciplinary research, (3) location with an established academic or research institution, and (4) such additional requirements as may be prescribed by regulation.

The House amendment authorized the Secretary to assist public and private non-profit entities in meeting the costs of planning, establishing, and operating centers to assess health care technology.

The conference substitute conforms to the provisions of the Senate bill.

REVIEW OF GRANTS AND CONTRACTS

Under the House amendment, any grant or contract awarded for research, demonstrations and evaluation of health care technology, the direct cost of which would exceed $35,000, could only be made or entered into after appropriate review for scientific merit by peer review groups composed by experts in the relevant fields.

The Senate bill required the National Council for the Evaluation of Medical Technology to review and approve any grant or contract the direct cost of which exceeded $35,000.

The conference substitute includes the provision of the House amendment but also provides that no grant or contract in excess of $35,000 may be made or entered into unless it has first been reviewed by the National Council on Health Care Technology and the Council's recommendations respecting approval has been provided to the Secretary.

RECOMMENDATIONS RESPECTING HEALTH CARE TECHNOLOGY ISSUES

Under the House amendment, the National Center for Health Care Technology was required to make recommendations to the Secretary respecting health care technology issues in the administration of laws under the Secretary's jurisdiction including recommendations with respect to reimbursements under Titles XVIII and XIX of the Social Security Act.

The Senate bill contained no comparable provision.

Under the conference substitute, the Center is authorized to make recommendations to the Secretary respecting health care technology issues in the administration of the laws under the Secretary's jurisdiction, including recommendations with respect to reimbursement policy.

REPORTS

The Senate bill required the Secretary to include in his annual report to the Congress on the administration of section 304 through 307 and the current state and progress of health services research and health statistics, comparable information respecting health care technology.

Under the House amendment, the Secretary of HEW was required, not later than December 1 of each year, to report to Congress a comprehensive description of the activities of the Center for Health Care Technology during the preceding fiscal year.

The conference substitute conforms to the provisions of the Senate bill.

SPECIAL REPORT

The House amendment included a provision, not contained in the Senate bill, which required the Secretary of HEW, within two years after the date of the enactment of the proposed legislation, to submit a report to the relevant Committees of Congress describing the various types of activities undertaken and supported for the assessment of health care technology, describing recommendations and action taken with respect to reimbursement policy, and describing any additional authority or organizational changes necessary to more effectively carry out functions of the Center.

The Senate bill did not include a comparable provision and the conference substitute conforms to the Senate bill.

NATIONAL COUNCIL FOR THE EVALUATION OF MEDICAL TECHNOLOGY

The Senate bill established a National Council for the Evaluation of Medical Technology consisting of employees of government, and members of the public. Such Council was authorized to consult with and make recommendations to the Secretary with respect to the safety, efficacy, effectiveness, cost effectiveness, and the social and economic impacts of particular medical technologies and, when appropriate, after consultation with appropriate public and private entities, develop standards, norms and criteria concerning the utilization of particular medical technologies. In addition, the Council was required to disseminate the standards, norms and criteria it had developed.

Under the House amendment, a Health Care Technology Advisory Committee, consisting of governmental and private members, was established. The Committee was to advise the Secretary and the Director of the Center for Health Care Technology with respect to health care technology functions, including the establishment of priorities for assessments to be undertaken or supported by the Center.

The conference substitute conforms to the provisions of the Senate bill, with technical amendments.

The managers did not limit the Council to developing standards, norms and criteria based solely on assessments undertaken by the Center. But not doing so, however, it is not the intent of the conferees that the work of the Council not be closely tied to the activities of the Center. Thus, the conferees would expect the Council, wherever practicable, to use assesments undertaken or supported by the Center in developing standards, norms, and criteria respecting health care technology.

AUTHORIZATION OF APPROPRIATIONS FOR THE NATIONAL CENTER FOR HEALTH SERVICES RESEARCH

The Senate bill provided the following authorizations for health services research, evaluation, and demonstration activities undertaken or supported by the National Center for Health Services Research: $32,600,000 for fiscal year 1979, $35,000,000 for fiscal year 1980, and $40,000,000 for fiscal year 1981. In addition, at least 15 percent of such funds or $6,000,000, whichever is less, was required to be made available only for activities directly undertaken by the Center, and at least 5 percent of such funds or $1,000,000, whichever is less, was to be made available only for dissemination activities directly undertaken by the Center.

Under the House amendment, appropriations of $36,000,000 for fiscal year 1979, $44,000,000 for fiscal year 1980 and $49,000,000 for 1981 were authorized for the health services research, evaluation, and demonstration activities undertaken by the Center. In addition, at least 20 percent of the amount appropriated for any fiscal year or $6,000,000 whichever is less, was required to be made available for health services research and demonstration activities directly undertaken by the Center. The House amendment also authorized $2,000,000 for fiscal year 1979, $4,000,000 for fiscal year 1980, and $4,000,000 for 1981 for health services research training.

Under the conference substitute, the following authorizations of appropriations are

made for health service research, evaluation, and demonstration activity undertaken or supported by the National Center for Health Services Research: $35,000,000 for fiscal year 1979, $40,000,000 for fiscal year 1980, and $45,000,000 for fiscal year 1981. At least 20 percent of the amount appropriated for any fiscal year or $6,000,000, whichever is less, is required to be made available only for activities directly undertaken by the Center. At least 5 percent of the amount appropriated in any fiscal year or $1,000,000, whichever is less, is required to be made available only for dissemination activities directly undertaken by the Center. The conference substitute contains no line-item authorization for health services research training.

AUTHORIZATION OF APPROPRIATIONS FOR THE NATIONAL CENTER FOR HEALTH STATISTICS

Under the Senate bill, the following authorizations of appropriations were made for health statistical activities: $43,400,000 for fiscal year 1979, $47,000,000 for fiscal year 1980, and $50,000,000 for fiscal year 1981. Of the funds appropriated for any fiscal year, at least 15 percent was required to be available only for health statistical and epidemiological activities directly undertaken by the Center.

Under the House amendment, authorizations of appropriations for health statistical activities of the Center were as follows: $60,000,000 for fiscal year 1979, $75,000,000 for fiscal year 1980, and $80,000,000 for fiscal year 1981. In addition, under the House amendment, of the amount appropriated, at least $1,000,000 in fiscal year 1979, $2,000,000 in fiscal year 1980, and $2,000,000 in fiscal year 1981 was required to be made available for health statistics training.

Under the conference substitute, the following appropriations are authorized for health statistical activities undertaken or supported by the National Center for Health Statistics: $50,000,000 for fiscal year 1979, $65,000,000 for fiscal year 1980, and $70,000,000 for fiscal year 1981. The conference substitute does not include a requirement that a certain percentage of funds must be made available only for activities undertaken by the Center, nor does it contain an earmark of funds for health statistics training.

AUTHORIZATIONS OF APPROPRIATIONS FOR RESEARCH, DEMONSTRATIONS AND EVALUATIONS BY THE NATIONAL CENTER FOR HEALTH CARE TECHNOLOGY

Under the Senate bill, the following appropriations were authorized for activities respecting health care technology: $15,000,000 for fiscal year 1979, $25,000,000 for fiscal year 1980, and $30,000,000 for fiscal year 1981. Beginning in fiscal year 1981, of such funds, at least 15 percent was required to be made available only for activities directly undertaken by the Center.

Under the House amendment, the following appropriations were authorized for the Center for Health Care Technology: $15,000,000 for fiscal year 1979, $25,000,000 for fiscal year 1980, and $35,000,000 for fiscal year 1981. Beginning in fiscal year 1981, not less than 20 percent of amounts appropriated was to be obligated for assessments directly undertaken by the Secretary.

Under the conference substitute the following appropriations are authorized for the Center for Health Care Technology: $15,000,000 for fiscal year 1979, $25,000,000 for fiscal year 1980, and $33,000,000 for fiscal year 1981. Beginning in fiscal year 1981, not less than 15 percent of amount appropriated is to be obligated for assessments directly undertaken through the Center.

NATIONAL RESEARCH SERVICE AWARDS

Under the Senate bill, the authority of the Secretary to provide National Research Service Awards was extended to authorize research at the National Center for Health Services Research, the National Center for Health Statistics and the Center for Health Care Technology, as well as training at such centers.

The House amendment contained no comparable provision.

The conference substitute conforms to the Senate bill.

TECHNOLOGIES UNDER DEVELOPMENT

Under the Senate bill, the Director of the National Institute of Health, on an annual basis, was required to make available to the proposed Office of Health Technology and its Council a list of all technologies which the Director is aware are under development and that appear likely to be used in medical practice in the near future.

The House amendment contained no comparable provision.

The conference substitute includes the provisions of the Senate bill, with technical amendments.

HEALTH STATUS OF THE MEMBERS OF UNITED MINE WORKERS

Under the Senate bill, the Secretary, acting through the National Center for Health Services Research, was required to arrange for a study to evaluate the impact upon the utilization of health services by and the health status of members of the United Mine Workers and their dependents as a result of changes in the United Mine Workers collective-bargaining agreements of March 1978.

The House amendment contained no comparable provision.

The conference substitute conforms to the Senate bill.

EFFECT OF THE ENVIRONMENT ON HEALTH

The Senate bill required the Secretary to develop a plan for the collection and coordination of statistical and epidemiological data on the effects of the environment on health.

The House amendment required the Secretary to establish guidelines for the collection, compilation, analysis, publication and distribution of statistics and information necessary for determining the effects of conditions of employment and indoor and outdoor environmental conditions on the public health.

In addition, the House amendment required the Secretary to conduct a study focusing on the costs of environmentally related diseases.

The conference substitute combines and integrates the provisions of the Senate bill and the House amendment. Although the form of the Senate bill was altered slightly, the conferees agreed with the Senate's intent that the study should be undertaken in close cooperation with the Administrator of the Environmental Protection Agency and the Secretary of Labor.

HEW PATENT POLICY

Under the Senate bill, the Assistant Secretary for Health was granted responsibility for (1) developing the policies of the Department of HEW with respect to the rights to inventions of its employees, grantees and contractors; (2) issuing invention and patent administration policies and procedures; (3) administering the receipt and processing of invention reports by employees, grantees, and contractors of the Department; (4) making determinations of rights to inventions and patents involving inventions of employees, grantees and contractors of the Department; and (5) making determinations with respect to applications for licenses, under patent applications and patents owned by the United States. In addition, all functions of the Office of the General Counsel relating to patent administration and administration of invention reports were transferred to the Office of Health Technology. However, all legal services and functions relating to patent inventions were to remain in the Office of the General Counsel.

The House amendment contained no comparable provision, and the conference substitute conforms to the House amendment.

The conferees strongly urge the Department to review the manner in which patents are currently administered within the Department. The conferees are aware of expressed dissatisfaction with the pace at which patent applications are currently processed within HEW. Unnecessary delays in determining rights to inventions developed with Federal dollars deprive taxpayers of the potential benefits of research and development financed with Federal monies. The conferees wish to note that they intend to give a thorough review to patent proceedings in the near future.

STUDY OF HAZARDOUS SUBSTANCES ON HUMANS

The House amendment contained a provision, not included in the Senate bill, that required the Committee on Vital and Health Statistics to conduct a study of the issues respecting establishing a Federal system to facilitate studies of the effects of hazardous substances on humans and to assist Federal, State and other entities in locating individuals who have been exposed to hazardous substances to determine the effect on their health of such exposure and to assist them in obtaining appropriate medical care.

The conference substitute conforms essentially to the House amendment, except that (1) the study is incorporated into the larger study of costs of environmentally related diseases and is to be conducted by the Secretary of HEW, acting through the National Center for Health Statistics; (2) a consolidated consultation provision has been included; and (3) the National Committee on Vital and Health Statistics is included among those groups which must be consulted.

POSITIONS FOR SPECIALLY QUALIFIED PERSONNEL

The House amendment authorized the establishment of twenty-four new positions within the Public Health Service for specially qualified scientific, professional and administrative personnel. These positions were to be for the National Center for Health Services Research, the National Center for Health Statistics and the National Center for Health Technology.

The Senate bill contained no comparable provision.

The conference substitute conforms to the House amendment.

VISION RESEARCH FACILITIES

The House amendment authorized the Secretary to carry out a program of grants for public and non-profit private vision research facilities.

The Senate bill contained no comparable provision.

The conference substitute conforms to the House amendment.

INTERAGENCY TASK FORCE ON ENVIRONMENTAL CANCER HEART AND LUNG DISEASE

The House amendment to the Senate bill contained provisions expanding the membership of the Interagency Task Force established by P.L. 95–95 and directing it to study and make recommendations on environmental data guidelines.

The conference substitute retains the membership expansion provision. In light of the consultation provision requiring the Secretary of HEW to cooperate with the Task Force in developing its guidelines, the conference substitute deleted the second part of the House provision as redundant.

AMENDMENTS TO OTHER LAWS

The House amendment contained technical and minor substantive amendments to the Health Professions Educational Assistance Act of 1976, and to P.L. 95-95.

The Senate bill contained no comparable provisions.

The conference substitute conforms to the House amendment.

CONFERENCE REPORT ON S. 2534, HEALTH MAINTENANCE ORGANIZATION AMENDMENTS OF 1978

Mr. STAGGERS submitted the following conference report and statement on the Senate bill (S. 2534) to revise and extend the provisions of title XIII of the Public Health Service Act relating to health maintenance organizations:

CONFERENCE REPORT (H. REPT. NO. 95-1784)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 2534) to revise and extend the provisions of title XIII of the Public Health Service Act relating to health maintenance organizations, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House to the text of the bill and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following:

SHORT TITLE, REFERENCE TO ACT

SECTION 1. (a) This Act may be cited as the "Health Maintenance Organization Amendments of 1978".

(b) Whenever in this Act (other than in section 14) an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Public Health Service Act.

EXTENSION OF PROGRAM

SEC. 2. (a) Section 1304(j) is amended (1) by striking out "may be made through September 30, 1978;", and (2) by striking out "1979" and inserting in lieu thereof "1981".

(b) Section 1305(d) is amended by striking out "1980" and inserting in lieu thereof "1981".

(c) Section 1309(a) is amended (1) by striking out "and" after "1977,", and (2) by striking out the semicolon and all that follows in that section and inserting in lieu thereof the following: ", $31,000,000 for the fiscal year ending September 30, 1979, $65,000,000 for the fiscal year ending September 30, 1980, and $68,000,000 for the fiscal year ending September 30, 1981.".

INITIAL DEVELOPMENT

SEC. 3. (a) The first sentence of section 1304(b)(2) is amended by striking out "includes" and inserting in lieu thereof "means the establishment of a health maintenance organization, the expansion of the services of a health maintenance organization, or the".

(b)(1) The first sentence of section 1304(b)(3) is amended by striking out "in the one-year period beginning on" and inserting in lieu thereof "incurred in a period not to exceed three years from".

(2) The second sentence of such section is repealed.

(c)(1) Subparagraph (A) of section 1304(f)(2) is amended to read as follows:

"(A) $1,000,000 through September 30, 1979, and $2,000,000 thereafter, or".

(2) Section 1304(f) is amended—

(A) by striking out "The amount" in paragraph (2) and inserting in lieu thereof "Except as provided in paragraph (3), the amount";

(B) by striking out "(except as provided in paragraph (3))" in paragraph (2); and

(C) by inserting after "(3)" in paragraph (3) the following: "The cumulative total of grants made to, contracts entered into with, and principal of loans guaranteed for, a health maintenance organization under subsection (b) of this section may not exceed $1,000,000 through September 30, 1979, or $2,0000,000 thereafter.".

(d) The amendments made by this section shall only be effective for fiscal years beginning on or after October 1, 1978.

INITIAL OPERATING LOANS AND LOAN GUARANTEES

SEC. 4. (a) Section 1305(b)3(1) is amended by—

(1) striking out "$2,500,000" and inserting in lieu thereof "$2,500,000 (or $4,000,000 if the Secretary makes a written determination that such loans or loan guarantees are necessary to preserve the fiscally sound operation of the health maintenance organization and to protect against the risk of insolvency of the health maintenance organization and, within 30 days of the making of such loans or loan guarantees, furnishes the Committee on Human Resources of the Senate and the Committee on Interstate and Foreign Commerce of the House of Representatives with written notification of the making of the loans or loan guarantees and a copy of the written determination made with respect to the loans or loan guarantees and the reasons for the determination) through September 30, 1979, and $4,000,000 thereafter"; and

(2) striking out "$1,000,000" and inserting in lieu thereof "$1,000,000 (or $2,000,000 if the Secretary makes a written determination that such disbursements are necessary to preserve the fiscally sound operation of the health maintenance organization and protect against the risk of insolvency of the health maintenance organization and, within 30 days of such disbursement, furnishes the Committee on Human Resources of the Senate and the Committee on Interstate and Foreign Commerce of the House of Representatives with written notification of the making of the disbursement and a copy of the written determination made with respect to it and the reasons for the determination) through September 30, 1979, and $2,000,000 thereafter".

(b)(1) Section 1305(a) is amended by striking out "operating costs" each place it occurs and inserting in lieu thereof "costs of operation".

(2) The second sentence of section 1305(b)(1) is amended by striking out "any fiscal year" and inserting in lieu thereof "any twelve-month period".

(3) The title of section 1305 is amended by striking out "OPERATION COSTS" and inserting in lieu therof "COSTS OF OPERATION".

(c)(1) Section 1308 is amended by adding at the end the following new subsection:

"(f) The Secretary may take such action as he deems appropriate to protect the interest of the United States in the event of a default on a loan made or guaranteed under this title, including taking possession of, holding, and using real property pledged as security for such a loan or loan guarantee."

(2)(A) Subsection (d) of section 1308 is amended (i) by inserting before the period in the first sentence of paragraph (1) the following: "and to take the action authorized by subsection (f)", and (ii) by inserting after "under this title" in the first sentence of paragraph (2) the following: "and to take the action authorized by subsection (f)".

(B) The first sentence of subsection (e) of section 1308 is amended by inserting before the period the following: "and to take the action authorized by subsection (f)".

(d) The amendments made by this section shall only be effective for fiscal years beginning on or after October 1, 1978.

LOANS AND LOAN GUARANTEES FOR ACQUISITION AND CONSTRUCTION OF AMBULATORY HEALTH CARE FACILITIES

SEC. 5. (a) Title XIII is amended by inserting after section 1305 the following new section:

"LOANS AND LOAN GUARANTEES FOR ACQUISITION AND CONSTRUCTION OF AMBULATORY HEALTH CARE FACILITIES

"SEC. 1305A. (a) The Secretary may—

"(1) make loans, from the fund established under section 1308(e), to public and nonprofit private health maintenance organizations for projects for the acquisition or construction of ambulatory health care facilities and for the acquisition of equipment for facilities acquired or constructed under a loan made under this paragraph; and

"(2) guarantee to—

"(A) non-Federal lenders for their loans to nonprofit private health maintenance organizations for projects described in paragraph (1) and to private health maintenance organizations for such projects which will serve medically underserved populations, and

"(B) the Federal Financing Bank for its loans to nonprofit private health maintenance organizations for projects described in paragraph (1) and to private health maintenance organizations for such projects which will serve medically underserved populations,

the payment of principal and interest on such loans.

"(b)(1) Except as provided in paragraph (2), the aggregate amount of principal of loans made or guaranteed, or both, under subsection (a) for an ambulatory health care facility may not exceed $2,500,000.

"(2) The cumulative total of the principal of the loans outstanding at any time which have been directly made or with respect to which guarantees have been issued under subsection (a) may not exceed such limitations as may be specified in appropriation Acts.

"(3) The authority of the Secretary to make loans under subsection (a) shall be effective for any fiscal year only to such extent or in such amounts as are provided in advance in appropriation Acts.

"(c) For purposes of this section—

"(1) the term 'ambulatory health care facility' means a health care facility for the provision of diagnostic, treatment, and prevention services to ambulatory patients; and

"(2) the term 'construction' means the (A) construction of new facilities, (B) alteration, expansion, remodeling, replacement, and renovation of existing facilities, (C) cost of offsite improvements in connection with an

activity described in clause (A) or (B), and (D) cost of the acquisition of land in connection with an activity described in clause (A), (B), or (C).".

(b) Section 1313(4) is amended by inserting before the period the following: "or in meeting the costs of such organizations in acquiring or constructing ambulatory health care facilities".

CONTINUING DEVELOPMENT ASSISTANCE

SEC. 6. Section 1304(b) is amended by adding after paragraph (3) the following new paragraph:

"(4) A health maintenance organization which is a qualified health maintenance organization within the meaning of section 1310 (d) may receive, in accordance with paragraph (1), a grant, contract, or loan guarantee for the expansion of its services or the significant expansion of its membership or the area served by it.".

TRAINING AND TECHNICAL ASSISTANCE

SEC. 7. (a) Title XIII is amended by adding at the end thereof the following new section:

"TRAINING AND TECHNICAL ASSISTANCE

"SEC. 1317. (a)(1) The Secretary shall establish a National Health Maintenance Organization Intern Program (hereinafter in this subsection referred to as the 'Program') for the purpose of providing training to individuals to become administrators and medical directors of health maintenance organizations or to assume other managerial positions with health maintenance organizations. Under the Program the Secretary may directly provide internships for such training and may make grants to or enter into contracts with health maintenance organizations and other entities to provide such internships.

"(2) No internship may be provided by the Secretary and no grant may be made or contract entered into by the Secretary for the provision of internships unless an application therefor has been submitted to and approved by the Secretary. Such an application shall be in such form and contain such information, and be submitted to the Secretary in such manner, as the Secretary shall prescribe. Section 1306 does not apply to an application submitted under this section.

"(3) Internships under the Program shall provide for such stipends and allowances (including travel and subsistence expenses and dependency allowances) for the recipients of the internships as the Secretary deems necessary. An internship provided an individual for training at a health maintenance organization or any other entity shall also provide for payments to be made to the organization or other entity for the cost of support services (including the cost of salaries, supplies, equipment, and related items) provided such individual by such organization or other entity. The amount of any such payments to any organization or other entity shall be determined by the Secretary and shall bear a direct relationship to the reasonable costs of the organization or other entity for establishing and maintaining its training programs.

"(4) Payments under grants under the Program may be made in advance or by way of reimbursement, and at such intervals and on such conditions, as the Secretary finds necessary.

"(b) The Secretary shall provide technical assistance (1) to entities in connection with projects for which assistance is being provided under section 1303 or 1304, (2) to entities intending to become a qualified health maintenance organization within the meaning of section 1310(d), and (3) to health maintenance organizations. The Secretary may provide such technical assistance through grants to public and nonprofit private entities and contracts with public and private entities.

"(c) The authority of the Secretary to enter into contracts under subsections (a) and (b) shall be effective for any fiscal year only to such extent or in such amounts as are provided in advance by appropriation Acts.".

(b) Section 1309(a) is amended by striking out "and 1304(b)" and inserting in lieu thereof "1304(b), and 1317".

(c) The amendments made by this section shall only be effective for fiscal years beginning on or after October 1, 1978.

EMPLOYEE HEALTH BENEFIT PLANS

SEC. 8. (a) Section 1310(c) is amended by adding at the end the following: "Each employer which provides payroll deductions as a means of paying employees' contributions for health benefits or which provides a health benefits plan to which an employee contribution is not required and which is required by subsection (a) to offer his employees the option of membership in a qualified health maintenance organization shall, with the consent of an employee who exercises such option, arrange for the employee's contribution for such membership to be paid through payroll deductions.".

(b) Clauses (1) and (2) of section 1310(b) are amended to read as follows:

"(1) one or more of such organizations provides basic health services through physicians or other health professionals who are members of the staff of the organization or a medical group (or groups), and

"(2) one or more of such organizations provides basic health services through (A) an individual practice association (or associations), or (B) a combination of such association (or associations), medical group (or groups), staff, and individual physicians and other health professionals under contract with the organization,".

FINANCIAL DISCLOSURE; ENROLLMENT PROTECTION

SEC. 9. (a) Title XIII as amended by section 7 is amended by adding at the end the following new section:

"FINANCIAL DISCLOSURE

"SEC. 1318. (a) Each health maintenance organization shall, in accordance with regulations of the Secretary, report to the Secretary financial information which shall include the following:

"(1) Such information as the Secretary may require demonstrating that the health maintenance organization has a fiscally sound operation.

"(2) The information required to be reported under section 1124 of the Social Security Act by disclosing entities and the information required to be supplied under section 1902(a)(38) of such Act.

"(3) A description of transactions, as specified by the Secretary, between the health maintenance organization and a party in interest. Such transactions shall include—

"(A) Any sale or exchange, or leasing of any property between the health maintenance organization and a party in interest;

"(B) any furnishing for consideration of goods, services (including management services, but excluding health services provided to members by staff, medical group (or groups), individual practice association (or associations), or any combination thereof), or facilities between the health maintenance organization and a party in interest; and

"(C) any lending of money or other extension of credit between a health maintenance organization and a party in interest.

The Secretary may require that information reported respecting a health maintenance organization which controls, is controlled by, or is under control with, another entity be in the form of a consolidated financial statement for the organization and such entity.

"(b) For the purposes of this section the term 'party in interest' means:

"(1) any director, officer, partner, or employee of a health maintenance organization, any person who is directly or indirectly the beneficial owner of more than 5 per centum of the equity of the organization, any person who is the beneficial owner of a mortgage, deed of trust, note, or other interest secured by, and valuing more than 5 per centum of the health maintenance organization, and, in the case of a health maintenance organization organized as a nonprofit corporation, an incorporator or member of such corporation under applicable State corporation law;

"(2) any entity in which a person described in paragraph (1)—

"(A) is an officer or director;

"(B) is a partner (if such entity is organized as partnership);

"(C) has directly or indirectly a beneficial interest of more than 5 per centum of the equity; or

"(D) has a mortgage, deed of trust, note, on other interest valuing more than 5 per centum of the assets of such entity:

"(3) any person directly or indirectly controlling, controlled by or under common control with a health maintenance organization; and

"(4) any member of the immediate family of an individual described in paragraph (1).

"(c) Each health maintenance organization shall make the information reported pursuant to subsection (a) available to its enrollees upon reasonable request.

"(d) The Secretary shall, as he deems necessary, conduct an evaluation of transactions reported to the Secretary under subsection (a)(3) for the purpose of determining their adverse impact, if any, on the fiscal soundness and reasonableness of charges to the health maintenance organization with respect to which they transpired. The Secretary shall evaluate the reported transactions of not less than five, or if there are more than twenty health maintenance organizations reporting such transactions, not less than one-fourth of the health maintenance organizations reporting any such transactions under subsection (a)(3).

"(e) The Secretary shall file an annual report with the Congress on the operation of this section. Such report shall include—

"(1) an enumeration of standards and norms utilized to make the evaluations required under subsection (d):

"(2) an assessment of the degree of conformity or nonconformity of each health maintenance organization evaluated by the Secretary under subsection (d) with such standards and norms;

"(3) what action, if any, the Secretary considers necessary under section 1312 with respect to health maintenance organizations evaluated under subsection (d).

"(f) Nothing in this section shall be construed to confer upon the Secretary any authority to approve or disapprove the rates charged by any health maintenance organization.

"(g) Any health maintenance organization failing to file with the Secretary the annual financial statement required in subsection (a) shall be ineligible for any Federal assistance under this title until such time as such statement is received by the Secretary and shall not be a qualified health maintenance organization for purposes of section 1310.

"(h) Whoever knowingly and willfully makes or causes to be made any false statement or representation of a material fact in any statement filed pursuant to this section shall be guilty of a felony and upon convic-

tion thereof shall be fined not more than $25,000 or imprisoned for not more than five years, or both.".

(b) Section 1301(c)(3) is amended (1) by inserting "(A)" after "(3)", and (2) by inserting before the semicolon a comma and the following: "and (B) carry out enrollment of members who are entitled to medical assistance under a State plan approval under title XIX of the Social Security Act in accordance with procedures approved under regulations promulgated by the Secretary".

ORGANIZATION REQUIREMENTS

SEC. 10. (a) Section 1301(b) is amended (1) by inserting "except in the case of basic health services provided a member who is a full-time student (as defined by the Secretary) at an accredited institution of higher education," after "(C)" in paragraph (1), and (2) by inserting "unless the supplemental health services payment is for a supplemental health service provided a member who is a full-time student (as defined by the Secretary) at an accredited institution of higher education," after "community rating system" in the second sentence of paragraph (2).

(b) Section 1301(c)(1) is amended (1) by inserting "(A)" after "(1)", and (2) by inserting before the semicolon a comma and the following: "and (B) have administrative and managerial arrangements satisfactory to the Secretary".

(c) Section 1301(c)(6) is amended (1) by striking out "(6)" and inserting in lieu thereof "(6)(A) in the case of a private health maintenance organization,", (2) by redesignating clauses (A) and (B) as subclauses (i) and (ii), respectively, and (3) by inserting before the semicolon a comma and the following: "and (B) in the case of a public health maintenance organization, have an advisory board to the policymaking body of the public entity operating the organization which board meets the requirements of clause (A) of this paragraph and to which may be delegated policymaking authority for the organization."

REQUIREMENTS FOR THE PROVISION OF SERVICES

SEC. 11. (a) Paragraph (3) of section 1310(b) is amended to read as follows:

"(3)(A) Except as provided in subparagraph (B), the services of a physician which are provided as basic health services shall be provided through—

"(i) members of the staff of the health maintenance organization,

"(ii) a medical group (or groups),

"(iii) an individual practice association (or associations),

"(iv) subject to subparagraph (C), physicians or other health professionals who have contracted with the health maintenance organization for the provision of such services, or

"(v) any combination of such staff, medical group (or groups), individual practice association (or associations), or physicians or other health professionals under contract with the organization.

"(B)(i) Subparagraph (A) does not apply to the provision of the services of a physician—

"(I) which the health maintenance organization determines, in conformity with regulations of the Secretary, are unusual or infrequently used, or

"(II) which are provided a member of the organization in a manner other than that prescribed by subparagraph (A) because of an emergency which made it medically necessary that the service be provided to the member before it could be provided in a manner prescribed by subparagraph (A).

"(ii) In the forty-eight-month period beginning after the month in which a health maintenance organization becomes a qualified health maintenance organization (within the meaning of section 1310(d)), the organization may provide the services of physicians through an entity which but for the requirement of section 1302(4)(C)(i) would be a medical group for the purposes of this title. After the expiration of such period, the organization may provide physician services through such an entity only if authorized by the Secretary in accordance with regulations which take into consideration the unusual circumstances of such entity.

"(C) After the expiration of the first four fiscal years of a health maintenance organization beginning after the month in which it became a qualified health maintenance organization (within the meaning of section 1310(d)), the organization may not enter into contracts with physicians other than members of staff, medical groups, or individual practice associations if the amounts paid under such contracts for basic and supplemental health services provided by physicians exceed 15 per centum of the total estimated amount to be paid in such fiscal year by the health maintenance organization to physicians for the provision of basic and supplemental health services by physicians, or, if the health maintenance organization principally serves a rural area, 30 per centum of such amount, except that this subparagraph does not apply to the entering into contracts for the purchase of physician services through an entity which, but for the requirements of section 1302(4)(C)(i), would be a medical group for the purposes of this title.

"(D) Contracts between a health maintenance organization and health professionals for the provision of basic and supplemental health services shall include such provisions as the Secretary may require (including provisions requiring appropriate continuing education).

"(E) For purposes of this paragraph the term 'health professional' means physicians, dentists, nurses, podiatrists, optometrists, and such other individuals engaged in the delivery of health services as the Secretary may by regulation designate.".

(b) Section 1301(b)(1) is amended by adding at the end the following: "The requirements of this paragraph respecting the basic health services payment shall not apply to the provision of basic health services to a member for an illness or injury for which the member is entitled to benefits under a workmen's compensation law or an insurance policy but only to the extent such benefits apply to such services. For the provision of such services for an illness or injury for which a member is entitled to benefits under such a law, the health maintenance organization may, if authorized by such law, charge or authorize the provider of such services to charge, in accordance with the charges allowed under such law, the insurance carrier, employer, or other entity which under such law is to pay for the provision of such services or, to the extent that such member has been paid under such law for such services, such member. For the provision of such services for an illness or injury for which a member is entitled to benefits under an insurance policy, a health maintenance organization may charge or authorize the provider of such services to charge the insurance carrier under such policy or, to the extent that such member has been paid under such policy for such services, such member.".

(c) The second sentence of section 1301(b)(4) is amended to read as follows: "A member of a health maintenance organization shall be reimbursed by the organization for his expenses in securing basic and supplemental health services other than through the organization if the services were medically necessary and immediately required because of an unforeseen illness, injury, or condition.".

(d) Section 1301(b) is amended by adding at the end the following new paragraph:

"(5) To the extent that a natural disaster, war, riot, civil insurrection, or any other similar event not within the control of a health maintenance organization (as determined under regulations of the Secretary) results in the facilities, personnel, or financial resources of a health maintenance organization not being available to provide or arrange for the provision of a basic or supplemental health service in accordance with the requirements of paragraphs (1) through (4) of this subsection, such requirements only require the organization to make a good-faith effort to provide or arrange for the provision of such service within such limitation on its facilities, personnel, or resources.".

(e) Section 1302(1) is amended by inserting before the second sentence the following: "Such term does not include a health service which the Secretary, upon application of a health maintenance organization, determines is unusual and infrequently provided and not necessary for the protection of individual health. The Secretary shall publish in the Federal Register each determination made by him under the preceding sentence.".

ADMINISTRATION OF PROGRAM

SEC. 12. (a)(1) Subsection (h) of section 1310 is repealed.

(2) Subsection (c) of section 1312 is repealed.

(b) Section 1306(b)(2) is amended by inserting "in the case of an application for assistance under section 1304, 1305, or 1305A," before "he determines".

(c) Section 1306(b) is amended by adding at the end the following new sentence: "In determining, for purposes of paragraph (2), whether an applicant would be able to complete a project or undertaking without the assistance applied for, the Secretary shall not consider any asset of the applicant the obligation of which for such undertaking or project would jeopardize the fiscal soundness of the applicant.".

PROGRAM MANAGEMENT EVALUATION

SEC. 13. Section 1314 is amended by adding at the end thereof the following new subsection:

"(d) The Comptroller General shall evaluate the adequacy and effectiveness of the policies and procedures of the Secretary for the management of the grant and loan programs established by this title and the adequacy of the amounts of assistance available under such programs and shall report to the Congress the results of such evaluation not later than May 1, 1979.".

AMENDMENTS TO THE SOCIAL SECURITY ACT

SEC. 14. (a)(1) Section 1902(a)(4) of the Social Security Act is amended (A) by striking out "and" at the end of clause (A), and (B) by inserting before the semicolon a comma and the following: "and (C) that each State or local officer or employee who is responsible for the expenditure of substantial amounts of funds under the State plan, each individual who formerly was such an officer or employee, and each partner of such an officer or employee shall be prohibited from committing any act, in relation to any activity under the plan, the commission of which, in connection with any activity concerning the United States Government, by an officer or employee of the United States Government, an individual who was such an officer or employee, or a partner of such an officer or employee is prohibited by section 207 or 208 of title 18, United States Code.

(2)(A) Except as provided in subparagraph (B), the amendments made by paragraph (1) shall take effect one hundred and eighty days after the date of the enactment of this Act.

(B) In the case of a State plan for medical

assistance under title XIX of the Social Security Act which the Secretary determines requires State legislation in order for the plan to meet the requirement added by the amendments made by paragraph (1), such amendments shall not apply with respect to such State plan before ninety days after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act.

(b) Section 1122 of the Social Security Act is amended—

(1) by striking out "or health maintenance organization" each place it occurs.

(2) by striking out "or health maintenance organizations" each place it occurs, and

(3) by striking out "or organization, or of any facility of such organization," in subsection (d)(2).

(c) Section 1903(m)(1)(B) of the Social Security Act is amended by striking out "shall be administered through the Assistant Secretary for Health and in the Office of the Assistant Secretary for Health, and the administration of such duties and functions".

And the House agree to the same.

That the Senate recede from its disagreement to the amendment of the House to the title of the bill and agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 2534) to revise and extend the provisions of title XIII of the Public Health Service Act relating to health maintenance organizations, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The House amendment to the text of the bill struck out all of the Senate bill after the enacting clause and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House with an amendment which is a substitute for the Senate bill and the House amendment. The differences between the Senate bill, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

EXTENSION OF PROGRAM

The Senate bill provides for extension of authorizations for appropriations of $35 million for fiscal year 1979, $65 million for fiscal year 1980, and $70 million for fiscal year 1981 (section 8).

The House amendment provides authorizations of appropriations of $25 million for fiscal year 1979, $63 million for 1980 and $63 million for 1981 (sections 2 and 15).

The conference substitute as a compromise specifies that authorizations of appropriations shall be available at a level of $31 million for fiscal year 1979, $65 million for 1980 and $68 million for 1981. Loan authority is extended through fiscal year 1981 (section 2).

INITIAL DEVELOPMENT

The Senate bill amends section 1304(f)(2)(a) to increase the maximum dollar limit for initial development project grants, contracts, and loan guarantees from $1 million to $2 million effective September 30, 1979. It also deletes the provision of existing law regarding increased assistance for health maintenance organizations (HMO's) providing services in additional service areas (section 3(a)).

The House amendment modifies the support available to organizations for initial development by providing that an HMO would continue to be eligible to receive up to $1 million to support its establishment and it would be eligible to receive up to $600,000 to support each significant expansion of membership or areas served. A grant awarded under this section would be available for up to three years (section 5 (b) and (c)).

The conference substitute conforms to the Senate amendment with the added provision that a grant awarded under this section would be available for up to three years (section 3).

INITIAL OPERATING LOANS AND LOAN GUARANTEES

The Senate bill amends section 1305(b)(1) to increase the aggregate dollar limit for HMO operating loans and loan guarantees from $2.5 million to $5 million with a secretarial certification of need required for its use prior to September 30, 1979. The bill also increases the amount of operating loans which may be dispensed to an HMO in any one year from $1 million to $2 million with similar restrictions (section 3(b)).

The House amendment expands the support which may be provided to an HMO for its initial costs of operation to an aggregate $4 million. The support would include capital costs such as the costs of acquiring equipment. In any one year an HMO would be limited to $2 million of loan or loan guarantee support. The Secretary is authorized to take such actions as he deems appropriate to protect the interests of the United States in the event of a default on a loan made or guaranteed.

The conference substitute as a compromise specifies that the total amount available for the costs of operation would be increased to $4.5 million in total and $2 million annually, to be provided with the Secretarial certification in the Senate bill during fiscal year 1979. It also includes a provision related to the Secretary's authority to protect the interest of the United States (section 4).

LOANS AND LOAN GUARANTEES FOR ACQUISITION AND CONSTRUCTION OF AMBULATORY HEALTH CARE FACILITIES

The Senate bill adds a new authority for loans and loan guarantees to assist an HMO in meeting the cost of equipping, constructing, acquiring, or renovating ambulatory care facilities for HMO's and entities intending to become HMO's. No dollar limitation would be applied to the assistance to be provided for ambulatory care facility under this provision. (Section 4(a) and (b)).

The House amendment adds a new section after section 1305 to provide loans and loan guarantees to qualified HMO's for the acquisition and construction of ambulatory care facilities and for the acquisition of equipment for facilities acquired or constructed. The Secretary may make loans to public and non-profit private HMO's; the Secretary may also guarantee the payment of principal and interest on loans for private HMO's for projects which serve medically underserved areas. The aggregate amount of principal of loans made or guaranteed under this section may not exceed $2.5 million (section 9).

The conference substitute conforms to the House amendment with a loan limitation of $2.5 million for each health care facility (section 5).

CONTINUING DEVELOPMENT ASSISTANCE

The Senate bill contains a provision, not included in the House amendment, which expands the purposes for which assistance for initial development projects may be made to include "improvement of services." Such assistance may be provided only to entities which demonstrate the capability of maintaining continued fiscal soundness (section 7).

The conference substitute as a compromise specifies that initial development grants, contracts, and loan guarantees be provided for expansion of services. Conferees note that support under this program should be provided an HMO for the addition of a new service being directly provided by the HMO and not for routine adjustment in services (section 6).

TRAINING AND TECHNICAL ASSISTANCE

Training

The Senate bill creates a new section which requires the Secretary to establish a National Health Maintenance Organization Intern Program for the purpose of training qualified HMO administrators and managerial personnel. The Secretary may award payments for internships or for the costs of internship to:

(1) an individual with approved application; or

(2) an HMO or other entity which submits and has approved an application for a grant under this section. Payments to HMO's or other entities can be used only to cover the costs of the internship limited to such amounts as the Secretary finds necessary to cover the costs incurred by the HMO or other entity under the internship program. Payments to individuals receiving training in the internship program are limited to a maximum of $2,000 per month, per individual, excluding relocation costs, and the term of individual internship payments is limited to 12 months. Authorizations for the National HMO Intern Program are $2 million for fiscal year 1979; $2 million for fiscal year 1980; $3 million for fiscal year 1981 (section 9).

The House amendment creates a new section which requires the Secretary to establish a National Health Maintenance organization Intern Program for the purpose of providing training to individuals to become administrators and medical directors of health maintenance organizations or to assume other managerial positions with health maintenance organizations. The Secretary may provide these internships directly or may make grants to or enter into contracts with health maintenance organizations and other entities to provide the internships. The program will provide stipends and allowances for the recipients of the internships and grants and contracts to health maintenance organizations and other entities for the cost of support services provided to recipients of the internships by the organization or the entity. The amount of any payment to an organization or an entity shall be determined by the Secretary and shall bear direct relationship to the reasonable cost of the organization or entity for establishing and maintaining the training program. Funds for these internships are provided in the authorizations of appropriations in section 1309(a). This provision shall be effictive for fiscal years on or after October 1, 1979 (section 10(a)).

The conference substitute conforms to the House amendment, except that the authorization for the program will begin in fiscal year 1979 (section 7(a)). The conferees note that the purpose of the training is to enable the individual who participates to as-

sume an administrative position within an HMO, or to improve capabilities and skills in their current position with an HMO.

Technical assistance

The Senate bill amends section 1307 to authorize the Secretary to make grants to public or nonprofit private entities and to enter into contracts with private entities for (1) the provision of technical assistance to projects and HMO's and (2) assistance in making determinations under sections 1308 (general provisions relating to loan guarantees and loans), 1310 (employees health benefit plan), and 1312 (regulation of HMO's) (section 11(b)).

The House amendment creates a new section which requires the Secretary to provide directly or through contracts or both technical assistance to (1) entities engaged in surveys or other activities to determine the feasibility of developing and operating or expanding the operation of health maintenance organizations; (2) entities engaged in the planning for the initial development of health maintenance organizations; (3) entities engaged in the initial development of health maintenance organizations and (4) health maintenance organizations in connection with their operation (section 10).

The conference substitute requires the Secretary to provide technical assistance, through grants to public and nonprofit private entities and contracts with private entities, (1) to entities in connection with projects for which assistance is being provided under section 1303 or 1304, (2) to entities intending to become a qualified health maintenance organization within the meaning of section 1310(d), and (3) to health maintenance organizations (section 7(b)).

EMPLOYMENT HEALTH BENEFIT PLANS

Payroll deductions for HMO premiums

The Senate bill requires each employer participating in the dual choice program required under the law to arrange for the deduction of HMO premiums from an employee's salary providing the employee consents to this arrangement and the employer has the demonstrated capability of making payroll deductions (section 6(a)).

The House amendment provides that each employer which provides payroll deductions as a means of paying employees' contributions for health benefits or which provides a health benefit plan to which an employees' contributions is not required and which is required to offer his employee the option of membership in a qualified health maintenance organization would be required to arrange, upon the request of the employee who exercises such option, for the employee's contribution for such membership to be paid through payroll deductions (section 7).

The conference substitute conforms to the House amendment; however, consent, and not the request, of an employee is required (section 8(a)).

Clarifying amendments for dual choice program

The Senate bill contains a provision, not included in the House amendment, which amends section 1310 to clarify the distinction between the two kinds of qualified HMO's an employer must offer his employees as an option under the dual choice programs if one or more qualified HMO's provides services in the area in which the employees' reside (section 6(b) and (c)).

The conference substitute conforms to the Senate bill (section 8(b)).

FINANCIAL DISCLOSURE; ENROLLMENT PRACTICES

Financial disclosure

The Senate bill creates a new section 5 which requires each HMO to file annually with the Secretary financial information in such form as the Secretary may require and, if an organization is related to the HMO by common ownership or control, a consolidated financial statement must be filed. The financial information to be filed must include:

(1) Information, as required by the Secretary demonstrating that the HMO has a fiscally sound operation.

(2) a description of transactions, as specified by the Secretary, between the HMO and a party in interest. The term "party-in-interest" is defined as: (1) any director, officer, employee, partner, person who is directly or indirectly the beneficial owner or more than five percent of the equity, or person who is the beneficial owner of a mortgage, deed of trust, note, or other interest secured by, and valuing more than five percent of the assets (and in the case of a HMO organized as a nonprofit corporation, an incorporator or member of such corporation under the applicable State corporation law) of the HMO;

(2) any entity in which any director, officer, employee, partner, person who is directly or indirectly the beneficial owner of more than five percent of the equity, or person who is the beneficial owner of a mortgage, deed of trust, note, or other interest secured by, and valuing more than five percent of the assets (and in the case of an HMO organized as a nonprofit membership corporation, an incorporator or member of such corporation under the applicable State corporation law) of the HMO:

(a) is an officer or director;

(b) is a partner (if such entity is organized as a partnership);

(c) has directly or indirectly a beneficial interest of more than five percent of the entity; or

(d) has a mortgage, deed or trust, note, or other interest valuing more than five percent of the assets of such entity;

(3) any person directly or indirectly controlling, controlled by, or under common control with the HMO. Each HMO must make available to its enrollees, upon reasonable request, the contents of its annual financial information statement. The Secretary must, as he deems necessary, conduct an evaluation of reported transactions between HMO's and parties-in-interest for the purpose of determining their adverse impact, if any, on the fiscal soundness and reasonableness of charges to the HMO. The reported transactions of at least five HMO's, or if there are more than 20 HMO's reporting such transactions, at least one-fourth shall be evaluated. The Secretary must file an annual report to Congress which includes:

(1) An enumeration of standards and norms used to make required evaluations under section 1318;

(2) An assessment of the extent to which each HMO evaluated by the Secretary conforms to such standards and norms; and

(3) Any actions the Secretary considers necessary, under his authority to regulate HMO activities under section 1312, with respect to those HMO's evaluated under this section.

Nothing in this section can be construed to give the Secretary the authority to approve or disapprove the premium rates charged by any HMO. Failure to file the annual financial information statement shall result in being ineligible to receive any Federal assistance under title XIII.

The House amendment amends section 1310(d) to provide that all qualified health maintenance organizations (1) must provide the Secretary with ownership and related information, (2) must provide the Secretary with assurances satisfactory to the Secretary that the terms of each transaction between the health maintenance organization and a party in interest will be at least as favorable to the health maintenance organization as if the transaction was between the health maintenance organization and a person who was not a party in interest, and (3) must make available to its members the information reported by the organization pursuant to (1) and (2). The ownership information required is identical to that required by section 1124 and 1902(a)(38) of the Social Security Act (added by P.L. 95-142, the Medicare-Medicaid Anti-Fraud and Abuse Amendments). The related information which may be required by the Secretary, at such time as the Secretary shall prescribe, is information (1) to demonstrate that the health maintenance organization has a fiscally sound operation and (2) respecting any transaction between the health maintenance organization and a party in interest. The term "party in interest" means (1) a person with an ownership or control interest (as defined in section 1124(a)(3) of the Social Security Act) in the health maintenance organization, (2) a managing employee (as defined in section 1126(b) of the Social Security Act) of the organization, (3) any entity with respect to which an individual described in (1) or (2) is a person with an ownership or control interest (as so defined) or managing employee (as so defined), and (4) any member of the immediate family of an individual who is a person described in (1) or (2). This section also requires the Secretary to include in the annual report required by section 1315 a summary of evaluations made of the information and a description of any action taken as a result of such evaluation. The section also amends section 1306(b) to require that an application for a grant, contract, loan or loan guarantee under Title XIII contain assurances satisfactory to the Secretary that the organization will comply with the requirements added to section 1310(d) by section 12 of the bill. The section also amends section 1312(a) to require the Secretary to take the actions authorized by section 1312(b) if he determines that an entity which received a grant, contract, loan or loan guarantee under Title XIII as a health maintenance organization or which was included in the health benefits plan offered to employees pursuant to section 1310(d) by this section (section 12).

The conference substitute conforms to the Senate bill with modifications in the frequency when information must be filed and the definition of "party in interest." It also includes the House requirement for the submission of ownership information (section 9(a)).

Enrollment practices

The Senate bill requires the HMO to provide the Secretary with assurances satisfactory to him that no membership enrollment shall occur at an individual's place of residence (section 2(c)).

The House amendment provides that an HMO shall carry out enrollment of members who are entitled to medical assistance under State plan approved under Title 19 of the Social Security Act in accordance with procedures approved under regulations promulgated by the Secretary (section 4(c)).

The conference substitute conforms to the House amendment (section 9(b)).

ORGANIZATION REQUIREMENTS

Experience rating for students

The House amendment contains a provision not included in the Senate bill which modifies section 1301(b) by allowing the HMO to provide services to full time students at an accredited institution of higher education for a payment that is not fixed under a community rating system (section 4(a)).

The conference substitute conforms to the House amendment (section 10(a)).

Administrative arrangements

The House amendment contains a provision not included in the Senate bill which requires that an HMO has certain adminis-

trative and managerial arrangements and capabilities (section 4(b)).

The conference substitute as a compromise specifies that an HMO shall have administrative and managerial arrangements satisfactory to the Secretary (section 10(b)).

Requirements for public HMO's

The House amendment contains a provision, not included in the Senate bill, which amends section 1301(c)(6) to exclude public HMO's from the requirement that at least one third of the membership of the policymaking body of an HMO be members of the organization and that the body include equitable representation from medically underserved populations served by the organization. Under the amendment a public HMO must have an advisory board which meets these requirements and this board may be delegated policymaking authority for the organization (section 4(d)).

The conference substitute conforms to the House amendment.

Waiver of policymaking body requirements

The House amendment contains a provision, not included in the Senate bill, which amends section 1310(d) to include as a qualified health maintenance organization certain entities which have received a waiver of the requirements of section 1301(c)(6) and which meet all other requirements prescribed by section 1301(b) and (c) and the reporting requirements prescribed by section 1310(d). The Secretary of HEW may, upon application, grant a waiver to such entities upon such terms and conditions as the Secretary may determine appropriate. Entities eligible to apply for this waiver must notify the Secretary of their intent to apply before the expiration of 180 days after the date of the enactment of this bill and must make their application before the expiration of 18 months after the enactment of this bill. An entity which receives this waiver may not receive a grant, contract, loan or loan guarantee under title XIII. Entities eligible to apply for a waiver are health maintenance organizations (as defined in regulations promulgated under section 1122 of the Social Security Act and in effect on the day before the date of enactment of this bill) (1) which are operated (but not as a separate legal entity) either by a commercial insurance carrier or a nonprofit carrier which provides hospital service benefits or medical or surgical benefits, or both, (2) with respect to which Federal financial assistance has not been provided under Title XIII, and (3) which on January 1, 1974 were engaged in providing basic health services (as defined in regulations promulgated under section 1122) to the organization's members. As a condition of approving the entity as a qualified health maintenance organization, the Secretary may alter the application of section 1310(b) to the service area of the entity. The Secretary may require the health benefits plan of each employer subject to section 1310(a) which has at least 25 employees residing in the service area of the entity (which is the qualified health maintenance organization) to include in their employee's health benefits plan at least two qualified health maintenance organizations which provide service in the same service area in the same manner when at least two such organizations are willing to be included in the employee's health benefits plan (section 14).

The conference substitute conforms to the Senate bill.

REQUIREMENTS FOR THE PROVISION OF SERVICES

Physicians' services

The Senate bill would modify provisions of existing law and limit contracting for health services by the health maintenance organization only to physician services and not to the services of all health professional services. It provides that an HMO, can not, in any of its fiscal years after the end of its fourth fiscal year of operation, enter into contracts with physicians other than members of staff, medical groups or individual practice associations (IPA's), if amounts paid for contract physician services exceed 15 percent of the total estimated amount to be paid by an HMO to physicians for the provision of physician services, or 30 percent of such amounts if the HMO principally serves a rural area. The bill also specifies that an HMO may, during the 36 month period beginning with the month following the month in which the HMO becomes qualified, provide physician services through an entity which would be a medical group except for certain requirements in law defining the amount of time the group has to devote to delivering services to HMO members (section 2(a)).

The House amendment would allow an HMO up to five years to reduce its reliance on contracts with physicians other than staff physicians or those who are not in medical groups or individual practice associations. At any time the amount paid to such physicians could not exceed 50 percent of the total amount paid for services of physicians and in the fifth and succeeding years the amount could not exceed the 15 percent (30 percent in rural areas). The amendment specifies that an HMO may, during a 48th month period, beginning with the month following qualification, provide physician services through an entity which would be a medical group except for certain requirements in the law defining the amount of time the group has to vote to delivering services to HMO members (section 3(b)).

The conference substitute conforms to the Senate bill; however, it contains the provision in the House amendment which would allow an HMO up to 48 months to use medical groups that do not meet the requirements defining the amount of time the group has to devote to delivering services to HMO members. The conferees intend that the Secretary in reviewing the application of an entity for qualification as a health maintenance organization carefully consider that organization's ability to reduce its reliance on contracting for physician services in other than the manner prescribed by law within its first four fiscal years (section 11(a)).

Workmen's compensation and other insurance

The Senate bill amends section 1301 to authorize reasonable limitations and exclusions with respect to benefits and the financial liability for care for illness, injury or conditions covered by a workmen's compensation statute. (Section 5).

The House amendment amends section 1301(b)(1) to permit the HMO to seek reimbursement for the cost of services provided to a member who is entitled to benefits under a workmen's compensation law or an insurance policy (section 3(a)).

The conference substitute conforms to the House amendment (section 11(b)).

Services provided by other than the HMO

The Senate bill specifies that HMO members will be reimbursed by the HMO for expenses incurred in securing emergency health services not provided by the HMO if it was medically necessary that those services be provided before the member could secure them through the HMO (section 2(b)).

The House amendment amends section 1301(b)(4) by removing the financial responsibility of an HMO for services provided by another organization to a member of the HMO if the member intentionally left the area served by the HMO for the purpose of securing those services (section 3(c)).

The conference substitute as a compromise specifies that a member of an HMO shall be reimbursed by the organization for his expenses in securing basic health services other than through the organizations if services were medically necessary and immediately required because of unforeseen illness, injury or condition (section 11(c)).

Limitation and exclusion of benefits

The Senate bill amends section 1301(b) to authorize reasonable limitations and exclusions with respect to the services which HMO's are not able to deliver because of natural disasters, war or insurrection (section 5).

The House amendment provides that a health maintenance organization is only required to make a good faith effort to provide health services in the event that major disaster, war, riot, civil insurrection, or any other event not reasonably within the control of the HMO results in the facilities, personnel, or financial resources of the HMO not being available to provide or arrange for the provision of health services to members (section 3(d)).

The conference substitute conforms to the House amendment; however, the provision would be limited to natural disaster, war, riot, civil insurrection or any other similar event not within the control of the HMO (section 11(d)). The conferees note that labor disputes are not intended to be included in the limitations and exclusions under this provision.

Unusual and infrequent services

The Senate bill would allow an HMO to exclude benefits with respect to unusual and infrequent medical services or procedures not necessary to protect the health of the member (section 5).

The House amendment provides that an HMO is not required to provide services which the Secretary determines, upon the application of an HMO, to be unusual or infrequently provided and are not necessary for the protection of individual health (section 3(e)).

The conference substitute conforms to the House amendments (section 11(e)).

ADMINISTRATION OF PROGRAM

Program organization

The Senate bill repeals section 1310(h) which provides that the duties and functions of the Secretary in making determinations as to whether an organization is a qualified HMO shall be administered through the Assistant Secretary for Health in the Office of the Assistant Secretary for Health and the administration of such duties and functions shall be integrated with the administration of section 1312(a), and 1312(c) which provides that the Secretary, acting through the Assistant Secretary of Health, shall administer sections 1312(a) and 1312(b) in the Office of the Assistant Secretary for Health (section 11 (c) and (d)).

The House amendment repeals section 1312(c) and amends section 1310(h) to delete the requirement that the qualification and compliance functions be located in the Office of the Assistant Secretary for Health (section 11(a) and (b)).

The conference substitute conforms to the Senate bill (section 12(a)).

Application requirement

The Senate bill repeals section 1306(b)(2) which provides that the Secretary may not approve an application for a grant, contract, loan, or loan guarantee under this title unless he determines that the applicant making the application would not be able to complete the project or undertaking for which the application is submitted without the assistance requested (section 11(a)).

The House amendment would allow grants and contracts for HMO feasibility studies regardless of the financial position of the applicant; all other support would be provided to organizations only if the applicant would not be able to complete the project without Federal assistance (section 5(a)).

The conference substitute as a compromise conforms to the House amendment and in

addition amends section 1306(b) by providing that the Secretary, in determining for purposes of section 1306(b)(2) whether an applicant would be able to complete a project or undertaking without the assistance applied for, will not consider any asset of the applicant the obligation of which for such undertaking or project would jeopardize the fiscal soundness of the applicant. The additional sentence clarifies that in approving applications for grants, contracts, loans, and loan guarantees under sections 1304 and 1305, the Secretary may not require an applicant to use all available assets for the project if that requirement would jeopardize the fiscal soundness of the applicant (section 12(b) and (c)).

PROGRAM MANAGEMENT EVALUATION

The Senate bill requires the Comptroller General to evaluate the adequacy and effectiveness of the policies and procedures for the management of the grant and loan programs in Title XIII and the adequacy of the amount of assistance available under Title XIII and to report to the Congress the results of the evaluation not later than May 1, 1979 (section 12).

The House amendment has no similar provision.

The conference substitute conforms to the Senate bill (section 13).

AMENDMENTS TO THE SOCIAL SECURITY ACT

Conflict of interest

The House amendment contains a provision not included in the Senate bill, which extends the prohibitions of sections 207 and 208 of title 18, United States Code, State or local officers or employees who are responsible for the expenditure of substantial amounts of Medicaid funds, to each individual who formerly was such an officer or employee and to each partner of such an officer or employee. (section 13(a)).

The conference substitute conforms to the House amendment (section 14(a)).

Section 1122 review

Section 1122 of the Social Security Act provides for review by State Health Planning Agencies of capital expenditures proposed to be made by health care facilities (such as hospitals and nursing homes) and health maintenance organizations. The coverage of health maintenance organizations includes its establishment and the development of its outpatient facilities and services.

The House amendment contains a provision not included in the Senate bill, which amends section 1122 to provide that the establishment of an HMO will not be covered and that the development of outpatient facilities and services will be covered only to the extent that a health care facility would be covered for the same activity (section 13(b)).

The conference substitute conforms to the House amendment so that HMO's will be covered equally with other health care facilities (section 14(b)).

Conforming amendments

The House amendment contains a provision, not included in the Senate bill, which makes conforming changes in section 1903(M)(1)(B) of the Social Security Act regarding the administration of the HMO program within HEW (section 13(c)).

The conference substitute conforms to the House amendment (section 14(c)).

FUNDING UNDER OTHER AUTHORITIES FOR THE PROVISION OF HEALTH SERVICES ON A PREPAID BASIS

Section 1313 of the Public Health Service Act limits to title XIII the source of funding for health maintenance organizations and other entities which provide, directly or indirectly, health services to a defined population on a prepaid basis.

The House amendment contains a provision not included in the Senate bill, which provides that section 1313 does not prohibit the use of funds appropriated under section 319 or 330 of the Public Health Service Act for grants to an entity, other than a health maintenance organization, for the planning and development of health services to be provided on a prepaid basis or for the provision of health services on a prepaid basis (section 8).

The conference substitute conforms to the Senate bill.

CONFERENCE REPORT ON S. 2416, NURSE TRAINING AMENDMENTS OF 1978

Mr. STAGGERS submitted the following conference report and statement on the Senate bill (S. 2416) to amend title VIII of the Public Health Service Act to extend for 2 fiscal years the program of assistance for nurse training:

CONFERENCE REPORT (H. REPT. No. 95-1785)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 2416) to amend title VIII of the Public Health Service Act to extend for 2 fiscal years the program of assistance for nurse training having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the House amendment insert the following:

TITLE I—NURSE TRAINING

SEC. 101. (a) This Act may be cited as the "Nurse Training Amendments of 1978".

(b) Whenever in this Act (other than section 204) an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Public Health Service Act.

SEC. 102. Section 801 (relating to authorizations for construction grants) is amended by inserting after "for fiscal year 1978" the following: "and for each of the next two fiscal years".

SEC. 103. (a) Subsections (a) and (b) of section 805 (relating to loan guarantees and interest subsidies) are each amended by striking out "1978" and inserting in lieu thereof "1980".

(b) Subsection (e) of such section is amended by inserting after "in fiscal year 1978" the following: "and in each of the next two fiscal years".

SEC. 104. Subsection (f) of section 810 (relating to capitation grants) is amended by inserting after "fiscal year 1978" the following: "and for each of the next two fiscal years".

SEC. 105. The first sentence of subsection (d) of section 820 (relating to special project grants and contracts) is amended by striking out "and" after "1977," and by inserting before the period the following: ", $20,000,000 for the fiscal year ending September 30, 1979, and $20,000,000 for the fiscal year ending September 30, 1980".

SEC. 106. Subsection (b) of section 821 (relating to advanced nurse training programs) is amended by inserting after "for fiscal year 1978" the following: "and for each of the next two fiscal years".

SEC. 107. Subsection (e) of section 822 (relating to nurse practitioner programs) is amended by striking out "for fiscal year 1978" and inserting in lieu thereof "for the fiscal year ending September 30, 1978, and for each of the next two fiscal years".

SEC. 108. Subsection (b) of section 830 (relating to traineeships) is amended by inserting before the period "and for each of the next two fiscal years".

SEC. 109. (a) Subsection (b)(4) of section 835 (relating to loan agreements) is amended by striking out "1978" and inserting in lieu thereof "1980".

(b) Section 837 (relating to authorizations for student loan funds) is amended (1) by inserting before the period in the first sentence "and for each of the next two fiscal years", (2) by striking out "fiscal year 1979 and inserting in lieu thereof "the fiscal year ending September 30, 1981", and (3) by striking out "October 1, 1978" and inserting in lieu thereof "October 1, 1980".

(c)(1) Subsection (a) of section 839 (relating to distribution of assets) is amended by striking out "September 30, 1980, and not later than September 30, 1977" and inserting in lieu thereof "September 30, 1981, and not later than December 30, 1983".

(2) Paragraph (1) of such subsection is amended by striking out "1980" and inserting in lieu thereof "1983".

(3) Subsection (b) of such section is amended by striking out "1980" each place it occurs and inserting in lieu thereof "1983".

SEC. 110. (a) Subsection (b) of section 845 (relating to scholarship grants) is amended (1) by striking out "next two fiscal years" in the first sentence and inserting in lieu thereof "next four fiscal years", (2) by striking out "1979" and inserting in lieu thereof "1981", and (3) by striking out "1978" and inserting in lieu thereof "1980".

(b) Subsection (c)(1) of such section is amended (1) by striking out "next two fiscal years" in subparagraph (A) and inserting in lieu thereof "next four fiscal years", (2) by striking out "1978" in subparagraph (B) and inserting in lieu thereof "1980", and (3) by striking out "1979" in such subparagraph and inserting in lieu thereof "1981".

SEC. 111. Subpart I of part B of title VIII (relating to traineeships) is amended by adding after section 830 the following new section:

"TRAINEESHIPS FOR TRAINING OF NURSE ANESTHETISTS

"SEC. 831. (a)(1) The Secretary may make grants to public or private nonprofit institutions to cover the costs of traineeships for the training, in programs which meet such requirements as the Secretary shall by regulation prescribe and which are accredited by an entity or entities designated by the Commissioner of Education, of licensed, registered nurses to be nurse anesthetists.

"(2) Payments to institutions under this

subsection may be made in advance or by way of reimbursement, and at such intervals and on such conditions, as the Secretary finds necessary. Such payments may be used only for traineeships and shall be limited to such amounts as the Secretary finds necessary to cover the costs of tuition and fees, and a stipend and allowances (including travel and subsistence expenses) for the trainees.

"(b) For the purpose of making grants under subsection (a), there are authorized to be appropriated $2,000,000 for the fiscal year ending September 30, 1979, and $3,000,000 for the fiscal year ending September 30, 1980.".

SEC. 112. Section 836(b)(3) (relating to student loans) is amended (1) by inserting after "(3)" the following: "in the case of a student who received such a loan before the date of enactment of the Nurse Training Amendments of 1978,", and (2) by striking out "any such loan" and inserting in lieu thereof "any such loan made before such date".

SEC. 113. (a) The Secretary of Health, Education, and Welfare (hereinafter in this section referred to as the "Secretary") shall arrange, in accordance with subsection (b), for the conduct of a study to determine the need to continue a specific program of Federal financial support for nursing education, taking into account—

(1) the need for nurses under the present health care delivery system and under that system as it may be changed by the enactment of legislation for national health insurance,

(2) the cost of nursing education, and

(3) the availability of other sources of support for nursing education, including support under general programs of Federal financial support for postseconday education, under State and other public programs, and from private sources.

(b)(1) The Secretary shall first request the National Academy of Sciences (hereinafter in this section referred to as the "Academy"); acting through the Institute of Medicine, to conduct the study, required by subsection (a), under an arrangement whereby the actual expenses incurred by the Academy directly related to the conduct of such study will be paid by the Secretary. If the Academy agrees to such request, the Secretary shall enter into such an agreement with the Academy.

(2) In the Academy declines the Secretary's request to conduct such study under such an arrangement, then the Secretary shall enter into a similar arrangement with another appropriate public or nonprofit private entity to conduct such study.

(3) Upon completion of the study, the entity conducting the study shall report the results of it to the Secretary and shall include in such report any recommendations for legislation which the entity determines are appropriate.

(4) Any arrangement entered into under paragraph (1) or (2) of this subsection for the conduct of a study shall require that such study be completed and reports thereon be submitted within such period as the Secretary may require to meet the requirements of subsection (c).

(c) Not later than October 1, 1979, the Secretary shall report to the Committee on Human Resources of the Senate and the Committee on Interstate and Foreign Commerce of the House of Representatives the results of the study conducted pursuant to subsection (a) together with such recommendations for legislation as the Secretary determines are appropriate.

(d) The authority of the Secretary to enter into any contract for the conduct of the study under this section shall be effective (1) only on and after October 1, 1978, and (2) for any fiscal year only to such extent or in such amounts as are provided in advance in appropriation Acts.

TITLE II—OTHER HEALTH PROFESSIONS PROGRAMS

SEC. 201. Section 729(a) (relating to limits on Federal loan insurance and insured loans) is amended—

(1) by inserting before the period in the first sentence a comma and the following: "except that in the case of loans to students in schools of medicine, osteopathy, and dentistry, the Secretary may increase the total of such loans which may be covered by Federal loan insurance to $15,000 if he determines that the costs of education at such schools requires such increase"; and

(2) by inserting before the period in the second sentence a comma and the following: "except that the Secretary may increase such amount for borrowers who are or were students in schools of medicine, osteopathy, and dentistry to $60,000 if he determines that the costs of education at such schools requires such increase".

SEC. 202. Section 752(b)(5)(A) (relating to service requirements for National Health Service Corps scholarships) is amended by striking out "(not to exceed three years)" and inserting in lieu thereof "(not to exceed three years or such greater period as the Secretary, consistent with the needs of the Corps, may authorize)".

SEC. 203. Section 781(c) (relating to requirements for participation of schools in area health education center programs) is amended by adding after and below paragraph (4) the following:

"The requirement of paragraph (3) shall not apply to a medical or osteopathic school participating in an area health education center program if another such school participating in the same program meets the requirement of that paragraph.".

SEC. 204. Section 802(a) of the Health Professions Educational Assistance Act of 1976 (relating to transitional provisions on area health education centers) is amended—

(1) by striking out "for the next fiscal year" and inserting in lieu thereof "for the next three fiscal years";

(2) by striking out "no payment shall be made to an entity under such a contract" and inserting in lieu thereof "no payment under such a contract shall be made to an entity which had not first entered into such a contract before October 12, 1976, (1)"; and

(3) by inserting before the period at the end thereof the following: ", or (2) for any fiscal year beginning after September 30, 1979".

SEC. 205. For the purpose of awarding grants under section 748 of the Public Health Service Act for the fiscal year ending September 30, 1978, to any school of public health or other institution, the Secretary of Health, Education, and Welfare shall consider an individual who received a traineeship under section 312 of such Act (as in effect on September 30, 1977) for the school year 1977–78 and who is enrolled in such school or institution in the school year with respect to which the grant under such section 748 is to be made to be an individual described in subsection (b)(3) of such section.

SEC. 206. Subparagraph (B) of section 788(e)(2) is amended by striking out "$5,000,000" and inserting in lieu thereof "$10,000,000".

And the House agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 2416) to amend title VIII of the Public Health Service Act to extend for two fiscal years the program of assistance for nurse training, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The House amendment struck out all of the Senate bill after the enacting clause and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House with an amendment which is a substitute for the Senate bill and the House amendment. The differences between the Senate bill, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

FINANCIAL DISTRESS GRANTS FOR HEALTH PROFESSIONS SCHOOLS

The Senate-passed bill contained a provision, not included in the House amendment, which amended section 788(e)(2)(B) of the Public Health Service Act (hereinafter referred to as "the Act") relating to the maximum amount of funds authorized under section 788(e)(1) which may be obligated for financial distress grants for schools of the health professions. The Senate provision increased the amount from $5 million to $10 million in each of fiscal years 1978 and 1979.

The conference substitute conforms to the Senate-passed bill except that the increase in the allocation would also apply in fiscal year 1980.

TRAINEESHIPS FOR TRAINING OF NURSE ANESTHETISTS

The House amendment contained a provision, not included in the Senate-passed bill, which added a new section 831 to the Act authorizing the Secretary of Health, Education, and Welfare (hereinafter referred to as the "Secretary") to make grants to cover the costs of traineeships for the training of nurse anesthetists.

The conference substitute conforms to the House amendment.

The managers recognize the current need for providing support for the training of nurse anesthetists. However, adoption of this grant program at this time is intended to serve only as a short-term mechanism for the provision of financial assistance to these health practitioners. In two years, when this bill expires, it is the managers' intent that this grant program be subjected to the same

review and possible revision as all other nurse training authorities.

STUDY OF FEDERAL SUPPORT FOR NURSING EDUCATION

The House amendment contained a provision, not included in the Senate-passed bill, which required the Secretary to arrange for a study to determine the need to continue a specific program of federal financial support for nursing education. The Secretary was first to request that the National Academy of Sciences, acting through the Institute of Medicine, undertake the study. If the Academy declined the request, the Secretary was to enter into a similar arrangement with another appropriate public or nonprofit private entity to conduct the study. The results of the study were to be submitted to the Secretary who would report such results together with any recommendations for legislation which he determined were appropriate to the Senate Committee on Human Resources and the House Committee on Interstate and Foreign Commerce by October 1, 1979.

The conference substitute conforms to the House amendment except that the results of the study undertaken by the National Academy of Sciences (for other entity in the event the Academy refuses the Secretary's requests) are to include such recommendations for legislation as are determined to be appropriate.

The managers are aware that studies on this same issue are currently under way in both HEW and within the nursing profession. The purpose for authorizing yet another study stems from the managers' awareness of the long-standing—and thus far unresolved—controversy between the nursing profession and the Department of HEW over the need for federal support of nursing education programs. While all available data and recommendations regarding possible revisions to the Nurse Training Act authorities will be considered when this legislation expires, this independent study will be a particularly valuable source of information as it represents an objective assessment of the problem. The results of this study should be of enormous value to the Congress during consideration of the nurse training authorities in the 96th Congress.

It is the managers' intent that the negotiations surrounding the formal agreement between the Secretary and the Academy (or other entity, in the event the Academy declines the Secretary's request) not be protracted. In view of the short time frame within which assessment must be completed, the conferees expect the agreement to be formalized within 60 days from the date of enactment of the proposed legislation, and would urge the two parties to reach agreement within a month of the date of enactment.

AUTHORIZATIONS FOR THE NATIONAL HEALTH SERVICE CORPS

The House amendment contained a provision not included in the Senate-passed bill which would have increased the authorization of appropriations under section 338 of the Act for the National Health Service Corps program from $57 million to $63 million for fiscal year 1979.

The conference substitute conforms to the Senate-passed bill.

HEALTH PROFESSIONS GUARANTEED STUDENT LOAN PROGRAM

The House amendment contained three amendments to the health professions guaranteed student loan program (under Part C of title VII of the Act), not included in the Senate-passed bill. First, the House amendment authorized the Secretary to increase the maximum annual loan to a student in a school of medicine, osteopathy, or dentistry which could be guaranteed under the program from $10,000 to $15,000, if the Secretary determined that the cost of education at such schools required such an increase. Second, the House amendment authorized the Secretary to increase the total amount such students could borrow under the program from $50,000 to $60,000.

The conference substitute conforms to the House amendment.

Third, the House amendment amended the provision which limits the number of students in a school who could participate in the program to not more than 50 percent in each class, to provide that not more than 50 percent of the students enrolled in the school would be eligible to participate.

The conference substitute does not include the provision of the House amendment.

By raising the ceiling on the annual and overall limits on federal loan insurance and insured loans under the health professions guaranteed student loan program, the managers hope to accomplish two objectives: first, we hope to alleviate the problem of inadequate sources of funding faced by some students enrolled in medical schools whose tuition rate has risen beyond the current limits on these loan programs. Secondly, and more importantly, we hope to achieve a more equitable distribution in National Health Service Corps awards throughout the medical schools of this country. Current data suggests that a disproportionate number of these scholarships have been awarded to students enrolled in medical schools where the tuition rates are the highest in the country, simply because no other sources of financial assistance are available to these students. The Congress, however, never intended the NHSC scholarship program to be a vehicle for the subsidization of expensive medical schools. By making these additional loan funds available, we intend for the Secretary to make the awarding of future NHSC scholarships consistent with the objectives of the NHSC program.

DEFERRAL OF SERVICE OBLIGATIONS FOR NATIONAL HEALTH SERVICE CORPS SCHOLARSHIP RECIPIENTS

The House amendment contained a provision not included in the Senate-passed bill which amended section 752(b)(5)(A) of the Act regarding the period of time which the Secretary at the request of a scholarship recipient is required to defer the service obligation of such recipient to enable him to complete an internship, residency, or other advanced clinical training. Existing law limits the period of deferral to a period not to exceed three years. The House amendment authorized the Secretary to extend the period of deferral beyond three years.

Under the conference substitute, the Secretary would be authorized to extend the period of deferral for an individual beyond three years consistent with the needs of the Corps.

AREA HEALTH EDUCATION CENTERS AMENDMENTS

The House amendment contained two amendments with respect to the Area Health Education Centers (AHEC) program which were not included in the Senate-passed bill.

First, the House amendment amended section 781(c) of the Act (relating to requirements for participation of schools in area health education center programs) to provide that if one medical or osteopathic school participating in the program conducted a program for the training of nurse practitioners or physician assistants, any other such participating school would not be required to conduct such a program. Existing law requires each participating medical and osteopathic school to conduct such a program.

The conference substitute conforms to the House amendment.

Second, the House amendment amended section 802(a) of the Health Professions Educational Assistance Act of 1976 (P.L. 94–484) to provide that those AHEC programs which were first funded under section 774 of the Act prior to October 12, 1976 would continue to be eligible for federal support through fiscal year 1981 without meeting the new AHEC requirements of section 781 of the Act as added by P.L. 94–484.

The conference substitute conforms to the House amendment.

TRAINEESHIPS FOR STUDENTS IN SCHOOLS OF PUBLIC HEALTH

Section 748 of the Act as added by Public Law 94–484 requires a school of public health in order to receive a grant to provide traineeships to its students to provide assurances satisfactory to the Secretary that, for school year 1978–79, 45 percent of the grant funds will go to individuals who had previously received a post-baccalaureate degree or had three years of work experience in health services and who were pursuing a course of study in a specified field. The House amendment contained a provision not included in the Senate-passed bill which required the Secretary for the purposes of determining that a school meets the percentage requirement to consider an individual who had received a traineeship for school year 1977–78 under section 312 of the Act (which was superseded by section 748) to be an individual who meets the requirements of new section 748, whether or not such an individual meets the new requirements.

The conference substitute conforms to the House amendment except that it makes it clear that the individual who received a traineeship under section 312 must be enrolled in the institution for school year 1978–79 in order to be eligible to be counted.

The necessity for this amendment grew out of the apparent disregard or at the very least a lack of awareness by a majority of the schools of public health for the provisions contained in P.L. 94–484. Although a two-year interim period was built in between the date of enactment of the Act and the effective date of this provision in order to give the schools sufficient time to make the appropriate adjustments in their enrollment policies, almost 250 students around the country were admitted to schools of public health and awarded traineeships in school year 1977–78 who were destined to be ineligible under the new criteria. Because these students are, in reality, the victims of the school's noncompliance, this amendment authorizes a one-year "grandfather" provision for the affected students. It is not the intent of the managers to enact any similar amendments in the future; accordingly, the schools should conform their admissions policies to the provisions of the law in order to avoid future problems of this nature.

VACATING PROCEEDINGS ON AND RECONSIDERATION OF H.R. 11209, INTERNATIONAL MARITIME TELECOMMUNICATIONS ACT

Mr. STAGGERS. Mr. Speaker, I ask unanimous consent to vacate the proceedings of October 12, 1978, with respect to the bill (H.R. 11209) to provide for the establishment, ownership, operation, and governmental oversight and regulation of international maritime satellite telecommunications services, so that the House may again consider the bill H.R. 11209, the Senate amendment thereto and the House amendment to the Senate amendment.

The SPEAKER. Is there objection to the request of the gentleman from West Virginia?

Mr. BAUMAN. Mr. Speaker, reserving the right to object, the gentleman is just correcting an error? A page was left out?

Mr. STAGGERS. That is correct. There is one page that did not get included.

Mr. BAUMAN. Mr. Speaker, that will happen at this time of the year.

I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from West Virginia.

There was no objection.

Mr. STAGGERS. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the bill (H.R. 11209) to provide for the establishment, ownership, operation, and governmental oversight and regulation of international maritime satellite telecommunications services, with a Senate amendment thereto, and concur in the Senate amendment with an amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment as follows:

Strike out all after the enacting clause and insert: That this Act may be cited as the "International Satellite Telecommunications Act".

SEC. 2. The Communications Act of 1934, as amended (47 U.S.C. 151 et seq.), is further amended by adding at the end thereof the following new title:

"TITLE VII—INTERNATIONAL MARITIME SATELLITE TELECOMMUNICATIONS

"DECLARATION OF POLICY AND PURPOSE

"SEC. 701. (a) The Congress hereby declares that it is the policy of the United States to provide for the participation of the United States in an organization which is established or empowered to develop and operate an international maritime satellite telecommunications system (hereinafter in this title referred to as 'the organization'). Such participation shall be in either the International Maritime Satellite Organization or another international maritime satellite telecommunications organization. Such system shall have facilities and services which will serve maritime commercial and safety needs of the United States and foreign countries.

"(b) It is the purpose of this title to provide that the participation of the United States in the organization specified in subsection (a) of this section shall be through the Communications Satellite Corporation, which constitutes a private entity operating for profit, and which is not an agency or establishment of the Federal Government.

"DEFINITIONS

"SEC. 702. For purposes of this title—

"(1) the term 'common carrier' has the meaning given it in section 3(h) of this Act;

"(2) the term 'corporation' means the Communications Satellite Corporation incorporated on February 1, 1963, under section 301 of the Communications Satellite Act of 1962;

"(3) the term 'satellite earth terminal station' means a complex of communications equipment located on land, operationally interconnected with one or more terrestrial communications systems, and capable of transmitting telecommunications to, or receiving telecommunications from, the space segment;

"(4) the term 'space segment' means any satellite or capacity on a satellite maintained under the authority of the organization, for the purpose of providing international maritime telecommunications services and the tracking, telemetry, command, control, monitoring, and related facilities and equipment required to support the operation of such satellite or capacity;

"(5) the term 'State' means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States; and

"(6) the term 'person' includes an individual, partnership, association, joint stock company, trust, or corporation.

"DESIGNATED OPERATING ENTITY

"SEC. 703. (a)(1) The Communications Satellite Corporation is hereby designated as the sole operating entity of the United States for participation, for the purpose of providing international maritime satellite telecommunications services, in the organization.

"(2) The corporation may participate in and is hereby authorized to sign the operating agreement or other like instruments of the organization as the sole designated operating entity of the United States.

"(b) The corporation—

"(1)(A) subject to the provisions of subsection (d) of this section, shall be the sole owner and operator of any satellite earth terminal station in the United States; and

"(B) shall interconnect such stations, and the maritime satellite telecommunications provided by such stations, with the facilities and services of United States domestic common carriers and international common carriers, other than any common carrier, system, or other entity in which the corporation has any ownership interest, as authorized by the Commission; and

"(2) may establish, own, and operate the United States share of the jointly owned international space segment and associated ancillary facilities.

"(c) The corporation shall be responsible for fulfilling any financial obligation placed upon the corporation as a signatory to the operating agreement or other pertinent instruments, and any other financial obligation which may be placed upon the corporation as the result of a convention or other instrument establishing the organization. The corporation shall be the sole United States representative in the managing body of the organization.

"(d) Any person, including the United States Government or any agency thereof, may be authorized, in accordance with paragraph (1) or (2) of this subsection, to be the sole owner or operator, or both, of any satellite earth terminal station if such station is used for the exclusive purposes of training personnel in the use of equipment associated with the operation and maintenance of such station, or in carrying out experimentation relating to maritime satellite telecommunications services: Provided, That—

"(1) if such person is the United States Government or any agency thereof, such satellite earth terminal station shall have been authorized to operate by the executive department charged with such responsibility; or

"(2) in all other cases, such satellite earth terminal station shall have been authorized by the Commission.

"(e) The Commission shall determine the operational arrangements under which the corporation shall interconnect its satellite earth terminal station facilities and services with United States domestic common carriers and international common carriers, other than any common carrier, system, or other entity in which the corporation has any ownership interest, for the purpose of extending maritime satellite telecommunications services within the United States and beyond. The initial determination shall be made by the Commission no later than 6 months after the date of the enactment of this title, and the Commission shall thereupon transmit to the Congress a report relating to such determination.

"(f) Notwithstanding any provision of State law, the articles of incorporation of the corporation shall provide for the continued ability of the board of directors of the corporation to transact business under such circumstances of national emergency as the President or his delegate may determine would not permit a prompt meeting of the number of directors otherwise required to transact business.

"IMPLEMENTATION OF POLICY

"SEC. 704. (a) The Secretary of Commerce shall—

"(1) exercise such supervision over the corporation as may be necessary to ensure that the activities of the corporation are consistent with the national interest of the United States;

"(2) coordinate the activities of Federal agencies with responsibilities in the field of telecommunications (other than the Commission), so as to ensure that there is full and effective compliance with the provisions of this title;

"(3) take all necessary steps to ensure the availability and appropriate utilization of the telecommunications services provided by the organization for general governmental purposes, except in any case in which a separate telecommunications system is required to meet unique governmental needs or is otherwise in the national interest; and

"(4) exercise his authority in a manner which seeks to obtain coordinated and efficient use of the electromagnetic spectrum and orbital space, and to ensure the technical compatibility of the space segment with existing communications facilities in the United States and in foreign countries.

"(b) The President is authorized to issue instructions to the corporation in connection with its relationships and activities with foreign governments and international entities and other organizations (including the organization) as may be necessary to ensure that such relationships and activities are consistent with the foreign policy of the United States.

"(c) The Commission shall—

"(1) institute such proceedings as may be necessary to carry out the provisions of sections 703(b) and 703(e) of this title;

"(A) the Secretary of Commerce, for the purpose of assisting the Secretary in supervising the corporation pursuant to subsection (a)(1) of this section; and

"(B) the President, to assist the President in his issuance of instructions to the corporation pursuant to subsection (b) of this section;

"(3) grant such authorizations as may be necessary under title II and title III of this Act to enable the corporation—

"(A) to provide to the public, pursuant to section 703(b)(1)(B) of this title, space segment channels of communication obtained from the organization; and

"(B) to construct and operate such satellite earth terminal stations in the United States as may be necessary to provide sufficient access to the space segment;

"(4) establish procedures to provide for the continuing review of the telecommunications activities of the corporation as the United States signatory to the operating agreement or other like instruments; and

"(5) prescribe such rules as may be necessary to carry out the provisions of this title.

"(d) The Commission is authorized to issue such instructions to the corporation with respect to regulatory matters within the jurisdiction of the Commission.

"STUDY OF STRUCTURE AND ACTIVITIES OF COMMUNICATIONS SATELLITE CORPORATION

"SEC. 705. (a) The Commission shall conduct a study of the corporate structure and operating activities of the corporation, with a view toward determining whether any changes are required to insure that the corporation is able to fulfill its obligations and carry out its functions under this title, this Act, and the Communications Satellite Act of 1962.

"(b) The Commission shall transmit a report to the Congress no later than 12 months after the date of the enactment of this title relating to the study of the corporation conducted under subsection (a) of this section. Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the Commission related to such findings and conclusions, and any recommendations of the Commission for such legislative or other action as the Commission considers necessary or appropriate.

"STUDY OF PUBLIC MARITIME COAST STATION SERVICES

"SEC. 706. (a) The Commission shall conduct a study of public maritime coast station services, as that term is defined in 47 CFR Part 81, with particular emphasis on high seas services, with a view toward determining whether the rules and regulations of the Commission and the assignment of licenses and radio frequencies in effect on the date of the enactment of this title should be subject to any alteration in order to establish a systematic approach for the provision of modern and effective maritime telecommunications systems.

"(b) The Commission shall transmit a report to the Congress no later than 18 months after the date of the enactment of this title relating to the study of public maritime coast station services conducted under subsection (a) of this section. Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the Commission related to such findings and conclusions, and any recommendations of the Commission for such legislative or other action as the Commission considers necessary or appropriate.

"STUDY OF RADIO NAVIGATION SYSTEMS

"SEC. 707. (a) The President, in conjunction with Government agencies which will or may be affected by the development of a Government-wide radio navigation plan, shall conduct a study of all Government radio navigation systems to determine the most effective manner of reducing the proliferation and overlap of such systems. The objective of such study shall be the development of such a plan.

"(b) The President shall transmit a report to the Congress no later than 12 months after the date of the enactment of this title relating to the study conducted under subsection (a) of this section. Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the President related to such findings and conclusions, and any recommendations of the President for such legislative or other action as the President considers necessary or appropriate for implementation of a Government-wide radio navigation plan.".

The Clerk read the House amendment to the Senate amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

That the Communications Satellits Act of 1962 is amended by adding at the end thereof the following new title:

"TITLE V—INTERNATIONAL MARITIME SATELLITE TELECOMMUNICATIONS

"SHORT TITLE

"SEC. This title may be cited as the 'International Maritime Satellite Telecommunications Act'.

"DECLARATION OF POLICY AND PURPOSE

"SEC. 502. (a) The Congress hereby declares that it is the policy of the United States to provide for the participation of the United States in the International Maritime Satellite Organization (hereinafter in this title referred to as 'INMARSAT') in order to develop and operate a global maritime satellite telecommunications system. Such system shall have facilities and services which will serve maritime commercial and safety needs of the United States and foreign countries.

"(b) It is the purpose of this title to provide that the participation of the United States in INMARSAT shall be through the Communications Satellite Corporation, which constitutes a private entity operating for profit, and which is not an agency or establishment of the Federal Government.

"DESIGNATED OPERATING ENTITY

"SEC. 503. (a)(1) The Communications Satellite Corporation is hereby designated as the sole operating entity of the United States for participation in INMARSAT, for the purpose of providing international maritime satellite telecommunications services.

"(2) The corporation also shall have authority to participate in any other maritime satellite telecommunications system on an interim basis to serve the maritime commercial and safety needs of the United States through an interim operating arrangement in accordance with subsection (b).

"(3) The corporation may participate in and is hereby authorized to sign the operating agreement or other pertinent instruments of INMARSAT as the sole designated operating entity of the United States.

"(b)(1) The corporation may participate in any maritime satellite telecommunications system under subsection (a)(2) only if—

"(A) the corporation signs the operating agreement of INMARSAT before beginning such participation;

"(B) such participation is in the nature of an interim operating arrangement remaining in effect only until INMARSAT begins its operations; and

"(C)(i) in the case of participation which may be undertaken only pursuant to a treaty or executive agreement, such treaty or executive agreement is in effect; or

"(ii) in any case in which participation does not require any treaty or executive agreement, the President does not disapprove such participation during the period of 60 calendar days after the corporation notifies the President of such proposed participation.

"(2) If the corporation participates in an interim operating arrangement with a maritime satellite telecommunications system under this subsection, the provisions of this title relating to participation of the corporation in INMARSAT also shall apply to such interim participation.

"(3) Any disapproval by the President under paragraph (1)(C)(ii) shall be published in the Federal Register as soon as practicable after the date of such disapproval.

"(c) The corporation—

"(1) may own and operate satellite earth terminal stations in the United States;

"(2) shall interconnect such stations, and the maritime satellite telecommunications provided by such stations, with the facilities and services of United States domestic common carriers and international common carriers, other than any common carrier or other entity in which the corporation has any ownership interest, as authorized by the Commission;

"(3) shall interconnect such stations and the maritime satellite telecommunications provided by such stations, with the facilities and services of private communications systems, unless the Commission finds that such interconnection will not serve the public interest; and

"(4) may establish, own, and operate the United States share of the jointly owned international space segment and associated ancillary facilities.

"(d) The corporation shall be responsible for fulfilling any financial obligation placed upon the corporation as a signatory to the operating agreement or other pertinent instruments, and any other financial obligation which may be placed upon the corporation as the result of a convention or other instrument establishing INMARSAT. The corporation shall be the sole United States representative in the managing body of INMARSAT.

"(e)(1) Any person, including the Federal Government or any agency thereof, may be authorized, in accordance with paragraph (2) or paragraph (3), to be the sole owner or operator, or both, of any satellite earth terminal station if such station is used for the exclusive purposes of training personnel in the use of equipment associated with the operation and maintenance of such station, or in carrying out experimentation relating to maritime satellite telecommunications services.

"(2) If the person referred to in paragraph (1) is the Federal Government or any agency thereof, such satellite earth terminal station shall have been authorized to operate by the executive department charged with such responsibility.

"(3) In any other case, such satellite earth terminal station shall have been authorized by the Commission.

"(f) The Commission may authorize ownership of satellite earth terminal stations by persons other than the corporation at any time the Commission determines that such additional ownership will enhance the provision of maritime satellite services in the public interest.

"(g) The Commission shall determine the operational arrangements under which the corporation shall interconnect its satellite earth terminal station facilities and services with United States domestic common carriers and international common carriers, other than any common carrier, system, or

other entity in which the corporation has any ownership interest, and private communications systems when authorized pursuant to subsection (c)(3) for the purpose of extending maritime satellite telecommunications services within the United States and in other areas. The initial determination of operational arrangements shall be made by the Commission no later than 6 months after the effective date of this title, and the Commission shall thereupon transmit to the Congress a report relating to such determination.

"(h) Notwithstanding any provision of State law, the articles of incorporation of the corporation shall provide for the continued ability of the board of directors of the corporation to transact business under such circumstances of national emergency as the President or his delegate may determine would not permit a prompt meeting of the number of directors otherwise required to transact business.

"IMPLEMENTATION POLICY

"SEC. 504. (a) The Secretary of Commerce shall—

"(1) coordinate the activities of Federal agencies with responsibilities in the field of telecommunications (other than the Commission), so as to ensure that there is full and effective compliance with the provisions of this title;

"(2) take all necessary steps to ensure the availability and appropriate utilization of the maritime satellite telecommunications services provided by Inmarsat for general governmental purposes, except in any case in which a separate telecommunications system is required to meet unique governmental needs or is otherwise required in the national interest;

"(3) exercise his authority in a manner which seeks to obtain coordinated and efficient use of the electromagnetic spectrum and orbital space, and to ensure the technical compatibility of the space segment with existing communications facilities in the United States and in foreign countries; and

"(4) take all necessary steps to determine the interests and needs of the ultimate users of the maritime satellite telecommunications system and to communicate the views of the Federal Government on utilization and user needs to Inmarsat.

"(b) The President shall exercise such supervision over, and issue such instructions to, the corporation in connection with its relationships and activities with foreign governments, international entities, and INMARSAT as may be necessary to ensure that such relationships and activities are consistent with the national interest and foreign policy of the United States.

"(c) The Commission shall—

"(1) institute such proceedings as may be necessary to carry out the provisions of section 503 of this title;

"(2) make recommendations to the President for the purpose of assisting him in his issuance of instructions to the corporation;

"(3) grant such authorizations as may be necessary under title II and title III of the Communications Act of 1934 to enable the corporation—

"(A) to provide to the public, in accordance with section 503(c)(2) of this title, space segment channels of communication obtained from Inmarsat; and

"(B) to construct and operate such satellite earth terminal stations in the United States as may be necessary to provide sufficient access to the space segment;

"(4) grant such other authorizations as may be necessary under title II and title III of the Communications Act of 1934 to carry out the provisions of this title;

"(5) establish procedures to provide for the continuing review of the telecommunications activities of the corporation as the United States signatory to the operating agreement or other pertinent instruments; and

"(6) prescribe such rules as may be necessary to carry out the provisions of this title.

"(d) The Commission is authorized to issue instructions to the corporation with respect to regulatory matters within the jurisdiction of the Commission. In the event an instruction of the Commission conflicts with an instruction of the President pursuant to subsection (b), the instructions issued by the President shall prevail.

"STUDY OF STRUCTURE AND ACTIVITIES OF COMMUNICATIONS SATELLITE CORPORATION

"SEC. 505. (a) The Commission shall conduct a study of the corporate structure and operating activities of the corporation, with a view toward determining whether any changes are required to ensure that the corporation is able to effectively fulfill its obligations and carry out its functions under this Act and the Communications Act of 1934.

"(b) The Commission shall transmit a report to the Congress not later than 18 months after the effective date of this title relating to the study of the corporation conducted under subsection (a). Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the Commission related to such findings and conclusions, and any recommendations of the Commission for such legislative or other action as the Commission considers necessary or appropriate.

"STUDY OF PUBLIC MARITIME COAST STATION SERVICES

"SEC. 506. (a) The Commission shall conduct a study of public maritime coast station services, with particular emphasis on high seas services, with a view toward determining whether the rules and regulations of the Commission and the assignment of licenses and radio frequencies in effect on the effective date of this title should be subject to any alteration in order to establish a systematic approach for the provision of modern and effective maritime telecommunications systems.

"(b) The Commission shall transmit a report to the Congress not later than 12 months after the effective date of this title relating to the study of public maritime coast station services conducted under subsection (a). Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the Commission related to such findings and conclusions, and any recommendations of the Commission for such legislative or other action as the Commission considers necessary or appropriate.

"STUDY OF RADIO NAVIGATION SYSTEMS

"SEC. 507. (a) The President, in conjunction with Government agencies which will or may be affected by the development of a Government-wide radio navigation plan, shall conduct a study of all Government radio navigation systems to determine the most effective manner of reducing the proliferation and overlap of such systems. The objective of such study shall be the development of such a plan.

"(b) The President shall transmit a report to the Congress no later than 12 months after the effective date of this title relating to the study conducted under subsection (a) of this section. Such report shall contain a detailed statement of the findings and conclusions of such study, any action taken by the President related to such findings and conclusions, and any recommendations of the President for such legislation or other action as the President considers necessary or appropriate for implementation of a Government-wide radio navigation plan.

"DEFINITIONS

"SEC. 508. For purposes of this title—

"(1) the term 'person' includes an individual, partnership, association, joint stock company, trust, or corporation;

"(2) the term 'satellite earth terminal station' means a complex of communications equipment located on land, operationally interconnected with one or more terrestrial communications systems, and capable of transmitting telecommunications to, or receiving telecommunications from, the space segment;

"(3) the term 'space segment' means any satellite (or capacity on a satellite) maintained under the authority of INMARSAT, for the purpose of providing international maritime telecommunications services, and tracking, telemetry, command, control, monitoring, and related facilities and equipment required to support the operation of such satellite; and

"(4) the term 'State' means the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.".

The SPEAKER. Is there objection to the request of the gentleman from West Virginia?

There was no objection.

A motion to reconsider was laid on the table.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendments of the House to the bill (S. 3151) entitled "An act to authorize appropriations for the purpose of carrying out the activities of the Department of Justice for fiscal year 1979, and for other purposes."

The message also announced that the Secretary of the Senate be directed to request the House of Representatives to return to the Senate the bill (H.R. 12929) entitled "An act making appropriations for the Departments of Labor, and Health, Education, and Welfare, and related agencies, for the fiscal year ending September 30, 1979, and for other purposes," together with all accompanying papers.

The message also announced that the Senate had passed with amendments in which the concurrence of the House is requested, bills of the House of the following titles:

H.R. 11002. An act to provide for the resolution of claims and disputes relating to Government contracts awarded by executive agencies; and

H.R. 13650. An act to authorize the Secretary of Energy to enter into cooperative agreements with certain States respecting residual radioactive material at existing sites, to provide for the regulation of uranium mill

tailings under the Atomic Energy Act of 1954, and for other purposes.

CONFERENCE REPORT ON S. 995, PREGNANCY DISABILITY

Mr. HAWKINS (on behalf of Mr. PERKINS) filed the following conference report and statement on the Senate bill (S. 995) to amend title VII of the Civil Rights Act of 1964 to prohibit sex discrimination on the basis of pregnancy:

CONFERENCE REPORT (H. REPT. NO. 95–1786)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 995) to amend title VII of the Civil Rights Act of 1964 to prohibit sex discrimination on the basis of pregnancy, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its disagreement to the amendment of the House and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the House amendment insert the following:

That section 701 of the Civil Rights Act of 1964 is amended by adding at the end thereof the following new subsection:

"(k) The terms 'because of sex' or 'on the basis of sex' include, but are not limited to, because of or on the basis of pregnancy, childbirth, or related medical conditions; and women affected by pregnancy, childbirth, or related medical conditions shall be treated the same for all employment-related purposes, including receipt of benefits under fringe benefit programs, as other persons not so affected but similar in their ability or inability to work, and nothing in section 703 (h) of this title shall be interpreted to permit otherwise. This subsection shall not require an employer to pay for health insurance benefits for abortion, except where the life of the mother would be endangered if the fetus were carried to term, or except where medical complications have arisen from an abortion: *Provided*, That nothing herein shall preclude an employer from providing abortion benefits or otherwise affect bargaining agreements in regard to abortion.".

SEC. 2. (a) Except as provided in subsection (b), the amendment made by this Act shall be effective on the date of enactment.

(b) The provisions of the amendment made by the first section ot this Act shall not apply to any fringe benefit program or fund, or insurance program which is in effect on the date of enactment of this Act until 180 days after enactment of this Act.

SEC. 3. Until the expiration of a period of one year from the date of enactment of this Act or, if there is an applicable collective-bargaining agreement in effect on the date of enactment of this Act, until the termination of that agreement, no person who, on the date of enactment of this Act is providing either by direct payment or by making contributions to a fringe benefit fund or insurance program, benefits in violation with this Act shall, in order to come into compliance with this Act, reduce the benefits or the compensation provided any employee on the date of enactment of this Act, either directly or by failing to provide sufficient contributions to a fringe benefit fund or insurance pogram: *Provided*, That where the costs of such benefits on the date of enactment of this Act are apportioned between employers and employees, the payments or contributions required to comply with this Act may be made by employers and employees in the same proportion: *And provided further*, That nothing in this section shall prevent the readjustment of benefits or compensation for reasons unrelated to compliance with this Act.

And the House agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 995) to amend title VII of the Civil Rights Act of 1964 to prohibit sex discrimination on the basis of pregnancy, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The House amendment to the text of the bill struck out all of the Senate bill after the enacting clause and inserted a substitute text.

The Senate recedes from its disagreement to the amendment of the House to the text of the bill with an amendment which is a substitute for the Senate bill and the House amendment. The differences between the Senate bill, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

AMENDMENTS TO CIVIL RIGHTS ACT OF 1964

Senate bill

The Senate bill amended section 701 of the Civil Rights Act of 1964 by adding a new subsection (k) which broadens the definition of sex discrimination in the Act to include discrimination on the basis of pregnancy, childbirth, or related medical conditions. It also made clear that fringe benefit programs must treat women affected by these conditions equally to other employees on the basis of their ability or inability to work; and that nothing in section 703(h) of the Act may be interpreted to permit otherwise.

House amendment

The House amendment was the same as the Senate bill, except that the House amendment included a provision allowing employers to deny health, disability, and sick leave benefits for abortion, except where the life of the mother would be endangered if the fetus were carried to term. The House amendment also expressly permitted employers to provide abortion benefits, and bargaining agreements providing abortion benefits were preserved by the House amendment.

Conference substitute

The Senate recedes with an amendment. The amendment contained in the conference substitute retains the provisions of the Senate bill which add a new subsection (k) to section 701 of the Civil Rights Act of 1964. The amendment provides that this new subsection shall not require an employer to pay for health insurance benefits for abortion, except where the life of the mother would be endangered if the fetus were carried to term, or except where medical complications have arisen from an abortion; provided that nothing in the subsection shall preclude an employer from providing abortion benefits or otherwise affect bargaining agreements in regard to abortion.

Because the conference substitute applies to all situations in which women are "affected by pregnancy, childbirth, and related medical conditions," its basic language covers decisions by women who chose to terminate their pregnancies. Thus, no employer may, for example, fire or refuse to hire a woman simply because she has exercised her right to have an abortion.

The exclusion of abortion benefits from the conference substitute is intended to be limited to benefits for the abortion itself. If a woman suffers complications from an abortion, medical payments and disability or sick leave benefits for the treatment of the complications would be covered.

EFFECTIVE DATE

Senate bill

The Senate bill specified an immediate effective date for the prohibition of discrimination on the basis of pregnancy, childbirth, or related medical conditions. The Senate bill also specified an effective date of 180 days after the date of enactment for the receipt of equal benefits under fringe benefit programs.

House amendment

The House amendment was the same as the Senate bill.

Conference substitute

The conference substitute contains the provisions of the Senate bill.

REDUCTION OF BENEFITS

Senate bill

The Senate bill prohibited the reduction of benefits as means of compliance with the Act for a period of 1 year after the date of enactment, or until the expiration of any applicable collective bargaining agreement. The Senate bill also made clear the fact that the cost of increasing benefits may be apportioned between employers and employees, if present costs are apportioned, and that benefits may be reduced at any time for reasons other than compliance with this legislation.

House amendment

The House amendment was the same as the Senate bill.

Conference substitute

The conference substitute contains the provisions of the Senate bill.

IN THE MATTER OF REPRESENTATIVE JOHN J. McFALL

Mr. FLYNT. Mr. Speaker, I offer a privileged resolution (H. Res. 1415) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 1415

Resolved, That the House of Representatives adopt the Report by the Committee on Standards of Official Conduct dated October 6, 1978. In the Matter of Representative JOHN J. McFALL of California.

The SPEAKER. The gentleman from Georgia (Mr. FLYNT) is recognized for 1 hour.

Mr. FLYNT. Mr. Speaker, for the purposes of debate only, I yield 20 minutes to the gentleman from South Carolina (Mr. SPENCE) and also for the purposes of debate only, I yield 20 minutes to the gentleman from California (Mr. McFALL) and pending that I yield myself such time as I may consume.

The SPEAKER. The gentleman is recognized.

Mr. FLYNT. Mr. Speaker, this resolution relates to the matter of Representative JOHN J. McFALL, a Representative from the State of California.

On the basis of evidence which has been gathered by the committee, and which is set forth in length in the committee report accompanying this resolution, and which had been painstakingly reviewed by the committee in open session, the committee filed a Statement of Alleged Violation against Mr. McFALL on July 12 of this year. The Statement of Alleged Violation contained three counts. After Mr. McFALL's lawyer received full discovery of materials relevant to his case, after hearing arguments from Mr. McFALL's attorney in support of a motion to dismiss the charges, and after hearing from Mr. McFALL himself, the committee voted to hold a public hearing to resolve the charges. At the hearing, Mr. McFALL was ably represented by counsel, was permitted, through counsel, to cross examine witnesses called by the staff and was permitted to subpena, and in fact did subpena, witnesses to testify on his behalf.

After the close of the hearing, and after receiving both written and oral arguments from counsel on both sides, the committee determined, by a vote of 8 to 3, that one of the three counts in the Statement of Alleged Violation had been sustained by clear and convincing evidence. The committee decided, in its findings of fact, that Mr. McFALL did receive a $3,000 campaign contribution from Mr. Tongsun Park in October 1974 which he did not report as a campaign contribution as the law in existence at that time required. The committee found that the other two charges were not sustained.

The committee then voted, 8 to 3, that Mr. McFALL should be reprimanded and that the adoption of this report shall constitute such reprimand. The facts relating both to the count which was sustained and the counts which were not sustained are clearly and succinctly set forth in the report and in the sworn testimony. Summaries of those facts prepared by the special staff and by the attorneys for Representative McFALL, are contained in appendices A and B of this report.

The testimony that this $3,000 was a campaign contribution is made clear by the testimony of him who gave it and the testimony of him who received it and by the testimony of him on whose behalf it was received.

Mr. Ray Barnes, at that time administrative assistant to Mr. McFALL, on one of his later appearances before the committee told the committee that he had requested from the messenger of Mr. Park, one John Gibbons, permission to change this from a contribution in the nature of a campaign contribution and asked if it could be used in Mr. McFALL's then existing office account.

Mr. John Gibbons of whom Mr. Ray Barnes testified he had asked that question, testified that he had no recollection of Mr. Ray Barnes or of anyone else, either directly or indirectly, asking him for permission to change the nature of the campaign contribution.

Mr. Ray Barnes then subsequently testified that perhaps he had talked with somebody else in the office of Mr. Tongsun Park and of Mr. John Gibbons, but no such person's name was ever given to the committee, and no such person was ever brought to testify that this was other than a campaign contribution, and that Mr. McFALL and Mr. Ray Barnes assumed that they had the right to change the nature of the contribution from that which the donor intended, as clearly expressed by a note in writing, saying, "Good luck in your campaign," or "Good luck in the upcoming election," or words to that effect.

Let me say, Mr. Speaker, that the committee found that the allegations in Count 1 had been sustained.

Mr. Speaker, let me say that JACK McFALL is a man with whom I have served in this body for most of my service here and for all of his service here. He is a man with whom I proudly served on the Committee on Appropriations of the House of Representatives, and a man next to whom I sat on the Subcommittee on Defense of the Committee on Appropriations. Let me say that I consider JACK McFALL the same good friend of mine that he has always been during the period of our service. I commend him for his services to his district, to his State, and to our Nation, which we both love. However, if campaign expenditure reporting acts of the United States of America are going to mean anything, Mr. Speaker, I submit that it is the responsibility of those who receive them to report them, to turn them back, or to get clear and unmistakable authority from him who gave them to change them from the nature of a campaign contribution.

In asking the House of Representatives to sustain the recommendations of this committee, let me say clearly, as Mr. McFALL has said so many times, that he appreciates the fact that the committee itself dismissed the two charges which would have reflected adversely on his honor, his honesty, and his integrity. The committee found, by a majority vote, that the last two charges had not been sustained. The committee found, by a vote of 8 to 3, that the charges contained in the statement of alleged violations in count 1 had been sustained by clear and convincing evidence.

Mr. Speaker, based upon the testimony which appears in the report, which, if necessary, I could relate by chapter and verse, paragraph and line here today, but for reasons of compassion I choose not to do so, Mr. Speaker, I ask that the House of Representatives sustain the Committee on Standards of Official Conduct in the recommendation that Mr. McFALL, the respondent in this matter, be reprimanded and that by the adoption of this resolution, the reprimand be considered as having been administered.

Mr. Speaker, I reserve the balance of my time.

The SPEAKER. The Chair recognizes the gentleman from South Carolina (Mr. SPENCE).

Mr. SPENCE. I yield myself 3 minutes.

Mr. Speaker, as I have said before, this is not an easy task. We did not ask for this job, but it has to be done. We spent months and months and months compiling the evidence which is contained within this publication. We did not expect today to come before the Members and lay all of this out. We simply do not have the time, and I doubt very seriously if many would be here to hear it. We have had public hearings open for anyone to come and spend as much time as he or she wanted to obtain the answers to any of these questions that you may now have. The evidence is here in this report for all of you to read.

As I stated earlier, our decisions have been based on the facts contained within these reports. I believe the facts compel the conclusion reached by eight members of our committee that the gentleman from California (Mr. McFALL) received $3,000 as a cash campaign contribution from Tongsun Park in October 1974, and he did not report this as the law requires. We find that the gentleman from California (Mr. McFALL) has conducted himself in a manner which did not reflect creditably on the House of Representatives and is, therefore, guilty of a violation of rule 1 of the Code of Conduct.

The SPEAKER. The Chair recognizes the gentleman from California (Mr. McFALL) for 20 minutes.

Mr. McFALL. Mr. Speaker, today the Members of this House are asked to consider the recommendation of the Com-

mittee on Standards of Official Conduct that I receive a reprimand for failing to report a campaign contribution.

The committee—after an investigation that began February 9, 1977—has made its determination that a $3,000 donation to me from Tongsun Park constituted a campaign contribution for which I was bound by the Federal Election Campaign Act to report—rather than a donation to my office account, which I was not required to report.

It is this finding of the committee that forms the basis for its bringing a recommendation for reprimand.

The violation of statute as cited by the committee is a civil violation—one that heretofore has been adjudicated administratively by the Federal Election Commission.

Nevertheless, I am ready to accept the decision of the House.

Each of us who serve in the Congress has been chosen by the people to be the lawmakers for all.

As you and every other individual in our country, I am required to abide by the laws we make.

Consequently, I accept full responsibility for any violation by me of any law or rule of this House.

Throughout the past 2 years that the news media, then the Department of Justice, and subsequently the Committee on Standards of Official Conduct have been investigating the Korean matter, I have been forthright and candid with them and the people I am privileged to serve. Voluntarily and readily, I have provided all information, files and related documents, and answered any and all questions that would assist in arriving at the truth.

I know first hand the degree to which the committee has diligently pursued its directive under House Resolution 252.

As I stated to the committee in open hearing and to my constituents many times, I welcomed the investigation and the opportunity it provided me to place the record in full view for all to examine and judge.

Following its lengthy investigation, the committee has judged me innocent of involvement in any situation of real or apparent influence in the performance of my governmental duties.

Furthermore, it has judged me innocent of misusing funds donated to me for my office account.

In this regard, the committee has affirmed my honesty and integrity, and has rejected any allegation that I participated in any situation involving improper influence.

For this I am grateful.

The committee, however, has decided that a $3,000 donation should have been reported as a campaign contribution.

It should be borne in mind that the $3,000 had been legally and properly placed in my office account, whether or not it had been reported as a campaign contribution.

As the evidence showed, there was confusion in 1974 in the interpretation of the campaign law on this point. Whether or not the donation was in fact a reportable campaign contribution is a question about which reasonable men and women can—and still do—disagree. However, after lengthy deliberations the committee resolved this legal question against me.

The committee decided that I made a mistake, even though I believed at the time that my actions were in full compliance with the law and rules of the House.

I am thankful that in 1978, the Congress has clearer laws and regulations to guide us all in the handling of contributions. These rules will protect all candidates and help to assure confidence in our electoral system.

I accept their determination that I made a mistake, and say to you and the people I represent that I am sincerely sorry for having made it.

I respect this House, and hold the trust of the people in me to be the highest honor that can be bestowed by one person upon another.

I look to the future in the hope that I can continue to serve the people and this House.

Mr. Speaker, I yield such time as he may consume to the gentleman from California (Mr. SISK).

Mr. SISK. Mr. Speaker, I thank my colleague for yielding.

Mr. Speaker, I take this time and I will try to make this very brief, but I want to say this, that there is no Member of this House that I hold in higher regard than I do JOHN MCFALL. JOHN and I have served side by side in the great valley of California for 22 years. I have been here 24 years.

I first met JOHN in 1956. We represent almost identical interests. Having observed my colleagues in California and in the kind of jobs they are doing, I simply want the RECORD to show that as one who has represented an adjoining district and has dealt day in and day out, year in and year out, with the same people that JOHN MCFALL has dealt with, that his integrity has been beyond question in dealing with those people. He has represented that district in a superlative manner. In fact, in my opinion, no district in this Nation has received more full, more complete attenion, than that which JOHN has rendered to the people of Stanislaus and San Joaquin Counties and what is now a part of my district, Merced County.

I sat in many meetings. I have been in positions where he and I were under great pressure. I am here to say simply, Mr. Speaker, on this occasion, irrespective of what this committee may have found or what the charges may have been, that I am firmly convinced in my own mind that JOHN MCFALL did that which he believed to be the honorable thing.

In my own experience, he has never varied from the truth or from the integrity on which I think he sets a very high standard.

So, Mr. Speaker, as one who has lived very close to JOHN, his good wife, and his family, I want to say that I do not buy for 1 minute this interpretation. And here I am not indicting my good friend, the gentleman from Georgia (Mr. FLYNT) with whom I have served throughout my 24 years in Congress. He knows the high respect in which I hold him.

But I have had an opportunity to read the report which the committee has been kind enough to make available to me, and I am completely and thoroughly convinced that Mr. MCFALL conducted himself beyond reproach, and at no point and at no time did he feel that he was being dishonest, not only with the people of his district but with the Members of the House.

So I for one want to commend him on the outstanding job he has done, and certainly my hope and my prayer is that the people of his district see fit to return him because of the high quality and the outstanding service that he has rendered.

Mr. ECKHARDT. Mr. Speaker, will the gentleman yield?

Mr. SISK. I yield to my colleague, the gentleman from Texas.

Mr. ECKHARDT. Mr. Speaker, I have not heard in this discussion from the committee any refutation of the proposition that the funds received were used in fact in the office account. I have not heard anything that would refute that proposition.

I would ask if perhaps the gentleman would yield to the chairman of the committee to confirm that proposition.

Mr. FLYNT. Mr. Speaker, will the gentleman yield?

Mr. SISK. I yield to my colleague, the gentleman from Georgia.

Mr. FLYNT. Mr. Speaker, I will respond to the question of the gentleman from Texas (Mr. ECKHARDT) by saying, as I said in my earlier statement, that this $3,000 was delivered on behalf of Tongsun Park by John Gibbons in an envelope with a note saying, "Good luck in your campaign" or "Good luck in the election" or words to that effect.

Let me tell the Members, if the gentleman will yield further—and if he needs more time, I can give it to him—the reason why I say, "Good luck in your campaign" or "Good luck in the election" or, quoting myself, "words to that effect" is because after this election got started, that note was destroyed.

Let me further answer the gentleman from Texas (Mr. ECKHARDT) by saying that Ray Barnes, acting in behalf of JOHN MCFALL, told the investigators on his fifth appearance before them, not during his first, not during his second, not during his third, and not during his fourth appearance before the committee and the committee staff—and I say this was the committee and committee staff both—but on the fifth time that he appeared before his committee that he asked John Gibbons for permission to convert it or change it from a campaign contribution, which everybody conceded it was, a campaign contribution which had to be reported, and to use it in his

office account, which did not have to be reported.

Now, if the gentleman will yield further, let me tell him what happened after that.

Mr. ECKHARDT. Mr. Speaker, would the gentleman first yield to me for just a moment?

Mr. SISK. I yield to the gentleman from Texas.

Mr. ECKHARDT. Mr. Speaker, I was not really raising a question about the committee's determination on that point. The only thing I had asked was if there was any evidence whatsoever that the money was not in fact deposited in the office account and expended properly through the office account. That is the only question I had.

Mr. FLYNT. All right, I will answer that question, if the gentleman will yield further.

Let me say this: this contribution, for whatever purpose it came, did not come in dribbles; it came in one lump cash sum of $3,000.

But how was it deposited, and how was it used? It was deposited, $500, $500, $500 all on different dates, then $500 more, and $500 more, and then $300. Now, what happened to the other $200, I do not know.

Mr. ECKHARDT. In what account?

Mr. FLYNT. I do not recall. And at that time the gentleman knows that there was no accounting to anybody in Government, in the House, or on the face of the Earth except the Member's own conscience for what he did with those office accounts, which the House of Representatives in its good judgment has outlawed.

I just wish that this committee had undertaken to outlaw them long before they were.

Mr. McFALL. Mr. Speaker, will the gentleman yield to me?

Mr. SISK. If I can make one more comment, then I certainly will yield to the gentleman.

Mr. Speaker, let me just say, as I said to my good friend, the gentleman from Georgia, I am not indicting the gentleman, nor am I indicting the committee. I appreciate the courage of my colleague, the gentleman from California (Mr. McFALL) and the committee on the fact that they did dismiss several of the charges. I think the gentleman knows my regard for him.

Mr. FLYNT. And if the gentleman will yield, the gentleman from California (Mr. McFALL) knows my regard for him.

Mr. SISK. I know that.

I simply took the floor on this occasion to verify, after 22 years of close association in all variety of circumstances and cases, the honesty and the integrity of my good friend, JOHN McFALL.

Mr. Speaker, let me just close my remarks—and then I will yield to you, JOHN—on the statement that, if my colleague, the gentleman from Georgia (Mr. FLYNT), and others, will remember, during the late 1960's and early 1970's there was lots of talk about office accounts. Some people had offices accounts. Some people did not. I happen to never have had an office account. I had a little discussion with a competitor of mine one time, who I unseated, by the way, because he had one, and I criticized the ethics of his office account. But again, it was totally legal. And, so far as that goes, it was generally concluded to be ethical. And I think in 1974 we came to that period of time during which really I think there is a gray area there. Let me say that I am not here to indict or condemn the committee. I recognize the terrible responsibility and the job that my colleagues, the gentleman from North Carolina (FLOYD SPENCE), and the gentleman from Georgia (JACK FLYNT), have. It is a job I would not want. Thank God, you fellows have got it and I have not. So I do not want my colleagues to infer that this is critical. But I simply wanted to verify, because I think no one knows JOHN much better than I do.

JOHN, I yield to you for any further comment you want to make.

Mr. McFALL. Mr. Speaker I thank my colleague for yielding.

I just want to answer the question asked by the gentleman from Texas (Mr. ECKHARDT). No, this money was not used for campaign purposes. It was placed in the office account and used for proper purposes, for my office account.

No. 2, with reference to the comment made by the gentleman from Georgia, there was in existence a law passed by the House in October 1974, the Campaign Act of 1974, which required the Federal Elections Commission to make rules and regulations concerning the reporting of office accounts. So there was a law in existence at that time. I just wanted the record to show that.

Mr. SISK. Mr. Speaker, I yield back the balance of my time.

Mr. SPENCE. Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. CAPUTO).

Mr. CAPUTO. I thank the gentleman for yielding.

Mr. Speaker, I just wanted to talk briefly on the question of the use of money that was given to Mr. McFALL for campaign purposes but was put in an office account.

If you turn to exhibit M15, on page 403 of your committee report, there is a copy of the ledger of that office account, and you will see there that there were several interest-free loans to Mr. McFALL, to members of his staff, and to members of his family. The total amount loaned was $6,600. Perhaps most pertinent to this case is a loan to Mr. McFALL from the office account of $1,500 shortly after the last installment of Mr. Park's contribution was put into the account. As indicated, that loan was used to finance the purchase of an auto for Mr. McFALL's daughter so that she would not have to pay higher interest rates. The loan was interest free.

Mr. McFALL. Mr. Speaker, would the gentleman yield?

Mr. CAPUTO. Yes, sir.

Mr. McFALL. You know, the gentleman is citing evidence in the charge that was rejected by the committee.

Mr. CAPUTO. I am referring to an exhibit.

Mr. McFALL. You are referring to an exhibit. You are also referring to a charge that was rejected by the committee. Does the gentleman from New York consider that fair and relevant?

Mr. CAPUTO. I think, without raising a new charge against you, would not be fair and not be relevant. But I am referring to an exhibit, not a new charge. It seems to me this point at this——

Mr. McFALL. If the gentleman would yield, there are a lot of exhibits in there that have to do with the two charges that were rejected by the committee.

Mr. CAPUTO. I will be happy to yield a little further. Let me just finish my point. I think the exhibit is relevant and fair because the central issue was—since you conceded that you got a campaign contribution and put it into an office account—what you did with the money after it got in the office account.

If I were convinced that you had used it for congressional purposes, I might have a different view of this case. But I think the exhibit tends to show that you used it for noncongressional purposes, that indeed you used it for personal purposes.

Mr. McFALL. Will the gentleman yield again?

Mr. CAPUTO. Yes, sir.

Mr. McFALL. Did not the committee charge me with conversion of the funds and improperly borrowing it from the account, and was that not rejected by the committee?

Mr. CAPUTO. That is right.

Mr. McFALL. And does it now become relevant to cite all this evidence of a charge which has been rejected by the committee?

Mr. CAPUTO. I was trying to pursue——

Mr. McFALL. The gentleman is a lawyer. Does he think that the court would allow him to make that kind of a statement to the jury about evidence that had been rejected?

Mr. CAPUTO. We have questions there.

Mr. FLYNT. Mr. Speaker, will the gentleman yield to me at that point?

Mr. CAPUTO. OK.

Mr. FLYNT. Let me say, Mr. Speaker, let me say in all fairness and objectivity, that on the time—neither on the time of Mr. SPENCE nor on my time—was the question of how this office account money was used brought up. As a matter of fact, if Mr. Speaker will recall, the Chair stated, the chairman of this committee stated in the well of this House that he was not going to relate all of the evidence relating even to count one, and that he was going to do so out of compassion and out of an effort, an objective effort, to be as fair about this thing as is humanly possible, but when questions were asked that allows the chairman of this committee to respond to, the chairman of this committee felt compelled to respond.

The SPEAKER. The time of the gentleman from New York has again expired.

Mr. FLYNT. Mr. Speaker, I yield 2 additional minutes to the gentleman from New York.

Mr. CAPUTO. I would like to respond to the questions that were put to me. I continue to think exhibit M15 is relevant and probably would be admissible as probative of the motive you had in failing to report that as a campaign contribution. I feel further that we are not in a court of law and not bound by the rules of evidence.

It seems the thread of the discussion was this: assuming you used a campaign contribution for your office account, could not that be excused because it is used for legitimate congressional purposes. I do not know about office accounts, but I understand they were used for mailings to constituents and for transportation to see constituents, and although that is not a campaign purpose it is quite arguably a totally ethical purpose.

It is relevant therefore to show that there is some rather specific evidence that you used the Park money not for a campaign purpose and also not for a congressional purpose, but for personal purpose. It is precisely on that point, your personal use of the money from Tongsun Park, that I think the reprimand lies.

Mr. McFALL. Will the gentleman yield?

Mr. CAPUTO. I yield.

Mr. McFALL. The gentleman's point was rejected by the committee by a vote of 9 to 2. Under what kind of reasoning does he bring it up when he—and I will not say who voted, but I assume the gentleman did, and his position was rejected 9 to 2. If the gentleman had been at the hearings—which he was not—he would have known that the law was changed effective January 1, 1975, which said that leftover campaign funds put into an office account could be used for any lawful purpose, and that was undoubtedly the reason that this charge was rejected by a vote of 9 to 2.

And so, what you do is, you bring up evidence of a charge that is completely rejected by your committee, and it seems to me that it bears every resemblance of an attempt at a political smear.

Mr. CAPUTO. I will say to the gentleman from California (Mr. McFALL), I am sorry he reacts that way. It is not my intention to make a politically discrediting comment. I do have the right in front of the full House to bring up any charge that was rejected by the committee. I elected not to do that. It was the gentleman from Texas (Mr. ECKHARDT) who brought up the charge.

The SPEAKER. The time of the gentleman from New York has expired.

Mr. CAPUTO. Mr. Speaker, may I have 1 additional minute?

Mr. SPENCE. I yield the gentleman 1 additional minute.

Mr. ECKHARDT. Mr. Speaker, the gentleman from New York has used my name. Will he yield to me?

Mr. CAPUTO. I do not have the time and I will not yield.

Mr. ECKHARDT. Whoever has the time, will he yield?

Mr. CAPUTO. I will not yield.

It seems to me the gravamen of the charge is whether or not the gentleman acted with judgment that reflects creditably on the House when he received $3,000 from a man of questionable reputation as a campaign contribution and then put that money in an office account, both of which were probably legal actions, but then elected to use the money for an obviously personal expenditure.

We have some direct evidence on how that money in this office account was used. It was used for a patently personal purpose. That may have been the motive for jailing to report the contribution and therein may lie the basis for reprimand.

I am not introducing a new charge. Let us not go over that again. I am not trying to go beyond the scope of this charge. I address evidence of why the gentleman might have failed to report a campaign contribution.

Mr. SPENCE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. FLYNT. Mr. Speaker, I promised to yield 2 minutes to the gentleman from Massachusetts (Mr. BURKE), and I do so for purposes of debate only.

Mr. BURKE of Massachusetts. Mr. Speaker, this is a really troublesome problem to most of the Members of this House. I have been in legislative service a long time. I served 10 years in the Massachusetts legislature and 20 years in the U.S. Congress.

What we are dealing with here today is the reputation of three Members of the U.S. Congress. I do not think there is anything nearer or dearer to any person than his own reputation. I voted "no" on the first proposal here, and I intend to vote "no" on this proposal and the next one, because what we are dealing with here is hearsay evidence.

I recall back a short time ago when I was the only Member of the House who voted "present" on the acceptance of a committee report that dealt with a Member of this House, and I was scorched in the newspapers. I was attacked all over the area. In fact, a political huckster in my district from California spread my picture on a political circular with the names of three people who were indicted and convicted and he said: "We have to fight corruption."

But the reason I voted against that was because we had no report before the House. I went to the back of the House Chamber and asked for a copy of the report and they were tied up in bundles. We had 15 minutes before we would vote. I untied one of those bundles and got a report. It contained over 546 pages. One could not digest that report in 3 weeks if he wanted to, and yet we were asked to vote in 15 minutes on the acceptance of that report, and I voted "present."

And I intend to vote "no" today because this is no court of law. We are not operating under the rules of evidence. I am not a lawyer, but I have studied the rules of evidence and I know about the laws of searches and seizures and the rest are and what the constitutional rights of a citizen are.

I say when we deal with a man's reputation here that we have a real obligation. I know there are some Members of this House that want to be on record as being opposed to sin. I know a lot of people who would like to vote against this proposal.

The SPEAKER. The time of the gentleman from Massachusetts has expired.

Mr. FLYNT. Mr. Speaker, I yield the gentleman from Massachusetts 1 additional minute.

Mr. BURKE of Massachuetts. I am retiring this year, but I go back several years ago when I voted against the expulsion of a Member from New York City, and I was scorched for that. But the U.S. Supreme Court upheld my vote at that time.

I do not think this is the place to discuss these problems. We have in the Government the courts, and the executive branch and the legislative branch. We are here to make the laws, and if the law is broken then let it be taken into the proper arena, right into the courts. That is where it should be and not before this House here 3 weeks before an election when every Member here that is running for election is concerned with the image he creates back home.

I voted "present" just a few weeks before a primary the last time because I felt we had no evidence before us, and who has any evidence here today? It is just hearsay. That is what it is.

I think we should vote the right way and protect the reputations of these men who are charged here today. I think it is grossly unfair and I think it is unfair to the gentleman from New York who brings here an exhibit which I believe is a smear on the reputation of the gentleman from California.

I think it is grossly unfair to do it, despite what the news media say. I think we ought to have the courage to vote on the matter when we have the evidence before us. We do not have evidence. We have only hearsay evidence before us.

I do not believe it is a fair way to handle the reputations of Members of the U.S. Congress,

Mr. FLYNT. Mr. Speaker, for the purpose of debate only, I yield 3 minutes to the gentleman from Alabama (Mr. FLOWERS), a member of the committee.

Mr. FLOWERS. I thank the chairman, the gentleman from Georgia (Mr. FLYNT) for yielding me this time.

I do not really have a lot to offer, but it seems to me like in all of these proceedings today that the central issue is whether we are going to continue to operate with a Committee on Standards of Official Conduct made up of Members in whom, I hope, we have trust. I occupied a seat on the Committee this year, not by choice, and the Speaker of the House knows that better than anybody else because he volunteered me for the assignment. But the gentleman from Georgia (Mr. FLYNT) is deserving of the best wishes, the warm respect and the grateful appreciation of every one of us in this House today. And we ought to be, everyone of us, thanking our lucky stars that we did not have to do the job that he has had to do these last 2 years. Because, let me tell you, it has

been a labor of hard and tedious work, and there was not any love in it at all for him or any of us.

Do you think that he has enjoyed for 1 minute having to pour over, on a daily basis, these things? There is no fun in it. There is no fun in it for any of us.

We have had disagreements on the Ethics Committee. Some of us do not agree with some of the tactics of others, and maybe you may not agree with me. I do not know. But let me say this, in the last couple of months I did not have time to participate as fully as I did in the first year and a half, but there were untold hours spent by these committee Members, untold hours spent unselfishly where the central purpose on everybody's mind was to protect the Members by being fair and impartial and yet protect the public interest, too.

What do you expect us to do? I have the greatest respect for the gentleman from Massachusetts and, Lord knows, I love the gentleman from California and the other gentlemen from California, and everybody who has had their name roasted in the press—my name even got in the press on this because I went to one silly party that Tongsun Park gave, and I became one of the 115, as many other Members are. However, the issue is whether you want to let the Ethics Committee or the Standards Committee operate as it has in the past.

There is no way on God's green earth you can haul in here and stack up 50,000 pages of testimony and have the trial carried on here in the House Chamber.

Do you want to do that? No, you want to adjourn this year. You can do what we have done these last 2 years, you can find seats on the committee, because somebody is going to have the opportunity of taking my place next year, and I doubt if there will be very many volunteers, Mr. Speaker, but, just think of what we have tried to do, we have tried to be fair.

The gentleman from Georgia (Mr. FLYNT) is one of the fairest minded men I have ever known in my life. I commend him from the bottom of my heart for his labors because he has worked hard and diligently and I know his interest is in the individual reputations of the Members and in serving the public.

That is why I am standing up, Mr. Chairman, is to thank you on behalf of WALTER FLOWERS for being the man that you are.

I think we are trying to be fair here. If there is a light stroke being administered by the chairman in presenting these charges, or the ranking member—and, incidentally, I would like to reiterate everything that I have said about the chairman to the ranking member of the committee, the gentleman from South Carolina.

FLOYD, you have done a highly commendable job in working in tandem. However, if there has been a light stroke administered, it is because that is the way they want to do it. They are not in here to make out the worst case possible against these Members, because we do not feel that it is substantiated by the evidence. I think the people charged understand that.

If we were down here as prosecuting attorneys, there would be a different scene in this Chamber today. We are not looking for anybody's blood. We are trying to present a fair, moderate, middle-of-the-road case which we think represents a reasonable approach by reasonable people on the Committee on Standards of Official Conduct, and I think the House ought to accept it.

Mr. Speaker, I intend to vote "aye" myself.

Mr. FLYNT. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Mr. ECKHARDT) for purposes of debate only.

Mr. ECKHARDT. Mr. Speaker, I was only trying to establish what the committee found. I do not reflect on their findings. I accepted them on the last vote, and I intend to accept them on this one.

However, as I understand, the committee found that there was no evidence to sustain misuse of the funds which Mr. MCFALL used for his office fund. Therefore, we must conclude on the committee's own finding that those funds were used properly.

My other question was whether or not the money actually went to the office fund, and I understand the answer was yes.

That is all I sought to find out.

Mr. FLYNT. Mr. Speaker, I have no further requests for time.

Mr. SPENCE. Mr. Speaker, I have no further requests for time.

Mr. MCFALL. Mr. Speaker, I have no further requests for time.

Mr. FLYNT. Mr. Speaker, I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

IN THE MATTER OF REPRESENTATIVE EDWARD R. ROYBAL

Mr. FLYNT. Mr. Speaker, I offer a privileged resolution (H. Res. 1416) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 1416

Resolved, That Representative EDWARD R. ROYBAL be censured and that the House of Representatives adopt the Report of the Committee on Standards of Official Conduct dated October 6, 1978, In the matter of Representative EDWARD R. ROYBAL.

IN THE MATTER OF REPRESENTATIVE EDWARD R. ROYBAL

Mr. FLYNT. Mr. Speaker, I offer a privileged resolution (H. Res. 1416) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

PARLIAMENTARY INQUIRY

Mr. ASHBROOK. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state his parliamentary inquiry.

Mr. ASHBROOK. Mr. Speaker, my parliamentary inquiry is directed toward the rules and the precedents of the House. I would propound a question to the Chair in my parliamentary inquiry as to whether the resolution is divisible when it comes to a vote.

The SPEAKER. The Chair will state that the gentleman will have to indicate how he wanted to divide the vote.

Mr. ASHBROOK. Mr. Speaker, the resolution says, "That Representative EDWARD R. ROYBAL be censured," which would seem to be divisible under the precedents of the House. The resolution calls upon the House of Representatives to adopt the report and to censure Mr. ROYBAL. I wonder whether or not the resolution can, therefore, be divided into two questions, one being censure and the second being the adoption of the report, which could be by separate votes.

The SPEAKER. The gentleman's rights will be protected. The Chair will examine the precedents with regard to the gentleman's point.

Mr. ASHBROOK. Mr. Speaker, I thank the Chair for that consideration.

The SPEAKER. The gentleman from Georgia (Mr. FLYNT) is recognized for 60 minutes.

Mr. FLYNT. Mr. Speaker, for purposes of debate only, I yield 20 minutes to the gentleman from South Carolina (Mr. SPENCE). For purposes of debate only, I yield 20 minutes to the gentleman from California (Mr. EDWARD R. ROYBAL). Pending that, Mr. Speaker, I yield myself such time as I may require.

Mr. Speaker, I yield myself 11 minutes and ask that I may be notified when I have used 11 minutes.

Mr. Speaker, let me say again that as chairman of the Committee on Standards of Official Conduct, as a Representative from the State of Georgia, as an individual, and as a compassionate and hopefully merciful human being, the gentleman from Georgia now in the well takes no pleasure, indeed, it is a traumatic and painful experience, to come into the well of the House by direction of a majority of the total membership of the Committee on Standards of Official Conduct to carry out the rules of the House generally and carry out the mandate of House Resolution 252 of the 1st session of the 95th Congress. We do so in compliance with the mandate that this committee shall hold public hearings, not star chamber private proceedings but public hearings, where all who will may attend and see and hear the witnesses testify under oath, hear the counsel for the respondent cross-examine the witnesses for the staff, and hear the counsel for the staff cross-examine witnesses for the respondent, and if the respondent elects to make a sworn statement or give testimony under oath, to cross-examine that respondent also.

Mr. Speaker, this resolution relates to the Honorable EDWARD R. ROYBAL, a Representative from California. He is charged in three counts. He is charged in count 1 in that he did conduct himself in a manner which at all times did not reflect creditably on the House of Representatives and that he did re-

ceive from Tongsun Park a $1,000 campaign contribution on or about August 22 for the purpose of his reelection campaign and failed within 5 days after receipt thereof, or at any later time, to make an accounting thereof to the treasurer of his campaign, including the name of his contributor, or to file a report himself with the Clerk of the House of Representatives including the name of the contributor.

In count 2 the committee found that it had been established by clear and convincing evidence that the campaign contribution which EDWARD R. ROYBAL had received, he did not turn in to his campaign committee, to the treasurer thereof or the chairman thereof, but, indeed, he converted it to his own use and never made any accounting or reporting of it at all.

Mr. Speaker, we come now to count 3.

Count 3 is that he did then and there on four separate occasions when asked if he had received anything of value from Tongsun Park, he replied under oath, after being duly sworn, he replied under oath that he had not.

When asked if he had received anything from a Korean, he responded under oath that he had not.

When asked if he had received anything from an oriental, he testified that he had not.

Tongsun Park testified under oath, and as far as this member of the committee recalls, his testimony was not shaken on cross-examination, that in the office of former Representative Otto Passman, after having been introduced to Mr. EDWARD R. ROYBAL, that he did on or about the 22d of August 1974, give to EDWARD R. ROYBAL "a campaign contribution" to be used in furtherance of Mr. ROYBAL'S campaign.

Mr. ROYBAL has been asked about this on at least four different occasions. He testified that everybody—these are his words—knew Tongsun Park, that he was well known as a lobbyist, that the staff knew him, that everybody in the corridors of the House of Representatives office buildings knew him. Yet when asked if he had received anything of value from him, he replied under oath that he had not.

Mr. Speaker, as the loom that developed this case by the fabric and the cloth came together, it developed that Mr. ROYBAL subsequently admitted that he received from or through Otto Passman, from or through Tongsun Park, a contribution of $1,000, and when asked what he did with it he said that he gave it to one of his secretaries who was serving as campaign treasurer.

Upon examination under oath, this individual testified that no such contribution had been turned over to her in August of 1974,

Mr. Speaker, she did testify that she had received from Mr. ROYBAL in February of 1974, $1,200, representing cash contributions.

The chairman of Mr. ROYBAL'S campaign committee, a businessman of California, testified under oath before this committee that at no time during his chairmanship of that campaign committee did he receive from Mr. ROYBAL any amount of cash representing a contribution from Tongsun Park. He denied having received it, under oath in August of 1974. He said he thought he received it in February of 1974.

Mr. Park was asked searching questions as to how and why he remembered the circumstances of delivering the campaign contribution. He said that he did it, because in rapid succession he made a cash contribution of a $1,000, not to one Member of Congress but to two, in the office of former Representative Otto Passman.

The SPEAKER. The time of the gentleman from Georgia (Mr. FLYNT) has expired.

Mr. FLYNT. Mr. Speaker, I yield myself 4 additional minutes.

When asked if he was sure about the date, whether it was in August or whether it was in February, Mr. Park said two things indelibly impressed it upon his mind that it was August. No. 1, it was either on or within a day or two of Korean National Day, the major holiday of the Korean people. He also said that he knew it was in August, because it was about the time of the Louisiana Democratic primary, and he was interested in his friends in Louisiana who were candidates in that Democratic primary.

He said he further remembered its being in August, because in the week following the 22d of August 1974 he received a letter from the other Member of Congress acknowledging in writing his help in his campaign, and he further stated that he hoped he would see him again next time he was in Washington.

Mr. Speaker, the mandate given to the Committee on Standards of Official Conduct was not and is not and during the life of the 95th Congress will not be a pleasant task or a pleasant assignment. But, Mr. Speaker, as God is our witness, this committee felt that we could do no more and no less than to find that the statements of alleged violations on these three counts had been sustained by clear and convincing evidence, and we recommended, not on the basis of failing to report a campaign contribution, not on the basis of putting it in some other account other than a campaign account, but on the basis of knowingly stating under oath, after having been duly sworn, that he had not received such a contribution. And on four separate occasions he denied it, and then he finally admitted it and tried to explain it by saying that it was in February and not in August when not one word, not one jot or tittle of either his own testimony, the testimony of his own employee who served as campaign treasurer, and the testimony of his friend and constituent, the chairman of his congressional campaign, supported his position.

There is not one word of evidence in this entire report which sustains the position to which Mr. ROYBAL testified under oath four times.

Mr. Speaker, we respectfully ask that the House sustain the recommendation made by the Committee on Standards of Official Conduct.

Mr. RANGEL. Mr. Speaker, will the gentleman yield for one question?

Mr. FLYNT. I yield to the gentleman from New York.

Mr. RANGEL. Mr. Speaker, could the committee chairman share with the House the criteria used after the committee reached its evidentiary conclusions as to what sanction would be given to that Member?

Mr. FLYNT. Mr. Speaker, I will do so, but I must say that I do not do it gladly. I do so reluctantly, because again this is a matter which the gentleman from Georgia did not bring up.

The first motion made was not a motion to reprimand, it was not a motion to censure. The first motion made was to expel. And I say to the gentleman from New York who raises this question, Mr. Speaker, that the Member now speaking did not make the motion, and had it not been for the persuasion by the chairman of that committee, the first motion, which was a motion to expel, would have been sustained.

Mr. RANGEL. That was my question, Mr. Chairman. I can understand why, in the atmosphere in which we are judging each other's conduct, that expulsion certainly would be one, I having followed Adam Clayton Powell to this Congress.

The SPEAKER. The time of the gentleman from Georgia (Mr. FLYNT) has expired.

Mr. FLYNT. Mr. Speaker, I yield myself 1 additional minute.

Mr. RANGEL. If the gentleman will yield further, my only question is not what motions were made, but are there any standards in the report that I can review to determine what criteria were used to expel, reprimand, censure, or does each Member just decide how they feel, what motions they can make, and what motions can carry? I am just asking if there are any standards in the rules of the committee to determine how you reach the determination. Is it just by vote?

Mr. FLYNT. Mr. Speaker, I will respond to the gentleman from New York (Mr. RANGEL) by saying that there is a spectrum of sanctions which could be recommended by the committee to the House or which could be done by the House on its own intiative upon the introduction of a privileged resolution by any single Member of the House.

Mr. RANGEL. I thank the gentleman.

Mr. SPENCE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as I stated earlier, our decision on Mr. ROYBAL'S case, as the others, was based solely on the facts and the evidence presented. That evidence is set forth in this report. As I have said earlier, too, many, many hours and days of work went into this report—thousands of hours of investigation by some of the best investigators ever assembled in this city. You cannot imagine the work that was done. This cannot be laid out before you here today at this time. I do not really think anybody expects it to be. But just please bear with us. It is here. We have a difficult job. I do not relish it. I do not know how many of you would like to be standing right here in this place, and I do not know what you would do if you were. You will have your chance next year.

There will be three vacancies on each side. If you want to do the job, put in for it.

The evidence established clearly and convincingly in the mind of every member of the committee who was present that Mr. ROYBAL has committed three offenses of increasing severity. I regret that the offenses took place, but I cannot ignore the facts. Mr. ROYBAL failed to report a $1,000 cash campaign contribution from Tongsun Park. He converted that contribution to his personal use, and he deliberately gave false testimony under oath to this committee when he denied that he ever received a contribution from Mr. Park.

This is a far more serious case than those involved before. Mr. ROYBAL had taken a solemn oath to tell the truth before this committee, and he broke it. This constitutes perjury. Moreover, whereas Mr. WILSON ultimately told the committee the true facts, Mr. ROYBAL told the committee four different versions of the facts. Also, the things Mr. ROYBAL tried to conceal through his false testimony were very serious violations in and of themselves. Mr. ROYBAL tried to conceal from us the fact that he had ever received a contribution which he failed to report and which he converted to his own use.

These actions by a Member, especially the giving of false testimony under oath, tend to bring this institution into disrepute. The public has a right to expect that when a Member of Congress testifies under oath about his own conduct, he will tell the truth. This institution will be brought into more serious disrepute if we do not as an institution express our strong disapproval.

I believe that the facts compel the conclusion that Mr. ROYBAL should be censured. Censure is a very serious punishment for the House to inflict upon one of its Members. Although some may think that we are not dealing harshly enough with these offenders, censure is in fact the most severe form of disapproval short of expulsion with which this House can condemn the action of one of our Members. The House has not censured anyone in over 50 years.

The committee concluded, however, that censure was the minimum punishment appropriate to the charges which were sustained against Mr. ROYBAL. At stake here today is the ability of this institution to judge the conduct of its Members and to discipline them for misconduct. With the issuance of these reports, the committee's work has ended. The responsibility now shifts to each and every one of you, the full House of Representatives. It is your burden now.

We have had it long enough. It is you who will be answerable to the people of this country for your action on these reports. We have made our recommendations and we adhere to them. Now, it is up to you.

Mr. MITCHELL of Maryland. Mr. Speaker, will the gentleman yield?

Mr. SPENCE. Yes, sir, I will be happy to yield.

Mr. MITCHELL of Maryland. I thank the gentleman for yielding. There are just two troublesome areas for me in this issue that is before us. We are all saddened by what it transpiring today.

The first—and let me preface my remarks by saying, as I have said before this committee when I appeared there very briefly—I do not question the integrity or the sense of morality of any member of the committee, but from time to time when we have investigations into very serious matters there are attempts made or thought about by perhaps some investigators who, in their zeal, in their pursuit of truth, do some things that perhaps are not in consonance with the way that the members of the committee would want to proceed.

My specific first question is, were you as a member of the committee given a report from Sergeant Stevens of the U.S. Capitol Police regarding a suspicious incident of September 30, 1970, involving what appeared to be the tampering of the locks in the private office of Congressman ROYBAL? Was that report ever submitted to the committee?

Mr. SPENCE. That is the first I have heard of that.

Mr. MITCHELL of Maryland. Well, I will submit this report. Apparently there was a suspicious incident and the Capitol Hill Police were called in. In addition to that, there was some work done by the FBI, and I shall turn this report over to you.

The reason I raise that question is that very often you have investigators who, in their zeal, do things that are far more damaging in terms of the dignity of this House than the conduct of any Member who is being charged by your committee. I would urge—I would urge that in all fairness we not vote on this censure until such time as this incident has been fully investigated, because it may well be that something untoward happened by persons not known to you, but on whom you have to rely.

Mr. CAPUTO. Mr. Speaker, if the gentleman will yield, what is the date of that report or would the gentleman give the date of that incident?

Mr. MITCHELL of Maryland. September 30, 1978, and I will give it to the chairman as of now.

Until this is cleared up in my mind, then there is some doubt regarding all that has transpired up to this point—I am not accusing anyone. I just want to make sure that I am clear. That is the first question.

The second question is, my colleague, the gentleman from New York, raised the question as to what were the criteria used for determining the kind of punishment to be meted out.

Was it just a kind of whim, a vibration that one got? I want to follow up on that, because I have a letter from the League of Latin American Citizens, and I am reading from paragraph 3 specifically:

> We feel Roybal is being subjected to a double standard of justice. Those congressmen who received far larger amounts of money and gifts and who voted on behalf of Tongsun Park's interests have received recommendations of less disciplinary action or escaped entirely any kind of action. It should be noted Congressman Roybal has consistently voted against Park's interest and that his record in his private and public life is impeccable.

I do not take that as statement of facts in this case, but it seems to me unless we have some objective criteria by means of which we attempt to assess what punishment should be meted out, then this has the appearance of evil. The action taken becomes the appearance of evil in the minds of a whole lot of people in this country. What were the criteria used to determine the degree of punishment?

Mr. SPENCE. Obviously we cannot sit down and set down the criteria, saying that those people who received this amount of funds or money shall be dealt with this way, we cannot do it ahead of time and set down all the possibilities. There are just too many of them. So what happens on each individual case is that the motions are made affecting the whole range of possibilities in any case, and they are voted on, and the consensus of the committee comes out in the vote. Charges were dismissed in some cases and in others the counts were stricken. As a matter of fact, in a good many instances the criminal violation part of these counts were stricken, and the only violation remaining would be the one wherein the person violated rule I of the Code of Conduct, we could have sent them over to the Department of Justice. All these possibilities were considered.

Mr. MITCHELL of Maryland. I thank the gentleman for answering, but it does not help my dilemma or the dilemma of the Hispanics who will say a person of a darker color—I am not accusing anyone of racism, I am not—but I am saying the action could be perceived that way.

Mr. SPENCE. If I could answer that, because I am sure members of the committee had received letters from various people all during the time the investigation was going on. As a matter of fact, recently I have received letters suggesting that some people were dealt with more harshly than others, suggesting that some people were not dealt with at all, and favoritism was shown.

My answer always was, and I make it today, and I have made it all along. If there is anyone abroad in this land, or in this body, or in this world who has any evidence of a mitigating nature to bring forth in behalf of any one of these Members, we will be very happy to receive it.

On the other hand, if anyone has any evidence on anyone else who has not been charged, I have been calling for them to come forth for days and days and days, and at this point I continue to call for people to come forward if they have any evidence—not just rumors or innuendo, but evidence.

Mr. MITCHELL of Maryland. I thank the gentleman but it does not solve my problem, because of the lack of specification of criteria by which we meted out sentences, the perception is there that disproportionate punishment was meted out to this colleague.

Mr. SPENCE. We had to deal with what we had before us, and this body today has to deal with what this body has before it.

Mr. BAUMAN. Mr. Speaker, if the gentleman will yield, I think my colleague has raised a question that has concerned a number of people in various communities and in the country at large. The specific question properly deserves an answer, which is, I assume, at any time collectively or individually in the gentleman's judgment was there any ethnic or racial consideration given so far as the determination of guilt or innocence or involvement of any Member? Perhaps the chairman himself would like to respond.

Mr. SPENCE. I will answer it, whether there was or not, and emphatically it is "No."

Mr. BAUMAN. That seemed to be the question, growing out of many people's concern, and I am pleased to hear the answer which was already apparent to me.

Mr. MITCHELL of Maryland. That was not my question.

Mr. BAUMAN. That is as I interpreted his question.

Mr. SPENCE. We had the job. We have done the best we can.

I thank the gentleman.

Mrs. FENWICK. Mr. Speaker, will the gentleman yield?

Mr. SPENCE. I yield to the gentlewoman from New Jersey.

Mrs. FENWICK. Mr. Speaker, I thank my colleague for yielding to me.

I would like to say that the incident, which I think we have all heard of for the first time concerning the breakin, occurred 3 days after consideration of the case was finished and the decisions had been made. So, certainly, it was not part of any investigation of ours.

Also I would like to discuss the issue of racism which has been suggested. I have not been here very long, but surely many members of the committee have, and does anyone really think that there is a serious question concerning the motives and the methods of the members of the committee?

Is there no human trust left? Can anybody think that the members of this committee, whom you have known for years—I cannot claim that much—but can the committee really be accused or suspected of anything so loathsome as a racial or ethnic bias in matters of this kind, concerning in particular matters of a member's honor and reputation? I think that is a suggestion that would have to be most indignantly rejected. I do not do it indignantly, of course, because I know my colleagues did not present it in that vein.

Mr. MITCHELL of Maryland. Mr. Speaker, I know that this is most unusual, but would the gentleman please give me an opportunity so that I can respond to that?

I intended to make it abundantly clear that I was not making those accusations.

We live in a world in which there are things which happen which are perceived differently by one group as opposed to another group.

The point I wanted to make was that, in the absence of criteria upon which you determine the amount of the sentence to be meted out, it appears that this punishment distorts the perception in a negative way.

Mrs. FENWICK. Let me suggest to my distinguished colleague, since he has no doubt as to the objectivity, the dispassion and compassion of the committee, that he then respond to these letters and tell those people who are troubled in the community, and who have these mistaken impressions, that he can correct them, and assure them that such was not the case here.

Mr. MITCHELL of Maryland. I cannot do it, because I am not on the committee, and there were no specific criteria considered.

Mrs. FENWICK. You know the committee.

Mr. MITCHELL of Maryland. Yes, but I do not have the specific criteria.

Mr. GARCIA. Mr. Speaker, if the gentleman would yield. Because I think this is a matter of absolute importance, I would like to suggest to my colleagues, that it may, in fact be that the good gentleman from the State of Alabama, when he was speaking prior to this, spoke honestly about the work of his committee; and I do not, as well, doubt the sincerity of the chairman, the gentleman from Georgia.

But the fact of the matter is that although I have been in this body only 7 months, I am not new to politics. I am as well, of the same ancestry and background as ED ROYBAL who stands before you today. And it seems to me that the treatment that has been given to ED ROYBAL at this particular moment in the history of this body is different than it has been for the others.

I will go back even further, and mention a man who was expelled from this body, and who happened to be black. I am the son of a minister, and I ask you to let the good Lord be our judge in what we do. And I ask you for each of the 21 million Hispanic people who live in this country who are watching this look to see this vote as they see it. For to them this vote to censure does look quite differently, and I ask you to remember that as you cast your vote.

Mr. ECKHARDT. Mr. Speaker, if the gentleman will yield, just for a little correction, Adam Clayton Powell was not expelled from this body, he was wrongfully and unconstitutionally denied his seat. That is what the Supreme Court held.

Mr. SPENCE. Mr. Speaker, I just have one further comment to make, and I do not know how my time is holding out, because it has been used up by other Members.

However, I think the criteria we have to look at is just simply this: We have three cases before us. In the first two there was one charge in each case, and the recommendation was that of reprimand.

In this particular case there are three different charges. All have been sustained, and the severity of them is that they are three times that of the others. Therefore, that accounts for the difference in the recommendation of the committee.

Mr. CAPUTO. Mr. Speaker, will the gentleman yield?

Mr. SPENCE. I yield to the gentleman from New York.

Mr. CAPUTO. Mr. Speaker, I was going to say something very close to what the gentleman from South Carolina (Mr. SPENCE) just said.

It seems to me that there are four kinds of offenses under consideration: One, a failure to report a campaign contribution, as required by law; second, a failure to tell the complete truth, in the first instance, on a questionnaire sent by a committee of Congress to Members. There are two more which are more serious and rise to the level of criminality: Deliberate failure to tell the truth under oath before a committee of the Congress, and personal use of funds given for a political or congressional purpose.

Mr. MCFALL was found by the committee and subsequently by the full House to have done only one of those, the most minor, failure to report. Mr. CHARLES H. WILSON of California was found by the House to have done two of those, failure to report a campaign contribution—he was accused of that, to be more accurate—and found not to have told the full truth on the questionnaire, in the first instance.

However, Mr. ROYBAL has been accused—whether or not he has done those things remains to be seen; that is up to the full House—of doing all four.

I cannot show the Members why that leads to censure instead, or reprimand, but is is clear that what Mr. ROYBAL is accused of doing is substantially more serious. Mr. ROYBAL is accused of four types of offenses instead of one; three formal charges instead of one, and two charges which are clearly more reprehensible than any done by the other two Members considered today.

Mr. FLYNT. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. PHILLIP BURTON).

Mr. PHILLIP BURTON. Mr. Speaker, first, I have an uneasy feeling that my dear friend and our great colleague, ED ROYBAL, would be the last person whose conduct should be measured here in the proposed action of other Members.

However, I have a more fundamental and complete conviction. I have known ED for 25 years. I know of his political career, I know of his background, and I know of his political enemies.

Mr. Speaker, in my district we have a way of putting it: "You can't buy ED ROYBAL for money, marbles, or chalk." I think perhaps in our section of the country one might say that he is a man of total personal integrity.

Mr. Speaker, there is one thing we learn, and that is that there are occasions when we just have to ask ourselves, Is this an honest person or is this not?

If there is any dispute as to the facts at all, it must be reconciled on the side of the person whom one has known intimately. EDWARD R. ROYBAL beyond any doubt is one of complete honor, complete integrity, and complete conviction and commitment to the public interest, and I am going to plant my flag on the side of ED ROYBAL and give him all the support I can during the course of the deliberations this evening.

The SPEAKER. The Chair recognizes the gentleman from California (Mr. ROYBAL) for 20 minutes.

Mr. ROYBAL. Mr. Speaker, history is being made on a daily basis in the Halls

of Congress, but the history that is being made on this Friday, the 13th of October of 1978, will long be remembered by Americans who place high value on justice, fairness, and equality.

Before addressing myself to the question at hand, I would like to express my appreciation to the gentleman from Georgia (Mr. FLYNT), for the courtesies which he has extended to me and for his fairness in insisting that at least a quorum of the committee be present at the time that my testimony was given. I am also grateful to the committee who completely exonerated me of a charge of making a false statement. I was going to read this whole statement, and I will, but I really resent the fact that anyone can accuse me of making a false statement with regard to my knowledge of Tongsun Park. I challenge the vast majority of men and women in this Chamber to tell me that they knew who Tongsun Park was in 1974.

I went to Mr. Passman's office at his request and received a campaign contribution from a friend of his, and after that was over, it never dawned on me that the man there was someday going to be the much-publicized Tongsun Park that we now know as a rich playboy socialite, and as the man who at the present moment has been given and is enjoying complete immunity to testify against Members of Congress. These are facts that have not been mentioned but should be considered.

When I gave my first deposition, I did so after completely getting the facts, as to my knowledge, and that of my staff with regard to Tongsun Park, and when that testimony was given, it was truthful testimony, based on what I truly believed to be the facts.

I can stand before the Members of this House as I stand before my constituents, and as I will stand in the pages of today's Journal, and tell you honestly that I did not convert Park's campaign contribution to my personal use. I firmly believed that the money was part of a cash deposit to my campaign account and used it to invite senior citizens to my banquet. But I was unable to prove that to the committee with documentary evidence since I did not personally attend to these matters but delegated them to volunteers.

The Korean influence investigation established the fact that the contribution was not solicited by me, that Park never called or visited my office, nor I his, that I never attended any of his parties, that I never wrote a letter on his behalf, and that neither I nor any member of my family was ever involved in a business venture with him. Park himself confirmed this under cross-examination, making false the sensationalized aspects of Koreagate—that of bribery and influence peddling. All of this resulted from leaks to the press.

It is also a well documented fact reflected by my voting record that I constantly voted against military aid to Korea. This aid has been a windfall to officials of that country who continue to support and imprison their people and exploit their poor in blatant violation of individual and human rights.

Present day scholars and historians of the future will study the involvement of one and all named in the Korean influence investigation They will ask questions and perhaps get answers and reach conclusions when they examine the facts. Perhaps they will even evaluate the benefits derived from our huge expenditure of funds.

I believe that we as a body have, in fact, benefited from this experience. I, for one, have learned that I must be more vigilant in overseeing how my campaign funds are handled, to make sure that all contributions are properly reported.

I am convinced that we must continue to have a House Committee on Official Conduct and make sure that Members who serve on it receive our understanding and our support. In all fairness to the members of this committee we must, if we authorize another inquiry of any kind, make sure that we establish proper procedural guidelines with every consideration given to the rights of due process and individual civil rights.

For example, it is undisputed that before I gave my first deposition I asked the chief counsel if I needed an attorney, and he informed me that he did not think so, causing me to give testimony without the advice of counsel.

We must also structure legislation in a way that does not result in the relinquishing of congressional responsibility and authority to staffers who may in the name of ethics become arrogant with the power delegated to them, putting them in danger of betraying the trust placed in them by this House. We all know that the committee rules of procedure forbid committee or staff members commenting on evidence relative to the proceedings. The committee has rightfully concluded that such comments might undermine or even attempt to undermine its impartiality.

Still, on April 7 of 1978 one of the prosecutors assigned to the Korean influence investigation did, in fact, discuss my case at a cocktail party in Bozeman, Mont. An attorney who attended the party has submitted an affidavit for the record describing that event.

Leaks to the press of executive sessions should not be a common practice and unnamed investigators should not be quoted in Time or any other magazine or newspaper, giving the public the impression that a verdict has already been rendered even before the trial has been held. In fact, a member of this committee complained that I and three Members of Congress had been named in the press as being under investigation before the committee itself was notified. This is a practice that must be prevented for the sake of all concerned and everything possible must be done to prevent a trial and verdict by the news media before all the facts are known.

Because time does not permit me to do so now, I will later submit other recommendations for the record, for I believe that a Member's rights must not be violated and that these recommendations will also be a tremendous help to those Members of the House who will serve on and run the Committee on Standards of Official Conduct.

May I thank my colleagues, Mr. SISK, Mr. CORMAN, and Mr. SANTINI, for their tremendous effort in trying to convince the committee that censure in this case is cruel and unusual punishment.

I thank Congressman GONZALEZ of the Texas delegation, Congressman MITCHELL of the Congressional Black Caucus, Congressman GARCIA of the New York delegation, and others who joined with a committee of the California delegation in supporting me.

May I also particularly thank my wife and my two daughters and my son and members of my staff, who sit in the balcony of this arena awaiting your decision.

I thank also my constituents, the different minorities and people from all walks of life who sent telegrams and letters to the Members of the House, joining a united Hispanic community in their plea for equal justice.

This is the first time in the history of this Nation that a united Hispanic community has spoken out, through their own individual organizations, perhaps, but in one thunderous voice. Americans of Puerto Rican, Mexican, and Cuban descent, along with other Hispanics, joined hands and walked the Halls of this Congress, each on their own, but still together and in one voice, articulate their great concern about the strain of unfairness that permeated the investigatory phase of this matter.

What happens here today will have a great impact, not only on a group of Americans who no longer will remain silent and forgotten, but also on the rights of the Members of this House.

The matter is now in the hands of this body, and what the Members will do will be recorded in the Journal of this House and in the minds of millions of Americans who believe in justice and in the Constitution of the United States.

I hope that we will have time to go into some of the merits of the case to dispute some of the allegations that have been made so that we will know what it was that motivated individuals to do certain things. I refer not to members of the committee, but to some members of the staff.

Mr. SISK. Mr. Speaker, will the gentleman yield?

Mr. ROYBAL. I yield to the gentleman from California.

Mr. SISK. Mr. Speaker, I appreciate my colleague's yielding.

Let me say as one who has known and worked with ED ROYBAL for 25 years that I stake my reputation on his honesty and integrity. I campaigned with him in 1954 when he was our candidate for Lieutenant Governor in the great State of California.

I join completely in the statements made by the gentleman from California (Mr. PHILLIP BURTON) on the honesty, the integrity, and the absolute fairness of this gentleman, who has served in many capacities over a wide range and for a number of years in public service.

I want to commend you, ED, on an excellent statement.

Mr. GONZALEZ. Mr. Speaker, will the gentleman yield?

Mr. ROYBAL. I yield to the gentleman from Texas.

Mr. GONZALEZ. I thank the gentleman from California for yielding.

Mr. Speaker, I believe that we ought to emphasize something—and I am afraid I did not do this quite properly before—in an attempt to persuade the committee to have even-handed justice. It is obvious that there is a discrepancy, and that discrepancy has not been addressed.

We know that before the bar of American justice a man is presumed to be innocent until he is proved guilty by due process. Thus he can present evidence in his own right and his behalf; he can call witnesses to testify in his behalf, if he has the resources for it; he can refute evidence against him; he can cross-examine hostile witnesses; and, above all, he has the right of appeal.

There is no such principle or even procedural rights to protect the Member of Congress on trial in a legislative body or before what I call the court of public opinion. There is no equivalent of due process. At least it has not developed up until now. This is what is really involved at this point in our legislative development. In fact, a man may be utterly destroyed in the public eye; his image may be ruined irretrievably before he even knows what is happening to him. Rumor put into print becomes the truth. He is powerless to fight back.

The statements of the gentleman from New York (Mr. CAPUTO) a few minutes ago on the two previous resolutions dramatically illustrate this as nothing else has thus far.

The Supreme Court, in a most recent case—and this was about 5 years ago or less, I believe—sets forth what still confronts us here in the Brewster case, referring to disciplinary procedures when Congress has said that a Member "is at the mercy of the almost unbridled discretion of the charging body."

It is still true that we are in an evolving process.

I understand there will be a motion to recommit with instructions offered later in an attempt to bring justice, in an attempt to correct an obvious discrepancy where we have three different disciplinary actions recommended but only one singled out, and that is censure, which, as the gentleman said awhile ago, is very serious.

But who is interested in justice at this late hour? The gentleman from South Carolina (Mr. SPENCE) said awhile ago, "Oh, we don't have time. I wish we had. I wish we could present the evidence."

What evidence? A report? I have read the report because I bothered to get the report that was submitted to the House for printing.

I also bothered to get the other reports, but there is no committee print that has the transcript of proceedings in which the judgments were made, in which the fine nuances of judgmental value-making devices were being made. You cannot obtain it. It is not obtainable. It is nonexistent, so far as I can tell. What we are confronted with is the resolution, the likes of which we have not seen in 57 years in the House, one that certainly calls for careful and deliberate study. Who is willing to act judiciously at this point? Who has even had time to read the reports, as has been brought out ad nauseam, let alone reflect upon them.

We are given three cases, two of which are remarkably alike because they involve lies. But even God does not make that differentiation that you are trying to make here in this committee recommendation. For if we learn religion from God, there is no such thing as a venal lie or a mortal lie. It is a lie. A lie is a lie. Yet in one case, reprimand; in this case, censure.

You read the report itself and you realize that the gentleman from California has been given short shrift even by the accounts related here by the committee members. They referred to the meeting, which was the first for the gentleman from California with Tongsun Park. On page 261 of the report you will read the significant part that says that Tongsun Park himself does not have a clear recollection. By his own admission, the meeting was brief, no more than 2 or 3 minutes. He was not sure himself 4 years later. Was it ROYBAL or not? He did say yes, he found out it was. But the impression given earlier was that Tongsun Park had a clear, indelible recollection.

Mr. Speaker, I address myself to that portion of the report, and I wish the Members would read it, and that both men, then, on reflection, charged with lying, came back, gave a truthful account, according to the report, but the result is so different in the recommendation. One is considered to have committed a greater ethical sin. What is the quantum of the graver sin? It has not been brought out. The committee has to justify this to the American people. The gentleman keeps saying we have to justify to the American people our behavior. Of course, we do. But so does the committee. The committee has to reconcile the imbalance in its recommendations in this case.

Let me close by asking this question: Who is to say that we have justice at this late hour? I would like to remind the Members that we are all either children of God or we are all stepchildren of God, but it cannot be both. It has to be that we are the same and treated the same and fairly, or we are going to have the kind of selective justice that this report recommends.

Mr. DANIELSON. Mr. Speaker, will the gentleman yield?

Mr. ROYBAL. I yield to the gentleman from California.

Mr. DANIELSON. I thank the gentleman for yielding.

Mr. Speaker, we have very little time. I am going to try to make 2 points and 2 points only.

First of all, those of you who are lawyers will know that evidence of reputation for truth and honestly and character are admissible in any proceedings in which they are an issue. I have known ED ROYBAL since the early 1950's—I do not know how long—25, 28 years. I live in the same community in which he lives. For 16 years in the State legislature and in the Congress we have served overlapping districts and due to reapportionment we served the same areas from time to time. I know his reputation for truth and honesty in the community in which he lives and in which he has lived for 25 years. I can attest that it is very good. It is the highest. And you are entitled to consider that evidence of reputation.

My second point is this: I still live in that community. Perception is reality. It has been discussed here tonight: what does the public perceive?

Ladies and gentleman, Mr. Speaker, I can tell you that in the community which I represent, in which there is more than 40 percent Spanish surnames, the people are incensed. The people are outraged by the fact that a charge of censure has been brought against our good friend ED ROYBAL as compared with the other charges that have been brought. Mass meetings have been held; the Federal Building in Los Angeles has been picketed; funds have been raised. The community which he represents and which he identifies with is absolutely incensed. That is the perception which is clear, and if we are trying to have America perceive American justice as being fair and even-handed, we ought to recognize that as a fact.

Mr. BIAGGI. Mr. Speaker, will the gentleman yield?

Mr. ROYBAL. I yield to the gentleman from New York.

Mr. BIAGGI. I thank the gentleman.

Mr. Speaker, I appreciate what the gentleman from California (Mr. DANIELSON) said, but we are in the House of Representatives and the people being incensed should play no part in our deliberations, although I understand their anger.

My concern today is Mr. ROYBAL. Now, I have been here 10 years, and in those 10 years I have come to know the gentleman quite closely and intimately. Since this subject was brought forth, I listened very carefully to the appraisals of most of the Members of this House, and I have yet to hear one untoward remark about the gentleman in the well. They all say the same thing about his integrity, his compassion, his sensitivity. This unanimity is not without basis. I have not heard one unkind remark, about his integrity.

Now, we are talking about this quasi-judicial body, and I think that it is a flattering comment about the process that is going on today, the charge has been made, we sit in judgment. You and I know that judges have sat in judgment before and have been confronted with serious matters, the most heinous of crimes, and one of the most important things that they consider is their consideration of the man that confronts them. We have seen the variances of sentences. and we have seen some fellows who were sentenced for long periods and others who have committed the same crime given suspended sentences. Not without good reason—the past record—attitude and a host of factors are considered.

What I am saying here is that you should consider one very critical element, the man's integrity, the man's ability, the total man, and whether or not if there is an offense, what good will be accomplished by destroying the indi-

vidual. And yes, the perception of unequal justice raises its ugly specter again in our community.

I say as we sit in judgment, think in terms of what you are doing to a man. Do not think in terms of your personal interest out on the hustings looking for election, because the timing is most inappropriate and unfortunate. If these hearings on this report were to be considered after the election in December, I am willing to suggest to you that a more favorable outcome would be assured. Think in terms of what you are doing to a man, a family, a people.

Mr. DUNCAN of Oregon. Mr. Speaker. will the gentleman yield?

Mr. ROYBAL. I yield to the gentleman from Oregon.

Mr. DUNCAN of Oregon. Mr. Speaker, I have the greatest respect and affection for the chairman of the committee and for the complexities of the task of that committee. I believe firmly that Members of Congress must be held to a higher standard than other citizens. I believe that truth is essential to the survival of our society. let alone the survival of this institution. But, the thing that disturbs me about this resolution, and particularly a resolution of this severity, is that so much of it is based upon the recollection of one of our Members of events which had transpired 4 years before the questions were asked.

I am well aware of the frailties and fallibility of my own recollection of conversations and events of only a couple of days ago. I have watched witnesses in trials in lawsuits for years, many of whom never testified as to what the facts were but only two of them in 20 years were actually making a false statement intentionally.

I have known ED ROYBAL since 1963. I agree with the analysis of his character that others of our colleagues have made. Mistaken ED might have been in some statements that he made. In error ED might have been in some statements he made, but ED ROYBAL does not deserve the punishment that is embodied in this resolution, and I intend to vote against it.

Mr. LONG of Maryland. Mr. Speaker, will the gentleman yield?

Mr. ROYBAL. I yield to the gentleman from Maryland.

Mr. LONG of Maryland. I thank the gentleman for yielding.

What troubles me, and I think what troubles most of us, is that a man being tried for his political life before a jury, that has to be worried about what impact its vote will have on its jobs. What man would ever want to go into a court before a jury subject to that kind of menace, with the press glaring down as it deliberates?

I am also troubled by the lack of graduated criteria by which to decide what the severity of the sentence should be. The verdict becomes entirely a subjective thing. Since no criteria have been cited repeated efforts to determine that we have all got to use what commonsense we have.

We have to ask, did ED ROYBAL commit such a serious offense that he should be the second man in over a half century to be subjected to a vote of censure? I ask you, gentlemen.

The SPEAKER. The time of the gentleman from California has expired.

Mr. RANGEL. Mr. Speaker, I ask unanimous consent that the gentleman from California (Mr. ROYBAL) be given 5 additional minutes.

The SPEAKER. The gentleman from California is entitled to 5 minutes and the gentleman from Georgia is entitled to 5 minutes.

There being no objection, the gentleman from California is given 5 additional minutes.

There was no objection.

Mr. LONG of Maryland. Mr. Speaker, will the gentleman yield further?

Mr. ROYBAL. I yield to the gentleman from Maryland for a closing statement, but I have others I must yield to.

Mr. LONG of Maryland. Mr. Speaker, I have known ED ROYBAL a long time. I have seen no reason to believe that he is the kind of man on whom this kind of sentence ought to be imposed in this kind of court without any objective criteria of what the sentences should be and I intend, if the sentence is not reduced from censure to reprimand, along with the others. to vote "No."

Mr. ANDERSON of California. Mr. Speaker, will the gentleman yield?

Mr. ROYBAL. I yield to the gentleman from California (Mr. ANDERSON).

Mr. ANDERSON of California. Mr. Speaker, I would feel very remiss if I did not get up and tell you what I think about our colleague and my friend ED ROYBAL. I am in my 38th year of public life. If I had to name one person in public life whom I felt had the greatest integrity, I would consider ED ROYBAL a top candidate for that particular choice. I have known ED as a personal friend for more than a quarter of a century. I have known him in the business world. And I have known him in various levels of government. ED was our nominee for Lieutenant Governor 4 years before I was elected. As you perhaps know, I served in that position in California 8 years. During that time I was able to watch ED perform on the city council in Los Angeles. He did an outstanding job.

ED ROYBAL is a man whose reputation for integrity is without question, as our colleague, the gentleman from California (Mr. PHILLIP BURTON), said a moment ago. ED is our next-door neighbor and has been for the past 8 years. We have worked together constantly. There is not in my opinion a dishonest bone in ED ROYBAL.

He could have forgotten, he might have been confused on what happened 4 years ago, I do not know, but as far as integrity or doing anything wrong, my feeling is that ED is just not capable of doing anything dishonest.

I think, as somebody mentioned earlier, the people are watching and we should not be influenced by that, but I talked to my son the other night; he is a businessman, and he said: "They must be crazy to consider ED ROYBAL as a dishonest person."

I want to agree with the other speakers. I do not know what comes out of this. I hope we can reduce the charge to a reprimand, but whatever the charge is, I feel I have to vote against it because I consider ED one of the finest men who has ever represented California in the U.S. Congress.

Mr. SANTINI. Mr. Speaker, will the gentleman yield?

Mr. ROYBAL. I yield to the gentleman from Nevada.

Mr. SANTINI. Mr. Speaker, I merely want to join those who have spoken in recognition of the integrity and esteem and quality of this gentleman. I invite that as a fair consideration in deciding what punishment we are considering here. It is allowed as a relevant factor in every other punishment arena: You can and should consider his background and integrity. And if you can find one man or woman who has worked with ED ROYBAL who can specify one specific incident of lack of integrity, I would be willing to withhold my endorsement of the quality of this man. I say that because we are now considering the most devastating punishment this body has ever imposed on one of its Members in 57 years.

I invite the Members to include a second consideration. We are asked to make a judgment about whether this man lied, whether this man who is confronted with an incident that transpired 4 years previously spontaneously lied to his questioners. The gentleman from Oregon enunciated the pragmatic dilemma quite well. ED ROYBAL was asked to dredge from his memory something that took place in a 2- or 3-minute episode. Do you have a specific recollection of a fleeting episode involving a man you never saw before or since? We are all people who deal with this rule of human probability on a day-to-day basis. We must consider what is the most reasonable response that this man could make. I submit it is that the event did not happen. Had he offered another response or another thought, I think that would have been the indication of deceit, deception, or evasion. The fact that he did not remember is the demonstration, I feel, that this man is telling the absolute truth.

I believe that to the core of my soul. Please realize that this esteemed body has got to live with itself and be responsible for what it does in imposing final judgment in this case.

Let me add that I have been a justice of the peace and a district court judge. I have made my own fair share of errors, human errors. Our dedicated Ethics Committee is subject to the same human frailty in their decisionmaking. In our deliberation we will make a final decision that can destroy ED ROYBAL's professional and personal life. We are sitting here in judgment of one of our Members that must stand the scrutiny of successive Congresses. I urge you let us not err on the side of destroying his life.

The SPEAKER. The time of the gentleman has expired.

The gentleman from Georgia has 5 minutes remaining.

Mr. FLYNT. Mr. Speaker, I am glad to yield 1 minute to the gentleman from California (Mr. PANETTA) for the purposes of debate only.

Mr. PANETTA. Mr. Speaker, I thank the gentleman for yielding to me.

Mr. Speaker, this is a difficult task for this House and for each Member. Our responsibility, though, is twofold: It is to confirm the violation and findings recommended by the committee, and it is also to confirm the sentence that has been recommended by the committee. It is difficult to confirm the violation. The findings are contained in the report. It is impossible for us in this procedure to look at all of the evidence, or to have the time to do so. We must rely by necessity on the work of the committee. Thus let us assume the findings are correct.

But on the sentence we do have the freedom to look at what mitigating circumstances there are and what is a just punishment. I think there are three matters that should be considered: First, we should consider the issues raised by all of these cases today. They are similar cases; they all involve lies in varying degrees; they all involve receipt of funds from one man; they all involve misuse of money in one way or another. I think we ought to remember these are all similar in that respect, and thus a similar punishment should be provided to each.

Further, there is the fact that Mr. ROYBAL in no way used or misused his position in the Congress for Korea, or exchanged votes or favors in return for funds. There is absolutely no evidence of such misconduct.

Third, Mr. ROYBAL is a leader in his community. He has been an excellent Member of the Congress. He has a fine reputation.

I think those are all mitigating circumstances that must be considered; that demand that we should lower the sentence from censure to a reprimand. I urge the Members of the House in the name of justice to vote for the motion to recommit.

Mr. FLYNT. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. CORMAN).

Mr. CORMAN. Mr. Speaker, I have served in this House for 18 years. I once had a responsibility similar to those who serve on this Ethics Committee. We looked at the case of Adam Clayton Powell for some 6 weeks.

I ask you now and I plead with you to consider carefully the motion to recommit to reduce the penalty in this case from one of censure to one of reprimand. I ask you to base that not just on what has been done here today but on what this Congress has done over the past more than half a century. We have not censured a Member since 1921.

The committee recommended censure in the case of Adam Clayton Powell. I can tell you that the findings of the offenses in that case went way beyond anything that has been suggested in this case.

I personally cannot accept the findings of the committee, but for those who do, I ask you to look very carefully at the horrendously severe punishment of censure.

Let us ask ourselves this question: In the three cases in which we have reprimanded and in the finding of fact of violations by Mr. ROYBAL, how can we possibly say that his offense is that much more serious than the other three which we have acted on during the past two Congresses?

Mr. Speaker, when a motion is made to recommit to reduce the penalty, I urge my colleagues to search their consciences and to vote for that motion.

Mr. Speaker, I thank the chairman for yielding me this time.

Again, I urge my colleagues to support the motion to reduce the punishment in this case.

Mr. FLYNT. Mr. Speaker, I yield myself the 2 minutes which I have remaining so as to close debate before I move the previous question.

In response to my good friend, the gentleman from Oregon, let me read count 3:

> Having taken an oath before a competent tribunal, the respondent, Edward R. Roybal, did make the following false statements on material matters, which he then and there believed to be false:
>
> Q. Did Tongsun Park ever make a gift to you?
>
> A. No.
>
> Q. Did he ever offer to make a gift to you?
>
> A. No.
>
> Q. Did he ever make a contribution to any of your campaigns, either directly to you or to one of the committees which supported you?
>
> A. He never made a contribution directly to me; and if a contribution was made to my campaign, it would show up in the reports which I have given you.

Now, Mr. Speaker, let us come down to the hearing upon which Mr. ROYBAL, on cross-examination, was asked these questions:

> Q. Mr. Roybal, have you ever received any other contribution in cash as large as $1,000?
>
> A. No, sir.
>
> Q. Then this was the only occasion on which you received a contribution of that size?
>
> A. To my memory, that is true.
>
> Q. All the other contributions which you received had been duly reported, according to your testimony?
>
> A. Yes, sir.
>
> Q. A $1,000 cash contribution from a person you do not know is an event which would stand out in your mind, would it not?
>
> A. Yes, it would.

Mr. Speaker, those answers came from the respondent himself.

These statements, Mr. Speaker, I submit, form the basis, first, for the finding of fact, and second, for the recommendation which the committee made to the House of Representatives that the respondent, the gentleman from California (Mr. ROYBAL), be censured by the House.

PARLIAMENTARY INQUIRY

Mr. ASHBROOK. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state his parliamentary inquiry.

Mr. ASHBROOK. Mr. Speaker, earlier I propounded a parliamentary inquiry to the Speaker as to whether or not, under the rules and precedents of the House, House Resolution 1416, as it stands, would be divisible.

The SPEAKER. The Chair is ready to respond to the gentleman.

Mr. ASHBROOK. I appreciate that, Mr. Speaker.

The SPEAKER. The gentleman from Ohio (Mr. ASHBROOK) has requested an opinion as to whether the question on House Resolution 1416 may be divided.

To be the subject of a division of the question under the precedents of the House, a proposition must constitute two or more separate substantive propositions so that if one of the propositions is removed, the remaining proposition constitutes a separate and distinct question, and that test must work both ways.

In the opinion of the Chair, the questions are substantially equivalent questions. For that reason, the Chair holds that House Resolution 1416 is not subject to a demand for a division of the question.

Mr. ASHBROOK. I thank the Chair.

Mr. FLYNT. Mr. Speaker, I move the previous question on the resolution.

The previous question was ordered.

MOTION TO RECOMMIT

Mr. BOB WILSON. Mr. Speaker, I offer a motion to recommit.

The SPEAKER. Is the gentleman opposed to the resolution?

Mr. BOB WILSON. I am.

The SPEAKER. The Clerk will report the motion to recommit.

The Clerk read as follows:

> Mr. BOB WILSON moves to recommit the resolution, House Resolution 1416, to the Committee on Standards of Official Conduct with instructions to report the same back forthwith with the following amendment. Strike all after the resolving clause and insert:
>
> That EDWARD R. ROYBAL be and he is hereby reprimanded.

The SPEAKER. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

PARLIAMENTARY INQUIRY

Mr. CAPUTO. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER. The gentleman will state it.

Mr. CAPUTO. Is time allowed for debate?

The SPEAKER. The motion is not debatable.

The question is on the motion to recommit with instructions.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. FLYNT. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were refused.

Mrs. FENWICK. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 219, nays 170, answered "present" 1, not voting 40, as follows:

[Roll No. 915]

So the motion to recommit was agreed to.

The result of the vote was announced as above recorded.

AMENDMENT OFFERED BY MR. FLYNT

Mr. FLYNT. Mr. Speaker, pursuant to the instructions of the House, I report the resolution back to the House with an amendment.

The Clerk read as follows:

Amendment offered by Mr. FLYNT: Strike all after the resolving clause and insert: That EDWARD R. ROYBAL be and he is hereby reprimanded.

The amendment was agreed to.

The resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

SOLAR PHOTOVOLTAIC ENERGY RESEARCH, DEVELOPMENT AND DEMONSTRATION ACT OF 1978

Mr. McCORMACK. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the bill (H.R. 12874) to provide for an accelerated program of research, development, and demonstration of solar photovoltaic energy technologies leading to early competitive commercial applicability of such technologies to be carried out by the Department of Energy, with the support of the National Aeronautics and Space Administration, the National Bureau of Standards, the General Services Administration, and other Federal agencies, with a Senate amendment thereto, and concur in the Senate amendment.

The Clerk read the title of the bill.

The Clerk read the Senate amendment, as follows:

Strike out all after the enacting clause and insert:

That this Act may be cited as the "Solar Photovoltaic Energy Research, Development, and Demonstration Act of 1978."

FINDINGS AND POLICY

SEC. 2(a) The Congress hereby finds that—

(1) the United States of America is faced with a finite and diminishing resource base of native fossil fuels, and as a consequence must develop as quickly as possible a diversified, pluralistic national energy capability and posture;

(2) the current imbalance between supply and demand for fuels and energy in the United States is likely to grow for many years;

(3) the early demonstration of the feasibility of using solar photovoltaic energy systems for the generation of electricity could help to relieve the demand on existing fuel and energy supplies;

(4) the national security and economic well-being of the United States is endangered by its dependence on imported energy supplies which are subject to resource limitations, artificial pricing mechanisms which do not accurately reflect supply and demand relationships and supply interruptions;

(5) the early development and widespread utilization of photovoltaic energy systems could significantly expand the domestic energy resource base of the United States, thereby lessening its dependence on foreign supplies;

(6) the establishment of sizable markets for photovoltaic energy systems will justify private investment in plant and equipment necessary to realize the economies of scale, and will result in significant reductions in the unit costs of these systems;

(7) the use of solar photovoltaic energy systems for certain limited applications has already proved feasible;

(8) there appear to be no insoluble technical obstacles to the widespread commercial use of solar photovoltaic energy technologies;

(9) an aggressive research and development program should solve existing technical problems of solar photovoltaic systems; and, supported by an assured and growing market for photovoltaic systems during the next decade, should maximize the future contribution of solar photovoltaic energy to this Nation's future energy production;

(10) it is the proper and appropriate role of the Federal Government to undertake research, development, and demonstration programs in solar photovoltaic energy technologies and to supplement and assist private industry and other entities and thereby the general public, so as to hasten the general commercial use of such technologies;

(11) the high cost of imported energy sources impairs the economic growth of many nations which lack sizable domestic energy supplies or are unable to develop these resources;

(12) photovoltaic energy systems are economically competitive with conventional energy resources for a wide variety of applications in many foreign nations at the present time, and will find additional applications with continued cost reductions;

(13) the early development and export of solar photovoltaic energy systems, consistent with the established preeminence of the United States in the field of high technology products, can make a valuable contribution to the well-being of the people of other nations and to this Nation's balance of trade;

(14) the widespread use of solar photovoltaic energy systems to supplement and replace conventional methods for the generation of electricity would have a beneficial effect upon the environment;

(15) to increase the potential application of solar photovoltaic energy systems in remote locations, and to minimize the need for backup systems depending on fossil fuel, programs leading to the development of inexpensive and reliable systems for the storage of electricity should be pursued as part of any solar photovoltaic energy research, development, and demonstration program;

(16) evaluation of the performance and reliability of solar photovoltaic energy technologies can be expedited by testing of prototypes under carefully controlled conditions;

(17) commercial application of solar photovoltaic energy technologies can be expedited by early commercial demonstration under practical conditions;

(18) photovoltaic energy systems are currently adaptable on a life cycle, cost-justified basis for certain of the energy needs of the Federal Government, and will find additional applications as continued refinements improve performance and reduce unit costs;

(19) the Federal Government can stimulate innovation and economic efficiency in the production of photovoltaic energy systems through the development and implementation of policies to promote diversity and maximum competition between firms engaged in the research, manufacture, installation, and/or maintenance of these systems;

(20) innovation and creativity in the development of solar photovoltaic energy components and systems can be fostered through encouraging direct contact between the manufacturers of such systems and the architects, engineers, developers, contractors, and other persons interested in utilizing such systems; and

(21) it is contemplated that the ten-year program established by this Act will require the expenditure of $1,500,000,000 by the Federal Government.

(b) It is therefore declared to be the policy of the United States and the purpose of this Act to establish during the next decade an aggressive research, development, and demonstration program involving solar photovoltaic energy systems and in the long term, to have as an objective the production of electricity from photovoltaic systems cost competitive with utility-generated electricity from conventional sources. Further, it is declared to be the policy of the United States and the purpose of this Act that the objectives of this research, development, and demonstration program are—

(1) to double the production of solar photovoltaic energy systems each year during the decade starting with fiscal year 1979, measured by the peak generating capacity of the systems produced, so as to reach a total annual United States production of solar photovoltaic energy systems of approximately two million peak kilowatts, and a total cumulative production of such systems of approximately four million peak kilowatts by fiscal year 1988;

(2) to reduce the average cost of installed solar photovoltaic energy systems to $1 per peak watt by fiscal year 1988; and

(3) to stimulate the purchase by private buyers of at least 90 per centum of all solar photovoltaic energy systems produced in the United States during fiscal year 1988.

DEFINITIONS

SEC. 3. For purposes of this Act—

(1) a "solar photovoltaic energy system" is a system of components which generates electricity from incident sunlight by means of the photovoltaic effect, and which shall include all components, including energy storage devices where appropriate, necessary to provide electricity for individual, industrial, agricultural, or governmental use;

(2) the term "solar photovoltaic energy system" may be used interchangeably with the term "photovoltaic system";

(3) a "hybrid solar photovoltaic energy system" is a system of components that generates electricity from incident sunlight by means of the photovoltaic effect and, in conjunction with electronic and, if appropriate, optical, thermal and storage devices, provides electricity as well as heat and/or light for individual, commercial, industrial, agricultural, or governmental use;

(4) "photovoltaic effect" refers to the physical phenomenon exhibited under certain circumstances by some materials in which a portion of the light energy striking the material is directly converted to electrical energy;

(5) "facility" means any building, agricultural, commercial or industrial complex or other device constructively employing photovoltaic systems; and

(6) "Secretary" means the Secretary of Energy.

RESEARCH, DEVELOPMENT, AND DEMONSTRATION OF SOLAR PHOTOVOLTAIC ENERGY SYSTEMS

SEC. 4. The Secretary is directed to establish immediately and carry forth such research, development, and demonstration programs as may be necessary to meet the objectives of this Act as set forth in section 2(b), and as a part of any such program shall—

(a) conduct, and promote the coordination and acceleration of, research, development, and demonstrations relating to solar photovoltaic energy systems and components thereof, and

(b) conduct, and promote the coordination and acceleration of, research, development, and demonstrations for systems and components to be used in applications that are dependent for their energy on solar photovoltaic energy systems.

SEC. 5. (a) In carrying out the provisions of section (4), the Secretary is authorized—

(1) to establish procedures whereby any public or private entity wishing to install solar photovoltaic components and systems in any new or existing facility may apply for Federal assistance in purchasing and installing, in such facility, photovoltaic components or systems;

(2) to select, as soon as he deems it feasible, a number of the applicants under paragraph (1) and enter into agreements with them for the design, purchase, fabrication, testing, installation, and demonstration of photovoltaic components and systems. Such selection shall be based on the need to obtain scientific, technological, and economic information from a variety of such systems under a variety of circumstances and conditions; and

(3) to arrange, as part of any agreement entered into under paragraph (2), to provide up to 75 per centum of the purchase and installation costs of photovoltaic components or systems, taking into account relevant considerations involving the relative stage of consumer and industry interest and development at the time of the financial assistance action. Such arrangements shall be contingent upon terms and conditions prescribed by the Secretary, including an express agreement that the entity with whom the agreement is entered into shall, in such manner and form and on such terms and conditions as the Secretary may prescribe, observe and monitor (or permit the Secretary or his agents to observe and monitor) the performance and operation of such system for a period of five years, and that such entity (including any subsequent owner of the property) shall regularly furnish the Secretary with such reports thereon as the agreement may require.

(b) The Secretary shall, as he deems appropriate, undertake any projects or activities (including demonstration projects) to further the attainment of the objectives of this section.

SEC. 6. (a) The Secretary is authorized to select on the basis of open competitions—

(1) a number of readily available photovoltaic components and systems;

(2) a number of design concepts for various types of applications which demonstrate adaptability to the utilization of photovoltaic components and systems; and

(3) a number of designs for applications selected under paragraph (2), so that each design includes specific provisions for the utilization of solar photovoltaic components and systems selected under paragraph (1).

(b) The Secretary, in accordance with the applicable provisions of sections 7, 8, and 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5901 et seq.) and with such program guidelines as the Secretary may establish, shall—

(1) enter into such contracts and grants as may be necessary or appropriate for the development for commercial production and utilization of photovoltaic components and systems, including any further planning and design which may be required to conform with the specifications set forth in any applicable criteria;

(2) select, as being compatible with the design concepts chosen under subsection (a) (2) of this section, a reasonable number of photovoltaic components and systems; and

(3) enter into contracts with a number of persons or firms for the procurement of photovoltaic components and systems, including adequate numbers of spare and replacement parts for such systems.

(c) The Secretary is authorized to award contracts for the design integration between the application concepts and the photovoltaic systems procured by the Secretary under subsection (b) (3), and for the demonstration of prototype solar photovoltaic systems, and, when appropriate for the utilization of such systems in existing facilities. Title to and ownership of the facilities so constructed and of photovoltaic systems installed hereunder may be conveyed to purchasers of such facilities under terms and conditions prescribed by the Secretary, including an express agreement that any such purchaser shall, in such manner and form and on such terms and conditions as the Secretary may prescribe, observe and monitor (or permit the Secretary to observe and monitor) the performance and operation of such systems for a period of five years, and that such purchaser (including any subsequent owner) shall regularly furnish the Secretary with such reports thereon as the agreement may require.

(d) The Secretary, in consultation with the Administrator of General Services or the Secretary of Defense or both (as may be appropriate) shall enter into arrangements with appropriate Federal agencies concurrently with the conduct of the programs under this section and section 7 of this Act to carry out such projects and activities (including demonstration projects), with respect to Federal buildings and facilities, as may be appropriate for the demonstration of photovoltaic systems suitable and effective for use in such applications.

(e) The Secretary shall, as he deems appropriate, undertake any periods of activities (including demonstration projects) to further the attainment of the objectives of this section.

TEST PROCEDURES AND PERFORMANCE CRITERIA

SEC. 7. (a) The Secretary shall conduct a testing program for photovoltaic systems to assist in the development and demonstration of prototype photovoltaic systems, including collectors, controls, power conditioning, and energy storage systems.

(b) Data obtained from the testing program under subsection (a) shall be evaluated and used in establishing performance criteria. These performance criteria shall be used in the demonstration program described in sections 4, 5, and 6 of this Act.

(c) The Secretary shall determine, prescribe, and publish in the Federal Register, at a time which he determines to be feasible and justified—

(1) performance criteria for photovoltaic components and systems to be used in appropriate applications, and procedures whereby manufacturers of photovoltaic components and systems shall have their products tested in order to provide certification that such products conform to the performance criteria established under this paragraph; and

(2) revised performance criteria for photovoltaic components and systems to be used in appropriate applications, and procedures whereby manufacturers of photovoltaic components and systems shall have their products tested in order to provide certification that such products conform to the performance criteria established under this paragraph. Such criteria may be annually revised by the Secretary, as he deems appropriate.

(d) Any photovoltaic component or system procured or installed by the Federal Government or procured or installed with Federal assistance under section (5) or section (6) shall meet appropriate performance criteria prescribed under this section, if such performance criteria have been prescribed.

COORDINATION MONITORING, AND LIAISON

SEC. 8. (a) The Secretary, in coordination with such Government agencies as may be appropriate, shall—

(1) monitor the performance and operation of photovoltaic systems installed under this Act;

(2) collect and evaluate data and information on the performance and operation of pholtovoltaic systems installed under this Act; and

(3) from time to time carry out such studies and investigations and take such other actions, including the submission of special reports to the Congress when appropriate, as may be necessary to assure that the programs for which the Secretary is responsible under this Act effectively carry out the policy of this Act.

(b) In the development of the performance criteria and test procedures required under section 7 of this Act, the Secretary shall work closely with the appropriate scientific, technical, and professional societies and industry representatives in order to assure the best possible use of available expertise in this area.

(c) The Secretary shall also maintain continuing liaison with related industries and interests, and with the scientific and technical community, during and after the period of the programs carried out under this Act, in order to assure that the projected benefits of such programs are and will continue to be realized.

SOLAR PHOTOVOLTAIC ENERGY ADVISORY COMMITTEE

SEC. 9. (a) There is hereby established a Solar Photoboltaic Advisory Committee, which shall study and advise the Secretary on—

(1) the scope and pace of research and development with respect to solar photovoltaic energy systems;

(2) the need for and timing of solar photovoltaic energy systems demonstration projects;

(3) the need for change in any research, development, or demonstration program established under this Act; and

(4) the economic, technological, and environmental consequences of the use of solar photovoltaic energy systems.

(b) The Committee shall be composed of thirteen members, including eleven members appointed by the Secretary from industrial organizations, academic institutions, professional societies or institutions, and other sources as he sees fit, and two members of the public appointed by the President. The Chairman of the Committee shall be elected from among the members thereof.

(c) The heads of the departments, agencies, and instrumentalities of the executive branch of the Federal Government shall cooperate with the Committee in carrying out the requirements of this section, and shall furnish to the Committee such information as the Committee deems necessary to carry out this section.

(d) Section 624 of the Department of Energy Organization Act shall be applicable to the Committee, except as inconsistent with this section.

DISSEMINATION OF INFORMATION AND OTHER ACTIVITIES TO PROMOTE PRACTICAL USE OF SOLAR PHOTOVOLTAIC TECHNOLOGIES

SEC. 10. (a) The Secretary shall take all possible steps to assure that full and complete information with respect to the demonstrations and other activities conducted under this Act is made available to Federal, State, and local authorities, relevant segments of the economy, the scientific and technical community, and the public at large, both during and after the close of the programs under this Act, with the objective of promoting and facilitating to the maximum extent feasible the early and widespread practical use of photovoltaic energy throughout the United States. Any trade secret or other proprietary information shall be exempted from such mandatory disclosure, as otherwise specified in law applicable to research, development and demonstration programs of the Department of Energy, including, but not limited to, section 17 of the Federal Non-Nuclear Energy Research and Development Act of 1974, Public Law 93-577, as amended.

(b) The Secretary shall—

(1) study the effect of the widespread utilization of photovoltaic systems on the existing electric utility system at varying levels of photovoltaic contribution to the system;

(2) study and investigate the effect of utility rate structures, building codes, zoning ordinances, and other laws, codes, ordinances, and practices upon the practical use of photovoltaic systems;

(3) determine the extent to which such laws, codes, ordinances, and practices should be changed to permit or facilitate such use, and the methods by which any such changes may best be accomplished; and

(4) determine the necessity of a program of incentives to accelerate the commercial application of photovoltaic technologies.

(c) The Secretary is authorized and directed, within one year of the date of enactment of this Act, to make recommendations to the President and to the Congress for Federal policies relating to barriers to the early and widespread utilization of photovoltaic systems in order to realize the goals set forth in section 2. These recommendations shall include but not be limited to—

(1) the potential for integration of electricity derived from photovoltaic energy systems into the existing national grid system, including the potential of photovoltaic-generated electricity to meet the peak-load energy needs of electric utilities, load management and reliability implications of the utilization of photovoltaic electricity by utilities, the implications of utility ownership of photovoltaic components leased to others primarily for decentralized applications, the impacts of utility use of electricity derived from photovoltaic energy systems on utility rate structures, and the potential for reducing or obviating the need for energy storage components for photovoltaic systems through utility interface;

(2) the extent of competition between firms currently engaged in the fabrication and installation of photovoltaics components and systems as it affects the character and growth potential of the American photovoltaics industry, and the likelihood that small photovoltaic firms will have reasonable opportunities to compete and participate in the various programs authorized by this Act;

(3) the need to identify legal alternatives to ensure access to direct sunlight for photovoltaic energy systems, the appropriate methods of encouraging the adoption of such alternatives, and the implications of widespread utilization of photovoltaic energy systems for land use and urban development;

(4) the availability of private capital at reasonable interest rates for individuals, businesses and others desiring to establish commercial enterprises to manufacture, market, install, and/or, maintain photovoltaic components and systems, or purchase and install such systems for private, industrial, agricultural, commercial or other uses;

(5) the need for industry-wide warranty and reliability standards for photovoltaic energy components and systems for private sector applications, and, if appropriate, the mechanisms for establishing such standards; and

(6) the attainability of the goals specified in subsection 2(b), and any modification of such goals which the Secretary proposes for consideration by Congress, with supporting analyses.

(d) In carrying out his functions under this section, the Secretary shall consult with the appropriate government agencies, industry representatives, and members of the scientific and technical community having expertise and interest in this area. The Secretary also shall ensure that any study or report prepared pursuant to this section is fully coordinated with and reflective of any analyses or reports prepared pursuant to the requirements in section 208 of the Department of Energy Act of 1978—Civilian Applications, Public Law 95-238, and in the President's Solar Energy Domestic Policy Review. The Secretary, as appropriate, may merge any continuing or on-going studies under section 208 or the Domestic Policy Review with those required by this section or avoid any unnecessary duplication of effort or funding. The separate report requirements of section 208 and this section, however, shall remain in force.

INTERNATIONAL PARTICIPATION AND COOPERATION

SEC. 11. (a) Within one year after the date of the enactment of this Act, the Secretary, in consultation with the Secretary of State, the Administrator of the Agency for International Development, the Director of ACTION, the Director of the Export/Import Bank and other appropriate Federal officials, shall submit to the House Committee on Science and Technology and the Senate Committee on Energy and Natural Resources a plan for demonstrating applications of solar photovoltaic energy systems and facilitating their widespread use in other nations, especially those with agreements for scientific cooperation with the United States.

(b) The Secretary is authorized to encourage, to the maximum extent practicable, international participation and cooperation in the development and maintenance of programs established under this plan. The Secretary, in consultation and cooperation with the Federal officials specified in subsection (a), shall insure to the maximum extent possible that the plan submitted under subsection (a) and any other international activities under this section are consistent with and reflective of any similar activities or requirements under any other Federal statute, specifically including any of the several pro-

grams under other agencies and Departments involving United States international cooperation and assistance in nonnuclear energy technology, and will not duplicate activities under such programs. The plan required in subsection (a) shall specifically identify all such programs and statutes and describe how the activities under this section will be consistent with such programs, will be coordinated with them, and will avoid duplication of activities under such programs.

ENCOURAGEMENT AND PROTECTION OF SMALL BUSINESS

SEC. 12. In carrying out his functions under this Act, the Secretary shall take steps to assure that small-business concerns will have realistic and adequate opportunities to participate in the programs under this Act to the maximum extent practicable, and the Secretary is directed to set aside at least 10 per centum of the funds authorized and appropriated for the participation of small business concerns.

PRIORITIES

SEC. 13. The Secretary shall set priorities, as far as possible consistent with the intent and operation of this Act, in accordance with the following criteria:

(1) The applications utilizing photovoltaic systems which will be part of the research, development, and demonstration program and testing and demonstration programs referred to in sections 4, 5, 6, and 7 shall be located in a sufficient number of different geographic areas in the United States to assure a realistic and effective demonstration of the use of photovoltaic systems and of the applications themselves, in both rural and urban locations and under climatic conditions which vary as much as possible.

(2) The projected costs of commercial production and maintenance of the photovoltaic systems utilized in the testing and demonstration programs established under this Act should be taken into account.

(3) Encouragement should be given in the conduct of programs under this Act to those projects in which funds are appropriated by any State or political subdivision thereof for the purpose of sharing costs with the Federal Government for the purchase and installation of photovoltaic components and systems.

SEC. 14. Nothing in this Act shall be construed to negate, duplicate, or otherwise affect the provisions of title V (Federal Initiatives), part 4 (Federal Photovoltaic Utilization), National Energy Conservation Policy Act, H.R. 5037, 95th Congress, if and when that Act becomes enacted by the Ninety-fifth Congress, and such part 4 shall be exempted fully from the provisions of this Act and any regulations, guidelines, or criteria pursuant thereto.

AUTHORIZATION OF APPROPRIATIONS

SEC. 15. There is hereby authorized to be appropriated to the Secretary, for the fiscal year ending September 30, 1979, $125,000,000, inclusive of any funds otherwise authorized for photovoltaic programs, (1) to carry out the functions vested in the Secretary by this Act, (2) to carry out the functions in fiscal year 1979, vested in the Secretary by part 4 of title V of H.R. 5037, 95th Congress, if enacted by the 95th Congress, and (3) for transfer to such other agencies of the Federal Government as may be required to enable them to carry out their respective functions under this Act. Funds appropriated pursuant to this section shall remain available until expended: *Provided*, That any contract or agreement entered into pursuant to this Act shall be effective only to such extent or in such amounts as are provided in advance in appropriation Acts. Authorizations of appropriations for fiscal years after fiscal year 1979 shall be contained in the annual authorization for the Department of Energy, except for those funds authorized for fiscal years 1980 and 1981 contained in part 4 of title V of H.R. 5037, Ninety-fifth Congress, if enacted by the Ninety-fifth Congress.

Mr. McCORMACK (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendment be considered as read and printed in the RECORD.

The SPEAKER pro tempore (Mr. GIAIMO). Is there objection to the request of the gentleman from Washington?

Mr. BAUMAN. Mr. Speaker, reserving the right to object, I do so to ask the gentleman from Washington exactly what the request is, and secondly, specifically whether there are any nongermane amendments that have been attached by the other body?

Mr. McCORMACK. Mr. Speaker, will the gentleman yield?

Mr. BAUMAN. I yield to the gentleman from Washington.

Mr. McCORMACK. In the first place, the bill is the Solar Photovoltaic Research, Development, and Demonstration Act of 1978, which passed this House on June 28 by a vote of 385 to 14. There are no nongermane amendments in the bill.

Mr. BAUMAN. This request is to concur in a Senate amendment?

Mr. McCORMACK. This request is to concur in a Senate amendment.

Mr. BAUMAN. I thank the gentleman.

Mr. GOLDWATER. Mr. Speaker, will the gentleman yield?

Mr. BAUMAN. I yield to the gentleman from California.

Mr. GOLDWATER. Mr. Speaker, I rise in support of H.R. 12874, the Solar Photovoltaic Energy Research, Development, and Demonstration Act of 1978. The excellent summary of this bill provided by the chairman of our subcommittee, the Honorable MIKE McCORMACK of Washington, most clearly indicates the benefits of this legislation. In working with the gentleman from Washington, it was apparent to me that he has done a very fine job in formulating this piece of legislation. His qualities of leadership are certainly evident in the bill now before us. This legislation represents an outstanding example of a case where both the majority and minority sides of Congress have worked together in forging a legislative mandate to help direct our Nation's energy efforts.

At the same time, I would also like to commend the Senator from Hawaii, Mr. MATSUNAGA, for his work in moving this legislation through the other body. His dedication is certainly noteworthy. Were it not for his efforts, we would not be able to be in a position to send this bill to the President today. We should be greatly appreciative of his efforts and the efforts of Senators HATFIELD, DOMENICI, and MATHIAS, who cosponsored this bill in the other body, in helping our Nation direct its efforts to alleviate our dependence on foreign oil supplies.

Solar photovoltaic energy technology shows great potential for contributing to our future energy needs in an environmentally acceptable manner. The bill before us provides for a focused, goal-oriented research, development, and demonstration program that will lead to the development of cost-competitive solar photovoltaic energy systems. These systems can be used in both central and dispersed applications, supplying energy for such diverse purposes as satellites, small communities, homes, and irrigation pumps.

As ranking minority member of the subcommittee which considered this bill, and as a cosponsor of the measure, I urge my colleagues to agree to the Senate amendment and allow the bill to be sent to the President. Although the bill originally passed by the House would have provided what I feel would have been a more focused program, I am pleased to see that the other body has provided some beneficial refinements to the program established by this legislation.

For example, I am particularly pleased to see that they have recognized the need to insure meaningful small business participation in this program. Small business concerns will certainly play a major role in any effort to commercialize solar photovoltaic energy technologies on a widespread scale. While I am not sure that the numerical set-aside provision for small businesses as now provided is the best approach to guarantee this participation, it is necessary to insure that these concerns are given a realistic and adequate opportunity to participate in the program. I, therefore, support the Senate amendment to this legislation, and urge my colleagues to do the same.

Mr. McCORMACK. Mr. Speaker, will the gentleman yield further?

Mr. BAUMAN. I yield to the gentleman from Washington.

Mr. McCORMACK. Mr. Speaker, H.R. 12874, the "Solar Photovoltaic Energy Research, Development and Demonstration Act of 1978" was passed by the Senate last Tuesday evening, October 10. The Senate incorporated several changes in this legislation, which the House passed on June 28 by a vote of 385 to 14.

Since Tuesday evening, Congressmen TEAGUE, FUQUA, GOLDWATER, and I, with the assistance of our committee staff, have painstakingly sifted through and reviewed the changes made in H.R. 12874 by the Senate. With only a few qualifications, we have concluded that these changes are acceptable to the House sponsors and we urge this body to accept them, thereby sending this important piece of solar energy legislation to the President for signature.

The basic philosophy undergirding this bill is that the time has come to develop a focused, goal-oriented solar photovoltaic research, development and demonstration program that is based on a cooperative effort between the Federal Government and private industry. The program set forth in H.R. 12874 assures that a realistic attempt will be made to make solar photovoltaics a viable, practical, cost-effective energy conversion technology, having wide applications in this country and abroad, before the end of this century.

The bill dedicates the Nation to a 10-year program in solar photovoltaic en-

ergy technologies. It sets clear goals relating to advances in this technology, including reductions in the cost of photovoltaic systems.

H.R. 12874 calls for the annual doubling of the total U.S. production of photovoltaic systems for 10 years starting in 1979. Doubling production each year will constitute an unusually aggressive program. It will result in photovoltaic production in 1988 being 1,000 times larger than it is today. Thus, the production in that year alone will be 2 million peak kilowatts of photovoltaic capacity, with a cumulative total of 4 million peak kilowatts capacity in photovoltaic systems produced during that 10-year period.

The bill also sets as an unusually ambitious goal, reduction in the cost of photovoltaic systems to $1.00 per peak watt sometime late in this century.

In the initial years of the program, funding will be heavily weighted toward research and development. A major research and development effort is necessary to solve technical problems that are presently hindering the attainment of the cost-reduction and market-development goals I have just described. This effort includes R. & D. on all components and types of photovoltaic systems that show promise.

The Department of Energy is also directed to undertake research and development on equipment that would effectively utilize photovoltaic systems as a source of electricity. Such R. & D. is to be done as needed. For instance, we need a variable-speed, direct-current pump for irrigation systems powered by photovoltaic systems.

As the program evolves in subsequent years, the funding for research and development will gradually diminish while funding for market development demonstrations will be increased. These demonstration activities will be in both the public and private sectors, with the Federal Government providing up to 75 percent of the cost of purchase and installation of photovoltaic systems, during the first phases of the 10-year program. The market-development demonstration in the private sector should be targeted toward those applications that may be marginally cost effective as photovoltaic systems at the time of the demonstration. As the cost of photovoltaic systems declines, the demonstration activity should be shifted to those new applications that have become marginally cost effective as a result of the lowered system costs. Thus, we will be establishing an expanding market in the private sector that we hope will be self-sustaining at the conclusion of this 10-year program.

The demonstration of photovoltaic systems in Federal applications is spelled out in detail in the National Energy Act which we are debating in this body in the closing days of the 95th Congress. It was this body's intention when we sent the bill to the Senate in June that the statutory language in the National Energy Act pertaining to Federal purchases and demonstration of photovoltaics in Federal applications shall take precedence over language in this legislation on that subject. The Senate added section 14 to clarify this possible point of confusion and I commend them for taking that action.

I take this opportunity to explain to this body a few of the changes made by the other body during its deliberations on this legislation. Changes in the findings, inserted in the bill by the other body, alter the tone of the bill, implying that photovoltaic electricity may or will be competitive with conventional electricity within a decade. While we would be most happy with such a development, honesty demands that it is not realistic to expect it; and misleading to hold it out as a possibility to the people of this country or the world.

In addition to some rather optimistic findings, the Senate added a long-term objective of having photovoltaics competitive with utility grid electricity. While we would all like to see this technology attain this objective, it is unrealistic to expect that this will happen by the end of the program, or even by the end of the century. The goals in the bill and the aggressive program in the bill should bring the production level up, and the cost down, to the point where photovoltaic systems will be competitive for some applications in areas of this country where electricity is otherwise unavailable or expensive; and also in other countries in the world where there are virtually no electrical energy supply systems at all.

Even if photovoltaic generation of electricity is not economically competitive with conventional grid electricity, however, there may be instances, especially in areas such as the Southwest where there is high solar insolation at the same time there is a high demand for air conditioning and irrigation systems, where mass produced, lower cost photovoltaic systems will be appropriate for peaking power.

We must keep in mind that even at our eventual very optimistic goal of $1 per peak watt for photovoltaic systems, the electricity thus produced will cost 10 to 12 cents per kilowatt hour. This is more expensive than almost any baseload electricity being sold today in this country. Unfortunately, attaining our ambitious goal for photovoltaics give us no better than the highest price we find in this country today for utility grid electricity.

We must keep some facts in perspective. It is not necessary for photovoltaic electricity to be competitive with utility grid electricity for the program to be successful. We will have created an industry with international and domestic sales of several billion dollars per year, even if photovoltaic electricity does not compete with conventional utility grid electricity. We will also be providing solar electricity for several million of the world's rural inhabitants; and we will have created the industrial base necessary to take us to the next milestone.

In the other body several new findings were inserted in the bill which we find excessive and unrealistic. Finding No. 5, for instance, says that "the early development and widespread utilization of photovoltaic energy systems could significantly expand the domestic energy resource base of the United States, thereby lessening its dependence on foreign supplies."

Unfortunately, this is not true. Even the continued production of 1,000 peak megawatts per year of photovoltaic systems would provide, by the end of the century, less than the equivalent of 200,000 barrels of oil a day as compared to a consumption at that time of about 60 million barrels a day. Saving 200,000 barrels a day of oil is a meaningful contribution which is well worth all the effort planned in this bill, but it would not significantly relieve the desperate need for this Nation to dramatically increase the production of electricity from conventional sources such as coal and nuclear fission.

Finding No. 12 states that "photovoltaic energy systems are economically competitive with conventional energy resources for a wide variety of applications in many foreign nations at the present time, and will find additional applications with continued cost reductions." Unfortunately, this is a gross exaggeration. The fact is that photovoltaic systems are today economically competitive only with some very expensive small scale facilities for the generation of electricity in remote areas of some foreign nations. We expect that photovoltaic systems will become more competitive as the program moves forward.

We would strike finding No. 19 as being confusing and unnecessary.

I am disappointed that this body was denied the opportunity to work with the Senate in regard to the 10 percent small business set-aside added by that body. Though small business participation in the photovoltaic program is presently running at approximately 20 percent, it may become difficult in the later years of the program when the emphasis is on market development to find enough small business manufacturers to utilize 10 percent of the funds. While we recommend accepting the Senate language, the Committee on Science and Technology will address this subject during oversight hearings next year.

Mr. Speaker, I take this opportunity to commend the efforts of Senators JACKSON, MATSUNAGA, and DURKIN in getting H.R. 12874 through the crowded legislative calendar in the other body. This is an important piece of energy legislation which will take the technology of solar photovoltaic energy conversion out of the laboratories and into the marketplace where it can contribute to the energy needs of our Nation.

Once again, I urge my colleagues to concur with the amendments made by the other body and send this bill to the President for signature.

● Mr. FUQUA. Mr. Speaker, I support H.R. 12874, the Solar Photovoltaic Energy Research, Development and Demonstration Act of 1978, and urge my colleagues to concur with the Senate amendments.

This bill provides for a focused, goal-oriented research, development and demonstration program over the next decade relating to solar photovoltaic energy systems. The bill was reported from the Committee on Science and Technology by unanimous vote and was passed by the House on June 28 by the overwhelming margin of 385 to 14.

This legislation has been strongly supported and passed by the other body. The amendments offered by the other body are acceptable to the House sponsors of this bill.

I would like to congratulate Congressman MIKE MCCORMACK, the chairman of the Subcommittee on Advanced Energy Technologies and Energy Conservation Research, Development and Demonstration, and Congressman BARRY GOLDWATER, JR., ranking minority member of this subcommittee, for the fine work they have done in formulating this legislation and guiding it through the House. I also would like to compliment Chairman OLIN E. TEAGUE for his strong support and leadership on behalf of this legislation.

This bill is part of the continuing effort of the Committee on Science and Technology to introduce responsible, forward-looking legislation for energy research, development and demonstration. These energy programs are of great importance to the Nation, involving all of our States, including my own home State of Florida.

Again, I urge my colleagues to support this bill as amended and send it to the President for his signature.●

GENERAL LEAVE

Mr. MCCORMACK. Mr. Speaker, I ask unanimous consent that all Members may have general leave to revise and extend their remarks on the legislation under consideration anytime between now and adjournment sine die.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

Mr. BAUMAN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington to dispense with further reading of the Senate amendment?

There was no objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Washington?

There was no objection.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. PHILLIP BURTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous matter with respect to the omnibus park bill which passed earlier today.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

REQUEST FOR APPOINTMENT OF CONFEREES ON S. 2566, PENNSYLVANIA AVENUE DEVELOPMENT PLAN

Mr. PHILLIP BURTON. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the Senate bill (S. 2566) to amend the Pennsylvania Avenue Development Corporation Act of 1972 to authorize appropriations and borrowings from the U.S. Treasury for further implementation of the development plan for Pennsylvania Avenue between the Capitol and the White House, and for other purposes, with a Senate amendment to the House amendment thereto, disagree to the Senate amendment to the House amendment and agree to the conference asked by the Senate.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. BENNETT. Mr. Speaker, reserving the right to object—and I may object—the reason I am reserving the right to object is because this is a bill to develop the Pennsylvania Avenue area, and it has had added to it in the Senate a measure over there to end the cross Florida barge canal. The cross Florida barge canal is probably the most important project in the State of Florida, certainly the most important in any district. It is approved by the laws of the State of Florida, enacted by the legislature of the State of Florida. It has a good cost-benefit ratio, and it has good environmental impact statements. I thoroughly approve this project.

The Federal Government itself has put about $60 million into this project. My own constituents have put perhaps $10 million or $15 million into this project.

And to cavalierly add an amendment on the Senate side to this effect—and I never knew about it until a few minutes ago—and the Senator from Florida never even notified me he was adding that to this bill.

Therefore, Mr. Speaker, I am going to have to reserve the right to object.

Mr. CHAPPELL. Mr. Speaker, will the gentleman yield?

Mr. BENNETT. I yield to the gentleman from Florida (Mr. CHAPPELL).

Mr. CHAPPELL. Mr. Speaker, are there any nongermane amendments added to this?

Mr. PHILLIP BURTON. If the gentleman will yield, I have been advised the answer to that is there are not nongermane amendments.

I say to my colleagues from Florida, this is not a House initiative. We have very legitimate concerns about the San Antonio missions, and the other body in its infinite wisdom added this to the bill.

I do not know whether we can say we have been very successful, marginally successful, or just partially successful with the Senate in this subject area. I am going to do all I can to see that the House position is sustained. I cannot affirm what the result will be, given the realities of the last two weeks in this policy area.

I might note that some evidence of the other body's determination is that I was forced to yield on a matter of intimate concern to me, on a park I personally established in our city that was virtually universally supported, so I can just do the best I can.

I am determined to bring back, if I can, the San Antonio Missions bill and if there is an objection I will move we be permitted to go to conference.

Mr. CHAPPELL. Mr. Speaker, further reserving the right to object, it is my understanding the particular project to which my colleague has alluded is a project which has jurisdiction in the Public Works Committee, and as I understand it there have been no hearings in either the Interior Committee or in the Public Works Committee. Is that correct?

Mr. PHILLIP BURTON. Mr. Speaker, if the gentleman will yield, without giving in to the jurisdictional interpretation, the gentleman is correct, our committee has never had a hearing. I am unaware that our House Public Works Committee has ever had a hearing on this matter. I suspect they have not, but there may be other members of the Public Works Committee that can attest to that. I gather from the reaction of some of my colleagues that the Public Works Committee has not had a hearing.

This amendment is not in any way a House initiative. This is something the House has been handed and we have to go to conference because we do have items in the bill that represent House initiatives.

Particularly I make reference to the San Antonio Missions.

Mr. CHAPPELL. Mr. Speaker, reserving further the right to object, do I understand the gentleman will hold to the House position with reference to that amendment, which I perceive to be nongermane, and attempt to sustain the House position on that particular proposition?

Yes, I will hold to it, but my primary concern is that the San Antonio Missions be approved by both Houses.

And I am not sure how wise it is to discuss this matter in this context, but the primary concern must be the San Antonio Missions and I do not know what other balancing considerations will be engaged in. I simply cannot anticipate that.

Mr. FASCELL. Mr. Speaker, will the gentleman yield?

Mr. BENNETT. Further reserving the right to object, I yield to the gentleman from Florida.

Mr. FASCELL. Mr. Speaker, I thank the gentleman for yielding, I must state in the record at this point that the Members from Florida certainly are not all in agreement about this project. My own position is that this project has to be deauthorized to eliminate any vestige of doubt that it might in some way be resurrected. The project has not been funded for some considerable length of time. Very serious decisions have been made in the State of Florida both by the Governor and the cabinet in strong opposition to this project. Many steps have been taken to stop the project and reverse the environmental and other damage.

I advise the chairman, the gentleman from California, Mr. PHILLIP BURTON, who is asking to go to conference, there are many persons, organizations, governmental units, and Members of both the House and Senate who support deauthorization of this project, the Cross Florida Barge Canal.

Mr. McCORMACK. Mr. Speaker, if the gentleman will yield, we have been checking on the Committee on Public Works and Transportation, and we understand there have been no hearings held on this at all.

Mr. BENNETT. I may add that I think also there is no departmental report adverse to this. In other words, it has not had hearings, and the Federal Government has invested over $60 million in it, and my local constituents have invested about $10 to $15 million.

Mr. FITHIAN. Mr. Speaker, will the gentleman yield?

Mr. BENNETT. I yield to the gentleman from Indiana.

Mr. FITHIAN. Mr. Speaker, I have asked the gentleman to yield for the purpose of engaging the chairman in a colloquoy.

Does the bill, as now drafted, contain an addition to the Indian Dunes National Lakeshore Park?

Mr. PHILLIP BURTON. Mr. Speaker, if the gentleman will yield, let me respond to the question of the gentleman from Indiana. The answer is yes. The Senate provision contains an addition to the Indiana Dunes National Laqeshore Park.

Mr. FITHIAN. Mr. Speaker, I thank the gentleman for his comments. It is my understanding that these are the provisions which were in the House-passed bill 2 years ago.

I urge the gentleman to support the inclusion of the Indiana Dunes National Lakeshore Park, and would urge further that if, for whatever reason, the conference fails to include the addition to the Indiana Dunes the gentleman and his committee will take this up at the earliest opportunity next year.

Mr. PHILLIP BURTON. Mr. Speaker, if the gentleman will yield further, if I may respond, the committee staff informs me this is the same proposal that passed 2 years ago. We did have any hearings on the gentleman's bill with respect to the Indiana Dunes National Lakeshore Park this year, the committee deciding that that was beyond the priorities for this year.

I could not say, in all candor to the gentleman that we will accept this amendment, certainly, if that does not happen, because of the decision the committee has made in its earlier judgment, it would be my intention to give this matter the earliest possible priority next year.

Mr. FITHIAN. I thank the gentleman for his comments and urge the conferees to retain the amendment included in the Senate-passed bill.

Mr. BENNETT. Mr. Speaker, further reserving the right to object, I said when I started off that I probably would object, but I did want to get this information before the Congress. My own feeling is that the Senate should not be allowed to add on, and never tell the House Members who are involved. This project of course runs through two or three congressional districts and all the Members of Congress in the areas involved vigorously support this project. We have been taxing ourselves now for 10 or 15 years to provide for it.

I was not informed by the Senator from Florida that he was going to add this on.

Mr. PHILLIP BURTON. Mr. Speaker, the gentleman from California was not informed either that it would be added to this bill.

Mr. BENNETT. Mr. Speaker, the easiest thing for me to do is just to object. Therefore, I object.

The SPEAKER pro tempore. Objection is heard.

CONFERENCE REPORT ON H.R. 12050, TUITION TAX CREDIT ACT OF 1978

Mr. ULLMAN submitted the following conference report and statement on the bill (H.R. 12050) to amend the Internal Revenue Code of 1954 to provide a Federal income tax credit for tuition:

CONFERENCE REPORT (H. REPT. No. 95–1790)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 12050) to amend the Internal Revenue Code of 1954 to provide a Federal income tax credit for tuition, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Tuition Tax Credit Act of 1978".

SEC. 2. CREDIT FOR CERTAIN TUITION.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1954 (relating to credits allowable) is amended by inserting before section 45 the following new section:

"SEC. 44C. CERTAIN TUITION.

"(a) GENERAL RULE.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to 35 percent of the tuition paid by him for the calendar year in which such taxable year begins to one or more eligible educational institutions for himself, his spouse, or any of his dependents (as defined in section 152).

"(b) MAXIMUM DOLLAR AMOUNT.—The maximum dollar amount allowable as a credit under subsection (a) with respect to tuition for any individual shall not exceed the applicable amount determined under the following table:

"Calendar year:	Applicable amount in case of— Student at secondary school	Student at postsecondary school
1978	$50	$100
1979	100	150
1980 or 1981	100	250

"(c) APPLICATION WITH OTHER CREDITS.—The credit allowed by subsection (a) shall not exceed the tax imposed by this chapter for the taxable year, reduced by the sum of the credits allowable under a section of this subpart having a lower number or letter designation than this section, other than the credits allowable by sections 31, 39, and 43.

"(d) PAYMENTS TAKEN INTO ACCOUNT.—

"(1) WHEN PAYMENTS MUST BE MADE AND EDUCATION FURNISHED.—Payments shall be treated as paid for any calendar year—

"(A) FOR 1978.—In the case of calendar 1978, only if such payments—

"(i) are made on or after August 1, 1978, and before February 1, 1979, and

"(ii) are for education furnished on or after August 1, 1978, and before January 1, 1979, or

"(B) FOR 1979 OR THEREAFTER.—In the case of any calendar year after 1978, only if such payments—

"(i) are made during such calendar year or during the 1-month period before or the 1-month period after such year, and

"(ii) are for education furnished during such calendar year.

"(2) TUITION MUST BE FOR GENERAL COURSE OF INSTRUCTION.—

"(A) IN GENERAL.—Tuition attributable to a course of instruction which is not a general course of instruction shall not be taken into account under subsection (a).

"(B) GENERAL COURSE OF INSTRUCTION DEFINED.—For purposes of subparagraph (A), the term 'general course of instruction' means a course of instruction—

"(i) which is offered by a secondary school, or

"(ii) for which credit is allowable toward a baccalaureate or associate degree by an institution of higher education, or a certificate of required course work at a vocational school,

but does not include any course of instruction which is part of the graduate program of the individual.

"(3) INDIVIDUAL MUST BE FULL-TIME STUDENT OR (FOR CALENDAR YEARS AFTER 1979) A QUALIFIED HALF-TIME STUDENT.—

"(A) IN GENERAL.—Amounts paid for the education of an individual shall be taken into account under subsection (a)—

"(i) for calendar year 1978 or 1979, only if such individual is a full-time student for such calendar year, or

"(ii) for any calendar year after 1979, only if such individual is a full-time student or a qualified half-time student for such calendar year.

"(B) FULL-TIME AND QUALIFIED HALF-TIME STUDENT DEFINED.—For purposes of this section—

"(i) The term 'full-time student' means any individual who, during any 4 calendar months during the calendar year, is a full-time student at an eligible educational institution.

"(ii) The term 'qualified half-time student' means any individual who, during any 4 calendar months during the calendar year, is a half-time student (determined in accordance with regulations prescribed by the Secretary) at an eligible educational institution. Regulations prescribed for purposes of the preceding sentence with respect to the determination of whether an individual is a half-time student shall not be inconsistent with regulations prescribed by the Commissioner of Education under section 411(a)(2)(A)(ii) of the Higher Education Act of 1965 for purposes of part A of title IV of such Act.

"(C) INDIVIDUAL WHO ATTENDS BOTH SECONDARY AND POSTSECONDARY INSTITUTION DURING SAME CALENDAR YEAR.—In the case of an individual who is a full-time student or a qualified half-time student at an eligible educational institution for any calendar year, for purposes of this section—

"(i) if such individual is a full-time student or a qualified half-time student for such year determined by taking into account only his status as a student at a postsecond-

ary institution, he shall be treated as a full-time student or a qualified half-time student (as the case may be) at such an institution, or

"(ii) if clause (i) does not apply, he shall be treated as a full-time student or a qualified half-time student (as the case may be) at a secondary school for such calendar year.

"(e) TUITION DEFINED.—

"(1) IN GENERAL.—For purposes of this section, the term 'tuition' means tuition and fees required for the enrollment or attendance of a student at an eligible educational institution, including required fees for courses.

"(2) CERTAIN AMOUNTS NOT INCLUDED.—The term 'tuition' does not include any amount paid, directly or indirectly, for—

"(A) books, supplies, or equipment for courses of instruction,

"(B) meals, lodging, transportation, or similar personal, living, or family expenses, or

"(C) education below the ninth-grade level.

"(3) AMOUNTS NOT SEPARATELY STATED.—If an amount paid for tuition includes an amount for any item described in subparagraph (A), (B), or (C) of paragraph (2) which is not separately stated, the portion of such amount which is attributable to such item shall be determined under regulations prescribed by the Secretary.

"(f) ELIGIBLE EDUCATIONAL INSTITUTION.—For purposes of this section—

"(1) ELIGIBLE EDUCATIONAL INSTITUTION.—The term 'eligible educational institution' means—

"(A) an institution of higher education,

"(B) a postsecondary vocational school, or

"(C) a secondary school.

"(2) INSTITUTION OF HIGHER EDUCATION.—The term 'institution of higher education' means an institution described in section 1201(a) or 491(b) of the Higher Education Act of 1965 (as in effect on January 1, 1978).

"(3) POSTSECONDARY VOCATIONAL SCHOOL.—The term 'postsecondary vocational school' means—

"(A) an area vocational education school as defined in subparagraph (C) or (D) of section 195(2) of the Vocational Education Act of 1963 (as in effect on January 1, 1978), which

"(B) is located in any State.

"(4) SECONDARY SCHOOL.—The term 'secondary school' means any school which provides education at one or more of the ninth, tenth, eleventh, or twelfth-grade levels and which is privately operated but only if it is—

"(A) accredited or approved under State law (or, in the case of a school in a State which has no procedure for the accreditation or approval of privately operated schools, which meets the requirements of State law relating to compulsory school attendance), and

"(B) exempt from taxation under section 501(a) as an organization described in section 501(c)(3).

The term 'secondary school' includes facilities which offer education for individuals who are physically or mentally handicapped as a substitute for public secondary education.

"(5) POSTSECONDARY INSTITUTION.—The term 'postsecondary institution' means an institution of higher education or a postsecondary vocational school.

"(6) MARITAL STATUS.—The determination of marital status shall be made under section 143.

"(g) Special Rules.—

"(1) TREATMENT OF CERTAIN SCHOLARSHIPS AND VETERANS' BENEFITS.—

"(A) OFFSET AGAINST TUITION DOLLAR FOR DOLLAR.—For purposes of this section, any amount received as a nontaxable scholarship or educational assistance allowance for any period shall be treated—

"(i) as used for tuition attributable to such period, and

"(ii) as tuition not paid by the taxpayer.

"(B) NONTAXABLE SCHOLARSHIP OR EDUCATIONAL ASSISTANCE ALLOWANCE DEFINED.—For purposes of subparagraph (A), the term 'nontaxable scholarship or educational assistance allowance' means—

"(i) a scholarship or fellowship grant (within the meaning of section 117(a)(1)) or similar award which is not includible in gross income, and

"(ii) an educational assistance allowance under chapter 32, 34, or 35 of title 38, United States Code.

"(2) TAXPAYER WHO IS A DEPENDENT OF ANOTHER TAXPAYER.—No credit shall be allowed to a taxpayer under subsection (a) for amounts paid for any calendar year for tuition for the taxpayer if such taxpayer is a dependent of any other person for a taxable year beginning in the calendar year in which the taxable year of the taxpayer begins.

"(3) SPOUSE.—No credit shall be allowed under subsection (a) for amounts paid for any calendar year for tuition for the spouse of the taxpayer unless—

"(A) the taxpayer is entitled to an exemption for his spouse under section 151(b) for the taxable year beginning in such calendar year, or

"(B) the taxpayer files a joint return with his spouse under section 6013 for such taxable year.

"(h) DISALLOWANCE OF CREDITED EXPENSES AS CREDIT OR DEDUCTION.—No deduction or credit shall be allowed under any other section of this chapter for any amount paid for tuition for any individual except to the extent that such amount exceeds the amount necessary for the allowance of the maximum amount which may be allowed under this section for tuition for such individual for the taxable year. The preceding sentence shall not apply to any amount paid for tuition by any taxpayer who, under regulations prescribed by the Secretary, elects not to apply the provisions of this section with respect to such tuition for the taxable year.

"(i) TERMINATION.—No credit shall be allowed under this section for education furnished after December 31, 1981."

(b) LIMITATION ON EXAMINATION OF BOOKS AND RECORDS.—Section 7605 of such Code (relating to time and place of examination) is amended by adding at the end thereof the following new subsection:

"(d) EXAMINATION OF BOOKS AND RECORDS OF CHURCH-CONTROLLED SCHOOLS.—Nothing in section 44C (relating to credit for tuition) shall be construed to grant additional authority to examine the books of account, or the activities, of any school which is operated, supervised, or controlled by or in connection with a church or convention or association of churches (or the examination of the books of account or religious activities of such church or convention or association of churches) except to the extent necessary to determine whether the school is an eligible educational institution within the meaning of section 44C(f)(1)."

(c) TAX CREDIT NOT TO BE CONSIDERED AS FEDERAL ASSISTANCE TO INSTITUTION.—Any educational institution which enrolls a student for whom a tax credit is claimed under this Act shall not be considered to be a recipient of Federal assistance under this Act.

(d) EXPEDITED REVIEW OF CONSTITUTIONALITY OF TUITION CREDIT.—

(1) CERTIFICATION OF QUESTIONS OF CONSTITUTIONALITY.—In any action brought in a district court of the United States, including an action for declaratory judgment or injunctive relief, concerning the constitutionality of any provision of section 44C of the Internal Revenue Code of 1954 (relating to credit for certain tuition) or any other provision of such Code relating to such section, the district court shall certify immediately all questions of constitutionality of such provision to the United States Court of Appeals for the circuit involved, which shall hear the matter sitting en banc.

(2) APPEAL TO SUPREME COURT.—Notwithstanding any other provisions of law, any decision on a matter certified under paragraph (1) shall be reviewable by appeal directly to the Supreme Court of the United States. Such appeal shall be brought no later than 20 days after the decision of the Court of Appeals.

(3) EXPEDITED CONSIDERATION.—It shall be the duty of the Court of Appeals and of the Supreme Court of the United States to advance on the docket and to expedite to the greatest possible extent the disposition of any matter certified under paragraph (1).

(4) SEPARABILITY.—If any provision of section 44C of the Internal Revenue Code of 1954 (or any other provision of such Code relating to such section), or the application thereof to any person or circumstances, is held invalid, the remainder of such provisions, and the application of such provisions to other persons or circumstances, shall not be affected.

(e) DISREGARD OF REDUCTION OF TAX LIABILITY.—Any reduction in the income tax liability of any individual by reason of section 44C of the Internal Revenue Code of 1954 (relating to credit for certain tuition) shall not be taken into account for purposes of determining the eligibility of such individual or any other individual for benefits or assistance, or the amount or extent of benefits or assistance, under any Federal program of educational assistance or under any State or local program of educational assistance financed in whole or in part with Federal funds.

(f) CONFORMING AMENDMENTS.—

(1) The table of sections for subpart A of part IV of subchapter A of chapter 1 of such Code is amended by inserting immediately before the item relating to section 45 the following:

"Sec. 44C. Certain tuition."

(2) Subsection (c) of section 56 of such Code (defining regular tax deduction) is amended by striking out "credits allowable under—" and all that follows and inserting in lieu thereof "credits allowable under subpart A of part IV other than under sections 31, 39, and 43."

(3) Subsection (b) of section 6096 of such Code (relating to designation of income tax payment to Presidential Election Campaign Fund) is amended by striking out "and 44B" and inserting in lieu thereof "44B, and 44C".

SEC. 3. EFFECTIVE DATE.

The amendments made by section 2 of this Act shall apply to taxable years ending on or after August 1, 1978, with respect to amounts paid on or after such date for education furnished on or after such date.

And the Senate agree to the same.

Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the

disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 12050) to amend the Internal Revenue Code of 1954 to provide a Federal income tax credit for tuition, submit the following joint statement to the House and the Senate in explanation of the effect of the action (other than action of a technical nature) agreed upon by the managers and recommended in the accompanying conference report.

ELIGIBLE EDUCATION INSTITUTIONS

House bill

The House bill provided that only tuition paid to an eligible educational institution is eligible for the credit. The term "eligible educational institution" was defined in the House bill to mean (1) an institution of higher education, (2) a postsecondary vocational school, (3) a secondary school, and (4) an elementary school.

Senate amendment

The Senate amendment provides that only educational expenses paid to institutions of higher education and postsecondary vocational schools are eligible for the credit.

Conference agreement

The conference agreement provides that only tuition paid to institutions of higher education, postsecondary vocational schools, and secondary schools is eligible for the credit.

PERCENTAGE OF TUITION PAYMENTS ELIGIBLE FOR CREDIT

House bill

The House bill provided a nonrefundable credit against income tax for an amount equal to 25 percent of the tuition paid by the taxpayer for the calendar year in which the taxable year begins to one or more eligible educational institutions for himself, his spouse, or any of his dependents.

Senate amendment

The Senate amendment is generally the same as the House provision except that the credit is for an amount equal to 50 percent of the educational expenses paid by the taxpayer during the taxable year.

Conference agreement

The conference agreement provides a nonrefundable credit against income tax for an amount equal to 35 percent of the tuition paid by the taxpayer for the calendar year in which the taxable year begins to one or more eligible educational institutions for himself, his spouse, or any of his dependents.

MAXIMUM AMOUNT OF CREDIT

House bill

The House bill provided two sets of dollar limits on the maximum amount of credit for each calendar year to which the new section 44C applied. One set, which applied to institutions of higher education and postsecondary vocational schools, provided a maximum credit of $100 for 1978, $150 for 1979, and $250 for 1980. The other set, which applied to elementary and secondary schools, provided for a maximum credit of $50 for 1978, $100 for 1979, and $100 for 1980. Generally, under the House bill, payments were to be taken into account for purposes of determining the maximum amount of credit if they were made during the calendar year (or during the month before or after the calendar year) for education furnished during such calendar year.

Senate amendment

In general, the Senate amendment provides for a maximum credit of $250 for expenses allocable to education furnished before October 1, 1980, and $500 for expenses allocable to education furnished after September 30, 1980.

Conference agreement

The conference agreement provides, with respect to institutions of higher education and postsecondary vocational schools, a maximum credit of $100 for 1978, $150 for 1979, $250 for 1980, and $250 for 1981. The conference agreement also provides, with respect to secondary schools, a maximum credit of $50 for 1978, $100 for 1979, $100 for 1980, and $100 for 1981. Tuition payments are to be taken into account for purposes of determining the maximum credit if they are made during the calendar year (or during the month before or after the calendar year) for education furnished during such calendar year.

DEFINITION OF TUITION

House bill

The House bill provided that the term "tuition" means tuition and fees required for enrollment or attendance of a student at an eligible educational institution, including required fees for courses. Under the House bill, tuition did not include amounts paid, directly or indirectly, for books, supplies, or equipment, for meals, lodging, transportation, or similar personal living or family expenses, or for education below the first-grade level (or for attendance at a kindergarten or nursery).

Senate amendment

The Senate amendment uses the term "educational expenses", but reaches results consistent with those reached by the term "tuition" in the House bill.

Conference agreement

The conference agreement provides that the term "tuition" means tuition and fees required for enrollment or attendance of a student at an eligible educational institution, including required fees for courses. Under the conference agreement, tuition does not include amounts paid, directly or indirectly, for books, supplies, or equipment, or for meals, lodging, transportation, or similar personal living or family expenses. With respect to secondary schools, the term "tuition" only takes into account tuition for education at grades 9 through 12. Where an amount paid for tuition includes any amount (not separately stated) for an item which is not tuition, the portion attributable to such item is to be determined under regulations.

Under the conference agreement, as under the House bill and the Senate amendment, tuition attributable to education which is part of the graduate program of the individual shall not be taken into account.

ELIGIBLE STUDENTS

House bill

The House bill provided that payments may be taken into account only with respect to full-time and qualified part-time students. Under the House bill, a qualified part-time student was one who is taking, during any 8 months of the calendar year, at least one-half of the course of instruction required of a full-time student.

Senate amendment

The Senate amendment provides that payments may be taken into account only with respect to full-time and half-time students. Under the Senate amendment a half-time student is one who, during any 4 months of the calendar year, is a half-time student determined in accordance with regulations prescribed by the Secretary of the Treasury. The Senate amendment provides that such regulations shall not be inconsistent with regulations prescribed by the Commissioner of Education for purposes of part A of title IV of the Higher Education Act of 1965. Under the Senate amendment expenses of a half-time student may not be taken into account unless paid or incurred after September 30, 1980.

Conference agreement

The conference agreement provides that tuition payments may be taken into account only with respect to full-time and half-time students. Under the conference agreement a half-time student is one who, during any 4 months of the calendar year, is a half-time student determined in accordance with regulations prescribed by the Secretary of the Treasury. The conference agreement provides that such regulations shall not be inconsistent with regulations prescribed by the Commissioner of Education for purposes of part A of title IV of the Higher Education Act of 1965. Under the conference agreement tuition payments with respect to a half-time student may not be taken into account unless paid or incurred for education furnished after December 31, 1979.

The conference agreement provides a special rule for individuals who attend both secondary and postsecondary institutions during the same year.

OFFSETS FOR SCHOLARSHIPS AND EDUCATIONAL ASSISTANCE ALLOWANCES

House bill

The House bill provided that any amount received as a nontaxable scholarship or educational assistance allowance was to be treated as used on a ratable basis for all expenses of the recipient for which such scholarship or allowance may be used, with the amount so used for tuition treated as an amount not paid by the taxpayer.

Senate amendment

The Senate amendment reduces the expenses which are eligible for the credit by the amount received as a nontaxable scholarship of educational scholarship or educational assistance allowance. The reduction under the Senate amendment is on a dollar-for-dollar basis so that each dollar of such a scholarship or allowance reduces the eligible expenses by $1.

In addition, the Senate amendment reduces the amount of the credit for amounts received under subpart 1 or 2 of part A of title IV of the Higher Education Act of 1965.

Conference agreement

The conference agreement provides that the amount taken into account for tuition payments is to be offset on a dollar-for-dollar basis for the amount received as a nontaxable scholarship or educational assistance allowance.

DISALLOWANCE OF EXPENSES AS DEDUCTION OR ANOTHER CREDIT

House bill

The House bill provided that, unless the taxpayer elected not to have the credit for tuition apply for the taxable year, no deduction or credit was to be allowed for amounts paid for tuition except to the extent that such amounts exceeded the amount necessary for the maximum amount which may be allowed under the credit for tuition.

Senate amendment

The Senate amendment contains a similar provision.

Conference agreement

The conference agreement includes the House provision.

TAXPAYER WHO IS A DEPENDENT OF ANOTHER TAXPAYER

House bill

The House bill provided that no credit was to be allowed for tuition paid for a taxpayer if the taxpayer is a dependent of another person.

Senate amendment

The Senate amendment contains a similar provision.

Conference agreement

The conference agreement includes the House provision.

CREDIT NOT TO BE CONSIDERED AS FEDERAL ASSISTANCE TO INSTITUTION

House bill

The House bill provided that an educational institution which enrolls a student for whom this credit is claimed is not to

be considered to be a recipient of Federal assistance by reason of this credit.

Senate amendment

No provision.

Conference agreement

The conference agreement includes the House provision.

EXAMINATION OF BOOKS AND RECORDS

House bill

The House bill provided that the new credit for tuition was not tc be construed as granting the Internal Revenue Service additional authority to examine the books and records of certain religious organizations.

Senate amendment

The Senate amendment contains the same provision as the House bill.

Conference agreement

The conference agreement includes this provision.

JUDICIAL REVIEW

House bill

The House bill provided a special procedure for testing the constitutionality of this credit for tuition.

Senate amendment

The Senate amendment contains the same provision as the House bill.

Conference agreement

The conference agreement includes this provision.

SEPARABILITY

House bill

No provision.

Senate amendment

The Senate amendment contains a separability provision with respect to this new credit.

Conference agreement

The conference agreement follows the Senate provision.

REPORTS TO CONGRESS

House bill

No provision.

Senate amendment

The Senate amendment provides for two reports to be made to the Congress with respect to the effectiveness of the Internal Revenue Service's enforcement of policies against racial and other discrimination in private education.

Conference agreement

The conference agreement does not include the Senate amendment.

EFFECTIVE DATE

House bill

The House bill provided that this credit was to apply to taxable years ending on or after August 1, 1978, with respect to amounts paid on or after such date for education furnished on or after such date.

Senate amendment

The Senate amendment provides the same effective date as the House bill.

Conference agreement

The conference agreement includes the House provision.

TERMINATION DATE

House bill

The House bill provided that no credit was to be allowed for any taxable year beginning after December 31, 1980.

Senate amendment

The Senate amendment provides that no credit is to be allowed for any taxable year beginning after December 31, 1983.

Conference agreement

The conference agreement provides that no credit is to be allowed for education furnished after December 31, 1981.

PARTICIPATION OF PRIVATE SCHOOL CHILDREN IN ELEMENTARY AND SECONDARY EDUCATION ACT

House bill

No provision.

Senate amendment

The Senate amendment provides for increases in the participation of private school students in programs under titles I and IV of the Elementary and Secondary Education Act of 1965, expands the bypass mechanism, and requires the Comptroller General to study and report on the impact which Federal assistance for, and tuition tax credits with respect to, private elementary and secondary schools may have on public elementary and secondary schools.

Conference agreement

The conference agreement does not include the Senate amendment.
